CHAIRMAN MESSAGE

Dear Stakeholders,

It gives me great pleasure to share with you key developments and performance highlights of the Company in 2018-19. Your Company witnessed yet another year of remarkable growth in the key focus area of manufacturing. We managed to put up a resilient performance despite fluctuation in demand, volatile polymer prices and instability of Indian Rupee against US Dollar.

With our belief in “Jal hai to kal hai”, we are committed to foster a culture of innovation at work, continuously enhance our product range, and increase our production capacities with minimal capital outlay with the ultimate goal of developing a business that brings joy to all our stakeholders..

We are pleased to announce the successful expansion in our production capacity. The expanded capacities have now stabilized and are running smoothly. The enhancement in the capacity has been implemented both in the infrastructure as well as in the irrigation lines. Irrigation capacity has now increased by 35% whereas capacity for production of HDPE high pressure pipeline has increased by close to 100 percent. Now your company is amongst the very few companies which can produce upto 650mm of HDPE Pipes. We are also pleased to inform that we have successfully commissioned a production line for double wall corrugated pipes for diameters upto 500mm. The expanded technologies are “top of the line” and world class.

These additional capacities will speed up the delivery schedules of the current order book and additionally enable us to cater to the growing demand opportunity which will aid in building up larger order books due to delivery visibility.

We continue to witness tremendous growth opportunity. This growth is primarily fuelled by Government’s initiative of Smart City Projects, conversion of traditionally laid metal/ cement pipelines and Amrut Yojna Projects. In a short time, Signet has emerged as one of the major suppliers of pipelines for this government initiative. Your Company’s infrastructure has been appreciated and applauded by its customers who have approved Signet as their prime supplier.

Your Company is now not just a manufacturer of the system but has also emerged as a “complete solution provider” to our farmers. We will continue to focus on this high growth opportunity with huge untapped potential.

Our proven track record of world class quality products and implementation of stringent quality processes makes us the preferred choice among our customers. In irrigation sector, we continue to maintain and further strengthen our dominance in various states in the country. Further, we are pleased to announce the receipt of orders worth Rs. 230 cr. in the infra segment from companies like L&T Limited, Tata Projects Limited and GA Infra Pvt. Limited. This award is a testament to our high standards in terms of products and processes. These orders are for high pressure pipelines and uPVC pipelines to be used in various infrastructure projects in the States of Madhya Pradesh, and Rajasthan.

As I look forward, I see immense opportunities for growth at Signet. Our team’s excellent commitment to growth and innovation has helped grow Signet as a world class manufacturing business and I am excited to see these efforts getting converted into results in near future.

On this note, let me take this opportunity to thank our management team, our dedicated employees, suppliers, customers, partners and shareholders for their unabated support and faith in the company. Your support, through thick and thin, has been a great source of strength for us.

We look forward to your continued support in the coming years.

**Yours Sincerely
Mukesh Sangla**

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Overview

India's polymer industry is one of the largest in the world and is highly fragmented as entry barriers are low with low capital intensity, no technological barriers, and supportive government schemes. As the third largest consumer of polymers, India ranks only after China and USA. Evaluation of the polymer industry trends reveals strong growth prospects citing the increased usage of plastics across sectors. Rapid urbanisation and favourable demographics, low per capita consumption, shifting consumer lifestyles, etc are all contributing towards the growth of polymer industry. The key market players integrating more back-end exploration and refining businesses, alongside streamlining their sourcing operations, opportunities are expected to increase in the coming years.

With the new announcements from our government, industry will also revive which will also consume lots of pipes in coming years which is mainly because of demand in agriculture pipes, infrastructure pipes, plumbing pipes and industrial pipes.

Four major factors are contributing to the favorable outlook: shale oil and gas developments, regional market expansion, innovation and increased awareness. PVC pipe demand is projected to accelerate through 2020, reaching 33.2 million metric tons. Through to 2020, HDPE demand is projected to rise 7.8% a year to 18.1 million metric tons.

The Indian Pipe Industry has experienced rapid growth in the last several years. The major reasons for the growth of this industry is increasing demand for pipes in the irrigation sector, oil and gas sector and also the real estate industry. The demand for plastic pipes such as PVC and CPVC is also increasing as these pipes are better in quality and durability. Infrastructure development, urbanization and the subsequent development of residential and industrial construction are facilitating the growth of the pipe industry in India. Key Government measures such as doubling farm income by 2020, the Pradhan Mantri Krishi Sinchai Yojana, the Swachh Bharat Mission, the Smart City Programme, the Pradhan Mantri Awas Yojana and others supportive policies should help in driving PVC and HDPE pipes demand. Moreover, government actions such as demonetisation, GST, etc., have spurred the market shift from unorganised to organised players which is being accelerated owing to growing awareness about quality products.

