Annual Report 2020-21 CLARIANT CHEMICALS (INDIA) LIMITED

Generating Value FOR STAKEHOLDERS

Clariant is focused on accelerating business growth and generating value for all our stakeholders. This year's cover image highlights our efforts in two core focus areas of growth and sustainability. The past year has thrown challenges at us like never before, and we demonstrated that we were up for the task.

We successfully upheld profitability despite an exceedingly challenging environment, especially in light of the COVID-19 global pandemic. The business managed not just to endure the ever-changing demands during these difficult times but also came out with flying colors in ensuring customer delight! The progress we have made clearly validates our resilient operating model and the success of our strategic focus.

We remain dedicated to increasing shareholder value through innovation and towards our commitment to being part of a sustainable world. Our initiatives in these areas are impactful and often pioneering, which distinguishes Clariant and makes us stand apart!

Discovering Value in India

SOLUTINT™ E PIGMENT PREPARATIONS FOR HASSLE-FREE PAINT MANUFACTURING

Pigment grinding is a very crucial step in paint manufacturing. The paint's coloristic as well as rheological properties highly depend upon the efficiency of the grinding process. Apart from being a time-consuming procedure, it involves ensuring high operational safety as it based on solvents.

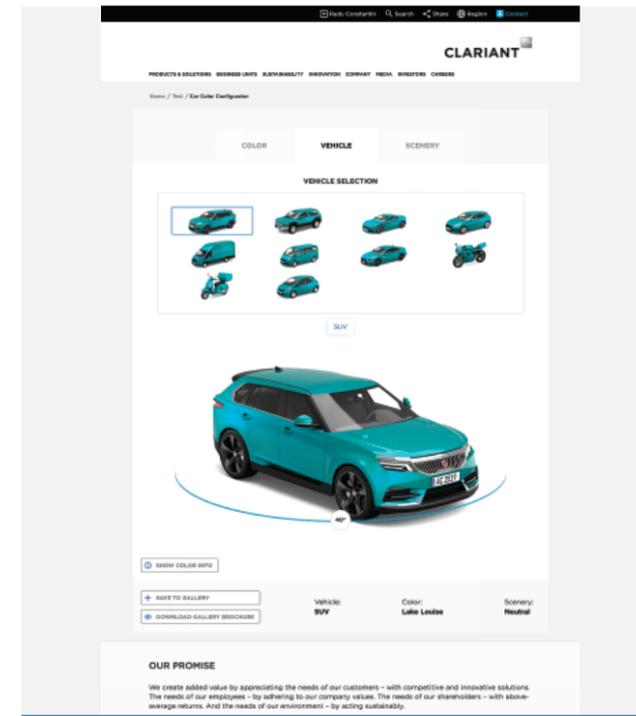

Clariant constantly aims at improving product safety, minimizing their environmental impact, and supporting our customers with similar endeavors. **Solutint E Pigment Preparations** are ready-to-use, solvent based, lead-free pigment preparations developed specially for long and medium oil alkyd paints. With the use of these preparations, paint is prepared by merely mixing various ingredients thus saving time. As a result, paint manufacturers can respond faster to the volatile market/consumer demands. These preparations help coating manufacturers not just in reduced paint manufacturing time but also in reduced production cost. Use of Solutint E Pigment Preparations in the paint manufacturing process also results in improved environmental impact (sustainability) as cleaning is reduced substantially after batch processing.

DUASYN® SUPER GRANS FOR DETERGENT FABRIC POWDER TO IMPROVE FABRIC WHITENESS

Laundry detergents – an essential item in every household have undergone commoditization over the years. For an Indian consumer, the major decision-making factor behind choosing a detergent is invariably the ‘improved whiteness or brightness’ (for white or colored fabrics respectively). Such detergents also need to be effective yet gentle against dirt or grime deposition on clothes, a typical phenomenon in Indian conditions.

Clariant has developed a unique solution – a special range of **Duasyn Super Granules** – to offer whiter, brighter clothes after the very first wash. The granules manufactured using the patented Encapsulation Technology, add these functional features to detergent powders. The product is versatile - it can be used across all fabric types like cotton, polyester, viscose and even their blends. These granules help save water as they eliminate an additional step of adding liquid blue to impart whiteness or brightness to the fabric. Even after repeated washes, using detergents with Duasyn Super Grans, discoloration or dullness of fabrics is avoided. Also, our strong arm of Product Stewardship ensures compliance with the environment friendliness of the dyes encapsulated in these granules.

DIGITAL COLOR FORWARD IN AUTO STYLING SHADES

For the first time ever, Clariant launched a digital version of the **Automotive Trendbook 2025** along with a brand-new online and interactive tool called **Car Color Configurator**. This tool offers customers a collection of 28 new trend shades for automotive coatings. With the launch of this cutting-edge tool, Clariant has combined its pigments and color formulation expertise with trend scouting and made these shades available digitally.

Pushing the boundaries of traditional formulation knowledge, Clariant's organic pigments are helping to solve some of the coating formulation challenges posed by new, disruptive technologies. These include improving the near infrared reflectance to make dark cars detectable by LIDAR technology, essential for the safety of autonomous vehicles, or the formulation of brilliant shades when metallic effect pigments are combined with colored organic pigments.

NEXT GENERATION ORGANIC OPAQUE PIGMENTS

Traditional organic pigments have always had a problem of opacity. This is one of the major hurdles for a formulator when matching a color closest to Pb-Cr (Lead-Chromium) based shade. Also, the perils of Pb-Cr based formulation are common knowledge now. Lead poisoning remains as a major global issue. Lead released into the environment makes its way into the air, soil, and water. It can remain indefinitely in the environment as dust. Plants exposed to lead can absorb the metal dust through their leaves and take minimal amounts of lead from the soil. Human beings as well as animals are directly exposed to lead through ingestion and inhalation.

Replacement of Pb-Cr in the formulations is one of the top priorities in the industry. To address the Pb-Cr replacement, many a times the formulator must take a route of blending lead free organic and inorganic pigments to achieve target shades. But many a times they must compromise on the paint's hiding power – its opacity.

Clariant understood this formulation challenge and introduced an innovative solution called **Next Generation Organic Opaque Pigments**. These pigments provide the freedom to design colors that are eco-friendly, without compromising their opacity. This innovation also has better weathering performance for Pb-Cr based formulation. We have planned the first pilot lot production of 2 pigments, Permanent Yellow Y2G 90-IN and Y2R 90-IN, at our Roha plant. We will be launching more pigments in this new innovative range.

Clariant in India COMMUNITY SERVICE

Our CSR teams engaged in some key outreach activities and went out of their way to support the community. The pandemic did not slow down the pace of our team; rather it has reinforced our commitment towards the local communities. We look forward to many more engaging and meaningful projects in the future.

