Broad product spectrum – Automotive Division

INA-FAG catalog with 40,000 articles

Smallest ball bearing with a 1 mm inside diameter

Transaction rationale – Establishing one strong Schaeffler India entity

1 **Leading Indian Automotive and Industrial supplier**

Creating a leading Indian Automotive and Industrial supplier with about INR 35.7 bn in revenues and nearly 3,000 employees

2 **Diversified and high-growth product offering**

Establishing a diversified product offering across the high-growth Automotive and Industrial segments

3 **Revenue and cost synergy potentials**

Realizing revenue and cost synergies by bundling the product offerings, leveraging distribution networks and reducing overhead costs

4 **Creating value for all stakeholders**

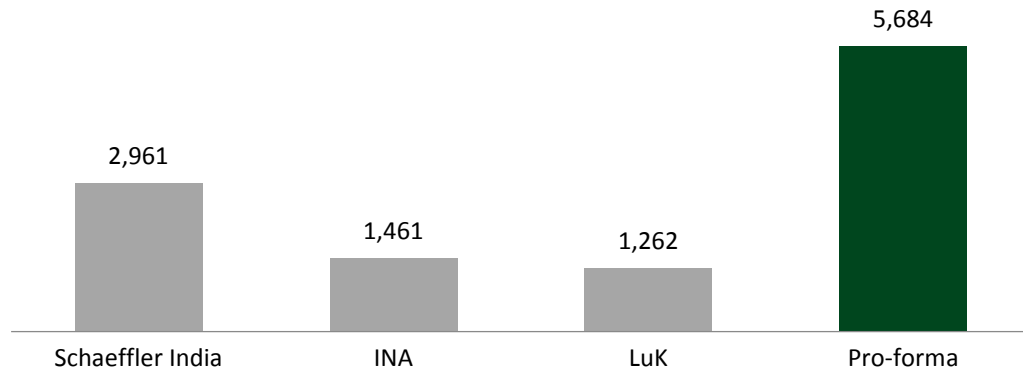

Higher growth and margin expansion to create value for all stakeholders

1 Leading Indian Automotive and Industrial supplier

Revenue (INRm) – CY16

EBITDA¹⁾ (INRm) – CY16

1) Excludes other non-operating income and other income

Leading solutions provider with an all-round presence

- ▶ Combined entity will be one of the biggest automotive component and bearing suppliers in India
- ▶ Within the bearings space, Schaeffler India's range will expand to include needle roller bearings, linear roller bearings and precision spindle bearings
- ▶ On the automotive front, combined entity will have a full range of solutions in engine, transmission and chassis areas
- ▶ Strong capabilities of combined entity to participate in evolving trends of Industry 4.0 and e-mobility through strategy 'Mobility for Tomorrow'

2 Diversified and high-growth product offering – Automotive and Industrial segments (1/2)

Schaeffler India will add high-growth attractive automotive business to its portfolio

India's focus on infrastructure and domestic manufacturing to drive growth

- ▶ **Fast growing Automotive Industry:** Low penetration coupled with high aspiration will drive growth in passenger vehicles. New emission requirements (BS VI in 2020 for example) and transmission automation provides tremendous opportunities for technology companies like Schaeffler. Indian automobile market will be third largest by 2020, overtaking Germany and Japan
- ▶ **Investment in Railways:** US\$128bn investment plan over 2015-19. Two dedicated freight corridors of 3,300 km with estimated capex of US\$50bn, 5 more (estimated 6,100 km) in the works. 12 cities have operating or under construction metro rail systems. Alstom and GE setting up local locomotives manufacturing units
- ▶ **Renewable energy:** 175 GW target renewable capacity by 2022. Wind capacity target of 60 GW by 2022 from the present 30GW – a 2x increase
- ▶ **Rural focus:** Government's push on rural economy will drive growth in two wheelers and tractors

Top customers

3 Revenue and cost synergy potentials – Product and Distribution

OEM Automotive

Clutch package: Clutch release bearing can be packaged with a clutch and clutch release system

Transmission package: Bearings and related products form transmission can be typically sourced as a package

Industrial

Example Steel Mills: Continuous Caster applications

- ▶ Combined entity has better opportunity to bundle its offerings for package deals for OE customers
- ▶ The combined competency allows Schaeffler to demonstrate its system capabilities and participate in evolving trends like e-mobility and Industry 4.0

