MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRIAL STRUCTURE AND DEVELOPMENT

India's GDP is expected to expand by 6.9% in FY 2012. The country's economic condition in the current fiscal was challenging with inflation being the major factor driving economic policy. This had a major impact on economic variables. Policy formulation has become difficult with volatility witnessed in the forex market, where the rupee tended to move downwards. FY 2012 witnessed combating inflation, slowing down of investment, pressure on budget deficit, widening current account balance, depreciating purpose and uncertain capital markets. Going forward, high oil and other commodity prices and the impact of anti-inflationary monetary stance will impact growth. Most business confidence surveys show a decline in business confidence.

The global economic environment was tenuous though the year, turning adverse post-September 2011, against the eurozone crisis and other advanced countries, followed by political unrest, currency wars and recent oil crisis.

Non-Banking Financial Companies (NBFCs) play a crucial role in broadening access to financial services, enhancing competition and diversifying the financial sector. Banks and NBFCs compete for business. Despite strong competition faced by NBFCs, the inner strength of NBFCs local knowledge, credit appraisal skill, well trained collection machinery, close monitoring of borrowers and personalized attention to each client, cater to the needs of small and medium enterprises in rural and semi-urban areas.

OPPORTUNITIES AND THREATS

A high dependence on NBFCs on bank funding (over60% of total debt in FY11) is a major sector-wide structural weakness. The significant 55% growth in bank credit to the broad NBFC sector in FY11 (compared to 23% overall credit growth) and the RBI's subsequent revised guidelines, under bank loans to NBFCs are not classified as priority-sector loans from 1 April 2011, reduce the bank's motivation for fresh direct lending to NBFCs. Gaining access to alternate long-term funding is a major challenge for the industry and our Company as well.

OUTLOOK

The outlook of NBFCs could remain sluggish in 2012-13 as regulatory changes could increase the cost of raising fresh capital and reduce profitability. Cyclical headwinds from a moderating economy are affecting the NBFCs asset quality. The Company will continue to focus on better management to maintain competitiveness.

Company intends to maintain its focus on Capital Market operations.
