## Wipro Opens Automotive Engineering Center in Detroit

**Detroit, USA and Bangalore, India – March 15, 2017:** Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO), a leading global information technology, consulting and business process services company, today announced the opening of an Automotive Engineering Center (AEC) in Detroit. The center aims to drive innovation in connected vehicle concepts - design, product engineering, digital customer-vehicle experiences, artificial intelligence, and sensors-driven advanced vehicle data analytics.

The Wipro's AEC is part of Wipro's vision to build a global network of delivery centers that offer best-in-class engineering and IT services, augmented by leading-edge automotive domain and digital solutions. The center will serve as a hub to support the automotive engineering and IT requirements of Original Equipment Manufacturers (OEMs) and tier-I suppliers, based in North America.

This center will leverage local talent for delivering product design and supporting the development and validation of automotive cockpit electronic products such as navigation systems, connectivity systems, instrument clusters, Head-Up Displays (HUDs), advanced safety systems, vehicle diagnostics and advanced analytics, and end-to-end connected vehicle solutions.

"Wipro is committed to addressing the local and global needs of its engineering customers, and assisting them in gaining both scale and time-to-market advantages," said **Anita Ganti, Senior Vice President and Global Head, Product Engineering Services, Wipro Limited**. "This center, located in the automotive hub of Detroit, will enable us to deliver differentiated connected automotive engineering and innovation-led solutions for our customers."

**Alex Beylin, Vice President and Global Automotive Business Head, Wipro Limited** said, "This center will showcase Wipro's automotive engineering and digital technology capabilities and will also enable effective collaboration within the South-East Michigan automotive community."

Wipro has over two decades of experience in delivering differentiated solutions for leading global automotive electronic tier- I suppliers and OEMs and has been a trusted partner in their digital transformation journey. With its leading-edge automotive product design and engineering expertise in Electronics, Software, Engineering Design Services, Manufacturing Execution Systems, Product Lifecycle Management, Cloud solutions, and Enterprise IT applications management, and remote Infrastructure services, Wipro has been able to deliver products that create unique user experiences with highest levels of reliability.

**Forward-looking and Cautionary Statements**

Certain statements in this release concerning our future growth prospects are forward-looking statements, which involve a number of risks, and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in our earnings, revenue and profits, our ability to generate and manage growth, intense competition in IT services, our ability to maintain our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which we make strategic investments, withdrawal of fiscal governmental incentives, political instability, war, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property, and general economic conditions affecting our business and industry. Additional risks that could affect our future operating results are more fully described in our filings with the United States Securities and Exchange Commission. These filings are available at [www.sec.gov](http://www.sec.gov). We may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. We do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.
