MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Overview

Gujarat Poly-AVX Electronics Ltd is one of the largest manufacturers of Ceramic Capacitors in India. This state of the art facility was incorporated in the year 1989 in collaboration with AVX Ltd.,USA, a world leader in passive components to manufacture Ceramic Capacitors in Radial, Axial, Surface Mount Devices (SMD's) Configuration & Singlelayer (Disc) Ceramic Capacitors.

industrial Structure and Development

Electronic Components form the building blocks of any Electronic system. Ceramic Capacitors are classified as Passive Electronic Component which are manufactured by your Company. These components find application in the following Market Segments:

- (1) Computer & Computer Peripherals
- (2) Instrumentation and Industrial Electronics
- (3) Consumer Electronics
- (4) Defence
- (5) Telecommunications
- (6) Dealers

Ceramic Capacitors manufactured, by your Company, are supplied to Original Equipment Manufacturers(OEM's) in the rapidly growing electronic industry.

Opportunities and Threats

- * Ceramic Capacitors are the most widely used Passive Electronic Component, due to their miniature size and wide range.
- * Segments as above cover the entire Electronic Industry and our components find application in these segments.
- * Your company is also dealing in Trading of other types of Capacitors
- * In addition to the OEM's the products are also sold through a wide dealer network all over India.
- Our Ceramic Capacitors attract 0% Custom Duty and are easy to import by OEMs.
- * Ceramic Capacitors manufactured by us are imported primarily through China making them fiercely competitive.

The Dollar fluctuation and metal volatility play a very important role in influencing the margins.

Risks & Concerns

- * There is a rising trend of importing Electronic Components in kit form for assembly in India. This trend can have an adverse impact on our customer base.
- * The new technologies coming into India enforce the OEMs to have a global sourcing especially in the case of subcontractors and can impact our growth.
- * Over all market slow down have hit Electronic Industry across the board effecting our growth. Similarly the strong dollar and metal volatility has an impact on the already tight margins.

Performance by Sector and Products

The Instrumentation and Industrial Electronics segment continues to grow in the present Financial Year. However, the Automotive Industry, Consumer Electronics and Computer segments were particularly sluggish due to the market slow down. Due to this dealer segments recorded decline in sales. Similarly the Telecommunication segment continued the downward trend.

As far as the products are concerned there has been considerable shift in the product mix. The leaded products requirements are converting to SMD's. On the other hand, the Singlelayer Disc Ceramic Capacitors requirements are changing over either to leaded MLCCs or SMDs. It has been observed that the market for SMD's is also shifting to smaller sizes. Due to this reason the overall ASP's achieved are lower than previous year.

During the Financial Year 2008-09 the total sales was Rs. 681.64 Lacs against Rs.679.48 Lacs previous year and the Production was 967.00 Lacs pcs in the present Financial Year in comparison to 863.00 Lacs pcs previous year.
