Execution holds the key

In the parlance of business, the occurrence of getting the strategy right remains much higher than getting the execution right. When it comes to real estate, execution is a vital differentiator. Keeping the strategic direction of business constant, at Peninsula Land, we are steadfastly sharpening our execution prowess across a wide range of aspects and functions including corporate structure, inventory planning, project development, cost and time efficiency.

Building Execution Excellence remained the driving theme of our business during the last year and the same continues to guide all our actions in the current year as well. We are glad to share the snapshots of our Execution Focus as the central theme of this Annual Report. We firmly believe, **execution holds the key.**

Message from the Chairperson

Dear Shareholders,

It is a matter of privilege to present to you Peninsula Land's performance for 2013-14. Countries across the globe witnessed a bit of a slowdown in their economic growth in the first half of 2013-14 but showed improvement in the second half. Despite the volatile economic condition, your Company performed reasonably well and our projects have been received well by all stakeholders.

World Economy:

Global economic growth remained subdued during the year at 3% as against 3.2% the previous year. According to International Monetary Fund (IMF), the global economic recovery is predicted to pick up pace this year but likely to remain weak and uneven. The recovery in global growth is likely to witness new risks. The conflicts in Iraq, Libya, Palestine and Ukraine add significant geopolitical risk to this outlook. Large disruptions in gas supplies to Eastern Europe or oil supplies in Libya and Iraq could put upward pressure on gas and oil prices and further dampen global economic growth, says the IMF report.

Indian Economy:

India's economic growth slowed to 4.6% in 2013-14. It fell short of the estimated 4.9% predicted at the beginning of the year.

The Reserve Bank of India has said that the Indian economic growth is poised for a take-off in 2014-15 amid signs of fiscal consolidation and projected improvement in investments. It has forecast that India's GDP is likely to grow about 5.5% in 2014-15, after two consecutive years of sub 5% growth.

The investment demand in India is likely to pick up gradually in 2014-15, as the Cabinet Committee on Investments (CCI) is expected to clear more projects. Fast tracking of projects is expected to provide the much required fillip to the construction activity in India and generate fresh employment. The land acquisition process has become easier, post implementation of the new land acquisition act and likely to benefit the real estate sector.

The Real Estate Sector:

The sector had its share of upheavals as the performance of the sector is linked to the global and domestic economic scenario. During the year, the demand for real estate

“During the year, Peninsula Land launched new projects in Mumbai and Pune. The ground work for launching the first project in Bengaluru has been completed and it is likely to be launched soon. Your Company will concentrate on timely execution of projects. Currently, Peninsula Land has over 18 mn sq.ft. of development in pipeline primarily in Mumbai, Pune and Bengaluru.”

remained subdued, compounded by a cautious approach by investors and home buyers.

The Indian real estate sector continues to be a favourable destination for investors across the globe. The surge in the urban population will continue to put pressure on creating more housing stock. According to ASSOCHAM, there is a shortage of almost 27 million dwelling units today.

The real estate sector has been a major contributor to India's economic growth and accounts for 6.3% of the nation's GDP. It is also a source of revenue for the Central, State and Local governments and provides employment to more than 50 million people. The sector also supports ancillary industries such as building material and cement.

On the negative side, the real estate sector is burdened with high costs: construction cost has increased by 40% in the last two years. On its part, the government took a few positive steps during the year which will provide the much-desired fillip to the sector.

The government's move to introduce Real Estate Investment Trusts (REITs) is a progressive step. REITs are a great instrument to tap cash flow into the Indian economy, and help smaller investors' access income-generating real estate assets. It will help both developers and investors, by creating liquidity in the market.

The announcement by the government during the Budget to raise the taxable limit on interest payable on home loan from ₹ 1.5 lakhs to ₹ 2 lakh is likely to make home buying more attractive.

Peninsula Land:

Your Company has performed well during the year and the projects have received encouraging response.

