Observation No.1 Non-Compliance of Regulation 33 of SEBI (Listing Obligation & Disclosure Requirements) Regulation, 2015 (Earlier Clause-41 of Listing Agreement) regarding delayed submission of financial result for the year ended 31st March, 2016. Company has also received notices of penalty in this regard from the Stock Exchanges (NSE/BSE).

Company's Response: The Audited financial results for the year ended 31st March, 2016 were not compiled timely due to the reason that there was a delay in reconciliation of outstanding entries among the 3 units of the Company viz. Sonepat Unit, Sahibabad Unit and Malanpur Unit and then the Manager (Accounts) of Sonepat Unit of the Company had stopped coming to the office without giving any notice and without giving proper handover of record of accounts and fixed deposits which led to some operational difficulties in the preparation of financial results of all three units of the Company viz. Sonepat, Sahibabad and Malanpur.

Observation No.2: Non-compliance of Section 73 of Companies Act, 2013 read with Rule 16 of Companies

(Acceptance of Deposit) Rules, 2014 regarding filing of Return of Deposit in E-Form DPT-3 in the year 2015-16.

Company's Response: The Manager (Accounts) of Sonepat Unit of the Company had stopped coming to the office without giving any notice and without giving proper handover of record of accounts and fixed deposits which led to some operational difficulties in the preparation of List of Deposit Holders and Form DPT-3. Data of Sahibabad Unit and Malanpur Unit of the Company is ready and Sonepat Unit of the Company had also assured that it will be able to prepare its information by the month of August, 2016. The Company has also filed application for extension of time for repayment of fixed deposits under section 74 (2) of Companies Act, 2013 to the National Company Law Tribunal (erstwhile Company Law Board).

Observation No. 3: Event occurred after audit period:- An objection has been raised by the shareholder of the company that reappointment of Mr. Ishwar Das Chugh as whole time director of the company in the Annual General Meeting of the company held on 30 Sept., 2013 was invalid as Mr. Ishwar Das Chugh had crossed his age of 70 years and instead of passing ordinary resolution, a special resolution was required to be passed as per schedule XIII of the Companies Act, 1956.

Company's Response: Although the resolution was passed with unanimous votes in favour of re-appointment of Mr. Ishwar Das Chugh as Whole Time Director of the Company, but inadvertently it was passed as Ordinary Resolution instead of Special Resolution. The Company has passed Board resolution on 21st July, 2016 to appoint Mr. Ishwar Das Chugh as Whole Time Director of the Company & Company has convened an Extra Ordinary General Meeting to be held on 29th August, 2016 to re-appoint Mr. Ishwar Das Chugh as Whole Time Director by passing Special Resolution. INDUSTRY OVERVIEW

India produces approximately 10% of the world annual bicycle production, which is estimated at 125 Million units. The annual domestic demand of bicycles in India is approximately 10 million units, out of which around 2.5 million units is a government demand for the various welfare schemes. Exports out of India are largely to Africa and the less developed economies and negligible to western markets. Today, the Indian bicycle manufacturing and bicycle parts industry is widely recognized for its quality standards in the international market.

The market for the premium or the lifestyle bikes targeted towards the lifestyle consumer is just about emerging on account of increasing individual incomes and higher aspiration levels of the middle income group. Growth in the "specials segment" (Sport Light Roadster, mountain terrain bike and children's bicycles) was higher than in the "standard segment. The definition of high end bikes itself is changing.

Not only are the price points changing but even definitions of the segment are. Hitherto, cycles were simplistically segmented into gents, ladies, kids and high end. But now the lifestyle bikes are being segmented in line with the global trend that is based on their usage. There are Road bikes, Mountain terrain bikes and Children bikes etc.

The demand for these cycles at this stage is very limited but is set to grow at a frenetic pace in future. While the mass-market segment is experiencing a sluggish growth of between 4-6% annually the premium & lifestyle segment is growing at a CAGR of over 30%. The market size for the lifestyle cycles is estimated at not more than 0.25 million units annually but its only time that this segment will form an important part of the industry

M/S Atlas Cycles (Haryana) Limited is a Public Limited Company having presence in bicycles segment with a track record of more than 64 Years, having established brand both in Indian as well as International Market. The company is engaged in manufacturing of bicycles and its components and steel tubes with units at Sonapat, Sahibabad, Malanpur, Bawal and Rasoi.

Apart from rising input costs, cheap Chinese bicycles are also entering in domestic market.

OPPORTUNITY AND THREATS

The areas of strength are promoters having long track record, rich experience and strong financial soundness, Atlas Brand is well accepted both in Indian as well as International Market and one of the largest cycle manufacturer in the world. However, the areas of weaknesses: Rising input cost i.e. prices of sheets, strips, Tyres, Tubes and other related chemicals are governed by external forces including its trend in International Market. Product obsolescence vis-a-vis non-acceptance of model could adversely affect the revenue stream and profitability. Further these are the major areas under business risk, promoters risk, and financial risk and so on.

