MANAGEMENT DISCUSSION AND ANALYSIS REPORT

ANNEXURE 1

INDUSTRY STRUCTURE AND DEVELOPMENT

We are a global supplier of amines and amine-based chemicals. We have two manufacturing sites, one at Patalganga and the other at Kurkumbh. We also have an R&D Centre at Pune. We have an excellent team of technical and commercial professionals with expertise in chemicals manufacture and marketing.

Our products have application in important industries like pharmaceuticals, agro-chemicals, water treatment chemicals, photography chemicals, rubber chemicals, etc. We cater to both domestic and international market. We have competition both from local producers and international producers.

For more details please refer to our web-site www.alkylamines.com.

PERFORMANCE

Total Income gross amounted to Rs.23740 lacs compared to Rs.22280 of the previous year. Though sales in volume increased by nearly 22% over the previous year level, sales (gross) for the year 2009-10 was Rs.23166 lacs compared to Rs. 21520 lacs for the year 2008-2009 registering only an increase of 8%.

Production of specialty chemicals amounted to 29331 MT for the year 2009-2010 compared to 27387 M.T. for the year 2009-2010. We have been focusing more on products of better value addition.

Income from contract processing for 2009-10 was Rs. 2.11 crores compared to Rs. 1.76 crores of the previous year.

OPPORTUNITIES, THREATS, RISKS AND CONCERNS

The commodity nature of some of our products make them susceptible to fluctuations in raw material prices and exchange rates. The company is vulnerable to alcohol price volatility. Domestic alcohol prices are dependent on the cyclicity of the sugar industry. The international market prices of amines follow the petrochemicals cycle. However, Ethyl alcohol prices are now stable and with better crushing season, alcohol prices are expected to be stable in the medium term. Other petroleum based raw materials are subject to crude oil price fluctuation.

While there will be challenges, there are also plenty of opportunities that lie ahead. We enjoy leadership position in amines market, driven by strong in-house technology and research and development (R&D) capabilities and diversified product portfolio and customer base.

We offer activities like reductive amination (liquid and vapour phase), air oxidation, high pressure hydrogenation, peroxide oxidation, etc. for customers both domestic and international, which has very good growth potential. Our R&D Centre is enabling us to add new products to our product portfolio which will add to our contribution.

Threats and challenges also provide opportunities for growth. Since the chemicals industry is growing, we have a fair chance of improving our position as a reliable supplier of good quality chemicals. Our Core Competence in chemicals handling and manufacturing supported by an able Technical Team, should provide a lot of opportunities and scope to the company to improve its performance in an otherwise difficult business environment.

FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

The operating profit before tax amounted to Rs.15.90 crores compared to Rs. 8.23 crores reported last year.

During the year, our domestic sales amounted to Rs.181.95 crores compared to Rs. 166.72 crores of the previous year. Export sales increased to Rs. 40.73 crores (FOB) compared to Rs. 38.96 crores of the previous year.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The SAP-ERP system is being further streamlined. The system is helping the Managers to advantageously assimilate information and make more knowledge-based and efficiency-driven decisions. We have a good system of internal controls in all spheres of activities. The internal control is supplemented by effective internal audit being carried out by an external firm of chartered accountants. The Audit Committee of Directors regularly reviews the findings of the Internal Auditors and effective steps to implement the suggestions/observations of the Auditors are taken and monitored regularly. In the opinion of the Board, an effective internal control system adequate to the size of the Company exists.

Strategic Plans and Organizational Development:

We have outlined a three year growth plan and are working progressively to achieve the targets outlined in the plan.

We have framed strategies on both production and marketing fronts to meet the challenges thrown open by

the ongoing global recession. We are actively working towards setting up global scale manufacturing plants in speciality chemicals segment that provide economies of scale which would enable us to compete with manufacturers from other countries. We are also striving to become a true technology leader with a distinct product/process development capability and intellectual property rights.

We are focusing on continuous improvement in production processes, effective cost management, diversification into more value added products, improved management practices and introduction of new systems and further growth in export markets. We recognize that growth requires, both organic and inorganic growth and hence, we are also exploring opportunities for leveraging our core strengths by tie-up with other global suppliers of chemicals and also acquisitions where we have synergies.