During the year, your Company launched new projects in Mumbai and Pune. The ground work for launching the first project in Bengaluru has been completed and it is likely to be launched soon. This is in line with our business strategy to expand our operations in west and south India.

In Mumbai, work is in progress on two projects: Bishopgate at Breach Candy and Celestia Spaces (phase I) at Sewree. These projects have generated keen interest from investors.

Construction work is progressing as scheduled at Ashok Beleza at Goa, Ashok Astoria at Nasik, Ashok Nirvan at Lonavala and Ashok Meadows at Pune. All these residential projects have evinced interest from the investors and we have sold a substantial share of the completed portions of these projects.

We will continue with our focus on Mumbai, Pune and Bengaluru as these are growing markets.

Your Company will concentrate on timely execution of projects. Currently, Peninsula Land has 6 projects under execution with a salable area of 2.3 mn sq ft. With another 16 mn sq.ft. of development in the pipeline, your Company will continue to generate healthy revenues going forward.

While on one hand, Peninsula Land concentrated on creating value for all shareholders, on the other, your Company focused on strengthening itself internally. During the year, we introduced the cluster concept to focus on timely execution and handover of projects to our customers.

Each cluster has an individual head, supported by a design and execution team. Each cluster handles one or more projects, depending on the size and location of the projects. This will ensure timely execution of projects that in turn will help arrest cost over-runs.

All these initiatives along with our strong governance practices will further strengthen Peninsula Land.

Way Ahead:

Peninsula Land has always followed a risk-averse policy backed by a prudent investment strategy. Over the years, your Company has strengthened internal systems, created a strong pipeline of projects and focused on timely completion of projects.

Going forward, I am confident that Peninsula Land will continue to deliver good performances. Last but not the least, I would like to thank all of you for the support and confidence you have reposed in us.

Warm Regards
Urvi Piramal

Execution for structural growth

Over the last 17 years, we have delivered 6.4 mn sq.ft. of real estate across all key segments of the sector. During this time, we have grown significantly in scale as well as spread. Over the next few years, we are poised to deliver premium real estate development of close to 16 mn sq.ft. Unlike the past, this development is spread across various growing cities in west and south India.

It was, therefore, pertinent that we adopt a new business structure to support our growth structure and also keep up with the dynamic and evolving demands from the sector. We implemented a new corporate structure, whereby we adopted a unique cluster concept. Under this concept, each project is headed by a cluster head and is ably supported by a dedicated cross-functional team of architects, planners, finance, compliance, utilities, construction managers and contractors at the site. Each cluster head has complete ownership of the projects assigned to him and reports to the chief operating officer. At an operational level, this structure gives us the flexibility of adding or reallocating projects across clusters and enabling scale.

Additionally, the structure allows the senior management to engage with cluster heads at a strategic level while the complete ownership of implementing strategy at an operational level rests with individual cluster heads.

Ashok Meadows

Execution for project profitability

While our strategic blueprint is already in place, it is the execution of these strategies at corporate as well as project management levels that will define our growth. We have always followed a risk-averse and prudent investment business strategy. Over the years, we have been consistently improving our execution framework to create faster deliveries, lower operational costs and higher profitability.

During the year, we focused on increasing accountability and responsibility across the entire system. The new structure enables us to procure raw material and contractual services in a localized manner, which will reduce cost and enhance our time efficiency. Cluster heads work closely with their teams: the direct mapping of resources and projects to cluster allows real-time supervision and enables assessment of projects against their commercial targets and budgets.

By redefining organization's success and profitability, each cluster will strive to deliver higher profits and return on investment. A centralized procurement and contracts team assigned to various clusters will help in bringing down cost and improving productivity.

Peninsula Business Park

Execution for sustained leadership

Since our inception in 1997, we have remained among India's top ranking real estate companies. We were one of the first real estate companies to be listed on the Indian stock exchanges. In many ways, we have been instrumental in bringing uniqueness to Mumbai's real estate market. We developed India's first mall of international repute, were the first one to develop mill land in Mumbai which subsequently attracted leading Indian & global corporate into the region. This in turn led to the development of an alternate business district.