PRODUCTWISE PERFORMANCE

The company has a recognized Research and Development centre recognized by the Government of India which is continuously working on development of new models and upgrading the present models. The company has introduced a number of new models in the market keeping in view the market trend and customer preference for fancy bicycles. Introduction of new models of fancy bicycle and E-bike has been continuously followed and the sale in this segment has gone up significantly. Further Atlas has widened its product range also.

OUT – LOOK

Bicycle Industry is getting more and more competitive and to compete with the world leaders in producing high class bicycles and tapping export market the Indian bicycle industry needs to incorporate the latest Research and Development facilities and pay special attention to design development.

On the whole, the future of the bicycle industry is very challenging. With the globalization, the domestic market is open to goods and services from global companies because of low tariff. Thus the bicycle industry is facing very challenging time.

Protection is a thing of the past. Only those companies will survive which successfully structure and modernize technology to combat global competitiveness in terms of quality, cost and product development.

RISK AND CONCERNS

Small manufacturers in the unorganized sector have set up their units which certainly pose a threat to the organized sector. Cheap import from China supplying cheap and substandard products in the market is also threatening our bicycle industry. Steel Prices are changing on regular basis and there is a wide fluctuation in chemical industry and other metals including Nickels, Brass etc., which are governed by some external forces. Further as it is the product of necessity, it is not easy to increase the price on frequent intervals.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

To achieve effectiveness and efficiency of operation, reliability of financial reporting and compliance with applicable laws, rules, and regulations and compliance of significant policies, the Company has a well defined system of internal control throughout the organization. The internal audit department regularly probes the deficiency in operation of internal control and suggest ways to rectify such deficiencies. To improve efficiency and internal control company has introduced Microsoft-Navision 2009, an Enterprise Resource Planning

(ERP) system. Due to the total integration, there is a consistent flow of accurate and easy to access data within all the departments. The company has adequate systems of internal control to provide reasonable assurance that assets are safeguarded and protected against loss from unauthorized use or disposition and those transactions are authorized, recorded and reported properly.

FINANCIAL PERFORMANCE

The company achieved a turnover ₹ 608.50 Crores during the year compared to ₹ 626.71 Crores during the previous year.

HEALTH SAFETY AND ENVIRONMENT

Atlas is fully committed to the safety, health and well-being of its employees and to minimizing the environmental impact on its business operations. A safe and healthy environment is maintained, and appropriate steps are taken with the object of minimizing the environmental impact on all processes and practices. The Company strives to continuously improve the effectiveness of its policies and the employees are encouraged to contribute their mite in this direction. All employees are obliged to ensure that they fully understand all policies and do fully comply with the requirements.

In making those risk assessments, the auditor considers internal financial controls relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of ATLAS CYCLES (HARYANA) LIMITED ("the Company") as of 31 March 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit

evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute

----------	-------------

1. SIGNIFICANT ACCOUNTING POLICIES

1. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

These financial statements have been prepared to comply with the Generally Accepted Accounting Principles in India (Indian GAAP), including the Accounting Standards notified under the relevant provisions of the Companies Act, 2013. The financial statements are prepared on accrual basis under the historical cost convention, except for certain Fixed Assets which are carried at revalued amounts. The financial statements are presented in Indian rupees rounded off to the nearest rupees in lacs.

2. USE OF ESTIMATES

The preparation of financial statements in conformity with Indian GAAP requires judgements, estimates and assumptions to be made that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognised in the period in which the results are known/materialised.

3. FIXED ASSETS

Tangible Assets are stated at cost net of recoverable taxes, trade discounts and rebates and include amounts added on revaluation, less accumulated depreciation and impairment loss, if any. The cost of Tangible Assets comprises its purchase price, borrowing cost and any cost directly attributable to bringing the asset to its working condition for its intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets.

Subsequent expenditures related to an item of Tangible Asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

Projects under which assets are not ready for their intended use are disclosed under Capital Work-in-Progress.

Land and Building at Sonapat and at Rasoi were revalued on 30th June, 1986. Subsequent additions to these units are shown at cost.

4. Depreciation

Depreciation on Fixed Assets is provided to the extent of depreciable amount on the Written down Value (WDV) Method except in case of assets pertaining to Sahibabad, Malanpur and Bawal Unit where depreciation is provided on Straight Line Method (SLM). Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013.

5. Revenue Recognition

Revenue is recognised only when risks and rewards incidental to ownership are transferred to the customer, it can be reliably measured and it is reasonable to expect ultimate collection. Gross sales are inclusive of applicable excise duty and but are exclusive of sales tax. Dividend income is recognised when the right to receive payment is established. Interest income is recognised on a time proportion basis taking into account the amount outstanding and the interest rate applicable.

6. Investments

Current investments are carried at lower of cost and quoted/fair value, computed category-wise. Non-Current investments are stated at cost. Provision for diminution in the value of Non-Current investments is made only if such a decline is other than temporary.

