CHAIRMAN'S LETTER

October 27, 2017

Dear Shareholder,

The past year has been one of positive progress, with the completion of the Joint Ore Resources Committee, Australia (JORC) compliant Feasibility Study by Snowden and reporting a robust project and positive decision to develop the Ganajur Gold Project .

On the other hand, the delay in receiving the Letter of Intent (LoI) has understandably caused much anxiety for shareholders but owing to the clear legal standing, I remain confident that the LoI will ultimately be issued. In the meanwhile, significant progress has been made in regards to the required preparation to build the Ganajur mine.

Feasibility studies have increased the level of confidence in the Ganajur gold mineralisation with bulk of the resource being upgraded to mineable proved category reserves as per JORC Standards. The financial model has indicated net cash flows of USD 133 million before tax over the life of the mine. The Net Present Value (NPV) at 5% DCF is USD 91.6 M and USD 61.4 M before and after tax respectively at a gold price of USD 1250 per ounce. The Internal Rate of Return (IRR) is a very healthy 39.1% and 29.6% before and after tax respectively, and the payback period for the Project is 2.7 years. Financial analysis has also indicated that Ganajur Project can break even at a price of just 700 USD per ounce.

These numbers are very exciting for any gold project and as Chairman of the Company I would like to remind shareholders that Ganajur is a robust gold mining project that would often be referred to as a 'company maker'. Most successful gold mining companies in jurisdictions such as Australia, started with an open pit mine similar in size to Ganajur. It is the engine that will drive the subsequent development of our other valuable assets in the Hutti Greenstone Belt and other areas. The Ganajur cash flows will enable us to drill and prove up these other world-class gold targets.

I would also like to inform the shareholders that Deccan has made serious progress in the field of infrastructure which will be critical in commissioning of the project. We have progressed in land acquisition process, water, power and getting permission from Railways. We are also in the process of getting environmental clearance for the processing plant.

We have a strong technical team that through the undertaking of the Feasibility Study, has strengthened its detailed knowledge of the Ganajur project although, we must continue to build on this with the addition of mining and processing specific expertise to ensure efficient and successful implementation of the project.

I would like to remind shareholders that I am continually lobbying and advocating at various political levels directly, as well as through various industry bodies, in terms of the much required changes to the Mining Act and associated Policy. I am led to believe that the Government is seriously considering revisiting some of the areas that would help boost the exploration industry and although we must remain cautiously optimistic, I will continue to advocate strongly for the industry's best interests.

In spite of the regulatory delays, Deccan remains resolute, with an incredibly robust and much sought after portfolio of gold projects. Deccan remains well placed to become a major Indian gold miner and I hope the shareholders can appreciate that although we await the LoI, significant progress has been and continues to be made in regards building India's first private sector gold mine.

Yours truly

Charles E.E. Devenish

Independent Non-Executive Director

K.R. Krishnamurthy is a well known Mining Engineer, practising as a consultant since 1990. He is B.Sc., Chartered Engineer (from Institute of Engineers (India)) and holds a Diploma in mining & First Class Mine Managers Certificate of Competency with over five decades of experience in the mining sector. Earlier he has worked for Kolar Gold Mining Undertakings in Kolar Gold Fields, Indian Copper Corporation Limited, Chitradurga Copper Company Limited and Ashanti Gold Fields Corporation Limited (Ghana, West Africa). He is a mining consultant and advises many mineral based industries in India and abroad.

Ms. PRATIMA RAM

Independent Non-executive Director

Pratima Ram graduated from the University of Virginia, USA and Bangalore University. She is an experienced banker with three decades in corporate, international and investment banking and has held the position of Chief General Manager and Country Head of United States operations of State Bank of India and prior to this she was the CEO of the South African operations of the Bank. At SBI Capital Markets, Pratima led the Corporate Advisory, M&A, & Project Appraisal businesses. While at SBI, she also headed the Diamond Financing business of the Bank. She later joined the private sector in the infrastructure space as Group President, Finance, at Punj Lloyd Group which has diversified operations in more than 15 countries. Till recently she was the CEO of India Infoline Finance Ltd, an NBFC focused on lending to small businesses, real estate and health care sectors. She is now Advisor to India Infoline Finance Ltd. She has held Board positions in SBI California Ltd, USA and India Infoline Finance Ltd, Mumbai.

PROF VINOD KUMAR GAUR

Independent Non-executive Director

Prof. Gaur is an eminent geoscientist. He is holder of Doctorate of Philosophy from University of London. He is a former Director of the National Geophysical Research Institute, Professor at Professional University of Roorkee and the Indian Institute of Astrophysics. He has also been Secretary to the Government of India between 1989-96.

KEY PERSONNEL

S.C.R.PESHTWA, FGS (LOND), MGS (SA)

Exploration Director

Peshwa has nearly 32 years of experience as a mining and exploration geologist and specializes in gold exploration and resource modeling. He worked as a Mining & Exploration Geologist for 13 years with Bharat Gold Mines Limited. He has the distinction of working in the world famous Champion Reef Mine and carried out detailed exploration of Champion lode system both in deep and shallow levels. This has resulted in delineating new parallel lodes of the Champion Lode system. From 1996 to 2002 he worked as a Project Manager with ACC Limited and was involved in exploration of gold and other minerals. He successfully carried out gold prospecting in the Red Sea hills region of Sudan. Mr. Peshwa is responsible for the development of DGML's Gold Projects and has implemented different exploration methods as per international standards including QA/QC programmes. He has international exposure for different styles for gold mineralization. Being a Fellow of Geological Society of London and Member of Geological Society of South Africa qualifies him as a competent person as defined by the JORC Code. Mr. Peshwa is also an RQP (Recognition as Qualified Person) awarded by Indian Bureau of Mines.

JOHN FODOR

Process Engineer

John has twenty five years of metallurgical operations experience, five years of study management and six years as a technical advisor.

Highlights of his career include:

- Commissioning and start-up of gold process plant facilities – this involved preparation and implementation of SOP/STP's, business readiness operational plans, project management of capital projects, preventative maintenance and shutdown planning / optimization, process plant debottlenecking / optimization and process circuit / equipment commissioning
- Study Management – Scoping through to definitive Bankable feasibility studies, financial modeling
- Technical – Gold and silver metallurgy, crushing and grinding circuit design and operational optimization, geo-metallurgical modelling, development and supervision of metallurgical test work programs

John holds a B.Sc Degree in Metallurgy and is a Fellow of the Australian Institute of Mining and Metallurgy (AusIMM).

K. KARUNAKARAN

Chief Finance Officer

Karunakaran is a Certified Management Accountant from CMA (Australia) and also holds a Diploma in Management Accounting from CIMA, UK. He has a Masters Degree in Commerce. He possesses nearly three decades of experience in the field of Finance, Accounts and Audit and has worked in organisations in India and abroad. He has got wide experience in matters relating to Indian corporate laws, Banking matters and taxation. Apart from working in reputed corporates in India, Karun worked for 5 years in one of the leading multi divisional company in Sultanate of Oman – Muscat, in the internal audit department and advised management on methodologies to strengthen their internal control systems.

DECCAN GOLD MINES LIMITED

S. SUBRAMANIAM

Head-Legal & Company Secretary

Subramaniam is an Associate Member of Institute of Company Secretaries of India and a Chartered Management Accountant from CIMA, UK. Also holds a Law Degree from Bangalore University. He has 19 years of experience in the field of Company Law and other corporate laws. During his career, he has handled corporate restructuring exercises including mergers / demergers, amalgamations, joint ventures, foreign collaborations, fund raisings & listing of securities on domestic and foreign stock exchanges. He is in charge of the corporate legal and company secretarial matters and also functions as the Compliance Officer of the Company.

Dr. S.B. HARISH KUMAR

Exploration Manager

Harish has nearly 18 years of experience in mineral exploration, particularly in the States of Karnataka, Andhra Pradesh, Tamil Nadu and Kerala. He was a key member of the exploration team of DGML involved in the discovery of Ganjaur gold deposit. Since then he has been actively involved in the exploration and development of the Ganajur gold project at all stages, including, geological mapping, ground geophysical surveys, execution of drilling programmes, Scoping studies, EIA and EMP studies etc. Besides, he has also been involved in the exploration of Mangalagatti and Bhavihal prospects of DGML.

RAJEEV P. HANAMASAGAR (M.SC IT)

GIS - IT Manager

Rajeev has 12 years of experience in Mining and GIS software and its applications to geological and mineral exploration programs. He has developed expertise in generating maps on GIS platform to international standards.

REPORT ON EXPLORATION ACTIVITIES

GANAJUR MAIN GOLD PROJECT

(1) BACKGROUND INFORMATION

This Project area forms part of Archaean Western Dharwar Craton in the State of Karnataka. Deccan Exploration Services Private Limited (DESPL), a 100% subsidiary of Deccan Gold Mines Limited (DGML), explored an area of 5000 sq km of the Dharwar-Shimoga Greenstone belt covered under 2 RP blocks resulting in identification of 22 gold prospects (Fig-1 and 2). Gold mineralization in all the prospects is hosted within sulphidic banded ferruginous chert. Prospects around Dharwar towards North (Dharwar Cluster) and Haveri in the South (Ganajur-Karajgi Cluster) are considered as significant discoveries.

DESPL submitted a total of Seven (7) Prospecting License (PL) and two (2) Mining Lease (ML) applications, covering all the important prospects of Dharwar-Shimoga basin. All these applications are in compliance with the provisions of Mines & Minerals (Development & Regulations) Act 1957 (MMD&R) Act amended by the Government of India in March 2015. Thus these PL and ML applications of DESPL remain valid and are expected to be granted as per the regulations.

Ganajur Main Gold deposit is a discovery of DESPL as a result of systematic exploration carried out under RP and PL stages. Exploration carried out under different phases as per the international norms resulted in overall value addition of the whole Ganajur-Karajgi cluster in general and Ganajur Main Gold Deposit in particular. Gold resources were also estimated in two other satellite prospects viz Ganajur SE and Karajgi Main prospect. The exploration data generated so far revealed that this block is a major mineral corridor with potential to host significant resources of gold.

Ganajur-Karajgi cluster is part of Ranibennur group of the late Archaean-Dharwar-Shimoga greenstone belt in the western Dharwar Craton. Gold mineralization in the area is hosted within sulphidic BIF's.

DESPL's Mining Lease application over an area of 0.29 km² covering the Ganajur Main Gold Deposit in Ganajur village (Fig-7), Haveri Taluk and District in Karnataka was approved by the Ministry of Mines, Government of India vide letter No. 4/113/2010-MIV dated 24th July 2015.

It may be noted that the Ganajur ML file was initially recommended by the State Government of Karnataka to the Ministry of Mines, Government of India (MoM) way back in 2010 and various issues have been raised by multiple Government authorities over time, all of which were successfully resolved resulting in the MoM's prior approval under Section 5(1) of MMDR being granted in July 2015. However the State Government of Karnataka introduced a new system of Standard Operating Procedures (SOP) for processing all mineral concession applications awaiting approval. As a result of this new system, issue of grant notification / Letter of Intent for Ganajur Mining License was delayed in order to ensure compliance with the internal checklists prepared by the State Government. The Department of Mines & Geology (DMG) prepared the SOP as per the prescribed format and the same was forwarded to the State Government.