We continue to focus on our 3 Pillar CSR strategy to support the community:

CHEM X

Promote excellence in Chemistry (ChemX)

Extend the safety and health priority to the Community (Suraksha Dhaal)

Janani Pathshala

Educate and empower the women/girls (Janani Pathshala) to address local concerns with a far-reaching impact

CUDDALORE

- Provided infrastructure for distribution of clean drinking water by laying underground pipeline at 11 identified spots in Kudikadu village
- Donated school desks and benches, 12 each, to Zilla Parishad School, Kudikadu
- To encourage the local youth to participate in sports, the site set-up a gymnasium with required exercise material & accessories in nearby village
- A Sewing Training Centre for the women of Kudikadu village was set-up. A community hall was revamped and a fully equipped and functional Training Centre with 7 sewing machines, sewing tools, cutting table, sitting stools and other required accessories was set-up

NAGDA

- Classroom & flooring revamped at Government School for Girls, Bhadla village and at Uchakhedi School for Girls
- Provided water cooler to the Government School in Runkheda village. The summer temperature reaches over 40°C and the water cooler was much needed for the 250 students & teachers of the school

- Provided 20 classroom benches for students of the Government School at Nareli Pada
- Supported the Government School, Makala with water tank, wash basin and plumbing work

- One classroom in Nandvasala village school revamped
- Revamped one classroom and provided water cans, ceiling fans, cotton carpets & steel cupboards to Sanashala Government School

ROHA

- 5 cement benches were donated for community use at Malsai village
- 6 mobile toilets with biodigester tanks have been procured for distribution in nearby villages

- Handed over science laboratory chemicals to Dr. Nanasahab Dharmadhikari Arts, Science & Commerce College. The college authorities were very appreciative of Clariant for the regular and long-term support extended to them by means of various guest lectures, organizing exhibitions and industrial visits for the students

- Six sewing machines were handed over to women from Janshobha Mahila Bachat Gat. The beneficiaries were from the nearby villages around the site

Continuing this women empowerment activity further, additional 45 sewing machines were donated to necessitous women around the site

- Organized a special science festival in collaboration with Science Utsav, a science enthusiast group, to develop scientific temperament among young students of a local Zilla Parishad School

Clariant in India REACHING OUT TO THE COMMUNITY DURING COVID TIMES

The COVID-19 pandemic continues to transform our lives in ways we could not have imagined, be it at our places of work or in our personal lives. The Clariant team has been actively involved with the local authorities & communities; supporting them through various COVID relief related outreach programs. This year Clariant Chemicals (India) Ltd contributed over ₹ 300,000/- towards the PM Cares Fund, in addition to the local outreach programs.

We truly appreciate the tremendous efforts put in by our teams despite the challenges they faced. Together, we should focus on keeping ourselves, our families & our communities safe, through social distancing, wearing of masks and continuously maintaining good hygiene.

ROHA

- Local governmental authorities were supported with 4000 litres of Sodium Hypochlorite solution (disinfectant) and 100 hand sprayer pumps for disinfection of nearby villages. Additionally, 2300 litres of liquid hand wash and 500 surgical masks were also handed over

Reason(s) for not spending the amount at 7:**

Considering social responsibility an integral part of Company's affairs, we have developed a CSR discipline which creates our accountability towards the community, within which we operate. The endeavor to contribute for the benefit of society is derived greatly from the CSR Policy that we have adopted.

The Company has always given preference to direct spends on Sustainable CSR projects rather than one time activities or executing activities through third parties. This is to ensure wholesome benefit is relayed to the society in an appropriate and timely manner.

Due to the constraints posed by the Novel Corona Virus in this Financial year, the Company could not complete the entire CSR obligation. In pursuant to the amended provisions of Section 135(5) of the Companies Act, 2013, the Company will transfer all the unspent CSR Obligation to the Fund(s) as provided under the Schedule VII within the stipulated timeline.

MANAGEMENT DISCUSSION & ANALYSIS REPORT

Economic Overview

The COVID-19 pandemic has had a more negative impact on activity in the first half of 2020 than anticipated, and the recovery is projected to be more gradual than previously forecast. GDP plunged 24.4% in last year's June quarter as a national lockdown was imposed. As per IMA December 20 quarter GDP was up by 0.4% yoy after a 9.4% fall over the prior three quarters, a local demand recovery appears to be underway. They predict a FY forecasts are -8.1% for FY20/21. Also they forecast GDP @ 10.8% for FY21/22, which is roughly in line with the latest forecasts for FY21/22 from the government (11%), the IMF (11.5%) and the RBI (10.5%). To help a recovery government initiated few steps like lifted spending by 28.4% in FY20/21 (to March) while revenue fell 7.7% and the fiscal deficit doubled. Also, thanks to good work by the Reserve Bank of India (RBI), a record ₹ 13.5tr (US\$184bn or 7% of GDP) in borrowing - all local - went smoothly, with the 10-year bond yield finishing FY20/21 steady at 6.18%.

Two challenges lie ahead. Borrowing in FY21/22 is put at a still high ₹ 12tr. That could crowd out private borrowers in a recovery and might trigger a downgrade to junk status for the government's bond. Second, banks have yet to reveal the damage done by a moratorium on loan repayments in 2020. They may have little capacity to fund a lift in growth in 2021.

Industry Overview: Specialty Chemicals

Globally, the specialty chemicals industry is differentiated from bulk chemicals by extensive R&D and innovation. However, such a demarcation does not exist in India due to the generic nature of the produce of the specialty chemicals industry. Nevertheless, the specialty chemicals space is an amalgamation of many unique sub-segments, which witness different industry dynamics.

They constitute a significant part of the Indian chemical industry. These chemicals add functionality to the working of various products and add value to them. Due to the increasing demand for value-added high-performance products in all spheres of life of Indian consumers today, the demand for specialty chemicals is expected to grow. Side-by-side, with a shift in manufacturing to the East and India's export competitiveness, India's position as a manufacturing hub for specialty chemicals is expected to strengthen. This trend is already becoming apparent in segments such as agrochemicals and colorants, in which a significant part produced in India is exported.

The Chemical industry in India provides several building blocks and raw materials for many industries, including textiles, paper,

paints, soap and detergents, pharmaceuticals and agrochemicals. India's Chemical Industry ranks at the 6th position in the world and 4th position in Asia in terms of size. Ministry of Chemicals & Fertilizers Department of Chemicals and Petrochemicals It has estimated that Indian Chemical Industry with a CAGR of 10%+ to reach USD 300 Billion by 2025, up from USD 178 Billion by the end of FY 2020. The specialty chemicals constitute approximately 22%. The long-term growth story of the Indian speciality chemical sector remains intact with an estimated USD 60 billion opportunity across specialty chemicals segments over the next 8-10 years .

Specialty chemicals finds applications across consumer (eg. personal care chemicals), industrial (eg. water chemicals) and infrastructure (eg. construction chemicals) segments are driven by the overall growth of the Indian economy. Specialty chemicals definition varies widely across the industry, however in general it can be said chemicals which are used in low quantities (not in bulk) and are targeted towards specific end-use applications. From a financial perspective, a more tangible metric to distinguish between specialty and bulk chemicals is the EBITDA margin of the business. Specialty chemicals, by virtue of being high value, specialized products command higher margins than most bulk products. Significant opportunity exists for players to drive value creation via market consolidation, sharper end-market alignment, and a greater focus on quality, sustainability, collaboration, and innovation.

While opportunities exist across the board, select end markets stand out due to a combination of factors such as growth potential, changing consumer patterns, and the existence of a robust domestic as well as export potential. Specialty chemical industry can be subdivided major nine segments into a mix of end-use driven segments agrochemicals, personal care ingredients, polymer additives, water chemicals, textile chemicals and construction chemicals and application-driven segments surfactants, flavours and fragrances and dyes and pigments.

