Annexure to Notice

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

As required by Section 102 of the Companies Act, 2013, (hereinafter referred to as "the Act") the following Explanatory Statements set out all material facts relating to the business mentioned under Item Nos. 4, 6 & 7 of the accompanying Notice dated 18th August, 2017.

ITEM NO. 4

M/s. A C Gupta & Associates, Chartered Accountants, existing auditors of the Company had tendered their resignation from the position of Statutory Auditor due to unavoidable circumstances, resulting into a casual vacancy in the office of Statutory Auditor of the Company as envisaged by section 139(8) of the Companies Act, 2013 ("Act"). Accordingly the Board proposes that M/s. Raj Gupta & Co., Chartered Accountants, Mumbai, be appointed as the Statutory Auditor of the Company to fill the casual vacancy caused by the resignation of M/s. A C Gupta & Associates, Chartered Accountants.

M/s. Raj Gupta & Co., Chartered Accountants, Mumbai, have conveyed their consent to be appointed as the Statutory Auditor of the Company along with a confirmation that, their appointment, if made by the members, would be within the limits prescribed under the Companies Act, 2013. The appointment of Statutory Auditor caused by resignation of existing auditor needs to be approved by members of the Company within a period of 3 months from the recommendation of the Board. Hence the resolution for appointment of M/s. Raj Gupta & Co., Chartered Accountants as Statutory Auditor of the Company is proposed in this Annual General Meeting for the consent of the members. Accordingly, Ordinary Resolution is submitted to the meeting for the consideration and approval of members.

None of the Directors, Key Managerial Persons or their relatives, in any way, concerned or interested in the said resolution.

ITEM NO. 6

In the wake of resignation tendered by the Independent Director Ankita Wadhawan, followed by a special notice received by the Company for the candidature of Mrs. Anuradha Kapur, (DIN: 01646928) for appointment as Director, the Company proposes to appoint Mrs. Kapur on Board as Independent Director.

As per the provisions of Section 149 of the Companies Act, 2013 an independent director shall hold office for a term up to five consecutive years on the Board of a company and is not liable to retire by rotation. Mrs. Kapur has given a declaration to the Board that she meets the criteria of independence as provided under Section 149 (6) of the Act. The matter regarding appointment of Mrs. Kapur as Independent Director was placed before the Nomination & Remuneration Committee, which commends her appointment as an Independent Director up to 26th September, 2020.

In compliance with the provisions of Section 149 read with Schedule IV of the Act, the appointment of Mrs. Kapur as Independent Director is now being placed before the Members in general meeting for their approval.

None of the Directors, Key Managerial Personnel or their respective relatives are concerned or interested in the Resolution mentioned at Item No. 6 of the Notice.

ITEM NO. 7

As per Section 148 of the Companies Act, 2013, read with Companies (Audit & Auditors) Rules, 2014, and other applicable provisions, if any the remuneration of the Cost Auditor needs to be ratified by the shareholders. Yash Pal Sardana, Cost Accountant & Management Consultant, was appointed as Cost Auditor of the company for the financial year 2017-18 at a remuneration of Rs. 40,000/- plus out of pocket expenses.

The proposed resolution is necessary to meet statutory obligation relating to appointment of Cost Auditor and is in the interest of the Company. Your Directors commend resolution at item No. 7 for your approval.

None of the Directors and Key Managerial Personnel and their relatives are concerned or interested in the Resolution mentioned at item No. 7 of the notice.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. GLOBAL ECONOMIC OVERVIEW

Global economy during first half of FY2016 showed a sluggish pace of growth following the U.K. vote in favor of leaving the European Union (Brexit) and weaker-than-expected growth in the United States. Economic activity gained some momentum in the second half of 2016, especially in advanced economies. Growth picked up in the United States and U.K. as firms grew more confident about future demand. Activity surprised on the upside in Japan thanks to strong net exports, as well as in euro area countries, such as Germany and Spain, as a result of strong domestic demand. Economic performance across emerging market and developing economies has remained mixed. Whereas China's growth remained strong, reflecting continued policy support, activity has slowed in India because of the impact of demonetization, as well as in Brazil, which has been mired in a deep recession. World GDP growth increased to 3.1% in CY2016. Emerging Market and Developing Economies grew at 3.1%, while the US and the Euro Area grew at 1.6% and 1.7%, respectively. Japan grew at 1% as against 0.6% last year.

According to World Bank, the picture for Emerging Market and Developing Economies (EMDEs) remains much more diverse. The growth rate in China was a bit stronger than expected, supported by continued policy stimulus. But activity was weaker than expected in some Latin American countries currently in recession, such as Argentina and Brazil, as well as in Turkey, which faced a sharp contraction in tourism revenues. Activity in Russia was slightly better than expected, in part reflecting firmer oil prices.

Global growth in 2017 of EMDEs is 4.5% while the growth is projected to pick up by 4.8% in 2018 as gradual stabilization of macroeconomic conditions in these economies, also supported by some rebound in commodity prices, should lead to a gradual recovery in imports and investment in 2017 and beyond. Global economic activity is picking up with a long-awaited cyclical recovery in investment, manufacturing, and trade. World growth is expected to rise from 3.1% in 2016 to 3.5% in 2017 and 3.6% in 2018. Stronger activity, expectations of more robust global demand, reduced deflationary pressures, and optimistic financial markets are all upside developments.

2. INDIAN ECONOMIC OVERVIEW

Economic growth of around 7.2% makes India the fastest-growing G20 economy. The acceleration of structural reforms, the move towards a rule-based policy framework and low commodity prices has provided a strong growth impetus. Recent deregulation measures and efforts to improve the ease of doing business have boosted foreign investment. According to Department of Industrial Policy and Promotion (DIPP), the total FDI investments India received during April 2016-March 2017 rose 8 per cent year-on-year to US\$ 60.08 billion, indicating that government's effort to improve ease of doing business and relaxation in FDI norms is yielding results.

The foreign exchange reserves has reached an all time high to US\$393 billion in August 2017 and is likely to cross US\$400 billion by September. The pace of forex accretion has been the strongest since 2015 and this has also been one of the strongest in Asia ex-Japan in the past 12 months.

3. AUTOMOBILE INDUSTRY

3.1 Global Automobile Industry

Based on strong growth in production and sales of automobiles in the first quarter of 2017 in most of the key regions around world, there is optimism that this year will see continued gains for the global automotive industry.

