OPERATIONAL RESULTS

Sugar Unit

The comparative figures in regard to duration of season, cane crush, sugar recovery and production for the year ended 31st March, 2020 vis -a-vis previous financial year ended 31st March, 2019 in respect of the Sugar Factory of your Company are given below:-

	Financial Year 31st March, 2020	Financial Year 31st March, 2019
1. Duration of crushing (gross days)	120	110
2. Cane crushed (Lac Qtls.)	33.17	35.28
3. Recovery (%)	8.10	8.78
4. Production (Lac Qtls.) -	2.69	3.10

The sales of sugar unit increased by 6% from Rs.127.52 Cr. to Rs. 135.02 Cr.

The crushing season 2019-20 started from 18th December, 2019 and concluded on 29th February, 2020. Due to labour problems and strike during season period the recovery of sugar affected resulting higher cost of production.

The crushing season for 2018-19 was extended till 16th May, 2019. Due to the extreme hot weather in the months of April and May, the recovery of sugar was abysmally low & at 8%. During the months of April and May, 2019 the recovery falls below 5%. The labour problems and strike during season period also contributed to adverse working and loss of recovery of sugar and thus resulting higher cost of production.

The state government had promised to compensate for the loss due to the extended running period of sugar factory during the scorching summer heat and the company has also made a claim against the same. However, the claim of the company of Rs. 7.45 Cr was not honoured by the state government. The company filed writ petition in High Court and as per direction of High Court directed The Principle Secretary for hearing. However Principle Secretary rejected the valid claim of the company and thus company again went to High Court for relief.

Sugar sale price remained subdued during the year, much below cost of production of sugar.

The sale price of sugar was lower than cost of production. The central government fixed minimum floor price of sugar at Rs. 31 per kg which was announced to revise Rs.33 per kg from 1st October, 2020. However the cost of production of sugar on all India basis was much higher and industry demanded floor price of Rs. 35-36 per kg which was not accepted by the government, thus resulted in a loss on realizations. The parity between cane price and sugar price is yet to be established.

For season 2019-20 the sugar factory run only for 74 days and crushed only 21 Lac qtl of sugarcane at average capacity utilization of 28,378 qtl per day against installed capacity of 50,000 qtl per days and annual capacity of 150-160 days running and cane crush of 50-60 Lac qtl. The recovery is abysmally low at 8.86% against Bihar average of 10.8% and thus there was huge loss due to lower recovery and cane availability for season 2019-20.

The Recovery of sugar during last 3 years has been abysmally low:--

	<u>Narkatiaganj</u>	<u>Sidhwalia</u>	<u>Hasanpur</u>	<u>Harinagar</u>	<u>Riga</u>	<u>Majhulia</u>	<u>Gopalganj</u>	<u>Bagaha</u>
2017-18	10.25	9.24	10.47	10.16	8.78	9.00	9.45	9.19
2018-19	11.31	10.33	11.23	10.71	8.01	10.00	10.36	10.35
2019-20	11.54	10.92	11.00	11.42	8.86	9.91	10.18	11.24

Due to lower recovery during last 3 years company has incurred huge loss.

Continuing Losses

During last 9 years company has incurred Loss of Rs. 127 Cr. but still made repayment of Term Loan of Rs. 79 Cr. and interest of Rs. 142 Cr., whereas fixed assets investment were Rs. 50 Cr as enumerated below:-

	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19	2019-20	Total
Net Profit (Loss)	(524)	(350)	(272)	(1,442)	(506)	(409)	(2081)	(4,643)	(2,410)	(12,637)
Term Loan Repayment	1,432	492	477	1,066	786	1,205	1,410	1,039	21	7,928
Payment of Interest	1,571	1,559	1,318	1,607	1,435	1,502	1,765	1,963	1481	14,201
Fixed Assets Investment	702	209	546	412	195	1,325	1,114	342	155	5,000

Due to continuous losses for last 9 years there are cane price arrears to farmers. However the company has totally repaid the sugar cane price till last season 2017-18.

Riga Sugar for last 6-7 years due to natural calamities, disparity in sugar price & cane price, closure of distillery on CPCB directions have faced tremendous problem. Cyclone Phailin in 2013, Cyclone Hud-Hud in 2014, Earthquake in 2015, Flood in 2017 and 2019

have made great loss to company. The State Government had given assurance to help and visited the area but no compensation was granted. In August 2017 and 2019 heavy flood also caused huge damage to our plant and sugarcane.

The incentive claim as declared by the State Government and other receivable from state government is pending for long time which the Government is not releasing. The same amount could have been used for payment of cane price arrears for the season 2018-19.

Since the entire bank loans of the company had become an NPA in the year 2018-19, the bankers allowed holding on operation which is still going on.

Due to continuous losses, the Net worth of the company is fully eroded which may have an effect on the entity's ability to continue as a going concern. However, the Management is still hopeful that with financial restructuring by the banks and financial assistance from the state and central government, the company can still revive.

The company has made request for following support from central and state government, if provided the company can be revived:-

CENTRAL GOVERNMENT

1. Ethanol Loan to NPA sugar factory who has defaulted in SDF

To increase the no of days of operation of Ethanol Plant from present restricted 270 days to 330 days and consequential increase in plant capacity company have to install Incineration boiler and also install Modification System.

2. Company have been deprived from Soft Loan Scheme announced by the Central Government to Sugar Industry.

3. MIEQ & Cane price Subsidy by the Central Government for the season 2018-19

The central government had announced cane price subsidy for the season 2018-19 at the rate of Rs.13.88 per qtl. However it was linked with compulsory export obligation known as MIEQ. However there was loss on making export of sugar which the majority of weak companies like your company could not bear and thus could not pay cane price subsidy to the farmers and thus farmers are deprived of cane price subsidy. Company has demanded that central government to pay Rs.13.88 for season 2018-19 directly to farmers without linking with prior export obligation to weak and small sugar companies.

4. SDF Loan Restructuring & withdrawal of DRT Case

Company have become totally weak and Sick Sugar Unit and has become NPA from 30th September, 2018. As per SDF Rules our company is fit case for restructuring of the Loan by way of :-

- (a) extension of repayment period;
- (b) waiving of all penal and additional interest;
- (c) Providing Loan for Clearance of Cane Price Arrears;
- (d) Loan for plant rejuvenation and balancing;
- (e) Loan for Ethanol and Power Plant; and
- (f) withdrawal of Recovery case in DRT

Company seek aforesaid relief and assistance as the SDF Rules provides for this under Chapter X of SDF Rules regarding - Loans for potentially viable sick sugar undertaking and Chapter XV of SDF Rules regarding Restructuring of loans of potentially viable sick sugar undertaking.

