#### Governance, leadership and oversight

Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements (listed entity has flexibility regarding the placement of this disclosure)

It gives us pleasure to present our 1st Business Responsibility and Sustainability Report (BRSR) for the year 2022-23. This report reflects our commitment and some of our initiatives and practices in pursuit of our long standing commitment to ESG. This report prepared in accordance with the nine principles of 'National Guidelines on Responsible Business Conduct' (NGRBCs), outlines our sustainability performance, which we have strived to achieve backed by the solid foundation of our integral values. It also elucidates our interventions which are aligned to fulfill our commitment towards the UN Sustainable Development Goals (SDGs).

Care for the environment is one of our core focus areas as we continue to contribute in shaping a better future, which is safe, inclusive and sustainable. Furthermore, we have designed business strategies that incorporate social well-being in everything we do. Our responsibility towards our stakeholders is deeply ingrained in our way of doing business since the founding days of the Company. This was evident during the pandemic when many of our employees came at the forefront to volunteer in COVID relief measures for the larger community. To augment government efforts, we initiated production of sanitizers at our distillery units and accelerated the production of disinfectants at our manufacturing sites, to support government agencies, hospitals, NGOs and communities at large.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, Shriram Rayons- TUV India Pvt Ltd. Validated emission data as per ISO 14064 part I. The Unit is participating in CDP- carbon disclosure project.

### 7. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

Yes, Shriram Rayons- The Unit has achieved 173% reduction in FY: 2021-22 for combined GHG emission (Scope 1 & 2) against our project target of 40% Reduction than base year(FY: 2025-26). DSW- CO2 bottling plant installed to capture the CO2 gas generated from Distillery fermentation. No such project in DO Unit.

- Briefly describe the waste management practices adopted in your establishments. Describe the strategy
  adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes
  and the practices adopted to manage such wastes.
  - **DSW-** -- Entire waste generated is being treated and utilized to maximum extent. -- All the process chem cals are of food grade catogery. Separate safe storage and handling is adopted for toxic chemicals. **SR-** -- In Order to reduce generation of hazardous waste, following actions has been initiated- -- Installation of decanter at ETP for handling ETP sludge, this will reduce mosture content in sludge thus reducing the overall quantity. -- Switiching to higher capacity carboys in place of smaller for hazardous chemicals thus reducing the hazardous waste generation. **DO**-Authorization and procedure are in place for disposal of various waste generated in facility. Waste generated is disposed to governent Authorized vendor.
- 10. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, SR-TUV India Pvt Ltd. Validated emission data as per ISO 14064 part I.

5. With respect to the ecologically sensitive areas reported at Question 10 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

Not Applicable

6. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions/ effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

| Sr.<br>No | Initiative undertaken  | Details of the initiative (Web-link, if any, may be provided alongwith summary)  | Outcome of the initiative  |
|-----------|--|--|--|
| 1         | Effluent - secondary treatment                                   | Rayons plant kota has implemented a secondary treatment process for effulent waste reduction.  | Much better effluent water quality in comparison to state norms              |
| 2         | Decanter - for sludge moister                                    | Installation of Decanter has been done to control and oversee sludge moister.  | Ease in ETP sludge handling  |
| 3         | Wet Scruber  | Wet scruber has been installed at boilers to reduce stack emission   | STACK emission reduction from boiler   |
| 4         | K K filter   | DSIL has installed K.K.filter in viscose process which is an lensing continous filters. These has substituted the conventional filters resulting in less effluent. | Fresh water consumption & effluent generation has been reduced               |
| 5         | 100% agro based Fuel usage                                       | Company has remarkably reduced the dependency on non renewable fuel usage and shifted on HUSK for generation of electricity.                                       | Significant reduction in emmission   |
| 6         | Improvement in Aeration system at Effluent Treatment Plant (ETP) | Installed high effecency aerators for treatment of effluent  | Treated effluent meeting the norms as prescribed by pollution control board. |
| 7         | High efficiency air pollution control device                     | High efficient air pollution control device ESP followed by Electro gravel precipitator installed in boiler stack.   | Meeting the norms of air emission as prescribed by pollution control board.  |

7. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

Yes,

Shriram Rayons has Emergency Response Plan in place (as part of ISO 14001) that addresses issues related to disaster management. Daurala Organics- The facility has Business continuity plan and Emergency response plan to respond and mitigate the situation like Fire, release of toxic gases, Spillage of chemicals. Regular drills are conducted as per calander. These drills are also performed in front of Government officials as per statutaory requirement. On site Emergency plan prepared by externel Agency and employees participate in Off site emergency drills as and when conducted by Government officials.

8. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

The Company's products are supplied to customer with updated MSDS, and end use does not pose adverse environment impact.

Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

SR- Approx. 20% Critical Raw Material suppliers have been assessed on ISO-9001, ISO-14001 & ISO-45001 standard implementation & practices. No issues have been found so far.

PRINCIPLE 7 Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

# PRINCIPLE 9 Businesses should engage with and provide value to their consumers in a responsible manner

#### Essential Indicators

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

We strictly follow SOP(SOP/PL/09) & MSC (MSC/PL/05/01) for handling the customer complaints & feedback. Physical Test Lab (Dept. Head/Div. Head) is the single point for handling customer communication through marketing team.

Customer complaint or feedback was immediately communicated to all the concerned production & cross functional team for RCA & Quality records. Then RCA & CA identified through brainstorming session with the cross fuctional team. Accordingly, intial report shared with the customer through marketing about our findings which includes Root cause including 8D format, Corrective action & implementation plan.

The same corrective action implemented within time frame & then final communication done with the customer about effectiveness of the corrective action already implemented within 15 days.

Once we receive the complaint from customer, it is forwarded to technical team and reply sent to customers after discussion with the production / technical team. If need be, video conference or visit is planned to sort out the issue. In case any claim issued, sanction is being taken from the management for the payment of the claim.
