TCS launches new centre in Patna to create new opportunities as part of #Digital India push

New BPS Centre Inaugurated by Union Electronics and IT Minister Ravi Shankar Prasad

INDIA, Patna, May 11, 2017: Tata Consultancy Services, (TCS), (BSE: 532540, NSE: TCS) a leading global IT services, consulting and business solutions organisation, has set up a Business Process Service (BPS) centre in Patna under the India BPO Promotion Scheme (IBPS), envisaged under Digital India Programme to leverage IT industry's growth to create new opportunities for India's talent and drive inclusive growth.

The TCS centre was inaugurated today by Hon'ble Union Minister **Shri Ravi Shankar Prasad**, Minister of Law & Justice and Minister of Electronics and Information Technology, Government of India.

The TCS centre in Patna is one of three such BPS centres being set up by TCS; with the other two located at Varanasi in Uttar Pradesh and Nashik in Maharashtra.

The Business Process Services unit of TCS is among the largest in the country with annual revenues of over \$ two billion dollars. It works with customers on core-industry specific processes, delivers analytics and insights as well as enterprise services such as finance and accounting, HR and supply chain management. TCS complements its experience and expertise with innovative delivery models such as robotic automation and providing Business Processes as a Service (BPaaS). With four decades of global experience and a delivery footprint spanning six continents, TCS is one of the largest BPS providers globally today.

Commenting on the launch of the TCS Patna centre, **Rajesh Gopinathan, CEO & MD** said, "The launch of the new centre in Patna is aligned with the government's ambitious IBPS scheme, aimed at creating thousands of new jobs driven by technology and taking the IT revolution beyond the metros. The TCS center is a state-of-the-art facility with robust administrative and technology infrastructure that will drive new opportunities for business and jobs and help build an IT eco-system in the region."

TCS has been working closely with several large customers to redefine the processes of their business to deliver a superior experience to their end customers. The BPS enterprises seek to drive business growth and agility through innovation in an increasingly regulated, competitive, and global market. TCS helps clients achieve these goals by managing and executing their business operations effectively and efficiently.