We were amongst the first ones to develop modern residential apartments with world-class amenities offering best living experiences to our customers. Invariably, it has been our ability to see the trend and our conviction in our capabilities to deliver, that have helped us in developing signature real estate much ahead of time and in accordance with our customers' aspirations.

As our appetite to grow amplifies, in the next phase of growth, we have identified Pune and Bengaluru as our key new growth markets. We strongly believe that our growth can sustain only by creating an ever increasing pool of satisfied customers, a feat we have been delivering year on year. We have already created a strong pipeline of projects in these markets. By leveraging our well-developed execution capabilities and goodwill generated over the years, we are all set to gain the leadership position in our two new markets as well.

Management Discussion & Analysis

Economic Overview

Global Economy

The economic environment in 2013 began on a weak note but the second half of the year fared better, setting a positive tone for 2014. Economic growth clocked an average of 3.7 % during the second half of the year, a marked improvement from 2.7% in the first half. A major contributor to this growth was the United States which grew at 3.2% during the second half. Overall, the global economy for the year ended at 3% as against 3.2% the previous year.

During the second half of the year, most macro indicators saw considerable improvement, underlining the gradual strengthening of the global economy. Steady improvement in the US economy led to considerable fall in its unemployment rate to 6.3% in April 2014, the lowest since September 2008, and much better than projected at the start of the year. Europe also recovered and saw its growth turning positive in the second half of the year, after six consecutive quarters of contraction.

According to the forecast by International Monetary Fund (IMF), the global growth is projected to strengthen from 3% to 3.6% in 2014 and 3.9% in 2015. The economic growth in advanced economies is expected to increase to about 2.3% in 2014. The growth in the European region is expected to be varied but weaker in countries with high debt.

In Japan, some underlying growth drivers are expected to strengthen, notably private investment and exports given the substantial yen depreciation over the past 12 months.

Source: IMF

A report by IMF states that the growth in developing economies is projected to pick up gradually from 4.7% to about 5% in 2014 and 5.3% in 2015. This growth will be helped by stronger demand from advanced economies.

Indian Economy

The fiscal 2013-14 (FY14) proved to be another challenging year for the Indian Economy. A slew of factors such as delays in regulatory approvals, laggard execution of infrastructure & industrial projects, significant drop in corporate investments and higher interest rates led to moderation in the country's growth momentum.

Source: RBI & CSO

The Central Statistics Office (CSO) has estimated that the Indian economy expanded at 4.7% in FY14, marginally higher than the 4.5% growth recorded in FY13. However, for the second consecutive year, the economic growth remained below the 5% mark.

Agriculture and exports witnessed strong growth while the economy was pulled down by manufacturing which witnessed contraction this year for the first time since 1991-92. Inflation, especially the consumer price index (CPI), remained uncomfortably high during the year, resulting in higher interest rates. The high interest rates in turn impacted the overall investment environment. The Index of Industrial Production (IIP) remained in the negative zone for most part of the year.

In line with global macroeconomic environment, India saw considerable improvement in most of its key macro-economic variables in the second half of the year. While the domestic confidence remained weak, high interest of foreign investors was visible through the sharp surge in the foreign capital coming in to India. The dramatic improvement in the current account deficit (CAD), from 6.7% in Q3FY13 to 0.9% in Q3FY14, along with the increase in capital account surplus led to considerable improvement in balance of payments.

In its annual report on the state of the Indian economy, the IMF said that India has restored its macroeconomic and financial stability, but persistently high inflation remains a key concern.

The report stated that although spill overs from global financial market volatility continue to pose a significant risk, the Indian economy is now better placed to handle financial shocks.

The Confederation of Indian Industries (CII) expects some pick up in investment as the de-clogging of the project pipeline would help revive demand in the economy.

Real Estate Sector

The volatility in the global economy led to a considerable reduction in the FDI flow into the Indian real estate sector in the last two years.

