MANAGEMENT DISCUSSION AND ANALYSIS

Industry Structure and Developments:

The Company does not have any income from operations. Its main source of income presently is rentals from leasing of its manufacturing facilities. The Company is looking forward to approval of its Rehabilitation Scheme by the Board for Industrial and Financial Reconstruction ('BIFR') for resumption of its operations. The Company has implemented necessary steps to reduce the operating and administrative expenses, to curtail the costs.

Opportunities and Threats:

Despite current slowdown, the long term growth forecast for the Indian economy continues to be healthy. Increase in income levels and lifestyle aspirations, will drive ahead demand in the auto industry. The auto industry being a major contributor to the economy with its potential for employment, support from the Government for its development could be expected at all times. Though the accumulated loss of the Company is constraint for growth of the business, the proposed capital reduction and amalgamation with Smiths & Founders (India) Limited, provides an opportunity for vertical growth of the Company in future.

The major perceivable threats are liquidity, interest rates, increasing raw material price, political stability and economic scenario.

Outlook:

With the timely onset of monsoon across the country, the Indian economy is projected to grow rapidly and demand conditions are expected to remain strong. Given the Automotive and Farm Equipment sectors with their updated product portfolios and continued exploration of global horizons is expected to strive to maintain their leadership position in their respective markets, the Company is confident of improved performance in the years to come. The imminent approval of the Rehabilitation Scheme by BIFR will give a

boost not only towards improved working results but also increase in the market value of its shares.

Risks and Concerns:

The Company's operations are dependent on the fluctuation in prices and its operational expenses. The state of the economy, therefore, influences the income and profitability.

Internal Control Systems and their adequacy:

According to the size of the Company, Company has in place a strong Internal Control System.

Discussion on Financial performance with respect to operational performance:

The Financial Statement have been prepared in compliance with the requirement of the Companies Act, 1956. During the year under review, the income for the Company is only from operating lease of Manufacturing Facilities. There is a modest reduction in Administrative and Other expenses during the year ending under scrutiny.

Human Resource Development:

Other than the Directors, there are no employees in the Company.

Cautionary Statement:

Certain statements in this Management Discussion and Analysis describing the Company's objectives, projections, estimates, expectations or predictions may be "forward looking statements" within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include raw material availability and prices, cyclical demand and pricing in the Company's principal markets, changes in government regulations, tax regimes, economic developments within India and the countries in which the Company conducts business and other incidental factors.

NOTE NO. 2

PART I

SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Preparation of Financial Statement

The financial statements are prepared under the historical cost convention in accordance with the generally accepted accounting principles in India and the provisions of the Companies Act, 1956.

2. Fixed Assets & Depreciation:

- a) Fixed assets are capitalised at acquisition cost including costs directly attributable to bringing the assets to their working condition, for the intended use.
- b) Certain assets identified as having reached their economic useful life have been withdrawn from active use. The carrying value of such assets is charged to the statement of profit and loss. Income on such assets shall be recognised upon sale or disposal.
- c) Depreciation is provided on straight-line method in accordance with rates prescribed in Schedule XIV to the Companies Act, 1956.

3. Impairment of Assets:

An asset is treated as impaired when the carrying cost of the assets exceeds its recoverable value. An impairment loss is charged to the statement of profit and loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

4. Employee Benefits:

i. Defined Contribution plans

The Company makes Provident Fund / Superannuation contributions to the provident fund authorities/ the Life Insurance Corporation of India as a fixed percentage of the payroll costs which is recognised in the Statement of profit and loss.

ii. Defined benefit plans

The Company has provided for the liability towards gratuity on the basis of 15 days salary for each completed year of service in respect of employees who are on the rolls as at 31 March 2013.

Provision for the liability on account of leave encashment has been made based on the last drawn salary.

Details of Current Service cost, interest cost, Gross Liability, Past Service cost, Fair Value of Plan assets and movement of net liability has not been furnished as actuarial valuation has not been carried out and no investments have been made towards meeting the aforesaid liabilities as there are no employees on the rolls since 1 April 2009.

5. Provision for Current Tax and Deferred Tax:

Provision for current tax is made after taking into consideration benefits admissible under the provisions of the Income-tax Act, 1961. Deferred tax resulting from "timing differences" between taxable income and accounting income is accounted for using the tax rates and laws that are enacted or substantively enacted as on the balance sheet date. However, no deferred tax assets are recognised on carry forward of tax losses and unabsorbed tax depreciation since there is no virtual certainty in respect of future taxable income. If deferred tax assets are to be recognised on carry forward of tax losses and unabsorbed tax depreciation the loss for the period would diminish by ₹ 88.07 Lakhs.

6. Earnings Per Share:

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

7. Provision, Contingent Liabilities and Contingent Assets:

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent Liabilities are not recognised but are disclosed in the notes. Contingent Assets are neither recognised nor disclosed in the financial statements.
