Your Company had earlier diversified into manufacturing of Modular and Pre-fabricated accommodation systems for the domestic infrastructure and real estate sectors. Both these sectors have been facing capital constrain and have not recovered from the adverse business environment. Hence, your Company has now decided to suspend the manufacturing of these products.

In the meantime, we are in the process of repairing and modifying our stock of existing unfinished goods stock of containers.

Payment of unsecured loan together with interest to Promoters:

Some of the promoters of the company had provided unsecured loan to the company somewhere during the year 1997-98, when the company was in financial distress. The Company was under the belief that these unsecured loans were interest free and also linked to the recovery of past loans advanced by the Company. However at a much later stage when the said Promoters started demanding the repayment of the loans alongwith interest @ 12% P.A., a dispute arose between the said Promoters and the company. Thereafter the said Promoters chose to file a case against the Company in the Bombay High Court for recover of their loans. Later on the behest of the High Court and with a view to bring an end to this dispute, the company agreed and filed consent terms in the said High Court and paid to the promoters the entire amount of unsecured loan together with interest @ 9% P.A. which amounted to Rs.15.20 crores, which has been debited to Statement of Profit & Loss Account for the Financial year under review.

Share Capital:

The Company has not issued any shares during the financial year 2019-20 and therefore the Share Capital remained same during the said year.

Current Status:

The working position of the Company in the financial year 2019-20 continues to remain stagnant as stated above. Hence, the Company does not have any plans to diversify into other activities after experiencing the adverse market condition for the past several years. The Company has been able to dispose off most of it's old and deteriorated inventories. Further the Company has also undertaken the process to monetize it's factory land.

5) Management, Discussion and Analysis:

The shipping industry world-wide is still facing global recessionary trends resulting in under performance. Moreover, due to over capacity of container manufacturing created by China, the prices of container have not improved but has lowered further. Hence, the manufacturing of ISO Marine Freight Cargo Containers in India will remain to be unviable. The Company has not been able to commence the manufacturing of prefabricated and modular accommodation system which was kept on hold earlier as the main end users viz. Real Estate Companies and other Industries are yet to recover from the liquidity crunch and low demands mainly as a result of demonetization declared by the Indian Government. Under the circumstances your Company has decided to suspend the manufacturing activities in this field.

6) Board Evaluation

Pursuant to the provisions of the Companies Act, 2013 and in compliance with the requirements of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Board has carried out the annual performance evaluation of its own performance, the Directors individually as well as the evaluation of the working of its Committees. A structured questionnaire was prepared after taking into consideration inputs received from the Directors, covering various aspects of the Board's functioning.

A separate exercise was carried out to evaluate the performance of individual Directors including the Chairman of the Board. The performance evaluation of the Independent Directors was carried out by the entire Board without the presence of Independent Directors. The performance evaluation of the Chairman and the Non-Independent Directors was carried out by the Independent Directors who also reviewed the performance of the Key Managerial Personnel. The Directors expressed their satisfaction with the evaluation process.

Independent Auditor's report on the Financial Statements

То,

The Members of Trans Freight Containers Ltd.

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying Standalone Ind AS financial statements of Trans Freight Containers Limited ("the Company"), which comprises of the Balance Sheet as at March 31, 2020, the Statement of Profit and Loss (including other comprehensive income), the Statement of Cash Flow and the Statement of Changes in Equity for the year then ended and a summary of significant accounting policies and other explanatory information (herein after referred to as "Standalone Ind AS financial statements").

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 (""the Act"") with respect to the preparation and presentation of these Standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Standalone Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of Standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Standalone Ind AS financial statements

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS financial statements give the information required by the Act in the manner so required and

give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the Company as at March 31, 2020 and its financial performance including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE IND AS FINANCIAL STATEMENTS OF TRANS FREIGHT CONTAINERS LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Trans Freight Containers Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation

of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

1 Corporate Information

Trans Freight Containers Limited ('the Company') is a public Company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on Bombay Stock Exchange in India. The registered office of the Company is located at Mulund Industrial Estate Services Co-op. Society Ltd. Nahur Road, Mulund (West), Mumbai-400 080.

The company is engaged in the manufacture and export of marine freight cargo containers. The company also manufactures truck body panels which have applications in the pharmaceuticals, food and beverage, electronic and the White goods industries. The company's headquarter is at Mumbai. They are having their manufacturing facility located at Tarapur in Maharashtra.

The financial statements for the year ended March 31, 2020 were approved by the Board of Directors and authorised for issue on September 02,2020.