During the year, all four key segments of Real estate sector viz. Residential, Commercial, Retail and Hospitality witnessed subdued growth.

The demand was impacted by a slew of factors including restrained spending by corporate and individual buyers, high inflation, high borrowing cost and tightening lending norms. Overall, buyers and investors maintained a cautious outlook due to macroeconomic and policy uncertainties.

On the positive side, the government stepped in and took a few positive steps that would help to enhance transparency and revive long term demand for the sector. SEBI introduced a draft regulatory framework for Real Estate Investment Trusts (REITs) that once legislated, will help to enhance liquidity of real estate. Another positive development during the year was the introduction of Real Estate Bill that proposes to set up a real estate regulator for every state and union territory. This will help to enhance the confidence of end users and investors thereby boosting new investment into the sector. The third important development was enactment of Rehabilitation and Resettlement Act that promises to fairly compensate the land owners for their land and re-settlement charges.

The year 2013 witnessed a steep 65% decline in investments made in the real estate sector to USD 1.2 billion against USD 3.4 billion in the year 2012. The total investments in the residential segment saw an increase of 42% to ₹ 4,050 crores during the year 2013. The private equity inflows in realty sector saw a 13% increase to INR 7,000 crores compared to INR 6,200 crores during the year 2012.

The first quarter of 2014 recorded a robust growth in private equity inflows into the real estate sector and was the highest since the second quarter of 2009. The inflows recorded at USD 460 million or ₹ 2,800 crores grew at close to 150% compared to Q12013. Bengaluru received over two third of these inflows followed by Mumbai. (Source: Cushman & Wakefield)

Residential

As per a report by Cushman & Wakefield, the residential project launches during the year saw a decline of 12%. Of our key focus markets, Mumbai and Bengaluru saw a growth of 6% and 15% respectively, while Pune saw a decline of 20% in new project launches. The capital value in most of our key focus markets increased, albeit modestly, during the financial year.

Source: NHB

During the year, the demand for residential properties was impacted by high inflation and higher cost of borrowing. Developers also saw challenges in form of higher input cost, labour shortages, and difficulties in raising fresh capital, high interest rates and delays in regulatory approvals.

The shortage of residential apartments is likely to continue over the medium to long term due to increasing percentage of working age population, fast growing urbanization and demographic shift. A Cushman & Wakefield report indicates a demand of 12 million new units over the five year period from 2013 to 2017. The report further states that in the top eight cities, the demand supply gap is likely to be around 45%.

Commercial

The demand for commercial space is driven by outsourcing industries like IT-BPM, BFSI and manufacturing. Commercial real estate has been one of the most impacted segments due to the economic slowdown and also due to the extreme caution exercised by corporate resulting in sharp reduction in new investments.

A report by Cushman & Wakefield states that in the year 2013, the net absorption of office leasing space, across the top eight Indian cities declined by 25% to 23 million sq. ft. over the previous year. Pune was the only city to see a demand growth of 15% during the year. Helped by 14% decline in new supply, vacancy rates saw a marginal 60 bps increase to 19.4% at the end of 2013.

Going forward, the improving economic outlook of developed economies should lead to more demand from export oriented sectors such as IT-BPM and pharmaceuticals. During the first quarter of 2014, the demand for office leasing space increased by a sharp 58% to 5.9 million sq. ft. over 2013. New banking licences along with projected recovery of the Indian economy should further accelerate the demand for organized commercial space over the next few years.

Business Segment Review

During the year, Peninsula Land focused on strengthening its business fundamentals. It worked on initiatives to improve costs, introduce best-in-class operations processes, and put in place an effective organization structure that brought about better accountability and responsibility.

Peninsula Land transitioned from a functional organization to a project-based organization. A Chief Operating Officer (COO) was appointed to oversee all operations. Individual projects were allocated to Clusters, which now comprise of cross functional teams that look after architectural design, planning, costing and construction at site.