In the meantime the Ministry of Mines in its letter to the State Government dated February 7, 2017 clarified that its prior approval was under Section 10A(2)(b) of MMDR. In this latest letter, MoM also advised the State Government of Karnataka to get the Mining Lease executed in accordance with law at the earliest and to expedite the clearances and approvals for starting the mining operations. Vide its letter dated March 20, 2017 the Commerce and Industries Department (C & I) forwarded the above noted MoM's letter to DMG seeking its comments thereon. The DMG's response was forwarded to the C & I during June, 2017 for further action.

Now we have been informed that the C & I as a matter of adequate precaution, propose to refer the file to the Law Department, Government of Karnataka for its opinion for confirmation that the Ganajur ML application is in compliance with the relevant Rules & Regulations of Mines and Minerals (Development & Regulation) Act, 1957 ("MMDR") and that due processes have been followed in the processing of the file. The Company is waiting for the final grant order/Letter of Intent (LoI) from the State Government of Karnataka.

FEASIBILITY STUDIES FOR GANAJUR GOLD PROJECT:

DGML appointed an internationally reputed Geological and Mining Consultant Snowden Mining Industry Consultants (Snowden) based in Perth for undertaking bankable feasibility studies (FS) for the Ganajur Gold Project of its subsidiary Deccan Exploration Services Private Limited (DESPL).

A feasibility study is an evaluation of a proposed mining project to determine whether the mineral deposit can be mined economically and whether to definitively proceed with the project. Snowden has demonstrated the economic viability of the project and submitted a revised Mineral Resource estimates and Ore Reserves. The Australasian Code for Reporting of Exploration Results ('the JORC Code') 2012 Edition was used to identify economic Mineral Resources and Ore Reserves. DESPL has concluded that based on study inputs and outcomes, the Ganajur Gold mine is an economically attractive and robust project that can be developed into a viable gold producing operation. DESPL is seeking to establish an open pit gold mine and 0.3 million tonnes per annum (Mtpa) processing plant at Ganajur in Haveri District.

DECCAN GOLD MINES LIMITED

HIGHLIGHTS OF FS:

The FS has taken approximately 11 months to prepare. The document encompasses an elaborate study of every discipline required to take the Ganajur Gold Mine into production. The FS covered the following disciplines in a comprehensive manner. Several experts, both in country and abroad were heavily involved in completion of the FS as per International Standards. FS covered the following studies in detail:

- Introduction to the Project
- Geology and Mineral Resource estimates
- Metallurgical testing and recovery
- Process and plant description
- Mining engineering and Ore Reserve estimates
- Surface geotechnical and tailings disposal
- Project infrastructure
- Marketing information on gold production
- Geochemistry
- Hydrogeology and Hydrology
- Environmental studies, permitting and social or community impact
- Cost analysis
- Economic analysis
- Risks and Opportunities
- Recommendations
- Interpretation, development and conclusions

The full FS report has been uploaded on the DGML website, www.deccangoldmines.com. Key outcomes of the FS is summarized below:

GEOLOGY AND MINERAL RESOURCE ESTIMATE:

Snowden processed the entire exploration data and a revised resource model was prepared. Based on the revised resource model, Snowden estimated a Mineral Resource for the Ganajur Main Gold deposit as per JORC 2012 (Table-1). Pursuant to this estimate, the overall gold Mineral Resource under Measured and Indicated Resource categories was 300,000 ozs, with an increase in the Inferred Resource category by about 9,000 ozs of gold, as compared to the scoping study Mineral Resource estimates provided by SRK (Geological & Mining Consultants) in 2012. Snowden has expressed its satisfaction at the overall QA/QC procedures adopted by DESPL. Please refer to the paragraph headed "Up gradation of Mineral Resources to Ore Reserves" wherein the quantum of up gradation has been provided.

Table 1 - Mineral Resource estimate

Classification	Deposit	Tonnes (Mt)	Grade Au (g/t)
Measured	Oxide	0.58	2.8
	Sulphide	1.70	4.0
	Total Measured	2.30	3.7
Indicated	Oxide	0.13	1.9
	Oxide	0.13	1.9
	Sulphide	0.32	2.1
	Total Indicated	0.45	2.1

	Oxide	0.10	2.3
	Sulphide	0.11	2.3
	Total Inferred	0.21	2.3

Fig-4 : Ganajur Open Pit Mine Layout.

UP GRADATION OF MINERAL RESOURCES TO ORE RESERVES:

Snowden has estimated 2.14 million tonnes (Mt) @ 3.63 grams per tonne (g/t) gold as Proved Ore Reserves, and 0.37 Mt @ 1.98 g/t gold as Probable Ore Reserves for the Ganajur Main Gold Deposit (Table 2), thereby identifying the maiden mining inventory on the new Mineral Resource Estimates of August 2016. It is to be noted that out of 300,000 ozs of gold estimated under Measured and Indicated Resource categories, 273,000 ozs are now placed under Proved and Probable Ore Reserves; Measured Resource has been upgraded to Proved Ore Reserves, while Indicated Resource has been upgraded to Probable Ore Reserves. Proved Ore Reserves account for 85% of the total Ore Reserves, which is a significant milestone for Ganajur Gold Project.

Table 2- Summary of Ore Reserves

Classification	Deposit	Tonnes (Mt)	Au (g/t)
Proved Ore Reserve	Oxide	0.568	2.76
	Sulphide	1.567	3.94
Total Proved Ore Reserve		2.135	3.63
Probable Ore Reserve	Oxide	0.122	1.78
	Sulphide	0.250	2.08
Total Probable Ore Reserve		0.372	1.98
Total Ore Reserve		2.506	3.38

FINANCIAL ANALYSIS:

The financial model demonstrates net cash flows of USD 133 million (M) before tax over the life of the mine (LOM). The Net Present Value (NPV) at 5% DCF is USD 91.6 M and USD 61.4 M before and after tax respectively. The Internal Rate of Return (IRR) is a very healthy 39.1% and 29.6% before and after tax respectively, and the payback period for the Project is 2.7 years. The gold price used for the above calculations is USD 1250 per ounce (oz).

The key inputs and the results of the financial analysis are presented in the following Tables 3 to 6.

Capital cost:

The total pre-production capital cost for the Project is USD 46.6 M. CPC Project Design Pty Ltd (CPC), Perth, completed the engineering design for the processing plant, related infrastructure and estimated the total capital cost for the Project. Summary of significant capital costs have been noted in the table below (Table 7).

Table 7 – Significant capital cost summary

Description	USD M
Mining	0.874
Process plant	19.028
Process plant infrastructure	5.043
Infrastructure plant and equipment	4.284
Construction indirects	2.153
Indirect costs	14.961

Break Even:

A break even analysis after taxation was undertaken on the gold price and gold grade for NPV₅ (Table 8). The analysis shows that the Project breaks even at a gold price of USD 701/oz of gold and gold grade of 1.90 g/t as compared to the average gold grade of 3.4 g/t at Ganajur Main Gold deposit.

Table 8 - Break even analysis

Item	Unit	Breakeven
Gold price	USD/oz Au	701
Gold grade	g/t Au	1.90

Tailings Storage Facility (TSF):

The Ganajur Gold Project infrastructure will include a TSF, a return water dam, storm dam and other surface water management measures (Fig-5). The TSF is proposed to be located immediately north of the Processing Plant. Prime Resources (Pty) Ltd, who specialize in environmental engineering and TSF design and are based in South Africa, issued a final recommendation for the selection of an upstream TSF design. The key criteria for the

Fig-5 : Ganajur Gold Project- Plant Site & Mine Site Lay out

selection of the TSF construction and operation methodologies included a cost-effective solution, environmentally acceptable practices, maximum water conservation and minimum land use. The site selection was influenced by the required storage capacity and footprint, construction and development methods, local structural geology and topography, land ownership, rehabilitation requirements and existing significant surface infrastructures and features. In addition, detailed geo-mechanical laboratory testing and geotechnical investigations were undertaken in the infrastructure and TSF area that supported the TSF design criteria.

Earlier Scoping study:

The FS is a major improvement in terms of Project economics over the scoping studies completed by SRK in 2012 and demonstrates the potential for even better results. The total NPV post tax is 61.4 MUSD as against 37.39 projected by SRK. Similarly the breakeven gold price as per FS is 701 USD/oz as against 850 USD/oz estimated by SRK.

PROGRESS MADE ON THE INFRASTRUCTURE FRONT**Land Acquisition:**

The Karnataka State Government, through a Government Order (GO), approved on 28th April 2012 the allotment of 200 acres of land for the Ganajur Main Gold Mining and Ore Processing Plant that facilitated land acquisition process through Karnataka Industrial Areas Development Board (KIADB). DESPL had submitted an application to the KIADB on 25th March, 2013 and has also obtained the consent of more than 85% of land owners to comply with the land acquisition procedure.

KIADB processed the application for 200 acres of land and then issued a demand letter asking DESPL to remit 40% of the tentative land cost along with board charges. After payment of this deposit, KIADB will issue primary notification under Sections 3(1), 1(3) and 28(1) of the KIAD Act, 1966 to the Govt. in Commerce & Industries Department for approval.

The recent feasibility studies completed by Snowden recommended acquiring an additional 55 acres of land in the processing plant area and Tailings Storage facility. Thus as per the revised land use pattern of the various facilities of the Project, a total of 255 acres of land will be required. DESPL immediately applied for the additional 55 acres of land with the Karnataka Udyog Mitra on 27-7-2017. Our application was considered by the Land Audit Committee and the State Level Single Window Clearance Committee (SLSWCC) on 28-7-2017. **Our proposal for the allotment and acquisition of additional area of 55 acres (total 255 acres) through KIADB was approved by the SLSWCC vide Order No CI 146 SPI 2012m Dated 09-08-2017.**

Water for Plant and Mine:

It is proposed to pump water from the Varada River, which flows at a distance of 6.5 kms. north of the gold ore processing plant for its water requirement of the project. The Karnataka State High Level Clearance Committee (SHLCC) has approved the drawing of 3000 KLD of water from the Varada River for the Project from the Koluru-Kalasur barrage (Fig-6). The abandoned quarry near the process plant area will be part of the raw water storage facility. DESPL has since submitted a proposal to the Secretary, Water Resource Department, and Government of Karnataka in Bangalore for pumping around 1.08 million cubic meters (mm^3) of water per annum. We have received a letter from the Water Investigation Department (WID), Dharwad, dated 4th April 2017, to submit a checklist along with our proposal and this has been submitted. Accordingly, the Assistant Executive Engineer completed the field inspection and forwarded the file to the Chief Engineer, Water Resources Development Organisation (WRDO), Bangalore on 30-06-2017. The file was sent Hydrology department for obtaining the quantity of water available at the proposed pumping station. Hydrology Department have forwarded their recommendation to the WRDO for further action.

