The Group has organized its business into Branded Segment and Non Branded Segment. Branded segment has further been sub-categorised as Branded Tea, Branded Coffee and the residual as Branded Others. Accordingly the company has reported under the aforementioned segments.

The quarter saw a continued focus on innovating for growth, strengthening key brands and partnerships.

In the UK, Tetley launched a range of Super Everyday Teas in the black tea segment, following the success of its Super Green and Super Fruits range. Based on the familiar Tetley original blend, Tetley Everyday Tea Boost has added vitamin B6 and Tetley Super Everyday Tea Immune has added vitamin C. These are the first functional black teas to launch in the UK with European Food Standards Agency-approved health claims relating to tiredness and fatigue and immunity. For the third consecutive year, Tetley in the UK has been recognized in the Great Taste Awards, organized by the Guild of Fine Food. The 2016 edition saw four of Tetley's products receiving a one-star endorsement, rated as 'Simply Delicious.' In India, the majority of tea brands in our portfolio recorded good growth. We remain market leaders in the branded black tea segment as well as the green tea segment.

Eight O' Clock coffee in the USA introduced the Brazilian Breakfast blend which was well received by the trade. The MAP coffee brand in Australia posted growth in coffee pods due to increased sales in the grocery segment. Tata Starbucks continues to expand steadily in India and currently has 84 stores across 7 cities. For the first time, Starbucks in the US will offer a single-origin coffee from India, giving customers from outside the country a unique opportunity to experience a rare, small-lot coffee from the Tata Coffee Nullore Estates located in Coorg.

Tata Gluco Plus, a glucose based beverage available in 5 exciting flavours, recorded significant growth during the quarter aided by distribution expansion and media support. Himalayan natural mineral water recorded good growth, due to growth in traditional trade, e-commerce channels and key accounts.
