SECTION II - RISK FACTORS

An investment in the Equity Shares involves a high degree of risk. You should carefully consider all the information in this Draft Prospectus, including the risks and uncertainties summarised below, before making an investment in our Equity Shares. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of this offer including the merits and risks involved. Any potential investor in, and subscriber of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment in which some material aspects may be different from that which prevails in other countries. The risks and uncertainties described in this section are not the only risks and uncertainties we currently face. Additional risks and uncertainties not known to us or that we currently deem immaterial may also have an adverse effect on our business. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations and financial condition could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment. Additionally, our business operations could also be affected by additional factors that are not presently known to us or that we currently consider as immaterial to our operations.

Unless stated otherwise, in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. To obtain a complete understanding, you should read this section in conjunction with the chapters titled “Our Business”, on page 86, “Industry Overview” on page 79 and “Management’s Discussion and Analysis of Financial Condition and Results of Operations”, on page 151 of this Draft Prospectus, as well as other financial information contained herein.

The following factors have been considered for determining the materiality of Risk Factors:

- *Some events may not be material individually but may be material when considered collectively;*
- *Some events may have an impact which is qualitative though not quantitative;*
- *Some events may not be material at present but may have a material impact in the future.*

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence the same has not been disclosed in such risk factors. Unless otherwise stated, the financial information of the Company used in this section is derived from our financial statements under Indian GAAP, as restated in this Draft Prospectus. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned herein. For capitalized terms used but not defined in this chapter, refer to the chapter titled “Definitions and Abbreviations” beginning on page 1 of this Draft Prospectus. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.

The risk factors are classified as under for the sake of better clarity and increased understanding:

Internal Risk Factors

A. Business Risk

- 1. Our Company, Promoters, Directors and Group Entities may be party to certain legal proceedings. Any adverse decision in any such material proceedings may have an adverse effect on our business, results of operations and financial condition.**

Except as mentioned below there are no legal proceedings by or against our Company, Promoters, Directors or Group Entities. A classification of litigations as on date of filing of this Draft Prospectus is mentioned below:

Name	Particulars	No of Cases of Income Tax	Consolidated Amount Involved
Dolfin Rubbers Limited	Company	2	Rs. 3.45 Lakh
Kawaljit Singh	Promoter & Whole Time Director	5	Rs. 1.02 Lakh
Ratinder Kaur	Promoter & Whole Time Director	1	Rs 0.32 Lakh

For further details regarding these legal proceedings, please refer “*Outstanding Litigations and Material Developments*” on page 158 of this Draft Prospectus

- The price, at which we are able to obtain the Raw Material for manufacture of our finished products depend largely on prevailing market prices. Increase in costs of our raw materials could have a material adverse effect on our Company’s sales, profitability and results of operations.**

Our Company is dependent on third party suppliers for procuring raw materials. We are exposed to fluctuations in the prices of these raw materials as well as its unavailability, particularly as we typically do not enter into any long-term supply agreements with our suppliers and our major requirement is met in the spot market. We may be unable to control the factors affecting the price at which we procure the materials. We also face the risks associated with compensating for or passing on such increase in our cost of production on account of such fluctuations in prices to our customers. Upward fluctuations in the prices of raw material may thereby affect our margins and profitability, resulting in a material adverse effect on our business, financial condition and results of operations. Though we enjoy favourable terms from the suppliers both in prices as well as in supplies, our inability to obtain high quality materials in a timely and cost-effective manner would cause delays in our production and delivery schedules, which may result in the loss of our customers and revenues.

- Our business depends heavily on our reputation and consumer perception of our brand, and any negative publicity or other harm to our brand or failure to maintain and enhance our brand recognition may materially and adversely affect our business, financial condition, results of operations and cash flows.**

We believe that our reputation and consumer perception of our brand are critical to our business. Maintaining and enhancing our reputation and brand recognition depends primarily on the quality and consistency of our products and services, as well as the success of our marketing and promotional efforts. We believe that maintaining and enhancing our brand is essential to our efforts to maintain and expand our customer base. If customers do not perceive our products or services to be of high quality, our brand image may be harmed, thereby decreasing the attractiveness of our products. Our ongoing marketing efforts may not be successful in further promoting our brand. In addition, our brand image may be harmed by negative publicity relating to us or India ‘s tube manufacturing industry regardless of its veracity. If we are unable to maintain and further enhance our brand recognition and increase market awareness for us and our products, our ability to attract and retain customers may be impeded and our business prospects may be materially and adversely affected.

- Our company is not able to trace some of our old corporate records which are required to be submitted with RoC. Further we have not made certain filings with the Registrar of Companies in the past for which we may be subject to regulatory action.**

Our Company is unable to trace certain corporate records prior to April 2006 such as increase of the authorized share capital filed with the Registrar of Companies dated September 23, 1996 and prescribed forms filed relating to certain allotments of our equity shares dated October 25, 1996, March 31, 1997, December 23, 1998 and September 29, 2001. The relevant documents are also not available at the office of the Registrar of Companies- Punjab, Himachal Pradesh & Chandigarh as certified by Narang G & Associates, Practicing Company Secretaries vide certificate dated

April 28, 2018. The disclosures pertaining to the aforementioned matters currently made in this Draft Prospectus are on the basis of statutory register of members, minute book of our Company.

The Company has filed the return of allotment with the Registrar of Companies for allotments made on December 21, 2006/ March 31, 2011/ January 25, 2010 and March 03, 2010 with additional fees via challans dated June 05, 2018 & June 13, 2018 bearing SRN: G88733175/G88733803/G89358485 and G89357834 respectively. The Company has filed compounding application with NCLT and Registrar of Companies for aforesaid delays.

Our company has not filed couple of Forms such as CHG1 for creating charge on vehicles financed from Banks or Financial Institutions, SH7 and MGT14 for reclassification of shares in authorised capital.

Our company is unable to trace most of the challans of ROC filing therefore we are not able to ascertain that was there any delay in submission of forms.

We have not received any notices by the RoC or any other statutory authority with respect to the above mentioned non-compliances and delays however these may result in penalties or other action against our Company and its Directors in future. Further our Company has appointed whole time Company Secretary and is in the process of setting up a system to ensure that requisite filing and compliances are done within the applicable time lines

5. We are dependent on few suppliers for uninterrupted supply of raw materials. Any disruption in supply of raw materials from these suppliers will adversely affect our operations.

We are highly dependent on the suppliers of raw material for our products. We procure our raw materials from various domestic and international suppliers depending upon the price and quality of raw materials. However, our few suppliers contribute significantly to supply of raw materials. While our company believe that we would not face difficulties in finding additional suppliers of raw materials, any disruption of supply of raw materials from these suppliers or our procurement of raw materials at terms not favorable to us can adversely affect our operations and financial cost.

6. We have not entered into contract with some of our distributors. If our distributors choose not to buy their products from us, our business, financial condition and results of operations may be adversely affected.

