SALES AND MARKETING

The Year 2013-14 has been the first full year post supply stabilization from the Company's factory operations, which had impacted the performance of the Company since March 2012.

Continuing with its commitment to growth, the Company registered sales of ₹ 4415.6 Million, a 24% growth over the last year. The growth has been steady and while over the 9 months April-December 2013, the Company grew by 22%, the last quarter growth surpassed the growth rate by registering a 30% growth over the same quarter previous year.

In the last Directors' Report, the Members were informed that the Company's efforts would be focused on regaining the market position by re-introduction of the products which were impacted due to supply constraints. The Directors are pleased to inform that, despite the long disruption in the supply, the Company has delivered strong growth in these products and has been able to regain 60-80% of the market share¹ in respect of most of the key products not impacted by regulatory changes.

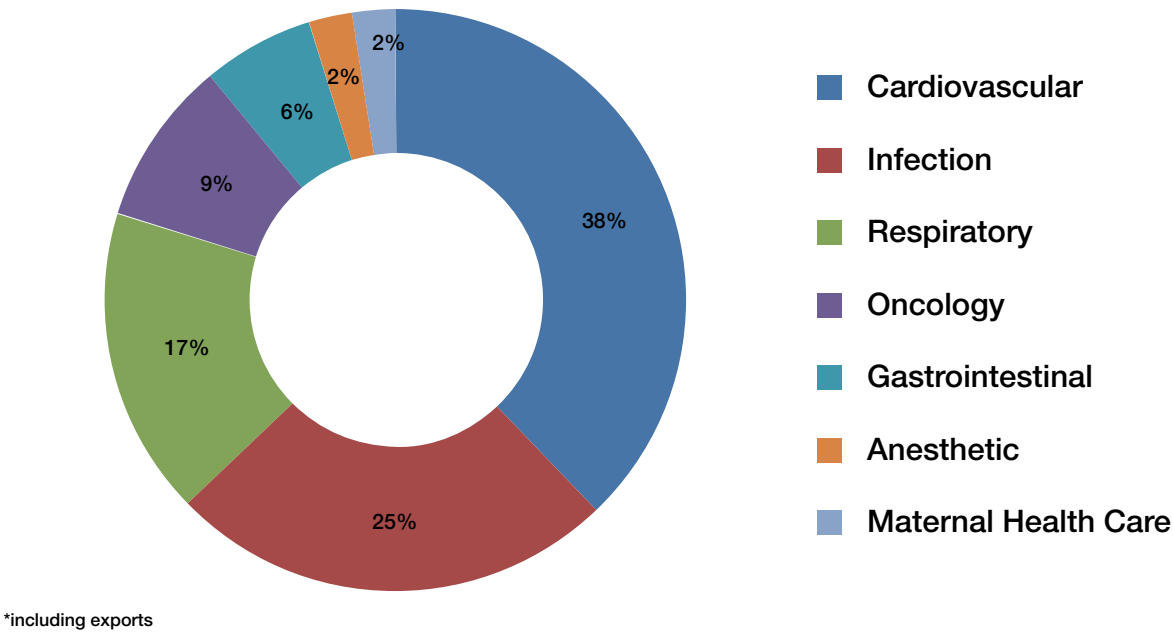

The Year 2013-14 witnessed a series of regulatory interventions in the Indian Pharmaceutical Market. In the last Directors' Report, Members were informed

that the National Pharmaceutical Pricing Policy 2012 announced by the Government in December 2012 had brought 348 medicines covered in the National List of Essential Medicines (NLEM), under price control. Based on this policy, Drug Pricing Control Order was notified in May 2013. Since then, ceiling prices have been announced by the Government in a phased manner. Uncertainty around the announcements on the ceiling prices and the multiple notifications by the Government impacted the market growth for these products. 15 SKUs across 8 brands of the Company were covered under the NLEM.

The drug, BRILINTA® (Ticagrelor) which provides cardiologists with a new and effective treatment to help reduce the rate of heart attack and cardiovascular deaths in adult patients with Acute Coronary Syndrome (ACS), has been received well by the market and continues to register rapid growth. During the year, the brand continued to grow its market share, as per IMS Health, from 1.4% (MAT March 2013) to 6.7% (MAT March 2014). Members were informed that, as per IMS Health data, the brand ranked in the top 10 brands in the oral antiplatelets segment in the Indian Pharmaceutical Market.

MANUFACTURING

The Company benefitted from a comprehensive review of its manufacturing operations with assistance from AstraZeneca group, initiated during 2012-13.

The manufacturing site at Yelahanka has resolved many constraints in the supply during the year 2013-14, consistently meeting supply requirements. The remediation measures established in the previous year have delivered discernible improvements in Quality Management System and Quality Capabilities in the current year, such as Good Manufacturing Practices (GMP), root cause analysis and shop floor Quality Assurance Controls. Resultantly, GMP metrics tracked by the Company on site have also shown significant improvements.

The Directors are pleased to inform that the planned move of manufacture and Quality Control laboratory from its existing facilities to the new state-of-the-art tablets and laboratory facility was completed as per the plan with the first commercial supply from the new facility taking place in the first quarter of Financial Year 2013-14. The establishment programme was delivered to plan, with planned QC transfers and the majority of tablet transfers delivered by the end of the Financial Year 2013-14. This will enable the cessation of manufacture from the existing manufacturing facility and will ensure a platform for consistent supply of global quality medicines.

The supply assurance of Terbutalane Sulphate (TBS) API to AstraZeneca Group was strengthened with an INR 185.5 million investment. The upgrade programme was completed in the last quarter of Financial Year 2013-14. The Company is currently establishing new quality control testing equipment and is experiencing some product supply delays.

As has been widely reported, regulatory authorities around the world have recently adopted a more stringent and forensic approach to their audit programmes, with particular emphasis on data integrity. In line with this, our World Wide Audit Group (WWAG) is now following a similar format for their audits.

The outsourcing programme of sterile products, liquid orals and semisolids completed during the previous year has presented significant challenges in sustaining supply in accordance with GMP. The Company continues to monitor and review the performance of its external partners. As compliance issues arise, the Company makes its assessment

and develops and implements corrective action plans as appropriate.

VOLUNTARY NON-REPAYABLE FINANCIAL GRANT BY ASTRAZENECA PHARMACEUTICALS AB, SWEDEN

As you are aware, last year, in order to assist the Company in its efforts to establish/grow its presence in the Indian market despite the significant losses incurred, AstraZeneca Pharmaceuticals AB Sweden (Promoter Company) had agreed to provide a voluntary non-repayable financial grant of approximately USD 22.5 million to USD 26.5 million over the three years period Financial Year 2013-14 to Financial Year 2015-16 under a Subvention Agreement dated May 7, 2013.

