The Economy

Due to continued global economic slow-down coupled with the poor performance of the domestic sector the Indian economy witnessed a growth of 5%, the lowest in the last ten years. High level of inflation and the continued depreciation of rupee resulted in reduction of disposable incomes of household which significantly impacted the growth in the consumer durables segment and discretionary spends.

Despite the adverse factors persisting in the Indian economy your Company has indeed fared very well. I am pleased to inform you that your Company ended fiscal year 2012-13 with income growth of 14.3% and net profit growth of 20.8%. This was made possible by aggressive network expansion, introduction of new categories and collections of products and through innovative marketing.

Performance & Outlook

In the last fiscal year the Watches Division of Titan registered a 9% value growth in sales despite a sluggish economy, poor consumer sentiment and a retail market over-run with products on deep discounts. Though Titan has a significant presence in the organized watch market in India, it faces competition from international fashion brands and also there are risks associated with the depreciating value of rupee. It is pertinent to note that Middle India is emerging as a big growth opportunity for marketing and selling watches with the increasing access of technology. Your Company strengthened its international market presence in 32 countries, entering two major growing markets this year- Philippines and Indonesia.

Accessories marketed by your Company have grabbed many eye-balls and is estimated to be twice the size of the watches market. Fastrack with its splendid collection of sun glasses, bags, belts and wallets continues to grow stronger as a brand amongst the youth.

Consumer satisfaction and meeting the needs of the consumers is of utmost importance for Titan. Towards this, the Company is setting up a new manufacturing plant in Coimbatore, Tamil Nadu to manufacture high-end stainless steel cases with technology from Seiko Epson Corp, Japan. Further, the Company's Innovege cell is working relentlessly to develop new technologies to meet consumer needs.

Fiscal year 2012-13 was a satisfying year for your Company's Jewellery Division. The Division's profit growth was among the highest, taking the EBIT (Earnings before interest and tax) margin beyond the 10% mark breaking all the previous records, even though the sales growth was low. This success has been achieved in the backdrop of volatility in the price of gold, several government regulations and emergence of many regional players. This milestone was made possible with unique strategies and manufacturing initiatives, rapid network expansion and innovative marketing.

Your Company's Eyewear Division is relatively new, but has already established itself firmly in the hearts and minds of its consumers. The growth of national chains in 2012-13 was overshadowed by the growth of the new full service hospital chains. What is commendable is that the 'Titan Eye+' brand is progressing towards its rightful place in the consumer's mind as per the latest brand health study. To add on, as per latest research, 75% of customers felt truly loyal towards the brand both in attitude i.e. positive perception & behaviour i.e. commitment to make a repeat purchase. Titan Eye+ has the largest optical retail network in India.

Titan Eye+ strives to be not only the largest, but the most desirable eyewear solution provider in the country. And to achieve this end it focuses on innovation and new products. The new range of frames 'Trendz' and 'Titan Ace' lenses have received an overwhelming response in the market. Also the launch of 'Vision Check' - a self administered online eye screening test has created a revolution.

Significant initiatives launched for the benefit of all our customers include the launch of a dedicated e-commerce initiative for all our brands and products and the integration of all customer loyalty programs into one named Encircle. These initiatives promise to further improve customer delight and add to growth and profits in the future.

Ladies and Gentlemen, I am delighted to share with you the fact that your Company's Precision Engineering Division has grown stronger on both turnover and profits. The business is making its presence felt globally for its quality and delivery. The Division has also positioned itself as a premium solutions provider and has proved to be a successful dependable partner. The Company sees bright future for this business and will endeavour to achieve improved performance in the future.

Since inception the strategy of this Company has been one of transforming unorganised sectors through a relentless consumer focus. Be it watches, jewellery or eyewear, the Company has influenced the industry practices significantly by introducing quality products at reasonable prices to Indian Consumers. The Company's total annual contribution towards government's exchequer in the form of customs and excise duties, commercial taxes and income tax is about Rs. 1113 crores during the year 2012-13.

However large sections in the industry segments in which the Company operates are unorganised with very little tax collection and suspect product quality. The 'unfair' cost advantage that such unorganised players enjoy is detrimental to industrial progress and against public interest. Both Central Government and State Governments agencies need to accord top priority to ensuring compliance with the laws of the land that can result in a more level playing field.

Retail Network

The success and growth of your Company is reflected in its pan-India presence and its aggressive expansion to reach each and every corner of India. With over 969 retail stores across a carpet area of over 1.3 million sq.ft. your Company has India's largest specialty retail network spanning over 200 towns.

Human Resource

The immensely talented human resource is the soul of your Company. The Company continued to give emphasis to its "people first" policy and it reported one of the industry's lowest attrition rates being 6.4%. The Company focused on training and development programmes for its employees which resulted in high engagement and exposure to new opportunities. Apart from the earlier online learning initiatives, the Company launched an e-learning portal this year in product training for sales people.

Corporate Social Responsibility

Your Company attaches high importance to both means and ends to ensure that whatever it does, it must contribute to the economic and social development of India. Titan has time and again taken vibrant initiatives as a part of its Corporate Social Responsibility. To name a few - Titan Kanya: educating the girl child, Titan Scholarships: based on need and merit, Meadows: women empowerment programme, Skill development: basic training centers and Unnati, Karigar Park: provide good working conditions for the karigars.

The most recent initiative taken by your Company was for Uttarakhand Calamity. Your Company and its employees together contributed Rs. 75 lakhs towards Uttarakhand Relief to ensure speedy, efficient and effective relief.

Awards and Recognition

Ladies and Gentlemen, I am pleased to draw your attention to the awards and recognitions received. Significant among these were the 'Best Governed Company Award' from Asian Centre for Corporate Governance and the Skeletal Edge watch won the coveted 'Red Dot Award' for the design. Your Managing Director, Mr. Bhaskar Bhat won two prestigious awards. He won the 'Transformational Leader of the Year Award' instituted by AIIMA and he also received the 'CEO of the Year Award' from Business Standard. My hearty congratulations to Mr. Bhaskar Bhat and his team for winning such esteemed awards and recognitions.