2 Significant Accounting Policies

2.1 Basis of preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended by the Companies (Indian Accounting Standards) (Amendment) Rules, 2016, under the historical cost convention on the accrual basis except for derivative financial instruments and certain financial assets and liabilities which are measured at fair value.

2.2 Summary of significant accounting policies

(a) Revenue recognition

(i) Sale of goods

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns, trade discounts and volume rebates.

(ii) Interest income

Income from Interest on fixed deposits is recognised using effective interest rate method.

(iii) Dividend income

Revenue is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

(b) Taxes

(i) Current income tax

Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income.

Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

(c) Impairment of non financial assets

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the

statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

(d) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprises of cash at banks and cash in hand.

(e) Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

Raw materials: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.

Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(f) Financial instruments

(i) Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

(ii) Subsequent measurement

a. Non-derivative financial instruments

(i) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

(ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

(iv) Financial liabilities

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognised in the profit or loss. Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied.

Financial liabilities at amortised cost

Financial liabilities are subsequently carried at amortized cost using the effective interest rate method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments. "

(iii) Derecognition of financial instruments

The company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

(iv) Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 28 details how the Company determines whether there has been a significant increase in credit risk.

(v) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(g) Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation. Cost directly attributable to the acquisition are capitalised until the property, plant and equipment are ready for use, as intended by management. The Company depreciates property, plant and equipment over their estimated useful lives as specified in Schedule II of the Companies Act, 2013 using the written down value method. The estimated useful lives of assets are as follows:

Buildings	30	Years
Plant and Equipments*	8-15	Years
Furniture and Fixtures	10	Years
Vehicles	8 - 10	Years
Air- Conditioners	5- 15	Years
Office Equipments	5	Years
Computer Hardwares	3 - 6	Years
Factory Equipments	15	Years
Flats	60	Years
Electric Installations	10	Years

* Based on technical evaluation, the management believes that the useful lives for few plant and machinery best represent the period over which management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

The residual values are not more than 5% of the original cost of the asset. The Useful lives and residual values are reviewed periodically, including at each financial year end.

Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the Statement of Profit and Loss when incurred.

The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell."

(h) Provisions, Contingent Liabilities and Commitments

A provision is recognized if, as a result of a past event, the company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Contingent liability is disclosed in the case of:

- a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- a present obligation arising from past events, when no reliable estimate is possible;
- a present obligation arising from past events, unless the probability of outflow of resources

Commitments include the amount of purchase order(net of advances) issued to parties for completion of assets.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Provident Fund

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due.

(j) Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the group are segregated based on available information.

(k) Current/non current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The company has identified twelve months as its operating cycle.

(I) Earnings per share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the year.

Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders, after income tax effect of interest and other financing costs associated with dilutive potential equity, by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

3 Significant accounting judgments, estimates and assumptions

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed below. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

The areas involving critical accounting estimates or judgments are:

- Estimated fair value of unlisted securities Note 27
- Estimated useful life of tangible asset Note 4
- Impairment of non-financial assets Note 28

The management assessed that the fair value of cash and cash equivalents, trade receivables, trade payables, borrowings and loans approximate their carrying amounts largely due to the short term maturities of these instruments.

The fair values for security deposits were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy and their fair values are assessed as approximate to their carrying amounts.

The fair values of non current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk. The own non performance risk as at reporting date was assessed to be insignificant and therefore fair values approximate their carrying amounts.

ii. Fair Value Hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are recognised and measure at fair value. To provide an indication about the reliability of the inputs used in determining fair value, the company has classified its financial instruments into three levels prescribed under the Indian Accounting Standard. An explanation of each level follows underneath the table:

Assets and liabilities measured at fair value - recurring fair value measurement:

Particulars	Fair valu	Total		
	Quoted prices in active markets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Unquoted equity shares			180	180
Total Financial Assets	52,974,317		180	52,974,497

There have been no transfers among Level 1, Level 2 and Level 3 during the period

Level 1 - Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing Net Asset Value (NAV).

Level 2 - The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over the counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3 - If one or more of the significant inputs are not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity shares, contingent consideration and indemnification assets included in level 3.

iii. Valuation technique used to determine fair value

Specific Valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis

iv. Valuation inputs and relationships to fair value

The fair values of the unquoted equity shares have been estimated using a discounted cash flow model. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows, discount rate, credit risk and volatility, the probabilities of the various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for these unquoted equity investments.

v. Valuation processes

The finance department of the Company performs the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. The department reports directly to the chief financial officer (CFO) and the audit committee. Discussions of valuation processes and results are held between the CFO, Audit Committee and the valuation team periodically.

vi. Reconciliation of fair value measurement of financial assets carried at fair value (Level 3):

There is no change in fair value of unquoted equity shares.

