“Annexure B” to the Independent Auditor’s Report of even date on the Financial Statements of YASH TRADING AND FINANCE LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the Standalone financial statements of the Company as of and for the year ended March 31, 2018 we have audited the internal financial controls over financial reporting of **YASH TRADING AND FINANCE LIMITED**. (“the Company”) which is a Company incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- i. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- ii. Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- iii. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to Financial Statements

Note 1: Significant Accounting Policies

1. Summary of significant accounting policies

1.1. Basis of preparation

The financial statements have been prepared to comply in all material respects with the Indian Accounting Standards ('Ind AS') notified under section 133 of the Companies Act, 2013 read together with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016 issued by the Ministry of Corporate Affairs, except additional disclosures required by the Companies Act 2013 (as these financial statements are not statutory financial statements, full compliance with the above Act is not required). The said financial statements for the year ended March 31, 2018 are the first financial statements of the Company in accordance with Ind AS. Refer Note 1.3 on how the Company has transitioned to Ind AS.

The transition to Ind AS has been carried out from accounting standards notified under section 133 of the Companies Act 2013, (the 'Act') read together with paragraph 7 of the Companies (Accounts) Rules, 2014 ('IGAAP'), which is considered as the 'Previous GAAP' for purposes of Ind AS 101.

The preparation of the said financial statements requires the use of certain critical accounting estimates and judgments. It also requires the management to exercise judgment in the process of applying the Company's accounting policies. The areas where estimates are significant to the financial statements, or areas involving a higher degree of judgment or complexity, are disclosed in Note 2.

The financial statements are based on the classification provisions contained in Ind AS 1, 'Presentation of Financial Statements' and division II of schedule III of the Companies Act 2013. Further, for the purpose of clarity, various items are aggregated in statement of profit and loss and balance sheet. Nonetheless, these items are dis-aggregated separately in the notes to the financial statements, where applicable or required.

1.2. Basis of measurement

The financial statements have been prepared on the accrual and going concern basis, and the historical cost convention except where the Ind AS requires a different accounting treatment.

Fair value measurement

Fair value is the price at the measurement date, at which an asset can be sold or paid to transfer a liability in an orderly transaction between market participants. The Company's accounting policies require, measurement of certain financial / non-financial assets and liabilities at fair values (either on a recurring or non-recurring basis). Also, the fair values of financial instruments measured at amortised cost are required to be disclosed in the said financial statements.

The Company is required to classify the fair valuation method of the financial / non-financial assets and liabilities, either measured or disclosed at fair value in the financial statements, using a three level fair-value-hierarchy (which reflects the significance of inputs used in the measurement). Accordingly, the Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

1.3. Basis of transition to Ind AS

The adoption of Ind AS is carried out in accordance with Ind AS 101 on April 1, 2015 being the transition date. Ind AS 101 requires that all Ind AS standards that are issued and effective for the year ending March 31, 2018, be applied retrospectively and consistently for all the periods presented. However, in preparing these financial statements, the Company has availed of certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying value of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognized directly in equity at the transition date.

In these financial statements, the Company has presented three balance sheets - as of March 31, 2018, March 31, 2017 and April 1, 2016. The Company has also presented three statements of profit and loss, three statements of changes in equity and three statements of cash flows for the year ended March 31, 2018 and March 31, 2017 along with the necessary and related notes.

Ind AS 101 allows first-time adopters certain optional exemptions and mandatory exceptions from the retrospective application of certain requirements under Ind AS.

Exemptions / exceptions from full retrospective application

The following mandatory exceptions from retrospective application of Ind AS have been applied by the Company:

- a. **Estimates exception** - On an assessment of the estimates made under the Previous GAAP financial statements, the Company has concluded that there is no necessity to revise the estimates under Ind AS (except for adjustments to reflect any difference in accounting policies), as there is no objective evidence that those estimates were in error. However, estimates, that were required under Ind AS but not required under Previous GAAP, are made by the Company for the relevant reporting dates, reflecting conditions existing as at that date without using any hindsight.

- b. **De-recognition of financial assets and liabilities exception** - Financial assets and liabilities de-recognized before transition date are not re-recognized under Ind AS.

There is no effect of the transition from previous GAAP to Ind – AS on the Company’s equity, statement of profit and loss and statement of cash flows.