During the year ended 31 March 2014, the Company received a sum of ₹ 862.4 million as financial grant under the said agreement. The Promoter Company vide its letter dated March 1, 2014 informed the Board of Directors of the Company of a revision of the said agreement, whereby the payment under the said agreement was revised to USD 14 million (Indian rupee equivalent 862.4 million) and period covered under the said agreement to financial year 2013-14. The Promoter Company, in terms of the said agreement, vide its letter dated April 25, 2014 terminated it effective March 25, 2014 on the ground that the Company's business and financial performance has been in line with more recent expectations and that the Company shall not require any further grant for the financial years 2014-15 and 2015-16.

SAFETY HEALTH AND ENVIRONMENT

Providing a safe workplace, and promoting the health and wellbeing of all its people remains a core consideration for the Company. During the period under review, the Company's field force was trained in defensive driving techniques which resulted in a decreased number of road accidents. Regular initiatives like 'Hypertension awareness' and 'Diabetes Awareness' continued during the year to encourage the Company's employees to adopt healthy and productive lifestyle practices.

HUMAN RESOURCES AND EMPLOYEE RELATIONS

The Company continued to enjoy good industrial relations and cooperation with its employees. Retaining and developing talent during a period when the Company is targeting to return to growth,

employee morale and motivation was a priority. The increased focus on employee engagement through improved communication and building accountability at all levels had a positive impact on talent management. Managers were trained in conducting performance coaching and feedback with a view to enhancing capabilities of employees.

FACTORY LAND AT YELAHANKA

The Company received compensation amount of ₹ 13.7 million in respect of first acquisition of land made by NHAI in 2004. However, the review petition which was filed by NHAI before the Karnataka High Court, and the arbitration proceedings initiated by NHAI before the Arbitrator at Bangalore, are still pending.

The Company received further compensation amount of ₹ 102.8 million in respect of second acquisition of land made by NHAI in 2011. The Company subsequently invoked arbitration seeking, inter alia, enhancement of compensation from NHAI.

OTHER MATTERS

In December 2012, the Company had received a notice from Bruhat Bangalore Mahanagar Palike (BBMP) demanding from the Company improvement charges amounting to ₹ 15,58,04,930/-. The Company had filed a Writ Petition before the Karnataka High Court challenging the said demand notice from BBMP. The Court had granted interim stay against the notice issued by BBMP and the stay is in force.

In the last Directors' Report, the members were informed of the ongoing investigation pursuant to a First Information Report filed in February 2012 by the Central Bureau of Investigation against, among others, the Company. During the year, the investigation was concluded and a charge sheet was filed in the Court by CBI on August 5, 2013. Neither your Company nor any of its officials/employees have been named as accused in the charge sheet.

VOLUNTARY DELISTING OFFER

AstraZeneca Pharmaceuticals AB, Sweden (AZPAB) vide its letter dated March 1, 2014, notified the Company of its proposal to make a voluntary delisting offer to the public shareholders of the Company, in accordance with the Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009, with a view to delist the equity shares of the Company from BSE Limited (BSE), National Stock Exchange of India Limited (NSE) and Bangalore Stock Exchange Limited (BgSE), where

the equity shares of the Company are currently listed (delisting proposal).

The Board at its meeting held on March 5, 2014 considered the delisting proposal as above and sought additional information from AZPAB. On receipt of the additional information, the Board had a further meeting on March 15, 2014, at which, after consideration of the additional information, it approved the delisting proposal.

Thereafter, the Board met on April 15, 2014 to consider seeking approval of shareholders through Postal Ballot and deferred the decision in light of further clarifications and explanations sought from ICICI securities Ltd. (Manager) and Walker Chandio & Co LLP (Valuer). Upon receipt of the clarifications sought, the Board again met on May 5, 2014 and after consideration of the clarifications provided, approved seeking approval of shareholders of the Company through Postal Ballot, for voluntary delisting of equity shares from the stock exchanges.

In terms of the report submitted by the Scrutinizer, the Special Resolution in relation to voluntary delisting of equity shares of the Company from stock exchanges has been duly approved by the requisite majority of shareholders. Further, the number of votes cast by public shareholders in favour of the Special Resolution being two times more than the votes cast against it by the public shareholders, the additional requirement as envisaged in Regulation 8(1)(b) of Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 has been satisfied and accordingly, the Special Resolution would be acted upon by the Company.

SEBI ORDER DATED JUNE 24, 2014

The Securities & Exchange Board of India (SEBI), came across certain reports stating that the Offer for Sale (OFS) of the shares of the Company carried out by the Promoter – AstraZeneca Pharmaceuticals AB, Sweden, (AZPAB) on May 26, 2013, was a deliberate attempt to subsequently get the shares of the Company delisted at ease. It was also reported that more than 94% of total shares offered through OFS had been subscribed by 6 Foreign Institutional Investors (FII).

SEBI has in its order dated June 24, 2014, stated that the facts and circumstances stated in the order, raises suspicion that Elliott Group who are the end subscribers in respect of shares held by FIIs, may have been working in collaboration/ concert with the Promoters, to facilitate the delisting of shares of the Company.

The Order also states that the matter requires further examination and in order to protect the interest of the retail investors in the delisting process which is already on, SEBI issues the following directions:

(a) Bombay Stock Exchange Limited and National Stock Exchange of India Limited shall closely monitor the entire delisting process of the Company and allow the final delisting of shares only after satisfying themselves that the process has been fair and transparent

(b) Bombay Stock Exchange Limited and National Stock Exchange of India Limited shall promptly report any aberrations noticed in the delisting process of the Company, to SEBI

(c) The Promoters of the Company shall finally purchase shares from public shareholders in the delisting offer only after seeking approval of Bombay Stock Exchange Limited and National Stock Exchange of India Limited.

WRIT PETITION – VOLUNTARY DELISTING OFFER

A Writ Petition has been filed by two shareholders of the Company before the Bombay High Court seeking inter-alia an order from the Court, restraining the Company and AZPAB from implementing the said voluntary delisting as proposed by AZP AB.

The Hon'ble High Court which heard the matter on July 14, 2014 adjourned the same to July 24, 2014, with a direction that any steps taken hereafter shall be subject to further orders and shall not entitle any of the parties to claim equities.

The Company has filed its affidavit before the Court stating that it is only a target Company and that it has no stake in the Delisting Proposal of AZPAB other than to comply with the mandatory requirements under the SEBI (Delisting of Equity Shares) Regulations, 2009 ('Delisting Regulations') and the procedure prescribed thereunder & the Companies Act, 2013 and that it has duly complied with the requirements as such.