The growth for specialty chemicals is driven by both domestic consumption and exports. In certain segments (such as agrochemicals, dyes and pigments, flavours and fragrances), a significant proportion of production in India is exported. Exports are growing rapidly as India is becoming an important manufacturing hub for such chemicals. Tightening environmental norms (eg. REACH regulations) in developed countries and the slowdown of China (in certain segments) are contributing to the growth of exports. The recently launched "Make in India" campaign is also expected to add impetus to the

emergence of India as a manufacturing hub for the chemicals industry in the medium term.

The COVID-19 pandemic resulted in a short-term demand shock, but the long-term growth story continues to remain intact. The COVID-19 pandemic has had varying levels of impact on demand across different end-segments. While segments such as Textile, construction & infrastructure, automotive and consumer durables saw a significant demand shrinkage (10%+), other segments such as FMCG, agriculture, pharma, hygiene, F&B remained resilient. India's plastic industry in evolving. It has highest growth rate in the world with estimated exports of finished goods to double in the next five years. Globally, India is emerging as a leading hub for plastics manufacturing and processing. Increasing demand from industries such as packaging, healthcare, electronics, automotive, consumer goods etc. is the factor driving the growth of masterbatch market. Sustainability and circular economy have witnessed a positive trend in India in the recent years owing to increased awareness of consumers regarding the environment. Considering the COVID-19 situation, plastics have become a material of choice mainly in packaging due to key factors such as hygiene, safety and integrity across food, pharma and healthcare goods. Most segments recovered to pre-Covid levels by Q3 FY21 and the Chemicals sector is now back on a robust footing. Even on the supply front, major chemical production units have come back strongly post lockdown and are operating close to pre-COVID levels since October 2020. Overall, we believe that Indian Chemical sector has successfully moved past the COVID impact, and long-term growth trajectory continues to remain intact.

In the domestic market, India remains underpenetrated in most specialty chemical segments. However, increasing population, rising urbanization, and growing income levels are driving strong growth in all key end markets. This bodes well for domestic demand outlook for specialty chemicals. In the export markets, India has established a strong presence driven by its low-cost manufacturing, availability of skilled labor, reputation for IP protection and strong process optimization capabilities. Specialty chemicals already account for more than 50% of total chemical exports from India. However, India's specialty chemical export still account for less than 5% of global specialty chemical trade. With significant post-pandemic shifts in global Chemicals supply chains, and the potential adoption of a China+1 strategy by global Chemicals players, there is significant headroom for India to expand its global exports. While opportunities exist across the board, select end markets stand out due to a combination of factors such as growth potential, changing consumer patterns, and the existence of a robust domestic as well as export potential

Indian specialty chemical companies are strong in the export market with colorants, dyes and pigments being the key export-

oriented products. India has talented, low cost manpower in addition to the low cost of production and this is a definite advantage in the export markets. India has also ensured that it is abreast of global regulations and competitive manufacturing practices. These measures have enhanced the competitiveness and cost effectiveness of the manufacturers in the local market.

Pigments predominantly find application in paints and coatings, automotive finishes, emulsion paints and distempers. They are also used in printing inks, polyester textiles and plastics like PVC, rubber and synthetic polymers and nylons, cosmetics and paper.

Per capita consumption of colorants in India is 50gm as compared to 400gm in Europe hence scope for growth. India is global supplier of Phthalocyanine (blue and green) pigments, Approximate 70% of total production is Phthalocyanine.

Covid-19 represents scenarios which are quite fluid and fundamentally difficult to quantify. Behavioural change of consumers is expected to increase consumption in the Health & Hygiene segment (soaps, detergents and hand sanitizers) and the Packaging Inks segment (packaged foods & beverages) in the short to medium term. It is predicted that, in the short term, consumer spend will gravitate towards essential spend adversely affecting the other key segment like Paints & Coatings (decorative, automotive). However, exports are expected to remain unaffected in the short to medium term. In the medium to long term, the India growth story based on demographic dividend, rising consumption and infrastructure creation remains intact In FY21, many of the segments had seen major drop First quarter, post that second and third quarter have witnessed rebound in demand condition and normalization nearly across all sectors. The paint and coating the bigger consumer of Pigments recovery was supported by new projects and construction activities, also uptrend in manufacturing sector.

Special emphasis is given to Product Stewardship so that our products can be used over their entire life cycle in a safe manner for employees, customers and all other stakeholders.

Outlook, Opportunities and Challenges

Outlook & Opportunities

India's Chemicals sector is on strong growth trajectory for the coming decade. Drivers for this trajectory include

- Rising domestic demand in chemical end-use sectors, India's attractiveness as a manufacturing destination and its improved ease of doing business are some factors that suggest possibility of further growth in the chemical industry
- the emergence of a potential China + 1 strategy in global supply chains,
- The Indian specialty chemicals industry continues to be benefited due to availability of technically skilled manpower and competitive labour costs.
- Government initiatives like 'Make in India' and FDI are further anticipated to aid the growth of the market over the coming years
- India's rapidly improving policy and regulatory environment. The Company also has an added advantage of product development capabilities, branding and distribution, in addition to having a parent Company with strong research capabilities, which can be applied in domestic products as well.
- The Indian chemical industry is growing at almost twice the global average and is a global outperformer regarding total returns to shareholders. Further, India's large population base with lower per-capita consumption of chemicals and relatively strong GDP growth outlook (7-8% over the next few years) suggests untapped potential

The COVID-19 pandemic did result in a short-term demand shock, but the longterm growth story continues to remain intact. In our assessment, India is a highly attractive destination for the Global Chemicals Industry on multiple key parameters when compared to other locations such as the Middle East, Latin America, and South East Asia.

Challenges

- Due to the impact of the coronavirus (COVID-19) pandemic Chemical industry are going to face challenge due to disrupted supply chains by outbreaks in key regions, demand may fall due to uncertainty in the global economy and capital markets. Workforces are facing the risk of infection, and governments are beginning to enact restrictions on movement – and both add an unpredictable dimension to the crisis
- Increase in domestic capacities, competition from export-oriented global capacities, Fluctuation in crude oil prices, dependency on import of key intermediates and increasing price will put margins of products will increasingly be under pressure.
- Chemical players mainly compete with the Chinese players, thus the movement of Rupee against the Dollar and Yuan against the Dollar is critical to the overall pricing of Chemicals
- The raw materials which are required in the organic and inorganic chemical industry, which even spans the specialty chemical industry, are often inaccessible and unavailable in the market in the required quantities resulting in supply chain disruptions. The challenges are being addressed by evaluating availability of multiple alternate materials, new vendors with agility and securing supplies to the extent possible.
- Key to success is to drive differentiation chemical manufacturer need to evolve from being product marketers to solution providers.
- The cost of compliance and complex regulatory process also impact operations economically. The ability to scale up, offering differentiated products through innovations, implementing an effective sales and marketing strategy and maintaining high levels of regulatory standards will clearly separate winners from the crowds in this space.

Risks and its Mitigation

Clariant follows Enterprise Risk Management (ERM) tools to define, identify and assess, report and drive the mitigation of risk throughout the group. The tool is designed to provide risk score measures for each of the potential risks as well as its financial, reputational and operational impact. It also provides risk improvement plans, critical success factors and target dates to control risks.

The Company has aligned its policy on risk assessment to that of the global approach and risk assessment reports are reviewed at regular intervals. The Company has also adopted a focused approach towards risk management in the form of a corporate

insurance program. The goal of this program is to optimize the financing of insurable risks by using a combination of risk retention and risk transfer. The program covers all potential risks relating to the business operations of the Company at its various locations.