We have not entered into any contract with some of our distributors. Consequently, there is no commitment on the part of the distributor to continue to source their requirements from us, and as a result, our sales from period to period may fluctuate significantly as a result of changes in our distributors vendor preferences. Any failure to meet our distributor's expectations could result in reduction in sales. There are also a number of factors other than our performance that are beyond our control and that could cause the loss of a distributor. Distributors may demand price reductions, set-off any payment obligations, require indemnification for themselves or their affiliates, any of which may have an adverse effect on our business, results of operations and financial condition.

7. Major portion of our revenue depends upon our few customers. The loss of any one or more of our major customers would have a material adverse effect on our business operations and profitability.

We have few customers who contributes a substantial portion to our revenue. However, the composition and revenue generated from these customers might change as we continue to add new customers in normal course of business. Any decline in our quality standards, growing competition and any change in the demand for our services by these customers may adversely affect our ability to retain them. We believe we have maintained good and long-term relationships with our customers. However, there can be no assurance that we will continue to have such long-term relationship with them also any delay or default in payment by these customers may adversely affect our business, financial condition and results of operations. We cannot assure that we shall generate the same quantum of business, or any business at all, from these customers, and loss of business from one or more of them may adversely affect our revenues and profitability.

8. Our Company had negative cash flow in the last financial year, details of which are given below. Sustained negative cash flow could adversely impact our business, financial condition and results of operations.

The detailed break up of cash flows is summarized in below mentioned table and our Company has reported negative cash flow in certain financial year and which could affect our business and growth:

(Rs.in lakh)

Particulars	For the period ended January 31, 2018	For the Financial Year ended March 31		
		2017	2016	2015
Net Cash Flow from/ (used in) Operating Activities	290.92	(7.81)	358.08	475.96
Net Cash Flow from/ (used in) Investing Activities	(109.28)	(304.52)	(99.75)	(101.69)
Net Cash Flow from/ (used in) Financing Activities	(167.37)	182.94	(210.14)	(329.48)

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. Our inability to generate and sustain adequate cash flows in the future could adversely affect our results of operations and financial condition. For further details, refer “*Financial Statements*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 125 and 151, respectively.

9. Our company is not able to trace some of our old corporate records which are required to be submitted with RoC. Further we have not made certain filings with the Registrar of Companies in the past for which we may be subject to regulatory action.

Our Company is unable to trace certain corporate records prior to April 2006 such as increase of the authorized share capital filed with the Registrar of Companies dated September 23, 1996 and prescribed forms filed relating to certain allotments of our equity shares dated October 25, 1996, March 31, 1997, December 23, 1998 and September 29, 2001. The relevant documents are also not available at the office of the Registrar of Companies- Punjab, Himachal Pradesh & Chandigarh as certified by Narang G & Associates, Practicing Company Secretaries vide certificate dated April 28, 2018. The disclosures pertaining to the aforementioned matters currently made in this Draft Prospectus are on the basis of statutory register of members, minute book of our Company.

The Company has filed the return of allotment with the Registrar of Companies for allotments made on December 21, 2006/ March 31, 2011/ January 25, 2010 and March 03, 2010 with additional fees via challans dated June 05, 2018 & June 13, 2018 bearing SRN: G88733175/G88733803/G89358485 and G89357834 respectively. The Company has filed compounding application with NCLT and Registrar of Companies for aforesaid delays.

Our company has not filed couple of Forms such as CHG1 for creating charge on vehicles financed from Banks or Financial Institutions, SH7 and MGT14 for reclassification of shares in authorised capital.

Our company is unable to trace most of the challans of ROC filing therefore we are not able to ascertain that was there any delay in submission of forms.

We have not received any notices by the RoC or any other statutory authority with respect to the above mentioned non-compliances and delays however these may result in penalties or other action against our Company and its Directors in future. Further our Company has appointed whole time Company Secretary and is in the process of setting up a system to ensure that requisite filing and compliances are done within the applicable time lines

10. Trade Receivables form a substantial part of our current assets. Failure to manage our trade receivables could have an adverse effect on our net sales, profitability, cash flow and liquidity.

We are engaged in tube manufacturing industry and our distribution network is through the distributors. Our business is working capital intensive and hence, trade receivables form a substantial part of our current assets thereby effecting our complete cycle completely. The results of operations of our business are dependent on our ability to effectively manage our trade receivables and receiving their payments on time.

To effectively manage our trade receivables, we must be able to accurately evaluate the credit worthiness of our customers and ensure that suitable terms and conditions are given to them in order to ensure our continued relationship with them. However, if we fail to accurately evaluate the credit worthiness of our customers, it may lead to bad debts, delays in recoveries and / or write-offs which could lead to a liquidity crunch, thereby adversely affecting our business and results of operations. A liquidity crunch may also result in increased working capital borrowings and, consequently, higher finance cost which will adversely impact our profitability.

11. Continued operations of our manufacturing facilities are critical to our business and any disruption in the operation of our manufacturing facilities may have a material adverse effect on our business, results of operations and financial condition.

Our manufacturing facilities are subject to operating risks, such as unavailability of machinery, break-down, obsolescence or failure of machinery, disruption in power supply or processes, performance below expected levels of efficiency, labour disputes, natural disasters, industrial accidents and statutory and regulatory restrictions. In the event of a breakdown or failure of such machinery, replacement parts may not be available and such machinery may have to be sent for repairs or servicing. This may lead to delay and disruption in our production process that could have an adverse impact on our sales, results of operations, business growth and prospects.

12. Our main operations may be adversely affected in case of industrial accidents at our manufacturing unit and also Rubber is a combustible commodity which may lead to any fire mishaps or accidents could lead to property damages, property loss and accident claims.

Usage of machinery, handling of materials by labour during production process or otherwise, lifting of materials by humans, cranes, heating processes of the furnace etc. may result in accidents, which could cause injury to our labour, employees, other persons on the site and could also damage our properties thereby affecting our operations. Any such occurrence of accidents could hamper our production and consequently affect our profitability.

Rubber being a combustible commodity, every stage from procurement, processing, storage and transportation to final dispatch is fraught with an imminent danger of an instant fire. The risk of fire hazard is increased due to increased automation and use of large volume of air for material handling. Any spark generated can not only generate fire but also the same could propagate to other machines through spread of fire by rubber 's flammability. Though we have taken insurance policy to cover damage caused by fire however, the cover may not be adequate to the loss suffered.

13. We require a number of approvals, NOCs, licenses, registrations and permits in the ordinary course of our business and any failure or delay in obtaining such approvals or renewal of the same in a timely manner may adversely affect our operations.

We require a number of approvals, licenses, registrations and permits in the ordinary course of our business. Additionally, we may need to apply for renewal of approvals which expire, from time to time, as and when required in the ordinary course. Any failure to apply for and obtain the required approvals, licenses, registrations or permits in a timely manner, or any suspension or revocation of any of the approvals, licenses, registrations and permits would result in a delay in our business operations which could otherwise adversely affect our financial condition, results of operations and prospects of the Company.