The Western European car market ended the first quarter up more than 7% on the same period in 2016, recording 3.9 million new registrations. All of the five largest individual markets expanded, with Italy enjoying the strongest growth at 18%. Double digit growth was also recorded in Spain (+13%) and Germany (+11%), with the United Kingdom up 8% and France 7%. Total light vehicle production in the EU was up 3% to 5,016 million units in the first quarter of 2017. USA and Canada saw declines in vehicle production with the US slipping by 1.9% to 3,017 million and Canada down 4.5% to 601,443.

In the Asia-Pacific region, sales for the first quarter were 6.9%, ahead of the same period in 2016, with 11.37 million units or 47.5% of the global market. China performed strongly again in the first quarter with production and sales

of passenger cars rising to 7.133 million and 7,002 million respectively, representing increases of 8% and 7% year-on-year. Japan reported a healthy increase of 7.9% in passenger car production in the first quarter to reach 2,200 million units; with total vehicle production, including trucks and buses, up 6.5% to 2,545 million.

Vehicle sales in Japan increased, by almost 8% in the quarter to March, reaching over 1.3 million. In India, sales of passenger cars were up 11%, when compared with the same period last year, at 803,200 vehicles. In the reporting period April 2016–March 2017 production of passenger cars and commercial vehicles in India increased by 5.8% to 4,502 million of which 3,791 million were cars.

3.2 Indian Automobile Industry

The Indian auto industry is one of the largest in the world. The industry accounts for 7.1 per cent of the country’s Gross Domestic Product (GDP). The Two Wheelers segment with 81 per cent market share is the leader of the Indian Automobile market owing to a growing middle class and a young population. Moreover, the growing interest of the companies in exploring the rural markets further aided the growth of the sector. The overall Passenger Vehicle segment has 13 per cent market share.

India is also a prominent auto exporter and has strong export growth expectations for the near future. In April-March 2017, overall automobile exports grew by 1.91 per cent. PV, Commercial Vehicles, and Two Wheelers registered a growth of 9.17 per cent, 3.03 per cent, and 8.29 per cent respectively during first quarter of 2017. In addition, several initiatives by the Government of India and the major automobile players in the Indian market are expected to make India a leader in the Two Wheeler and Four Wheeler market in the world by 2020.

The government aims to develop India as a global manufacturing as well as a research and development (R&D) hub. It has set up National Automotive Testing and R&D Infrastructure Project (NATRIP) centres as well as a National Automotive Board to act as facilitator between the government and the industry.

Alternative fuel has the potential to provide for the country’s energy demand in the auto sector as the CNG distribution network in India is expected to rise to 250 cities in 2018 from 125 cities in 2014. Also, the luxury car market could register high growth and is expected to reach 150,000 units by 2020.

4. AUTOMOTIVE COMPONENTS INDUSTRY

The Indian auto-components industry has experienced healthy growth over the last few years. Some of the factors attributable to this include: a buoyant end-user market, improved consumer sentiment and return of adequate liquidity in the financial system.

The auto-components industry accounts for almost 7 per cent of India's Gross Domestic Product (GDP) and employs as many as 19 million people, both directly and indirectly. A stable government framework, increased purchasing power, large domestic market, and an ever increasing development in infrastructure have made India a favourable destination for investment.

Market Size

Over the last decade, the automotive components industry has scaled three times to US\$ 39 billion in 2015-16 while exports have grown even faster to US\$ 10.8 billion. This has been driven by strong growth in the domestic market and increasing globalisation (including exports) of several Indian suppliers.

The Indian Auto Component industry is expected to grow by 8-10 per cent in FY 2017-18, based on higher localisation by Original Equipment Manufacturers (OEM), higher component content per vehicle, and rising exports from India, as per ICRA Limited.

According to the Automotive Component Manufacturers Association of India (ACMA), the Indian auto-components industry is expected to register a turnover of US\$ 100 billion by 2020 backed by strong exports ranging between US\$ 80-US\$ 100 billion by 2026, from the current US\$ 11.2 billion.

The Government of India's Automotive Mission Plan (AMP) 2006–2016 has come a long way in ensuring growth for the sector. It is expected that this sector's contribution to the GDP will reach US\$ 145 billion in 2016 due to the government's special focus on exports of small cars, multi-utility vehicles (MUVs), two and three-wheelers and auto components. Separately, the deregulation of FDI in this sector has also helped foreign companies to make large investments in India. The Government of India's Automotive Mission Plan (AMP) 2016–2026 envisages creation of an additional 50 million jobs along with an ambitious target of increasing the value of the output of the sector to up to US\$ 282.65 billion.

The Indian auto-components industry is set to become the third largest in the world by 2025. Indian auto-component makers are well positioned to benefit from the globalisation of the sector as exports potential could be increased by up to four times to US\$ 40 billion by 2020 accounting for as much as 26 per cent of the market.

5. BUSINESS OVERVIEW

JMT Auto Limited is an automotive component manufacturer with advanced manufacturing capabilities and world class facilities in India, Germany, Romania and Sweden. The Company also exports components to the US for the oil and gas industry.

India Operations

The Company was established in 1987 as Jamshedpur Heat Treatment Company and started operations in the heat treatment job-work business. Since then, the Company has grown its business to become a precision gear manufacturer with world class manufacturing capabilities including the latest gear and gear-shaft manufacturing technologies. JMT Auto's core competence is in the manufacturing of high precision gears and shafts up to DIN 4 standard. The Company has also emerged as a leading precision machinist of super-finished pins and shafts for hydraulic applications and critical structural castings and forgings. The state-of-the-art and vertically integrated facilities in India include fully automated machining lines, design & engineering capabilities.

In the recent years, the Company has grown substantially, owing to a focus on quality, innovation and application of Lean Manufacturing principles enabling us to secure business across industries. We are greatly acknowledged in the global market place for the continuous improvement in product quality and advancement of our technologies.

International Operations

International operations of JMT Auto Ltd comprise a wholly owned subsidiary, Amtek Machining Systems Pte Ltd, incorporated at Singapore under which ALGA, an automotive component manufacturing company manufactures

products exclusively for the automotive sector. Its products include flywheel starter ring gears for all kinds of motors, housing rings for trucks, mass rings, ramp rings, and sensor rings.

ALGA exports more than 95% of its production. The productive facilities encompass three plants in the Abadiano area that total 12,512 sqm. It has a total of 175 employees.

