ANNEXURE III TO THE DIRECTORS' REPORT

MANAGEMENT DISCUSSION ANALYSIS

OVERVIEW

During the year under review, the Company continued to make steady progress in the development of the IT Park at Goregaon, i.e. Nirlon Knowledge Park (NKP).

SEGMENT ANALYSIS AND REVIEW

Industrial Park/IT Park – Goregaon, Mumbai

During the period under review, the Company has been successful in ensuring that approx. 99.00 % of the 10.75 lac sq. ft. of licensable area in Phases 1 and 2 of NKP have remained licensed to the existing group of successful corporate clients. License fees for Phases 1 and 2 continued to be received regularly. As a result, the Company's securitized loans to HDFC, taken initially for project construction, continued to be serviced on schedule. It may be recalled that these securitized loans are repayable over 108 months in equal monthly installments comprising principal and interest. Due to the equal monthly installment repayment structure of the HDFC loans, the consistently reducing principal balance has resulted in a reduced interest outgo for the year under review when compared to the previous year. For this reason, reduction in interest expense on a phase wise basis is therefore expected year on year. The interest outgo for the year under review has also reduced due to an interest rate reduction effected by HDFC in July 2011.

Construction progress of Phase 3 (approx. 5.46 lac sq. ft. of constructed area corresponding approx. 3.97 lac sq. ft. licensable area) has also been steady during the 2011-12 Financial Year and continues to be on schedule for completion by approx. the end of March 2013. Two major priorities for the Company during the 2012-13 financial year are to ensure the on time completion of Phase 3 within defined budgetary parameters, as also to ensure licensing commitments for Phase 3 so that license fees from this Phase are available for approx. half the 2013-2014 financial year. As mentioned in the Directors' Report, two commitments for licensing of Phase 3 from well known MNCs have already been received, and the interest levels for future commitments are also currently promising.

As a result of the favourable enquiries being generated by its Phase 3 development, and also as a result of preliminary interest expressed by existing licensees in NKP to expand/consolidate their operations within the complex, the Company has decided to commence construction of Phase 4 (approx. 7.25 lac sq. ft. of constructed area corresponding approx. 4.23 lac sq. ft. licensable area). Planning and design

for Phase 4 is at an advanced stage, and construction is expected to commence in July/August 2012. Phase 4 is expected to be complete by the October – December quarter 2014. These time lines will suit the expansion/consolidation plans of the various potential occupants who are currently in discussions with the Company.

It may be mentioned that planning, design, specifications and quality for Phases 3 and 4 will be maintained, and to the best extent possible improved, from those levels delivered successfully in Phases 1 and 2. At the same time, a significant broadening and deepening of the Company's vendor base for Phases 3 and 4, combined with an intensive focus to ensure the most competitive sourcing of material and equipment, is helping ensure that costs are and remain tightly controlled.

RISKS AND CONCERNS

Industrial Park/Real Estate Division

i) Macro Economic Environment

Macro economic factors continue to be a source of concern for the Company. The continuing relatively limited demand for commercial real estate in India and Mumbai has a clear link to the stagnating economies of the developed world, especially Europe and the United States. Neither the economies of Europe or the United States, nor the political environments in these regions, have given the rest of the world much cause for comfort during the last year. The present year shows no appreciable difference. Further, the Chinese growth slowdown and Japan's continued economic weakness, mean that the assessment of commercial real estate demand in the Indian context will have to be especially carefully assessed.

The Indian economic outlook as well is not presently encouraging. The absence of meaningful reform, the consequent slowdown in investment, and the alarming volatility of the rupee have led to sharply reduced growth rates. This, in turn, will have obviously negative implications on domestic demand, especially with interest rate and inflation continuing at relatively high levels.

In this context, the ability of the Company to secure conclusive commitment for space take up is likely to have a major bearing on the pace of development in NKP.

ii) Supply/Availability of Commercial Real Estate in Suburban Mumbai

As has been the case for the past 2/3 years, oversupply of commercial real estate in Mumbai remains a concern for the development of NKP. This is especially true for the Central Mumbai areas where License fee rates in specific micro market have seen substantial reductions. This, in turn, has put rates in the Mumbai suburbs under pressure as well.

However, the supply of good quality and well planned commercial development in Nirlon's micro market is limited. The micro market itself, on the Western Express Highway (WEH) and in close proximity to the commuter rail network and airports, remains much desired. A large part of Mumbai's working population also resides in the western suburbs, adding to the attractiveness of NKP's location. In this context, demand for professionally managed developments delivering value at competitive rates remains steady in Nirlon's micro market.

Nirlon has established itself in this segment of market, and is committed to its focus on quality, reliability and occupant satisfaction, which should substantially help mitigate the risks and concerns discussed in this Section.

However, profitability projections for the NKP development will continue to use conservative assumptions as regards any increase in License fee rates, in the context of potential oversupply.

Cautionary Statement

Statements in the Annual Report including the Directors' Report and its annexures describing the Company's objectives, projections, estimates, expectations etc. may be "forward looking statements" within the meaning of applicable laws and regulations. Important factors that could make a difference to the Company's operations/development include macro economic conditions affecting demand/ supply, price conditions in the domestic and overseas markets, changes in Government regulations, policy, tax laws, other statutes and other incidental factors.
