MANAGEMENT DISCUSSION AND ANALYSIS

Overall review, industry Structure and Developments:

Your company is mainly engaged in the manufacturing of FIBC (Flexible Intermediate Bulk Containers) or more commonly known as Jumbo Bags. Company is operating in a Niche market with a set of committed customers who continue to be satisfied with our quality and services.

China and India have both experienced a broad improvement in macro-economy conditions, especially as low energy prices eased inflationary pressures. The Packaging Industry includes woven sacks, leno bags, wrapping fabrics and FIBC. The FIBC is expected to grow in the coming year riding an increased industrial production and a shift towards high-value container offering enhanced performance and supply chain efficiency.

For FY 2017-18, TPI will primarily focus on two key areas:

- Restructure the current debt of the company to optimum level to bring down finance cost
- Increase capacity utilization and turnaround the growth of the company

Opportunities and Threat

The export market of FIBC from India is tremendous today. Around 40% of the world FIBCs are supplied from India. Company is making efforts into entering the exports market in Europe, North America and the Middle East and hope to yield some very positive results and cater successfully to these markets

One of the major reasons of this market share from India is majorly due to labour but considering the sort of industrial boom that is taking place in our country alongwith rapid growth in economy and schemes from the government workers in all categories will have more options as well as start demanding higher salaries. However the management has adequate systems in place to constantly monitor manpower requirement, provide internal training and is also introducing new initiatives to reduce attrition rates.

Management is also taking steps to improve cost effectiveness, excellence in product quality, customer service and operational productivity.

Segment wise Performance

Presently the Company deals in one segment only which is manufacturing of packaging items.

Future Outlook

Considering the ever increasing demand for packaging products and specially FIBC,

In the 1st Phase, once the proposed Debt restructuring proposal goes through with financial institution, the Company is confident to increase capacity utilisation from previous level by mobilising the required working capital and undertaking need based Capital Expenditure. The Company will make all efforts to cross turnover of Rs. 50 crores by 2019.

In the 2nd Phase, Company will undertake substantial capital expenditure to double the production capacity to meet the Export market and also manufacture value added FIBC products, this will enable company to reach turnover to Rs. 100 crore by 2020.

Internal control System

The Company has adequate system of internal control with regards to purchase of stores, raw materials including components, Plant & Machineries, equipments, sale of goods. The internal control system is supplemented by well documented policies and guidelines and is conducted by outside auditing firm. The Internal Audit Report are periodically put to and are reviewed by Audit Committee and top Management on quarterly basis.

Human relations

The Company views at employee as valuable resources who are important stakeholder in the growth, prosperity and development of the organization. The Company is committed to provide necessary training / conduct development programs to provide necessary skills required within the employee. The Management of the Company enjoy cordial relations with its employee at all levels.

Financial performance with respect to operational performance

For the want of additional working capital, the Company operates at low capacity utilization resulting, the operational cash profit is low and further due to high cost of borrowing the bottom line is resulted in loss. The financial constraint is also due to your Company being Sick Company. However the Management is putting all its effort for achieving best level of operation. “Annexure B” to the Independent Auditor’s Report of even date on the Financial Statements of TPI India Ltd (refer to in Paragraph II 2. f) of Independent Auditor’s Report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

To the Members of TPI India Limited

We have audited the internal financial controls over financial reporting of TPI India Limited (“the Company”) as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company has in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