HUMAN RESOURCES

In today's knowledge driven dynamic business environment, people are the most critical drivers of growth. We recognize that human resources form an integral part of our company's strategy for growth and the competence and commitment of our people are the key drivers for growth of our company. Your company had a manpower strength of 317 as on March 31, 2010. There have been excellent relations between the employees at various levels and the management. Your Directors wish to acknowledge the sincere and dedicated efforts of the employees of the company and would like to thank them for the same.

Improving competence of employees is an ongoing process. This year we have taken specific steps to ensure this. The employees are given training by attending seminars/ workshops (both in house and outside) to enhance their skills and knowledge.

Further we have refocused on quality of entry level employees by identifying better colleges for recruitment of engineers, their academic achievements and their training after joining to ensure bench strength of competent employees.

Information required to be given pursuant to the provisions of Section 217(2A) of The Companies Act, 1956 is given in the Annexure, a copy of which can be obtained by the members from the Company's Registered Office on request.

OUTLOOK

The year 2010-11 has its own sets of challenges and opportunities for us. With global recession and idle/new capacities abroad and a stronger rupee, there is increasing threat from imports. However, despite various adverse factors affecting the economy, it is expected that there will be growth in chemical industry.

The Pharmaceutical Sector in India is poised for further growth and it is likely to improve the volume of sales of our company. On the export front also, exports look promising for our basic products as well as for our newly developed intermediates.

This year we have added two new products to our product range. Further new products are being added to our product range with the efforts of our R&D and New Product Development Team (NPDT) and sales from these products are growing at a significant pace.

Our Annual Operating Plan is focused on improvement in efficiencies, margins, profitability and sales while re-looking at business strategies and models, wherever necessary. The new products, which we have added to our portfolio, are helping us in increasing sales and contribution and we are confident that this trend will remain. The strategies which we have adopted and are adopting should lead to enhancement in intrinsic value not only to all shareholders, but also to all stakeholders in the Company.

Annexure referred to in paragraph 3 of the Auditors' Report of even date to the members of ALKYL AMINES CHEMICALS LIMITED on the accounts for the year ended March 31, 2010.

On the basis of such checks as we considered appropriate and in terms of information and explanations given to us, we state that:

- i. a. The Company is maintaining proper records of fixed assets (except for additions during the year and of the preceding year, the records for which are being updated) to show full particulars, including quantitative details and situation of fixed assets.
- b. According to the information and explanations given to us, the fixed assets have been physically verified for the first time by the management during the year.

The management is in the process of reconciling the records as per physical verification with the books of account and only on the completion of such reconciliation, the Company will be in a position to determine material discrepancy, if any, and give effect thereto.

The management has decided to carry out the physical verification of all the fixed assets over a period of three years, which in our opinion, if carried out, will be at reasonable intervals having regard to the size of the company and nature of its business.

- c. The Company has not disposed off a substantial part of the fixed assets during the year.
- ii. a. Inventories have been physically verified by the management during or at the year-end. In our opinion, the frequency of verification is reasonable having regard to the size of the Company and the nature of its business. - iii. a. As per the information furnished, the Company has not granted any loans, secured or unsecured, to companies, firms or other parties covered in the register maintained under Section 301 of the Companies Act, 1956.

As the Company has not granted any such loans, Clause (iii)(b) of the Order relating to the rate of interest and other terms and conditions, whether prima facie prejudicial to the interest of the Company, Clause (iii)(c) relating to regularity of the receipt of principal amount and interest and Clause (iii)(d) relating to steps for recovery of overdue amount of more than rupees one lakh, are not applicable.

The Company is regular in repayment of the principal amounts as stipulated and as also in the payment of interest.

- vii. In our opinion, the Company has an internal audit system commensurate with its size and nature of its business.
- viii. We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of Cost Records in respect of the manufacture of hydrogen under Section 209 (1) (d) of the Companies Act, 1956 and are of the opinion that prima facie the prescribed accounts and records have been made and maintained. Liability with regard to Gratuity Plan is accrued based on actual valuation at the Balance Sheet date carried out by an independent actuary. Actuarial gain or loss is recognized immediately in the statement of profit and loss as income or expense.
