**ANNEXURE - 1 TO BOARDS' REPORT
MANAGEMENT DISCUSSION & ANALYSIS REPORT 2016**

Overall Industry Performance**Insulator Industry**

The Indian Insulator industry for the Financial Year 2015-2016, continued to retain last year's trend, with negative growth and the demand continuing to remain more or less flat. Though the anti-dumping duty has reduced the indiscriminate import of insulators, yet the dumping has already done the required damage, with slowdown in demand for local products.

As per the Report of IEEMA, import of Insulators through direct imports declined by 40%; the Imports through Project Imports route continued to the tune of INR 350 crore including Insulators & other components, parts & fittings etc

As compared to last year, the overall sale by volume has fallen down by 7%. The inflation index of insulators grew by 1% as per the Press Release of the Government of India, Ministry of Commerce & Industry, Office of the Economic Advisor. This had an impact on the input costs, with continuous rise in costs of fuel, power, raw materials and other inputs. This, coupled with the delay in realization of payments has aggravated the situation. As a way out, there has been a gradual shift of majority of the projects to EPC domain which however, requires altogether a different business model.

Turnkey Projects

According to a statement of the Union Ministry of coal, power and renewable energy, the power Industry has an investment potential of USD 250 billion in the next 4-5 years, providing immense opportunities in power generation, distribution, transmission and equipment.

Your Company's Performance

Due to the re-organization program, there was no production at your Chennai plant for the financial year under review. The income that was generated was from realization of the previous years' sales or sales of scrap. Overall operations, as a result of the financial stringency, have slipped considerably. The cash crunch

continued and the Company is in talks with the financial institutions for a revival scheme under the aegis of the Hon'ble Board for Industrial & Financial Reconstruction (BIFR).

Opportunities and Threats

The rationalisation of the EPC business are seen as a major opportunity for cash flow and revival of your Company's business. The continuing lesser demand for insulator business, the ever increasing product costs and the indeterminable time of availability of cash for working capital needs are seen as imminent threats.

Risks and Concerns

Your Company has an adequate Risk Management Policy which would help in identifying and mitigating enterprise risks. The increasing litigation and the non-availability of working capital continue to remain the imminent concerns for your Company. However your Company's pending reference with the Hon'ble BIFR would help in reaching at a settlement under the revival scheme as aforesaid.

Internal Control System and their adequacy

Your Company has adequate internal control systems as necessary with the requirements of the Companies Act, 2013.

Financial Review

Financial difficulties faced by the Company in recent past, have been primarily the result of steep rise in the price of raw material coupled with reduction in sales volume, higher competition in the industry, overdue in debtor's realisation and economic slowdown, which all resulted in a liquidity crunch.

Your Company operates in a highly working capital intensive industry and due to liquidity crunch during the last few years, your Company was not able to meet its financial obligations towards lenders, access to fresh working capital was also not available. This has had a negative impact on the Company and on its cash inflows.

Due to financial distress, your Company has not been able to keep obligations in respect of Banks / NCD holders.

As on date in spite of lodging several police complaints, as well as taking legal redress, the workers have not conceded to all our appeals as well as the police and judicial intervention and as a result we have been unable to extricate these records till date due to factors beyond our control. Similarly, due to the adverse labour situation in the Vizag plant, we have been unable to make available the books of accounts. However, since the data have been periodically updated electronically, management is of the view that there is no financial impact arising from the disclaimer.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Disclaimer of Opinion

The system of internal financial controls over financial reporting, with regard to the company were not made available to us, to determine whether the company has established adequate internal financial control over financial reporting and whether such internal financial controls were operating effectively as at 31st March 2016.

2 Operations review:

- a) During the year under review, there was no production in the Chennai plant. As reported in the previous year, the Vizag plant was badly affected by the Hud Hud cyclone in October 2014. The insurance settlement of Rs.19.6 Million was received by the Company in January 2016 and essential repairs commenced thereafter. Therefore no production could be carried out during the year.
- b) The heavy rains and floods in Chennai in November15 and December15 resulted in flooding within the Company's premises resulting in soiling of facilities and records. Also labour unrest in the Chennai plant has prevented the company's officials from entering the premises and taking proper assessment, repair and salvage measures.
- c) Due to the delay in receipt of insurance claims and non availability of finance from the banks the Vizag plant has temporarily suspended its operations. Due to severe cash flow stress the Company was not in a position to continue to meet the employee cost and hence a retrenchment order was sanctioned by the Development Commissioner, Visakhapatnam Special Economic Zone, Visakhapatnam under as provided for under the appropriate acts which has since been completely implemented.
- d) The Company is expected to revive its operations after filing the revival plan for consideration and sanction by the Hon'ble BIFR.

3 SEGMENT

The Company has two reportable business segments, namely, i) Electro-porcelain Products and ii) Turnkey Projects.

- 4 The figures for the current year are for a period of 12 months while those of the previous year are for a period of 6 months and hence are not directly comparable.