For further details, please refer the Chapter "*Government and Other Approvals*" on page 163 of this Draft Prospectus.

14. Our Company has not complied with Section 203 of the Companies Act 2013 regarding appointment of a whole time Company Secretary as well as we failed to comply with erstwhile Section 256 of Companies Act 1956 & Section 152(6) of the Companies Act, 2013 about ascertainment of directors retiring by rotation and filing the vacancy for which we may be subject to regulatory actions.

As per Section 203 of the Companies Act, 2013 read with Rule 8A of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, every company having prescribed paid-up share capital and above shall appoint a whole time Company Secretary. Though our Company appointed Nancy Singla on and with

effect from November 01, 2017 as a whole time Company Secretary of our Company, we had inadvertently failed to comply with the said section within stipulated time as the company had to appoint the same before June 28, 2017.

As per Section 256/152(6) of the Companies Act, 1956/2013 the company shall ascertain the director who retires by rotation, though we have complied with the section from the financial year 2014-15 onwards.

The above non-compliances by our Company may attract penalties or other regulatory actions which may affect the performance of the Company.

15. Our Company does not have a listed peer which is involved in manufacturing of only tubes for vehicles for comparison of performance and therefore, investors must rely on their own examination of accounting ratios of our Company for the purposes of investment in the Issue.

As of the date of this Prospectus, there is no company which is involved in manufacturing of only tubes for vehicles and also listed on the Indian stock exchanges and accordingly, we are not in a position to provide comparative analysis of our performance with any listed company. Therefore, investors must rely on their own examination of accounting ratios of our Company for the purposes of investment in the Issue.

16. We have not obtained registration under shops and establishment regulation for our registered office.

We manage our operations of the business through our registered office which is required to be registered under the shops and establishment regulation. However, we have not obtained such registration under the shop and establishment regulation and thus, we may be subject to certain actions and / or penalties by the regulatory authority.

17. Our industry is labour intensive and our business operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees or those of our suppliers.

Our industry being labour intensive is highly dependent on labour force for carrying out its manufacturing operations. Shortage of skilled/unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. Shortage of skilled/unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. To maintain a lower attrition rate among the employees, we issue various in-house facilities to the employees. Although we have not experienced any major disruptions in our business operations due to disputes or other problems with our work force in the past, there can be no assurance that we will not experience such disruptions in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management's attention and result in increased costs.

18. Our Company's failure to maintain the quality standards of the products could adversely impact our business, results of operations and financial condition.

Our products depend on customer's expectations and choice or demand of the customer. Any failure to maintain the quality standards may affect our business. Although we have put in place strict quality control procedures, we cannot assure that our products will always be able to satisfy our customers' quality standards. Any negative publicity regarding our Company, or products, including those arising from any deterioration in quality of our products from our vendors, or any other unforeseen events could adversely affect our reputation, our operations and our results from operations. Thus, our failure to anticipate or to respond adequately to changing technical, market demands and/or consumer requirements could adversely affect our business and financial results.

19. Our Company is mainly manufacturing and selling our products under the registered trademark of "Dolfin" and some products are being sold under the brand name "Wilson" which is a registered trade mark of third party, who has given the consent to use the brand name which may be withdrawn by him.

Our Company is mainly manufacturing and selling the products under its own registered trademark "Dolfin" however miniscule sale is from the products being manufactured under the brand "Wilson" for which our Company has taken the consent from the owner of the trademark for indefinite period which may be withdrawn by him by

giving six months advance notice, however no specific terms have been defined through any agreement. Further our Company does not keep the records separately for both the brands. In case of withdrawal of “Wilson” trademark by the owner it may impact on Company's business and revenue.

20. We face intense competition since our Company operates in a highly competitive industry and competition may have a negative impact on our business prospects, future performance and financial condition.

The market for our products is competitive on account of both the organized and unorganized players. Players in this industry generally compete with each other on key attributes such as technical competence, quality of products, distribution network, pricing and timely delivery. Some of our competitors may have longer industry experience and greater financial, technical and other resources, which may enable them to react faster in changing market scenario and remain competitive. Moreover, the unorganized sector offers their products at highly competitive prices which may not be matched by us and consequently affect our volume of sales and growth prospects. Growing competition may result in a decline in our market share and may affect our margins which may adversely affect our business operations and our financial condition.

21. We are subject to foreign currency exchange rate fluctuations which could have a material and adverse effect on our results of operations and financial conditions.

The principal raw materials used to manufacture our products are synthetic rubber, butyl rubber and EPDM rubber which are imported from Russia, Singapore and Japan. Simultaneously, we do export our products in international markets which has started generating export revenue. These import and export transactions are done in foreign currency. Changes in value of these currencies with respect to INR may cause fluctuations in our operating results expressed in Rupees. The exchange rate between the Rupee and other currencies is variable and may continue to fluctuate in future and may affect our Company to the extent of cost of goods and sales in foreign currency terms. Any adverse or unforeseen fluctuations with respect to the unhedged exchange rate of any foreign currency for Indian Rupees may affect our Company's profitability.

22. Our indebtedness and the conditions and restrictions imposed by our financing arrangements could adversely affect our ability to conduct our business and operations.

Pursuant to the financing arrangement by us with the bankers, we are required to obtain consents from the respective bankers to undertake certain actions. Some of these agreements contain restrictive covenants, including, but not limited to, requirements that we obtain written consent from lenders prior to issuing new shares, incurring further debt, creating further encumbrances on our assets, effecting any scheme of expansion/business. Although we have generally not encountered difficulties in obtaining consent from the financial institutions for desired actions in the past, there can be no assurance that we will be able to comply with these covenants or that we will be able to obtain the consents necessary to take the actions we believe are required to operate and grow our business no assurance can be given that such consent will be granted in the future.

23. Contingent liabilities could adversely affect our financial condition. Crystallization of any of these contingent liabilities may adversely affect our financial condition.

As of January 31, 2018, our contingent liabilities as indicated in our Restated Financial Statements and also certified by our statutory auditors were as follows:

Sr. No.	Particulars	Remarks	Amount Outstanding As on January 31, 2018
1.	Foreign Letter of Credit (FLC) Limits availed from YES Bank Limited	Limits availed for the purpose of importing Raw Material	Rs 127.15 lakh
2.	Income Tax Demand	For the Assessment Year 2004-05	Rs 1.90 lakh
3	Income Tax Demand	For the Assessment Year 2005-06	Rs 1.55 lakh

In the event that any of our contingent liabilities materialize, our business, financial condition and results of operations may be adversely affected. Furthermore, there can be no assurance that we will not incur similar or increased levels of contingent liabilities in the current fiscal year or in the future.