At the hearing held on July 24, 2014, SEBI had sought additional time to file its affidavit in the matter and in view thereof, the Court adjourned the matter by 2 weeks. Further, at the hearing held on August 7, 2014, SEBI sought further additional time to file its affidavit, based on which, the Court has granted one week's time to enable SEBI file its affidavit. The matter is now scheduled for hearing by the Court on August 14, 2014.

ACQUISITION OF BMS'S DIABETES INTEREST

In December 2013, AstraZeneca globally announced an agreement to purchase BMS's 50% interest in AstraZeneca's and BMS's joint diabetes business. On February 1, 2014, AstraZeneca completed the acquisition of BMS's interests in the companies' diabetes alliance. The acquisition provided AstraZeneca with 100% ownership of the intellectual property and global rights for the development, manufacture and commercialisation of the diabetes business, which includes Onglyza (saxagliptin), Kombiglyze XR (saxagliptin and metformin HCl extended release), Komboglyze (saxagliptin and metformin HCl), Farxiga (dapagliflozin, marketed as Forxiga outside the US), Byetta (exenatide), Bydureon (exenatide extended release for injectable suspension), metreleptin and Symlin (pramlintide acetate).

The Company had since 2010 been associated with BMS in promotions of Onglyza (Saxagliptin), Kombiglyze XR (Saxagliptin and Metformin HCl extended release) and Byetta in the Indian Pharmaceutical Market. The acquisition enables the Company to focus on the Diabetes segment, which today impacts approximately 65 million people in India, who are suffering from the disease. The Company, over the next few years, expects to launch more products in disease segment and strengthen its position.

DIRECTORS' RESPONSIBILITY STATEMENT

Pursuant to Section 217 (2AA) of the Companies Act, 1956 (the Act), the Board of Directors states that:

a) In the preparation of the Company's Annual Accounts, the applicable accounting standards had been followed and proper explanations had been provided for material departures, wherever applicable.

b) It has selected such accounting policies which had been applied consistently and made judgements and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the company as at the end of the year March 31, 2014 and of the Loss of the company for that period.

c) It had taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of the Act for

safeguarding the assets of the company and for preventing and detecting fraud and other irregularities.

d) The financial statements had been prepared on a going concern basis.

BOARD'S RESPONSE TO AUDIT OBSERVATIONS

The observations made by the Auditors under para (x) of the Annexure to the Auditors' Report relating to cash loss in the immediately preceding financial year is self explanatory. The management has initiated and is vigorously pursuing plans and actions to drive the Company back to profitability. These measures would help the Company in stabilizing its fund position during the Financial Year 2014-15.

INFORMATION PURSUANT TO SECTION 217 OF THE COMPANIES ACT, 1956

Information required under Section 217(1)(e) of the Companies Act, 1956 (1956 Act), read with the Companies (Disclosure of Particulars in the Report of the Board of Directors) Rules, 1988, is given in Annexure-I and forms part of this Report.

Information under Section 217 (2A) of the 1956 Act, read with Companies (Particulars of Employees) Rules, 1975, forms part of this Report. However, as per the provisions of Section 219(1)(b)(iv) of the 1956 Act, the Report and the Accounts are being sent to all the members, excluding the information under Section 217(2A) of the 1956 Act. Any member, desirous of obtaining a copy of this Statement, may write to the Company Secretary.

CORPORATE SOCIAL RESPONSIBILITY

The Company introduced AstraZeneca's signature global initiative the Young Health Programme (YHP) in Financial Year 2010-11, designed to help marginalized young people deal with health problems they face, enabling them to live a better life. The programme has made significant progress since then.

YHP India has directly been able to reach out to 89,493 young people (40,271 boys and 49,222 girls), and has influenced 84,387 wider community members, including health professionals, educators and policy makers.

The several achievements of YHP India have been through two key approaches namely, the establishment of 15 Health Information Centres

(HICs) which act as a forum for the youth. The second vital approach is the training and support of 1,581 Peer Educators (of which 814 are girls) who are responsible for spreading awareness in their respective communities.

In India, YHP focuses on hygiene, infection, reproductive health and wider health issues (such as tobacco use and alcohol abuse) of adolescents. Customized packages comprising of training curriculum is disseminated through various mediums such as street plays, magic shows, workshops, community meetings, video shows, competitions, thematic camps and fairs. Training of 588 healthcare workers including Anganwadi workers (family health), ASHA workers (community health) and ANMs (Auxiliary Nurse Midwives) have been a part of YHP's achievements as well. YHP India continues to enhance knowledge on health issues and ways to cope with it for adolescents and hopes to reach a larger audience as the year progresses.

Annexure II to Directors' Report

Management Discussion & Analysis Report

Indian Economy

Between 2010 and 2012, the Gross Domestic Product (GDP) growth at factor cost fell steeply from 8.9% to 4.5%. In 2013, RBI estimated GDP growth at factor cost to be 4.7%, a significantly lower rate of growth for the Indian Economy, by historical standards. Over the period 2014-2018, real GDP growth is expected to be around 6.5%¹ - an improvement, but still insufficient to absorb an expanding workforce or to lower unemployment significantly as per IMS Health Prognosis March 2014.

Consumer price inflation is stubbornly high and is broadly expected to remain so over the next few years. High oil imports and supply bottlenecks (including foodstuffs) are contributing to price growth. Moreover, the drop in the rupee's value is contributing to the higher import costs. Consumer price Inflation averaged 10.2%² in 2012 and declined marginally to 9.5%² in 2013, and is expected to remain above 8%¹ in 2014, before beginning to decline. The Reserve Bank of India (RBI) held its repurchasing interest rate at 8.00%² during the year since January 2014 to control inflation.

The Indian rupee fell to record lows against the US dollars in August 2013 when the exchange rate touched ₹ 68² a US dollar, a 13% decline in a short period of three months. Gradual increase in GDP over the past few quarters and the change in the investor sentiments regarding Indian Economy post new Government formation, is enabling the Indian Rupee regain some of its lost value. On 1st August 2014, the Rupee was quoting at ₹ 60.85² to the US dollar.

Healthcare Environment

The existing healthcare system reflects decades of under-investment in the sector and the failure of successive governments to implement previous reform plans.

The 12th Five Year Plan summarizes the system' major shortcomings as:

Availability: The availability of healthcare services is inadequate, with significant shortages of doctors and nurses. This extends to both the public and private sector. The situation in rural India is alarming.

Quality: The quality of healthcare providers varies widely in both the public and private sectors, with many practitioners in the private sector not properly qualified, reflecting the inadequate nature of regulations governing providers and poor enforcement of the standards that do exist. In the public sector, resource shortages and organizational shortcomings impact the quality of healthcare services.

