# MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Your Directors have the pleasure to submit the Management Discussions and Analysis report for your consideration. The continuing Global recession, uncertainty brewing from UK's exit from the Euro zone coupled with lower domestic demand for Decanter products in particular affected our sales In addition segment mix and material consumed also contributed to the material cost of the Company. This has made the management to relook at the way in which the Company utilized its turning stock which forms part of Work In Progress.A slowdown in the European markets continues which resulted in delay in capital expenditure during the year under review impacted the sales of the Company but assurances from certain key overseas customers that there are signs of revival of economy which would help them to more or less maintain their volumes in the current year is a happy augury for the Company. Domestic markets showed some improvement in the latter part of the year, however this was temporary because of the MRO requirements. Inspite of the continuing slowdown in all the major segments your Company could maintain the same order booking levels as last year.

In face of several adverse factors, it is satisfying that the Company has retained its share in the OEM segment though the volumes have come down due to reduced demand of the capital equipments. Your Company was able to limit the damage, that otherwise would have been much severe, by aggressively and timely catering to the MRO requirements, pitching for the projects in Steel and Iron industry. Despite stiff competition Company's business in Iron, Steel and Petrochemical segments registered a modest growth.

Company's business in the OEM segment was affected both in domestic and overseas markets despite addition of new accounts owing to weak order intake for the customers in this segment. Despite the slowdown in domestic markets and price competition in the Iron, Steel and Engineering business segments, Company managed to grow in these segments by adding new accounts and new products.

All the efforts of your Company could not counter the impact of the slowdown in OEM segment in domestic and overseas markets which affected the operational profits. Your Company has taken several measures to ensure that profitability gets restored in the next fiscal.

#### THREATS AND OPPORTUNITES

With nominal signs of recovery from the slowdown in the domestic market as well as continuing global recession coupled with intense competition especially from the lower end segments are the threats, your Company continues to face.

Your Company is identifying opportunities by (i) developing new key accounts in OEM segment (ii) making inroads in European Steel industry (iii) working with Project consultants in the steel segment (iv) pursuing orders for high alloy high integrity sand castings (v) new orders for sponge iron industry and larger assemblies

### **OUTLOOK**

Your Company has a positive outlook for the next fiscal and is focusing on retaining competitive edge in the domestic industry and identification of new opportunities for exports. The outlook for the year 2017-18 is relatively positive post demonetization as the economy is showing signs of improvement. Implimentation of Goods and Service Tax (GST) may not have much impact on the Company's profitability. The Government's concentration on the development of the Infrastructure and Manufacturing sectors is showing signs of revival of growth in certain sectors which in turn is expected to have a positive effect on our target audiance.

#### **RISK & CONCERNS**

Your Company's Board of Directors has put in place adequate risk assessment and risk mitigating measures. The Executive Management has an adequately defined framework and therefore your Company is confident of foreseeing and mitigating the risks which are normal hazards to the industry arising from factors like fluctuations in the availability and pricing of fuel, energy and raw materials.

#### INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company continues to augment the Standard Operating Procedures covering the business operations with inbuilt system of internal checks and balances duly supported by robust ERP software. These procedures ensure that the transactions are properly authorized, validated and reported, apart from safeguarding the assets of the Company. The Company's operating procedures are supplemented by well-documented policies and records. The Internal Auditors conduct audit of all the aspects of the business to assess effectiveness of existing control systems including Internal Financial Controls, adherence to the management instructions and policies and compliance with laws and regulations of the Country.

The Audit Committee headed by a Chairman, who is an Independent Director, meets quarterly with the Management, Internal and Statutory Auditors to review the internal audit reports and address exceptions, if any.

#### FINANCIAL PERFORMANCE

Total Income (net sales and other income) for the year at ₹60.79 Crs as opposed to ₹64.29 Crs of the previous year is lower by 5.44 %.

In face of such strenuous times, it is a matter of satisfaction to your Directors to report that the efforts of your Company in stabilizing the operations in the new plant coupled with identifying new opportunities in OEM, MRO and Project segments helped it to minimize the impact of loss by reporting PBIDT at ₹(-0.78) Crs.

#### **HUMAN RESOURCES:**

The HRD policies are continuously being upgraded to keep pace with development. Company has undertaken an Organizational Development initiative with help from Corporate HR team.

Learning & Development also is an integral part of this initiative and appropriate training programs are conducted to facilitate individual growth. This is complemented by efforts to provide a conducive work culture and ambience. As at 31st March, 2017, the total number of employees on the roll of the Company stood at 93.

#### **CAUTIONARY STATEMENT**

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of 'Uni Abex Alloy Products Limited' ('the Company') as of 31st March, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

### Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, to the extent applicable to an audit of

internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and Directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

A provision is recognized when there is a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

A disclosure for contingent liability is made when there is a present obligation that may, but probably will not require an outflow of resources. When there is a possible obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.
