35th ANNUAL REPORT 2019-20

To Achieve ALL SAFE LABEL

ACCOR has now established some of the most stringent cleaning standards & operational procedures in the world of hospitality to ensure guest safety as hotels reopen around the world.

These standards have been developed with and vetted by Bureau Veritas, a world leader in Testing, Inspection & Certification. All hotels must apply these standards and every ACCOR hotel will be audited by either ACCOR operational experts or third-party auditors to achieve the new ALL SAFE LABEL.

The ALLSAFE label will help guests understand whether these standards have been met in our hotels. Guests will be able to verify hotels that are certified compliant with ALL SAFE standards on hotel property websites, through your customer contact centers as well as on property.

ALL SAFE CLEANLINESS & PREVENTION LABEL

BOARD'S REPORT

Dear Members,

Your Directors are pleased to present the **Thirty Fifth Annual Report** on the business and operations of your Company along with the audited financial statements for the financial year ended **31st March, 2020**.

In the year under review, the Company has performed reasonably well and worked intensively and witnessed healthy growth amidst increased competition. Over the years, your Company has pursued a very proactive strategy and approach, anticipating the evolving trends and developing mechanisms to meet diverse crisis. Your Company continues in its quest for excellence by constant improvement of the guest experience through better service levels and product upgrades. Your Directors believe that the Company should offer increasing value to all its stakeholders and society at large. We have maintained this with our tradition and policy of offering high quality content and services. As stewards of the Company, we will always share our vision of growth with you.

1. FINANCIAL HIGHLIGHTS

Net Profit after OCI	64.45	153.25

2. REVIEW OF OPERATIONS

The economic scenario in 2019 has further declined with the GDP growth rate reaching its all-time low of 5 % in the first quarter (Q1, April-June) of fiscal year 2019-20. The current financial year started off at a slow pace in terms of occupancy going down as compared to the previous financial year primarily due to elections. The slump in occupancy rates has also impacted the ARR downwards. However, from second quarter onwards, a jump in the occupancy rates across India to result in occupancies slightly over the 60-70 per cent mark and consequently create a four to six per cent jump in the ARR over FY 19. While performance parameters of hotels are going up, the pace of development has slowed down due to many issues.

Your Company would have posted higher quantum of profit if increased cost of depreciation and interest payment had not been collocated due to expansion & renovation project in the hotel.

In the Financial year 2019-20, there was a decline in RevPAR (Revenue per available Room) growth and in room occupancy rate. The Company also emphasizes for a sharp focus on marketing strategy as well as consistent sales effort to increase room occupancy and ARR.

The industry is stuck in a crack due to oversupply, disruptions through technological innovations and a slowdown in demand due to macro issues. However, the scenario had changed during the mid of the year and industry expected a better performance on major parameters. The ARR story continues to be modest though. While it is true that rates haven't grown by leaps, it is equally pertinent to note that the blended nationwide ARR appears to grow slowly because a larger portion of the existing supply is budget and midscale positioned.

Over the last year, your Company has undertaken key initiatives to drive long-term growth – strengthening its core business, exploring new categories, streamlining its operations for better organisational effectiveness and agility, and embedding digitisation in key areas of the value chain. The sales and other income of Financial Year 2019-20 was recorded at Rs. 3791.39 lakhs (PY Rs. 3817.87 lakhs). While revenues have declined at 0.69% during the year and net profits to 55% as compared to the previous year.

On March 11, 2020, the WHO (World Health Organization) declared Covid-19 outbreak as a pandemic. The lockdowns and restrictions imposed on various activities due to COVID-19 pandemic have posed challenges on the businesses of Company. As on 31st March 2020, the Company faces significant economic uncertainties due to COVID-19 which have impacted the operations particularly minimal occupancy in hotels and reduction in average realization rate per room and revenue from Restaurant & Banquets. The ongoing COVID-19 pandemic and the worldwide reaction to it has compelled companies to radically rethink their strategies and the way they operate. The increasing need among the companies is to perform tasks on time, within budget and with right resources.

3. **MANAGEMENT DISCUSSION & ANALYSIS:** The Management Discussion & Analysis covers the details relating to the Industry Structure & Development, Opportunities & Threats, Outlook, Risk & Concerns, discussion on financial performance with respect to operational performance etc.