This model is highly scalable as new clusters can be added/ re-allocated as per the business requirements. The COOs office was augmented by functional experts and a centralised Procurements and Contracts team to service the various clusters.

We launched new projects in Mumbai and Pune and completed the groundwork to launch our first project in Bengaluru. Mumbai, Pune and Bengaluru continue to remain our key focus markets and we are witnessing traction in each of these markets.

Outlook

Over the last few years, both commercial and housing sectors have seen stagnation in demand. Going forward, gradual improvement in most macroeconomic indicators and reduction in borrowing cost may help the sector to revive its growth momentum. Most economists expect an improvement in the economic growth in the next 2-3 years.

The depreciation of INR against dollar and euro has made India an attractive outsourcing destination. Steady recovery in most advanced economies would also help to create more outsourcing jobs from sectors such as IT-BPM, consulting, research, BFSI, pharmaceuticals and this would also aid in improving the real estate demand.

As per a Q12014 Knight Frank report on real estate sentiment index, there has been a marked improvement in both current and future sentiments in just a three month period. Further, the number of positive steps taken in the budget such as reduction in the minimum capitalization and project size required for FDI, extension of tax incentives to individual housing loan borrowers and introduction of REITs and development plan for 100 smart cities would significantly aid the sector's growth.

Risk Management

Risk is an integral part of any business transaction. In today's device independent and location independent globalized world, the increasing integration of new resources demand equivalent strengthening of the risk management systems. For a capital intensive company like ours, a robust risk assessment and mitigation framework becomes critical for long term sustenance.

We have a robust risk management framework that facilitates risk assessment and mitigation procedure, lays down reporting procedure and enables timely reviews by the management. Our key risk areas are similar to other players in the business of real estate development. A few of the key risks and the mitigation measures are as follows:

Risk	Description	Mitigation Plan
Economic Risk	Real estate being a capital intensive industry has very strong correlation with both domestic and global growth. A slowdown can restraint both fresh demand and availability of capital.	Peninsula Land has defined internal prudential norms to cap adverse risk to company's sustainability. Its land bank are at vantage locations and comparatively more liquid, the Company maintains a low debt equity ratio, comfortable liquidity, strong brand premium and focus on select markets and minimize the impact of adverse macroeconomic conditions.
Execution Risk	Execution delay may results in cost overruns and may also negatively impact company's reputation and returns. A real estate project generally is a long gestation project that generally spans across years and delays can cost dearly in form of higher than expected input cost and higher than anticipated interest burden.	Peninsula Land has put in place processes that include milestone based time & quality checks that help to ensure adherence to quality, cost and delivery as per the plan. The Company deploys a well-defined standard operating procedure – from project planning to delivery – and adheres to rigorous internal checks and balances with regard to every project. Additionally, the Company launches its project in phased manner that ensures minimal impact of market volatility and ability to match supply with the current market demand.
Land Acquisition Risk	Well located land bank is the scarcest raw material in India. Additionally, in most of our focus markets, it forms major component of overall expenditure. Delay in land acquisition due to title ambiguity, interference from local residents or any other reason can have a significant impact on the company.	Peninsula Land does a multi-level due diligence to verify title ownership and its immediate availability before taking final decision. The Company has a pool of competent counsels and also hires external consultant as required.
Contractor/ sub-contractor performance	Risk to earnings arising from vendor's failure to meet the terms as stated in the contract. A vendor may not be able or willing to meet the commitment as indicated in the contract	Given the strong history and lineage of Peninsula Land, the Company has developed a list of preferred vendors and strong working relationship with them. The Company due to its close association is also aware of their financial condition
Input Price Risk	Risk to earnings arising from the volatility in the price of key inputs. Many of the real estate projects are usually sold on "no price escalation" basis, leaving the adverse impact of rise in input cost to be borne by the Company. Also given that real estate projects generally are long gestation project, the likely hood of such event happening is high	Peninsula Land takes this risk into account at the time of launch, and usually sells the projects in a phased manner. The Company is able to pass the hike in input cost in form of higher realizations.

