CONSOLIDATED PERFORMANCE : FY17

In INR Mn

- Sales for FY17 declined by 2.2% and stood at Rs.76.8 bn. However, Sales were flattish in constant currency terms
- PAT increased by 2.1% and stood at Rs.12.77 bn.
- Operating margin increased from 19.3% in FY16 to 19.6% in FY17
- Domestic business was impacted because of trade disruption and pipeline correction during demonetisation
- International business faced headwinds because of geo political disturbance in the Middle East and currency volatility in Egypt, Nigeria and Turkey

GST IMPACT

- Netting of GST from sales will reduce topline by around 5%
- No material impact on bottomline as net effect of GST is more or less neutral
- GST roll off has been smooth with all direct channel partners coming on board
- Wholesale trade yet to come back to normalcy; however other channels such as Cash & Carry, Modern Trade, E commerce and Super-Sub networks have picked up
- Trade de-stocking preceding the GST implementation hurt sales in Q1FY18
- However longer term GST should be positive for the sector with increasing compliance and streamlining of logistics and supply chain.
