ECONOMIC SCEANERIO

The year 2009-10 proved to be a year of global economic resurgence. The global economy, after faltering due to recession during 2008-09, witnessed an improvement mainly on account of infusion of stimulus funds by various countries. China and India led the recovery from the front, on account of huge domestic demand and continued thrust on infrastructure creation, further propelling demand within the core sectors.

India enjoys a strong domestic demand that bolsters a robust economic outlook. India's economy is estimated to grow by 8.5% in 2010-11, up from 7.2% in 2009-10 and 6.7% in 2008-09. Economic growth prospects are expected to improve significantly in fiscal 2011 as the private sector demand - both consumption as well as investment - begins to pick up.

The causes of concern are declining consumption expenditure by the Government, likely hit on exports if the crisis in Europe drags on or the rising food inflation. Barring any problems caused by the Country's fiscal vulnerability, growth is expected to strengthen in subsequent years as it will continue to reap the benefits of the ongoing opening up of the economy and gradual improvements in infrastructures.

INDUSTRY STRUCTURE AND DEVELOPMENT

Indian economy is going through a period of rapid 'financial liberalisation'. Today, the 'intermediation' is being conducted by a wide range of financial institutions through a plethora of customer friendly financial products. The segment consisting of NBFCs, such as equipment leasing/hire purchase finance, loan and investment companies, etc. have made great strides in recent years and are meeting the diverse financial needs of the economy. These NBFCs provide a variety of services including fund-based and fee-based activities and cater to retail and non-retail markets and niche segments. They are being recognized as complementary to the banking sector due to their customer-oriented services, simplified procedures, attractive rates of return on deposits, flexibility and timeliness in meeting the credit needs of specified sectors.

IGFL, headquartered in Kolkata, is one of West Bengal's leading non-banking financial companies having diversified interests in the financial services sector. IGFL

today has emerged as a strong & reliable player in a fiercely competitive market of financial services.

FINANCIAL & BUSINESS REVIEW

The Company's operations continue to be mainly focused in the areas of NBFC activities - Financing, Inter- corporate Investments & Capital Market activities.

In-spite of limited resources, our Company has out performed in almost every facet for vibrant increase of interest income and profit in this fiscal year. Our aggregate loan disbursement portfolio has more than doubled to Rs.5283 Lacs during F.Y. 2009 - 10 in comparison to Rs. 666 Lacs in F.Y. 2008-09; leading to interest revenues to a high of Rs.251.96 Lacs in F.Y. 2009-10 as against of Rs.7.83 Lacs in F.Y. 2008-09. However, the overall turnover was impacted on account of lower trading activities of shares.

Profit after tax (PAT) of IGFL has grown by 323% to Rs. 100.71 Lacs as against Rs.23.80 lacs in F.Y. 2008-09 resulting in an absolute increase of Rs.76.91 Lacs.

IGFL has been able to bring in higher operating efficiencies within the company based on the understanding and strength of our superior knowledge of local markets and efficient, proactive and conservative approach.

FUTURE OUTLOOK

IGFL is currently engaged in NBFC activities & Financial Management and Advisory Services. The Company intends to continue focusing on NBFC activities including financing, Inter- corporate Investments & Capital Market activities.

At the same time the company has plans to expand its business by offering a wide array of financial products and services. Apart from financial products, IGFL also plans to

foray into wind-energy generation/ power sector in the near future to diversify its product portfolio.

Looking at ample growth opportunities, the management via their board meeting dated 22nd March'2010 has approved to bring strategic investors into the company by way of scheme of arrangement. This would infuse fresh capital into the company to fuel upcoming growth prospective. However, the matter is still pending for various regulatory & share holder's approval.