Internal Control Systems

Effective internal control systems are of paramount importance for a company like Peninsula Land where every project demands a unique set of employees and partners. The Company through a set of well-established internal control systems promotes adherence to prescribed processes and procedures, ethical conduct, transparent & reliable reporting, periodic monitoring by the designated personnel.

The Company's internal control system ensure timely recording of all transactions, maintenance of financial records, optimal utilization of Company's resources and preservation of

Company's assets. The Company has got a professionally managed internal team in place, which carries out the internal audits from time to time coupled with external and internal auditors. The team reviews the practices carried out by Company in following various SOPs and while executing projects. It suggests benchmark policies followed in the sector, to upgrade the methods followed by Company.

In the beginning of every year, the audit committee in consultation with independent internal auditors and the management finalizes the audit plan for the year. The committee also periodically reviews different risk and shares the finding with the

management, respective owners and other stakeholders and post discussion takes appropriate timely action.

Human Resource

Peninsula Land's modern training programme and meritocracy based culture motivates employees to take larger responsibilities and deliver higher level of performance. Peninsula Land has a periodic employee appraisal schemes in place that facilitate the review of employees' performance with their managers and which seek to identify training and development needs and opportunities.

During the year, Peninsula Land developed a more effective organization structure by creating clusters that would entirely be responsible for execution of a set of two or more projects within the specified geographical location. This model allows individual to gain cross functional exposure, the flattened organization structure allows individual employees a higher visibility & reach to the Company's senior resources and a greater opportunity to participate in both cluster and organization growth.

22 Significant Accounting Policies

I Basis of Accounting

The Financial statements have been prepared and presented under historical cost convention on the accrual basis of accounting in accordance with the accounting principles generally accepted in India ("GAAP") and comply with the mandatory accounting standards ("AS") as notified by the Companies Accounting Standard (Rules), 2006 to the extent applicable and with the relevant provisions of the Companies Act, 1956.

II Use of Estimates

The preparation of financial statements in conformity with GAAP requires Management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent liabilities on the date of financial statements and reported amount of revenue and expenses for the year. Actual results could differ from these estimates. Difference between the actual result and estimates are recognized in the year in which results are known / materialized. Any revision to an accounting estimate is recognised prospectively in the year of revision.

III Revenue Recognition

- (a) The Company is in the business of Real estate Development. Revenue from sale of properties under construction is recognised on the basis of actual bookings done (provided the significant risks and rewards have been transferred to the buyer and there is reasonable certainty of realisation of the monies) using the Percentage of Completion Method. Revenue is recognised in accordance with the guidelines prescribed by the **"Guidance note on Accounting Treatment for real estate transactions (Revised 2012)" issued by the Institute of Chartered Accountants of India**, inter alia, with regard to thresholds for commencement of revenue recognition for projects and the basis for determining percentage of completion.
- (b) Revenue from sale of completed properties (Finished Realty Stock) is recognised upon transfer of significant risks and rewards to the buyer.

- (b) Inventories are valued at lower of cost and net realisable value.
- (c) Cost of Realty construction / development is charged to the Statement of Profit and Loss in proportion to the revenue recognised during the period and the balance cost is carried over under Inventory as part of either Realty Work- in-Progress or Finished Realty Stock. Cost of Realty construction / development includes all costs directly related to the Project and other expenditure as identified by the Management which are incurred for the purpose of executing and securing the completion of the Project (net off incidental recoveries / receipts) upto the date of receipt of occupancy certificate from the relevant authorities.

- (ii) Expenses incurred for acquisition of capital assets excluding advances paid towards the acquisition of fixed assets outstanding at each Balance Sheet date are disclosed under Capital Work in Progress.

(b) Intangible Assets

Intangible Assets are recorded at the consideration paid for the acquisition.