DECCAN GOLD MINES LIMITED

POWER FOR PLANT AND MINE:

The Karnataka Power Transmission Corporation Limited (KPTCL) approved our application for the drawing of 5MW on the 110 KV power line vide letter dated 01-02-2017 under self-execution scheme. The high tension (HT) 110 kilovolt-amperes (kVa) power will be tapped from Basavanakatti Sub-station located at a distance of 7.0 kms from the processing plant site. A work order was issued on 4th May 2017 to conduct the preliminary, detailed power line survey and also to obtain the KPTCL approval of the survey. In this connection, we appointed an electrical contractor authorized by KPTCL to undertake the preliminary survey, geotechnical investigation and prepare the feasibility report for the power line. The survey has been completed and the contractor has submitted the feasibility study report which was then forwarded to the KPTCL for further action.

Based on the feasibility report, a letter was received from Executive Engineer (Elect.) KPTCL Hubballi office on 17-07-2017 to remit the supervision charges for the preliminary survey and the same has been remitted on 19-07-2017. Awaiting further processing from KPTCL office.

Railways:

DESPL has filed an application with the Divisional Railway Manager, South Western Railway (SWR), Mysore for obtaining permission for laying a water pipe line below Bengaluru-Pune Broad Gauge line on SW railway near Ganajur village. This water pipe will be for drawing water from Varada River to the Project site (Fig-7). The SWR authority completed the field verification and feasibility of our proposal. We also received a letter from SW railway, Mysore Divisional office advising us to remit ₹ 1.90 lakhs towards Way leave charges for 10 years. We have remitted the same on 4.9.2017.

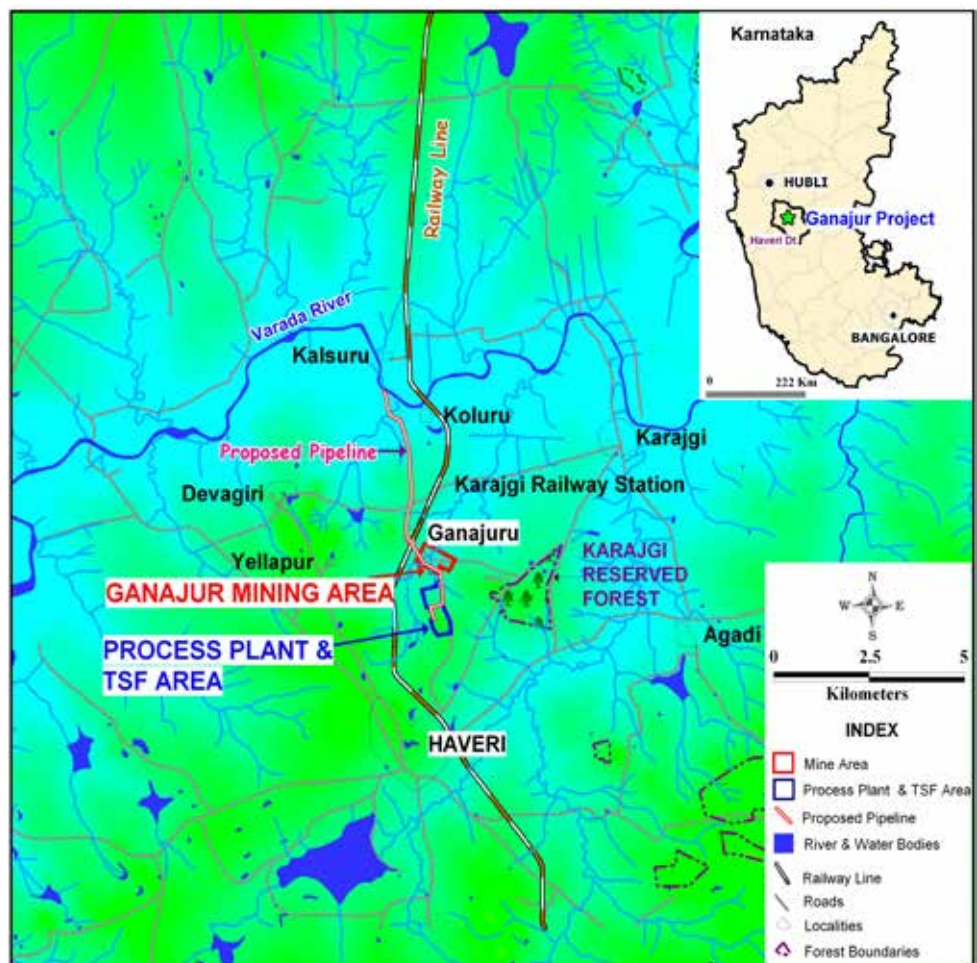

Fig-7 : Ganajur Gold Project Location, Haveri Taluk & District, Karnataka.

Approval for Amendment to Terms of Reference by the Ministry of Environment and Forests (MOEF)

It may be recalled that DESPL's application for TOR was granted for the project vide letter no. J-11011/03/2016-IA. II (I) Dated 07.04.2016.

The recent Feasibility studies by Snowden recommended certain modifications to the process design, flow sheet, tailing storage facility (TSF), water storage dam and ROM pad. The key criteria for the selection of the TSF construction and operation methodologies included a cost-effective solution, environmentally acceptable practices, maximum water conservation and minimum land use. Consequent to the new TSF design, the overall land footprint has increased from 38.45 Ha to 56.67 Ha to accommodate the above recommendations.

Due to the changes in the process flow sheet, TSF design and overall increase in land use we applied for an amendment of the TOR to the MOEF. We attended the Expert appraisal Committee (EAC) meeting called by the MOEF on 11th August 2017 at Delhi and presented our justification for the amendment. The EAC approved our proposal and our application for the amendment to the TOR. Now the MOEF has issued a revised TOR for 255 (56.67 Ha) acres.

The draft EIA/EMP report is being finalized and would be submitted to the Karnataka State Pollution Control Board before conducting the Public Hearing.

Discussion with Engineering Companies:

DGML has held several rounds of discussion with a number of Engineering companies for EPC (Engineering, Procurement and Construction) contract for the construction and commissioning of the processing plant and related infrastructure. Awarding the contract is an elaborate process which begins with invitation for Tender from potential contractors.

Similarly the company is also in talks with many reputed mining contractors for undertaking the mining operation at Ganajur Main ML. Discussions are already being held with contractors for erection of power lines and also with contractors for laying water pipes from Varada River to the raw storage tank and for installation of jack well near the river.

EXPLORATION REPORT:**GANAJUR MAIN GOLD DEPOSIT & ITS SATELLITE PROSPECTS IN THE GANAJUR – KARAJGI CLUSTER**

DESPL has been exploring the Ganajur-Karajgi Block since the RP was granted in 2004. Exploration was carried out under different phases as per international norms. The discovery of an open pit mineable resource in Ganajur Main has been one of the significant achievements for the company. Apart from Ganajur Main Deposit, DESPL has been successful in delineating seven satellite prospects viz., Ganajur East, Ganajur South, Ganajur South East, Ganajur Central, Karajgi Main, Karajgi East and Hut prospects (Fig-8). DESPL has submitted a Mining Lease application covering all the satellite prospects over an area of 2.8 sq.kms. Ganajur Main ML application (0.29 sq.kms) has already received approval from the MoM and we are awaiting the grant notification from the Karnataka State Government. DESPL has also submitted another Prospecting Licence over an area of 8.0 sq.kms around the two ML areas.

Please refer to Status of Applications for an update on application for other prospects (Fig-9). The complete summary of the work carried out between years 2009 and 2016 in the Ganajur-Karajgi Block is given hereunder in Table-9:

DECCAN GOLD MINES LIMITED

During the last year, DESPL carried out limited drilling for testing IP anomaly at depth (Fig-10 and 12), Geotechnical Drilling in Ganajur Main ML and Gold Ore processing plant areas, continuous monitoring of Ground Water Level Study work in the core and buffer zone of Ganajur Gold Mining Project for updating of Ground Water Modeling data, channel and bedrock sampling work in Ganajur Central Prospect of Ganajur-Karajgi Cluster and compilation of all the exploration data for each prospect and preparation of prospect scale geological maps.

Ganajur Main Gold deposit was explored in detail and mineable ore reserves have been established as per JORC 2012 guidelines. Ganajur Main Deposit is part of the larger hydrothermal system that includes all other satellite prospects. A mineralized zone of 900 metres strike length has been defined upto a depth of 120 metres. Due to constraints in size of the ML area (0.29 sqkms) it is difficult to explore the strike extension of the Ganajur Main mineralization.

However DESPL has also lodged another ML application over an area of 2.8 sq.kms covering the satellite prospects. The exploration during PL has resulted in defining drilled resources in Karajgi Main and Ganajur SE Prospects and so there is definite need for undertaking extensive drilling in the applied ML area in order to find more resources.

DEEP DRILLING FOR TESTING IP ANOMALY:

The geophysical survey with a combination of Transient Electromagnetic Survey (TEM) and Induced Polarization (IP) survey was used to delineate conductive zones and also to locate geological structures favorable for hosting gold mineralization in the entire Ganajur –Karajgi Block. DESPL completed an initial 17.4 line kms of IP survey that defined a major resistive feature in the southern half of the survey area. The IP survey has also clearly brought out a 2.8 km long, strong linear Chargeability anomaly (Fig-10) with high resistivity background, which encloses the 900 metre long Ganajur Main Gold Deposit. The 2D Inversion model also indicates that the Ganajur Main ore body and its extension may continue beyond 150metre depth (Fig-11). DESPL through DMT Consulting (P) Ltd carried out 13.85 line kms of additional IP geophysical survey covering all the known prospects.

Fig -11 : Ganajur Main Ore body and deep-seated IP chargeability anomaly

IP survey results have indicated that gold mineralization in the Ganajur-Karajgi Block has one to one correlation with the Geophysical IP anomalies. To test the results of Geophysical survey, DESPL carried out a limited diamond core drilling in the Ganajur-Karajgi Block which included 3 deep holes in the Ganajur Main deposit; 2 holes at Karajgi Main Prospect and one in the Ganajur South East Prospect.

Exploratory drilling for testing the deep seated IP anomaly in Ganajur Main Prospect was quite positive (Fig-12). All the drill holes passed through the gold-bearing rock indicating the depth-ward extension of Ganajur Main Ore body. Best drill intersection Include 1.5m @ 0.60 to 4.39 g/t and 2m @ 0.22 to 2.52 g/t of Au.

Fig-12 : Geological map of Ganajur ML Showing locations of Deep IP Drill holes.

The outcome of the preliminary exploration in Ganajur SE Prospect has confirmed our interpretation of finding additional gold Resources in the satellite prospects surrounding the Ganajur Main Gold Deposit.

DESPL has so far completed 2480 metres of drilling in Ganajur SE prospect along with with trenching, geochemical exploration. A mineralised zone of 600 metres has been delineated based on the above exploration. Mineralised zone exhibits pinch and swell structure and has similar characteristics as Ganajur Main prospect. Updated Geological map of Ganajur SE Prospect is shown in Fig-13.

KARAJGI HUT PROSPECT:

The Karajgi Hut prospect is located around 600m NE of Karajgi Main prospect (Fig-14). Geological mapping under PL tenure indicated presence of two parallel BIF bands with a cumulative strike length of 530 meters.

Detailed review and critical analysis of the existing geological, structural and Geophysical data of Karajgi Hut prospect revealed favorable signature for hosting gold mineralization.

Based on the interpretation of the exploration data DESPL completed 816.80 m of diamond core drilling from 16 shallow drill holes and 351 metres of RC drilling. Results of drilling are furnished in Table-10.