6. STRATEGY AND OUTLOOK

The rapidly globalising world is opening up newer avenues for the transportation industry, especially while it makes a shift towards electric, electronic and hybrid cars, which are deemed more efficient, safe and reliable modes of transportation. Over the next decade, this will lead to newer verticals and opportunities for auto-component manufacturers, who would need to adapt to the change via systematic research and development.

Some of the key focus points being:-

- Auto component suppliers are focused on entering new vehicle segments & manufacturing new products with higher margin.
- Both Indian & global manufacturers are investing in new capacities & newer programmes, in order to get long term advantage.
- As markets in North, West & South are getting saturated; components makers are now focusing on untapped market like the Northeast region of the country.
- India's projected production is around 8.7mn passenger vehicles per year by 2020 (with most of them being compact cars).
- Many Indian firms specialising in only one product market or segment & are looking forward to diversify horizontally in other segments like 2-wheelers, passenger cars or commercial vehicles.
- They are stepping up their product development capabilities in order to have the best chance of capturing growth opportunity.

At JMT Auto, we strive to enhance our core business by aligning with customers, many of which are market leaders in the respective industry segments. Simultaneously we focus at structuring our business in a way so as to be able to capitalise on growth opportunities from other future growth areas, with an aim at diversifying our end use segment and customer base. We cater to commercial vehicles, construction and off-road machinery; agricultural and farm machines as well as oilfield equipment and services sectors.

With the current focus on "Make in India" initiative, the government is expected to vitalise a substantial investment in the auto component sector. Increased investments in R&D operations and laboratories, which are being set up to conduct activities such as analysis and simulation, and engineering animations has improved product development capabilities. The growth of global OEM sourcing from India and the increased indigenisation of global OEMs is turning the country into a preferred designing and manufacturing base.

The Vision of 'Momentum Jharkhand' is to ensure balanced economic development of the state by favouring automobile and auto-component manufacturing sector and to provide maximum benefits to all stakeholders by establishing Jharkhand as automobile hub in India.

Jharkhand Government has a number of incentives focussed at promoting Auto-motive and Auto-components industry in the State.

- Financial Assistance of 50% for fixed capital investments in building & common infrastructure to developers of auto clusters, vendor parks etc
- Comprehensive Project Investment Subsidy for investments in Machinery, Plant & Equipment etc.
- Incentive to industries implementing state reservation policy & located in extremist infested blocks.
- Other Incentives like - • Quality Certification • Marketing incentives • Entry Tax Exemption • CST Rebate • Patent Registration • Stamp Duty & Registration fee Exemption

In the given scenario of multi faceted support and incentives from Government we look forward to increased turnover in the coming years. The demand is gradually on the rise and prospects are bright for an increased demand-supply chain for the industry.

Oil and Gas sector has also been on a positive growth route with an increase of 14% in supply of components by JMT as compared to last year. The Company is currently working with two oilfield services companies for the development of new products. Additionally, the Company has experienced a substantial increase in orders received from existing and new oil & gas industry customers.

The Business Excellence Program, which we started in 2014, continues to facilitate a highly successful implementation of lean manufacturing processes. It remains the driving force behind JMT Auto's cost controls and productivity initiatives, and is a key attribute of the Company's business strategy. JMT Auto has also taken up certain other strategic initiatives such as realigning the product mix and expanding the product range to increase the share of our value added product offering. Other initiatives centre around overall fiscal control, quality improvement, up-gradation in technology and research & development. The Company also continues to focus on cost reduction and rightsizing initiatives. We are confident that these initiatives, in particular the new set of products that are being developed, will help make JMT Auto much more competitive in the market place.

7. OPPORTUNITIES & STRENGTHS

Positive Outlook for the Global Automotive Industry: While growth markets are the engines driving auto industry volumes worldwide, it is also an uneven market landscape – with China, India, Southeast Asia and North Africa leading the pack, whilst Eastern Europe shows signs of stabilisation and South America and South Africa continue to struggle. Despite the overall cool down of automotive demand globally, growth markets are expected to remain the main engine for volume growth in the automotive industry worldwide, driving an 18.8M increase in vehicle assembly volumes from 2016 to 2023.

In the automotive world, there are positive developments too in China and India – together with parts of Southeast Asia and North Africa. Among a tepid macroeconomic environment, the Chinese automotive industry has demonstrated robust double-digit sales growth as it continues to receive strong government support with ad-hoc tax incentives.

However, the global landscape is uneven – with Eastern Europe showing signs of stabilisation and an uncertain path ahead for South America and South Africa. Due to highly specific regulations, some major developing markets are only loosely connected to global trade flows and therefore require dedicated strategies and investments.

OUTLOOK – INDIAN AUTOMOTIVE INDUSTRIES

Positive outlook for the Auto-Component Industries	
Engine & engine parts	<ul style="list-style-type: none"> • New technological changes in this segment include introduction of turbochargers & common rail systems • The trend of outsourcing may gain traction in this segment in the short to medium term
Transmission & steering parts	<ul style="list-style-type: none"> • Share of the replacement market in sub-segments such as clutches is likely to grow due to rising traffic density • The entry of global players is expected to intensify competition in sub-segments such as gears & clutches
Suspension & braking parts	<ul style="list-style-type: none"> • The segment is estimated to witness high replacement demand, with players maintaining a diversified customer base in the replacement & OEM segments besides the export market • The entry of global players is likely to intensify competition in sub-segments such as shock absorbers

Equipment	<ul style="list-style-type: none">Companies operating in the replacement market are likely to focus on establishing a distribution network, brand image, product portfolio & pricing policy Electrical• Manufacturers are expected to benefit from the growing demand for electric start mechanisms in the 2 wheeler segment
Others (Metal Parts)	<ul style="list-style-type: none">Metal part manufacturers are likely to benefit from rising demand for body & chassis, pressure die castings, sheet metal parts, fan belts, hydraulic pneumatic instruments, mainly in 2 wheelers industry• The prominent companies in this business are constantly working towards expanding their customer base

Inherent Strengths of Manufacturing in India: Cost efficient labour, government support and availability of skilled manpower have make India an attractive manufacturing destination over the years. This has resulted in increased interest from various global OEMs in the form of tie-ups with local suppliers. As a result, many global OEMs have also managed to achieve a fairly high level of localisation in India. This continuing trend is expected to open significant opportunities for the Indian component makers to supply to these players for their Indian and international demand.