Opportunities

The future of the Indian plastic pipe market looks attractive with opportunities in the potable water supply, wastewater supply, agriculture, infrastructure and chemical sector. While agriculture sector is expected to remain the largest growth driver, growth of residential and commercial construction and the growth in infrastructure development are expected to spur growth for this segment. Furthermore, with the key market players integrating more back-end exploration and refining businesses, alongside streamlining

their sourcing operations, opportunities are expected to increase in the coming years.

India is facing one of its major and most serious water crises. There is acute shortage of water in both urban and rural areas due to erratic rainfall patterns and decreasing natural sources of water. More than fifty percent of the country is grappling with drought-like conditions and groundwater is declining faster than it is being replenished. The Union government recently formed a new Jal Shakti (water) ministry, which aims at tackling water issues with a holistic and integrated perspective on the subject. The ministry has announced an ambitious plan to provide piped water connections to every household in India by 2024 which bodes well the industry. Also, the agricultural sector which currently consumes about 80 percent of water in India is likely to be further incentivized to adopt water saving techniques using micro irrigation/drip irrigation.

In the past few years, government of India has initiated many new projects and investments in the irrigation sector. Government's thrust on reviving the farm sector through various initiatives and reforms such as increasing minimum support price, direct income support and interest subvention on crop loans augurs well for the sector. The focus of the government is on rural water management, which will be fulfilled only when there will be proper infrastructure for the transportation of water to the end-user. This factor will remain as one of the major drivers for the growth of PVC pipe industry in the country along with the expansion of housing sector and increasing demand for oil and gas transportation. It has also been anticipated that both urban and rural areas in India are likely to suffer from water shortage problems due to erratic rainfall patterns and decreasing natural sources of water. This will lead to the construction of more borewells across the country to draw groundwater.

Multiple schemes and projects launched in last couple of years are leading to higher demand for pipes. Some of the Schemes are as under:

- **Housing for all by 2022:** Pradhan Mantri Awas Yojna (PMAY) is an GoI initiative in which affordable housing will be provided to the urban poor with a target of building 2 crore affordable houses by 31 March 2022.
- **Smart cities mission:** It is an urban renewal and retrofitting program with the mission to develop 100 cities across the country making them citizen friendly and sustainable. The Government increased allocation for the Smart Cities Mission by 7% to Rs 6,600 crore in Union Budget 2019. Since the launch of the mission, a total of 5,151 projects have been identified and are in various stages of implementation in 100 cities.
- **AMRUT:** The Atal Mission for Rejuvenation and Urban Transformation (AMRUT) was launched with the focus to establish infrastructure that could ensure adequate robust sewage networks and water supply for urban transformation by implementing urban revival projects. An investment of Rs

50,000 crore has been approved by the cabinet.

• **National Rural Drinking Water Programme:** The main objective of this scheme is to provide rural people adequate safe water for drinking, cooking and ensure that all the sections of the communities have access to safe drinking water. This scheme seeks to prevent the contamination of water.

Pradhan Mantri Krishi Sinchayee Yojana (PMKSY): Through this scheme the GoI aims to increase cultivation area with assured irrigation, reduce wastage of water and improve water use efficiency. The initiative not only on creating sources for assured irrigation, but also creating protective irrigation by harnessing rainwater.

Furthermore, Agriculture continues to be an important sector of Indian economy. While it contributes around 18% of the India's GDP, it employs over 50% of country's workforce. Over 50% of the total agricultural land is still dependent on monsoons. This clearly shows the need and potential to increase irrigation coverage in India. The government has laid down several initiatives and reforms that would directly and indirectly trigger higher demand for plastic piping as well as micro irrigation products.

• The government has given a clarion call to double farmer's income by 2022. This is to be achieved by helping farmers to produce more from the same land parcel at lesser cost and at the same time fetch higher prices for their produce. More agricultural land is expected to be brought under irrigation resulting in efficient modes of water transportation.

• Additional institutional credit of Rs1 lakh crore for agriculture sector has been proposed which is positive for the sector.

• Rs2,600 crore of outlay has been allocated to Prime Minister Krishi Sinchai Yojna – 'Har Khet ko Pani' - that focuses on ground water irrigation.

Threats

There is a need to keep vigil on the quality of products being offered in market place as many players have joined the wagon. Constant increase in prices of Raw Material is a severe issue for the PVC Pipes since it has a direct effect over the prices of finished goods product demand.