BRAND DEVELOPMENT

The importance of a brand tie-up in a highly digitalised economy is continuing to become ever more important. Since June 2017 onwards your Company is being managed and operated by ACCOR group of hotels, an international brand that is compatible with the character and culture of our Company to increase business prospects and strengthen the marketing networking.

The art of hospitality knows no bounds -
It extends beyond walls, to spark inspired experiences everywhere.

We are shaping a future where hospitality unlocks a life lived limitless.
Where powerful brands deliver exceptional experiences and value,
and talent and passion deliver a welcoming human touch.
Where innovation constantly expands boundaries, and a commitment
to sustainability gives back to one planet, many communities.

The future belongs to those who design it,
and we're here to bring you there — first.

Acting for Good

Because we [ACCOR] take care of millions of guests and each of our hotels is a world in itself, where every action counts. We strive to make positive impact both locally and globally, to ensure hospitality benefits not only the few, but all.

Our teams are the key actors of our constant transformation but more than that, they are the authors of their own story with ACCOR. We believe in creativity, curiosity, and the willingness to learn and that makes us agile and capable of making the world a better place. Each individual personality and passion create a unique and authentic emotional connection with our guests.

Prospects & Concerns

The overall growth meltdown in the economy had its impact on the tourism economy of the country as well if the government's own statistics are to be believed. For an industry, which was expecting acceleration in inbound traffic after the first quarter, mainly because of the general elections, had to satisfy with nearly flat growth. The inbound growth for India was just about 3% in the first 10 months of the year, which was lowest considering the track record of the past many years.

The issues in the aviation sector also had its share in Indian tourism's agony. Thereafter, all made air travel a costly affair forcing people to revisit their vacation plans. As the year is coming to close, the reports from various agencies about the financial health of the Indian airline companies is not satisfactory.

Domestic travel has always been the mainstay of Indian tourism and hospitality industry. The domestic consumption of travel products is largely recession-proof because of the Indian middle class' appetite to travel and lifestyle. However, recent reports from many leisure destinations have shown the softening of the domestic demand even during the peak months. The overall market sentiment prevailing in the economy seems to be catching up with travel as well if the indications are to be believed.

All these do seem to be bothering the players in the Hospitality 20:20. They are not confident and hope that the 2020 pitch will be very hard to deliver results for them. They repose faith in the millennial fans and hope they will continue to throng the Hospitality stadia to boost the morale of teams in 2020. They certainly have apprehensions in the swing and the rough nature of the wicket they are going to face. But they are nervous and overtly cautious as of now.

The Hotel was shut down entirely during the lockdown phase as the Company was not part of Government denominated essential services. Hotels across the country are virtually closed for the last three months or so with essentially zero revenues while having to bear with mounting fixed costs. The Indian hotels' sector has been hit hard : grappling with significantly low demand, with very few future bookings. Essentially, all transient demand has completely vanished and the remaining is largely on account of either a few long stay guests or hotels having been prescribed by the Government for the international travellers returning to India. The Indian hospitality industry is undoubtedly one of the biggest casualties of the COVID-19 outbreak as demand has declined to an all-time low. It is predicted that the second quarter of the year 2020 to be the worst hit. Hotels will be unable to drive rates and may even seek to attract business at deep discounts.

India is the most digitally advanced traveller nation in terms of digital tools being used for planning, booking and experiencing a journey but India's major chunk of middle class with unstable disposable incomes during the current situation of COVID 19 is not able to support the growth of domestic and outbound tourism during 2020.

In times to come, it is assured by Hotel Operator [ACCOR] that these global players have not only strong National but also International Sales and Marketing Set up. With growing number of hotels in each chain, they are also able to tie up with many Airlines, Credit Card Companies and offer attractive loyalty programmes for the customers. The management continues to expect that there will be increment in Online business and improvement in room occupancy rate due to renovation, refurbishment and up gradation of guest rooms, supported by prevalent personalized service and provision of special amenities for guest comfort.

Retaining the workforce even through training and development in the hotel industry is a tedious task as attrition levels are too high.

GST is a mixed bag of better and easier rules and regulations and increased costs and compliances. The biggest issue for the hospitality industry has been the high rate of 12 per cent GST for hotels charging room rentals upto Rs 7,500/-. COVID 19 pandemic and high taxation are main concern for further growth in business.

