OPERATION REVIEW :

The global economy in the Financial Year (FY) 2012-13 improved slowly, but was short on expectation. Several European economies experienced recession due to high unemployment, banking fragility, fiscal tightening and sluggish growth. Deceleration in industrial output and exports weakened India's economic growth significantly.

FY 2012-13 proved to be a challenging year amidst global economic uncertainties and disturbances in many parts of the world. Despite of these constraints and challenging environment, the company performed reasonably well and the highlights of the performance are as under :

- The total income of Rs. 2100.41 lacs during the year against Rs. 2050.03 lacs during the previous year.
- The Operational Profit before interest and depreciation and interest for the year under review is Rs. 326.21 lacs as against Rs. 352.44 lacs during the previous year.

Further during the year, SICOM Investment and Finance Limited has subscribed for Preference shares upto Rs. 500 lacs and Equity shares upto Rs. 300 Lacs and appropriated subscription amount towards its Secured Debts.

FUTURE OUTLOOK:

The Indian economy continues to face challenges on the road to sustained recovery. The economic crisis and its ramification have accelerated the shift of economic power. Despite of prevailing economic uncertainties, in long-term, India continues to offer considerable opportunities aided by its favorable demographic profile

With the dilution of Jute order by 10%, which is further expected to be diluted by 30%, the demand for packing food grains in PP woven sacks is going to increase substantially. During the year under review, the Company received its first Order of Rs. 100 lacs from Director General of Supplies and Disposals (DGS&D) in March and executed the same.

With increasing global integration, the large consumer market has attracted global companies for their manufacturing hub / tie-up in India. Your Company has also been associated with GRIEF, US based Bulk Bag Manufacturer, for supply of FIBCs on job work basis to cater to their growing demand domestically and globally. The Company is in discussion with them on Long term investment for FIBC business.

Year ahead looks promising with subscription towards Preference and Equity Shares from SICOM Investment & Finance Limited (SIFL). Further with the Net worth of the Company becoming positive in the current year, the Company will be able to raise the funds for its operations at normal banking rate of interest from nationalized bank & thereby there will be saving in the cost of finance.

With new petrochemical complexes being set up such as Hindustan Energy Mittal Limited (HEML) and expansion of existing manufacturer like IOCL, Reliance Industries Limited, the Demand for Kraft Lined Bags is also going to increase.

FIXED DEPOSITS :

The Company had accepted unsecured loan to meet the working capital requirement of the Company. The acceptance of said unsecured loan has resulted into non-compliance with section 58A of the Companies Act, 1956. The business circumstances has forced the Company to avail unsecured loan. The Management is of the opinion that considering the Company being under BIFR purview, the consequences associated with contravention of section 58A of the Companies Act, 1956 will be diluted.

GRIEF has underwritten entire capacity for FIBC Bags at J-61, plant at Murbad and TPI has entered into Job-work arrangement with GRIEF for FIBC bags due to lack of working capital. The World wide market for FIBCs is estimated at approximately 240 million bags per annum out of which GRIEF alone as 10% share through its activities in 28 countries. The Indian market is also growing very fast though the current size is only about 4 million bags per annum and this market is expected to go upto more than 12% p.a.