There are many other threats which includes increasing crude oil prices, import threat from Middle East, neighboring countries specializing in processing industries could lead to imports and replacement threat from substitutes.

Internal Control Systems

At SIL, have well defined and adequate internal controls and procedures, commensurate with its size and nature of its operations. Internal auditors comprising of professional firms of Chartered Accountants have been entrusted the job to conduct regular internal audits at all units/ locations and report to the management the lapses, if any. Both internal auditors and statutory auditors independently evaluate the adequacy of internal control system. Based on the audit observations and suggestions, follow up, remedial measures are being taken including review and increase in the scope of coverage, if necessary. The Audit Committee of Directors, in its periodical meetings, review the adequacy of internal control systems and procedures and suggest areas of improvements.

Human Resources

The company continues to maintain a strong relationship with its employees, in order to improve their efficiency level at the workplace. The Company provides employees with numerous opportunities to increase their knowledge, skills and abilities and enables them to grow in their careers.

Total employee strength as on 31.03.2019 was 585.

ANNEXURE- VI

Corporate Governance Report

The Corporate Governance Report has been prepared in compliance with the requirements of Regulations 17 to 27, read with Schedule V and Clauses (b) to (i) of Regulation 46(2) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (“Listing Regulations”).

COMPANY’S PHILOSOPHY ON CORPORATE GOVERNANCE

The fundamental principle of Corporate Governance is achieving sustained growth ethically and in the best interest of all stakeholders. It is not a mere compliance of laws, rules and regulations, but a commitment to values, best management practices and adherence to the highest ethical principles in all its dealings, to achieve the objects of the Company, enhance stakeholder value and discharge its social responsibility.

Fine Corporate Governance is an essential standard for establishing the striking Investment Environment which is needed by competitive Companies to gain strong position in efficient financial markets. For ensuring sound Corporate Governance practices, the Government of India has put in place a framework based on the stipulations contained under the Companies Act, SEBI Regulations, Accounting Standards, Secretarial Standards, etc. Recently, SEBI has amended certain Corporate Governance related regulations upon recommendation of an expert Committee on Corporate Governance formed under the Chairmanship of Mr. Uday Kotak. Your Company shall ensure that its governance framework incorporates the applicable amendments introduced in the Listing Regulations and the same is proactively communicated and absorbed down the line with a view to strengthen its philosophy of Corporate Governance.

The Company has also established systems, procedures and policies to ensure that its Board of Directors is well informed and well equipped to discharge its overall responsibilities and provide the Management with the strategic direction catering to exigency of long term shareholders value.

GOVERNANCE STRUCTURE

The Company’s governance framework is based on the following principles:

- Appropriate composition and size of the Board, with each member bringing in expertise in their respective domains;
- Availability of information to the members of the Board and Board Committees to enable them to discharge their fiduciary duties;
- Timely disclosure of material operational and financial information to the stakeholders;
- Systems and processes in place for internal control; and
- Proper business conduct by the Board, Senior Management and Employees.

Our Corporate Governance Structure ensures that we make timely disclosures and share accurate information regarding our financials and performance, as well as disclosures related to the leadership and governance of the Company.

ROLE OF THE COMPANY SECRETARY IN OVERALL GOVERNANCE PROCESS

The Company Secretary plays a key role in ensuring that the Board and Committees procedures are followed and regularly reviewed. The Company Secretary ensures that all relevant information, details and documents are made available to the Directors and Senior Management for effective decision making at the Meetings. The Company Secretary is primarily responsible for assisting and advising the Board in conducting the affairs of the Company, to ensure the compliances with applicable statutory requirements, to provide guidance to Directors and to facilitate convening of Meetings. Independent Auditors Report