Affordability: The Government's contribution to national healthcare spending has risen gradually over the past decade, but still accounts for less than one-third of the total healthcare spends. The penetration of the health insurance scheme is also small.

¹ Economist Intelligence Unit (EIU)

² RBI Database

In the absence of adequately funded public healthcare provision and limited health insurance, many patients incur heavy out-of-pocket expenses for healthcare services. Even in the public sector, patients foot much of the bill for outpatient care and are often forced to purchase their own inpatient medicines due to shortages before they can be treated in public hospitals.

Pharmaceutical Spending

Patients are heavily exposed to the cost of pharmaceuticals, reflecting almost the absence of outpatient drug subsidies and supply issues in public health facilities, which mean that even inpatients must often purchase their own medicines.

In Public health, where the appropriate products are in stock at hospitals, patients do not need to incur charges for drugs prescribed to them as inpatients. However, Public sector provision does not cover outpatient drug costs. Further, outpatient drug benefits are mostly not covered either under public health insurance schemes or private health plans.

As a result, drugs become the main contributors to Out of Pocket (OOP) spending, accounting for 60-70% of OOP spends for outpatient treatment and 40-60% for inpatient treatment, as per an IMS Institute study of 2012, *Understanding Healthcare Access in India*. That figure could begin to decline during the

next five years as the government begins to roll out a new initiative under which free essential medicines will be dispensed by public health facilities.

The Indian Pharmaceutical market grew by 9.9% during the Financial Year 2013-14 and was valued at over ₹ 8,03,521 million, slightly lower than 10.2% clocked in the Financial Year 2012-13 and around 2% lower than estimates made by IMS Health, a pharmaceutical data research firm, in its prognosis report of March 2013. The Multinational Pharmaceutical Segment market share dropped marginally from 29% to 28%, and grew slower at 5.1% during the Financial Year 2013-14 as against 8.5% in the Financial Year 2012-13.

As per the latest forecast by IMS Health, in its Prognosis of March 2014, the Indian Pharmaceutical Market is forecasted to grow at a CAGR of 11.6% (±3.0%) over the period 2013-2018 (without considering the impact of the price control announced by NPPA in July 2014).

Key Issues Affecting Market Growth:

- Chronic, non-communicable diseases are growing rapidly, led by cardiovascular disease, chronic respiratory diseases, cancer and diabetes.
- The private hospital sector will continue to expand, including in lower class towns, driven mainly by corporate hospital groups.
- Basic health insurance coverage will increase, including through central and state government schemes, as well as through private plans.
- New drug registration requirements have been tightened and drug approval timelines have increased, with a new expert committee system implemented and new requirements being enforced to govern the approval of fixed-dose combination products.
- Restrictions have been implemented to prevent sale without a prescription of 46 drugs covered under Schedule H1 of the Drugs and Cosmetics Act, with the objective of controlling resistance to antibiotics and increasing incidences of drug resistant tuberculosis (TB).
- Demographic factors will impact growth: while the population will continue to grow, the rate of growth will slow down during 2014- 2018 compared to previous five-year period, as projected by Economist Intelligence Unit.

Drug Pricing

Approximately 30% of the Pharmaceutical market was subjected to the Drug Price Control Order (DPCO) with implementation of the 2012 National

Pharmaceutical Pricing Policy as per IMS Prognosis March 2014. Ceilings on the price of all 348 products on the NLEM have been established by averaging the price of brands with a market share of 1% or more.

The National Pharmaceutical Pricing Authority (NPPA) issued notifications for ceiling prices under the new Order in batches through the second half of Calendar Year 2013. By the end of Calendar Year 2013, the NPPA had issued price notification for over 500 formulations, but had also encountered problems with pricing some products, for which no adequate pricing data is available.

The Company has implemented the notifications for ceiling prices for 15 SKUs across 8 brands currently marketed by the Company and listed on the NLEM. The range of patient price reduction on the affected SKUs was 4%-52% (average price reduction ~30%).

NPPA has, recently, through its notification dated July 10, 2014, further expanded the scope of drug pricing regulation, bringing in certain drugs especially in Cardiovascular and Diabetes under price control, invoking provisions under paragraph 19 of DPCO 2013. This sudden development is expected to severely impact the pharmaceutical industry. As per AIOCD (All India Organization of Chemists and Druggists), this impact is estimated to be around ₹ 4,000 million due to this price control order. This notification has implications on 10 SKUs across 5 brands of the Company, including certain key brands like Crestor and Imdur. The patient price reductions on these products are estimated to be in the range of 15% to 52% (average price reduction ~41%).

OPPI (The Organization of Pharmaceutical Producers of India) has filed a writ petition against the sudden move of the Government, in Delhi High Court, challenging the Government notification invoking of Para 19. The matter is currently under consideration of the Delhi High Court.

A similar petition has also been filed by the Indian Pharmaceutical Alliance (IPA), whose members include leading Indian pharmaceutical manufacturers such as Sun Pharmaceuticals, Lupin, Cadila Healthcare, and Dr. Reddy's Laboratories in the Mumbai High Court.

Opportunities and Threats / Risk and Concerns

The expected growth of the Indian Pharma Market at around 11.6% (+/- 3%) from 2013-2018, as projected by IMS Health in its prognosis March 2014, presents an attractive opportunity for

pharmaceutical companies. This growth does not consider the impact of recent announcement made by NPPA on July 10, 2014 on pricing of certain drugs. Epidemiological changes have led to a rise in chronic and non communicable diseases such as cardiovascular ailments, diabetes, respiratory and cancer among the urban population, contributing to more than 50% of the deaths³. The Company is committed to make a meaningful difference to patients through its portfolio of medicines for such ailments. The Company's products are well positioned to leverage the expected growth in the private hospital sector as well.

As per IMS prognosis March 2014, drug approval timelines have increased sharply over the past 18 months. Lengthening delays are attributable to a combination of factors, including teething problems with a new expert committee system and the Drug Controller General of India (DCGI) beginning to adopt a much more cautious approach to the dossier review process due to the criticism levelled at the office in a 2012 report by the parliamentary standing committee report on health and family welfare.

Companies are now limiting their local clinical trials due to concern on the protection of patents and also due to tightened approval procedures, new monitoring mechanisms and compensation rules for clinical trials. The Supreme Court suspended 157 previously approved clinical trial and only 19 trials have been approved in 2013⁴. In the interest of making available new drugs to Indian patients to especially address unmet medical needs, the Company hopes that the uncertainty in clinical trial guidelines is adequately addressed by the judiciary and the executive.