Aftermarket

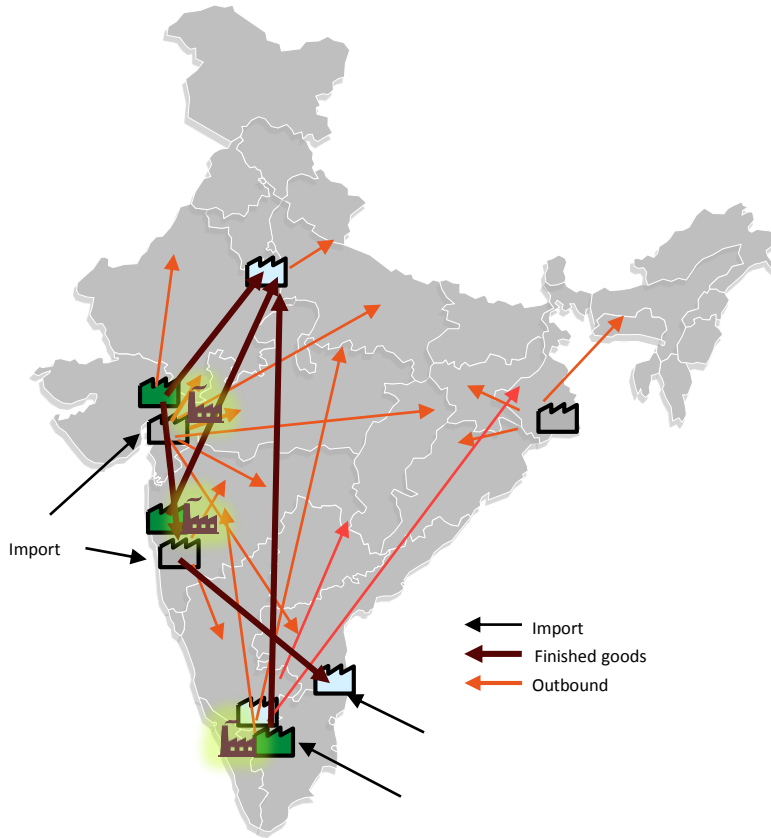

- ▶ Current Distribution network:
- ▶ All 3 entities have dedicated and independent distribution channel
- ▶ Potential to leverage distribution channel to expand the reach