24. Failure to manage our inventory could have an adverse effect on our net sales, profitability, cash flow and liquidity

The results of operations of our business are dependent on our ability to effectively manage our inventory and stocks. To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirements and manufacture new inventory accordingly. If our management has misjudged expected customer demand it could adversely impact the results by causing either a shortage of products or an accumulation of excess inventory. Further, if we fail to sell the inventory we manufacture or get manufactured by third parties on our account, we may be required to write-down our inventory or pay our suppliers without new purchases or create additional vendor financing, which could have an adverse impact on our income and cashflows.

25. We have not identified any alternate source of raising the funds mentioned as our ‘Objects of the Issue’. Any shortfall or delay in raising / meeting the same could adversely affect our growth plans, operations and financial performance.

Our Company has not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds can adversely affect our growth plan and profitability. The delay/shortfall in receiving these proceeds could result in inadequacy of funds for working capital cycle or may result in us borrowing funds on unfavourable terms, both of which scenarios may affect the business operation and financial performance of the company.

26. Our lenders have imposed certain restrictive conditions on us under our financing arrangements. Further as on the date of the Draft Prospectus our Company has not received “No-objection” certificate from some of our lenders to undertake this Issue. Non-receipt of such “No-Objection” certificate could lead to noncompliance of the terms of loan agreements entered into by our Company with said lenders.

We have entered into agreements for availing debt facilities from our lender Yes Bank. Certain covenants in these agreements require us to obtain permission from our lenders in certain conditions, like any change in the management or the capital structure. In the event of default or the breach of certain covenants, our lender has the option to make the entire outstanding amount payable immediately. There can be no assurance that we will be able to comply with these financial or other covenants or that we will be able to obtain consents necessary to take the actions that we believe are required to operate and grow our business.

Further, as on the date of the Draft Prospectus, we have not received “No Objection” certificates from HDFC Bank Limited and Daimler Financial Services India Private Limited who have provided loans for purchase of vehicle. We cannot assure you that such lenders will grant us the “No-Objection” certificate for this Issue. Non-receipt of such “No-Objection” certificate could lead to non-compliance of the terms of loan agreements entered into by our Company with the lenders.

For further details in this regard, please refer chapter titled ‘*Financial Indebtedness*’ beginning on page 149 of this Draft Prospectus.

27. Our lenders have charge over our movable and immovable properties in respect of finance availed by us.

We have secured our lenders by creating a charge over our movable and immovable properties in respect of loans / facilities availed by us from banks and financial institutions. In the event we default in repayment of the loans / facilities availed by us and any interest thereof, our properties may be forfeited by lenders, which in turn could have significant adverse effect on business, financial condition or results of operations. For further details in this regard, please refer chapter titled ‘*Financial Indebtedness*’ beginning on page 149 of this Draft Prospectus.

28. Changes in technology may render our current technologies obsolete or require us to make substantial capital investments

Modernization and technology upgradation is essential to reduce costs and increase the output. Our technology and machineries may become obsolete or may not be upgraded timely, hampering our operations and financial conditions. In case of a new-found technology in the manufacturing facilities, we may be required to implement new technology or upgrade the machineries and other equipment's employed by us. Further, the costs in upgrading our technology and modernizing the plant and machineries are significant which could substantially affect our finances and operations.

29. Our insurance coverage may not adequately protect us against all material hazards, which may adversely affect our business, results of operations and financial condition.

We believe that the insurance coverage maintained, would reasonably cover all normal risks associated with the operation of our business, however, there can be no assurance that any claim under the insurance policies maintained by us will be met fully, in part or on time. In the event, we suffer loss or damage that is not covered by insurance or exceeds our insurance coverage, our results of operations and cash flow may be adversely affected.

Further, our Company is required to renew these insurance policies from time to time and in the event, we fail to renew the insurance policies within the time period prescribed in the respective insurance policies or not obtain at all, our Company may face significant uninsured losses. If our Company suffers a large uninsured loss or if any insured loss suffered, significantly exceeds our insurance coverage, our business, financial condition and results of operations may be adversely affected.

30. Our Company is dependent on third party transportation providers for the delivery of our products and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations.

We depend on third-party transportation to receive input materials required for our products and to deliver our finished products to our customers. We use third-party logistics providers for all of our product distribution and input materials procurement. This makes us dependent on such third-party transportation providers. Weather-related problems, strikes, or other events which affects third-party transportation could impair our ability to receive the raw materials and/or deliver the requisite quantities of products in time to our customers, which could adversely affect the performance of our business, results of operations and cash flows.

31. Our growth strategy to expand into new geographic areas poses risks. We may not be able to successfully manage some or all of such risks, which may have a material adverse effect on our revenues, profits and financial condition.

We may expand geographically and may not gain acceptance or leverage our experience of our current market areas be able to take advantage of any expansion opportunities outside our current markets. This may limit our growth opportunities. We may face additional risks if we undertake operations in other geographic areas in which we do not possess the same level of familiarity as competitors. By expanding into new geographical regions including international markets, we may be exposed to significant liability and could lose some or all of our investment in such regions, as a result of which our business, financial condition and results of operations could be adversely affected.

32. Our Company has incurred substantial indebtedness which exposes us to various risks which may have an adverse effect on our business and results of operations.

As on January 31, 2018, we had Rs.153.47 lakh of outstanding debt in terms of long term borrowings and short-term borrowings on our balance sheet (including current maturities but excluding non-fund-based facilities) from various banks, financial institutions and others. In the event that we fail to meet our debt servicing obligations under our financing documents, the relevant lenders could declare us to be in default, accelerate the maturity of our obligations or takeover our project or even sell our Company's movable and immovable assets. We cannot assure

investors that in the event of any such acceleration we will have sufficient resources to repay these borrowings. Failure to meet such obligations under debt financing agreements may have an adverse effect on our cash flows, business and results of operations. Our ability to meet our debt service obligations and to repay our outstanding borrowings will depend primarily upon the cash flows generated by our business. We cannot assure you that we will generate sufficient cash to enable us to service existing or proposed borrowings. Incurring significant indebtedness may limit our flexibility in planning for or reacting to changes in our business & industry and limit our ability to borrow additional funds.

For further details on our outstanding debt please refer chapter titled "*Financial Indebtedness*" on page 149

33. Our Company has taken unsecured loans, which are repayable on demand. Any demand from lenders for repayment of such unsecured loans, may adversely affect our business operations and financial condition of Company.

Our Company has availed unsecured loans from Directors that are repayable on demand to the relevant lender and may be recalled by the relevant lender at any time. Any such unexpected demands or accelerated payment may have a material adverse effect on the business of, cash flow and financial conditions of the Company. For further information on the Financial Indebtedness please refer to the heading titled "*Financial Indebtedness*" in the chapter titled "*Financial Statements as Restated*" beginning on page 125 of this Draft Prospectus.

34. Our ability to pay dividends will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures, lender's approvals and other factors.

Our Company has not paid dividends in the past financial years. The amount of our future dividend payments, if any, will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditures, lender's approvals and other factors. There can be no assurance that we will have distributable funds or that we will declare dividends in the future.

