The entire issued, subscribed and paid up share capital of the BKT Exim held by the Company shall stand cancelled in the books of BKT Exim.

OUTLOOK FOR THE CURRENT YEAR 2016-2017:

The Company's earnings are mainly generated through exports. Due to recessionary trends across the globe during past few years, the business environment has been tough and challenging which has marginally impacted the revenue of the company during the previous year. However, the long-term prospects of the company are good and promising. Your Company is exploring all the avenues to ensure growth of the business which includes; deeper penetration into existing market within India as well as outside India, extending relationship with OEMs and expanding product range. With all such efforts, your Company has aimed to achieve higher sales during the current year.

OPPORTUNITY & THREATS:**OPPORTUNITIES:**

Your Company operates into a segment predominantly known as "large varieties-low volume segment", which is not only capital intensive but also labour intensive. Your Company is fully geared up to take advantage of the peculiarities of the said segment and has developed a large base of SKUs to meet the diverse needs and applications.

Moreover, this segment is neither exposed to any technological obsolescence nor wild fluctuations in demand for its products.

The Company is continuously marching ahead to encash incremental opportunity in the form of developing "Earthmovers & mining tyres markets and taking advantage of the shift from bias to radial tires, which is growing up continuously. In order to take advantage of this opportunity, the Company had first set up an all-steel OTR Radial tyre plant at its Chopanki location and now have added further capacity at its Bhuj plant to produce large size all steel OTR radial tires besides other categories of tires. Your Company is proud to be first Company in India to set up such plant. Your Company is continuously expanding its base into its various sub-segments like agricultural, industrial, construction, mining, winter and solid tyres under both technologies – bias as well as radials.

THREATS:

Like any other Company, your Company is also exposed to various threats like competition from small players, retention of employees, labor unrest, increase in raw material prices and other input costs etc.

RISKS / CONCERNS AND RISK MITIGATION:

Fluctuation in Raw Material prices: The Company's major raw material is Natural Rubber, which is an agricultural commodity and actively traded on the commodities exchanges. Its prices fluctuate significantly and have witnessed significant volatility in the past. During last two years, the raw material prices have been soft in the backdrop of subdued business environment across the globe. Of late, it has started moving up. In certain raw materials, the movement has been sharp. We do not foresee any immediate reversal in the price trend.

In order to minimize such risks, the Company not only enters into medium-term contracts but also adopts the policy to "Buy and Stock" large quantities during the lean period.

Since most of the raw materials are imported, the company is exposed to foreign currency risk. However, it enjoys natural hedge as most of its revenues are in foreign currency.

Labour Relations: Since Company's manufacturing process is that of batch processing, it requires lot of skilled as well as un-skilled workers. Maintaining a huge work force is a big challenge.

In order to mitigate the said risk, the Company follows good HR practices to promote the welfare, safety of its workmen and improve the work environment. All workers are paid more than adequate remuneration for their work.

Retention of skilled manpower: Like other players in the industry, the Company is also exposed to this risk, more particularly when there is shortage of skilled manpower in the industry.

The Company is able to manage the said risk by good HR practices and rewarding its employees handsomely.

Currency fluctuation: As stated earlier the company revenues are mainly generated through exports. The Company also imports lot of its raw materials and capital equipment's. Moreover, all its borrowings are in foreign currency and it is therefore exposed to risks due to currency fluctuations.

The Company follows the system of hedging its receivables (net off payables) well in advance by entering into Forward Contracts, thereby protecting itself from the fluctuations in currencies.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY:

The Company has adequate system of internal controls to ensure that all the assets are safeguarded and are productive. Necessary checks and balances are in place to ensure that transactions are adequately authorized and reported correctly. The Internal Auditors of the Company conduct Audits of various departments to ensure that the necessary controls are in place. The Audit Committee of the Board reviews these and the Company, when needed, takes corrective actions.

HUMAN RESOURCES:

The Company's human resources continue to be its biggest asset. The team has remained as committed as ever and produced results that are considered significant. Quality, quick delivery and focus on resolving customer issues are the hallmark of the team performance. Commodity price risk or foreign exchange risk and hedging activities

Fluctuation in Raw Material prices: The Company's major raw material is Natural Rubber, which is an agricultural commodity and actively traded on the commodities exchanges. Its prices fluctuate significantly and have witnessed significant volatility in the past. During last two years, the raw material prices have been soft in the back drop of subdued business environment across the globe. Of late, it has started moving up. In certain raw materials, the movement has been sharp. We do not foresee any immediate reversal in the price trend.

In order to minimize such risks, the Company not only enters into medium-term contracts but also adopts the policy to "Buy and Stock" large quantities during the lean period.

Since most of the raw materials are imported, the company is exposed to foreign currency risk. However, it enjoys natural hedge as most of its revenues are in foreign currency.

Currency fluctuation: As stated earlier the company revenues are mainly generated through exports. The Company also imports lot of its raw materials and capital equipment's. Moreover, all its borrowings are in foreign currency and it is therefore exposed to risks due to currency fluctuations.

The Company follows the system of hedging its receivables (net off payables) well in advance by entering into Forward Contracts, thereby protecting itself from the fluctuations in currencies.

The details of foreign currency exposure are disclosed in Note No. 44 to the Standalone Financial Statements.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. Annexure - B To The Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Balkrishna Industries Limited ("the Company") as of 31 March 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE - A TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2016, we have audited the internal financial controls over financial reporting of Balkrishna Industries Limited ("the Holding Company") and its subsidiary companies which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.