A large India-based auto components manufacturer can focus on the rapidly growing Indian OEM market, exports & the domestic aftermarket. A global supplier operating across multiple product types and geographies can serve as an integrator & preferred supplier to the OEMs.

In addition, total automotive component exports out of India are expected to continue to increase in the years to come. India's proximity to emerging markets such as South East Asia and Africa is a key advantage for developing an export base. Furthermore, shipments to Europe from India are more cost effective as compared to those from Brazil and Thailand.

Market Potential on the rise – Domestic and Export

- The domestic market is expected to account for 71 per cent of total sales by 2021 with a total market size of USD115 billion.

- Export market potential (USD billion) Exports will account for as much as 26 per cent of the market by 2021

The total market size is expected to be USD115 billion by 2021, which is nearly 3.00 times the current market size of USD39 billion.

POLICIES - AIDING GROWTH

FAVOURABLE POLICY MEASURES AIDING GROWTH	
Auto Policy 2002	<ul style="list-style-type: none"> ● Automatic approval for 100 per cent foreign equity investment in auto component manufacturing facilities. ● Manufacturing & imports are exempt from licensing & approvals.
NATRiP	<ul style="list-style-type: none"> ● Set up at a total cost of USD388.5 million to enable the industry to adopt & implement global performance standards. ● Focus on providing low-cost manufacturing & product development solutions.
Dept. of Heavy Industries & Public Enterprises	<ul style="list-style-type: none"> ● Created a USD200 million fund to modernize the auto components industry by providing an interest subsidy on loans & investment in new plants & equipment. ● Provided export benefits to intermediate suppliers of auto components against the Duty Free Replenishment Certificate (DFRC).
Union Budget 2017-18	<ul style="list-style-type: none"> ● The Union Budget 2017-18 has tried to boost skill development by announcing to increase the establishment of skill centers by ten folds. ● A reduction in tax on Liquefied Natural Gas (LNG) from 5 per cent to 2.5 per cent was also announced under the union budget.
Automotive Mission Plan 2016-26	<ul style="list-style-type: none"> ● AMP 2026 targets a 4-fold growth in the automobiles sector in India which includes the manufacturers of automobiles, auto components & tractor industry over the next 10 years. ● It is expected to generate an additional employment of 65 million.

'Make in India': The Indian Government's focus on improving ease of business with its 'Make in India' initiative is expected to soften regulations and reduce complex procedures. The initiative will also result in making India an even more cost effective manufacturing destination.

The Government of India has taken a series of steps to support this program such as:

- **New Trade Policy:** Export and import taxes on small volumes of goods have been abolished, and incentives have been introduced for export-oriented units and export processing zones.
- **New Labour Laws:** These include a "single window" labour compliance process for companies, simpler Provident Fund (compulsory employee insurance and pension) procedures and a new inspection scheme.
- **Simplification of Regulatory Compliance:** In an effort to enhance the ease of doing business, it has been made possible for companies to obtain environmental approvals and licenses online.

The Indian Government's Automotive Mission Plan 2016-26, the key driver of the 'Make in India' campaign envisages four-fold growth in automotive volumes by FY2026. The Indian auto sector has the potential to generate up to US\$300 billion in annual revenues by FY2026, create around 65 million additional jobs and contribute more than 12% to India's GDP, according to the plan prepared jointly by SIAM and the Government of India.

Focus on Import Substitution to Drive Growth in the Non-automotive Sector: With the Government of India's emphasis on substitution of imported goods to reduce import bills, sectors such as railways and defence are expected to look to Indian companies for procurement. This provides manufacturing companies an opportunity to grow in the non-automotive business.

8. RISK AND CONCERNS

Macroeconomic Uncertainty: JMT Auto's operations are spread across different regions. Due to the global nature of JMT Auto's business, its operations are directly dependent on the general economic conditions across key global markets. In the recent past, global economic growth has remained volatile and uneven with several key markets facing economic challenges. The Company, on a regular basis, assesses and evaluates the macroeconomic performance in its key markets and takes suitable remedial actions as may be necessary from time to time to mitigate such risks.

Changes in Tax, Tariffs or Fiscal Policies: Imposition of additional taxes and levies designed to limit the use of automobiles could adversely affect demand for the Company's products. Changes in corporate and other taxation policies, as well as changes in export and other incentives granted by various governments, or import or tariff policies, could also adversely affect the Company's financial results.

We are in the process of evaluating thoroughly the impact of the implementation of GST on our business.

Geopolitical and other Risks: Political instability, wars, terrorism, multinational conflicts, natural disasters, fuel shortages and their prices, epidemics, labour strikes all present business risks. To counter these risks, the Company continues to expand its geographic presence across all major automotive economies in the world.

Country Risk through Exports: Products produced by JMT Auto are exported to a number of different markets globally. This exposes the Company to various risks associated with international business transactions. These include various geopolitical risks, currency price regulatory risks and other such concerns.

Raw Material Prices: Prices and availability of various raw materials such as steel, non-ferrous, precious metals, rubber and petroleum products are dependent on various environmental factors. Even as the Company continues to pursue cost control measures, any unforeseen or sudden spike in cost of these items could impact the profitability of the Company to the extent that customer price pass through terms are not available. For JMT Auto, increase in the price of raw materials, especially steel, are passed through so there is a limited impact on our profitability.

Global Competition: With the integration of global automobile supply chains, the automobile components industry has become increasingly competitive with OEMs continuously scanning the market for lower prices and better

terms. Even as the Company enjoys strong and long standing relationship with many global OEMs, it continues to invest in newer products and better quality control.

Financial Risk: Any change in interest rates, foreign exchange rates and commodity prices can potentially impact the financial performance of the Company.

Technological Changes: The business environment is evolving at a rapid pace. The changing technologies have led to a shortening of the life cycle of new vehicles. Additional challenges include supply constraints from Tier II suppliers, sustenance of operating cost efficiency gains and capacity expansions in the context of rapidly changing consumer demand preferences. The Company continues to invest in new technologies and capacities to address such risks. In addition, our focus on rationalisation both in terms of size and functions, enables us to continue to complement the manufacturing excellence programs that are being developed.

Risk Management: Strategic, operating and financial business risks are reviewed by the Audit Committee and the Board on a regular basis. In addition to the above risks, the committee monitors any potential new risks that may arise due to changes in the external environment. While the possibility of a negative impact due to one or more of such risks cannot be totally avoided, the Company proactively takes reasonable steps to pre-empt and mitigate these.

9. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has an elaborate internal control system which monitors compliance to internal processes. It ensures that all transactions are authorised, recorded and reported correctly. The systems are routinely tested and certified by Statutory as well as Internal Auditors and cover all offices, plant facilities and key areas of business. The Internal Auditors independently evaluate the adequacy of internal controls and concurrently audit the majority of the transactions in value terms.

To further strengthen the internal control process, the Audit Committee has documented control procedures covering all aspects of key financial and operating functions. The Company's internal control systems provide for:

- Adherence to applicable accounting standards and policies
- Accurate recording of transactions with internal checks, prompt reporting and timely action
- Compliance with applicable statutes, policies, listing requirements and management policies and procedures
- Review of capital investments and long term business plans
- Periodic review meetings to guide optimum utilisation of resources
- Effective use of resources and safeguarding of assets

The Audit Committee reviews the effectiveness of internal control systems, and also provides timely updates on operating effectiveness and controls to senior management team. A CEO and CFO Certificate, forming part of the Corporate Governance Report, confirms the existence and effectiveness of internal controls and reiterates their responsibilities to report deficiencies to the Audit Committee and rectify the same.

Our auditors carry out periodic audits as per an agreed internal audit programme. They bring to the notice of management, issues which require their attention and also highlight the severity of the issue. Corrective actions are then set in place. The internal auditors report is reviewed by the Audit Committee and placed before the Board of Directors for their consideration.

9.1 DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

During the year under review, the Company's consolidated revenue from operations was Rs 314.16 Crores in comparison to Previous year revenue of Rs 334.29 Crores. During the year under review company's revenue from discontinued operations of international subsidiaries was Rs 228.91 crores which was Rs 1,131.45 crores during the previous year ended 31st March 2016. Consolidated loss after tax for the year ended 31st March 2017 was Rs 362.61 crores (including loss of Rs 366.64 crores from international subsidiaries) as against Loss after tax of

Rs 107.91 crores (including loss of Rs 112.62 Crores from international subsidiaries) during the previous year ended 31st March 2016.

10. FINANCIAL CONDITION

JMT Auto monitors its financial position regularly and deploys a robust cash management system. The Company has also been able to arrange adequate liquidity at an optimum cost to meet its business and liquidity requirements. The Company would like to thank the financial institutions, shareholders and other stakeholders for their continuous support.

11. HUMAN RESOURCES AND INDUSTRIAL RELATIONS

During the year, the Company delivered value to its customers and investors. This was made possible by the relentless efforts of each and every employee. The Company has developed a robust and diverse talent pipeline which enhances JMT Auto's organisational capabilities for future readiness, further driving greater employee engagement. Our human resource program is focused on attracting the right talent, providing excellent on the job training opportunities, and finally giving them the growth opportunities consistent with their aspirations.

JMT Auto has always enjoyed strong industrial relations. The Company has a systematic grievance redressal system to further strengthen these relationships. This system encourages employees to share their views and opinion with the management. The Company reflects on this feedback and incorporates relevant changes into the existing policies, systems and processes.

12. STATUTORY COMPLIANCE

The Whole Time Director makes a declaration to the Board of Directors every quarter regarding compliance with provisions of various statutes as applicable. The Company Secretary ensures compliance with the Companies Act, 2013, SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and compliance with the guidelines on insider trading for prevention of the same.

13. CAUTION STATEMENT

The above mentioned statements are only 'forward looking statements' based on certain assumptions and expectations. The Company's actual performance could differ materially from those expressed/projected depending upon changes in various factors. The Company does not assume any responsibility to any change(s) in forward looking statements', on the basis of subsequent developments, information or events etc.

Important developments that could affect the Company's operations include a downward trend in the domestic automotive industry, competition, rise in input costs, exchange rate fluctuations, and significant changes in the political and economic environment in India, environmental standards, tax laws, litigation and labour relations.

Independent Auditor's Report

To the Members of JMT Auto Limited, Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of JMT Auto Limited ("The Company"), which comprises the balance sheet as at 31st March 2017, the statement of profit and loss (including other comprehensive income), the statement of cash flows and the statement of changes in equity for the year then ended and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The company's board of directors is responsible for the matters specified in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in equity of the company in accordance with the accounting principles generally accepted in India, including the accounting standards specified under section Section 133 of the Companies Act, 2013 (hereinafter referred to as "the Act") read with relevant Rules of the Companies (Accounts) Rules, 2014.

This responsibility also includes the maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the standards on auditing specified under section 143(10) of the Act. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the company's directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Annexure - B to the Independent Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of JMT Auto Limited ("the Company") as of 31st March 2017 in conjunction with our audit of the standalone Ind AS financial statements of the company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2017, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes forming part of the Standalone financial statements

1. Company Overview and Significant Accounting Policies

JMT Auto Limited incorporated as Public Limited Company is into the business of manufacturing of Auto Components. The core competency of the Company is into manufacturing of Gear and Transmission parts. The Manufacturing facilities are located in Jamshedpur, Jharkhand and Dharwad, Karnataka. The shares of the Company are listed on National Stock Exchange and Bombay Stock Exchange.

2. Summary of significant accounting policies

2.1 Statement of Compliance

The Financial Statements have been prepared in accordance with IND ASs notified under the Companies (Indian Accounting Standard) Rules, 2015. For all periods up to and including the year ended March 31, 2016, the Company prepared its financial statements in accordance with Accounting Standards specified in Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 ("Indian GAAP") and other relevant provision of the Act. These financial statements for the year ended March 31, 2017 are the first financial statements that the Company has prepared in accordance with Ind AS. There is a possibility that these standalone financial statements and comparatives may require adjustment due to changes in financial reporting requirements arising from new or revised standards or interpretations issued by MCA or ICAI.

2.2 Basis of preparation of financial statements

These financial statements are prepared in accordance with Indian Accounting Standards (IND AS) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values; the provisions of the Companies Act, 2013 ('Act') (to the extent notified and applicable); and guidelines issued by the Securities and Exchange Board of India (SEBI). The IND AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016. The company has adopted all notified Indian Accounting standards to the extent applicable. The adoption was carried out in accordance with IND AS 101 (First time adoption of Indian Accounting Standards). The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP. Reconciliations and descriptions of the effect of the transition has been summarized in notes. Accounting policies have been consistently applied except where a newly issued Indian accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

2.3 Use of estimates

The preparation of the financial statements in conformity with IND AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Useful lives of property, plant and equipment

The company reviews the useful life of property, plant and equipment at the end of each reporting period or more frequently. This reassessment may result in change in depreciation expense in future periods.