35. We have in past entered into related party transaction and may continue to do so in the future, may potentially involve conflicts of interest and impose certain liabilities on our Company.

We have entered into related party transactions with our Promoters, Promoter Group, Group Entities and Directors. While we believe that all such transactions have been conducted on the arm's length basis, however it is difficult to ascertain whether more favourable terms would have been achieved had such transactions been entered with unrelated parties. Furthermore, it is likely that we may enter into related party transactions in the future. For details of these transactions, please refer to section titled "*Related Party Transactions*" at page 123 of this *Draft Prospectus*.

36. Our Directors and Promoters have extended personal guarantees in connection with some of our debt facilities. There can be no assurance that such personal guarantees will be continued to be provided by our Promoters in future or can be called at any time, affecting the financial arrangements.

Our Directors and Promoters have provided personal guarantees for our borrowings to secure our loans. If any of these guarantees are revoked, our lenders may require alternative guarantees or collateral or cancellation of such facilities, entailing repayment of amounts outstanding under such facilities. If we are unable to procure alternative guarantees satisfactory to our lenders, we may need to seek alternative sources of capital, which may not be available to us at commercially reasonable terms or at all, or to agree to more onerous terms under our financing agreements, which may limit our operational flexibility. Accordingly, our business, the financial condition, results of operations, cash flows and prospects may be adversely affected by the revocation of all or any of the personal guarantees provided by our Promoters in connection with our Company's borrowings.

37. Our success depends largely upon the services of our Directors, Promoters and other Key Managerial Personnel and our ability to attract and retain them.

Our success is substantially dependent on the expertise and services of our Directors, Promoters and our Key Managerial Personnel. They provide expertise, which enables us to make well informed decisions in relation to our

business and our future prospects. For further details of our Directors and key managerial personnel, please refer to the chapter “*Our Management*” on page 106 of this Draft Prospectus. The loss of such key members of our management team and the failure of any succession plans to replace such key members could seriously impair the ability to continue to manage and expand the business efficiently.

38. Our Promoters and certain of our Directors hold Equity Shares in our Company and are therefore interested in our performance in addition to their remuneration and reimbursement of expenses.

Certain of our Directors including our Promoters are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding in our Company. We cannot assure you that our Promoters will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters will continue to exercise significant control over us, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may be unable to affect the outcome of such voting. Our Promoters may take actions with respect to our business which may conflict with the best interests of our Company or that of minority shareholders. For details on the interest of our Promoters and Directors of our Company, other than reimbursement of expenses incurred or normal remuneration or benefits, see the sections titled “*Related Party Transactions*” on page 123 of this *Draft Prospectus*.

39. Employee misconduct, errors or fraud could expose us to business risks or losses that could adversely affect our business prospects, results of operations and financial condition.

Employee misconduct, errors or frauds could expose us to business risks or losses, including regulatory sanctions, penalties and serious harm to our reputation. Such employee misconduct includes breach in security requirements, misappropriation of funds, hiding unauthorized activities, failure to observe our stringent operational standards and processes, and improper use of confidential information. It is not always possible to detect or deter such misconduct, and the precautions we take to prevent and detect such misconduct may not be effective. In addition, losses caused on account of employee misconduct or misappropriation of petty cash expenses and advances may not be recoverable, which we may result in write-off of such amounts and thereby adversely affecting our results of operations. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions in which case, our reputation, business prospects, results of operations and financial condition could be adversely affected.

40. Any failure in our IT systems or loss of connectivity or any loss of data arising from such failure can adversely impact our operations/service levels.

Failure of our IT systems could disrupt our operations. Computer viruses could cause an interruption to the availability of our systems. Unauthorized access to our systems with malicious intent could result in the theft of proprietary information and in systems outages. An unplanned systems outage or unauthorized access to our systems could materially and adversely affect our business.

B. Issue Related Risk

41. The requirements of being a listed company may strain our resources.

We have no experience as a listed company and have not been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the SEBI (ICDR) Regulations, which require us to file audited / unaudited reports periodically with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as timely as other listed companies. As a listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, for which significant resources and management overview will be required. As a result, management’s attention may be

diverted from other business concerns, which could adversely affect our business, prospects, financial condition and results of operations. Further, we may need to hire additional legal and accounting staff with appropriate and relevant experience and technical accounting knowledge and we cannot assure you that we will be able to do so in a timely manner or at all.

42. Our Promoters and Promoter Group will continue to retain majority shareholding in us after the Issue, which will allow them to exercise significant influence over us and potentially create conflicts of interest.

Our Promoters and Promoter Group may beneficially own 30.38% of our post-Issue equity share capital. As a result, the Promoter Group may have the ability to control our business including matters relating to any sale of all or substantially all of our assets, the timing and distribution of dividends and the election or termination of appointment of our officers and directors and on various other matters. This control could delay, defer or prevent a change in control of the Company, impede a merger, consolidation, takeover or other business combination involving the Company, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of the Company even if it is in the Company's best interest. In addition, for so long as the Promoter Group continues to exercise significant control over the Company, they may influence the material policies of the Company in a manner that could conflict with the interests of our other shareholders. The Promoter Group may have interests that are adverse to the interests of our other shareholders and may take positions with which our other shareholders do not agree.

43. Any further issuance of Equity Shares by Our Company or sales of Equity Shares by any significant shareholders may adversely affect the trading price of the Equity Shares.

Any future issuance of Equity Shares by our Company could dilute the investors' shareholding. Any such future issuance of Equity Shares or sales of Equity Shares by any of our significant shareholders may also adversely affect the trading price of the Equity Shares and could impact our ability to raise capital through an offering of securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares.

44. The deployment of the Issue Proceeds from the Fresh Issue are based on management estimates and have not been independently appraised by any bank or financial institution and is not subject to any monitoring by any independent agency and our Company's management will have flexibility in utilizing the Issue Proceeds from the Fresh Issue.

Our Company intends to primarily use the Issue Proceeds from the Fresh Issue towards Working Capital requirement as described in "*Objects of the Issue*" on page 69 of this Draft Prospectus. In terms of Regulation 16 of the SEBI (ICDR) Regulations, we are not required to appoint a monitoring agency since the Issue size is not in excess of Rs. 500 crores. The management of our Company will have discretion to use the Issue Proceeds from the Fresh Issue, and investors will be relying on the judgment of our Company's management regarding the application of the Issue Proceeds from the Fresh Issue. Our Company may have to revise its management estimates from time to time and consequently its requirements may change. Additionally, various risks and uncertainties, including those set forth in this section "Risk Factors", may limit or delay our Company's efforts to use the Issue Proceeds from the Fresh Issue to achieve profitable growth in its business. Further, pursuant to Section 27 of the Companies Act 2013, any variation in the objects would require a special resolution of the Shareholders and our Promoters or controlling Shareholders will be required to provide an exit opportunity to the Shareholders of our Company who do not agree to such proposal to vary the objects, in such manner as may be prescribed in future by the SEBI. Accordingly, prospective investors in the Issue will need to rely upon our management's judgment with respect to the use of Issue Proceeds. If we are unable to enter into arrangements for utilization of Issue proceeds as expected and assumed by us in a timely manner or at all, we may not be able to derive the expected benefits from the proceeds of the Issue and our business and financial results may suffer.