Current Year

As the country faces the grappling situation of coronavirus pandemic, its impact can largely be felt by the tourism sector of the country as the once overbooked hotels and transportations are now experiencing a deserted situation.

Travel industry has been hit hard by the pandemic. Since the outbreak, it has been busy honoring cancellation requests and demanding refunds from airlines and hotels. Being the peak season, the sector has suffered huge loss. It is also predicted that if the ongoing situation prevails, the tourism sector may experience in million job losses which accounts for 70% of the total workforce employed by the industry.

When it comes to survival, all that people care about is the basic requirements and forego the luxury. The summer season was the time when people waited to leave their houses and now they are scared to even step outside. This is the fear that the outbreak of the deadly coronavirus has created and the tourism industry is bearing a huge brunt, especially the hotel and aviation industry, who are longing to welcome a visitor for weeks now.

Although the people from the tourism industry are eagerly waiting for the upliftment of the lockdown and resuming their operations, the will of traveling in people after the lockdown remains questionable. It is also anticipated that when things turn back to normal, people initially might not be comfortable in indulging in big travel plans, however, a few small domestic travel plans can be expected. Also, the approach of various hotels, airlines and travel agents of tackling the current pressure from the customers will severely define the decisions that customers will take in planning their next trip.

With the impact to the travel industry worse than ever, the human toll of this public health crisis has been absolutely devastating for the hotel industry. For the hotel industry priority is rehiring and retaining our hardworking employees who power vibrant industry. Hotels were one of the first industries affected by the pandemic and will be one of the last to recover. Supportive measures for the hotel industry is the need of the hour to make important policies to reflect the current economic reality and help the employees in the industries that have been impacted the most.

During the Current year in first quarter the sales and turnover is negligible i.e Rs. 64.17 lakhs only as compared to previous corresponding period and an estimated loss of Rs. 375 lakhs. Your Company continues in its quest for excellence by constant improvement of the guest experience through better and safe service levels, innovative concepts, product upgrades, sales and marketing initiatives etc.

Post COVID-19/UNLOCK : The New Guest Experience

How to inspire guest confidence that hotels are safe and clean and how to win back guest business ?

Due to the dramatic downturn in travel, properties that remain open are operating with minimal staffing. The hotel industry is at a critical juncture. We need more resources to survive this unprecedented time. Additionally, as the pandemic continues, travel intent during the upcoming six months continues to decline.

India's restaurant industry is facing what is possibly its worst existential crisis. While the COVID-19 lockdown reduces risk of transmission, it has also meant that revenues dropped to zero, with businesses struggling to find the cash to pay their employees and make rent. Perhaps the pandemic is merely exposing the cracks that already existed. Around the world, restaurants have been forced out of business. It will be a while before these fundamental changes can be implemented, and even longer before they show effect. In the meantime, restaurants have the more urgent task of rebuilding confidence. They are examining how hygiene and social distancing protocols can be implemented.

Early indications reveal that younger adults will be the first to travel again as evidenced by their intent to engage in almost every type of travel-related activity during the next six months

Post coronavirus weddings: The new normal when it comes to 'I do'

Weddings across the globe have been put on hold for the time being. Most weddings are expected to be pushed to the latter half of 2020 or the beginning of 2021. However, on the brighter side, in lieu of the nationwide lockdown to-be-weds can utilise this time to better plan their wedding once the virus threat is down to negligible.

The 'New Normal' for celebrating weddings in the post-COVID-19 world is going to be different. With social distancing becoming the norm, weddings will be smaller, more intimate, and with emphasis on top-notch hygiene standards as well as ensure contactless services. Given this situation, to limit risks and ensure safety, couples who plan to celebrate their weddings during the latter half of the year will have to consider altering their wedding plans.

In the aftermath of COVID-19 and once the lockdown is over, we expect many couples to tie the knot, however, the way they do it will change. Couples will forego the 'big fat' wedding for an intimate, more cautious wedding, adhering to social distancing norms. To ease worries of guest during the pandemic, we are engaging with them virtually by conducting digital meetings and venue recess, offering more flexibility in terms of booking and rescheduling weddings for a later date. We hope such measures benefit everyone.

