Dear Sirs

Sub: Intimation under Regulation 30 read with Schedule III and other applicable regulations of the SEBI (LODR) Regulations, 2015

...

Our Board at its meeting held on today decided, on the recommendation of its Investment Committee, to revise the capacity of the coal based captive power plant under implementation at its plant at Mattampally from 15 MW to 18 MW for an additional cost of Rs.23.66 crores to be funded through borrowings and internal accruals. Barring unforeseen circumstances, this project is expected to be commissioned by March 2019. Setting-up of the power plant at the above said revised capacity envisages adoption of superior technology with CFBC (Circulating Fluidized Bed Combustion) Boiler, which is economically adapted for CPP of above capacity and would also meet with the latest Regulatory requirements of Sulphur Oxides (**SO<sub>x</sub>**), Nitrogen oxides (**NO<sub>x</sub>**) emission norms.

Further, our Board has also decided to install a 1 MW solar based captive power plant at its above said plant at a cost of Rs.4.70 crores to be met through borrowings and internal accruals and this project, barring unforeseen circumstances, will be commissioned by 30<sup>th</sup> June 2017.

Thanking you

Yours faithfully  
For Sagar Cements Limited

R.Soundararajan  
Company Secretary