5. Non-payment of 3rd and 4thqtr Buffer Stock Claim of 2018 Scheme and other penalties

Buffer Stock claim for 3rd and 4th quarter as per Scheme of Buffer Stock dated 15th June, 2018 has been withheld because the company have not able to export sugar in 2018-19 as per MIEQ, because there was upfront loss on such export which company could not bear.

For one fault of non-export which is reason beyond control, the Company is penalized by multiple ways as follow:-

- i) Not given cane price subsidy of Rs. 13.88/- per quintal on cane crush of 45.25 Lacsqtl. in 2018-19 i.e Rs. 6.29 Cr. which could have gone to farmers directly.
- ii) Withholding of Buffer subsidy of 3rd and 4th quarter of Rs. 1.24 Cr, which will go to the cane price arrears.
- iii) Reduction of subsequent Buffer qty created in 2019.
- iv) Non-eligibility of the company to avail subsidized soft loan to pay cane price arrears as per scheme dated 2nd March, 2019 to pay cane price arrears to farmers of 2018-19.

STATE GOVERNMENT

The company has made request for the following support from the State government. If provided, the company can be revived and it can come out of NPA:-

- (a) Provide additional cane price subsidy of Rs.40 per qtl. for the season 2017-18 and additional cane price subsidy of Rs.30 per qtl. for the season 2018-19 over and above the subsidy announced for all Bihar sugar mills- This will ward-off the additional losses incurred by company on account of lower Recovery for payment of cane price to Farmers.

OR

Provide company soft term loan of Rs. 70 crores at interest rate of 4% for period of 10 years with moratorium of 5 years, so that we can pay cane price for last season and current season. The Bank has already agreed to provide second charge on Fixed Assets of the company toward security of loan.

The aforesaid amount can be paid directly to the farmers.

- (b) Release of Bihar Soft Loan Interest subvention for the FY 2016-17, 2017-18 and 2018-19 and 2019-20 -Rs. 447 Lacs.
- (c) Reimbursement of Co-gen subsidy of Rs.156 lacs pending since last 2 years.
- (d) Help farmers directly for procurement of High Yield variety of cane seed of CO 238 for 2 year of Rs. 10 Cr.
- (e) Compensation towards running sugar plant in scorching heat of April and May, 2019 as per direction of the state government in the interest of farmers in season 2018-19 and consequent loss by way of extremely lower recovery estimated at Rs. 7.45 Cr.

CENTRAL GOVERNMENT ACTION DURING THE YEAR

FRP: The FRP for 2019-20 remained at same at Rs. 275 per quintal against last year Rs. 255 per qtl. linked to a basic recovery of 10% subject to a premium of Rs. 2.75 per quintal for every 0.1 percentage point increase above that level.

In Bihar the cane Price for the season 2019-20 remained at same at Rs.290 per qtl. for normal varieties, Rs. 265 per qtl. for lower varieties and Rs.310 for premium variety. Transport rebate on out center cane is at Rs.20 per qtl.

MAEQ Scheme: The Central government with a view to facilitates export of sugar during the season 2019-20 thereby improving the liquidity position of the sugar mills to enabling them to clear cane price arrears of farmers for sugar season 2019-20 , announced a mill-wise Minimum Admissible Export Quantity (MAEQ) totaling 60 Lacs tonnes, for the sugar season 2019-20 with compliant WTO subsidy.

Floor Price of Sugar: The Government set floor price of sugar at Rs. 31 per kg below which sugar factory cannot sell sugar, which has been increased to Rs. 33 per kg from 1st October, 2020. However the cost of production of sugar is between Rs. 3,700 to Rs.4,000 per qtl.

Pricing of Ethanol: The pricing methodology for ethanol also remained unchanged. Ethanol prices are announced annually by the Central Government based on a formula, which considers the price of sugar and FRP of sugarcane to calculate the ethanol

procurement prices. The ethanol prices are delinked with the crude or petrol prices. Prices for ethanol for the supply period December 2019 to November 2020, were increased to Rs. 43.75, Rs. 54.27 and Rs. 59.48 per BL for Ethanol produced from C-heavy molasses, B-heavy molasses and Direct Cane Juice/Sugar syrup respectively as compared to Rs. 43.46, Rs. 52.43 and Rs. 59.13 per BL in the previous year.

Loan for Ethanol Production: Soft loans through banks for setting up of new distillery capacities as well as augmentation of existing capacities, which could facilitate higher production of ethanol on one hand and reduce production of surplus sugar through diversion of B-heavy molasses and Direct Cane Juice/Sugar Syrup away from sugar into ethanol.

Custom Duty on Sugar: Higher custom duty on import of sugar and Zero custom duty on export of sugar.

Buffer Stock creation: The government created buffer stock of 40 lac MT from 1st August, 2019 for a period of one year.

SUGAR SCENARIO

Sugar production for the season 2019-20 is estimated at 272 Lac MT against previous year 332 Lac MT.

In spite of plethora of steps taken by the Government, the sugar industry is still passing through a difficult phase in view of very high sugar inventory and higher expected production of around 310 Lac MT of sugar in the next season.

As an immediate solution following steps are required to be taken:-

- Increase the Minimum Selling Price to Rs.3,600/- per Qtl to cover the all India average cost of production of sugar.
- Announce buffer stock and subsidy for next year too.

For long-term solution, further proactive steps are required to be taken again on priority basis in order to protect the interest of various stakeholders:

- Most of the sugar producing countries in the world including some of the largest viz. Brazil, Thailand, Australia and USA follow the Revenue Sharing Formula (RSF) to pay cane price to farmers. India should also follow the same so as to achieve its competitiveness on the global front.
- Dr. Rangarajan committee as well as Niti Ayog have recommended the concept of joint implementation of FRP, RSF and PSF (Price Stabilization Fund) as a permanent long term solution for the sector; otherwise the sector would continue to require Government support. Once the above formula is in place, miller's liability for cane price to be limited to the amount arrived at as per RSF, farmers will continue to get FRP and the difference between the FRP and the RSF to be paid from PSF. PSF has to be on a self-financing mechanism. State Advised Price (SAP) to be done away with. Cane price to be allowed to be paid in instalments across the country so as to ease the pressure on the working capital requirements of the sugar mills which will also support the sugar prices.