Tweaking the buffet-style service

The highlight of any Indian wedding is its lavish buffet. In an effort to comply with physical distancing measures, this is about to change too. While some couples may still opt for buffet-style service, precautionary measures like a contactless serving of dishes will be the norm. Opting for family-style entrees or sides at the table is another way to ensure the safety of guests, thereby avoiding serpentine queues at the food counters, where people tend to gather in close proximity at weddings. Besides this, Restaurants will also have to ensure that the raw materials or ingredients for food preparation are sourced from trustworthy suppliers, who ensure utmost cleanliness while delivering the stock from the farm to the venue.

As weddings go local, they also go virtual

In the aftermath of the pandemic, we can expect couples to opt for local weddings in their hometowns, instead of destination weddings. Additionally, overseas guests may prefer being a part of the celebration virtually, due to restrictions for non-essential travel. Furthermore, live streaming wedding ceremonies are a foreseeable trend in the near future. Therefore, wedding planners and venue operators can expect a surge in demand for such services post-COVID-19.

Impeccable hygiene standards

Right from the entry to exit, venues need to place sanitizers and hand napkins at every point. Guests should be able to sanitize their hands on arrival, have access to cleaning and protective equipment at their tables, ample availability of hand washes and sanitizers should be made in the washrooms. To avoid overcrowding the washrooms, guests should have a designated waiting area where they can maintain physical distance from each other. All venues should diligently disinfect spaces pre and post the wedding function.

Apart from venue hygiene, even makeup artists and photographers documenting the wedding will have a certain Standard Operating Procedures (SOP) to follow in the post-pandemic phase. To ensure that the bride feels safe, makeup artists and hairstylists will wear masks and sanitise their products. With regards to photographers, the wedding party will prefer a smaller team to cover the wedding. Additionally, as weddings are set to be more intimate, a large team won't be required at the venue.

Adapt to a post-COVID-19 culture

The new normal for weddings across the world is going to be significantly different. In the meanwhile, it's time to stay educated, make more informed decisions and rethink safer ways to plan happy and safe celebrations post the pandemic.

Our main forte and focus has been the popularity of Food and Beverages facilities. The foray of Indian restaurants into a variety of global cuisines and food fusion is having a positive impact on the F&B sector. Customers are more willing to experiment with different cuisines because it is now easily accessible in the cities they live in, and this trend had increased Indian consumers' frequency of eating out.

Your Hotel's communication campaign is through leading dailies, magazines, hoardings and social networking (Facebook, Instagram, Twitter along with other social media options) also. The management has taken active steps to promote the property with some effective marketing initiatives. We are launching some new services to add to the brand portfolio. Internal skill sets are being honed and developed for better utilization and implementation of available resources. With these efforts, we hope to increase the profitability of your Company in the coming years.

Going forward, it is expected that the industry to register an overall healthy growth on back of economic growth. The sector also faces several challenges in terms COVID 19, complex regulatory environment and inadequate tourism infrastructure.

Government Initiatives

The Indian government has realised the country's potential in the tourism industry and has taken several steps to make India a global tourism hub. Some of the major initiatives planned by the Government of India to give a boost to the tourism and hospitality sector of India are as follows:

- Ministry of Tourism launches Audio Guide facility App called Audio Odigos for 12 sites of India (including iconic sites).
- Prime Minister, Mr Narendra Modi urged people to visit 15 domestic tourist destinations India by 2022.
- **Statue of Sardar Vallabhbhai Patel, also known as 'Statue of Unity', was inaugurated in October 2018. It is the highest standing statue in the world at a height of 182 metre. It is expected to boost the tourism sector in the country and put India on the world tourism map.**
- The Government of India is working to achieve one per cent share in world's international tourist arrivals by 2020 and 2 per cent share by 2025.
- Under Budget 2020-21, the Government of India allotted Rs 1,200 crore (US\$ 171.70 million) for development of tourist circuits under Swadesh Darshan for eight north-eastern states.
- Under Budget 2020-21, the Government of India allotted Rs 207.55 crore (US\$ 29.70 million) for development of tourist circuits under PRASHAD.
- Under Budget 2020-21, the Government of India allotted Rs 1,200 crore (US\$ 171.70 million) for development of tourist circuits under Swadesh Darshan for eight north-eastern states.
- In 2019, Government reduced GST on hotel rooms with tariffs of Rs 1,001 (US\$ 14.32) to Rs 7,500 (US\$ 107.31) per night to 12 per cent; those above Rs 7,501 (US\$ 107.32) to 18 per cent to increase India's competitiveness as a tourism destination.
- In September 2019, Japan joins a band of Asian countries, including Taiwan and Korea among others to enter into the Indian tourism market.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF JINDAL HOTELS LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Jindal Hotels Limited ("the Company"), which comprise the Balance Sheet as at 31st March, 2020, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information. (Hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2020, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the independence requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Emphasis of Matter