1.4. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current / non-current classification. Deferred tax assets and liabilities, and all assets and liabilities which are not current (as discussed in the below paragraphs) are classified as non-current assets and liabilities.

An asset is classified as current when it is expected to be realized or intended to be sold or consumed in normal operating cycle, held primarily for the purpose of trading, expected to be realized within twelve months after the reporting period, or cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current when it is expected to be settled in normal operating cycle, it is held primarily for the purpose of trading, it is due to be settled within twelve months after the reporting period, or there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

1.5. Property, plant and equipment (‘PPE’)

The company does not have any property, plant and equipment.

1.6. Impairment of non-financial assets

The company does not have any Property, plant and equipment, thus Impairment of non-financial assets is not applicable.

1.7. Financial instruments

Recognition, classification and presentation

The financial instruments are recognized in the Balance Sheet when the Company becomes a party to the contractual provisions of the financial instrument.

The Company determines the classification of its financial instruments at initial recognition.

The Company recognizes its investment in subsidiaries, joint ventures and associates at cost less any impairment losses. The Company classifies its other financial assets in the following categories: a) those to be measured subsequently at fair value through profit or loss, and b) those to be measured at amortized cost. The classification depends on the entity’s business model for managing the financial assets and the contractual terms of the cash flows.

The Company has classified all the non-derivative financial liabilities in the other financial liabilities category. Financial assets and liabilities arising from different transactions are off-set against each other and the resultant net amount is presented in the Balance Sheet, if and only when, the Company currently has a legally enforceable right to set-off the related recognized amounts and intends either to settle on a net basis or to realize the assets and settle the liabilities simultaneously.

Measurement – Non-derivative financial instruments

Initial measurement

At initial recognition, the Company measures the non-derivative financial instruments at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Otherwise transaction costs are expensed in the statement of profit and loss.

Subsequent measurement - financial assets

The subsequent measurement of the non-derivative financial assets depends on their classification as follows:

- **Financial assets measured at amortized cost**

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost using the effective-interest rate (‘EIR’) method (if the impact of discounting / any transaction costs is significant). Interest income from these financial assets is included in finance income.

- **Financial assets at fair value through profit or loss (‘FVTPL’)**

All financial assets that do not meet the criteria for amortized cost are measured at fair value through profit or loss. Interest (basis EIR method) income from FVTPL is recognized in the statement of profit and loss within finance income/ finance costs separately from the other gains/ losses arising from changes in the fair value.

Impairment

The company assesses on a forward looking basis the Expected Credit Losses (ECL) associated with its assets carried at amortized cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk since initial recognition. If credit risk has not increased significantly, twelve month ECL is used to provide for impairment loss, otherwise lifetime ECL is used.

However, only in case of trade receivables, the company applies the simplified approach which requires expected lifetime losses to be recognized from initial recognition of the receivables.

Subsequent measurement - financial liabilities

Other financial liabilities are initially recognized at fair value less any directly attributable transaction costs. They are subsequently measured at amortized cost using the EIR method (if the impact of discounting / any transaction costs is significant).

Measurement –derivative financial instruments

Derivative financial instruments, including separated embedded derivatives are classified as financial instruments at fair value through profit or loss - Held for trading. Such derivative financial instruments are initially recognised at fair value. They are subsequently re-measured at their fair value, with changes in fair value being recognised in the statement of profit and loss within finance income / finance costs.

De-recognition

The financial liabilities are de-recognized from the Balance Sheet when the under-lying obligations are extinguished, discharged, lapsed, cancelled, expires or legally released. The financial assets are de-recognized from the Balance Sheet when the rights to receive cash flows from the financial assets have expired, or have been transferred and the Company has transferred substantially all risks and rewards of ownership. The difference in the carrying amount is recognized in statement of profit and loss.

1.8. Taxes

The income tax expense comprises of current and deferred income tax. Income tax is recognized in the statement of profit and loss, except to the extent that it relates to items recognized in the other comprehensive income or directly in equity, in which case the related income tax is also recognized accordingly.

i. Current tax

The current tax is calculated on the basis of the tax rates, laws and regulations, which have been enacted or substantively enacted as at the reporting date. The payment made in excess / (shortfall) of the Company's income tax obligation for the period are recognized in the Balance Sheet as current income tax assets /liabilities.