The protection of Intellectual Property (IP) is the fundamental principle driving the growth of the pharmaceutical industry, aiding its ability to introduce innovative medicines to address unmet patient needs. The Company hopes that the risks of diluting protection of IP are adequately assessed and addressed by the regulators while considering issues pertaining to the Patent Act.

The underlying trend observed in the foreign exchange market is a matter of deep concern to the Company. The sharp depreciation of the rupee against the U.S. Dollar will significantly increase import costs for the Company during the year. The Company currently imports several products from AstraZeneca manufacturing facilities worldwide.

Risk Management

The Company has a formal Risk Management process and the risk register is established and updated periodically. The company has an established Crisis Management and Business Continuity Plan, as part of the risk management initiative. The objective of the Crisis Management is to prepare the organization for managing and responding to unexpected and exceptional developments and circumstances. The crisis management plan identifies the roles and responsibilities of the team and periodical testing of the plan for effectiveness.

Segment-wise or product-wise performance

The Company has three primary business segments:

(i) The **Healthcare** segment engages in the manufacture and sale of pharmaceutical products. During the year under review, the healthcare segment generated total revenue of ₹ **4417.8 million** out of which domestic revenue contributed ₹ **4147.7 million (94%)** and exports sales ₹ **270.2 million (6%)**.

(ii) The **Clinical Trial** segment renders clinical trial services on pharmaceutical products to its group companies. During the year, the segment generated revenue of ₹ **104.4 million** from export of services

(iii) The **Co-promotional Services** segment renders co-promotion services for pharmaceuticals products to its customers. During the year, the segment generated an income of ₹ **217.4 million**.

Clinical Trial and Co-promotional services however do not qualify as separate segments as defined in Accounting Standard 17- Segment Reporting and hence have been disclosed as 'Others' in the financial statements.

Outlook

During the Financial Year 2014-15, the Company will focus on establishing and growing BRILINTA®, ONGLYZA® and KOMBIGLYZE® and driving growth through its key growth brands.

The disease burden of Diabetes in India is very significant. It has been estimated that approximately 65 million of people are suffering from diabetes in India. The anti-diabetes drug is a rapidly growing segment in India. Further, a new class of molecules - DPP4i has created a paradigm shift in the management of diabetes in India. class molecules ONGLYZA (Saxagliptin) and KOMBIGLYZE XR (Saxagliptin and Metformin HCl extended release). The Company expects that these two products with its efficacy and safety profile will play an important role in helping physicians manage their diabetes patients.

The Company is focused on the growth of its patented innovator brand BRILINTA, (Ticagrelor) which was launched in the Second Quarter of 2012-13. BRILINTA is an oral antiplatelet treatment for Acute Coronary Syndromes (ACS) in adult patients. BRILINTA gives cardiologists a new and effective treatment to help reduce the rate of heart attack and cardiovascular deaths in these patients. As per the leading secondary data research company, IMS Health data (March 2014), the brand is currently second most valuable brand in the Oral Anti Platelets segment.

The new state of art tablet manufacturing facility is now operational. This will enable the cessation of tablet manufacture from the existing manufacturing facility and will ensure a platform for consistent supply of global quality medicines.

Attention of shareholders is invited to the write up under ‘Manufacturing’ in the Directors Report.

The Company will continue with its emphasis on consistent global standards of sales and marketing practices, maintaining a strong focus on patient safety and exploring ways of increasing access to healthcare to more people, tailored to patient needs.

The Company is committed to maintaining a strong focus on cost optimisation and controls. It is undertaking measures to reduce unproductive discretionary and non-customer facing spends.

Internal control systems and their adequacy

The Company has internal control systems comprising authority levels and powers, supervision, checks and balances, policies, procedures and internal audit. The system is reviewed and updated on an on-going basis. The Company continuously upgrades its internal control systems by measures such as the testing of its financial controls against the AstraZeneca Financial Control Framework (FCF) on a semi annual basis, leveraging Information Technology for system based controls and use of external management assurance services.

The Company has a framework to manage risks that the Company could be exposed to, in its interactions with third parties (Vendors and Distributors). This framework provides methodology, guidance and tools for managing third party risks related

to Anti-Bribery & Anti-Corruption, Data Privacy, Confidentiality, Product Promotion and Product Security.

The internal audits for the Financial Year 2013-14 were carried out by Deloitte Touche Tohmatsu, India, based on an audit plan approved by the Audit Committee. The plan included audit of the Depots of the Company, key processes within Operations and Marketing units including enabling functions. The Audit Committee and the Management have reviewed the recommendations of the Internal Auditors and suitable remediation steps are being taken to implement their recommendations.

Certificate

To the Members of AstraZeneca Pharma India Limited

We have examined the compliance of conditions of corporate governance by AstraZeneca Pharma India Limited ('the Company'), for the year ended on March 31, 2014 as stipulated in Clause 49 of the listing agreement of the Company with the stock exchanges.

The compliance of conditions of corporate governance is the responsibility of the Management. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of corporate governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of corporate governance as stipulated in the above mentioned listing agreement.

As explained, no investor grievances are pending against the Company as per the records maintained by the Company for a period exceeding one month.

We state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the Management has conducted the affairs of the Company.

Independent Auditors' Report To the Members of AstraZeneca Pharma India Limited

Report on the financial statements

We have audited the accompanying financial statements of AstraZeneca Pharma India Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2014, the Statement of Profit and Loss, the Cash Flow Statement of the Company for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with Accounting Standards referred to in sub-section (3C) of Section 211 of the Companies Act, 1956 ("the Act") read with the General Circular 15/ 2013 dated September 13, 2013 of the Ministry of Corporate Affairs in respect of Section 133 of the Companies Act, 2013. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (i) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2014;
- (ii) in the case of the Statement of Profit and Loss, of the loss for the year ended on that date; and
- (iii) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

AstraZeneca Pharma India Limited Independent Auditors' Report (continued)

Emphasis of Matter

Without qualifying our opinion, we draw attention to Note 2.23 to the financial statements which states that the Company has entered into a subvention agreement ("the Agreement") dated May 7, 2013 with AstraZeneca Pharmaceuticals AB Sweden ("Promoter Company") wherein to assist the Company in its efforts to establish/grow its presence in the Indian market, the Promoter Company has voluntarily decided to provide a non refundable financial grant. Accordingly, the Company received an amount of USD 14 million (Indian rupee equivalent 862,400,000) representing financial grant for the year ended March 31, 2014. The Promoter Company vide its letter dated March 1, 2014 informed the Board of Directors of the Company regarding the revision to the agreement, whereby restricting the payment under the agreement to USD 14 million (Indian rupee equivalent 862,400,000) and period covered under the agreement to financial year 2013-14. Accordingly, the Promoter Company vide letter dated April 25, 2014 has terminated the agreement effective March 2014 on the ground that the Company's business and financial performance has been inline with more recent expectations, and that the Company shall not require any further grant for the financial years 2014-15 and 2015-16. Out of the total receipt of ₹ 862,400,000; ₹ 138,889,547 representing loss incurred by the Company during the current year has been credited to statement of profit and loss and balance ₹ 723,510,453 has been transferred to capital reserve.