We draw attention to Note 40 to these financial statements, which explains the management's assessment of going concern assumption and financial impact on account of COVID 19 pandemic situation and its assertion that based on best estimates made by it, the Company will continue as a going concern, i.e. continue its operations and will be able to discharge its liabilities and realise its assets, for the foreseeable future, despite the significant impact of COVID-19 and factors which continue to evolve and are therefore highly dependent on future circumstances.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response
1.	<p>Recognition and measurement of deferred tax assets including unused tax credit:</p> <p>As at 31st March, 2020, the Company has deferred tax asset of Rs. 37.99 lakhs relating to unabsorbed depreciations and recorded deferred tax assets related to unused tax credits of Rs. 46.53 lakhs considering that future taxable profit will be available against which such unused tax losses can be utilized.</p> <p>We identified the recoverability of these deferred tax assets as a key audit matter as recognition of these assets involves judgment by management as to the likelihood of the realization of these deferred tax assets, which is based on a number of factors including whether there will be sufficient taxable profits in future periods to support recognition.</p> <p>Refer note 2(M) and 20 to the financial statements.</p>	<p>Principal Audit Procedures: Our procedures in relation to management's assessment about the recoverability of deferred tax assets including unused tax credits included:</p> <ul style="list-style-type: none"> Evaluating management's assessment on the sufficiency of future taxable profits in support of the recognition of deferred tax assets by comparing management's forecasts of future profits to historical results and evaluating the assumptions used in those forecasts. Obtaining the communications between the Company and taxation authorities regarding tax positions.

Information other than the Financial Statement and Auditor's Report thereon

The Company's Board of Directors is responsible for preparation the other information. The other information comprises the information included in Board's Report including Annexure to Board's Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon;

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India, including the accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error;

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so;

The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation;

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit;

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards;

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "**Annexure A**" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **JINDAL HOTELS LIMITED** (“the Company”) as of 31st March, 2020 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of internal financial controls with reference to financial statements of the company that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether internal financial controls with reference to financial statements of the company were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the internal financial controls with reference to financial statements of the company and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an internal financial controls with reference to financial statements of the company and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1.2 Basis of Preparation of Financial Statements

i. Compliance with Ind AS

The Financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) as prescribed under Section 133 of the Act to be read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the relevant amendment rules issued thereafter.

ii. Historical cost convention

The financial statements have been prepared on a historical cost basis, except the following:

- Certain financial assets and liabilities that are measured at fair value;
- Defined benefit plans – plan assets measured at fair value.

iii. Functional and presentation currency

These financial statements are presented in Indian Rupees, which is the Company's functional currency, and all values are rounded to the nearest lakhs, except otherwise indicated.

iv. Composition of Financial Statements

The financial statements comprise:

- Balance Sheet
- Statement of Profit and Loss
- Statement of Cash Flow
- Statement of Changes in Equity
- Notes to Financial Statements

1.3 Key Accounting Judgments, Estimates and Assumptions

In preparing these financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates

Estimates and underlying assumptions are reviewed on an ongoing basis. Any change in these estimates and assumptions will generally be reflected in the financial statements in current period or prospectively, unless they are required to be treated retrospectively under relevant accounting standards.

2. Significant Accounting Policies and Other Explanatory Notes

A. Property, Plant and Equipment:

i. Recognition and measurement

Freehold land is carried at cost and not depreciated. All other items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the items.

Income and expenses related to the incidental operations, not necessary to bring the item to the location and condition necessary for it to be capable of operating in the manner intended by management, are recognized in the Statement of Profit and Loss.

If significant parts of an item of property, plant and equipment have different useful life, then they are accounted and depreciated for as separate items (major components) of property, plant and equipment.

