THE MANAGEMENT DISCUSSION AND ANALYSIS REPORT

ECONOMIC SCENARIO

India's revised GDP growth rate stands revised upwards at 5.1 percent from 4.7 for FY13 and 6.9 percent from 5.0 percent for FY14. This year's Economy Survey suggests that GDP growth for FY15 is likely to be 7.4 percent. In FY 16, the growth rate is likely to go up further to anything between 8.1 - 8.5 percent making India's growing large economies.

The expected high growth rate in the coming year in the favorable economic environment has created a historic movement of opportunity to propel India into a double-digit growth trajectory. It gives an opportunity to the increasingly young, middle-class and aspirational India to realize its full potential. As the new Government has presented its first full year budget, the Economic Survey states that it appears that India has reached a sweet spot and that there is a scope for Big Bang reforms now.

According to World Bank, Global GDP growth in 2014 was lower than initially expected, continuing a pattern of disappointing outturns over the past several years. Growth picked up only marginally in 2014, to 2.6 percent, from 2.5 percent in 2013. Overall, global growth is expected to rise moderately, to 3.0 percent in 2015, and average about 3.3 percent in 2016.

Going forward, the Indian economy in 2014-15 has emerged as one of the largest economies with a promising economic outlook on the back of controlled inflation, rise in domestic demand, increase in investments, decline in oil prices and reform among others.

INDUSTRY STRUCTURE AND DEVELOPMENT

Non-Banking Financial Companies (NBFCs) constitute a heterogeneous lot of privately-owned, small-sized financial intermediaries which provide a variety of services including equipment leasing, hire purchase, loans, investments and chit fund activities. These companies play an important role in providing credit to the unorganized sector and to the small borrowers at the local level. The Banking sector has always been highly regulated, however simplified sanction procedures, flexibility and timeliness in meeting the credit needs and low cost operations resulted in the NBFCs getting an edge over banks in providing funding.

The Make in India campaign, government's initiative on bringing regulatory reforms to facilitate ease of doing business in India, thrust towards growth of infrastructure sector and financial inclusion will also demand NBFCs to shoulder the growth and development phase, India is seemingly walking into.

FINANCIAL & BUSINESS REVIEW

IGFL is an independent credit institution offering debt financing solutions and highly structured trades to customers in a diverse set of industries. IGFL's portfolio is well aligned with the rising growth opportunities in India's financial system. It provides solutions for credit needs ranging from project and capital expenditure funding, long-term working capital & special situations.

Being a NBFC the Company's operations continue to be mainly focused in the areas of Financing, Inter-corporate Investments & Capital Market activities. Thus, given the bleak economic environment IGFL continued its cautious approach towards expanding its loan portfolio to avoid generation of any nonperforming assets. This helped us improve our interest income to Rs 835 lacs from Rs 463 Lacs.

The company decreased its commodity transactions & increased share purchase during the volatile period. Overall profits were impacted by share business segment. The share business has been stabilized & should give good returns next year. The net profit of the company has increased to Rs. 25.53 Lacs in 2014-15 as compared to 14.16 lacs in 2013-14.

IGFL has been able to bring in higher operating efficiencies within the company based on the understanding and strength of our superior knowledge of local markets and efficient, proactive and conservative approach.

FUTURE OUTLOOK

In 2014-15, NBFCs have proven their mettle in many other specialized financial services such as factoring, lease finance, venture capital finance, financing road transport and also in the business of securities-based lending such as Loan against Shares, Margin Funding, IPO Financing, Promoter Funding etc. They have also been providing a major boost to Micro, Small and Medium enterprises and other avenues where banks exercise cautious lending. All the above factors further emphasize the potential and opportunities in store for NBFCs and the regulations when designed to provide the right environment, provides impetus to the growth of the sector.

The markets will continue to grow and mature leading to differentiation of products and services. Each financial intermediary will have to find its niche in order to add value to consumers. Your Company is cautiously optimistic in its outlook for the year 2015-16.

IGFL hence wishes to diversify its lending activities in the coming period and shall embark on this path and move forward once the existing investments, which are at an incubating stage begin to bear fruits.

Also, you are aware that your Company has established its presence in Mumbai & Jaipur to expand nationally for the further growth of the company.

In the upcoming years, IGFL will strive to be one of the top financial services businesses in India focused on delivering superior customer experience through class leading services and competitive products while providing consistent and superior returns to the company's shareholders and at the same time maintaining the high levels of integrity.