45. There is no existing market for our Equity Shares, and we cannot be sure if one will develop. Thus a risk of loss in the investment is there.

There is no guarantee that our Equity Shares will be listed on the Stock Exchanges in a timely manner or at all and any trading closures at the Stock Exchanges may affect the trading price of our Equity Shares. Prior to the Issue, there has not been a public market for the Equity Shares. Further, we cannot predict the extent to which investor interest will lead to the development of an active trading market on the Stock Exchanges or how liquid that market will become. If an active market does not develop, you may experience difficulty selling the Equity Shares that you purchased. The Issue Price is not indicative of prices that will prevail in the open market following the Issue. Consequently, you may not be able to sell your Equity Shares at prices equal to or greater than the Issue Price. The market price of the Equity Shares on the Stock Exchanges may fluctuate after listing as a result of several factors, including the following:

- Volatility in the Indian and other Global Securities Markets;
- The performance of the Indian and Global Economy;
- Risks relating to our business and industry, including those discussed in this Draft Prospectus;
- Strategic actions by us or our competitors;
- Investor perception of the investment opportunity associated with the Equity Shares and our future performance;
- Adverse media reports about us, our shareholders or Group Entities;
- Future sales of the Equity Shares;
- Variations in our quarterly results of operations;
- Differences between our actual financial and operating results and those expected by investors and analysts;
- Our future expansion plans;
- Perceptions about our future performance or the performance of transport sector companies generally;
- Performance of our competitors in the Tyre & Tube Industry and the perception in the market about investments in the Transportation service sector;
- Changes in the estimates of our performance or recommendations by financial analysts;
- Significant developments in India's economic liberalization and deregulation policies; and
- Significant developments in India's fiscal and environmental regulations. There has been significant volatility in the Indian stock markets in the recent past, and our Equity Share

Price could fluctuate significantly as a result of market volatility. A decrease in the market price of the Equity Shares could cause you to lose some or all of your investment.

46. There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, the Equity Shares at a particular point in time.

The price of the Equity Shares will be subject to a daily circuit breaker imposed by all stock exchanges in India which does not allow transactions beyond a certain level of volatility in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by the SEBI on Indian stock exchanges. The percentage limit on our circuit breaker is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchanges do not inform us of the percentage limit of the circuit breaker from time to time and may change it without our knowledge. This circuit breaker effectively limits upward and downward movements in the price of the Equity Shares. As a result, shareholders' ability to sell the Equity Shares, or the price at which they can sell the Equity Shares, may be adversely affected at a particular point in time.

47. Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under current Indian tax laws and regulations (Finance bill 2018), capital gains arising from the sale of equity shares in an Indian company are taxable in India with effect from April 1, 2018. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will also be subject to capital gains tax at the rate of 10% in India if LTCG of an individual exceed Rs. 1Lakh per annum in one fiscal as per specified conditions. The Central Government has rolled back the exemptions on long term capital gains for investors holding listed securities. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax at the rate of 15% in India. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their

own jurisdiction on a gain upon the sale of the Equity Shares. In addition, changes in the terms of tax treaties or in their interpretation, as a result of renegotiations or otherwise, may affect the tax treatment of capital gains arising from a sale of Equity Shares.

External Risk Factors

48. Our performance is linked to the stability of policies and the political situation in India.

The Central and State Governments serve multiple roles in the Indian economy, including as producers, consumers and regulators, which have significant influence on the logistics industry and us. The Government of India has traditionally exercised, and continues to exercise, a significant influence over many aspects of the economy. Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Since 1991, successive Indian governments have pursued policies of economic liberalization and financial sector reforms. The current Government has announced its general intention to continue India's current economic and financial sector liberalization and deregulation policies. However, there can be no assurance that such policies will be continued and a significant change in the government's policies in the future could affect business and economic conditions in India and could also adversely affect our business, prospects, financial condition and results of operations.

Any political instability in India may adversely affect the Indian securities markets in general, which could also adversely affect the trading price of our Equity Shares. Any political instability could delay the reform of the Indian economy and could have a material adverse effect on the market for our Equity Shares. There can be no assurance to the investors that these liberalization policies will continue under the newly elected government. Protests against privatization could slow down the pace of liberalization and deregulation.

49. Our business is dependent on economic growth in India.

The development of the automobile industry is parallel to the economic growth of the country as it comprises of inbound as well as outbound movement of the agricultural, manufacturing and service supply chains. Our performance is thus dependent on the health of the overall Indian economy. India economic growth is affected by various factors including domestic consumption and savings, balance of trade movements primarily resulting from export demand and movements in key imports, such as oil and oil products, and annual rainfall, which affect agricultural production. In the past, economic slowdowns have harmed industries and industrial development in the country. Any future slowdown in the Indian economy could harm our business, financial condition and results of operations.

50. The operations and performance of our industry and company are heavily dependent on the physical infrastructure. Any deterioration in the quality of the same could adversely affect our results of operations and financial condition.

The quality of the operations of our company are linked to the India 's physical infrastructure, i.e. road, rail and port network, electricity grid and communication systems. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our business operations, which could have an adverse effect on our results of operations and financial condition.

51. Factors like civil unrest, terrorist attacks, communal disturbance or natural calamities can affect our business performance and financial condition and would affect the price of our equity share.

Factors like civil unrest, terrorist attacks, communal disturbance or natural can effect/prevent us from timely delivery of our consignments and discharging our obligations towards the contracts entered with our customers, thereby affecting our business performance and financial condition and profitability. Although we control the damage by entering into Force Majeure clause in the contracts with some of our customers, the risk of loss of revenue due to these external factors is there.

52. Factors like war at international borders, civil unrest, terrorist attacks or communal disturbance could adversely affect the financial markets domestically as well as globally, affecting the price of our equity share.

Any major hostilities at international borders involving India or other prominent world countries, or other act of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and national as well international equity markets. These may induce high volatility on share prices and could adversely impact the price of our equity share.

53. Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, financial condition, results of operations and prospects.

Our Company is subject to various regulations and policies. For details see section titled "*Key Industry Regulations and Policies*" beginning on page 96 of this Draft Prospectus. The Government of India or state governments may introduce new laws, regulations and policies applicable to us, our business and industry. These may require us to obtain additional approvals and licenses or impose onerous requirements on our business. These changes may be unfavourable to us and may have negative impact on our business and financial performance.

