BUSINESS REVIEW

ECONOMIC SCENARIO:

Even after more than three years' lapse of double dip recession, major world economies in Europe and U.S.A. have shown no signs of respite. As against this, emerging market economies like India, China, Brazil and Far-East Nations are still on fast track and have shown continuous improvement. Emergence and spread of nuclear family concept world over has increased feeling of insecurity. Besides, growing terrorism, new legislations and technological advances are driving world Electronic Security Market.

The Indian economy did not remain untouched from the global fall-out, even though it was insulated to some extent. The growth momentum slowed considerably. As against a handsome consistent growth of little over 8% and 8.5% in GDP for the years 2009-10 and 2010-11 respectively, the GDP registered a growth of about 6.5% in the year 2011-12. Also some key economic indicators like industrial production, gross fixed capital formation, current account deficit, depreciation of rupee vis-à-vis US dollar, have given bearish signal. The untamed inflation despite various efforts by the Central Bank, has been a major cause of concern for the Government. All these lead to fiscal deterioration.

As regards to growth, there is a consensus that the Security Industry is growing at 10% - 12% Compound Annual Growth Rate (CAGR). While the security market in the developed and matured market is showing steady growth at 6% - 8%, its showing remarkable growth over 12% - 15% in Asia and Middle East market.

According to available research report, the size of the total Indian Security and Safety market is around ' 11,000 crores and is expected to grow at an average rate of 25% p.a. Out of this, the share of electronic security solutions market is estimated at 4,800 crores.

The market for India combines the organized and unorganized sectors; wherein organized sector comprise only 20% of the market but account for 80% of the revenue generated and is expected to grow handsomely over the next 5-10 years, making India an evolving business market with lot of growth potential still left ahead. Despite, the Indian security industry is set to enter a higher growth trajectory, and offer immense potential for those who are able to find the right mix of price, technology and awareness.
