Akhil Gupta, Chairman, Bharti Infratel Limited, said:

"The spectrum auctions in March 2015 was a significant event for the Telecom industry. The leading operators have not only renewed their existing spectrum but also acquired new spectrum for next 20 years. Most of the new spectrum will be used for 3G and 4G rollouts in future. Since 2010, the operators have spent nearly USD 50 Bn on spectrum alone. The growth in data uptake and the need to monetize this investment at the earliest has already led to a step-up in the rollout of data networks. This momentum is expected to accelerate further in coming years. We are entering a phase of high growth and Bharti Infratel is aligned to the operator's requirement of increased network rollouts."
