Re: Company Scrip Code: 503699

Sub: Geodesic's Updates

Dear Sir/Madam,

We are pleased to announce that its flagship application, Mundu IM, is now available natively on the Apple iPhone OS platform, for devices that include the iPhone, iPod Touch and iPad.

This marks the formal adoption of the native iPhone platform by Geodesic, and is the advance guard for a number of other applications that will be released on this platform. On the day of the iPhone launch in June 2007, Geodesic had released Mundu IM as a web-based application for iPhone OS devices at <http://iphone.mundu.com>, making it the first iPhone IM application available

This release - Mundu IM OSE (Open Standards Edition) - is available free of charge, and is immediately available for download from the Apple iTunes AppStore at <http://itunes.apple.com/in/app/mundu-im-ose/id360086967?mt=8>

Thanking You,,

Yours faithfully,
For **Geodesic Limited**

Swati Gupta
Company Secretary