Valuation of deferred tax assets / liabilities

The company reviews the carrying amount of deferred tax assets / liabilities at the end of each reporting period.

Provisions and contingent liabilities

A provision is recognised when the company has a present obligation as a result of past event and it is probable than an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits and compensated absences) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. Contingent liabilities are not recognised in the financial statements. A contingent asset is neither recognised nor disclosed in the financial statements.

2.4 Revenue Recognition

Revenue is measured at fair value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duty and net of returns, trade allowances, rebates, value added taxes and amounts collected on behalf of third parties. Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured regardless of when the payment is being made. The company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

- All Expenses and income are accounted on accrual basis.

2.5 Employee benefits

- **Long - Term Employee Benefits**

The liability for gratuity & leave encashment is determined using Projected Unit Credit [PUC] Method and is accounted for on the basis of actuarial valuation in Accordance with IND AS - 19. The company recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Actuarial Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income. The current service cost is included in the employee benefit expense in the statement of profit & loss account. The interest cost calculated by applying the discount rate to the net balance of defined benefit obligation, is included in the finance cost in the statement of profit & loss account.

- **Short-Term Employee Benefits**

Short- term employee benefits include performance incentive, salaries & wages, bonus and leave travel allowance. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the services.

2.6 Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the interest costs. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of the asset. Processing fee paid for borrowings is amortised over the term of long term loan through statement of profit & loss. All other borrowing costs are expensed in the period in which they occur. Preference Shares are separated into equity and liability components based on the terms of the issue / contract. Interest on liability component of preference shares is determined using amortised cost method and is charged to the statement of profit & loss.

2.7 Depreciation & amortisation

The company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. Depreciation methods, useful lives and residual values are reviewed at each reporting period. Depreciation on additions/ deductions to property, plant and equipment is provided on pro-rata basis from the date of actual installation or up to the date of such sale or disposal, as the case may be. Leasehold assets are amortised equally over the period of their lease.

2.8 Impairment of Assets

i) Financial assets (other than at fair value)

The company assesses at each balance sheet date whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The company recognises lifetime expected losses for all contract assets and/or all trade receivables that do not constitute a financing transaction.

(ii) Non-financial assets

a) Property, Plant & equipment and Intangible Assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is an indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs. If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit or loss.

b) Investment in subsidiaries

Investment held by the company as on the date of transition date i.e. 01.04.2016 is valued at cost. Investments made in subsidiaries, after the transition date, have been valued at Fair Value Through Other Comprehensive Income [FVTOCI].

c) Investment in associates / Joint Ventures

Investment held by the company in associates / joint ventures as on the date of transition date i.e. 01.07.2015 is valued at cost. Investments made in associates / joint ventures, after the transition date, have been valued at Fair Value Through Other Comprehensive Income [FVTOCI].

d) Investment - Others

Current Investments

Quoted financial assets have been classified as FVTOCI and unquoted financial assets have been classified as Fair Value Through Profit & Loss [FVTPL].

Non-Current

Investments

Quoted long term investments have been classified as FVTOCI and unquoted long term investments are have been classified as FVTPL.

2.9 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized. The company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. Minimum Alternative Tax [MAT] paid in accordance with the tax laws, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the company will pay normal income tax in future periods. Accordingly, MAT is recognised as an asset in the balance sheet when it is probable that future economic benefits associated with it flow to the company and the asset can be measured reliably.

2.10 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation /amortization and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The cost of property, plant & equipment also includes initial estimates of dismantling cost and restoring the site to its original position, on which the site is located. For transition to IND AS, the company has elected to continue with carrying value of all its property, plant and equipment recognized as on 01.07.2015 measured as per the previous GAAP in accordance with the principles of Part B of Schedule II of the Companies Act, 2013.

2.11 Financial instruments

The company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets (Except Net Investments) and financial liabilities (Except Borrowings) are recognized at fair value on initial recognition, except for trade receivables and security deposits, which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss are added to the fair value on initial recognition. Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination, which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts are approximately at fair value due to the short maturity of these instruments. De-recognition of financial instruments.

De-recognition of financial instruments

The company de-recognises a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for de-recognition under IND AS 109. A financial liability (or a part of a financial liability) is de-recognised from the company's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

2.11 (a) Borrowings

Borrowings are initially measured at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Preference shares are separated into liability and equity components based on the terms of the issue / contract. On issuance of the preference shares, the fair value of the liability component is determined using a market rate for an equivalent instrument. This amount is classified as financial liability and is measured at amortised cost (net of transaction costs) until it is extinguished on conversion or redemption. The remainder of the proceeds is recognised and included in equity. Transaction costs are deducted from equity, net of associated income tax. The carrying amount of the equity component is not re-measured in subsequent years.

2.12 Investments

a) Investment in subsidiaries

Investment held by the company in subsidiaries as on the date of transition date i.e. 01.04.2015 is valued at cost. Investments made in subsidiaries, after the transition date, have been valued at Fair Value Through Other Comprehensive Income [FVTOCI]. b) Investment in associates / Joint Ventures Investment held by the company in associates / joint ventures as on the date of transition date i.e. 01.04.2015 is valued at cost. Investments made in associates / joint ventures, after the transition date, have been valued at Fair Value Through Other Comprehensive Income [FVTOCI].

c) Investment - Others Current Investments

Quoted financial assets have been classified as FVTOCI and unquoted financial assets have been classified as Fair Value Through Profit & Loss [FVTPL]. **Non-Current Investments** Quoted long term investments have been classified as FVTOCI and unquoted long term investments are have been classified as FVTPL.

2.13 Provisions

A provision is recognized if, as a result of a past event, the company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

2.14 Inventories

- Raw Materials and Goods under process are valued at cost (Net of provision for diminution) or *Net Realizable value, whichever is lower.
- Waste and Scrap is valued at Net Realizable Value.
- Cost of inventories of Raw Materials and stores and Spares is ascertained on FIFO basis.
- Cost of goods under process comprise of cost of materials and proportionate production overhead. Cost of material for this purpose is ascertained on FIFO basis.
- Provision for obsolescence in inventories is made, whenever required.
- *Net Realizable Value is the estimated selling price in the ordinary course of business less any applicable selling expenses.