To,
The Members of
Signet Industries Limited

Report on the Financial Statements

We have audited the financial statements of Signet Industries Limited (“the Company”), which comprise the balance sheet as at 31st March 2019, and the statement of Profit and Loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with accounting principles generally accepted in India, of the state of affairs of the company as at 31st March, 2019, and its profit, total comprehensive income, the changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters	Auditor’s Response
<p>Accuracy of recognition, measurement, presentation and disclosures of revenues and other related balances in view of adoption of Ind AS 115 “Revenue from Contracts with Customers” (new revenue accounting standard)</p> <p>The application of the new revenue accounting standard involves some key points which includes Identification of contract with customer, identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognized. Additionally, new revenue accounting standard contains disclosures which involves collation of information in respect of disaggregated revenue and periods over which the remaining performance obligations will be satisfied subsequent to the balance sheet date.</p>	<p>Principal Audit Procedures</p> <p>We assessed the Company’s process to identify the impact of adoption of the new revenue accounting standard. Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing as follows:</p> <p>Evaluated the design of internal controls relating to implementation of the new revenue accounting standard.</p> <p>Sample selected from continuing and new contracts, and tested the operating effectiveness of the internal control, relating to identification of the distinct performance obligations and determination of transaction price.</p> <p>We have performed the following procedures: • Read, analysed and identified the distinct performance obligations in these contracts. • Compared these performance obligations with that identified and recorded by the Company. • Considered the terms of the contracts to determine the transaction price including any variable consideration to verify the transaction price used to compute revenue and to test the basis of estimation of the variable consideration. •</p> <p>Sample of revenues disaggregated by type and service offerings was tested with the performance obligations specified in the underlying contracts. • Performed analytical procedures for reasonableness of revenues disclosed by type and service offerings. • We reviewed the collation of information and the logic of the report generated from the budgeting system used to prepare the disclosure relating to the periods over which the remaining performance obligations will be satisfied subsequent to the balance sheet date.</p>

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind. AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- a. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- b. Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(I) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- c. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- d. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- e. Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub section (11) of section 143 of the Act, we give in the Annexure A statement on the matters specified in the paragraph 3 and 4 of the Order, to the extent applicable.
2. As required by section 143 (3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company, so far as appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Indian accounting standards specified under section 133 of the act, read with rules framed thereunder.
 - e) On the basis of the written representations received from the directors as on 31st March 2019 taken on records by the Board of Director, none of the directors is disqualified as on 31st March, 2019 from being appointed as a director in terms of section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B".
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. The company has disclosed the impact of pending litigations on its financial position in its financial statement – refer note 35 to the financial statement;
 - ii. The Company did not have any long term contract including derivative contract for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the company.
 - h) With respect to the matter to be included in the Auditors' Report under Section 197(16) of the Act, In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act.

Annexure B To the Independent Auditor's Report of even date on the Financial Statements of Signet Industries Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Signet Industries Limited ("the Company") as of March 31, 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected

depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNET INDUSTRIES LIMITED

Notes forming an integral part to Financial Statements for the year ended on 31st March 2019

Note 44 (a) 'Financial risk management objectives and policies

Risk management framework

The Company's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Company's primary risk management focus is to minimize potential adverse effects of risks on its financial performance. The Company's risk management assessment policies and processes are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management of these policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities. The Board of Directors and the Audit Committee are responsible for overseeing these policies and processes.

a) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates (currency risk) and interest rates (interest rate risk), will affect the companies income or value of its holding of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

i) Interest rate risk

Interest rate risk is the risk the the fair value or future cash flow of a financial instrument will fluctuate because of changes in market interest rate. Fair value interest rate risk is the risk of changes in fair value of fixed interest bearing financial instrument because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing financial instrument will fluctuate because of fluctuations in the interest rates.

The Company's exposure to the risk of changes in market interest rates relates primarily to the borrowing from banks and others. Currently company is not using any mitigating factor to cover the interest rate risk.

Particulars	As at 31st March 2019	As at 31st March 2018
Interest rate risk exposure		
Variable Rate		
Borrowings from banks	19,220.27	22,712.69
Fixed Rate		
Intercompany loan	650.00	650.00
Total borrowings	19,870.27	23,362.69

Interest rate sensitivity

The Company has taken Intercompany loan at fixed rate of interest and are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS - 107, since neither the carrying amount nor the future cash flow will fluctuate because of change in market interest rate.

The sensitivity analysis below have been determined based on exposure to interest rates (variable) for borrowing at the end of the reporting period and the stipulated change taking place at the beginning of the financial year and held constant throughout the reporting period in case of term loans that have floating rates. If the interest rates had been 1% higher or lower and all the other variables were held constant, the effect on Interest expense for the respective financial years and consequent effect on companies profit in that financial year would have been as below:

Particulars	For the Year ended 31st March 2019	For the Year Ended 31st March 2018
Impact on Profit or Loss for the year decrease	-192.20	-227.13
Impact on Profit or Loss for the year Increase	192.20	227.13

ii) Foreign currency risk

The Company enters into transactions in currency other than its functional currency and is therefore exposed to foreign currency risk. The Company analyses currency risk as to which balances outstanding in currency other than the functional currency of that Company. The company enters in to derivative financial instrument such foreign currency forward contract and option contracts to mitigate the risk of changes in exchange rate on foreign currency exposure.

Following table analysis foreign currency assets and liabilities on balance sheet date.