23 NOTES FORMING PART OF FINANCIAL STATEMENTS

- 1 In the opinion of the Board, the current assets, loans and advances are approximately of the value stated if realised in the ordinary course of business. The provisions for all known liabilities are adequate.
- 2 The financial statements for the year ended March 31, 2014 have considered the effect of a Composite Scheme of Arrangement and Amalgamation u/s 391 to 394 of the Companies Act 1956 (Scheme), duly sanctioned by the High Court of Judicature at Mumbai vide its order dated 25th October 2013 and filed with the ROC on 7th November 2013 (Effective Date), whereby the company has taken over the real estate businesses of four of its wholly owned subsidiaries as under:
 - (a) Demerger of the real estate business undertaking of Peninsula Mega Township Developers Limited ("Demerged Undertaking") into the Company with effect from the appointed date of 1st of April 2013.
 - (b) Amalgamation of Wismore Real Estate Private Limited, R R Mega Property Developers Private Limited and City Parks Private Limited ("Amalgamating entities") with the Company with effect from the Appointed Dates of 1st April 2013, 1st April 2013 and 1st August 2013 respectively.
- 3 To the extent of the effect of the Scheme, the current year's figures are not comparable with the previous year figures.
- 4 Pursuant to and as stipulated in the Scheme, the Company has, on appointed date, inter alia restated (in case of demerged undertaking) and recorded (in the case of amalgamating entities) the value of real estate work in progress in its books lower by ₹ 86.85 crores and ₹ 134.39 crores respectively, to comprise only cost of land and directly attributable operational costs of development activities. All other assets and liabilities are recorded at their respective book values. This along with other accounting effects of the Scheme aggregating to ₹ 92.98 crores (comprising of cancellation of investments of ₹ 72.60 crores, other merger related effects and expenses of ₹ 10.01 crores and provision for diminution in value of advances given to employee stock option trust of ₹ 10.37 crores) have been adjusted against the Capital Reserve - ₹ 1.85 crores and against the General Reserve - ₹ 230.24 crores (net of the tax effect thereon of ₹ 82.13 crores). The tax effect pertaining to the current year of ₹ 21.05 crores has been charged to P&L A/c as a part of tax expense and the remaining unadjusted tax effect of ₹ 61.08 crores is carried forward under other current assets. This is in compliance with the Announcement of ICAI relating to accounting for "Tax adjustments of expenses directly debited to Reserves".
- 5 Though mandated by the Scheme duly sanctioned by the Honorable High Court of Mumbai, the aforesaid accounting treatment of recording of real estate WIP of amalgamating entities at their defined value as aforesaid and the adjustment of the aforesaid amounts against Reserves instead of routing the same through Statement of Profit & Loss is not entirely in conformity with Accounting Standard AS-14 "Accounting for Amalgamations". Had the same been routed through profit and loss account, the profit would have been lower by ₹ 293.17 crores.
- 6 No shares have been allotted or any consideration paid pursuant to the scheme as the respective merging entities are wholly owned subsidiaries of the company.
- 7 Employee benefit expenses include ₹ 9.55 crores paid as the contracted remuneration to three executive directors in whole-time employment with the company, of which ₹ 3.26 crores is in excess of the limits specified in section 309 read with Section 198 of the Companies Act, 1956, which has resulted due to lower profit for the year. The Company had, during the year, applied to the Central Government under section 309 (5B) of the Act, for approval of such excess remuneration paid and the same is awaited.

Independent Auditors' Report

To the Board of Directors of Peninsula Land Limited

We have audited the accompanying consolidated financial statements of **Peninsula Land Limited** ("the Company") and its subsidiaries, associates and joint ventures (the Company, its subsidiaries, associates and joint ventures constitute "the Group") which comprise the Consolidated Balance Sheet as at March 31, 2014, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation of these consolidated financial statements on the basis of separate financial statements and other financial information regarding components that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with accounting principles generally accepted in India. This includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and presentation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not

for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

We report that the consolidated financial statements have been prepared by the Company's Management in accordance with the requirements of Accounting Standard (AS) 21 "Consolidated Financial Statements", Accounting Standard (AS) 23 "Accounting for Investments in Associates in Consolidated Financial Statements" and Accounting Standard (AS) 27 "Financial Reporting of Interests in Joint Ventures" as notified pursuant to the Companies (Accounting Standards) Rules, 2006 and on the basis of the separate financial statements of Peninsula Land Limited, its subsidiaries (including subsidiaries of subsidiaries), associates, joint ventures and step-down joint venture.