2.15 Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

2.16 Excise Duty

Excise Duty is paid on clearance of goods but is accounted for in the books on accrual basis. Accordingly, provision for excise duty is made for goods lying in the Bonded Warehouse.

2.17 Cash and Cash Equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

2.18 Cash Flow Statement

Cash flows are reported using the indirect method, except in case of dividend which has been considered on the basis of actual movement of cash with corresponding adjustments of assets and liabilities and where by profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

2.19 Dividends

- Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

2.20 Leases

- Leases under which the company assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower.
- Lease payments under operating leases are recognized as an expense on a straight line basis in net profit in the Statement of Profit and Loss over the lease term. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, such increases are recognized in the year in which such benefits accrue.

**CONSOLIDATED FINANCIAL STATEMENT
Of
JMT AUTO LIMITED
AND
ITS SUBSIDIARIES**

Independent Auditors' Report on Consolidated Ind AS Financial Statements

To the Members of JMT Auto Limited, Report on the Consolidated Ind AS financial statements

We have audited the accompanying consolidated Ind AS financial statements of JMT Auto Limited ("the holding company") and its subsidiaries (collectively referred to as "the Group"), and its associates which comprise the consolidated balance sheet as at 31st March 2017, the consolidated statement of profit and loss [including other comprehensive income], the consolidated cash flow statement and the consolidated statement of changes in equity for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

Management's Responsibility for the Consolidated Ind AS financial statements

The Holding Company's board of directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance [including other comprehensive income], the consolidated changes in equity and the consolidated cash flows of the Group, its associates and joint ventures, in accordance with the accounting principles generally accepted in India, including the Indian accounting standards prescribed under Section 133 of the Companies Act, 2013 (hereinafter referred to as "the Act") read with relevant Rules of the Companies (Accounts) Rules, 2014. The respective board of directors of the companies included in the Group, its associates and joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the 'Act' for safeguarding of the assets of the Group, its associates and joint ventures and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the directors of the Holding Company, as aforesaid.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and the matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the standards on auditing specified under section 143(10) of the Act. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's board of directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in other matters paragraph below, is sufficient and appropriate to provide a basis for our **qualified audit opinion** on the consolidated Ind AS financial statements.

Basis for Qualified Opinion

The financial statements and other financial information of the overseas subsidiary included in the consolidated Ind AS financial statements, as at and for the year ended March 31, 2017, are based on its unaudited financial statements, as certified by the management and which reflects total assets of Rs. 87,467 Lakh as at March 31, 2017, net asset (liability) of Rs. 7388 Lakh as at March 31, 2017, total revenue of Rs. 230930 Lakh for the year ended March 31, 2017 and net cash out flow of Rs. 651 Lakh for the year ended on that date, as considered in these financial statements. Consequently, we were unable to determine whether any adjustments to these amounts, including consequential adjustments to reserves & surplus including adjustments to retained earnings on transition to Ind AS etc. were necessary, had the financial statements of these subsidiaries been audited as at and for the year ended March 31, 2017.

Qualified Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statement of the subsidiary, and associates, except for the possible effects of the matters described in the basis of qualified opinion sub-paragraph (a) and (b) as given here in above, the effect of which is not ascertainable, the aforesaid consolidated Ind AS financial statements give the information required by the 'Act' in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the consolidated financial position of the Group as at March 31, 2017, and its consolidated financial performance [including other comprehensive income], its consolidated statement of changes in equity and its consolidated cash flows for the year ended on that date.

Other Matter

We have not audited the Ind AS financial statements / financial information of the overseas subsidiary included in the consolidated Ind AS financial statements, whose Ind AS financial statements reflect total assets of Rs. 87,467 Lakh as at March 31, 2017, net asset (liability) of Rs. 7388 Lakh as at March 31, 2017, total revenue of Rs. 230930 Lakh for the year ended March 31, 2017 and net cash out flow of Rs. 651 Lakh for the year ended on that date, as considered in the consolidated Ind AS financial statements. The consolidated Ind AS financial statement also include Group's share of net profit of Rs. 8.64 Lakhs for the year ended March 31, 2017, in respect of the associate company, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us for the purpose of consolidation, and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of the subsidiaries and our report, in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary company is based solely on the management accounts furnished by the management.

Our opinion on the consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the management accounts furnished by the management.

Report on Other Legal and Regulatory Requirements

1. As required by sub-section 3 of Section 143 of the Act, based on our audit and on the consideration of the report of other auditors on separate financial statements of subsidiaries, associates and joint ventures, as noted in 'Other Matter' paragraph, we report, to the extent applicable, that:
 - (a) Except for the matters described in the Basis for qualified opinion, we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements.
 - (b) In our opinion, except for the matters described in basis for qualified opinion above, proper books of accounts relating to preparation of the aforesaid consolidated Ind AS financial statements as required by law have been kept so far as it appears from our examination of those books and the reports of the other auditors.
 - (c) The consolidated balance sheet, the consolidated statement of profit and loss [including other comprehensive income], consolidated cash flow and the consolidated statement of changes in equity dealt with by this

report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements.

- (d) In our opinion, except for the effects of the matters described in the Basis for qualified opinion paragraph above, the aforesaid consolidated Ind AS financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) In our opinion, the matters described in the Basis for qualified opinion above may have adverse effect in the functioning of the group.
- (f) On the basis of the written representations received from the directors of the holding company as on 31 March 2017 taken on record by the board of directors of the holding company and the reports of the other statutory auditors of its subsidiary companies, associates and joint ventures incorporated in India, none of the directors of the Group companies, its associates and joint ventures incorporated in India is disqualified as on 31st March 2017 from being appointed as a director of that company in terms of sub-section 2 of Section 164 of the Act.
- (g) with respect to the adequacy of the internal financial controls over financial reporting of the holding company and its subsidiary companies, associates and joint ventures incorporated in India and the operating effectiveness of such controls, refer to our separate report in "Annexure A"; and
- (h) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements of subsidiaries, as noted in the 'Other Matter' paragraph:
 - i. the consolidated Ind AS financial statements disclose the impact of pending litigations on the consolidated financial position of the Group, and its associates. [Refer Note no. 32.5 to the consolidated Ind AS financial statements];
 - ii. the Group, its associates and joint ventures did not have any material foreseeable losses on long term contracts including derivatives contracts.
 - iii. there were no amounts which were required to be transferred, to the Investor Education and Protection Fund by the holding company, its subsidiaries and joint venture companies incorporated in India.
 - iv. the Group, its associates and joint venture companies incorporated in India has provided requisite disclosures in its Ind AS financial statements as to holdings as well as dealings in specified bank notes during the period from 8th November 2016 to 30th December 2016. Based on the audit procedures and reliance on management representation, we report that the disclosures are in accordance with the books of accounts and other records maintained by the holding company and subsidiaries incorporated in India and as produced to us by the management of the holding company [Refer note 3.33 to the consolidated Ind As financial statements].

