Whereas Equity Shares of the Transferee Company are listed on BSE Ltd (Bombay Stock Exchange/BSE) and National Stock Exchange of India Ltd (National Stock Exchange/NSE). Both the Companies are under common management and control. The Scheme of Amalgamation will not result in any change in management of the Transferee Company.

1.3 Rationale of the Scheme:

The circumstances which justify and/or necessitate the proposed amalgamation of CMI Energy India Pvt Ltd with CMI Ltd are, inter alia, as follows:

- a. The Transferor Company is a Wholly Owned Subsidiary of the Transferee Company. Both the Transferor and Transferee Companies are engaged in similar business activities. The proposed Scheme of Amalgamation would result in business synergy, pooling of resources and consolidation of these Companies.
- b. The Transferor Company had a troubled history; operations of the Company were suspended for around 2 years during 2014-2016. The Transferee Company, on the other hand, is a well-established player with strong financials and marketing presence. After long negotiations with the then Promoters of the Transferor Company, the Transferee Company acquired the Transferor Company in the year 2016. Since then the Transferor Company is operating as a wholly owned subsidiary of the Transferee Company. With the critical support of the Parent Company-CMI Ltd, the Transferor Company has been turned around since then. For the financial year 2017-2018, the Transferor Company has earned operating profits for the first time in its history. Since continued support of the Parent Company is required, it would be in the larger interest of both these Companies and their stakeholders that the Transferor Company is merged into the Parent Transferee Company.
- c. The Transferor Company is engaged in manufacturing, trading, marketing and selling of low-tension, high-tension and extra high voltage power Cables and other speciality Cables; high ampacity

bare aerial conductors and other related activities. Whereas the Transferee Company is engaged in manufacturing of Wires and Cables such as Railway Signalling Cables, Control & Instrumentation Cables, Jelly filled Telephone Cables, Power Cables and many other speciality cables including Cables for Refineries, Cables for ISRO, etc., and other related activities. The proposed amalgamation will enable the Transferee Company to offer wide range of wires and cables catering to different industries and users.

- d. The proposed amalgamation would enable pooling of physical, financial and human resource of these Companies for the most beneficial utilization of these factors in the combined entity.
- e. The proposed Scheme of Amalgamation will result in usual economies of a centralized and a large company including elimination of duplicate work, reduction in overheads, better and more productive utilization of human and other resource and enhancement of overall business efficiency. It will enable these Companies to combine their managerial and operating strength, to build a wider capital and financial base and to promote and secure overall growth of their businesses.
- f. The said Scheme of Amalgamation will contribute in fulfilling and furthering the objects of these Companies. It will strengthen, consolidate and stabilize the business of these Companies and will facilitate further expansion and growth of their business. The resulting amalgamated company will be able to participate more vigorously and profitably in the competitive market scenario.
- g. The proposed amalgamation would enhance the shareholders' value of the Transferor and the Transferee Companies.
- h. The said Scheme of Amalgamation will have beneficial impact on all the Transferor and the Transferee Companies, their shareholders, employees and other stakeholders and all concerned.