An Item of Property, Plant and Equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss on disposal of an item of property, plant and equipment is recognized in the Statement of Profit and Loss.

ii. Subsequent Expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

iii. Capital Work-in-Progress

Plant and properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognized impairment loss. Cost includes professional fees and, for qualifying asset, borrowing costs capitalized in accordance with the Company's accounting policies. Such plant and Properties are classified and capitalized to the appropriate categories of Property, Plant and Equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

iv. Depreciation

Depreciation on tangible fixed assets is provided in accordance with the provisions of Schedule II of the Companies Act 2013, on Straight Line Method. Depreciation on additions / deductions is calculated on pro rata basis from/ up to the month of additions/deductions. The estimated useful life, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

	Useful Lives (Years)
Factory Building	30 to 60 years
Plant & Machinery	15 years
Electrical Installation	10 years
Furniture and Fixtures	8 to 16 years
Vehicles	8 years
Office Equipments	5 years
Computer & Hardware's	3 years

B. Intangible Assets:

i. Recognition and measurement

Intangible Assets are stated at cost of acquisition less accumulated amortization and accumulated impairment, if any. Amortization is done over their estimated useful life on straight line basis from the date that they are available for intended use, subjected to impairment test.

ii. Amortization

Software, which is not an integral part of the related hardware is classified as an intangible asset and is amortized over the useful life of 3 years.

iii. De-recognition of Intangible Assets:

Intangible asset is de-recognised on disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in the Statement of Profit and Loss when the asset is de-recognized.

C. Impairment:

i. Non - financial assets

At each balance sheet date, the Company assesses whether there is any indication that any property, plant and equipment and intangible assets with finite life may be impaired. If any such impairment exists, the recoverable amount of an asset is estimated to determine the extent of impairment, if any. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair valueless costs of disposal and value in use. If the recoverable amount of the asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised in statement of Profit and Loss.

D. Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee**(A) Lease Liability**

At the commencement date, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using incremental borrowing rate.

(B) Right-of-use assets

Initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives.

Subsequent measurement**(A) Lease Liability**

Company measure the lease liability by (a) increasing the carrying amount to reflect interest on the lease liability; (b) reducing the carrying amount to reflect the lease payments made; and (c) remeasuring the carrying amount to reflect any reassessment or lease modifications.

(B) Right-of-use assets

Subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight line basis over the shorter of the lease term and useful life of the underlying asset.

Impairment

Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

Short term Lease:

Short term lease is that, at the commencement date, has a lease term of 12 months or less. A lease that contains a purchase option is not a short-term lease. If the company elected to apply short term lease, the lessee shall recognise the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis. The lessee shall apply another systematic basis if that basis is more representative of the pattern of the lessee's benefit.

As a lessor

Leases for which the company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Lease income is recognised in the statement of profit and loss on straight line basis over the lease term.

Transition to Ind AS 116

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

The Company has adopted Ind AS 116, effective annual reporting period beginning 1st April, 2019 and applied the standard prospectively to its leases.

Refer note 1.3(Q) significant accounting policy and other explanatory note -leases in the annual report of the company for the year ended 31st March, 2019, for the erstwhile policy as per Ind AS 17.

E. Inventories:

Company follows the practice of charging to revenue, the cost of various inventories, on actual consumption basis.

Inventories are valued at lower of cost or net realizable value. Cost is arrived at on First in First Out basis.

**F. Investments and Other Financial Assets:****i. Classification:**

The Company classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through other comprehensive income, or through Statement of Profit and Loss), and
- Those measured at amortized cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses will either be recorded in Statement of Profit and Loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Company reclassifies debt or equity investments when and only when its business model for managing those assets changes.

ii. Measurement

At initial recognition, in case of a financial asset not at fair value through profit and loss, the Company measures a financial asset at its fair value plus, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through Statement of Profit and Loss are expensed in Statement of Profit and Loss.

- (a) Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost.
- (b) Fair Value through Other Comprehensive Income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through Other Comprehensive Income (OCI), except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in Statement of Profit and Loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit and loss and recognized in other gains/ losses. Interest income from these financial assets is included in other income using the effective interest rate method.
- (c) Fair value through profit and loss: Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through Statement of Profit and Loss. Interest income from these financial assets is included in other income.

iii. Equity Instruments

The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to Statement of Profit and Loss. Dividends from such investments are recognized in Statement of Profit and Loss as other income when the Company's right to receive payment is established.