Based on the exploration data a mineralised zone of 300 meters of strike length was delineated which is open along the strike and depth. The drill results of Karajgi Hut Prospect are very promising with high grade gold mineralization. The mineralized zone is narrow with a maximum width of 3.8 meters. The ore from this can act as sweetener for the Ganajur Main ore in the processing plant. The Geological map of Karajgi Hut prospect is shown in Fig-14.

KARAJGI MAIN PROSPECT

Karajgi Main is located 1 km South East of Ganajur Main Prospect (Fig-15). It is rated by DGML as an important prospect in the PL block. Karajgi Main comprises of a southern auriferous BIF and two sulphidic chert bands towards the northern slope area designated as A and B with significant grade and width. DESPL estimated an inferred

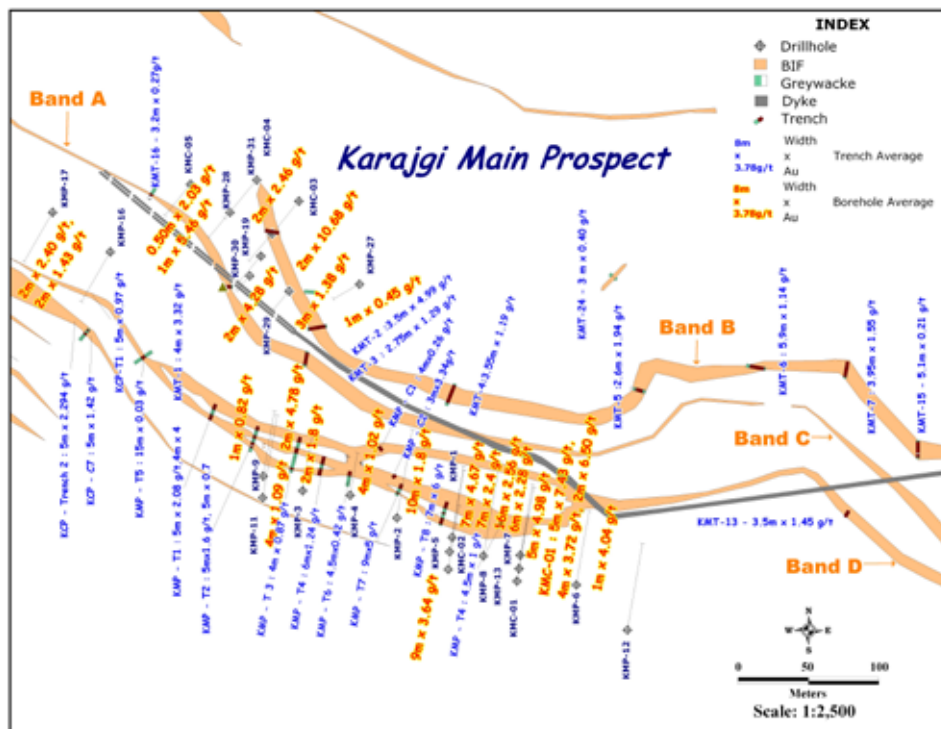

Fig-15 : Geological map of Karajgi Main Prospect showing the drill hole locations.

resource of 90000 tonnes averaging 2.3 g/t Au based on the initial information obtained through RC drilling during the RP tenure. Number of old workings are noticed all along these chert bands. The gold mineralization in the Karajgi Main Prospect is associated with a deformed iron formation. The initial drilling during RP and PL revealed high grade gold intersections in many of the drill holes. Apart from this, significant IP geophysical signatures were observed over this prospect indicating potentiality of the same.

DESPL carried out an initial diamond core drilling to test the IP geophysical anomaly and also to understand structural controls of gold mineralization. One of the drill holes KMC-01 intersected two significant zones of gold mineralization. The first one is 5.0 m thick which passed through between 45.50 to 50.50m averaging 7.43 g/t. gold including a high value of 33.60 g/t. The second zone is 9.0 m thick and was encountered between 71.1 and 80.1m averaging 3.19 g/t gold. The results from Karajgi Main Prospect have confirmed the existence of high grade gold bearing zones and distinct possibility of finding additional resources. Total drilling accomplished in Karajgi Main so far is 1638 metres.

DESPL compiled all the data generated under RP and PL stages in Karajgi Main prospect and a 3D resource model was generated.

A total of 3 auriferous zones were defined trending northwest and dipping towards northeast (Fig-16). Zone-1 and 2 with cumulative strike length of 360 metres with steep dips towards NE are the two branches that constitute the Karajgi main mineralised zone. Zone-3 with a strike length of 140 metres is on the northern slope of the Karajgi Main hill that is correlated to Band-A.

Based on these data DESPL re-estimated a resource of 26800 ozs averaging 3.06 g/t Au under JORC Indicated and Inferred categories equivalent of UNFC 211 and 221 categories. The resource was estimated up to a vertical depth of 80 metres. The true thickness of the ore body varies between 1.45 to 9.0 metres.

GANAJUR SOUTH PROSPECT

Ganajur South Prospect is located between Ganajur Main and Ganajur SE Prospect. Based on the preliminary mapping and sampling an area consisting of 850 meters strike was delineated as potential target for detailed exploration.

IP geophysical data revealed a linear like intrusive structure with high resistivity and chargeability IP anomaly towards south east of the Ganajur Main Prospect. This anomaly coincides with the Ganajur South and South East Prospects. DESPL completed 424 meters of diamond core from 8 bore holes and 436 meters of RC drilling from 12 drill holes, in order to explore the IP anomalies. All the holes were targeted for intersecting mineralization at shallow depths. Two of the drill holes intersected mineralized chert analysing 5.67 g/t Au over 2.5 metres and 2.23 g/t over 2.0 meters width. Rest of the drill holes did not yield significant gold values in spite of intersecting the sulphidic chert bands.

GANAJUR CENTRAL PROSPECT:

Ganajur Central Prospect is located north west and north of Karajgi Main prospect and covers an area of 0.16 sq.kms. Central Prospect comprises of several Parallel to sub-parallel BIF bands which are considered as limbs of a larger folded structure. These limbs have been designated as E1, E2, F, G and H bands. Cumulative strike length of all the bands is 2.6 kms, DESPL has carried systematic exploration in this prospect that included Litho-structural mapping, trenching, channel sampling, bedrock geochemical sampling, R.C. and Diamond core drilling, ground geophysical survey etc. Summary of work carried out in this prospect under different phases is furnished in Table-11.

DECCAN GOLD MINES LIMITED

The area between Ganajur Central and Ganajur Main Prospects is generally soil covered with limited outcrops. IP Geophysical survey has revealed a moderate chargeability anomaly in this gap area. DESPL completed soil sampling, channel sampling and detailed geological mapping in the area to explore the presence of concealed gold bearing sulphidic chert bands. Two Channels covering 13.8 meters were exposed and a total of 18 samples were collected and analysed for gold. Samples analysed few anomalous gold values upto 1.99 g/t. Sixty bedrock geochemical samples were also collected along two profiles for multi-element geochemical analysis. Results are awaited. Updated geological map of Ganajur Central Prospect is shown in Fig-17. Table-12 showing the BH meterage and Average and highest Au assay in Ganajur Central Prospect.

DHARWAR CLUSTER

DESPL explored a total of 3450 sq.kms under Dharwar RP to identify gold bearing prospects Mangalagatti and Bhavihal prospects are located 12 to 20 kms north of Dharwar city. They form part of the 'Dharwar Cluster' of gold bearing sulphidic chert bands. The Dharwar cluster comprises of Mangalagatti SE, Mangalagatti Main, East and Bhavihal prospects. All these are considered as highly potential like the Ganajur-Karajgi cluster near Haveri.

MANGALAGATTI PROSPECT:

Initial exploration during the RP tenure in the Mangalagatti SE prospect by RC drilling and channel sampling had revealed significant gold mineralization. Gold mineralization is hosted by south-easterly plunging folded banded iron formation. Two auriferous zones extending for nearly 500 meters over a width of 30 meters were defined. An ancient working and adjacent pounding marks indicates ancient mining activity in the area.

An inferred resource of 1.5 million tonnes@ 1.63 g/t Au was estimated based upon results of shallow RC drilling programme. After the successful exploration by geophysical methods in the Ganajur-Karajgi PL block, DESPL conducted Induced Polarization (IP) survey in the PL block to investigate the existence of possible mineralised zones in addition to those already explored. The IP survey was carried out on 12 lines by dipole-dipole configuration at 50 to 100 m dipole spacing involving 19.7 line kms.

The results of the IP survey revealed a 300 to 400 meters wide broad based chargeability anomaly suggesting that the mineralization is controlled by a folded structure. More interestingly the IP anomaly has been traced all along for a distance of 2.0 kms and the anomaly is still open (Fig-18).

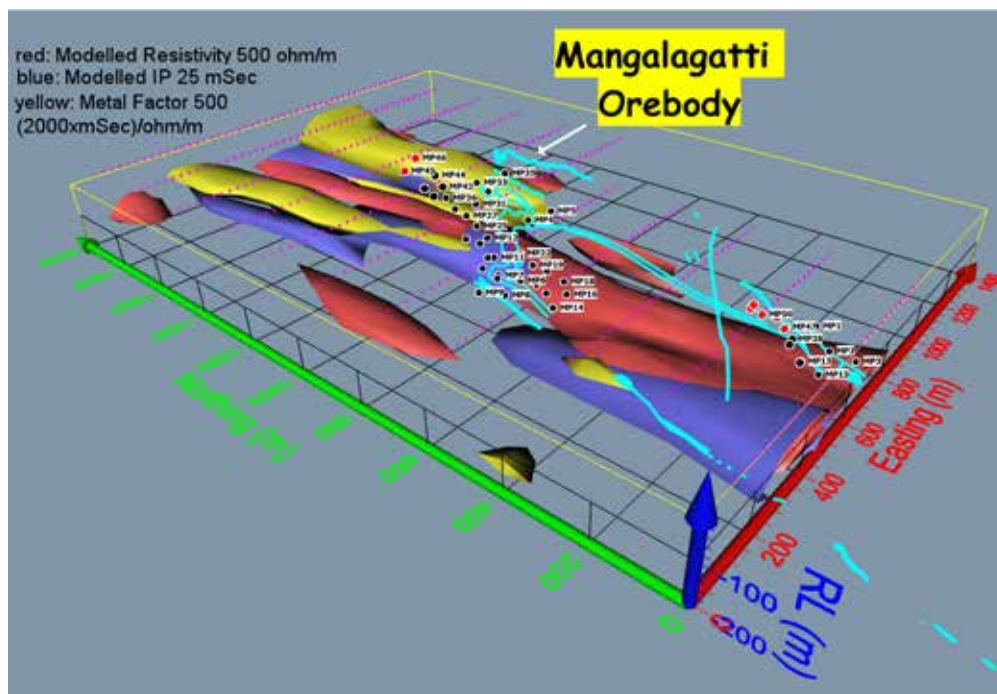

Fig-18 : Mangalagatti 3D IP Geophysical Model

DESPL also tested the depth extension of the IP anomaly by carrying out the survey at larger dipole separation. The survey indicates that the IP anomaly continue to greater depths below 200 meters with sharp increase in the intensity of the anomaly.

