4. OVERVIEW OF ECONOMY & PERFORMANCE OPERATIONS

Indian economy gave mixed signals during 2015-16, whilst GDP growth improved to about 7.5%, industrial growth remained sluggish. Some of the sectors, closely related to our Company's business, such as the Commercial Vehicle segment witnessed robust growth. However, the Farm Tractors segment showed negative trend. Unfavorable

developments in rural markets reflected in the demand of 2 Wheeler segment. Infrastructure growth remained at a moderate level. Indian exports declined by about 13% during the year owing to the global slow-down. On a positive note, the Indian Government announced implementation of several key projects related to Rail and Road Infrastructure. With decline in prices of Crude Oil and some other commodities, inflation in the country remained under control. The overall market environment for our Company's business was moderately positive.

The Company posted a total revenue of Rs. 188.40 Crores, representing a growth of 24% over the previous year. The manufacturing turnover increased by 7.2% to Rs. 118.20 Crores from Rs. 110.25 Crores in the previous year. This was achieved despite challenging market conditions, with a focused approach on OE & Domestic Aftermarket business.

Investment income during the year was substantially higher at Rs. 65.16 Crores, as against Rs. 40.01 Crores in the previous year. This was achieved with judicious deployment of funds in equity and other high yielding assets.

The gross profit of the Company increased by 47% from Rs. 36.20 Crores to Rs. 53.25 Crores. After considering interest of Rs. 0.22 Crores, depreciation of Rs. 6.53 Crores, the Profit Before Tax was Rs. 46.50 Crores and Net Profit after providing Tax of Rs. 7.40 Crores was Rs. 39.10 Crores.

Looking ahead, the Government's current thrust on infrastructure projects and rural development should bring back a positive investment cycle in the year 2016-17 and push the economy on a fast track growth. The Long term outlook for Indian economy is positive, although, the short-term scenario appears cautiously optimistic.

Our Company will strive to improve profitability and growth through a strategy of continued investment in capacity expansion and introduction of new products in its manufacturing business. In the Investment segment there may be pressure on account of declining interest rates and NPA challenges. The Company will continue to deploy its funds judiciously in high yielding assets, keeping capital protection in focus.

The Company participated at the Auto Expo 2016 at Pragati Maidan, New Delhi in February 2016. This is the largest exhibition for Automobile Show in Asia. The response from Domestic as well as International customers was encouraging.

The Company entered into a Long Term Settlement with the workmen at its Paithan Plant for a period of 3 years, effective from January, 2016.

After initial teething problems the production at the Company's Joint Venture viz. Compo Advics (India) Pvt. Ltd. is getting stabilized. However, in view of the highly competitive market conditions, the Company was unable to reach its desired level of production.

7. MANAGEMENT DISCUSSION AND ANALYSIS

7.1 OPPORTUNITIES, THREATS & BUSINESS OUTLOOK

Higher GDP growth, on the back of lower crude prices and stable inflation, have resulted in a boost to the Indian economy. The increase in Industrial output has benefitted the Company due to the increase in the demand of its products from the Commercial Vehicle segment.

The global scenario however remains uncertain with slowing growth rates in large economies like China, Brazil and Russia over-shadowing the signs of modest recoveries in economies like the U.S. The economic outlook in Europe remains uncertain, although India remains a bright spot in this overall scenario.

The improvement in our GDP Growth and the prospects of a

normal Monsoon in the current fiscal year is likely to benefit the Company on account of expected increase in out-put from the Automotive sector. A higher growth rate in the commercial vehicle segment, due to the expected increase in industrial activity and higher demand from the Farm Tractor segment because of increase in Agricultural out-put is likely to have a positive impact on the Company's performance.

The Company is geared-up to meet this anticipated increase in demand through investments made in the last year to increase its manufacturing capacity.

Whilst, the Company remains cautiously optimistic in its outlook for the current financial year, the possibility of higher inflation due to increase in crude & commodity prices might adversely affect its manufacturing costs.

Declining interest rates and the Company's cautious approach towards fund deployment, may affect investment income with lower yields.

7.2 RISKS AND AREAS OF CONCERN

The Company has laid down a well-defined Risk Management Policy covering the risk mapping, trend analysis, risk exposure, potential impact and risk mitigation process. A detailed exercise is being carried out to identify, evaluate, manage and monitoring of both business and non-business risk. ANNEXURE B REFERRED TO IN PARAGRAPH 2 UNDER THE HEADING “REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS” OF OUR REPORT OF EVEN DATE TO THE MEMBERS OF THE HINDUSTAN COMPOSITES LIMITED.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Hindustan Composites Limited (“the Company”) as of 31 March 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The

procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Group has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31st, 2016, based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