Report on other legal and regulatory requirements

1. As required by the Companies (Auditor's Report) Order, 2003 ("the Order"), as amended, issued by the Central Government of India in terms of sub-section (4A) of Section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
2. As required by Section 227(3) of the Act, we report that:
 - a. we have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b. in our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
 - c. the Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this report are in agreement with the books of account;
 - d. in our opinion, the Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement comply with the accounting standards referred to in sub-section (3C) of Section 211 of the Act read with the General Circular 15/ 2013 dated September 13, 2013 of the Ministry of Corporate Affairs in respect of Section 133 of the Companies Act, 2013; and
 - e. on the basis of written representations received from the directors as on 31 March 2014, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2014, from being appointed as a director in terms of clause (g) of sub-section (1) of Section 274 of the Act.

AstraZeneca Pharma India Limited

Annexure to the Independent Auditors' Report

Annexure referred to in the Auditors' Report to the Members of AstraZeneca Pharma India Limited ("the Company") for the year ended March 31, 2014. We report that:

(i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of its fixed assets.

(b) The Company has a regular program of physical verification of its fixed assets by which all fixed assets are verified in a phased manner over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this program, certain fixed assets were verified during the year. No material discrepancies were noticed on such verification.

(c) Fixed assets disposed during the year were not substantial, and therefore, do not affect the going concern assumption.

(ii) (a) Inventories, except goods-in-transit and stocks lying with certain third parties, have been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable. For stocks lying with third parties at the year-end, written confirmations have been obtained.

(b) The procedures for the physical verification of inventories followed by the management are reasonable and adequate in relation to the size of the Company and the nature of its business.

(c) The Company is maintaining proper records of inventory. The discrepancies noticed on verification between the physical stocks and the book records were not material.

(iii) The Company has neither granted nor taken any loans, secured or unsecured, to or from companies, firms or other parties covered in the register maintained under Section 301 of the Companies Act, 1956.

(iv) In our opinion and according to the information and explanations given to us, and having regard

to the explanation that purchases of certain items of inventory are for the Company's specialised requirements and also sale of goods and services are for the specialised requirements of the buyer and suitable alternative sources are not available to obtain comparable quotations, there is an adequate internal control system commensurate with the size of the Company and the nature of its business with regard to purchase of inventories and fixed assets and with regard to the sale of goods and services. We have not observed any major weakness in the internal control system during the course of the audit.

(v) (a) In our opinion and according to the information and explanations given to us, the particulars of contracts or arrangements referred to in Section 301 of the Companies Act, 1956 have been entered in the register required to be maintained under that section.

(b) In our opinion and according to the information and explanations given to us, the transactions made in pursuance of such contracts and arrangements referred to in (a) above and exceeding the value of ₹ 5 lakh with each party during the year have been made at prices which are reasonable having regard to the prevailing market prices at the relevant time, except for purchases of certain services which are for the Company's specialised requirements and for which suitable alternative sources are not available to obtain comparable quotations. However, on the basis of information and explanations provided, the same appear reasonable.

(vi) The Company has not accepted any deposits from the public.

(vii) In our opinion, the Company has an internal audit system commensurate with the size and nature of its business.

(viii) We have broadly reviewed the books of account maintained by the Company pursuant to the rules prescribed by the Central Government for maintenance of cost records under Section 209(1) (d) of the Companies Act, 1956 in respect of bulk drugs and formulations and are of the opinion that prima facie, the prescribed accounts and records

AstraZeneca Pharma India Limited

Annexure to the Independent Auditors' Report

have been made and maintained. However, we have not made a detailed examination of the records.

(ix) (a) According to the information and explanation given to us and on the basis of our examination of the records of the Company, amounts deducted/accrued in the books of account in respect of undisputed statutory dues including Provident Fund, Employees' State Insurance, Investor Education and Protection Fund, Income-tax, Wealth tax, Sales tax, Service tax, Customs Duty, Excise duty and other material statutory dues have generally been regularly deposited during the year with the appropriate authorities though there has been a slight delay in a few cases.

According to the information and explanations

given to us no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Investor Education and Protection Fund, Income-tax, Wealth tax, Service tax, Customs duty, Sales tax, Excise duty and other material statutory dues were in arrears as at March 31, 2014 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, there are no dues of Wealth Tax and sales tax which have not been deposited with the appropriate authorities on account of any dispute. According to the information and explanations given to us, the following dues of Income-tax, Sales tax, Customs duty, Excise duty and Service tax have not been deposited by the Company on account of disputes:

AstraZeneca Pharma India Limited

Notes to the Financial Statements

1. Significant accounting policies

The accounting policies set out below have been applied consistently to the periods presented in these financial statements.

1.1. Background

AstraZeneca Pharma India Limited ('the Company') is a public company domiciled in India having its registered office in Bangalore. It is incorporated under the Companies Act, 1956 and its shares are listed in National Stock Exchange of India Limited (NSE), Bombay Stock Exchange Limited (BSE) and Bangalore Stock Exchange Limited (BgSE).

The Company is engaged in the business of manufacture, distribution and marketing of pharmaceutical products.

1.2. Basis of preparation of financial statements

The financial statements have been prepared and presented under the historical cost convention on the accrual basis of accounting and mandatory Accounting Standards ('AS') prescribed by the Companies (Accounting Standards), Rules 2006 issued by the Central Government, the relevant provisions of the Companies Act, 1956 and other accounting principles generally accepted in India, to the extent applicable. The financial statements are presented in Indian Rupees (₹).

1.3. Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) requires Management to make estimates and assumptions that affect the reported amounts of assets and liabilities, income and expenses and the disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future years.

Current–non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is expected to be realised within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include current portion of non-current financial assets.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is due to be settled within 12 months after the reporting date; or
- the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities.

All other liabilities are classified as non-current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents.

1.4. Revenue recognition

Revenue from sale of goods (including sale of scrap) is recognised on transfer of all significant risks and rewards of ownership to the buyer. The amount recognised as sale is exclusive of sales tax and net of trade discounts and sales returns. Sales are presented both gross and net of excise duty.

AstraZeneca Pharma India Limited

Notes to the Financial Statements (Continued)

Interest on deployment of surplus funds is recognised using the time proportion method, based on underlying interest rates.