The All India sugar price and sugarcane price announced by Central Government as per FRP for last 9 years are depicted below:-

<u>Year</u>	<u>Sugar</u>	<u>Price Sugarcane Price (FRP)</u>
2011-12	2,951	145.00
2012-13	3,148	170.00
2013-14	2,917	210.00
2014-15	2,492	220.00
2015-16	3,121	230.00
2016-17	3,620	230.00
2017-18	3,136	255.00
2018-19	3,050	275.00
2019-20	3,250	275.00

The sugar price during last 9 years increased by 10%, whereas the sugarcane price increased by 90%.

Distillery Unit	Financial Year 31st March, 2020	Financial Year 31st March, 2019
1. Production of Ethanol from Molasses (Lac BL)	77.80	71.70
2. Supply of Ethanol (Lac BL)	58.73	81.35

Ethanol

The Distillery of the company run for higher nos. of days of 158 days against 157 days last year.

Co-Gen of Power

The Company is supplying surplus power upto 3 MW from its co-generation plant. This forward integration contribute to the bottom-line of the company .

Bio-Compost Fertiliser

The company is using distillery effluent and press mud from sugar and other agricultural waste to produce bio-compost which is very cost efficient. Thus the company apart from treatment of effluent and zero discharge adding value. The company got Registration of Bio-compost under Fertiliser Control Order, 1985 with Ministry of Agriculture as per requirement of CPCB.

SEGMENT-WISE PERFORMANCE:

During the reporting period sugar segment contributed 74 percent of net sales of the company whereas Distillery accounted for 16 percent. The company identified two business segments in line with the Accounting Standard on Segment Reporting, Segment-wise Revenue, Results and Capital Employed as stated in Note No.25 (5) of financial statement enclosed with the Annual Report.

Significant changes in key financial ratio:

- i) Debtor Turnover ratio increased from 20 to 26 due to lower outstanding in Distillery sales.
- ii) Inventory Turnover improved from 1.06 to 1.50 due to higher sales in sugar and lower inventory level of sugar.
- iii) Interest Coverage Ratio improved from (1.11) to (0.28), this is due to lower operating loss and interest cost.
- iv) Current Ratio deteriorated from 0.45 to 0.33 due to further in loss during the year and consequent depletion in Current Asset.
- v) Debt Equity Ratio The total Debt of the company vis-à-vis shareholder point are negative both years and are (2.95) in 2019-20 and (4.01) in 2018-19 respectively.
- vi) The Operating Profit Margin Percentage was negative both year which was (5.91) in 2019-20 and (16.76) in 2018-19. The improvement was due to higher realization of Sugar sales and Distillery.
- vii) Net Profit Margin was negative in both year (15.34%) in 2019-20 and (29.04%) in 2018-19 and the improvement was due to better operating margin and lower interest expenses.
- viii) Return on Net Worth - There was losses in current year as well as previous year. There is negative Net Worth.

INDUSTRY STRUCTURE & POLICY

Structure

Sugar Industry, is seasonal in nature and directly dependent on monsoon for availability of adequate sugar cane. India is the largest consumer and second largest producer of sugar in the world, contributing over 15 percent of the world's sugar production through over 600 sugar factories situated in different parts of the country. The sugar Industry is the largest agro based industry in India. This industry also provides valuable by-products like bagasse, molasses and press mud. The availability of these by-products had led to setting up of Alcohol/Ethanol/co-generation of Power and Organic Manure plants. Over 5 Crore farmers, large number of agricultural labourer are involved in sugarcane cultivation and its harvesting operations. The growth of sugar industry has a powerful impact on the rural economy. Integrated Sugar Industry (comprising sugar, molasses, alcohol, power and bio-fertilizer) enjoys annual turnover of over Rs.1,00,000 Crore and contribute about Rs.5,000 crore to the Central Government Exchequer by way of GST beside state taxes on sugarcane and hefty taxes collected by state as excise and VAT on sale of spirit in the state

which run an estimated Rs. 10,000 crores annually. The Income tax also contributes to the government coffers. Industry accelerates rural development through farm employment as well as business opportunities in transport and communication.

Sugar has been declared as an 'essential commodity' under the Essential Commodities Act, 1955. Under Sugarcane (Control) Order, 1966, the Government of India fixes cane price called Fair and Remunerative Price (FRP) for sugarcane every year based on the recommendations of the Commission on Agricultural Costs & Prices. However many state governments fix higher cane price for the sugar factories in their state. CACP gives recommendation of cane price, but government does not implement due to political considerations. Since last few years Central government is also fixing floor price of sugar below which no sugar factory sells sugar. This is to check the free fall of sugar price. However floor price is still lower than cost of production.

Sugar Cycle

The Indian sugar industry is characterized by a cycle of high and low sugar production. This cycle of 3-4 years is broadly of two types viz. Natural comprising climatic variation, water availability and pest attacks. The other is induced cyclicity which has a sequence like -- higher sugar production and accumulation of stock -- decline in sugar prices & profitability -- higher sugarcane arrears -- decline in area under cultivation & lower cane production -- lower sugar production -- lower sugar availability and stock and thus increase in sugar prices --- improved profitability & low cane arrears -- higher cane production -- higher sugar production and so on. Every time the cyclicity reaches its low, government has to step in to provide Fiscal support in the form of Export subsidy, Buffer Stock creation, Interest Free Loans etc.

The fundamental problem of the Indian Sugar Industry is that there is no parity between the price of raw material i.e. sugarcane and its finished goods of sugar i.e. Illogical intervention of state government causes wide economical distortion in sugar industry. In almost all major sugar producing countries of the world the price of cane paid to the farmers depends on realization from sugar.

Rangrajan Committee Report-Linkage of Raw Material Costs and Sugar Realization

The main recommendation of Rangrajan Committee report of the year 2012 regarding linkage of cane price with sugar price and its by products has not been implemented so far. The committee has suggested for revenue sharing model under which 70% of sugar value and each of its major three by-products would be paid to farmers. Rangrajan Committee has indicated a derived cane price formula. It indicates that cane price will not be an absolute but linked to another variable. Cane price will be linked to the price of sugar in the market place. The higher the sugar realizations, the greater will be the cane price. This is an internationally tested model. This ensures that any increase in sectors profitability is equitably shared between its manufacturers and growers. The cane grower will not be treated as an outsider, but as partner of entire value chain. The Rangrajan committee has gone a step further in this proposed linkage; it has proposed a sharing percentage at a level higher than what is practiced abroad, which more than secures the interest of farmers.