The shareholders having physical shares are requested to ensure that any correspondence for change of address, change of bank mandates etc. should be signed by the first named shareholder and supported by the documents such as Aadhar Card, Telephone or Electricity Bill in the name of shareholder or a family member along with a copy of PAN card.

In case shares of the Company are held in electronic form (i.e., in dematerialized form), all communications concerning rematerialization of shares, transfer and transmission, dividends, change of address, furnishing of alterations in bank account details, nominations, ECS credit of dividend amount to shareholders' bank account or other inquiries should be addressed only to the Depository Participant (DP) with whom demat account is maintained, quoting client ID number and not to the Company or the R&T Agent. This is because once the shares are dematerialized the data is maintained by the DPs and the Company cannot alter the details and has to act on the basis of the details downloaded from NSDL or CDSL as the case may be.

For any assistance from the Company, members may contact Ms. Ameer Joshi, Company Secretary, at the registered office of the Company.

3. Governance related to BR

- (a) Frequency with which the Board of Directors/ Committee of the Board assesses the BR performance of the Company: The Vice-Chairman & Managing Director of the Company assesses the BR performance of the Company annually.

Pursuant to the requirements of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015, the Company publishes Business Responsibility Report on annual basis, forming part of the Annual Report. The Annual Reports of the Company are available on the website of the Company at <https://www.clariant.com/en/Investors/Investor-Relations-India/Annual-Reports>.

SECTION E: PRINCIPLE-WISE PERFORMANCE**Principle 1**

The Company has adopted an Anti-Bribery and Corruption policy, which covers all employees as well as any other third party with whom Clariant is engaged in business activities. The employees of the Company are expected to report any irregularity they come to know about. The Company has in place a sound Whistle blower mechanism and the Audit Committee of the Board to ensure adherence and implementation of the policies. The Internal Complaints Committee is also constituted to deal with the complaints and to resolve the grievance.

As mentioned, there are different systems in place to receive and resolve complaints from various stakeholders, both internal and external. In case of investors, complaints received through SEBI, Stock Exchanges and/or Depositories are resolved by Link Intime, Registrar & Transfer Agents. During the period under review, the Company received 21 (Twenty One) investor complaints and all of them have been resolved during the year.

Principle 2

Specific products manufactured by the Company:

- (a) Cosmenyl & Flexonyl product range
(b) "Permanent" Pigments series

i) Cosmenyl & Flexonyl product range –

The product design has incorporated Environmental / Social concerns and opportunities. In quick response to the new revised Govt regulation, the biocide has been replaced with new safer biocide which ensured compliance to the customers in consumer care applications.

ii) 'Permanent' Pigments series

"Permanent and Hansa" is a brand name of one of the series of pigments manufactured in the Company. With our regular ongoing activities on environment protection and energy conservation we have optimized drying & milling system to reduce time cycle and saving in electrical

and steam in the drying & milling process. This resulted in substantial reduction in the electrical energy and steam with improvement in the production efficiency along with products softness and dispersibility.

With this softer and easy to disperse product quality, our customers also benefitted with the reduction in grinding time to produce inks, thereby electrical energy is saved also at customer's end.

Sustainable sourcing (including transportation)

Clariant is fully committed for increasing the sustainability in its supply chain. By joining the 'Together for Sustainability' (TfS) initiative in 2014, Clariant has taken the sustainability management of its suppliers to a new level. The TfS evaluation of suppliers is managed through external global service providers specialized in sustainability assessments. This global assessment and audit program cover all critical aspects of management, environment, health and safety, labor, and human rights as well as governance. The assessment scorecards and audits reports are shared on a common platform, providing fact-based and objective insights on sustainability performance. These scorecards and reports are then used to improve the supplier selection process and improve supply and supplier risk management, and sustainability performance. In 2020 Clariant sustainability assessment covered over 80% of raw material spend.

Promotion of small business concerns operating in the surrounding community:

Clariant supports Small & Medium Enterprises (SMEs) in the Indian chemical industry to compete in the global market. The Company is promoting localization by which imported raw materials are sought to be substituted with locally manufactured raw materials, wherever possible, subject to their meeting required specifications, quality & cost. Many of the Company's packaging and service suppliers are small or medium enterprises. The Company is associated on an average since last 3 years with more than 260 SME suppliers.

Mechanism to recycle products and waste

The 3R (Reduce, Reuse and Recycle) program is well embedded in the Clariant operational excellence blueprint. There is continuous focus to look at the opportunities to reduce, reuse & recycle the waste and treated wastewater. Projects are identified at the sites and are monitored through a global tool Clariant Project Tracking Tool (CPTT). There is also a special focus to improve process efficiency through a program called Yield, Energy and Environment (YEE) which is also contributing to the overall reduction of environment impact.

Process wastewater is treated at the site through state of art wastewater treatment plant. Treated wastewater is reused for

various purpose at the site e.g. floor washing, drums cleaning, gardening etc. Solid waste generated from wastewater treatment plant is sent to cement industry as a co-fuel. Some of the waste streams which were earlier treated at the wastewater treatment plant are now separated as byproduct and are supplied to users e.g. textile industries. Few of the Clariant sites in India have Zero Liquid Discharge facility where 100% wastewater is reused/ recycled within the site. All other wastes are segregated based on their characteristics, collected, and stored in an appropriate manner. The waste is then disposed off as per the hazardous waste authorization issued by the State Pollution Control Board.

One of our sites has also implemented Rainwater Harvesting facility to make use of rain water and reduce the raw water consumption at the site.

Principle 3

There are 499 Employees on Roll of the Company as on March 31, 2021 and 524 Employees are on contractual basis.

1. Permanent women employees: 20
2. Permanent employees with disabilities: None

There are various Employee Associations recognized by management. Around 60% of Company's permanent employees are members of employee association recognized by the Management.

There were no complaints with regard to Child Labour, Forced Labour, Involuntary Labour or Discriminatory Employment, as the Company strictly prohibits such practices. Also, no instance of Sexual Harassment was noted by the Company.

During the year all of Company's employees, permanent and contractual, were given the safety trainings. However, trainings for Skill-Upgradation were imparted considering the jobs or task assigned to the employees, which is an ongoing process in Company. There are defined processes within the Company, such as Talent Management Programs, Learning Management Systems, Success Factors etc., through which trainings are identified, organized and imparted.

Principle 4

Mapping internal and external stakeholders

Company has a CSR committee at each site to identify the marginalized and disadvantaged group through a need assessment and by engaging with nearby communities. Moreover, Company organizes a Sustainability dialogue at periodic interval to engage with internal and external stakeholders such as investors, customers, business partners, distributors, suppliers, and employees. The external stakeholders are mapped through defined activities such as customer events and reach out to

them on a regular basis through press releases, participation in conferences, publishing technical papers and Annual General Meetings.

For the internal stakeholders there are various interactive programs, fun events, townhall meetings conducted to keep them engaged. Company has also extended virtual support through external agencies for health & mental wellbeing of our employees in the times of current COVID situation.

Clariant has been supporting the nearby communities around our sites over the last many years. As per the identified focus areas by the Company, we have supported the local ZP schools with the basic amenities. To empower the women in the local villages, tailoring classes were organized and sewing machines distributed. A pipeline was laid for clean drinking water at 11 identified areas for the villagers in the nearby communities.