The Government of India has enacted the Central Goods and Services Tax Act, 2017 to lay a framework for a comprehensive national goods and services tax ("GST") regime that has combined taxes and levies by the Central and State Governments into a unified rate structure. The said legislation was notified and made effective from July 1, 2017. Previously we were registered under Service tax in that situation our service was liable for service tax but as per GST Act, 2017 liability for payment of GST is on Consignee hence we have surrendered the GST Registration. As per the Reverse Charge Mechanism for GST supply of GTA Services would be covered under 100% Reverse Charge Mechanism for Entity holding the GST Registration Certificate and the entity availing this service has to pay the GST on the service. Introduction

Tyre Inner Tubes

Tyre inner tubes are the internal components of the primary tyre which are designed to sustain air pressure. Majority of the tyres which are used in motorcycles, bicycle, large vehicles such as tractors, heavy trucks, cars, and buses are designed for their application with inner tubes. These are made from impermeable materials such as synthetic, elastic, soft rubber for the purpose of avoiding air leakage and are torus shaped in nature. In addition, inner tubes which are larger in size possess the ability to be re used for other applications such as rafting and swimming. These tubes are large inflatable toruses which are manufactured for these applications while also offering a choice of decks, handles, fabric covering, colors and other various accessories, eliminating the protruding valve stem. Manufacturers such as Schrader International develop inner tubes for two-wheeler vehicles which provide high performance to motorcycle tube tyres.

Introduction

Tyre Inner Tubes

Tyre inner tubes are the internal components of the primary tyre which are designed to sustain air pressure. Majority of the tyres which are used in motorcycles, bicycle, large vehicles such as tractors, heavy trucks, cars, and buses are designed for their application with inner tubes. These are made from impermeable materials such as synthetic, elastic, soft rubber for the purpose of avoiding air leakage and are torus shaped in nature. In addition, inner tubes which are larger in size possess the ability to be re used for other applications such as rafting and swimming. These tubes are large inflatable toruses which are manufactured for these applications while also offering a choice of decks, handles, fabric covering, colors and other various accessories, eliminating the protruding valve stem. Manufacturers such as Schrader International develop inner tubes for two-wheeler vehicles which provide high performance to motorcycle tube tyres.

Introduction to Indian Automobile Industry

The Indian auto industry is one of the largest in the world. The industry accounts for 7.1 per cent of the country's Gross Domestic Product (GDP). The Two Wheelers segment with 80 per cent market share is the leader of the Indian Automobile market owing to a growing middle class and a young population. Moreover, the growing interest of the companies in exploring the rural markets further aided the growth of the sector. The overall Passenger Vehicle (PV) segment has 14 per cent market share.

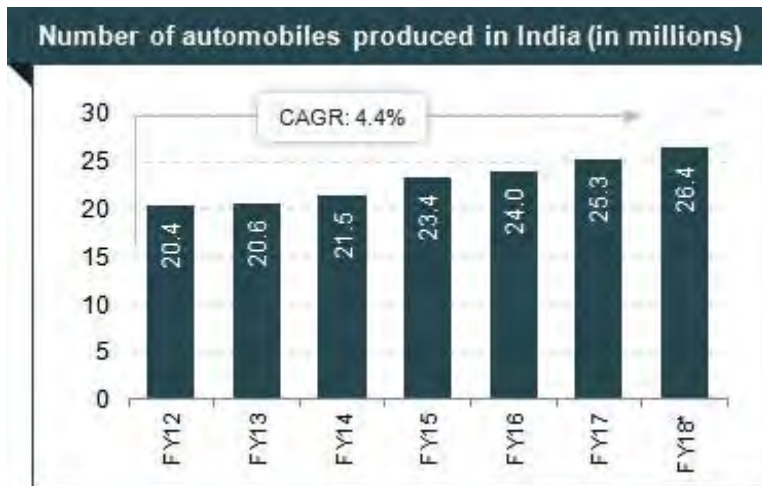

India is also a prominent auto exporter and has strong export growth expectations for the near future. Overall automobile exports grew 15.81 per cent year-on-year between April-February 2017-18. In addition, several initiatives by the Government of India and the major automobile players in the Indian market are expected to make India a leader in the 2W and Four Wheeler (4W) market in the world by 2020.

Market Size

Production of passenger vehicles, commercial vehicles, three wheelers and two wheelers grew at 14.41 per cent year-on-year between April-February 2017-18 to 26,402,671 vehicles.

The auto industry is set to witness major changes in the form of electric vehicles (EVs), shared mobility, Bharat Stage-VI emission and safety norms. Electric cars in India are expected to get new green number plates and may also get free parking for three years along with toll waivers. India's electric vehicle (EV) sales increased to 25,000 units during FY 2016-17 and are poised to rise further on the back of cheaper energy storage costs and the Government of India's vision to see six million electric and hybrid vehicles in India by 2020.

The growth of the Indian Automobile industry can be depicted as below:

Investments

To keep up with the growing demand, several auto makers have started investing heavily in various segments of the industry during the last few months. The industry has attracted Foreign Direct Investment (FDI) worth US\$ 18.413 billion during the period April 2000 to December 2017, according to data released by Department of Industrial Policy and Promotion (DIPP).

Some of the recent/planned investments and developments in the automobile sector in India are as follows:

- The only electric automaker in India, Mahindra and Mahindra Ltd, has partnered with Uber for deploying its electric sedan e-Verito and hatchback e2o Plus on Uber platforms in New Delhi and Hyderabad.
- Mahindra & Mahindra (M & M) is planning to make an additional investment of Rs 500 crore (US\$ 77.23 million) for expanding the capacity for electric vehicles in its plant in Chakan.

Government Initiatives

The Government of India encourages foreign investment in the automobile sector and allows 100 per cent FDI under the automatic route.

Some of the recent initiatives taken by the Government of India are -

- The Government of Karnataka is going to obtain electric vehicles under FAME Scheme and set up charging infrastructure across Bengaluru, according to Mr R V Deshpande, Minister for Large and Medium Industries of Karnataka.
- The Ministry of Heavy Industries, Government of India has shortlisted 11 cities in the country for introduction of electric vehicles (EVs) in their public transport systems under the FAME (Faster Adoption and Manufacturing of (Hybrid) and Electric Vehicles in India) scheme.
- Energy Efficiency Services Limited (EESL), under Ministry for Power and New and Renewable Energy, Government of India, is planning to procure 10,000 e-vehicles via demand aggregation and has already awarded contracts to Tata Motors Ltd for 250 e-cars and to Mahindra and Mahindra for 150 e-cars.
- The government is planning to set up a committee to develop an institutional framework on large-scale adoption of electric vehicles in India as a viable clean energy mode, especially for shared mass transport, to help bring down pollution level in major cities.

Road Ahead

The automobile industry is supported by various factors such as availability of skilled labour at low cost, robust R&D centres and low-cost steel production. The industry also provides great opportunities for investment and direct and indirect employment to skilled and unskilled labour.

The Indian automotive aftermarket is estimated to grow at around 10-15 per cent to reach US\$ 16.5 billion by 2021 from around US\$ 7 billion in 2016. It has the potential to generate up to US\$ 300 billion in annual revenue by 2026, create 65 million additional jobs and contribute over 12 per cent to India's Gross Domestic Product

Export Market Potential (US\$ billion)

Notes: E - Estimate, FY - Indian Financial Year (April to March)
Source: ACMA, Make in India

Exports will account for as much as 26 per cent of the market by 2021.