Fixation of cane price at a high level than the market price of sugar should be made illegal. Various committees and high-level committees like Rangrajan have said so. According to Rangrajan Committee, "A sugar unit without any by-products' business will have to pay cane price of 70% of its revenue realization, while it will have to spend 30% on its functioning. On the other hand, a sugar factory with by-products business will have to pay cane price of 75% of its revenue realization from sugar. The cane price to be fixed taking into account this formula."

Pollution Control- Zero Discharge Company

The Sugar and Distillery factories of the company are Zero Discharge Plants as per norms of Central Pollution Control Board and Ministry of Forest and Environment. The company treats the entire solid waste generated from Sugar factory which is generated in the form of Press-mud and liquid generated from Distillery in the form of spent wash for production of Bio-Compost. For this the company has set-up Digesters, MEE, RO, Lagoon and Bio-compost facilities on more than 17 Acres of Land. The Digesters are capable of generating bio-gas which is replacement of fossil fuel. The Bio-compost produced is rich in all organic nutrients required for fertility of the land. The said bio-compost is sold to farmers who supply sugarcane to company and also to other farmers and even used in Tea Gardens of Assam and Darjeeling.

The company is not only a zero discharge company, but is also generating economic value from such waste products and rejuvenating the farm land through use of organic fertilizer.

As per revised norms of CPCB, Distillery of the company is also installed CPU. Now to increase no. of permitted days of Distillery

operation from present 270 days to 330 days CPCB has prescribed installation of Incineration. Due to financial constraints company has not been able to install the same. However the Central government has notified scheme for interest subvention Loan from the Bank for financing of Incineration. The company is applying for in-principle approval of the same from Ministry.

OPPORTUNITIES AND THREATS

OPPORTUNITIES

Sugar

India is largest consumer and second largest producer of sugar in the world. Major consumers are manufacturer of cold drink, Biscuits, Confectioneries and Halwais which constitute 70% of total consumption and rest 30% by ordinary consumer. There are huge scope for further increase in demand as India is still lagging behind from many advanced countries in respect of per capita consumption of sugar. Thus there are opportunity in production and consumption of higher quantity of sugar in coming period.

Distillery

The mandatory provision of ethanol blending of 10% have strong support for growth of sugar industry. Ethanol production improves oil security and contributes to environmental protection. The Government has announced its policy decision and set aim to increase the ethanol mixing with petrol at 20% by the year 2030 and also mixing with Diesel. The Government of India has announced package for financing of Ethanol Production Capacity including new Ethanol plant and expansion including financing of Pollution Control Equipment. Thus coming years the Ethanol is going to be major driver for growth of sugar industry in the country.

Power

Sugar Industry offer immense scope for renewal energy project on co-generation basis, which provide clean energy. Due to this the increased demand of surplus bagasse has added imputes to revenue generation. The Tariff policy for co-gen renewal power is also lucrative in comparison to conventional power based on fossil fuel. At present sugar industry in India is producing about 4000 MW of surplus power and supplying to grid. However there is potential of 8000 MW co-gen surplus power with the sugar industry.

Bio-Compost Fertiliser

The bio-compost fertilizer being produced by the company has got immense scope of demand in all major agriculture cultivation as it not only preserve the soil from excessive use of chemical fertilizer but also increase its fertility.

THREATS

- No linkage of Sugar Price with cane price
- Unreasonable high cane price in comparison to sugar selling price.
- The sugar sector is exposed to political intervention and cyclical downtrend.
- Natural Calamity.

FUTURE PROSPECTS/OUTLOOK

As per ISMA's latest estimates, production of sugar for the season 2019-20 estimated at 272 Lacs MT and consumption of 255 Lac MT. With opening balance of 146 Lac MT and estimated export under MAEQ of hardly 57 Lac MT, the closing balance in the current season is estimated to be around 106 Lac MT, which is equivalent to 5 months of consumption and is very high in comparison to 3 months ideal norms.

However the by-products of Power and Ethanol support the sugar industry to some extent. The proactive policy of the central government to promote the production capacity of Ethanol will have far reaching positive impact on sugar industry.

Ethanol sector in India A steady rise in ethanol blending is not only likely to moderate crude oil import, saving precious foreign exchange reserves, but also encourage the use of additional cane juice and other raw materials efficiently while protecting the environment from the release of poisonous vehicular exhaust gas. The new National Biofuel Policy 2018 has fixed a target of achieving 20% ethanol blending with petrol by 2030 with the government targeting to achieve the 10% milestone of ethanol blending with petrol by 2022.

Committee of the Board

The details of composition of Audit Committee and other committees of the Board of Directors alongwith the attendance thereof is provided in the Corporate Governance Report forming part hereof.

Audit Committee

The composition of the audit committee meeting are as follow:-

<u>Name of Members</u>	<u>Status</u>	<u>Date of joining during the year</u>	<u>Date of leaving during the year</u>
Mr. P. J. Bhide (Chairman)	Independent & Non-Executive	12.04.2019	-
Mr. Sarad Jha (Chairman)	-do-	-	11.04.2020
Mrs. Sulekha Dutta	-do-	12.04.2019	-
Mr. Dilip Datta	-do-	14.02.2020	-
Mr.N.K.Parasramka	Non Independent & Non Executive	-	-

Five meetings of Audit Committee held during the year on 30.05.2019, 12.07.2019, 14.08.2019 14.11.2019 and 14.02.2020.

The company has formulated a policy on Related Party Transactions and also on dealing with Related Party Transactions. The policy is disclosed on the website of the company (www.rigasugar.com). All related party transactions as placed before the Audit Committee has also received approval from the Board. Your Directors draw attention of the members the Note No. 25 (9) to the financial statement which set out Related Party Disclosures.
- g. Details of conservation of energy, technology absorption, foreign exchange earnings and outgo as prescribed vide Rule 8(3) of Companies (Accounts) Rules 2014 is enclosed - Annexure III
- h. The company has laid down policy on risk assessment and minimization procedures and the same is periodically reviewed by the Board. The Policy facilitates in identification of risk at appropriate time and ensure necessary steps to be taken to mitigate the risk. Brief details of risks and concerns are given in this Board Report.
- i. The corporate Social Responsibility Committee has formulated and recommended to the Board a Corporate Social Responsibility Policy (CSR Policy) indicating the activities of the company. The Annual Report on CSR activities is not annexed herewith due to non- applicability of relevant provisions to the company due to losses.
- j. In compliance with the Companies Act, 2013 and Regulation 17 of the Listing Regulations, during the year the Board adopted a mechanism for evaluating its performance as well as that of its Committee and Individual directors, including the Chairman of the Board.

