The financial statements have been prepared to comply in all material respects with the Accounting Standards notified by the Companies Accounting Standards Rules, 2006 and the relevant provisions of the Companies Act, 2013 and the guidelines issued by the Reserve Bank of India as applicable to a Non Banking Finance Company. The accounting policies applied by the Company are consistent with those used in the previous year.

B Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

C Investments

Investments that are readily realisable and intended to be non current held for not more than a year are classified as current investments. All other investments are classified as long-term and non-current. Current investments are carried at lower of cost and fair value determined on an individual investment basis. D Revenue recognition

Revenue (income) is recognised when no significant uncertainty as to determination/realisation exists.

Interest

Revenue is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

Commission

Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act, 1961.

For the purpose of calculating diluted earning per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of share outstanding during the period are adjusted for the effects of all diluced potential equity shares.
