Management Statement

Arun Jain

Chairman & Managing Director,
Intellect Design Arena Limited

It is no coincidence that in this quarter we have won three large transformation deals including one from Europe. That large customers have trusted us with transformation of their core business is a proof of the robust engineering capability that we have built. The investments that we have made have given our Products a Digital edge and if we participate in a deal we find ourselves invited to the negotiation table more often than not.

S Swaminathan

Chief Financial Officer,
Intellect Design Arena Limited

In the current environment of global volatility, I am pleased to observe that we have delivered growth in this quarter. Our Portfolio approach to business provides us the assurance of growth. Given the pay off of a portfolio approach, we would continue to make investments to build deeper moats around our products. Indeed such a strategy requires more investments than a single product company. We would shortly raise more funds to fuel this growth.