The evaluation of Independent Director was carried out by the entire Board and that of the chairman and Non-Independent directors were carried out by the Independent directors.

The Directors were satisfied with the evaluation results, which reflected the overall engagement of the Board and its committee with the company.

RISK AND CONCERN

SUGAR

- (a) Delay in evolving a rational Sugarcane Pricing Policy having link with sugar price is detrimental to growth of the industry.
- (b) The output of sugar, an agro-based product, is influenced by climatic vagaries.
- (c) Sugar Industry being cyclic in nature, the growth is hampered during downtrend.

DISTILLERY

High cost of molasses due to greater demand is matter of concern for Ethanol Blending Programme.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:

Your Company has adequate systems and internal control procedures to safeguard the assets of the company and to ensure maintenance of proper accounting records. There is also an Internal Audit System in place which reviews the key business and controls and also test checks on routine transactions and reports deviations. Besides, an Audit Committee periodically reviews the functioning of the entire system.

CREDIT RATING

Not applicable since from 30.09.2018 the company became NPA and continue to be NPA so far and working under holding on operation.

EMPLOYEE STOCK OPTION SCHEME

There are no outstanding stock options and no stock options were either issued or allotted During the year.

INTER CORPORATE LOANS AND INVESTMENTS

Company has not made loans, guarantees and investments covered under the provisions of Section 186 of the Act.

FIXED DEPOSITS:

The company has neither accepted nor renewed any deposit from public within the meaning of section 73 of the Companies Act, 2013 read with Companies (Acceptance of Deposit) Rules, 2014 during the year under the review.

AUDITORS

(a) Statutory Auditors

Pursuant to the applicable provisions of the Act, the members of the Company at their AGM held on 18th September, 2017, appointed M/s. Co M/s. Salarpuria & Partners., Chartered Accountants (ICAI Registration No. 302113E) , Kolkata, as the Statutory Auditors of the Company to hold office from the conclusion of the 36th AGM until the conclusion of the 41st AGM. The reports given by the Auditors, M/s. DIRECTORS:

The Board of the Company has an appropriate mix of Executive and Independent Directors to maintain the independence of the Board, and separate its functions of governance and Management. As on 31st March, 2020, the Board consists of 5 members, one of whom was executive director, one non-executive non-independent director and three were independent directors consisting of one lady director.

The Board periodically evaluates the need for change in its composition and size.

On recommendation of Nomination and Remuneration Committee, the Board of Directors, in their meeting held on 12.07.2019, re-appointed Mr. O. P. Dhanuka (DIN : 00049947) as Managing Director of the Company for a period of 3 years with effect from 13.08.2019, which was approved by the Shareholders of the Company.

Mr.Nirmal Kumar Parasramka (DIN : 00086584), Director, who retires by rotation at the ensuing Annual General Meeting and being eligible offer himself for re-appointment. The Board recommends his re-appointment.

The Members of the Company at the 34th Annual General Meeting ('AGM') held on 29th September, 2015 approved the appointment of Mrs. Sulekha Dutta (DIN : 07114240) as an Independent Director of the Company for a period of five years with effect from 31st March,2015. Mrs. Sulekha Dutta completed her first term on 30th March,2020. On the recommendation of the Nomination & Remuneration Committee the Board of Directors of the Company ('the Board') at the meeting held on 14th February,2020 appointed Mrs Sulekha Dutta as Additional Director in the Capacity of Independent Director of the company with effect from 31st March, 2020 subject to approval of the shareholders in the ensuing Annual General Meeting.

Consent of the Members by way of Special Resolution is required for appointment of Mrs. Sulekha Dutta in terms of Section 149 of the Act and Regulation 17 of the Listing Regulations. Notice under Section 160 of the Act proposing the re-appointment of Mrs. Sulekha Dutt has been received by the Company, and consent has been filed by Mrs. Sulekha Dutta pursuant to Section 152 of the Act.

Mr.Dilip Datta (DIN: 00406151) was appointed as an Independent Directors by the members of the Company at its 35th Annual General Meeting held on 30th September,2016, for the period of 5 (five) i.e upto expiry of five consecutive years or the date of 40th Annual General Meeting, whichever is earlier.

As Mr. Dilip Datta has attained the age of 75 years on 7th September, 2020 and in respect of whom Board of Directors in their meeting held on 26th August, 2020 made recommendation for his continuance as Independent Director till the remaining period of his term i.e. upto 30th September, 2021 subject to approval of the shareholders by way of special resolution in the ensuing Annual General Meeting.

In view of COVID-19 the prior approval of continuance of Mr. Dilip Datta before attaining the age of 75 years on 7.9.2020 could not be taken as Annual General Meeting could not be hold before that date.

Further pursuant to the provisions of Section 149 of the Companies Act, 2013, and Rules made thereunder, members approval by way of Special Resolution is sought at the ensuing Annual General Meeting for continuance of Mr. Dilip Datta as Independent Directors till 40th Annual General Meeting or 30th September, 2021 whichever is earlier.

The Company has received declaration in writing from Mr. Dilip Datta that he meet the criteria of independence as provided in Section 149(6) of the Act and Regulation 16(1)(b) of the SEBI Listing Regulations, 2015.

In the opinion of the Board, Mr. Datta fulfills the conditions specified in the Companies Act, 2013 and rules made thereunder and Regulation 16(1)(b) of the SEBI Listing Regulations, 2015, for his continuance as an Independent Director of the Company. The Board also considers that his association would be of immense benefit to the Company and it is desirable to avail his services as an Independent Director on the Board of the Company.

Considering the skills, experience, knowledge Mr. Datta possess and the report of performance evaluation of Mr. Datta, the Board recommended for the approval of shareholders by way of special Resolution.

INDEPENDENT AUDITOR'S REPORT

**TO
THE MEMBERS OF
RIGA SUGAR COMPANY LIMITED**

Opinion

We have audited the accompanying Ind AS financial statements of Riga Sugar Co Ltd ("the Company"), which comprise the Balance Sheet as at 31st March, 2020, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS Financial Statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, and loss, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS Financial Statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Ind AS Financial Statements.