These results are very positive and warrants detailed exploration by drilling. DESPL will launch resource drilling in Mangalagatti prospect and its adjacent targets once the PL is executed. DESPL has proposed to drill around 5000 meters of diamond core/RC drilling in the PL Block.

Please refer to “Status of Applications” for an update on the Mangalagatti PL application.

BHAVIHAL PROSPECT:

It is located at a distance of 8 kms NW of Mangalagatti prospect. Preliminary channel sampling followed by RC drilling during the RP tenure had clearly brought out surface expression of a wide ore body hosted in cherty BIF. The limited RC drilling was also intended to examine open pittable resource similar to Mangalagatti SE prospect. As a result of this preliminary investigation an area of 400 meters of mineralization was delineated and an inferred resource of 74,000 oz of Au was estimated averaging 1.76 g/t. A preliminary IP survey was initiated on 3 lines to understand the IP signature. It is very encouraging to note that all the three lines have brought out two moderate chargeability anomalies with co-incident resistivity highs. With this positive information, it is planned to go ahead with additional IP survey to explore the depth and strike continuity of the mineralization. DESPL is pursuing this PL application vigorously.

Please refer to “Status of Applications” for an update on the Bhavihal PL application.

HUTTI – MASKI BELT PROJECTS

Hutti-Maski Greenstone belt is one of the most important Archaean gold bearing belts in India. The Hutti-Maski belt hosts world class Hutti Gold deposit that is being mined by The Hutti Gold Mines Limited. DESPL has carried out exploration over an area 851 sq. km in the Hutti Belt, which has resulted in identifying 21 gold bearing blocks. A total of 12 prospecting licenses (PLs) applications covering the 21 gold targets and 1 Mining lease (ML) application in Hirenagnur have been filed with the Karnataka State Government (Fig-19)

Our shareholders are aware that DESPL is contesting the Order passed by the Hon'ble High Court of Karnataka in the month of April, 2012 favouring Hutti Gold Mines Limited (HGML) regarding the Hutti Belt projects. A Special Leave Petition (SLP) was lodged in the Hon'ble Supreme Court of India, which was admitted in the month of July, 2012. While admitting the SLP, the Hon'ble Supreme Court has also observed that the final decision on the grant of the PL's over Hutti Belt, to be made by the Central Government, shall be subject to the outcome of the present SLP.

REVISION PETITION IN CASE OF HUTTI NORTH PL APPLICATION:

1. DESPL as a result of work under a Reconnaissance Permit identified a highly prospective area in the Hutti North area and filed an application on 1.8.2003 seeking grant of Prospecting License (PL) for gold over the said area of 4.9 sq. km vide P.L.
2. State Government on 8.5.2006, issued a Govt. Order bearing No. CL 68:MMM 2004, rejecting the PL application dt. 1.8.2003 of DESPL. DESPL enjoys preferential rights over this area as per Section 10A of the New MMDR act 2015.
3. As per the directive of the Hon"ble High Court of Karnataka, DESPL filed Revision Petition against this Rejection Order on 27-6-2012.
4. DESPL believes that the Revision application will be upheld by the Tribunal since the grounds for rejection is not as per the existing law and New MMDR Act 2015. DESPL's earlier Revision Petition in the Hutti Belt area was also upheld by the RA.

Due to delays in grant of PLs, DESPL was unable to undertake further detailed exploration in the Hutti-Maski belt. However the highlights of the key prospects which were explored by DESPL during its RP tenure are presented below in Table-13:

HUTTI MINE NORTH PROSPECT

This block is located immediately north of the currently operating Hutti Gold Mine located 80 kms west of Raichur town in Karnataka. A total of eight parallel gold bearing quartz-sulphide veins are known to exist in the currently operating Hutti Mines. DESPL 's exploration such as IP geophysical survey, Bedrock-geochemical sampling,

trenching, and limited drilling has resulted in tracing the extensions of at least 5 of these lodes into DESPL's PL block north of the Hutti Gold mine (Fig-20). The best finding was extension of the New East Reef which has analysed up to 10.0 g/t gold and the extension of the Main Reef that has analysed up to 16.0 g/t Gold. Strike Reef was explored by DESPL by limited drilling with positive results.

DESPL has applied for a Prospecting License that covers all the mineralized zones. A detailed drilling programme will be undertaken to explore the highly prospective North Hutti Block once the PL is granted.

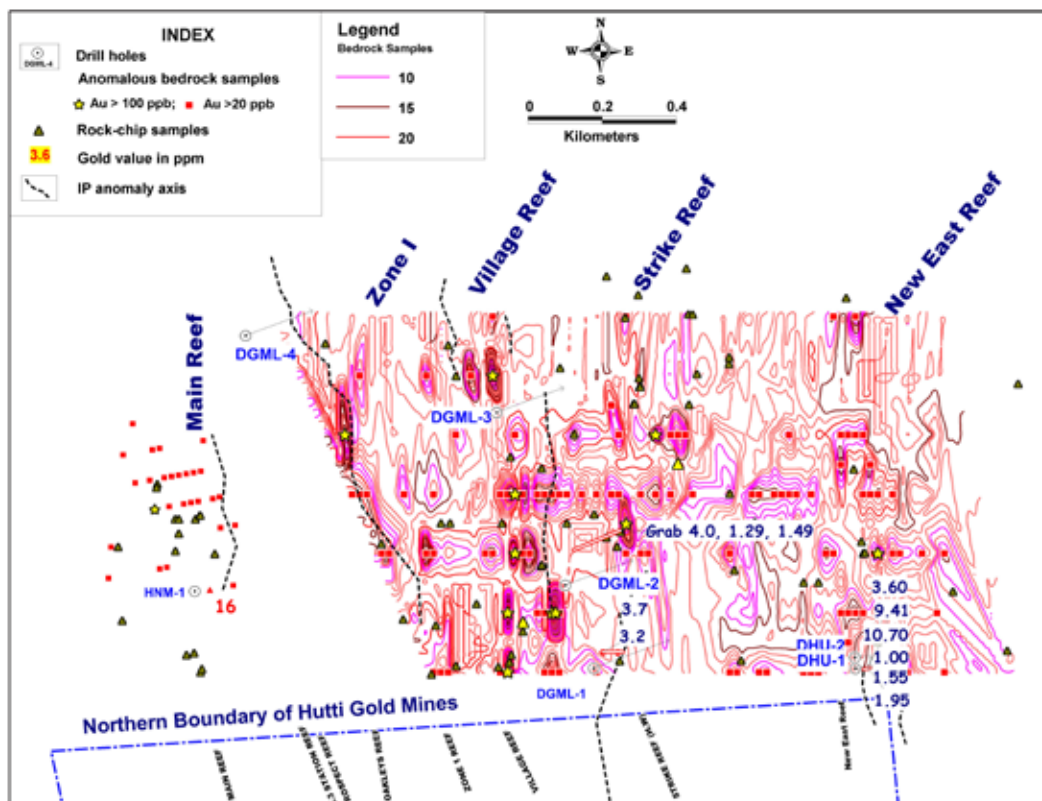

Fig-20 : Hutti North Prospect showing the possible extensions of the Hutti Mine Lodes

HIRENAGNUR PROSPECT:

DESPL considers Hirenagnur prospect as one of its best discoveries which is located 5 kms southeast of Hutti Gold Mines. Systematic exploration by means of geochemistry, ground geophysics, RC drilling and structural mapping has established a mineralized system of 2 kms length over a width of nearly 50 meters. Preliminary drilling indicates presence of 4 parallel mineralised zones of which the eastern most zone i.e zone III has a strike length of 600 meters. The drill hole data was processed by using Data mine Geological software which shows that all the 4 ore zones are open along strike and depth that would be investigated by detailed drilling. The data generated also suggests possibility of open pit mining of the Hirenagnur ore body (Fig-21). Some of the best drill intercepts are furnished below:

Drill hole No	Width (m)	Grade Au (g/t)
IHN-2	8	3.52
1HN-5	8	5.02
DHN-5	19	3.02
DHN-6	16	6.38
DHN-16	11	4.52

DECCAN GOLD MINES LIMITED

This prospect is an open ended N-S trending zone revealed initially by a single rock-chip sample that assayed 7.13 g/t Au and subsequently by systematic bed-rock sampling and ground magnetic surveys.

Fig-21 : 3D view of the Hirenagnur Gold Ore Zones and Open Pit Mine Design.

Ore beneficiation studies of Hirenagnur ore was carried out at the India Bureau of Mines, Bangalore. The studies indicate that the ore is free milling and 91% of gold recovery was achievable by carbon –in- leach technique. Pre-treatment of the ore can result in 97% recovery. Detailed drilling will follow the grant of prospecting license over this prospect. Based on the initial exploration under RP, DESPL estimated an inferred resource of 200,000 ozs averaging 2.72 g/t Au.

DESPL also carried out detailed ground magnetic survey to explore strike extension of the mineralization towards north and south. The magnetic survey was successful in tracing a high magnetic anomaly for a length of 3.2 km coinciding with the main Hirenagnur mineralization and its extension towards north and south. Hirenagnur prospect is a structurally controlled mineralization. Therefore, the continuity of gold bearing structures is expected up to several hundred meters. Applications have been filed for both PL as well as a Mining Lease.

Please refer to “Status of Applications” for an update.

UTI GOLD PROSPECT- SOUTHERN AND NORTHERN CONTINUITY OF THE UTI MINE LODES:

The Uti Mine is owned and operated, as an open pit mine, by Hutti Gold Mines Ltd. Bed rock sampling at 20m intervals along 9 profiles southwest of Uti mine and along 3 profiles north of the mine have revealed gold anomalous zone in strike continuity of Uti mine lodes for about 3.5km to the south west and also towards north. 609m of reconnaissance drilling confirmed the strike continuity of gold lodes to the south. One of the lodes showed gold in the range of 0.82 to 1.4 g/t over widths ranging from 1 to 5m; a second lode yielded 1.34 to 1.72 g/t gold over 1 to 2m width; one more intersection analyzing 3.49 g/t gold over 4m was traced to yet another lode. Detailed drilling is called for to establish the full potential of the Uti south and North prospects. Old diggings by ancient miners and our recent channel sampling have revealed existence of three sub-parallel mineralized zones in an area 1.2 sq. km west of the HGML's Uti mine. Surface samples have given high gold values of up to 22.94 g/t and 40.38 g/t gold. Bedrock geochemical sampling has indicated an anomalous gold bearing zone which is 1200m long and 80m wide.

CHINCHERGI –WANDALLI PROSPECT:

This block is an excellent exploration target defined by DESPL as a result of extensive geochemical exploration, geological mapping, ground magnetic survey and limited Reverse Circulation drilling (RC). DESPL targeted a part of the major WNW trending Chinchergi- Amareshwara lineament between Chinchergi Prospect and Wandalli Prospect. Several ancient workings are seen all along this block.

Chinchergi prospect located some 15 km east of Hutti Gold Mine is an area of extensive ancient mining. Reconnaissance rock chip samples analyzing 5.59 g/t, 8.33 g/t, 9.92 g/t and 12.73 g/t were met with in this prospect. Channel sampling revealed 1 to 2m wide narrow lodes analyzing 1.18 g/t to 4.38 g/t.