Changes in the fair value of financial assets at fair value through profit and loss are recognized in other gain/losses in the Statement of Profit and Loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

iv. Derecognition

A financial asset is derecognized only when

- (a) The Company has transferred the rights to receive cash flows from the financial asset or
- (b) Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

G. Cash and Cash Equivalents:

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and highly liquid investments with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

Cash flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from the operating, investing and financing activities of the Company are segregated.

H. Financial Liabilities:**i. Measurement**

All financial liabilities are recognized initially at fair value and in the case of loans, borrowings and payables recognized net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings.

ii. Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. Gains and losses are recognized in Statement of Profit and Loss when the liabilities are derecognized as well as through the Effective Interest rate (EIR) amortization process.

I. Foreign Currency Translation:

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The Indian Rupee (INR) is the functional and presentation currency of the Company.

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate at the date of the transaction. At each balance sheet date, foreign currency monetary items are reported using the closing exchange rate. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rate are recognized as income and expenses in the Statement of Profit and Loss, in the period in which they arise.

J. Revenue recognition:

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company assesses promises in the contract that are separate performance obligations to which a portion of transaction price is allocated.

Revenue from the sale of goods is recognized at the point in time when control of the asset is transferred to the customer, generally on the delivery of the goods and performance of services.

Contract balances**Contract assets**

A contract asset is the right to consideration in exchange for goods or services transferred to the customer e.g. unbilled revenue. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset i.e. unbilled revenue is recognized for the earned consideration that is conditional.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. Contract liabilities are recognized as revenue when the Company performs under the contract.

The Company considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price, the Company considers the effects of variable consideration, the existence of significant financing component, non-cash component and consideration payable to the customer like return, allowances, trade discounts and volume rebates.

Sales are disclosed excluding net of sales returns, service tax, value added tax and Goods and Service Tax (GST).

Other Operating Income includes Income from Telecommunication, Laundry Services, Spa Services, Travel Desk and income from other miscellaneous services.

i. Other Income:

Other Income comprises of gain or loss in Foreign exchange earnings, Interest Received, Dividend Received and Other Miscellaneous Income, if any. Interest income is recognized using the effective interest method. Dividend income is recognized when the right to receive payment is established.

K. Employee benefits:**i. Short-term obligations:**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employee's services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

**ii. Provident Fund:**

Contribution towards provident fund for employees is made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made on a monthly basis.

iii. Gratuity:

The Company provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

iv. Compensated Absences:

Entitlement of employees accumulating earned leave and eligibility of compensation or encashment of the same is also a defined benefit obligation and is treated as long term in nature in terms of the policies of the Company for the same. The value of obligation towards the same is provided for on the basis of actuarial valuation using projected unit credit method as at the balance sheet date. Actuarial gain / losses are immediately taken to the Statement of Profit and Loss and are not deferred

v. Terminal Benefits

All terminal benefits are recognized as an expense in the period in which they are incurred.

L. Borrowing costs:

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

M. Income tax:

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in India. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

Deferred income tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

N. Provisions and Contingencies:**i. Provisions**

Provisions for legal claims, product warranties and make good obligations are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Long-term provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money. Short term provisions are carried at their redemption value and are not offset against receivables from reimbursements.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

ii. Contingent Liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

iii. Contingent Assets

Contingent Assets are not recognised but are disclosed in the notes to the financial statements.

O. Earnings per Share:**i. Basic earnings per share**

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the company, excluding any costs of servicing equity other than ordinary shares.
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year.

ii. Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

P. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting to the Chief Operating Decision Maker "CODM" of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segment. The Company has monthly review and forecasting procedure in place and CODM reviews the operations of the Company as a whole.

Q. Exceptional items:

Certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company is such that its disclosure improves the understanding of the performance of the Company, such income or expense is classified as an exceptional item and accordingly, disclosed in the notes accompanying to the financial statements.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

There are no transfers between levels 1 and 2 during the year.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels at the end of the reporting period.

Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of the remaining financial instruments is determined using discounted analysis.

The carrying amounts of trade receivables, electricity deposit, employee advances, cash and cash equivalents and other short term receivables, trade payables, unclaimed dividend, borrowings, and other current financial liabilities are considered to be the same as their fair values, due to their short-term nature.

38 Financial Risk Management

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

(A) Credit risk

Credit risk is the risk that counter party will not meet its obligation under a financial instrument leading to a financial loss.