Material Uncertainty Related to Going Concern

We draw attention to Note 11(b) in the Ind AS financial statements, which indicates that the Company incurred a Net Loss (including other comprehensive income) of Rs. 2,469.20/- lakhs during the year ended March 31, 2020 and Net Worth of the Company has also been fully eroded. The loans from the banks became Non-Performing Asset (NPA) w.e.f. 30.09.2018 and also called by the bank for repayment [Refer Note 12(a)d], and said borrowings are subject to confirmation. As stated in Note 25(8), these events or conditions, along with other matters, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern.

The Management of the Company has prepared the statement on going concern basis based on their assessment of the successful outcome of the restructuring proposal and accordingly no adjustments have been made to the carrying value of the assets and liabilities and their presentation or classification in the Balance Sheet. Also, in case of defaulted loans, the Banks have allowed "Holding on Operation" for the time being.

The company has applied permission of closure of sugar plant from Laboure Department .

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS Financial Statements of the current period. These matters were addressed in the context of our audit of the Ind AS Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to communicate in our report.

Information Other than the Ind AS Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the Ind AS Financial Statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS Financial Statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant of the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS Financial Statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decision of user taken on the basis of these Ind AS Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS Financial Statements, including the disclosures, and whether the Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

- 1) As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in "Annexure-A", a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE `B' TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")

(Referred to Paragraph 2(g) of Report on Other Legal and Regulatory Requirements of our Report of even date)

We have audited the internal financial controls over financial reporting of Riga Sugar Co Ltd ("the Company") as of 31st March, 2020 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Unit considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Unit's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding

prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTE 1(A) CORPORATE INFORMATION

Riga Sugar Co Ltd ("RSCL" or "the Company") is a public limited company incorporated and domiciled in India. The registered office of the Company is situated at 14, Netaji Subhas Road, 2nd Floor Kolkata– 700001, West Bengal, India.

The Company's shares are listed on the Bombay Stock Exchange Ltd. and The Calcutta Stock Exchange Ltd.

The Company's sugar factory is one of the oldest sugar factories in India. The principal activity of the Company is manufacturing of sugar.

Its allied business consists of :

- (a) Manufacturing and sale of Ethanol & Bio-Compost (in the name of Harabhara Fertilisers, Krishi Labh) ,and
- (b) Generation and Sale of Power

The financial statements are presented in Indian Rupee (₹) in Lakhs

NOTE 1(B) SIGNIFICANT ACCOUNTING POLICIES

i) Statement of Compliance with Ind AS

In accordance with the notification dated 16th February, 2015, issued by the Ministry of Corporate Affairs, the Company has adopted Indian Accounting Standards (referred to as "Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) with effect from 1st April, 2017 . Accordingly, the financial statements have been prepared in accordance with Ind AS prescribed under Section 133 of the Companies Act, 2013 ("Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Indian Accounting Standards) (Amendment) Rules, 2016.

All the Ind AS issued and notified by the Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) till the financial statements are approved for issue by the Board of Directors has been considered in preparing these financial statements.

ii) Basis of Preparation

These financial statements have been prepared in accordance with Ind AS under the historical cost basis except for the following:

- i) Certain financial assets and financial liabilities - measured at fair value and
- ii) Defined benefits plan – plan assets measured at fair value.

Historical cost is generally based on the fair value of the consideration in exchange for goods and services.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. The Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

The financial statements including notes thereon are presented in Indian Rupees ("Rupees" or "Rs." or "₹"), which is the Company's functional and presentation currency. All amounts disclosed in the financial statements including notes thereon have been rounded off to the nearest rupees in lakhs as per the requirement of Schedule III to the Act, unless stated otherwise.

iii) Revenue Recognition

Revenue is recognised to the extent it is probable that economic benefits would flow to the Company and the revenue can be reliably measured, regardless of when the revenue proceeds is received from customers.

Revenue is measured at the fair value of the consideration received/receivable taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the Government.

The specific recognition criteria for revenue recognition are as follows:

a. Sale of goods

Sale of goods is recognised at the time of transfer of substantial risk and rewards of ownership to the buyer for a consideration. It includes excise duty and cess and excludes sales tax/VAT,GST, trade discounts and rebates.

Notes to Financial Statements for the Year ended 31st March, 2020

b. Interest income

Interest income is included in "Other Income" in the Statement of Profit and Loss.

c. Insurance claims

Insurance claims are accounted for on the basis of claims admitted/expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

d. All other incomes are accounted for on accrual basis.

iv) Expenses

All expenses are accounted for on accrual basis.

v) Property, plant and equipment (PPE) and Capital work-in-progress (CWIP)

- a. All Property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any.

The cost of an asset includes the purchase cost of materials, including import duties and non-refundable taxes, and any directly attributable costs of bringing an asset to the location and condition of its intended use. Interest on borrowings used to finance the construction of qualifying assets are capitalised as part of the cost of the asset until such time that the asset is ready for its intended use.

Subsequent costs are included in the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably.

The carrying amount of the replaced part is derecognised. All other repair and maintenance costs are recognised in the Statement of Profit and Loss as incurred.

The present value of the expected cost for the decommissioning of an asset after its use, if any, is included in the cost of the respective asset if the recognition criteria for a provision is met.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss.

b. Depreciation methods, estimated useful lives and residual value

Freehold land is not depreciated.

Depreciation on other items of PPE is provided on a straight-line basis to allocate their cost, net of their residual value over the estimated useful life of the respective asset as specified in Schedule II to the Companies Act, 2013, except where stated otherwise.

The estimated useful lives are determined based on assessment made by technical experts, in order to reflect the actual usage of the assets. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The estimated useful lives considered are as follows:

<u>Category</u>	<u>Useful life</u>
Buildings Factory	30 years
Buildings Non-Factory	60 years
Plant and equipment	25 years
Furniture and fixtures*	5 years
Vehicles	8 years
Computer and Data Processor	3 years

Notes to Financial Statements for the Year ended 31st March, 2020

* The Management believes that the useful life of Furniture & Fixtures best represents the period over which it is expected to be used. Hence the useful lives of these assets are different from the useful lives as prescribed under Schedule II of the Companies Act, 2013.

The residual value of an item of PPE is not more than 5% of the original cost of the respective asset.