Sensitivity to foreign currency risk	0.20	(0.20)	121.80	(121.80)

(b) Credit risk

"Credit risk is the risk that arises from the possibility that the counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Financial assets that are subject to such risk, principally consist of trade receivables, Investments and loans and advances. None of the financial instruments of the company results in material concentration of credit risk. Financial assets are written off when there is no reasonable expectation of recovery, however, the Company continues to attempt to recover the receivables. Where recoveries are made, these are recognised in the Statement of Profit and Loss. The impairment for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each balance sheet date."

"Trade and other receivables

Exposures to customers outstanding at the end of each reporting period are reviewed by the Company to determine expected credit losses. Historical trends of impairment of trade receivables do not reflect any significant credit losses. Impaired amounts are based on lifetime expected losses based on the best estimate of the management. Further, management believes that the unimpaired amounts that are past due by more than 180 days are still collectible in full, based on historical payment behaviour and extensive analysis of customer credit risk. The impairment loss related to several customers that have defaulted on their payments to the Company and are not expected to be able to pay their outstanding balances, mainly due to economic circumstances. The movement in the allowance for impairment in respect of trade and other receivables during the year was as follows. "

The ageing analysis of the trade receivables has been considered as under :

Particular	As at 31st March 2019	As at 31st March 2018
Up to 6 months	26891.09	26528.05
More than 6 months	2599.29	2817.29
Total	29,490.38	29,345.35

The following table summarizes the change in the loss allowances measured using expected credit loss

Particulars	Amount

Reversed during the year	44.05
Balance as at 31st March, 2018	251.08
Provided during the year	55.13
Reversed during the year	(74.15)
Balance as at 31st March, 2019	232.06

"InvestmentsThe Company limits its exposure to credit risk by generally investing in counter -parties that have good credit rating . The Company does not expect any losses from non-performance by these counter-parties apart from those already given in financials, and does not have any significant concentration of exposures to specific industry sectors or specific country risks."

(c) Liquidity risk

"Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due.

The Company has obtained fund and non-fund based working capital lines from various banks. The company's treasury department is responsible for liquidity, funding as well as settlement management. In addition, process and policies related to such risk are overseen by senior management. Management monitors the company's net liquidity position through rolling forecasts on the basis of expected cash flows."

"To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into three levels prescribed under the Ind AS. An explanation for each level is given below.

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable."

Signet Industries Limited

A. General Information

Signet Industries Limited was incorporated on January 29, 1985 under the Companies Act 1956, having its Registered Office in Mumbai. Company is engaged in Merchant Trading of All Kind of Polymers & Other Products and Manufacturing of Micro Irrigation System (DRIP), Sprinkler Pipe / PVC Pipe & Agro fittings and its Allied Products, all type of House Hold & Plastic Moulded Furniture. The Company's shares are listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). The Company's shares are traded on both Bombay Stock Exchange and National Stock Exchange of India Limited.

B. Significant accounting policies

i. Statement of compliance

The separate financial statements have been prepared in accordance with Indian Accounting standards ("Ind AS") notified, under section 133 of the Companies Act, 2013 ('Act') read with the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standard) Amendment Rules 2016 and the relevant provisions of the Act.

ii. Basis of Preparation

The financial statements have been prepared on accrual basis and under the historical cost convention except for certain financial instruments which are measured at fair value at the end of each reporting period, as explained in the accounting policies mentioned below.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. The Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The company has identified twelve months as its operating cycle.

Functional and presentation currency

These separate financial statements are presented in Indian rupees, which is the Company's functional currency. All amounts have been rounded to the nearest Rupees in lacs unless otherwise indicated.

iii. Use of Estimates, Judgments and Assumptions

The preparation of financial statements in accordance with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

All the assets and liabilities have been classified as current or non-current as per the company's normal operating cycle of twelve months and other criteria set out in Schedule III to the Companies Act, 2013.

Significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have significant effect on amount recognized in the financial statements are :

- i. Allowance for bad and doubtful trade receivable.
- ii. Recognition and measurement of provision and contingencies.
- iii. Depreciation/Amortisation and useful lives of Property, plant and equipment / Intangible Assets.
- iv. Recognition of deferred tax .
- v. Income Taxes.
- vi. Measurement of defined benefit obligation.
- vii. Impairment of Non-financial assets and financial assets.

iv. Revenue

Recognition

The company recognised revenue i.e. account for a contract with a customer only when all of the following criteria are met:

- (a) the parties to the contract have approved the contract (in writing, orally or in accordance with other customary business practices) and are committed to perform their respective obligations;
- (b) the entity can identify each party's rights regarding the goods or services to be transferred;

- (c) the entity can identify the payment terms for the goods or services to be transferred;
- (d) the contract has commercial substance (ie the risk, timing or amount of the entity's future cash flows is expected to change as a result of the contract); and
- (e) it is probable that the entity will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer. In evaluating whether collectability of an amount of consideration is probable, an entity shall consider only the customer's ability and intention to pay that amount of consideration when it is due. The amount of consideration to which the entity will be entitled may be less than the price stated in the contract if the consideration is variable because the entity may offer the customer a price concession.