Principle 5

Company's internal Code of Ethics (CoE) and CoE for Suppliers covers all aspects of Human Rights for all employees as well as any third party with whom Clariant is engaged in business activities. Before onboarding any employee or engaging any third-party service provider they are informed of Clariant's Internal Code of Ethics, and their engagement proceeds only after their acceptance of the same. During the year under review there were no stakeholder complaints concerning 'Human Rights' received.

Principle 6

A crucial element of our sustainability management is continuous exchange with external partners. These include customers, suppliers, and shareholders, as well as joint ventures. Corporate ESH (Environment, Safety & Health) guidelines are also applicable to our JV partners as well as contractors.

Clariant is committed to respecting and supporting human rights both in our own operations, as well as in our business relationships and supply chains. We expect our suppliers and business partners to maintain the same high standards regarding human rights. This reflects in our code of ethics and supplier code of conduct.

Clariant is also the signatory to the UN Global Compact and the chemical industry's Responsible Care® initiative.

Our Responsible Care logo got renewed in 2020 after a comprehensive online audit for all the sites. Clariant in India was awarded prestigious Aditya Birla Award by Indian Chemical Council for Best Responsible Care Company in the year 2020.

Clariant sets a strong focus on continuously steering its environmental performance towards increased sustainability

and setting new environmental benchmarks through leading-edge operations and innovation. With our vision to become climate neutral by 2050, we have set ourselves ambitious targets that allow us to measure our success based on clearly defined metrics and milestones.

Clariant has set up 2030 sustainable operations targets in the area of water intake (-20%), wastewater (-25%), hazardous waste (-25%), land-filled non-hazardous waste (-40%), and nitrogen oxide emissions (NOx) (-35%) with the baseline of 2019 data. They will be measured in terms of parameter volume or mass per unit of production.

All sites go through a regular review of their environmental aspects, impacts and necessary control measures are implemented to mitigate and control the possible impacts. The sites also strictly monitor and comply with all the State Pollution Control Board requirements.

Additionally, Company has set up the goal to conclude the implementation of sustainable water management systems at all sites in areas of high-water stress. An annual water risk assessment is conducted to identify sites located in water risk regions and measures required to mitigate the risks. Through collaborative and innovative initiatives, Clariant strives to develop efficient water use solutions that work in industrial settings across the globe.

eWATCH identifies savings potential through detailed analysis of energy consumption across operations and oversees all forms and usages of energy at Clariant – electricity, heating and cooling, steam, natural gas, nitrogen, and the production of deionized water. By implementing this global program, many improvement projects are identified to optimize our energy usage across all sites. Some of them are:

- Agro-Mass Briquettes, being the most economical fuel, are used to produce 95% of steam required on site
- VFD installation for pumps, blowers etc.

- Improvement of cooling water supply system efficiency
- Use of transparent roof sheets and Solar Tubes for natural lights thereby leading to reduction in energy consumption on lighting equipment
- Increased usage of energy efficient equipment
- Use of Turbo Ventilators for extraction of heat from the building

The Company's emissions, effluents and wastes are within the permissible limits set by State Pollution Control Boards of respective States. There were no show causes/ legal notices received from Central and State Pollution Control Boards.

Principle 7

Memberships of trade and chamber or association:

- The Bombay Chambers of Commerce
- Indian Chemical Council

The Company advocates matters of public interest and the subject which concerns the Chemical Industry as a whole. The Company has actively participated in working of the above bodies.

Principle 8

Clariant considers sustainability as one of its core strategic pillar to enable a sustainable future by leading edge operations and innovative solutions. We strive to create products that are sustainable and safe for use. Being part of the sustainable development goals (SDG's) initiative with focus on climate change and the 2030 environmental targets to intensify reductions for key environmental aspects. The Company CSR policy is framed in accordance with the Corporate Citizenship activities (CCA), guidelines of Clariant global and as per Section 135 of the Companies Act, 2013.

The Company has undertaken activities around the focus areas of Education, Safety and Health and Community support including empowerment of women. This year the major focus has been the support of COVID relief to the nearby communities around our sites. Apart from this, the local ZP schools have been refurbished and the basic amenities provided. The local women have been empowered by giving sewing machines and providing tailoring classes. The Mobile toilets were provided to have a clean defecation free environment.

The Company has a CSR Committee at every site and HQ who help to identify activities in the 3 focus areas. All programs are implemented inhouse. Every site follows the laid down procedure of identifying activities, taking approvals and on

approval executing and later preparing a detailed report which is shared with the Country CSR department.

Also, the impact of support is monitored at regular intervals. CSR activities are aligned as per the need assessment done before initiating any activity.

The Company has spent ₹ 29.87 Lakhs towards community development. The details of the activities undertaken by sites and HQ are provided in the "Annexure- B" of the Directors' Report forming part of the Annual Report for Financial year 2020-21.

This year Clariant has followed the path differently, as our activities were majorly focused towards COVID relief to the communities around our sites. Keeping in line with our focus area 'Health & Safety' and the current COVID situation, we supported nearby communities by distributing disinfectants, sanitizers, masks, oximeters etc. and also educating the importance of preventive measures.

Principle 9

There were no Consumer cases pending as on the end of Financial year against the Company.

Clariant adheres to all applicable laws and regulations on product labelling. Global Labeling Management (GLM) tool is implemented for correct labelling of our products and easy identification during transportation. Apart from the regulatory requirements, additional declarations relating to the safe handling and usage of the products are made available on the labels.

Moreover, there were no cases filed by any stakeholder against the Company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behavior during the last five years and/or pending as on end of Financial year.

Consumer satisfaction trends

The Company focuses on Customer satisfaction and survey is carried out by global functions/ Business Units (BU) as per set interval and the findings are shared to regional BU/Service Unit (SU) team for necessary improvement actions, if any.

INDEPENDENT AUDITOR'S REPORT

To the Members of **Clariant Chemicals (India) Limited** **Report on the Audit of the Financial Statements** **Opinion**

We have audited the financial statements of **Clariant Chemicals (India) Limited** ('the Company'), which comprise the Balance Sheet as at March 31, 2021, and the Statement of Profit and Loss, Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015 as amended and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, and profit, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Understanding and evaluating the design and testing of operating effectiveness of controls in respect of tax expense, assessment of income tax and indirect tax matters. 2. Reading the orders received by the Company from the tax authorities and opinions sought from the management's experts. 3. Discussing ongoing matters under dispute and developments with the Management, the Audit Committee and management expert and the future course of action by the Company. 4. Involving auditor's tax experts to assist us in the assessment of the possible outcome of certain cases and reviewing tax expense. 5. Evaluating the evidence supporting the judgement of the management about possible outcomes and the reasonableness of the estimates. 6. Assessing and validated the appropriateness and adequacy of disclosures in the financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

We give in 'Annexure A' a detailed description of Auditor's responsibilities for Audit of the Financial Statements.

Other Matter

The financial statements of the Company for the year ended March 31, 2020, were audited by another auditor whose report dated June 17, 2020 expressed an unmodified opinion on those financial statements.

Our opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ('the Order'), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in 'Annexure B' a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except that the backup of books of accounts and other books and papers maintained in electronic mode has not been maintained over servers physically located in India.
 - (c) The Balance Sheet, the Statement of Profit and Loss, the Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.