The estimated useful lives, residual values and depreciation method are reviewed at-least at the end of each financial year and are adjusted, wherever appropriate.

d. Expenditure during construction period

Directly attributable expenditure (including finance costs relating to borrowed funds for construction or acquisition of fixed assets) incurred on projects under implementation are treated as Pre-operative expenses pending allocation to the assets and are shown under CWIP. CWIP is stated at the amount expended upto balance sheet date on assets or property, plant and equipment that are not yet ready for their intended use.

vi) Intangible assets

a. Recognition

An intangible asset shall be recognised if, and only if:

- it is probable that the expected future economic benefits that are attributable to the asset will flow to the Company; and
- the cost of the asset can be measured reliably.

b. Amortization methods, estimated useful lives and residual value

Intangible Assets are amortized on a straight-line basis over its estimated useful lives of ten years and are carried at cost less accumulated amortisation & impairment losses, if any.

The estimated useful lives, residual values and amortization method are reviewed at-least at the end of each financial year and are adjusted, wherever appropriate.

vii) Inventories

- a. Inventories (other than by-products and scraps) are valued at lower of cost and net realisable value after providing for obsolescence, if any.

Cost of inventory comprises purchase price, cost of conversion and other directly attributable costs that have been incurred in bringing the inventories to their respective present location and condition. Borrowing costs are not included in the value of inventories.

Net realisable value (NRV) is the estimated selling price in the ordinary course of business less estimated costs of completion and the estimated costs necessary to make the sale.

- b. By-products and scraps are valued at net realisable value.
- c. Biological Assets comprise Standing crops of Sugarcane. Biological Assets are measured at Fair Value less estimated costs to sell.

viii) Government Grants

Government grants related to revenue nature are recognized on a systematic basis in the Statement of Profit and Loss over the periods necessary to match them with the related costs which they are intended to compensate, and are adjusted with the related expenditure.

Government grants related to PPE are treated as deferred income (included under non-current liabilities with current portion considered under current liabilities) and are recognized and credited in the Statement of Profit and Loss on a systematic and rational basis over the estimated useful life of the related asset and included under "Other Income".

If not related to a specific expenditure, it is taken as income and presented under "Other Income".

Notes to Financial Statements for the Year ended 31st March, 2020

ix) Borrowings Costs

Borrowing costs that are directly attributable to the acquisition or construction of a qualifying asset are capitalized as part of the cost of such asset till such time that is required to complete and prepare the asset to get ready for its intended use. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing costs also include exchange differences to the extent regarded as an adjustment to the borrowing costs.

All other borrowing costs are charged to the Statement of Profit and Loss in the period in which they are incurred.

x) Provisions, contingent liabilities and contingent assets

- a. A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are not recognised for future operating losses.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation as at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The expense relating to provision is presented in the Statement of Profit and Loss, net of any reimbursement.

- b. A contingent liability is not recognised in the financial statements, however, is disclosed, unless the possibility of an outflow of resources embodying economic benefits is remote.

If it becomes probable that an outflow of future economic benefits will be required for an item dealt with as a contingent liability, a provision is recognized in the financial statements of the period (except in the extremely rare circumstances, where no reliable estimate can be made).

- c. A contingent asset is not recognised in the financial statements, however, is disclosed, where an inflow of economic benefits is probable.

When the realisation of income is virtually certain, then the related asset is no longer a contingent asset, and is recognised as an asset.

- d. Provisions, Contingent Liabilities and Contingent Assets are reviewed at each Balance sheet date.

xi) Dividend payable

Final dividend on shares are recorded as a liability on the date of approval by the shareholders and interim dividend are recorded as a liability on the date of declaration by the Company's Board of Directors. A corresponding amount is recognised directly in equity.

xii) Foreign currency transactions and translations

a. Functional and presentation currency

The items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates ("the functional currency").

The financial statements are presented in Indian National Rupee (INR), which is the Company's functional as well as presentation currency.

b. Transactions and balances

Transactions in foreign currencies are initially recorded at the functional currency spot rate prevailing at the date the transaction first qualifies for recognition.

Monetary assets and liabilities related to foreign currency transactions remaining outstanding at the balance sheet date are

Notes to Financial Statements for the Year ended 31st March, 2020

translated at the functional currency spot rate of exchange prevailing at the balance sheet date. Any income or expense arising on account of foreign exchange difference either on settlement or on translation is recognised in the Statement of Profit and Loss.

Non-monetary items which are carried at historical cost denominated in a foreign currency are translated using the exchange rate at the date of the initial transaction.

xiii) Employee benefits

a. Short-term employee benefits

Short-term employee benefits in respect of salaries and wages, including non-monetary benefits are recognised as an expense at the undiscounted amount in the Statement of Profit and Loss for the year in which the related service is rendered.

b. Defined contribution plans

Contributions under the Provident Fund benefit Plan are being deposited to the Government administered/trust formed exclusively for maintaining the Provident fund related activities of the company, which is an exempted organization under the Employees Provident Fund and Miscellaneous Provisions Act, 1952 and charged to Statement of Profit and Loss on accrual basis.

c. Defined benefit plans

The liability or asset recognised in the Balance sheet in respect of gratuity is the present value of the defined benefit obligation as at the balance sheet date less the fair value of plan assets. The defined benefit obligation is calculated annually by external actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash flows by reference to the market yields as at the balance sheet date on government bonds that have terms approximating to the terms of the related obligation.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance sheet with a corresponding debit or credit to retained earnings through Other Comprehensive Income ("OCI") in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the Statement of Profit and Loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements, and
- Net interest expense or income

d) Compensated absences

The employees of the Company are entitled to compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation using projected unit credit method for the unused entitlement that has accumulated as at the balance sheet date. The benefits are discounted using the market yields as at the end of the balance sheet date that has terms approximating to the terms of the related obligation. Re-measurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

Notes to Financial Statements for the Year ended 31st March, 2020

xiv) Taxes

Income tax expense comprises current tax and deferred tax and is recognized in the Statement of Profit and Loss, except to the extent it relates to items directly recognized in Equity or in OCI.

a) Current Income Tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities using the tax rates and tax laws that are enacted or substantively enacted by the balance sheet date and applicable for the period.

Current tax items in correlation to the underlying transaction relating to OCI and Equity are recognized in OCI and in Equity respectively.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

b) Deferred income tax

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction.

Deferred tax assets are recognized for deductible temporary differences, the carry forward of unused tax credits and any unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilised.

Unrecognised deferred tax assets are re-assessed at each balance sheet date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws to the extent it is likely to give future economic benefits in the form of availability to set off against future income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off deferred tax assets against deferred tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

xv) Prior Period Items

Prior Period Income/expenses are accounted under the respective heads. Material items, if any, are disclosed separately by way of a note, except the items which are necessitated by circumstances although related to prior period but are determined in current period.

xvi) Earnings per Share

a. Basic earnings per share are computed by dividing the net profit/(loss) after tax by the weighted average number of equity shares outstanding during the year.

