MANAGEMENT DISCUSSION AND ANALYSIS

To,
The Members/Shareholders,

• **ECONOMIC REVIEW:**

After liberalization in 1991, India has increasingly adopted free market principles and liberalized its economy to international trade. The reforms largely favored industrial growth in country. Hence, the country's economic growth progressed at a rapid pace with relatively large increases in per capita incomes.

The global gross domestic product (GDP) in the year 2015-16 grew at tepid pace and is likely to be moderate in terms of the international events. However, India is better placed. This momentum is expected to be maintained in the coming year with the new government and pro-growth policies.

INDIAN GDP GROWTH

The long-term growth prospective of the Indian economy is positive due to its young population, corresponding low dependency ratio, healthy savings and investment rates, and increasing integration into the global economy. The Indian economy has the potential to become the world's 3rd-largest economy by the next decade, and one of the largest economies by mid-century. And the outlook for short-term growth is also good as according to the IMF, the Indian economy is the "bright spot" in the global landscape. India also topped the World Bank's growth outlook for 2015-16 for the first time with the economy having grown 7.6% in 2015-16 and expected to grow 7.7-8.0% in 2016-17.

• **INDUSTRY STRUCTURE AND DEVELOPMENT:**

The development of Indian security markets began with launch of Bombay Stock Exchange (BSE), Mumbai in July 1875 and Ahmedabad Stock exchange in 1894 and 22 other exchange in various cities over the years. India's two major stock exchanges, BSE and National Stock Exchange of India, had a market capitalization of US\$1.71 trillion and US\$1.68 trillion respectively as of Feb 2015, which ranks 11th & 12 largest in the world respectively according to the World Federation of Exchanges.

The Initial Public Offering (IPO) market in India has been small compared to NYSE and NASDAQ, raising US\$300 million in 2013 and US\$1.4 billion in 2012. The low IPO activity reflects market conditions as well as slow government approval process and complex regulations. The present government policy favors industrial development. The government has started adopting some new bold measures for the purpose of increasing capital raising activities both domestic and overseas. Before 2013, Indian companies were not allowed to list their securities internationally without first completing an IPO in India. In 2013, these security laws were reformed and Indian companies can now choose where they want to list first — overseas, domestically, or concurrently. Further, security laws have been revised to ease overseas listings of already listed companies, to increase liquidity for private equity and international investors in Indian companies.

The government also introduced new Companies Act, 2013 which will make the working of companies more transparent and thus improve the confidence level of all stakeholders' community dealing with the company.

During the year under review, SEBI notified SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 which became applicable to listed companies w.e.f. 1st December, 2015. The said regulations would consolidate and streamline the provisions of existing listing agreements for different segments of the capital market.

• **OPPORTUNITIES AND THREATS:**

The company had initiated recovery proceedings against its past dues. There is huge delay in recovering the dues from them due to slow and pro-defendant legal system. However the company has implemented the action plan for speedy recovery of dues from its defaulters. The company does not have powers like Bank under various legislations. The Indian financial markets are stable and the company is sure to get benefits of the overall economic growth environment. The company is exploiting opportunities in the capital market and investment banking.

• **SEGMENT WISE PERFORMANCE:**

The company operated in two major segments of consulting and investments. The capital raising activity is on recovery stage. The recovery proceedings are going on in a lawful manner. The capital market consulting activity continued at slow pace and the investments have fared better in line with growth of the economy.

• **OUTLOOK:**

The economic outlook of the Country seems to be very bright. The new government is very positive and has taken many bold initiatives to strengthen the economic position of the country. The industrial growth in the country prerequisites raising of finance through capital market. The recent initiatives undertaken by the government are very conducive to raising of capital activities in the country. Therefore, the company is optimistic about the recovery of Indian economy and the capital market.

• **RISKS AND CONCERNS:**

The company has taken suitable steps to overcome the risks of the market and the economy as capital markets are uncertain to predict for medium to long term.

• **INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:**

The company has implemented proper system for safeguarding the operations/business of the company, through which the assets are verified and frauds, errors are reduced and accounts, information connected to it are maintained such, so as to timely completion of the statements.

The Company has adequate systems of Internal Controls commensurate with its size and operations to ensure orderly and efficient conduct of business. These controls ensure safeguarding of assets, reduction and detection of fraud and error, adequacy and completeness of the accounting records and timely preparation of reliable financial information. The company has internal audit and verification at regular intervals.

The requirement of having internal auditor compulsory by statute in case of listed and other classes of companies as prescribed shall further strengthen the internal control measures of company.

• **DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE.**

The financial performance of the Company for the financial year 2014-16 is described in the Directors' Report under the head "Financial Performance".

• **MATERIAL DEVELOPMENTS IN HUMAN RESOURCES AND INDUSTRIAL RELATIONS FRONT:**

The cordial employer- employee relationship also continued during the year under the review. The company has continued to give special attention to human resources / industrial relations development. Industrial relations remained cordial throughout the year and there was no incidence of strike, lockout etc.

• **DISCLOSURE OF ACCOUNTING TREATMENT**

During preparation of financial statements during the period under review, no accounting treatment which was different from that prescribed in the Accounting Standards was followed.

• **CAUTIONARY STATEMENT:**

Statement in this management discussion and analysis report, describing the company's objectives, estimates and expectations may constitute "forward looking statements" within the meaning of applicable laws or regulations. Actual results may differ materially from those either expressed or implied.

The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

“Annexure B” to the Independent Auditor’s Report of even date on the Standalone Financial Statements of Mehta Integrated Finance Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Mehta Integrated Finance Limited (“the Company”) as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.