Measurement

When (or as) a performance obligation is satisfied, company recognise as revenue the amount of the transaction price (which excludes estimates of variable consideration that are constrained) that is allocated to that performance obligation.

Sale of goods

Revenue is recognised upon transfer of control of promised goods to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those goods. Revenue from the sale of goods is recognised at the point in time when control is transferred to the customer which is usually on dispatch / delivery of goods, based on contracts with the customers. Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, price concessions, incentives, and returns, if any, as specified in the contracts with the customers. Revenue excludes taxes collected from customers on behalf of the government. Due to the short nature of credit period given to customers, there is no financing component in the contract.

Sale of Services

Revenue from services rendered is recognised as the services are rendered and is booked based on agreements/arrangements with the concerned parties.

Interest and Dividend

Interest income is recognized on accrual basis using the effective interest method. Dividend income is recognised in profit or loss on the date on which the company's right to receive payment is established.

v. Inventories

Inventories are valued at lower of cost and net realisable value, except scrap are valued at net realisable value. Cost of inventory is arrived at by using FIFO Method. Cost of inventory generally comprises of cost of purchase, cost of conversion and other cost incurred in bringing the inventory to their present location and condition.

vi. Property, Plant and Equipment

Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses (if any). Freehold land is measured at costs.

The cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, acquisition or construction cost including borrowing costs, any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Leasehold lands are amortised over the period of lease. Buildings constructed on leasehold land are depreciated based on the useful life specified in schedule II to the Companies Act, 2013, where the lease period of land is beyond the life of the building (or right to continue exist). In other cases, buildings constructed on leasehold lands are amortised over the primary lease period of the lands.

Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the company.

Capital work in progress

Assets under erection/installation are shown as "Capital work in progress", Expenditure during construction period are shown as "pre-operative expenses" to be capitalized on erection/installations of the assets.

iv. Depreciation

Depreciation on property, plant and equipment is provided on straight line method as per the useful life of the assets in the manner as specified in Schedule II to the Companies Act, 2013. The estimated useful life of assets and estimated residual value is taken as prescribed under Schedule II to the Companies Act, 2013.

Depreciation on additions during the year is provided on pro rata basis with reference to date of addition/installation. Depreciation on assets disposed /discarded is charged up to the date on which such asset is sold.

The estimated useful lives, residual value and depreciation method are reviewed at the end of each balance sheet date, any changes therein are considered as changes in estimate and accordingly accounted for prospectively. Gains and losses on disposal are determined by comparing proceeds with carrying amounts. These are included in the statement of Profit and Loss.

vii. Intangible Assets

Identifiable intangible assets are recognised when it is probable that future economic benefits attributed to the asset will flow to the Company and the cost of the asset can be reliably measured. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

Recognition and measurement

Intangible assets are held at cost less accumulated amortisation and impairment losses. Intangible assets developed or acquired with finite useful life are amortised on straight line basis over the useful life of asset. Computer softwares have finite useful lives and are measured at cost less accumulated amortisation and any accumulated impairment losses.

Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, when incurred is recognised in statement of profit or loss.

Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful lives and is generally recognised in statement of profit or loss. Computer software are amortised over their estimated useful life of 3 years.

Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted, if required.

viii. Employee benefits**Short term employee benefits**

The undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered by employees is recognized during the period when the employees renders the services. These benefits include compensated absence also.

Defined benefit plans

The company pays gratuity to the employees who have completed 5 Years of service with company at the time when the employee leaves the company as per the payment of gratuity act 1972

The cost of providing benefits under the defined benefit plan is determined using the actuarial valuation on projected unit credit method made at the end of each financial year.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements of the net defined benefit liability (asset) recognised in other comprehensive income shall not be reclassified to profit or loss in a subsequent period.

The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs; and
- Net interest expense or income

Other employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized as a liability at the present value of obligation as at the Balance sheet

date determined based on an actuarial valuation.

Defined Contribution Plan

The company's payments to the defined contribution plans are recognized as expenses during the period in which the employees perform the services that payment covers. Defined contribution plan comprise of contribution to the employees' provident fund with government, Employees' State Insurance and Pension Scheme.

ix. Income Tax

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in OCI.