The Company derives its service income from services for clinical trials provided to its group companies and co-promotion services to its customers. The income from clinical trials is based on a 'cost plus' model as agreed with its group companies. As per the agreement, costs incurred internally are charged with a mark-up and those incurred externally are charged at actual. Revenue from such services is recognised when the service is performed in accordance with agreement with the group companies. The income from co-promotion services is recognised when the service is performed in accordance with the agreement with the customer.

Revenues which have not been billed, but have been accrued as per the terms of the contract with the customers are debited as unbilled revenue.

The Company derives its rental income from group companies for the assets leased. Income is accrued based on the agreement entered.

1.5. Fixed assets and capital work-in-progress

Fixed assets are carried at cost of acquisition or construction less accumulated depreciation. The cost of fixed assets includes freight, duties, taxes and other incidental expenses related to the acquisition or construction of the respective fixed assets. Borrowing costs directly attributable to acquisition or construction of those fixed assets which necessarily take a substantial period of time to get ready for their intended use are capitalised. Intangible assets are recorded at their acquisition cost.

The cost of the fixed assets not ready for their intended use before such date, are disclosed as capital work-in-progress. Advances for fixed assets are shown as capital advances.

1.6. Depreciation

Depreciation on fixed assets is provided on the straight-line method, based on useful lives of assets as estimated by Management.

Management's estimate of the useful lives of fixed assets is as follows:

	Years
Buildings	6 to 20
Roads and culverts	10
Plant and machinery	5 to 10
Vehicles	5
Furniture and fixtures	10
Office equipment	2 to 10

License for use and application of know-how and trademark are being amortised on straight-line method over its useful life of 60 months as specified in the contract, from the date it was available for use.

Pro-rata depreciation is provided on all assets purchased and sold during the year. Assets costing individually ₹ 5,000 or less are depreciated fully in the year of purchase.

1.7. Impairment of assets

The Company periodically assesses whether there is any indication that an asset or a group of assets comprising a cash generating unit may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. For an asset or group of assets that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost. An impairment loss is reversed only to the extent that the carrying amount of asset does not exceed the net book value that would have been determined, if no impairment loss had been recognised.

1.8. Foreign exchange transactions

Foreign exchange transactions are recorded using the exchange rates prevailing on the dates of the respective transactions. Exchange differences arising on foreign exchange transactions settled during the year are recognised in the statement of profit and loss for the year.

AstraZeneca Pharma India Limited
Notes to the Financial Statements (Continued)

Monetary assets and liabilities denominated in foreign currencies as at the balance sheet date are translated at the closing exchange rate on that date, the resultant exchange differences are recognised in the statement of profit and loss.

1.9. Employee benefits

Employees of the Company receive benefits from a provident fund, which is a defined benefit plan. Both the employee and the Company make monthly contributions to the provident fund equal to a specified percentage of the employee's salary. The Company contributes a part of the contributions to the AstraZeneca Pharma India Limited Management Staff Provident Fund Trust. The remaining portion is contributed to the government administrated pension fund. The rate at which the annual interest is payable to the beneficiaries by the trust is being administered by the government. The Company has an obligation to make shortfall, if any, between the returns from the investments of the trust and the notified interest rate.

The Company has an arrangement with ICICI Prudential Life Insurance to administer its superannuation scheme, which is a defined contribution scheme. The contributions to the said scheme are charged to the statement of profit and loss on an accrual basis.

Liability for gratuity, which is a defined benefit, is provided based on an actuarial valuation at the balance sheet date, carried out by an independent actuary using projected unit credit method and charged to the statement of profit and loss. The Company makes contributions towards gratuity into the approved gratuity fund administered by ICICI Prudential Life Insurance.

Liability for compensated absences, which is a defined benefit, is provided on the basis of an

actuarial valuation and is charged to the statement of profit and loss on an accrual basis.

1.10. Employee stock option schemes

Cost incurred towards reimbursement of employee stock option schemes issued by the holding company to the employees of the Company is accounted as employee benefit cost.

1.11. Investments

Long-term investments are stated at cost less any other-than-temporary diminution in value, determined separately for each individual investment.

1.12. Other current assets

Stock of samples have been valued at cost, as in the ordinary course of business they have a realisable value at least equal to cost before being distributed as free samples.

1.13. Inventories

Inventories are valued at lower of cost and net realisable value. Cost of inventories comprises all costs of purchase, costs of conversion and other costs incurred in bringing inventories to their present location and condition.

The comparison of cost and net realisable value is made on an item-by-item basis.

The net realisable value of work-in-progress is determined with reference to the selling prices of related finished goods. Raw materials, packing materials and other supplies held for use in production of inventories are not written down below cost except in cases where material prices have declined, and it is estimated that the cost of the finished products will exceed their net realisable value. The provision for inventory obsolescence is assessed regularly based on estimated usage and shelf life of products.

The methods of determination of cost of various categories of inventories are as follows:

Table with 2 columns: Inventory Category, Valuation Method. Rows include: (i) Raw materials and packing materials (Monthly moving weighted average cost), (ii) Work-in-process and finished goods (Manufactured) (Weighted average cost of production), (iii) Traded goods (Weighted average cost), (iv) Goods in transit (Actual cost).

AstraZeneca Pharma India Limited
Notes to the Financial Statements (Continued)

1.14. Provisions and contingent liabilities

The Company recognises a provision when there is a present obligation as a result of an obligating event that probably requires outflow of resources and a reliable estimate can be made of the amount of the obligation.

The disclosure of contingent liability is made when, as a result of obligating events, there is a possible obligation or a present obligation that may, but probably will not, require outflow of resources.

No provision or disclosure is made when, as a result of obligating events, there is a possible obligation or a present obligation where the likelihood of outflow of resources is remote.

Provision for onerous contracts, i.e. contracts where the expected unavoidable cost of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognised when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event based on a reliable estimate of such obligation.

1.15. Taxation

Income-tax expense comprises current tax (i.e. amount of tax for the year determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the year). The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carried forward business loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty of realisation of such assets. Deferred tax assets/ liabilities are reviewed as at each balance sheet date and written down or written-up to reflect the amount that is reasonably/ virtually certain (as the case may be) to be realised.

The Company offsets, on a year on year basis, the current tax assets and liabilities, where it has a legally

enforceable right and where it intends to settle such assets and liabilities on a net basis.

Minimum Alternate Tax ('MAT') under the provisions of the Income-tax Act, 1961 is recognised as current tax in the Statement of Profit and Loss. The credit available under the Act in respect of MAT paid is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. MAT credit recognised as an asset is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

1.16. Earnings per share

The basic earnings/ (loss) per share is computed by dividing the net profit/ (loss) attributable to equity shareholders for the year by the weighted average number of equity shares outstanding during the year.