	Schaeffler India	INA	LuK
Industrial	205	30	
Automotive			130

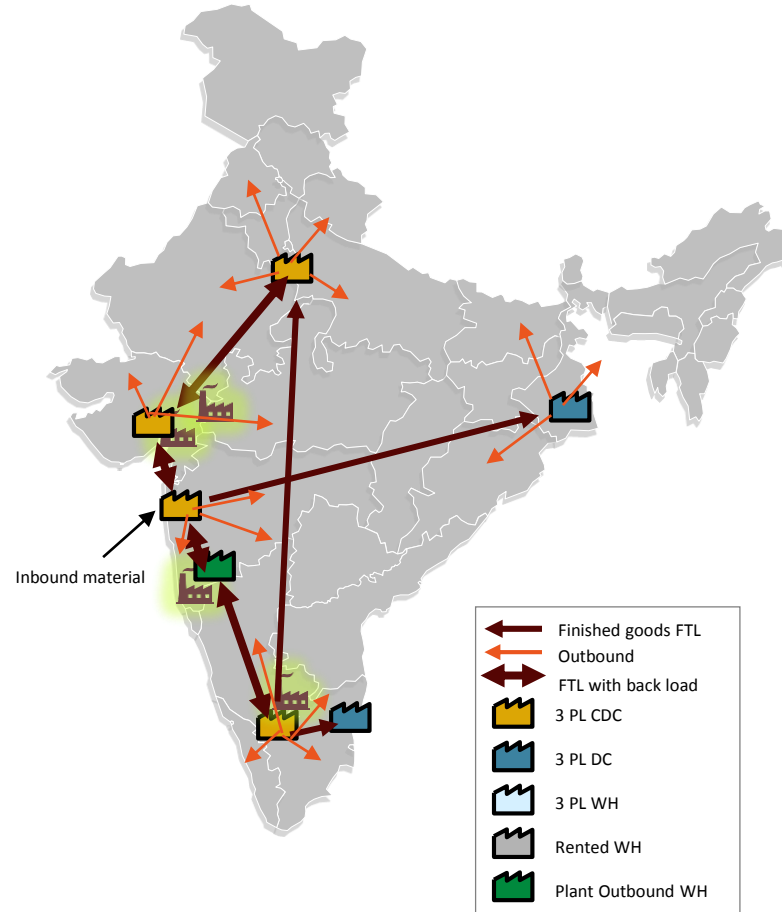

3 Revenue and cost synergy potentials – Optimizing warehousing and freight movement

Current Network

To-Be Network

- ▶ Logistics Concept can be developed by leveraging combined requirements of 3 legal entities and thus creating a positive customer experience through 'One face' approach
- ▶ Consolidation of freight movement, warehouse operations and distribution channels
- ▶ Faster, reliable and reduced costs of freight movements by leveraging volumes of all 3 entities
- ▶ Greater opportunity of maximising Full truck loads, provides control over costs and shipping lead times
- ▶ Operations by 3rd party logistics provider reducing capital investments

Notes: 3 PL – Third party logistics; WH – Warehouse; FTL – Full truckload; DC – Distribution Centre; CDC – Consolidated Distribution Centre

3 Revenue and cost synergy potentials – Efficiency improvements

Sales & Marketing efficiency

- ▶ Re-organization of internal sales team to implement the ‘One Schaeffler India’ and ‘Mobility for Tomorrow’ strategy
- ▶ Field sales force efficiency improvement due to “One face” to customer
- ▶ Consolidated sales offices at major upcountry locations

Administrative efficiency

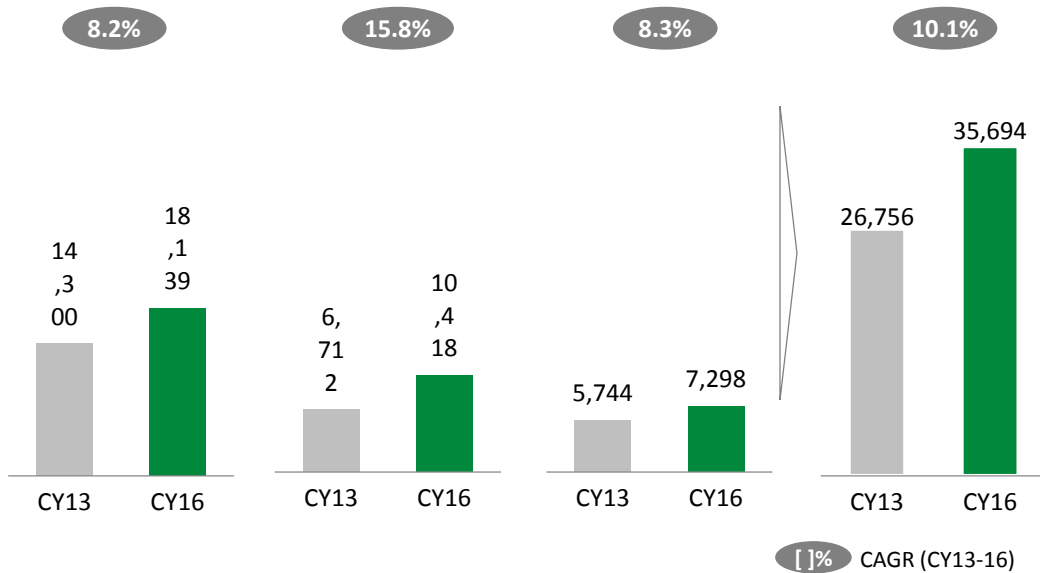

- ▶ Efficiency due to single RfQ, order management, common invoicing and document processing
- ▶ Simplified credit management and sales collection efforts
- ▶ Functional cost efficiency in Finance, HR, IT, procurement and internal sales
- ▶ Ease of implementation of shared services
- ▶ Reduced complexity of compliances due to a single legal entity

4 Creating value for all stakeholders – Higher growth and margin expansion

- ▶ Combined entity (on pro-forma basis) recorded revenue CAGR of 10.1% over CY13-16
- ▶ EBITDA margins for the combined entity improved from 9.3% in CY13 to 15.9% in CY16