In order to locate new targets in addition to tracing extensions of Wandalli and Chinchergi mineralisation, a bedrock geochemical programme was carried out involving 22 profiles and 1500 samples. The exploration has resulted in delineating two geochemical gold anomalies for 3.6 kms south and west of Chinchergi Prospect.

RC drilling indicated anomalous gold values considered as encouraging to undertake further drilling.

BULLAPUR PROSPECT:

In the course of geological traversing along the major structural discontinuity south east of Chinchergi village, a new zone of mineralization was located close to Bullapur village. The mineralized zone comprises a series of quartz veins disposed as N-S splays from a narrow ENE trending shear zone. One of the veins showed a number of visible gold grains on panning. A rock chip sample yielded a good value of 6.53 g/t gold. The area deserves to be investigated in detail under a Prospecting License

YATKAL PROSPECT:

Yatkal prospect is situated 10 kms south-east of Hutti. Gold mineralization is noticed in quartz veins emplaced along sheared and fractured granite. Mineralisation is controlled by a NE-SW trending fracture system along which several quartz veins are emplaced. During its Reconnaissance Permit, DESPL carried out detailed geochemical exploration, rock chip sampling and ground magnetic survey. The geochemical data processed reveals a 950 meter long NE-SW trending gold anomaly spread over 150 meters width. Most of the high gold values analysed in rock chip samples (1.0 to 32.05 g/t Au) fall within the 950 m long geochem anomaly. The geochemical anomaly matches very well with ground magnetic anomaly. Detailed drilling is warranted under a prospecting license.

***Note:**

The shareholders of the Company, at their 30th AGM held on December 30, 2014 approved the introduction of the Deccan Gold Mines Limited Employee Stock Option Scheme, 2014 (Scheme). Clause 5 of the Scheme provides that the limit of 3,000,000 stock options may be revised by the Nomination and Remuneration Committee (NRC) of the Board (which is empowered to administer the Scheme in accordance with SEBI Regulations) in case of any corporate action necessitating the same. Further, clause 21 of the Scheme states that in the event of any rights issue, bonus issue, stock split, merger, restructuring or any such event happening subsequent to the Grant of Options, the NRC shall have the power to make appropriate amendments to the Scheme, including changes in the number of Options, the Exercise Price, floating a new Scheme / extending the application of the existing Scheme

DECCAN GOLD MINES LIMITED

or any other fair and just mechanism including acceleration of Options, if deemed essential, in accordance with law as it deems fit, while striving to ensure that the rights of the employees are not adversely affected.

It may be noted that subsequent to the grant of options under the Scheme, the Company has completed fund raising of INR 503.36 million through a 1 for 2 Rights Issue that was kept open during October, 2015. Pre rights issue, the share capital of the Company was 59,218,250 equity shares and on this basis, 29,609,125 rights shares were issued and allotted on November 6, 2015 to the successful applicants. Accordingly, post the rights issue, the paid-up capital of the Company stood at 88,827,375 equity shares i.e., the paid-up capital increased by 50%

In view of the above corporate action (rights issue), it became necessary to revise the number of stock options reserved under the Scheme from 3,000,000 to 4,500,000 by the addition of 1,500,000 new stock options.

The Board of Directors of the Company, at their meeting held on February 12, 2016 approved amendment to the Deccan Gold Mines Limited Employee Stock Option Scheme, 2014 (Scheme) on account of the Company's rights issue during October, 2015.

Further, the NRC at its meeting held on March 4, 2016 decided that the Exercise Price of the 1,500,000 new stock options would be fixed as ₹7/- per stock option (as was the case with the original 3,000,000 stock options).

ANNEXURE IV**STATEMENT ON MANNER OF EVALUATION OF BOARD OF DIRECTORS, COMMITTEE AND INDIVIDUAL DIRECTORS:**

The Companies Act, 2013 has prescribed a new set of meeting known as exclusive meeting by Independent Directors to assign more responsibility and power to Independent Directors. As per schedule IV of the Companies Act, 2013, the Independent Directors shall hold at least one meeting in a year, without the attendance of Non-Independent Directors and members of the management and all such directors shall strive to be present at the meeting.

The Independent Directors of the Company held such meeting on February 14, 2017. Amongst other matters, they reviewed the performance of Non-Independent Directors, and the Board as a whole, the performance of the Chairperson of the Company, taking into account the views of Executive Director and Non-executive Directors; and assess the quality, quantity and timeliness of flow of information between the Company Management and the Board that is necessary for the Board to effectively and reasonably perform their duties.

Evaluation Criteria of the Board's performance:

During the year under review, the Board adopted a formal mechanism for evaluating its performance as well as that of its Committees and individual Directors, including the Chairman of the Board. The exercise was carried out through a structured evaluation process covering various aspects of the Board functioning such as composition of the Board and Committees, experience and competencies, performance of specific duties and obligations, governance issues etc., Separate exercise was carried out to evaluate the performance of individual Directors including the Board Chairman who were evaluated on parameters such as attendance, contribution at the meetings and otherwise, independent judgment, safeguarding of minority shareholders interest etc., The evaluation of the Independent Directors was carried out by the entire Board and that of the Chairman and the Non-Independent Directors were carried out by the Independent Directors. The Directors were satisfied with the evaluation results, which reflected the overall engagement of the Board and its Committees with the Company.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INTRODUCTION

Deccan Gold Mines Limited (“DGML”) is the first and only gold exploration Company listed on the Bombay Stock Exchange Limited (BSE). It was established in the year 2003 by Australian promoters with deep roots in the mining and exploration sector. With a portfolio of green-field and advanced stage gold projects, DGML has been accumulating and developing some of India’s finest gold prospects and is close to bringing into production the first private sector gold mine in the State of Karnataka, South India.

Since inception, DGML / its wholly owned subsidiary Deccan Exploration Services Private Limited (DESPL) have actively pursued gold exploration activities in all of its exploration prospects that resulted in identification of probable gold resources at several locations. DGML & DESPL now have a large portfolio of gold exploration prospects primarily in the State of Karnataka.

The key project of DESPL is the Ganajur Gold Project situated in the State of Karnataka. Apart from this, DGML and DESPL have also got high potential pipeline of Projects that are at various stages of development like Mangalagatti, Bhavihal and Hirenagnur Projects in the State of Karnataka. A comprehensive list of the prospects of DGML and DESPL has been provided under the heading “Status of mineral concession applications”.

Details on the results of DGML’s exploration work has been provided under the heading “Report on Exploration Activities”.

INDUSTRY REVIEW

Although gold mining dates back to the first millennium BC, in the 20th century, the sector was dominated by the Kolar Gold fields near Bangalore. The Kolar Gold fields produced more than 800 tonnes of gold during its 120 year history before its closure in 2001 (Source: Geological Survey of India portal www.gsi.gov.in). The other significant gold producer is Hutti Gold Mines Limited (fully owned by Government of Karnataka). During the period from 1947-2017, it produced 89.59 tonnes of gold and is currently the only gold producer in India. (Source: www.huttigold.co.in/hutti/index/huttiatglance)

Despite having a long history of gold mining, the current production levels are very low; in 2015 India mined less than 2 tonnes.

This is primarily attributable to:

- Low exploration activity
- Minimal private sector participation particularly in exploration of strategic and deep-seated mineral deposits
- Poor regulatory environment for processing of mineral concession applications.

The industry does, however, have potential. India’s current defined gold reserves total 71.9 tonnes. In addition, 568.5 tonnes of gold is defined in the primary (hard rock) resource category, while 5.9 tonnes has been defined within placer deposits (Source: Ministry of Mines, Government of India, Annual Report 2015).

The gold resources – gold deposits that are potentially economically viable are a lot more geographically diverse. Over 50% of the mineral resources are located in Karnataka; 33% in Rajasthan; 6% in Bihar and 5% in Andhra Pradesh while the remaining 6% are spread across a further eight States (Source: Indian Bureau of Mines Indian Mineral Yearbook 2014).

Over the coming years, as new projects reach their production phase, Indian gold production could grow, albeit from a very low base.

However, the industry also faces significant challenges. For mining to develop in India, regulations need to be reviewed and the industry needs investment.

It is therefore imperative that Government of India should promote and facilitate gold exploration and mining by improving the regulatory environment and fast-tracking grant of mineral concession licences to enable increased gold production in the country.

PERFORMANCE

Full details of exploration work undertaken by the Company are contained in “Report on Exploration Activities” forming part of this Annual Report. The status of our applications is contained in this Annual Report under the heading “Status of mineral concession applications”.

DGML incurred a total expenditure of ₹ 1427.99 lac (cumulative) on exploration on its prospects as on March 31, 2017. The amount of exploration expenditure (cumulative) incurred as on March 31, 2016 was ₹ 1394.55 lac.

The net loss (after tax) of the company for the year ended March 31, 2017 was ₹ 962.50 lac compared to ₹ 689.54 lac for the year ended March 31, 2016.

It is pertinent to note that exploration companies by their very nature will not generate mining revenues until commencement of mining operations.

RISKS AND CONCERNS

The Company is engaged in the business of gold exploration and mining, but has not commenced mining operations. Our exploration and mining activities depend on the timely grant, renewal and continuance in force of mineral concession licences. Other risks include actual resources differing from estimates, operational delays and availability of equipment, personnel and infrastructure.

Stakeholders should be aware that a number of important factors could cause actual results to differ materially from our plans, objectives, expectations, estimates and intentions. These factors include, but are not limited, to:

- (a) General economic and business conditions in the markets in which we operate and in the local, regional and national economies;
- (b) Increasing competition in or other factors affecting the industry segment in which our Company operates;
- (c) Changes in laws and regulations relating to the industry in which we operate;
- (d) Our ability to meet our capital expenditure requirements and / or increase in capital expenditure;
- (e) Fluctuations in operating costs and impact on the financial results;
- (f) Our ability to attract and retain qualified personnel;
- (g) Changes in technology in future;
- (h) Changes in political and social conditions in India or in countries that we may enter, the monetary policies of India and other countries, inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
- (i) The performance of the financial markets in India and globally; and
- (j) Any adverse outcome in the legal proceedings in which we are involved.

All the above factors notwithstanding, the Company and its Directors believe that they have adequate experience and access to expertise and capital sources that will enable the Company to successfully develop, launch and execute its projects successfully.

OUTLOOK AND OPPORTUNITIES

Despite India being one of the world’s largest consumers of gold (between 2000 and 2015, India officially imported 10,345 tonnes of gold bullion ~ Source : Indian Customs; Metals Focus; World Gold Council)), until recently there had been no real policy push to promote indigenous mining. A few private and locally listed companies started up after legislation was passed allowing private players into the industry. But it is not an easy market to enter and survive; in some cases companies have been waiting for years for permit approval. As a result, there has been limited investment in gold exploration over the past decade, particularly from the private sector.

During 2015 / 2016, the Indian Parliament approved an amendment to the Mines and Minerals (Development & Regulation) Act, 1957 (“MMDR”) which allowed private companies to bid for mining leases via a competitive auction process and proposed that mining leases for major minerals to be granted for a period of 50 years, compared with the previous 30-year limit. Further amendments were also accepted, under which transfer of captive mining blocks could be allowed without need for auction.

