Management Discussion and Analysis

Overall review, industry Structure and Developments:

Presently your Company is engaged in manufacturing of FIBCs and Kraft Lined Paper Bags (KLBs) at its Murbad unit. Till Nov.2014, the Company unit at J-61 was operating under a Job-work arrangement with GRIEF India. But under their consolidation strategy, GRIEF has decided to wind up its operations in India, thereby not renewing the agreement. Pursuant to that, your company has started its own sales of FIBCs and are catering to many blue chip companies.

Opportunities and Threat

With our own sale of FIBCs under TPis brand name the product will reach the same customers in our name which will renew our own brand in FIBC business which was dormant for a long period. FIBC being a huge market in India and overseas your company is an opportunity to enter into the export market and are looking at various avenues for export and expecting to see some concrete results in the coming financial year.

The FIBC business of your company is still at a growing stage and faces major threats from competition in terms of price.

Segment wise Performance

Presently the Company deals in one segment only which is manufacturing of packaging items.

Future Outlook

With our own entry in the market for FIBC along with existing KLBs, as mentioned above, the Management is confident of reaching optimum level of capacity utilization and serve its customers at competitive rate. You can see in the financial statement that, due to high cost of borrowing the bottom line is thin and now with sanction of the Modified Draft Rehabilitation Scheme from BIFR, the Company will be no longer be a Sick Company and can borrow funds at normal bank rate of interest and there will be a substantial saving, improving the bottom line. Further allowance of the relief & concessions by BIFR as mentioned in Modified Draft Rehabilitation Scheme, will strengthen the financial position of the Company.

Your sales team has identified overseas customer and plan for overseas market, the result of which can be seen in the financials of 2015-16

Internal control System

The Company has adequate internal control systems, which provide, among other things, reasonable assurance of recording the transaction of its operations in all material respects and provide protection against significance misuse of loss of Company's assets.

Human relations

The Company believes that the manpower and business network consisting of human being is the primary and most valuable resources to the growth of organization. Your Company put all its efforts for sound and healthy human relation for development of trade and organization.

Financial performance with respect to operational performance

Due to high cost of funding and financial constraint being SICK Company, The Management is putting all its effort for achieving best level of operation. Once these constraints is resolved, the cost saving on Purchase strategy, Process improvement giving better yield and up-gradation on existing equipment will have multiplying impact on the financial performance.