Notes to Financial Statements for the Year ended 31st March, 2020

- b. Diluted earnings per share are computed by dividing the net profit/(loss) after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares which could be issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are determined as at the end of each period presented. Dilutive potential equity shares are determined independently for each period presented.

xvii) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM).

The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Managing Director who makes strategic decisions.

The accounting policies adopted for segment reporting are in line with the accounting policies adopted for preparing and presenting the Financial Statements of the Company as a whole. In addition, the following specific accounting policies have been followed for segment reporting:

- a. Segment revenue includes sales and other income directly identifiable with/allocable to the segment including inter segment transfers.

Inter segment transfers are accounted for based on the transaction price agreed to between the segments which is at cost in case of transfer of Company's intermediate and final products and estimated realisable value in case of by-products.

- b. Revenue, expenses, assets and liabilities are identified to segments on the basis of their relationship to the operating activities of the segment. Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on direct and/or on a reasonable basis, have been disclosed as "Unallocable".

xviii) Cash and cash equivalents

Cash and cash equivalents in the Balance sheet comprise cash on hand, cheques on hand and balance with banks on current accounts.

For the purpose of the Cash Flow Statement, Cash and cash equivalents consist of Cash and cash equivalents, as defined above and net of outstanding book overdrafts as they are considered an integral part of the Company's cash management.

xix) Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit/loss before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing flows. The cash flows from operating, investing and financing activities of the Company are segregated.

xx) Financial Instruments

Financial assets and financial liabilities are recognised in the Balance sheet when the Company becomes a party to the contractual provisions of the instrument. The Company determines the classification of its financial assets and financial liabilities at initial recognition based on its nature and characteristics.

- a. "Financial Assets "Initial recognition and measurement" All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. The financial assets include trade and other receivables, loans and advances, and cash and bank balances. "De-recognition" The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset."
- b. "Financial liabilities "Initial recognition and measurement" All financial liabilities are recognised initially at fair value and, in the case of financial liabilities classified at amortised cost, net of directly attributable transaction costs. "The financial liabilities include trade and other payables, loans and borrowings including bank overdrafts etc. "De-recognition" A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires."

Notes to Financial Statements for the Year ended 31st March, 2020

xxi) Use of critical estimates, judgements and assumptions

The preparation of the financial statements requires the use of accounting estimates, which, by definition would seldom equal the actual results. Management also needs to exercise judgement and make certain assumptions in applying the Company's accounting policies and preparation of financial statements.

The use of such estimates, judgements and assumptions affect the reported amounts of revenue, expenses, assets and liabilities including the accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in the future periods.

Estimates and judgements are continuously evaluated. They are based on historical experience and other factors including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the balance sheet date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are described below.

The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

In the process of applying the Company's accounting policies, management has made the following judgements, which have most significant effect on the amounts recognised in the financial statements.

Notes to Financial Statements for the Year ended 31st March, 2020

b) Risks related to defined benefit plans:

The main risks to which the Company is exposed in relation to operating defined benefit plans are :

- i) Interest Rate Risk : The defined benefit obligation calculated uses a discount rate based on government bonds. If bonds yields fall, the defined benefit obligation will tend to increase.
 - ii) Salary Inflation Risk : Higher than expected increases in salary will increase the defined benefit obligation.
 - iii) Demographic Risk : This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.
- c) The Gratuity and Provident Fund expenses have been recognised in Employee Benefits Expense under “Contribution to Provident and Other Funds” and Leave Encashment (Refer Note No. 21).

5) Segment information

- a) The Managing Director has been identified as the Company’s chief operating decision-maker (CODM) as defined by Ind AS 108– Operating Segments.

The CODM evaluates the Company’s performance and allocates resources based on an analysis of various performance indicators by Business segments.

The CODM of the Company evaluates the segments based on their revenue growth, operating income and return on capital employed.

- b) The following is an analysis of revenue and result from operation by reportable segment. The sugar segment includes the production of sugar, molasses, power and fertilizer, whereas the Distillery segment includes production of Ethanol.

Notes to Financial Statements for the Year ended 31st March, 2020

B. Fair value hierarchy

The fair value of the financial assets and financial liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

i) Fair value of cash and cash equivalents, bank balances other than cash and cash equivalents, trade and other receivables, loans and other current financial assets, short term borrowings from banks and financial institutions, trade and other payables and other current financial liabilities approximate their carrying amounts due to the short-term maturities of these instruments.

ii) The Company uses the following fair value hierarchy for determining and disclosing the fair value of financial instruments:

Level 1 : Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 : Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 : Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

11) Financial Risk Management objectives and policies

i) Foreign currency risk

Foreign currency risk is the risk that the fair value of future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's foreign currency denominated borrowings as per forward rate.

ii) Regulatory risk

Sugar industry is regulated both by central government as well as state government. Central and State Governments policies and regulations affects the Sugar industry and the Company's operations and profitability. Distillery business is also dependent on the State Government. However, with the removal of major regulatory control on sugar sales by the Central Government, the regulatory risk are moderated.

iii) Commodity price risk

Sugar industry being cyclical in nature, realisations get adversely affected during downturn. Higher cane price or higher production than the demand ultimately affect profitability. The Company has mitigated this risk by well integrated business model by diversifying into co-generation and distillation, thereby utilizing the by-products.

iv) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company's sugar sales are mostly on cash. Power and ethanol are sold to government entities, thereby the credit default risk is significantly mitigated.

The impairment for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each balance sheet date.

Notes to Financial Statements for the Year ended 31st March, 2020

Financial assets are written off when there is no reasonable expectation of recovery, however, the Company continues to attempt to recover the receivables. Where recoveries are made, these are recognised in the Statement of Profit and Loss.

v) Trade Receivables

Trade receivables of the Company are non-interest bearing and are generally on credit terms of 0 to 60 days.

An impairment analysis is performed at each balance sheet date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The maximum exposure to credit risk at the balance sheet date is the carrying value of each class of financial assets disclosed under Note No. 8(a).

vi) Balances with banks

Credit risk from balances with banks is managed in accordance with the Company's policy.

The Company's maximum exposure to credit risk for the components of the balance sheet as at 31st March, 2020 & 31st March, 2019 is the carrying amounts as stated under Note No. 4(b) and 8(c).

vii) Liquidity risk

The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of cash credit facilities and short term loans.
