2. REVIEW OF OPERATIONS :

During the year under review, in spite of dismal global scenario and recessionary trend in Indian steel market the Company recorded further growth in its operational performance but the profitability vis-à-vis the sales turnover, as compared to last year declined due to persistent rise in cost of various inputs.

Nevertheless, the Company witnessed the sales turnover Rs. 9018.41 Lacs (Own Unit 8997.89 Lacs and Conversion / Service Rs. 20.52 Lacs as against Rs. 6,121.71 Lacs (Own Unit 5852.62 Lacs and Conversion / Service Rs. 269.09 Lacs) during the last year, registering thereby the growth in turnover of 47.32% over the previous year. After providing Rs.70.66 Lacs for depreciation and Rs. 135.44 Lacs against interest and further providing Rs. 30.66 Lacs towards taxation, the Company posted net profit after tax of Rs. 1.27 Lacs as against Rs. 38.96 Lacs during the previous year.

II. MANAGEMENT DISCUSSION & ANALYSIS

ECONOMY:

The fiscal year 2012-2013 witnessed a slowing growth in the economies of United States and China. While Europe's recession is still underway. Japan has announced a massive stimulus program but it is not likely to grow much even this year. The global economic experts have cited the sluggish world economy as a challenge to the global business. Nevertheless, India has registered slight growth in its economy as compared to 5% growth during the fiscal 2012. To effect and sustain the growth of Indian economy the Company has to accept the challenge of global competition excelling in its business.

OVERVIEW:

During the financial year 2012-2013 the Company witnessed 47.32% growth in its sales performance over the previous year. Nevertheless, the profitability does not commensurate with the sales turnover as compared to the last year's figures. The decline in profit has been due to persistent rise in cost of inputs as well as market conditions during second half of the year. The production figure of the Company reflects an improvement in own manufactured goods from 11228.482 MT to 19134.640 MT from the previous year.

INDUSTRY STRUCTURE AND DEVELOPMENTS STEEL INDUSTRY OVERVIEW:

India's industrial growth slowed to a 20-year-low of 1% in 2012-13 compared to 2.9% in 2011-12. Despite the weak sentiment prevailing in the domestic steel sector, India has emerged as the top ranker in terms of production growth in the world during April-November, 2012. Announcing this, Steel Ministry has commended the Indian steel industry for being the number one in terms of growth rate in steel production amongst the top ten steel producing countries. During April-November 2012, the Indian steel industry achieved a growth rate of 5.36 percent which was the highest in the world.

FUTURE OUTLOOK BRIGHTER PROSPECTS:

With due liberalization of the industrial sector added with the reforms being extended at Government front, purporting to make the economy stronger. It is expected that the Indian Economy would grow at 6.1 % during the current fiscal. India is regaining economic momentum and growth is expected to recover gradually to its high long-term potential.

The States of Orissa, Chhattisgarh and Jharkhand which account for majority of the iron ore and coal reserves in the country will remain the most attractive locations for setting up iron and steel manufacturing capacity.

OPPORTUNITIES AND THREATS:

Your Company is poised to seize the opportunities in the Iron & Steel Industry (both for steel & intermediary saleable products) through its strengths of locational and logistical advantages, raw material linkages, technology edge and management expertise. These opportunities will be linked directly to the growing demand from the automobile and auto components, infrastructure, construction and power sectors. Your Company's strategic location in Nagpur offer scope for seamless value addition in its manufacturing process from hot metal to stainless steel. Your Company is also well positioned in its conscious adherence to a modular project implementation, thereby enabling ploughing of internal accruals in future projects, thereby reducing costs related to financing. The threats for your Company would come from adverse fluctuations in input and capital costs, foreign exchange variations and taxes & duties. The buoyancy in the Iron & Steel Sector has attracted many players, resulting in reduced availability of skilled manpower and contractor workforce. Delay in implementation of project may lead to opportunity loss in revenue generation and rise in costs. Your Company is poised to seize the opportunities in the Iron & Steel Industry.

OUTLOOK:

India has set a vision to be an economically developed nation by 2020. The steel industry is expected to play a major role in India's economic development in the coming years. The steel industry of India has a very high growth potential and is expected to register significant growth in the coming decades. India is expected to emerge as a strong force in the global steel market in coming years.

The per capita-consumption of steel in India, according to latest available estimates, is only 29 kg. This is much less compared to the global average of 140kg. The per capita consumption level of developed nations like the United States of America is 400kg. In this respect, one of the major initiatives that need to be taken is to focus on increasing the consumption of steel in the rural areas of India. The potential for the growth of consumption of steel in the rural areas of India for purposes like rural housing, rural infrastructure, etc is High which needs to be tapped efficiently.

In order to realize the growth potential in the steel industry of India, it is essential to ensure that the industry can remain competitive. One of the major aspects in this regard is the availability of inputs. Shortage of inputs like coke has led to increase in costs earlier. Moreover proper infrastructure facilities like transport infrastructure, power etc are of prime importance in maintaining the competitiveness of the industry.

Most developed countries have regulations that are aimed to protect the domestic steel industry. The Indian steel industry has comparatively much lesser protection through regulations. Proper regulatory measures should be adopted by the government to protect the domestic steel industry.