- (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) On the basis of the written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors are disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in 'Annexure C'.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 34 to the financial statements;

- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses; and
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
3. As required by The Companies (Amendment) Act, 2017, in our opinion, according to information, explanations given to us, the remuneration paid by the Company to its directors is within the limits prescribed under Section 197 of the Act and the rules thereunder.

ANNEXURE A TO INDEPENDENT AUDITOR'S REPORT

Report on even date on the Financial Statements of Clariant Chemicals (India) Limited for the year ended March 31, 2021**Auditor's Responsibilities for the Audit of the Financial Statements**

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However,

future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore, the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE B TO INDEPENDENT AUDITOR'S REPORT

Report of even date on the financial statements of Clariant Chemicals (India) Limited for the year ended March 31, 2021

[Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirement's in the Independent Auditor's Report of even date to the members of Clariant Chemicals (India) Limited on the Financial Statements for the year ended March 31, 2021]

- (a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets (Property, Plant and Equipment).
- (b) Fixed assets (Property, Plant and Equipment) are physically verified by the Management according to a phased programme designed to cover all the items over a period of 3 years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the fixed assets have been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties as disclosed in Note 3 on Property Plant and Equipment are held in the name of the Company.
- The inventory (excluding stocks with third parties) has been physically verified by the management during the year. In respect of inventory lying with third parties, these have substantially been confirmed by them. In our opinion, the frequency of verification is reasonable. No material discrepancies were noticed on verification between the physical stocks and the book records.
- The Company has not granted any loans, secured or unsecured to Companies, Firms, Limited Liability Partnerships (LLP) or other parties covered in the register maintained under section 189 of the Companies Act, 2013 (the Act'). Accordingly, the provisions stated in paragraph

3 (iii) (a) to (c) of the Order are not applicable to the Company.

- In our opinion and according to the information and explanations given to us, the Company has not either directly or indirectly, granted any loan to any of its directors or to any other person in whom the director is interested, in accordance with the provisions of section 185 of the Act and the Company has not made investments through more than two layers of investment companies in accordance with the provisions of section 186 of the Act. Accordingly, provisions stated in paragraph 3(iv) of the Order are not applicable to the Company.
- In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from the public within the meaning of Sections 73, 74, 75 and 76 of the Act and the rules framed there under.
- We have broadly reviewed the books of account relating to materials, labour and other items of cost maintained by the Company pursuant as specified by the Central Government for the maintenance of cost records under sub-section (1) of section 148 of the Act and we are of the opinion that prima facie the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company is regular in depositing with appropriate authorities undisputed statutory dues including provident fund, employees' state insurance, income-tax, goods and service tax, duty of customs, cess and any other statutory dues applicable to it.
- (b) According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, goods and service tax, duty of customs, cess and other statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

- (c) According to the information and explanation given to us and examination of records of the Company, there are no dues of provident fund, employees' state insurance, income-tax, goods and service tax, excise duty, duty of customs and cess on account of any dispute, except as follows

ANNEXURE C TO INDEPENDENT AUDITOR'S REPORT

Report of even date on the financial statements of Clariant Chemicals (India) Limited for the year ended March 31, 2021

[Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirement's in the Independent Auditor's Report of even date to the members of Clariant Chemicals (India) Limited on the Financial Statements for the year ended March 31, 2021]

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls with reference to financial statements of Clariant Chemicals (India) Limited ('the Company') as of March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI) (the 'Guidance Note'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether internal financial controls with reference to financial statements was

established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls With Reference to Financial Statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls,

material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2021, based

on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

Nature and purpose of reserves

- (a) **Capital Reserve:** During amalgamation, the excess of share capital of transferor companies over the cost of consideration paid is treated as capital reserve.
- (b) **Capital Redemption Reserve:** The Company has recognised Capital Redemption Reserve on buyback of equity shares from its retained earnings. The amount in Capital Redemption Reserve is equal to nominal amount of the equity shares bought back.
- (c) **General Reserve:** The Company has transferred a portion of the net profit of the Company before declaring dividend to general reserve pursuant to the earlier provisions of Companies Act, 1956. Mandatory transfer to general reserve is not required under the Companies Act, 2013.
- (d) **Deemed Contribution from Parent:** The fair value of the equity-settled share based payment transactions with employees is recognised in Statement of Profit and Loss with corresponding credit to Employee Stock Options Outstanding Account.
- (e) **Retained Earnings:** Retained earnings are the profits that the Company has earned till date, less any transfers to general reserve, dividends or other distributions paid to shareholders.

Its registered office is situated at Reliable Tech Park, Gut no. 31, Village Elthan, off Thane-Belapur road, Airoli, Navi Mumbai - 400 708, Maharashtra, India. The company is engaged inter alia, in manufacturing and selling Specialty Chemicals. The Company has its own manufacturing sites in the State of Maharashtra, Tamil Nadu and Madhya Pradesh.

Note 1: Summary of Significant accounting policies

This note provides a list of significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation of financial statements:

Compliance with Ind AS

These financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the 'Act') [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the 'Act'.

Historical cost convention

These financial statements have been prepared on historical cost basis, except for the following:

- certain financial assets and liabilities that are measured at fair value
- assets held for sale – measured at fair value less cost to sell;
- defined benefit plans – plan assets measured at fair value; and
- share-based payments

Recent Indian Accounting Standards (Ind AS)

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as amended from time to time. There are no such recently issued standards or amendments to the existing standards for which the impact on the financial statements is required to be disclosed.

On March 24, 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013. The amendments revise Division I, II and III of Schedule III and are applicable from April 1, 2021. Key amendments relating to Division II which relate to companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are: Balance Sheet:

- Lease liabilities should be separately disclosed under the head 'financial liabilities', duly distinguished as current or non-current.
- Certain additional disclosures in the statement of changes in equity such as changes in equity share capital due to prior period errors and restated balances at the beginning of the current reporting period.
- Specified format for disclosure of shareholding of promoters.
- Specified format for ageing schedule of trade receivables, trade payables, capital work-in-progress and intangible asset under development.
- If a company has not used funds for the specific purpose for which it was borrowed from banks and financial institutions, then disclosure of details of where it has been used.
- Specific disclosure under 'additional regulatory requirement' such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds of immovable property not held in name of company, loans and advances to promoters, directors, key managerial personnel (KMP) and related parties, details of benami property held etc. Statement of profit and loss.
- Additional disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency specified under the head 'additional information' in the notes forming part of financial statements.

The amendments are extensive and the Company will evaluate the same to give effect to them as required by law.

There are no other standards, changes in standards and interpretations that are not in force up to reporting period that the Company expects to have a material impact arising from its application in its financial statements.

(b) Segment reporting

Information reported to the Chief operating decision maker (CODM) for the purposes of resource allocation and assessment of segment performance focuses on the types of goods delivered or provided. No operating segments have been aggregated in arriving at the reportable segments of the Company.

The Company's reportable segments under Ind AS 108 are as follows:

Plastics and Coatings: Includes pigments, pigment preparations, additives and masterbatches.

Specialty Chemicals: Includes dyestuff, synthetic resins, functional effects and coating, auxiliaries and chemicals.