DECCAN GOLD MINES LIMITED

The National Minerals Exploration Policy (NMEP) approved in June 2016 is designed to similarly stimulate mining exploration. The policy allows private companies to enter into a transparent bidding process, conducted via e-auction, to carry out exploration of mineral-bearing areas. The Company submitting the winning bid would be entitled to a share of the royalty paid to the relevant State Government. This policy, aimed at accelerating exploration activity, opens the way for the auction of 100 prospective mineral blocks (Source: World Gold Council Report titled 'India's Gold Market: Evolution and Innovation')

On August 2, 2017 the Hon'ble Supreme Court of India while delivering its Judgment in Writ Petition (Civil) No. 114 of 2014, inter-alia, directed the Union of India to revisit the National Mineral Policy 2008 and announce a fresh and more effective, meaningful and implementable policy before December 31, 2017. Accordingly, the Ministry of Mines, Government of India vide its Notification dated August 14, 2017 has constituted a Committee comprising Government and industry representatives to suggest a new national mineral policy to the Government. The terms of reference of this Committee inter-alia is 'to examine and make recommendations for development of strategic minerals' and 'to examine and review fiscal aspects conducive to the promotion of mineral exploration and development, including beneficiation and other forms of product refinement'. The Committee has a deadline of October 31, 2017 to submit its Report to the Government. (Source: Ministry of Mines, Government of India website www.mines.nic.in).

Although the recent developments bode well in terms of helping India's mining sector to realize its potential, a number of progressive steps would boost domestic gold production as well as encourage the wider mining sector.

State and Central Government agencies should simplify the permitting process, perhaps with the introduction of a single window clearance system. At present, mineral concession applications have to be signed off by a large number of departments and different ministries which can make the processes very lengthy. It is not uncommon for a licence to require approval from at least 15 to 20 different authorities. Reducing the time and paper work required to obtain permits would lower the cost of bringing a new mine into production.

The mining sector needs funds to grow. Central and State Government should incentivise investment within the sector as well as ancillary sectors that support the mining industry.

Making gold mining a strategic sector and bringing it under the 'Infrastructure Category' would provide tax breaks for investors. This would enhance investment into the industry.

In its 12th Five Year Plan (2012-2017) formulated in 2011, a Government of India Working Group outlined that with adequate investment, annual gold production could be as high as 70 tonnes by 2030. While this may be ambitious, it does highlight the desire to grow India's gold production.

It will be interesting to note that in the 11th Five Year Plan (2007 document), it was noted that small and isolated deposits of gold are scattered all over India. Many of them are ancient mine workings some of which were reopened and mined by the British. Many of these old mines could be turned into small and ultra small mineable gold reserves through detailed drilling, sampling and metallurgical studies. There are over 400 such old and ancient gold mine workings spread over 15 States in the country which could be brought into production provided the Government legislates to incentivize gold exploration and mining.

Gold mining can provide significant sustainable socio-economic development for India. Apart from the investment required to explore and mine for gold, it leaves a legacy of a skilled workforce. Furthermore, mining helps bring infrastructure investment to a region and helps initiate and support associated service industries all of which persist long beyond the working life of the mine.

The 'Social and Economic Impacts of gold mining' published in 2015 showed that 70% of the total expenditure by gold producing companies was via payments to local suppliers and contractors as well as wages to employees. This highlights the important impact even a small gold operation can have on its community.

Given that India is one of the World's largest gold consuming countries, it makes sense for it to develop mining capacity. For this to happen, changes need to be made. Bureaucracy needs to be reduced and investment encouraged.

To sum up, if a proper blend of strategy and policy is adopted, which is attractive, stable and long-term, India's gold production could grow from its current low level.

ADEQUACY OF INTERNAL CONTROL

The Company has in place adequate internal control systems commensurate with its size and operations, which assure proper recording of transactions of its operations and also ensure protection against misuse or loss of the Company's assets. The Company has constituted an Audit Committee and has assigned to it tasks that will further strengthen the internal audit system.

SUSTAINABLE DEVELOPMENT

DGML is committed to sustainable development; we believe in creating sustainable values that our employees, business partners and shareholders can uphold and believe in. We strive to meet the needs of all our stakeholders. DGML believes in making a positive contribution to the community in which we are involved. Our mission is to increase the known gold resources base of the country in a way that enhances the well being of its people, the environment, and the investors and stakeholders of the Company.

CAUTIONARY STATEMENT

Statements in the Management Discussion and Analysis Report describing the Company's objectives, projections, estimates, expectations or predictions may be "forward looking statements" within the meaning of the applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include the availability of economically viable deposits, changes in Government regulations, tax regimes, economic developments in India and other incidental factors.

INDEPENDENT AUDITOR'S REPORT

To the Members of Deccan Gold Mines Limited,

REPORT ON THE STANDALONE FINANCIAL STATEMENTS

We have audited the accompanying standalone financial statements of **Deccan Gold Mines Limited** ("the Company"), which comprises the Balance Sheet as at March 31, 2017, the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

MANAGEMENT'S RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements, that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended). This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act; safeguarding the assets of the Company; preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these standalone financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the rules made there under. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India, as specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial controls relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

OPINION

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) In the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2017;
- (b) In the case of statement of Profit and Loss, of the Loss for the year ended on that date; and
- (c) In the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the Annexure I a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's IFCoFR based on our audit. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India (ICAI) and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of IFCoFR, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR included obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's IFCoFR.

Meaning of Internal Financial Controls over Financial Reporting

6. A company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's IFCoFR includes those policies and procedures that :
 - (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
 - (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
 - (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any

evaluation of the IFCoFR to future periods are subject to the risk that IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion :

8. In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the criteria being specified by management.

**NOTE `(1A)' OF SIGNIFICANT ACCOUNTING POLICIES AND NOTES
ANNEXED TO BALANCE SHEET AS AT 31st MARCH, 2017**

(i) STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES:**A. Basis of accounting:**

The financial statements of the company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The company has prepared these financial statements to comply in all material respects with the Companies (Accounts) Rules, 2014 and the relevant provision of Companies Act, 2013. The financial statements have been prepared on an accrual basis and under the historical cost convention. The accounting policies adopted in the preparation of financial statement are consistent with those of previous year.

B. Fixed Assets:

Fixed Assets are stated at cost of acquisition less depreciation. All costs relating to the acquisition and installation of fixed assets are capitalized.

C. Depreciation:

1. Depreciation on Fixed Assets is provided based on the useful life of the assets in the manner prescribed in Schedule II to the Companies Act, 2013.
2. Depreciation on fixed assets added /disposed off during the year is provided on pro-rata basis.

D. Foreign Currency transactions

Transactions of foreign currencies are recorded at the exchange rates prevailing on the date of the transaction or at the exchange rate under related forward exchange contracts. The realized exchange gains/losses are recognized in the Profit & Loss Account. All foreign currency assets/ liabilities are translated in rupees at the rates prevailing on the date of Balance Sheet.

E. Investments:

- (a) Long term investments are carried at cost after providing for any diminution in value, if such diminution is of other than temporary nature.
- (b) Current investments are carried at the lower of cost and market value. The determination of carrying cost of such investments is done on the basis of specific identification.

F. Taxes on income:

- a. Current year tax is determined in accordance with Income Tax Act, 1961 at the Current Tax rates based on assessable income.
- b. The Company has carried forward losses under Tax Laws. In absence of virtual certainty of sufficient future taxable income, deferred tax asset has not been recognized by way of prudence in accordance with Accounting Standard 22 "Accounting for taxes on income" issued by The Institute of Chartered Accountants of India.

G. Impairment of Assets:

At each balance sheet date, the carrying amounts of fixed assets are reviewed by the management to determine whether there is any indication that those assets suffered an impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of impairment loss. Recoverable amount is the higher of an asset's net selling price and value in use.

H. Revenue Recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

- i. Exploration Income is recognized when services are rendered.
- ii. Interest Income is recognized on accrual basis
- iii. Dividend Income is accounted on accrual basis when the right to receive the dividend is established
- iv. Consultancy Income is recognized as and when services are rendered.

I. Employee Benefits

- Leave encashment : The company does not have a policy of carry forward of pending leaves and hence no provision for the same is made as mentioned under AS - 15 issued by ICAI.
- Gratuity : Gratuity provision is made for qualifying employees. Gratuity liability is defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit cost method.

J. Provisions , contingent liabilities and contingent assets

Estimation of the probability of any loss that might be incurred on outcome of contingencies on basis of information available upto the date on which the financial statements are prepared. A provision is recognised when an enterprise has

DECCAN GOLD MINES LIMITED

a present obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are determined based on management estimates required to settle the obligation at the balance sheet date, supplemented by experience of similar transactions. These are reviewed at each balance sheet date and adjusted to reflect the current management estimates. In cases where the available information indicates that the loss on the contingency is reasonable possible but the amount of loss cannot be reasonably estimated, a disclosure to this effect is made in the financial statements. In case of remote possibility neither provision nor disclosure is made in the financial statement. The company does not account for or disclose contingent asset, if any.

K. Stock Option Granted

The stock options granted are accounted for as per the accounting treatment prescribed by Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 (earlier SEBI Employee Stock Option Scheme and Employee Stock Purchase Guidelines, 1999, issued by Securities and Exchange Board of India, whereby the intrinsic value of the option is recognised as deferred employee compensation.

The deferred employee compensation is charged to Profit & Loss Account on straight-line basis over the vesting period of the option. The employee stock option outstanding account is shown net of any unamortized deferred employee compensation.

Note: It may be noted that the Board of Directors of the Company, at their meeting held on February 12, 2016 approved amendment to the Deccan Gold Mines Limited Employee Stock Option Scheme, 2014 (Scheme) on account of the Company's rights issue during October, 2015. Under the amended Scheme, the number of stock options reserved for grant has been revised from 3,000,000 stock options to 4,500,000 stock options. Further, the Nomination & Remuneration Committee of the Board (NRC), at its meeting held on March 4, 2016 fixed the Exercise Price of the 1,500,000 new stock options as ₹ 7/- per stock option (as was the case with the original 3,000,000 stock options). The NRC also granted these 1,500,000 new stock options to the respective allottee (s) in the same proportion as they were granted the original 3,000,000 stock options. Further, it was also decided that 100% of the new stock options would be vested on the allottee (s) post the mandatory lock-in period of 1 year from the date of grant and the exercise period shall remain at 12 months from the date of vesting.

On May 11, 2016, the Company received 'in-principle' approval of BSE in respect of the 15,00,000 new stock options.

Note 23 : The Board of our Company was approached by Geomysore Services (India) Private Limited (GMSI) for being taken over. This was sought to be achieved through a takeover of Australian Indian Resources Limited, Australia (AIR) which is a key shareholder of GMSI and a 'buy-out' of other interested shareholders. The Company believes that the proposed takeover of GMSI would result in consolidation benefits in terms of gold assets to create a large Indian listed gold company.

GMSI had earlier indicated that it has drawn up a drilling programme of 15,800 m in the Jonnagiri Gold Project.

Subsequently, the Board of the Company decided that the proposed takeover of GMSI would be considered as and when the drilling data from the Jonnagiri Gold Project becomes available from GMSI.