1.17. Leases

Lease payments under operating lease are recognised as an expense in the statement of profit and loss on a straight line basis over the lease term.

1.18. Cash flow statement

Cash flows are reported using indirect method, whereby net profits before tax are adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the Company are segregated.

2.30 Segment reporting

The primary segments of the Company are its business segments as follows:

(i) **Healthcare** - The Company engages in the manufacture, trading and sale of pharmaceutical products.

(ii) **Clinical trial services** - The Company renders clinical trial services on pharmaceuticals products to its group companies.

(iii) **Co-promotional services** – The Company rendered co-promotion services for pharmaceuticals products to Bristol Myers Squibb India Private Limited (BMS) till January 31, 2014. Effective February 1, 2014, AstraZeneca Group Companies has acquired the Global Diabetic business of Bristol-Myers Squibb Company. Consequent to the aforesaid acquisition, the Company has entered into a consignment sale agreement with BMS and accordingly sale of diabetic products by BMS in India for the period February 1, 2014 to March 31, 2014 has been included as part of the sales of the Company.

The accounting policies consistently used in the preparation of the financial statements are also applied to record revenue and expenditure in individual segments.

Revenue and direct expenses in relation to segments are categorised based on items that are individually identifiable to that segment, while other costs, wherever allocable, are apportioned to the segments on an appropriate basis. Certain income and expenses are not specifically allocable to individual segments as the underlying assets and services are used interchangeably. The Company therefore believes that it is not practicable to provide segment disclosures relating to such income and expenses and accordingly such expenses are separately disclosed as ‘unallocated’ and directly charged against total income.

Assets and liabilities in relation to segments are categorised based on items that are individually identifiable to that segment. Certain assets and liabilities are not specifically allocable to individual segments as these are used interchangeably. The Company therefore believes that it is not practicable to provide segment disclosures relating to such assets and liabilities and accordingly these are separately disclosed as ‘unallocated’. Assets are primarily located in India.

Clinical trial services and co-promotion services do not qualify as separate segments as defined in AS – 17 – ‘Segment Reporting’ and hence have been disclosed as others.

Milestones YHP INDIA

Began in

Nov 2010

5 project sites (Badarpur, Madanpur Khadar, Mangolpuri, Holambi Kalan and Dwarka), 3 districts of Delhi.

10-24 years old.

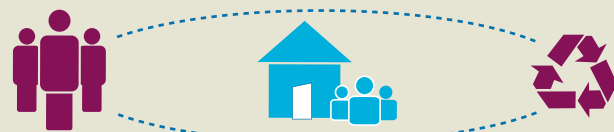

focuses on hygiene and sanitation, sexual reproductive health and wider health issues such as tobacco use and abuse of alcohol.

Establishment of special clinics with opening times for adolescents in all five project communities, resulting in a steady increase of adolescents accessing health services at Government health facilities, instead of remaining unsupported, or resorting to unqualified doctors known as quacks.

Influenced local government in the resettlement colonies to make small steps towards improving waste disposal and access to clean water.

Sustainability

150 young people received training on street theatre which has enabled them to deliver YHP awareness messages through community drama, and also provided them with skills to support develop their livelihood opportunities.

Training of **295** Government health professionals including Anganwadi workers (family health), ASHA workers (community health) and ANMs (Auxiliary Nurse Midwives) on key YHP thematic areas.

Nov 2011

4453

young people reached.

9794 population reached through street plays, puppet shows, video shows.
5 health information centres (HIC) established.

1213 young people attended.

boys **696** girls **517**
peer educators trained

Nov 2012

Total young people reached to date

65,250

young people. 60,988 wider community members total to date.

Total peer educators trained

1,403 Peer Educators.

Peer Educators and YHP staff have

referred **398** adolescents in need of medical advice or services to health facilities for issues such as TB, dengue, malaria and sexual reproductive health (SRH) issues.

Youth voice

An editorial committee of children has been formed to support the development of YHP resources such as a programme newsletter, Information Education Communication (IEC) materials such as posters and wall writing (semi-permanent wall painting).

Nov 2013

Reach

Over the last 3 years, the project has benefited

89,493

young people (40,271 boys and

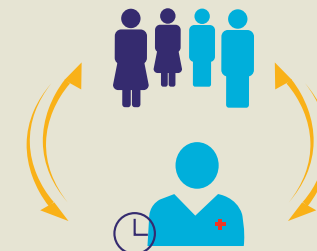

49,222 girls) which has exceeded the target of 30,000 by almost 3 times.

total of **84,387** wider community members have been reached by the YHP over the whole project period.

The programme has continued working with the 1,581 Peer Educators (PEs) (of which **814** are girls).

Sustainability

Regular coordination meetings were carried out with government officials and community stakeholders to foster better coordination and to attempt to bridge the gap between demand and supply of health services for young people.

In addition to the specific clinic times for adolescents, doctors have been holding sensitisation talks with small groups of young people at their clinics on topics such as nutrition.

YHP has formed **HIC committees** (made up of parents, young people and local leaders) who meet to discuss local health issues. In the future these committees can take increasing responsibility for the running of the HIC.

Youth voice

Throughout the project young people have taken ownership of and responsibility for championing YHP initiatives. The project has ensured their engagement at all stages of the project from planning to monitoring and evaluation.

For example self-defence training is one of the activities that have been included at the request of young people. For treatment and supporting the Municipal Corporation of Delhi (MCD) in carrying out awareness and awareness-raising on malaria and dengue.

1,581 PEs are continuing to lead a variety of interventions to bring about positive and healthy behaviour change amongst young people in their communities. This includes delivering outreach activities, referring young people to health services for treatment and supporting the Municipal Corporation of Delhi (MCD) in carrying out awareness and awareness-raising on malaria and dengue.

Impact

15 severely anaemic girls were referred by YHP staff to the **Integrated Child Development Scheme (ICDS)** where they have been treated and are reporting a significant improvement in their health. These girls are now also facilitating sessions with other adolescent girls at the HIC.

1,300 young people received a personal sanitation kit are now reporting practicing good hygiene, for example the **6** steps of hand washing.

5 PEs have secured jobs in the government DOTS (tuberculosis) programme, citing the skills, knowledge and experience they gained through YHP as key to this success.

Local advocacy

Due to combined advocacy efforts of the YHP team, Slum Health and Sanitation Team (SHAST), Member of the Legislative Assembly (MLA) and officer from the MCD, the non functional public toilet block in Holambi Kalan was renovated and it is now being maintained for public usage.