7. Inventories

Items of inventories are measured at lower of cost and net realisable value after providing for obsolescence, if any, except in case of by-products which are valued at net realisable value. Cost of inventories comprises of cost of purchase, cost of conversion and other costs including manufacturing overheads incurred in bringing them to their respective present location and condition.

8. Borrowing Costs

Borrowing costs include exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial

period of time to get ready for its intended use. All other borrowing costs are charged to the Profit and Loss Statement in the period in which they are incurred.

9. Provisions, Contingent Liabilities and Contingent Assets

Provision is recognised in the accounts when there is a present obligation as a result of past event(s) and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed unless the possibility of outflow of resources is remote. Contingent assets are neither recognised nor disclosed in the financial statements.

10. Income Taxes

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to the tax authorities, using the applicable tax rates. Deferred income tax reflect the current period timing differences between taxable income and accounting income for the period and reversal of timing differences of earlier years/period. Deferred tax assets are recognised only to the extent that there is a reasonable certainty that sufficient future income will be available except that deferred tax assets, in case there are unabsorbed depreciation or losses, are recognised if there is virtual certainty that sufficient future taxable income will be available to realise the same. Deferred tax assets and liabilities are measured using the tax rates and tax law that have been enacted or substantively enacted by the Balance Sheet date.

11. Research and Development Expenses

Revenue expenditure pertaining to research is charged to the Profit and Loss Statement. Development costs of products are charged to the Profit and Loss Statement unless a product's technological feasibility has been established, in which case such expenditure is capitalised.

In making those risk assessments, the auditor considers the internal control relevant to the Group's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

----------	-------------

1. SIGNIFICANT ACCOUNTING POLICIES

1. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

These financial statements have been prepared to comply with the Generally Accepted Accounting Principles in India (Indian GAAP), including the Accounting Standards notified under the relevant provisions of the Companies Act, 2013. The financial statements are prepared on accrual basis under the historical cost convention, except for certain Fixed Assets which are carried at revalued amounts. The financial statements are presented in Indian rupees rounded off to the nearest rupees in lacs.

2. USE OF ESTIMATES

The preparation of financial statements in conformity with Indian GAAP requires judgements, estimates and assumptions to be made that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognised in the period in which the results are known/materialised.

3. FIXED ASSETS

Tangible Assets are stated at cost net of recoverable taxes, trade discounts and rebates and include amounts added on revaluation, less accumulated depreciation and impairment loss, if any. The cost of Tangible Assets comprises its purchase price, borrowing cost and any cost directly attributable to bringing the asset to its working condition for its intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets.

Subsequent expenditures related to an item of Tangible Asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

Projects under which assets are not ready for their intended use are disclosed under Capital Work-in-Progress.

Land and Building at Sonapat and at Rasoi were revalued on 30th June, 1986. Subsequent additions to these units are shown at cost.

4. Depreciation

Depreciation on Fixed Assets is provided to the extent of depreciable amount on the Written down Value (WDV) Method except in case of assets pertaining to Sahibabad, Malanpur and Bawal Unit where depreciation is provided on Straight Line Method (SLM). Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013.

5. Revenue Recognition

Gross sales are inclusive of applicable excise duty and but are exclusive of sales tax. Dividend income is recognised when the right to receive payment is established. Interest income is recognised on a time proportion basis taking into account the amount outstanding and the interest rate applicable.

6. Investments

Current investments are carried at lower of cost and quoted/fair value, computed category-wise. Non-Current investments are stated at cost. Provision for diminution in the value of Non-Current investments is made only if such a decline is other than temporary.

7. Inventories

Items of inventories are measured at lower of cost and net realisable value after providing for obsolescence, if any, except in case of by-products which are valued at net realisable value. Cost of inventories comprises of cost of purchase, cost of conversion and other costs including manufacturing overheads incurred in bringing them to their respective present location and condition.

8. Borrowing Costs

Borrowing costs include exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial

period of time to get ready for its intended use. All other borrowing costs are charged to the Profit and Loss Statement in the period in which they are incurred.

9. Provisions, Contingent Liabilities and Contingent Assets

Provision is recognised in the accounts when there is a present obligation as a result of past event(s) and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed unless the possibility of outflow of resources is remote. Contingent assets are neither recognised nor disclosed in the financial statements.

10. Income Taxes

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to the tax authorities, using the applicable tax rates. Deferred income tax reflect the current period timing differences between taxable income and accounting income for the period and reversal of timing differences of earlier years/period. Deferred tax assets are recognised only to the extent that there is a reasonable certainty that sufficient future income will be available except that deferred tax assets, in case there are unabsorbed depreciation or losses, are recognised if there is virtual certainty that sufficient future taxable income will be available to realise the same. Deferred tax assets and liabilities are measured using the tax rates and tax law that have been enacted or substantively enacted by the Balance Sheet date.

11. Research and Development Expenses

Revenue expenditure pertaining to research is charged to the Profit and Loss Statement. Development costs of products are charged to the Profit and Loss Statement unless a product's technological feasibility has been established, in which case such expenditure is capitalised.