Current tax

Current income-tax expense or credit is measured at the amount expected to be paid to the taxation authorities in accordance with the Income-tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current tax also includes any tax arising from dividends.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in OCI or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Current tax assets and liabilities are offset only if, the Company:

- a) has a legally enforceable right to set off the recognised amounts; and
- b) intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably, and it is probable that the future economic benefit associated with the asset will be realised.

Deferred tax assets and liabilities are offset only if:

- a) the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

x. Foreign currency transactions

- (i) All transactions in foreign currency are recorded at the rates of the exchange prevailing on the dates when the relevant transactions took place; any gain/ loss on account of the fluctuations in the rate of exchange is recognized in the statement of Profit and Loss.
- (ii) Monetary items in the form of loans, current assets and current liabilities in foreign currencies at the close of the year are converted in the Indian currency at the appropriate rate of exchange prevailing on the dates of the Balance Sheet. Resultant gain or loss on account of fluctuation in the rate of exchange is recognized in the statement of Profit and Loss.
- (iii) Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated in to functional

currency at the exchange rate when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not translated.

- (iv) In respect of the Forward Exchange Contracts entered into to hedge foreign currency risks, the difference between the Forward Rate and Exchange Rate at the inception of the contract is recognized as income or expense.

xi. Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur.

Borrowing costs consist of interest and amortization of ancillary costs incurred in connection with the arrangement of borrowed funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

xii. Cash and Cash Equivalent

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalent includes the cash and Cheques in hand, bank balances, demand deposits with bank and other short term highly liquid investments and balances with banks which are unrestricted for withdrawal and usage.

Bank overdraft are shown within borrowings in current liabilities in the balance sheet and forms part of financing activities in the cash flow statement. Book overdraft are shown within other financial liabilities in the balance sheet and forms part of operating activities in the cash flow statement.

xiii. Cash Flow Statement

Cash flows are reported using the indirect method, where by profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

xiv. Earning Per Share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period.

Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Potential ordinary shares shall be treated as dilutive when, and only when, their conversion to ordinary shares would decrease earnings per share or increase loss per share from continuing operations.

Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

xv. Segment Accounting Policies

- (i) The company has disclosed business segment as the primary segment. Based on the criteria mentioned in Ind AS 108 "Operating Segment" the company has identified its reportable segments.

The Chief Operating Decision Maker (CODM) evaluates the company's performance and allocates resources based on an analysis of various performance indicators by operating segments. The CODM reviews revenue and gross profit as performance indicator for all of the operating segments. The various segment identified by the company comprised as under: -

Name of Segment	Comprised of
Manufacturing	-Manufacturing of Irrigation and Plastic Products
Wind Power Unit	-Wind Turbine Power Unit
Trading	-Merchant Trading of Various Products

- (ii) Segment revenue, segment results, segment assets and segment liabilities include respective amounts directly identified with the segment and also an allocation on reasonable basis of amounts not directly identified. The expenses which are not directly relatable to the business segment are shown as unallocated corporate cost. Assets and liabilities that cannot be allocated between the segments are shown as un-allocable corporate assets and liabilities respectively.
- (iii) The Company has identified geographical segments as the secondary segment. Secondary segments comprise of domestic and export markets. However, company has no export sales.

xvi. Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when there is a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation, or the amount of the obligation cannot be measured with sufficient reliability. The Company does not recognize a contingent liability but discloses its existence in the financial statements

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are not recognized, but its existence is disclosed in the financial statements

xvii. Lease

Company as a lessee

A lease is classified at the inception date as finance lease or an operating lease. Leases under which the company assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of lease, whichever is lower. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized in finance costs in the statement of profit and loss.

Other leases are treated as operating leases, with payments are recognized as expense in the statement of profit and loss on a straight line basis over the lease term, unless the payments are structured to increase in line with the expected general inflation to compensate for the lessor's expected inflationary cost increases.

xviii. Impairment of Non-Financial Assets

The company assesses at each reporting date whether there is any objective evidence that a non-financial asset or a group of non-financial assets are impaired. If any such indication exists, the company estimates the amount of impairment loss. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or group of assets is considered as cash generating unit. If any such indication exists, an estimate of the recoverable amount of the individual asset/cash generating unit is made.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognized in profit or loss and reflected in an allowance account. When the company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, then the previously recognized impairment loss is reversed through profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been in place had there been no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in Statement of Profit and Loss, taking into account the normal depreciation/amortization.

xix. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts, interest rate swaps and currency options; and embedded derivatives in the host contract.

i. Financial assets

Classification

The Company shall classify financial assets and subsequently measured at amortised cost, fair value through other comprehensive income (FVOCI) or fair value through profit or loss (FVTPL) on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Initial recognition and measurement

All financial assets are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset, in the case of financial assets not recorded at fair value through profit or loss. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the company commits to purchase or sell the asset.