 - f In case of joint venture, the Audited financial statements as on 31st March, 2014 have been consolidated as per Accounting Standard - AS 27 "Financial Reporting of Interest in Joint Ventures" using proportionate consolidation method.
- 2 In the opinion of the Board, the current assets, loans and advances are approximately of the value stated if realised in the ordinary course of business. The provisions for all known liabilities are adequate.
 - 3 The financial statements for the year ended March 31, 2014 have considered the effect of a Composite Scheme of Arrangement and Amalgamation u/s 391 to 394 of the Companies Act 1956 (Scheme), duly sanctioned by the High Court of Judicature at Mumbai vide its order dated 25th October 2013 and filed with the ROC on 7th November 2013 (Effective Date), whereby the company has taken over the real estate businesses of four of its wholly owned subsidiaries as under:
 - (a) Demerger of the real estate business undertaking of Peninsula Mega Township Developers Limited ("Demerged Undertaking") into the Company with effect from the appointed date of 1st of April 2013.
 - (b) Amalgamation of Wismore Real Estate Private Limited, R R Mega Property Developers Private Limited and City Parks Private Limited ("Amalgamating entities") with the Company with effect from the Appointed Dates of 1st April 2013, 1st April 2013 and 1st August 2013 respectively.

- 4 "To the extent of the effect of the Scheme, the current year's figures are not comparable with the previous year figures."
- 5 Pursuant to and as stipulated in the Scheme, the Company has, on appointed date, inter alia restated (in case of demerged undertaking) and recorded (in the case of amalgamating entities) the value of real estate work in progress in its books lower by ₹ 86.85 crores and ₹ 134.39 crores respectively, to comprise only cost of land and directly attributable operational costs of development activities. All other assets and liabilities are recorded at their respective book values. This along with other accounting effects of the Scheme aggregating to ₹ 92.98 crores (comprising of cancellation of investments of ₹ 72.60 crores, other merger related effects and expenses of ₹ 10.01 crores and provision for diminution in value of advances given to employee stock option trust of ₹ 10.37 crores) have been adjusted against the Capital Reserve - ₹ 1.85 crores and against the General Reserve - ₹ 230.24 crores (net of the tax effect thereon of ₹ 82.13 crores). The tax effect pertaining to the current year of ₹ 21.05 crores has been charged to P&L A/c as a part of tax expense and the remaining unadjusted tax effect of ₹ 61.08 crores is carried forward under other current assets. This is in compliance with the Announcement of ICAI relating to accounting for "Tax adjustments of expenses directly debited to Reserves".
- 6 Though mandated by the Scheme duly sanctioned by the Honorable High Court of Mumbai, the aforesaid accounting treatment of recording of real estate WIP of amalgamating entities at their defined value as aforesaid and the adjustment of the aforesaid amounts against Reserves instead of routing the same through Statement of Profit & Loss is not entirely in conformity with Accounting Standard AS-14 "Accounting for Amalgamations". Had the same been routed through profit and loss account, the profit would have been lower by ₹ 293.17 crores.
- 7 No shares have been allotted or any consideration paid pursuant to the scheme as the respective merging entities are wholly owned subsidiaries of the company.
- 8 Employee benefit expenses include ₹ 9.55 crores paid as the contracted remuneration to three executive directors in whole-time employment with the company, of which ₹ 3.26 crores is in excess of the limits specified in section 309 read with Section 198 of the Companies Act, 1956, which has resulted due to lower profit for the year. The Company had, during the year, applied to the Central Government under section 309 (5B) of the Act, for approval of such excess remuneration paid and the same is awaited.