28. FINANCIAL RISK MANAGEMENT

The company's activity expose it to market risk, liquidity risk and credit risk. In order to minimise any adverse effects on the financial performance of the company, derivative financial instruments, such as foreign exchange forward contracts are entered to hedge certain foreign currency risk exposures. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk.

(A) Credit risk

Credit risk is the risk that the counterparty will not meet its obligations leading to a financial loss. Credit risk arises from cash and cash equivalents, investments carried at amortised cost and deposits with banks and financial institutions, as well as credit exposures to customers including outstanding receivables.

i. Credit risk management

Credit risk has always been managed by the company through credit approvals, obtaining credit reports, establishing credit limits, taking credit limits and continuously monitoring the creditworthiness of customers to which the company grants credit terms in the normal course of business.

The company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information.

A default on a financial asset is when the counterparty fails to make contractual payments of when they fall due. This definition of default is determined by considering the business environment in which entity operates and other macro-economic factors.

ii. Provision for expected credit losses

The company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables.

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

(B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, company maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the company's liquidity position (comprising the undrawn borrowing facilities) and cash and cash equivalents on the basis of expected cash flows. In addition, the company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

Maturities of financial liabilities

The tables below analyse the company's financial liabilities into relevant maturity groupings based on their contractual maturities for:

- all non-derivative financial liabilities, and
- net and gross settled derivative financial instruments for which the contractual maturities are essential for an understanding of the timing of the cash flows.

The table have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. In the table below, borrowings include both interest and principal cash flows. To the extent that the interest rates are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period.

Contractual maturities of financial liabilities

Particulars	Carrying		Contractual Cash Flows		
Amount		Total	Less than 1 year	Between 1 and 3 years	More than 3 years
March 31, 2020					
Non-derivatives					
Borrowings	27,235,600	27,235,600	27,235,600		
Trade Payables	4,540,601	4,540,601	4,540,601	-	-
Total non derivative liabilities	31,776,201	31,776,201	31,776,201	-	-
March 31, 2019					
Non-derivatives					
Borrowings	89,004,862	89,004,862	89,004,862		
Trade payables	4,055,403	4,055,403	4,055,403		
Total non derivative liabilities	93,060,265	93,060,265	93,060,265		

(C) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of change in market prices. Market risk comprises three types of risk: foreign currency risk, interest rate risk and other price risk such as equity price risk and commodity price risk.

(iii) Price risk

Commodity price risk - The company is not affected by the price volatility of commodities as its operating activities does not require the purchase of any commodity and as such the company is not exposed to commodity price risk.

Equity / Units price risk - The company's exposure to listed and unlisted equity / debt securities price risk arises from investments held by the company and classified in the balance sheet as fair value through profit or loss.

To manage its price risk arising from investments in equity securities, the company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the company. Reports on the equity / debt portfolio are submitted to the company's senior management on a regular basis. The majority of the company's equity / debt investments are publicly traded.

Equity / debt price sensitivity

The analysis is based on the assumption that the stock market index had increased by 1% or decreased by 1% with all other variables held constant, and that all the company's equity / debt instruments moved in line with the index.

Particulars	Impact on profit before tax			er component of uity
	Year ended March 31, 2020	Year ended March 31, 2019	Year ended March 31, 2020	Year ended March 31, 2019
Stock Market Index - increase 1%	51,542	529,743	-	-
Stock Market Index - decrease 1%	(51,542)	(529,743)	-	-

Profit for the period would increase/decrease as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would increase/decrease as a result of gains/losses on equity securities classified as fair value through other comprehensive income.

29. CAPITAL MANAGEMENT

For the purpose of the company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholders value.

The company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The company monitors capital using a gearing ratio, which is Total outside liabilities (TOL) divided by Total net worth (TNW). TOL includes interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents.

Particulars	As at	As at
	March 31, 2020	March 31, 2019
Borrowings	27,235,600	89,004,862
Trade payables	4,540,601	4,055,403
Less: cash and cash equivalents	12,047,012	8,257,147
TOL	19,729,189	84,803,118
Total Equity	213,649,339	354,512,121
TNW	213,649,339	354,512,121
Gearing ratio (TOL / TNW)	0.09	0.24

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the borrowings that define capital structure requirements as follows:

- the ratio of total outside liabilities to adjusted Net Worth must be not more than 5 times,
- the ratio of long term debt to EBITDA must not be more than 4.5 times, and
- the ratio of EBITDA to net finance cost must not be less than 1.62 times

The company has complied with these covenants throughout the reporting period except that the ratio of EBITDA to net finance cost is less than 1.62 times.