Financial Assets measured at amortised cost

A financial asset is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. This category generally applies to trade and other receivables.

Financial Asset measured at fair value through other comprehensive income (FVOCI)

A financial asset is measured at FVOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI.

Financial assets included within the FVOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the profit and loss.

On derecognition of the non-derivative debt instruments designated at FVOCI, cumulative gain or loss previously recognised in OCI is reclassified from the equity to profit and loss. Whereas on derecognition of the equity instruments designated at FVOCI, cumulative gain or loss previously recognised in OCI is reclassified from the equity to retained earnings.

Interest earned whilst holding FVOCI debt instrument is reported as interest income using the EIR method.

Financial Asset measured at fair value through profit and loss (FVTPL)

FVTPL is a residual category for financial asset. Any financial asset, which does not meet the criteria for categorization as at amortized cost or as FVOCI, is classified as at FVTPL.

In addition, the company may elect to classify a financial asset, which otherwise meets amortized cost or FVOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Financial assets included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a company of similar financial assets) is primarily derecognised (i.e. removed from the company's balance sheet) when:

- i. The rights to receive cash flows from the asset have expired, or
- ii. The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.
- iii. When the company has transferred its rights to receive cash flows from an asset or has entered into a pass-through

arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognise the transferred asset to the extent of the company's continuing involvement. In that case, the company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the company has retained.

- iv. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the company could be required to repay.

Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.
- b) Trade receivables.

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

- i. Trade receivables which do not contain a significant financing component.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

- ii. For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

ii. Financial liabilities

Classification

The Company classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through profit or loss. Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value.

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Financial liabilities measured at fair value through profit or loss.

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the group that are not designated as hedging instruments in hedge relationships as defined by Ind-AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/loss are not subsequently transferred to P&L. However, the company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

This category generally applies to interest-bearing loans and borrowings.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount is presented in the balance sheet when, and when the company has a legally enforceable right to set off the amount and it intends either to settle them on net basis or to realize the asset and settle the liability simultaneously

xx. Derivative financial instruments

The company uses derivative financial instruments, such as forward currency contracts, interest rate swaps and forward commodity contracts, to hedge its foreign currency risks, interest rate risks and commodity price risks, respectively. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

xxi. Measurement of fair values

The Company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The Company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

xxi. Mandatory exceptions applied – Standard Issued but not yet effective

Ind AS 116 Leases : On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 116, Leases. Ind AS 116 will replace the existing leases Standard, Ind AS 17 Leases, and related Interpretations. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the statement of Profit & Loss. The Standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

The effective date for adoption of Ind AS 116 is annual periods beginning on or after April 1, 2019. The standard permits two possible methods of transition: • Full retrospective – Retrospectively to each prior period presented applying Ind AS 8 Accounting Policies, Changes in Accounting Estimates and Errors

• Modified retrospective – Retrospectively, with the cumulative effect of initially applying the Standard recognized at the date of initial application.

The Company is currently evaluating the effect of this amendment on the standalone financial statements.

Amendment to Ind AS 19 – plan amendment, curtailment or settlement : On March 30, 2019, Ministry of Corporate Affairs issued amendments to Ind AS 19, ‘Employee Benefits’, in connection with accounting for plan amendments, curtailments and settlements.

The amendments require an entity: • to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and • to recognise in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019. The Company does not have any impact on account of this amendment.

Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments : On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments which is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

The standard permits two possible methods of transition - i) Full retrospective approach – Under this approach, Appendix C will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors, without using hindsight and ii) Retrospectively with cumulative effect of initially applying Appendix C recognized by adjusting equity on initial application, without adjusting comparatives.

The effective date for adoption of Ind AS 12 Appendix C is annual periods beginning on or after April 1, 2019. The Company has not finalized which method to follow and currently evaluating the effect of this amendment on the standalone financial statements.

Amendment to Ind AS 12 – Income taxes : On March 30, 2019, Ministry of Corporate Affairs issued amendments to the guidance in Ind AS 12, ‘Income Taxes’, in connection with accounting for dividend distribution taxes.

The amendment clarifies that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019. The Company is currently evaluating the effect of this amendment on the standalone financial statements.