Company has four Business Units (BU) for reporting purposes, grouped into two Business Areas (BA) (reportable segments), in accordance with Ind AS 108, Operating Segments:

- Plastics and Coatings (BU Additives, BU Masterbatches, BU Pigments)
- Specialty Chemicals (BU ICS)

(c) Foreign currency translation

In preparing the financial statements of the Company, transactions in currencies other than the Company's functional currency viz. Indian Rupee, are recognised at the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in statement of profit or loss in the period in which they arise. All other foreign exchange gains and losses are presented in the statement of profit and loss on a net basis within other gains/(losses). Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

(d) Recognition of revenue

Sales of goods and services are recognized in line with the requirements of Ind AS 115, Revenue from contracts with customers. Revenue is measured based on the consideration the Company expects to receive in exchange for the goods or services. Revenue from sales of goods is recognized in the income statement when control has been transferred to the buyer, which is usually upon delivery, at a fixed or determinable price, and when collectability is reasonably assured. Delivery is defined based on the terms of the sale contract. Revenue from services is recognized when the respective services have been rendered. Revenue is reported net of goods and service tax, returns, discounts and rebates. Rebates to customers are provided for in the same period that the related sales are recorded based on the contract terms.

The Company does not expect to have any contracts where the period between transfer of the promised goods or services to customer and payment by the customer exceed one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

A receivable is recognised when the goods are delivered as this is the point of time that the consideration is unconditional because only the passage of time is required before the payment is due.

Export benefits / incentives are accounted on accrual basis when relevant exports are made.

Commission income are recognized only when the relevant service has been rendered or the goods have been delivered.

(e) Other income

Interest income is recognized on a time proportion basis, taking into account the principal outstanding and the effective rate over the period to maturity when it is determined that such income will accrue to the Company. Dividends are recognized when the right to receive the payment is established.

(f) Income tax

Income tax expense represents the sum of current tax and deferred tax.

The current tax expense or credit for the year is the tax payable on the current period's taxable income based on the applicable enacted income tax rate in accordance with the Income Tax Act, 1961, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, items that are never taxable/deductible and unused tax losses/ tax credits.

Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction (other than in a business combination) that affects neither accounting profit nor taxable profit. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted at the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable profits will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

Current and deferred tax is recognised in statement of profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity, in which case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(g) Leases

i. As a Lessee:

Leases are recognised as right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Company. Contracts may contain both lease and non-lease components. The Company allocates the consideration in the contract to the lease and non-lease components based on their relative stand alone prices.

Assets and liabilities arising from a lease are initially measured on present value basis. Lease liabilities include the net present value of the following lease payments:

- Lease payments less any lease incentives receivable

- Variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- Amounts expected to be payable by the Company under residual value guarantees, if any

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using Company's incremental borrowing rate (since the interest rate implicit in the lease cannot be readily determined). Incremental borrowing rate is the rate of interest that the Company would have to pay to borrow over a similar term, and a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment and based on company's standalone credit worthiness.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- The amount of the initial measurement of lease liability
- Any lease payments made at or before the commencement date less any lease incentives received
- Any initial direct costs for new leases

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Company applies Ind AS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the note 1(h) impairment of assets. Variable rents that do

not depend on an index or rate are not included in the measurement the lease liability and the right-of-use asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs and are included in the line 'Other expenses' in profit or loss.

ii. As a lessor:

Lease income from operating leases where the Company is lessor is recognised in income on a straight line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognized as expense over the lease term on the same basis as lease income. The Company did not need to make any adjustment to the accounting for assets held as lessor as a result of adopting the new leasing standard.

(h) Impairment of assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes are indicative in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment.

(i) Cash and cash equivalents

For the purpose of presentation in the Statement of cash flows, cash and cash equivalents includes cash on hand, cheques/drafts on hand and balances with banks of current and term deposit account, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value, and bank overdraft.

(j) Assets held for sale and discontinued operations

Assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell except for assets such as deferred tax assets, assets arising from employee benefits financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement. An impairment loss is recognised for any initial or subsequent write-down of the asset to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of de-recognition. Assets are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of assets held for sale continue to be recognized. Assets classified as held for sale are presented separately from the other assets in the balance sheet. The liabilities for assets held for sale are presented separately from other liabilities in the balance sheet.

(k) Trade receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less allowances for credit losses.

(l) Inventories

Cost is determined on weighted average basis. Cost of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Raw materials, packing materials, work in progress, finished goods, stock-in-trade and stores and spares are stated at the lower of cost and net realisable value. Cost of raw materials and stock-in-trade include cost of purchases. Cost of work-in-progress and finished goods include direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure (allocated on the basis of normal operating capacity). Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition.

(m) Investments and other financial assets

Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through statement of profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in statement of profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income or through statement of profit or loss account.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on

a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.

- **Fair value through profit or loss (FVTPL):** Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit or loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss as other income when the Company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gain / (losses) in the statement of profit or loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Impairment of financial assets

The Company assesses on a forward-looking basis the expected credit loss associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 32 details how the Company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

Derecognition of financial assets

A financial asset is derecognised only when the Company

- has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

Embedded derivatives

Derivatives embedded in a host contract that is an asset within the scope of Ind AS 109 are not separated. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Derivatives embedded in all other host contract are separated only if the economic characteristics and risks of the embedded derivative are not closely related to the

economic characteristics and risks of the host and are measured at fair value through profit or loss. Embedded derivatives closely related to the host contracts are not separated.

(n) Offsetting financial instruments

Financial assets and liabilities are offset, and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the group or the counterparty.

(o) Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual value

Depreciation is provided on a pro-rata basis on the straight-line method ('SLM') over the estimated useful lives of the assets specified in Schedule II of the Companies Act, 2013, except in case of certain assets, wherein based on technical evaluation, a different useful life has been considered. The estimated useful lives of assets are as follows:

Asset	Useful Life	Asset	Useful Life
Factory building	30 Years	Computers	4 Years
Office building	60 Years	Furniture and fixture	10 Years
Roads	5 to 10 Years	Office equipment	5 Years
Plant and equipment	10 Years	Vehicles	5 to 8 Years
Hardware mainframes and Servers	6 Years	Leasehold improvements	10 Years

The residual values are not more than 5% of the original cost of the asset. The asset's residual values and useful lives are re-viewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in statement of profit or loss.

(p) Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

(q) Goodwill

Goodwill on acquisitions of business is not amortised but it is tested for impairment annually or more frequently if events or changes in circumstances are indicative of impairment and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes, which is Pigment.

(r) Intangible assets**Trademarks**

Directly acquired trademarks are shown at historical cost. Trademarks acquired in a business combination are recognised at fair value at the acquisition date. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses if any.

Amortisation methods and periods

The Company amortises intangible assets with a finite useful life using the straight-line method over the following periods:

Asset	Useful Life
Trademarks	10 Years
Non-compete fees	3 Years

(s) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid as at the end of balance sheet date. The amounts are unsecured and are generally paid within 60 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

(t) Provisions and Contingent Liabilities

Provisions are recognised when there is a present or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are not recognised for future operating losses.

Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the balance sheet date and are not discounted to its present value. These are reviewed at each year end date and adjusted to reflect the best current estimate.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

(u) Employee benefits**Short-term obligations**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Other long-term employee benefit obligations

These liabilities for earned leave is not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. It is therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The Company presents provision for leave salaries as current and non-current based on actuarial valuation considering estimates of availment of leave, separation of employee, etc. An employee is entitled to be paid the entire accumulated leave balance immediately on separation from the Company, as per the policy of the Company.