Any interest / penalties, related to accrued liabilities for potential tax assessments are not included in Income tax charge or (credit), but are rather recognized within finance costs.

ii. Deferred tax

Deferred tax is recognized, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements. However, deferred tax are not recognized if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss.

Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

The unrecognized deferred tax assets / carrying amount of deferred tax assets are reviewed at each reporting date for recoverability and adjusted appropriately.

Deferred tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

1.9. Cash and cash equivalents

Cash and cash equivalents include cash in hand, bank balances and any deposits with original maturities of three months or less (that are readily convertible to known amounts of Cash and cash equivalents and subject to an insignificant risk of changes in value). However, for the purpose of the Statement of cash flows, in addition to above items, any bank overdrafts / cash credits that are integral part of the Company's cash management, are also included as a component of Cash and cash equivalents.

1.10. Share capital / Share premium

Ordinary shares are classified as Equity when the Company has an un-conditional right to avoid delivery of cash or another financial asset, that is, when the dividend and repayment of capital are at the sole and absolute discretion of the Company and there is no contractual obligation whatsoever to that effect.

1.11. Employee benefits

The Company's employee benefits mainly include wages, salaries and bonuses. The employee benefits are recognized in the period in which the associated services are rendered by the Company employees.

1.12. Provisions**i. General**

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources will be required to settle the said obligation, and the amounts of the said obligation can be reliably estimated.

Provisions are measured at the present value of the expenditures expected to be required to settle the relevant obligation, using a pre-tax rate that reflects current market assessments of the time value of money (if the impact of discounting is significant) and the risks specific to the obligation. The increase in the provision due to un-winding of discount over passage of time is recognized within finance costs.

ii. Contingencies

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Seven Appeals have been filed with the Income Tax Department, Bhubaneswar on 23rd April, 2015. The appeals have been partially allowed in October 2016. Company has further appealed to Income Tax Appellate Tribunal, Cuttack Bench in March 2017.

1.13. Revenue recognition

Revenue is recognized when it is probable that the entity will receive the economic benefits associated with the transaction and the related revenue can be measured reliably. Revenue is recognized at the fair value of the consideration received or receivable, which is generally the transaction price, net of any taxes / duties, discounts and process waivers.

1.14. Borrowing costs

Borrowing costs consist of interest and other ancillary costs that the Company incurs in connection with the borrowing of funds. The borrowing costs directly attributable to the acquisition or construction of any asset that takes a substantial period of time to get ready for its intended use or sale are capitalized. All the other borrowing costs are recognized in the statement of profit and loss within finance costs of the period in which they are incurred.

1.15. Earnings per share ('EPS')

The Company presents the Basic and Diluted EPS data.

Basic EPS is computed by dividing the profit for the period attributable to the shareholders of the Company by the weighted average number of shares outstanding during the period.

Diluted EPS is computed by adjusting, the profit for the year attributable to the shareholders and the weighted average number of shares considered for deriving Basic EPS, for the effects of all the shares that could have been issued upon conversion of all dilutive potential shares.

1.16. Segment Reporting

The Company operates only in one business and geographical segment. Therefore, segment information as per Ind AS-108, 'Segment Reporting', has not been disclosed.

2. Critical accounting estimates and assumptions

The estimates and judgments used in the preparation of the said financial statements are continuously evaluated by the Company, and are based on historical experience and various other assumptions and factors (including expectations of future events), that the Company believes to be reasonable under the existing circumstances. The said estimates and judgments are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

Although the Company regularly assesses these estimates, actual results could differ materially from these estimates - even if the assumptions under-lying such estimates were reasonable when made, if these results differ from historical experience or

other assumptions do not turn out to be substantially accurate. The changes in estimates are recognized in the financial statements in the period in which they become known.

3. Standards issued but not yet effective up to the date of issuance of the Company's financial statements

The new Standards, amendments to Standards that are issued but not yet effective until the date of authorization for issuance of the said financial statements are discussed below. The Company has not earlier adopted these amendments, and intends to adopt when they become effective.

Ind AS 102 'Share based payments'

In March 2018, MCA issued amendments to Ind AS 102 pertaining to measurement of cash-settled share based payments, classification of share-based payments settled net of tax withholdings and accounting for modification of a share based payment from cash-settled to equity-settled method.

The amendments are applicable to annual periods beginning on or after April 1, 2017 with early adoption permitted. The Company does not expect that the adoption of the amendments will not have any significant impact on the said financial statements.