The auto-components industry accounts for almost seven per cent of India's Gross Domestic Product (GDP) and employs as many as 19 million people.

India is expected to become the 4th largest automobiles producer globally by 2020 after China, US & Japan. The auto components industry is also expected to become the 3rd largest in the world by 2025.

In 2016, India overtook Japan to become the 2nd largest producer of steel in the world and among the lowest-cost ones as well.

attributable to this include: a buoyant end-user market, improved consumer sentiment and return of adequate liquidity in the financial system. The auto-component industry of India has expanded by 14.3 per cent because of strong growth in the after-market sales to reach at a level of Rs 2.92 lakh crore (US\$ 43.52 billion) in FY 2016-17. The auto-components industry accounts for almost seven per cent of India's Gross Domestic Product (GDP) and employs as many as 25 million people, both directly and indirectly. A stable government framework, increased purchasing power, large domestic market, and an ever-increasing development in infrastructure have made India a favourable destination for investment.

The Indian auto-components industry has experienced healthy growth over the last few years. Some of the factors

The Indian auto-components industry can be broadly classified into the organised and unorganised sectors. The organised sector caters to the Original Equipment Manufacturers (OEMs) and consists of high-value precision instruments while the unorganised sector comprises low-valued products and caters mostly to the aftermarket category.

The total value of India's automotive aftermarket stood at Rs 56,098 Crore (US\$ 8.4 billion) in FY 2016-17 and exports were at Rs 73,128 crore (US\$ 10.9 billion) as compared Rs 70,916 crore (\$10.8 billion) in the year 2015-16, up by 3.1 per cent whereas imports in the year 2016-17 has decreased from Rs 90,662 crore (US\$ 13.5 billion) to Rs 90,571 crore (US\$13.81 billion), down by 0.1 per cent. This has been driven by strong growth in the domestic market and increasing globalisation (including exports) of several Indian suppliers.

The Indian automotive aftermarket is expected to grow at a CAGR of 10.5 per cent and reach Rs 75,705 crore (US\$ 13 billion) by the year 2019-20, according to the Automotive Component Manufacturers Association of India (ACMA). These estimates are in sync with the targets of the Automotive Mission Plan (AMP) 2016-26.

The Indian Auto Component industry is expected to grow by 8-10 per cent in FY 2017-18, based on higher localisation by Original Equipment Manufacturers (OEM), higher component content per vehicle, and rising exports from India, as per ICRA Limited. According to the Automotive Component Manufacturers Association of India (ACMA), the Indian auto-components industry is expected to register a turnover of US\$ 100 billion by 2020 backed by strong exports ranging between US\$ 80- US\$ 100 billion by 2026, from the current US\$ 11.2 billion.

The Foreign Direct Investment (FDI) inflows into the Indian automobile industry during the period April 2000 – December 2017 were recorded at US\$ 18.41 billion, as per data by the Department of Industrial Policy and Promotion (DIPP). Some of the recent investments made/planned in the Indian auto components sector are as follows:

- Schaeffler India, the Indian arm of Germany's automotive and industrial parts maker, is planning to invest Rs 300 crore (US\$ 46.66 million) per annum over FY18-19.
- Major auto component firms such as Krishna Group, Minda Industries, Lumax Industries, Subros Ltd, etc are planning to invest over US\$ 233.31 million over the next 2-3 years.
- Setco Automotive is going to invest Rs 250 crore (US\$ 38.62 million) over the next two to three years for capacity expansion and modernisation.

The Government of India's Automotive Mission Plan (AMP) 2006–2016 has come a long way in ensuring growth for the sector. Indian Automobile industry is expected to achieve a turnover of \$300 billion by the year 2026 and will grow at a rate of CAGR 15 per cent from its current revenue of \$74 billion. Government has drafted Automotive Mission Plan (AMP) 2016-26 which will help the automobile industry to grow and will benefit Indian economy in the following ways: -

- Contribution of auto industry in the country's GDP will rise to 13 per cent, currently which is less than 10 per cent
- More than 100 million jobs will be created in the economy
- Companies will invest around US \$80 billion as a part of their capital expenditure.
- End of life Policy will be implemented for old vehicles

Road Ahead

The rapidly globalising world is opening up newer avenues for the transportation industry, especially while it makes a shift towards electric, electronic and hybrid cars, which are deemed more efficient, safe and reliable modes of transportation. Over the next decade, this will lead to newer verticals and opportunities for auto-component manufacturers, who would need to adapt to the change via systematic research and development.

The Indian auto-components industry is set to become the third largest in the world by 2025 Indian auto-component makers are well positioned to benefit from the globalisation of the sector as exports potential could be increased by up to four times to US\$ 40 billion by 2020.

Indian Tyre Tube Industry

Indian tyre industry has been reporting good growth figures over the past few years, spurred by the growing passenger vehicle and two-wheeler market. It has emerged as one of the most competitive markets in the world and with the emergence of new technology, ultra-modern production facilities and availability of raw materials, the sector is poised to grow further. Major technological changes have taken place in tyre/tube design from conventional bias or diagonal ply from the past to the current steel radial tyres. Testing standards have also evolved accordingly to ensure high performance, mileage, safety, reliability and longevity of the tyres. The Indian tyre industry has been quick in adopting the latest technology trends through foreign collaborations and tailoring these to Indian needs. The manufacturers are also investing in the development of green tyres 'and in capacity expansion for radial tyres. Innovative technologies like self-inflation and run flat tyres (RFT) are also gaining popularity in the Indian market. The market for radial tyres in the commercial vehicles segment has seen rapid growth in recent times.

Tyre Tube Demand

Tyre volume demand was expected to grow by seven to eight per cent during FY18' and FY19' on the back of higher OEM demand and stable replacement demand, a ICRA report said. Carbon black companies were also on expansion mode based on the growth projections for the tyre demand.

Country's largest carbon black producer, Phillips Carbon Black will pump Rs 300 crore for brownfield expansion and evaluating greenfield unit in south India, where new tyre capacity is likely to come up. Replacement demand for the truck and buses (T&B) is likely to pick up to five per cent in FY18' following the 0-3 per cent decline witnessed in FY17 (Provisional), the report said. Though demand in Q1 of FY18' suffered due to destocking by dealers before GST rollout, this is a short-term aberration and volumes should recover in H2 FY18, the ICRA report said.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated primarily through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Accordingly, the process for foreign direct investment (“**FDI**”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017 has notified the specific ministries handling relevant sectors.

The DIPP, issued the consolidated FDI Policy circular of 2017 (“**FDI Policy**”), which with effect from August 28, 2017, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on August 28, 2017. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore, FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment (“**FDI**”) Policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

As per the existing policy of the Government of India, OCBs cannot participate in the Issue.