GMSI has completed the drilling program noted above and has undertaken a feasibility study for their Jonnagiri Gold Project, the results of which are being awaited by the Company. Post this, the valuation of the projects of the Company and GMSI will need to be undertaken.

The proposal will then be put to the Board of Directors of the Company and GMSI for their final approval as regards the terms and conditions of the transaction including but not limited to the relevant valuation of shares and the share exchange ratio following which applicable shareholder / regulatory approvals will be sought.

Auditor's Responsibility:

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the Accounting and Auditing Standards and matters which are required to be included in the audit report under the provisions of the Act and the rules and regulations made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143 (10) of the Companies Act, 2013. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depends upon our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the said financial statements.

DECCAN EXPLORATION SERVICES PRIVATE LIMITED**ANNEXURE – B TO THE AUDITOR’S REPORT****Report on the Internal Financial Controls under (i) of Sub-Section 3 of
Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of Deccan Exploration Services Private Limited as of 31 March 2017 in conjunction with our audit of the financial statements of the company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s Management is responsible for establishment and maintaining internal financial controls based on the internal control over financial reporting established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’).

These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We Conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting and the standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. These Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and that such controls operated effectively in all material respects.

Our Audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial controls over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatement due to error or fraud that may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are

DECCAN GOLD MINES LIMITED

DECCAN EXPLORATION SERVICES PRIVATE LIMITED

subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial reporting issued by the Institute of Chartered Accountants of India.

DECCAN GOLD MINES LIMITED

CONSOLIDATED FINANCIAL STATEMENTS

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Deccan Gold Mines Limited,

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of **Deccan Gold Mines Limited** (herein referred to as "the Holding Company") and its subsidiary (the holding company and its subsidiary together referred to as "the Group"), comprising of the consolidated Balance Sheet as at March 31, 2017, the consolidated Statement of Profit and Loss and the consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information(herein referred to as the consolidated financial statements").

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these financial statements in terms of the requirements of the companies Act, 2013(herein referred to as "the act") that give a true and fair view of the consolidated financial position, consolidated financial performance and cash flows of the group in accordance with the accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act, read with the rule 7 of the companies (accounts) rules, 2014. The respective board of directors of the companies included in the group are responsible for maintenance of adequate accounting records in accordance with the provisions of the act for safeguarding the assets of the group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for insuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatements, whether due to fraud or error, which has been used for the purpose of preparation of the consolidated financial statements by the directors of the holding company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the rules made there under.

We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India, as specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the holding company has an adequate internal financial control system over financial reporting in place and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the holding company's board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditor's in terms of their reports referred to in sub-paragraph(a) of the other matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

CONSOLIDATED FINANCIAL STATEMENTS

Annexure I**Independent Auditor's report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

1. In conjunction with our audit of the consolidated financial statements of **Deccan Gold Mines Limited ("the Holding Company")** and its Indian subsidiary companies (the holding company and its subsidiaries together referred to as "the Group"), as of and for the year ended 31 March 2017, we have audited the internal financial controls over financial reporting (IFCoFR) of the company of as of that date.

Management's Responsibility for Internal Financial Controls

2. The Respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India are responsible for establishing and maintaining internal financial controls based on the criteria being specified by management. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the required under the Companies Act, 2013.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Group's IFCoFR based on our audit. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India (ICAI) and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of IFCoFR, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR included obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the company's IFCoFR.

Meaning of Internal Financial Controls over Financial Reporting

6. A Company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's IFCoFR includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

DECCAN GOLD MINES LIMITED

CONSOLIDATED FINANCIAL STATEMENTS

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company has, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on the Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

DECCAN GOLD MINES LIMITED

CONSOLIDATED FINANCIAL STATEMENTS

NOTE `(1A)' OF SIGNIFICANT ACCOUNTING POLICIES AND NOTES ANNEXED TO BALANCE SHEET AS AT 31st MARCH, 2017

(i) STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES:

A. Principles of Consolidation

The Consolidated financial statements relate to Deccan Gold mines Limited and its subsidiary Company.

The Consolidated financial statements have been prepared on following basis:

- a) The financial statement of the company and its subsidiary Company are combined on line-by- line basis by adding together the book values of like items of assets, liabilities, income and expenses after fully eliminating intra group transactions resulting in unrealized profits/losses in accordance with accounting standard (AS) 21 "Consolidated Financial Statement" issued by the Institute of Chartered Accountants of India.
- b) As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Company's separate financial statements

B. Basis of accounting

The financial statements of the company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The company has prepared these financial statements to comply in all material respects with the Companies (Accounts) Rules, 2014 and the relevant provision of Companies Act, 2013. The financial statements have been prepared on an accrual basis and under the historical cost convention. The accounting policies adopted in the preparation of financial statement are consistent with those of previous year.

C. Fixed Assets

Fixed Assets are stated at cost of acquisition less depreciation. All costs relating to the acquisition and installation of fixed assets are capitalized.

D. Depreciation

1. Depreciation on Fixed Assets is provided based on the useful life of the assets in the manner prescribed in Schedule II to the Companies Act, 2013.
2. Depreciation on fixed assets added /disposed off during the year is provided on pro-rata basis

E. Foreign Currency transactions

Transactions of foreign currencies are recorded at the exchange rates prevailing on the date of the transaction or at the exchange rate under related forward exchange contracts. The realized exchange gains/losses are recognized in the Profit & Loss Account. All foreign currency assets/ liabilities are translated in rupees at the rates prevailing on the date of Balance Sheet.

F. Investments

- (a) Long term investments are carried at cost after providing for any diminution in value, if such diminution is of other than temporary nature.
- (b) Current investments are carried at the lower of cost and market value. The determination of carrying cost of such investments is done on the basis of specific identification.

G. Taxes on income

- i. Provision for current tax is made with reference to taxable income computed for the accounting period, for which the financial statements are prepared by applying the tax rates as applicable.
- ii. Deferred tax is recognized subject to the consideration of prudence, on timing differences being the difference between taxable incomes and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Such deferred tax is quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date. Deferred tax assets are recognized and carried forward to extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

CONSOLIDATED FINANCIAL STATEMENTS**H. Impairment of Assets**

At each balance sheet date, the carrying amounts of fixed assets are reviewed by the management to determine whether there is any indication that those assets suffered an impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of impairment loss. Recoverable amount is the higher of an asset's net selling price and value in use

I. Revenue Recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

- i. Exploration Income is recognised when services are rendered.
- ii. Interest Income is recognised on accrual basis
- iii. Dividend Income is accounted on accrual basis when the right to receive the dividend is established
- iv. Consultancy Income is recognized as and when services are rendered.

J. Employee Benefits

Leave encashment: - The company does not have a policy of carry forward of pending leaves and hence no provision for the same is made as mentioned under AS - 15 issued by ICAI.

Gratuity : - Gratuity provision is made for qualifying employees. Gratuity liability is defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit cost method.

K. Provisions, Contingent Liabilities and Contingent Assets

Estimation of the probability of any loss that might be incurred on outcome of contingencies on basis of information available upto the date on which the financial statements are prepared. A provision is recognised when an enterprise has a present obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are determined based on management estimates required to settle the obligation at the balance sheet date, supplemented by experience of similar transactions. These are reviewed at each balance sheet date and adjusted to reflect the current management estimates. In cases where the available information indicates that the loss on the contingency is reasonable possible but the amount of loss cannot be reasonably estimated, a disclosure to this effect is made in the financial statements. In case of remote possibility neither provision nor disclosure is made in the financial statement. The company does not account for or disclose contingent asset, if any.

L. Stock options scheme

The stock options granted are accounted for as per the accounting treatment prescribed by Employee Stock Option Scheme and Employee Stock Purchase Guidelines, 1999, issued by Securities and Exchange Board of India, whereby the intrinsic value of the option is recognised as deferred employee compensation.

The deferred employee compensation is charged to Profit & Loss Account on straight-line basis over the vesting period of the option. The employee stock option outstanding account is shown net of any unamortized deferred employee compensation.

Note: It may be noted that the Board of Directors of the Company, at their meeting held on February 12, 2016 approved amendment to the Deccan Gold Mines Limited Employee Stock Option Scheme, 2014 (Scheme) on account of the Company's rights issue during October, 2015. Under the amended Scheme, the number of stock options reserved for grant has been revised from 3,000,000 stock options to 4,500,000 stock options. Further, the Nomination & Remuneration Committee of the Board (NRC), at its meeting held on March 4, 2016 fixed the Exercise Price of the 1,500,000 new stock options as ₹ 7/- per stock option (as was the case with the original 3,000,000 stock options). The NRC also granted these 1,500,000 new stock options to the respective allottee (s) in the same proportion as they were granted the original 3,000,000 stock options. Further, it was also decided that 100% of the new stock options would be vested on the allottee (s) post the mandatory lock-in period of 1 year from the date of grant and the exercise period shall remain at 12 months from the date of vesting. On May 11, 2016, the Company received 'in-principle' approval of BSE in respect of the 1,500,000 new stock options.

Note 24: The Board of our Company was approached by Geomysore Services (India) Private Limited (GMSI) for being taken over. This was sought to be achieved through a takeover of Australian Indian Resources Limited, Australia (AIR) which is a key shareholder of GMSI and a 'buy-out' of other interested shareholders. The Company believes that the proposed takeover of GMSI would result in consolidation benefits in terms of gold assets to create a large Indian listed gold company.

GMSI had earlier indicated that it has drawn up a drilling programme of 15,800 m in the Jonnagiri Gold Project.

Subsequently, the Board of the Company decided that the proposed takeover of GMSI would be considered as and when the drilling data from the Jonnagiri Gold Project becomes available from GMSI.

GMSI has completed the drilling program noted above and has undertaken a feasibility study for their Jonnagiri Gold Project, the results of which are being awaited by the Company. Post this, the valuation of the projects of the Company and GMSI will need to be undertaken.

The proposal will then be put to the Board of Directors of the Company and GMSI for their final approval as regards the terms and conditions of the transaction including but not limited to the relevant valuation of shares and the share exchange ratio following which applicable shareholder / regulatory approvals will be sought.

Note 25: Note on Rights Issue

During the year the company has raised ₹ 50.34 crores through Right Issues of equity shares. The shares were issued at issue price of ₹17 per share (inclusive of premium of ₹ 16 per share). The shares were issued at the ratio of 1:2 to the shareholders.

The paid up capital of the company prior to this Right issue stood at 5,92,18,250 equity shares of ₹1 each. Accordingly 2,96,09,125 equity shares were offered on Right issue basis and the scheme was kept open from 14th October 2015 to 30th October, 2015.

The allotment of the shares under the Right issue was subscribed 1.3 times of the issue size & the process of the allotment was completed by November, 2015.

The additional shares so issued were admitted for listing/trading on the Bombay Stock Exchange (BSE) with effect from 11th Nov.2015.

The right issue was introduced by the company to utilize the proceeds for financing the following objects :

- Investment in Subsidiary Company
- General Corporate Purpose ; and
- Expenses for the Issue
- Post the allotment of the shares under the Right Issue as discussed above, the promoters i.e. Rama Mines, Mauritius Ltd. holds approximately 29% stake in the company, the balance 71% is being widely held with a significant participation by FIIs and Non-resident investors.
- Utilization of proceeds of rights issue by the Company is as under :
