ANNEXURE TO NOTE NO. 31 OF SCHEDULE NO. 14

1. Segments have been identified in line with the accounting standard on segment reporting (AS-17) taking into account the organisation's product revenue.
2. The company recognise switches as primary segment.
3. Assets used in the company's business or liabilities contracted have not been identified to any of the reportable segments as assets are used interchangeably between segments.

Management believes that it is not practicable to provide segment disclosure relating to total assets and total liabilities, since a meaningful segregation of available data could be onerous.