Post-employment obligations

The Company operates the following post-employment schemes:

- (a) defined benefit plans such as gratuity, ex-gratia gratuity, provident fund; and
- (b) defined contribution plans such as superannuation fund, employee state insurance and other funds.

Defined Benefit Plans

The company has Defined Benefit Plans for post-employment benefits in the form of Provident Fund (treated as a Defined Benefit Plan on account of guaranteed interest benefit) and Gratuity. Provident Fund and Gratuity fund are recognised by the Income-tax authorities and administered through trustees and/or LIC. Liability for Defined Benefit Plans is provided on the basis of valuations, as at the Balance Sheet date, carried out by an independent actuary.

The liability or asset recognised in the balance sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit or loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined contribution plans

The Company's contribution to superannuation fund, employee state insurance and other funds are considered as defined contribution plans, as the Company does not carry any further obligations apart from the contributions made on a monthly basis and are charged as an expense based on the amount of contribution required to be made. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

Share-based payments

Group share-based payments benefits are provided to few employees under senior management level settled by ultimate holding Company, Clariant AG, Switzerland and accordingly classified as equity settled share-based payments.

Equity-settled share-based payments to employees are recognised as an employee benefit expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in statement of profit or loss, with a corresponding adjustment to equity. The fair value of shares granted is calculated based on, market value of shares, as at grant date

Bonus plans

The Company recognises a liability and an expense for bonuses. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

Termination benefits

Termination benefits are payable when employment is terminated by the Company before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Company recognises termination benefits at the earlier of the following dates: (a) when the Company can no longer withdraw the offer of those benefits; and (b) when the entity recognises costs for a restructuring that is within the scope of Ind AS 37 and involves the payment of terminations benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to present value.

(v) Contributed equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(w) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

(x) Earnings per share**Basic earnings per share**

Basic earnings per share is calculated by dividing:

- the profit attributable to equity holders of the Company
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(y) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Rupee in Lakh as per the requirement of Schedule III of the 'Act', unless otherwise stated.

Note 2: Critical estimates and judgements

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

The areas involving critical estimates or judgements are:

- Estimation of taxes - Note 34
- Estimated goodwill impairment - Note 3B.
- Estimation for the accounting of employee benefits - Note 38
- Allowance for credit losses on trade receivable - Note 1 (m) and 8
- Measurement of useful lives for property, plant and equipment and intangible assets - Note 1 (o) (q) and (r).
- Estimation of Provision for Inventory - Note 6
- Determination of Lease term – Note 1(g) and 22.

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

Impact of COVID-19:

Following the COVID-19, a country wide lockdown was announced on March 16, 2020. However, limited production activities were undertaken in line with Government approvals, to meet demand for essentials needed for the fight against the pandemic.

The Company has resumed operations in a phased manner in line with directives from the authorities and during the quarter ended September 30, 2020 operations have gradually come back to normalcy, though challenges exists.

An assessment conducted by the management on the recoverability of the carrying value of assets such as property, plant and equipment, inventory, trade receivable, investment and other current assets as at Balance Sheet date concludes that there is no material impact of COVID-19 thereon. Further, an assessment of the Company's capital, financial resources, liquidity positions, ability to service debt and other financing arrangements for the next one year, indicates financial stability.

Note 3A: Property, plant and equipment

Buildings include ₹ 450/- (31-03-2020 : ₹ 450/-) being the cost of shares in co-operative housing society

Note 3B: Goodwill

Impairment testing mechanism to the cash-generating unit is as follows :

The recoverable amount of the CGU is determined based on a value in use calculation which uses cash flow projections covering a five-year period and a discount rate 11.05% per annum (31-03-2020 : 12.60% per annum). Cash flow projections during the five year period are based on the historical growth rate and margins. The cash flows beyond that five-year period have been extrapolated using a steady 5% per annum (31-03-2020 : 5% per annum) growth rate which is the projected long-term average growth rate.

The Management believes that any reasonably possible change in the key assumptions on which recoverable amount is based would not cause the aggregate carrying amount to exceed the aggregate recoverable amount of the cash-generating unit.

At the end of the reporting period, there are no significant concentrations of credit risk for financial assets measured at FVTPL. The carrying amount reflected above represents the Company's maximum exposure to credit risk for such Financial assets.

Financial risk management framework

The Company's activities expose it to a variety of financial risks: market risk (including foreign exchange risk and price risk), credit risk, liquidity risk. The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to reduce potential adverse effects on the Company's financial performance at reasonable hedging costs. The Company uses derivative financial instruments to hedge risks on net exposure basis.

Management identifies, evaluates and hedges financial risks under approved policies to manage overall foreign exchange risk, credit risk and investing surplus liquidity (counterparty risk).

Market risks

Foreign exchange risk

The Company has exports to and imports from other countries and is exposed to foreign exchange risks arising from various currency exposures, primarily with respect to the Euro and the US-dollar. Foreign exchange risks arise from recognized assets and liabilities, when they are denominated in a currency other than Indian Rupee.

To manage the foreign exchange risk arising from recognized assets and liabilities, the Company uses spot transactions and foreign exchange forward contracts, on net exposure basis in major foreign currencies.

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. Exchange rate exposures are managed within approved policy parameters utilising forward foreign exchange contracts.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting year are as follows:

Credit risk

Credit risk arises from entering into derivative financial instruments, from deposits with banks and financial institutions, as well as from credit exposures to customers, including outstanding receivables.

Customer credit risk exposure is triggered by customer default risk and country risk. As at balance sheet date, the Company does not have significant concentration of credit risk either due to size of customers or due to country risk.

Company has a credit risk policy in place to ensure that sales are made to customers only after an appropriate credit risk rating and credit line allocation process. Procedures are standardized within credit risk policy and supported by the IT system with respective credit management tools. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining collaterals viz Security Deposit or bank Guarantee as per Credit Policy, as a means of mitigating the risk of financial loss from defaults. The average credit period on sales of goods is 60 to 90 days.

The credit risk on Cash & cash equivalents and derivative financial instruments is limited because the counterparties are banks with high credit-ratings assigned by credit-rating agencies. Also, the credit risk on security deposits for rental premises and loans to employees have low credit risk because of no history of defaults and no concerns for the counterparties to meet their obligations in the future.

Share option plan of the Parent Company

Few of the employees under senior management level have right to participate in Clariant Stock Option Plans introduced by the ultimate holding Company, Clariant AG, Switzerland.

Under the Group Senior Management – Long Term Incentive Plan (GSM-LTIP) a certain percentage of the actual bonus is granted to the plan participants in the form of registered shares of Clariant (investment shares). These shares vest immediately upon grant, but are subject to a 3-year blocking period. The plan participants receive an additional share free of cost (matching share) for each investment share held at the end of the blocking period.

Performance Share Unit (PSU) plan is a three-year vesting period plan. The vesting is conditional upon achievement of the performance targets at the end of the vesting period. If the performance targets are achieved, each PSU will be converted into one Clariant share and the plan participants receive Clariant share free of cost.

The total amount to be expensed in the statement of profit or loss is determined by reference to the fair value of the options granted and is recognised over the vesting period. Assumptions are made concerning the forfeiture rate which is adjusted during the vesting period so that at the end of the vesting period there is only a charge for the vested amounts.

Set out below is the summary of shares granted under the plans:

Number of shares	31-03-2021		31-03-2020
