We believe that our online gaming will further strengthen our leadership position in the gaming industry. The Company is realising to tap the immense potential in the online gaming Industry and believe it can be a future growth platform.

Last year amongst the many things we did, three key highlights were -

These initiatives have steadily led to increase in quality user acquisition, retention and helped in stabilising new user game play and revenue.

The Year has shown a steady and robust performance vis a vis the previous years and we expect better performance in the years ahead.