Annexure - A to the Independent Auditors' Report

Report on the Internal Financial Controls over financial reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Ind AS financial statements of JMT Auto Limited [the Holding Company] as of and for the year ended March 31, 2017, we have audited the internal financial controls over financial reporting of JMT Auto Limited ("the holding company"), its subsidiary companies, associates and joint venture companies, incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective board of directors of the holding company, its subsidiary companies, associates and joint venture companies, incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by other auditors in terms of their reports referred to in Other Matters paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the holding company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and may not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanation given to us and based on consideration of reporting of other auditors as mentioned in "Other Matters" paragraph of Audit Opinion, the holding company, its subsidiaries, associate companies and joint venture companies, which are incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the holding company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matters

Our aforesaid report under section 143(3)(i) of the Companies Act, 2013 on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to 4 subsidiary companies, 8 associate companies and 2 joint venture companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

JMT AUTO LIMITED
AN AMTEK GROUP COMPANY

ANNUAL REPORT 2016-17

Notes to the Financial Statements

1. Company Overview and Significant Accounting Policies

M/S JMT Auto Limited (hereinafter referred to as JMT) together with its subsidiaries (collectively, “the Company” or “the Group”) is one of the major players in the auto components sector with proven capabilities in forging, casting, and machining.

The Product portfolio of the Group comprises of auto components. The company is original equipment manufacturer supplier for passenger cars, light and heavy commercial vehicles. The company also manufactures components for non-auto sectors viz. Agriculture, Oil and Gas, Railways, Construction equipment.

Major customers of the Group include Tata Motors, TAFE, Eaton, Kobelco, Tata Hitachi, Timken, Helliburton, AB-Volvo, LukSchaeffler, Volks Wagon.

The Company has its Registered Office at Plot No.-16, Industrial Area, Roz-ka-Meo, P.O. Sohna, Gurugram, Haryana and Corporate Office at 3, Local Shopping Centre, Pamposh Enclave, G.K.-1, New Delhi.

2. Significant Accounting Policies

2.1 Statement of Compliance

The consolidated financial statements have been prepared in accordance with Indian Accounting Standards (“Ind AS”) as issued under the Companies (Indian Accounting Standards) Rules, 2015. For all periods up to and including the year ended March 31, 2016, the Group prepared its consolidated financial statements in accordance with Accounting Standards specified in Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 (“Indian GAAP”) and other relevant provision of the Act. These consolidated financial statements for the year ended March 31, 2017 are the first consolidated financial statements that the Group has prepared in accordance with Ind AS.

There is a possibility that these consolidated financial statements and comparatives may require adjustment due to changes in financial reporting requirements arising from new or revised standards or interpretations issued by MCA or ICAI.

2.2 Basis of preparation of consolidated financial statements

These financial statements are prepared in accordance with Indian Accounting Standards (IND AS) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values; the provisions of the Companies Act, 2013 (‘Act’) (to the extent notified and applicable); and guidelines issued by the Securities and Exchange Board of India (SEBI). The IND AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

The group has adopted all notified Indian Accounting standards to the extent applicable. The adoption was carried out in accordance with IND AS 101 (First time adoption of Indian Accounting Standards). The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP. Reconciliations and descriptions of the effect of the transition has been summarized in notes.

Accounting policies have been consistently applied except where a newly issued Indian accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. Further the consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances except for items, for which the accounting treatment is given on the basis of local laws applicable in respective countries for which using uniform accounting policies for the purpose of consolidation is impracticable.

2.3 Use of estimates

The preparation of the consolidated financial statements in conformity with IND AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

2.3.1 Useful lives of property, plant and equipment

The group reviews the useful life of property, plant and equipment at the end of each reporting period or more frequently. This reassessment may result in change in depreciation expense in future periods.

2.3.2 Valuation of deferred tax assets / liabilities

The group reviews the carrying amount of deferred tax assets / liabilities at the end of each reporting period. The policy for the same has been explained under Note 2.11.

2.3.3 Provisions and contingent liabilities

A provision is recognised when the company has a present obligation as a result of past event and it is probable than an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits and compensated absences) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. Contingent liabilities are not recognised in the financial statements. A contingent asset is neither recognised nor disclosed in the financial statements.

2.4 Principles of Consolidation and Equity Accounting

Consolidated financial statements are the financial statements of the group in which assets, liabilities, equity, income, expenses and cash flows of the parent and its subsidiaries are presented as those of a single economic entity.

(i) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the group has control. The group controls the entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date, the control seizes.

The group combines the financial statements of the parent and its subsidiaries line by line, adding together like items of assets, liabilities, equity, income and expenses. Inter-company transactions, balances and unrealized gains all transactions between group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of impairment of the transferred assets. Accounting policies of subsidiaries have been changed wherever considered necessary to ensure consistency with the policies adopted by the group.

Non- controlling interest in the results and equity of subsidiaries are shown separately in the consolidated statement of the profit and loss, consolidated statement of changes in equity and balance sheet respectively.

(ii) Associates

Associates are all entities over which the group has significant influence but does not have control or joint control. This is generally a case where the group holds between 20%-50% of the voting rights. Investments in associates are accounted for using the equity method of accounting after initially being recognized at cost.

(iii) Joint Ventures

Interest in Joint ventures are accounted for using the equity method, after initially being recognized at cost in the consolidated balance sheet.

2.5 Foreign currency translations

(i) Functional and Presentation Currency

The Group's consolidated financial statements are presented in INR, which is also the parent company's functional currency. For each entity, the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in profit or loss. A monetary item for which settlement is neither planned nor likely to occur in the foreseeable future is considered as part of the entity's net investment in that foreign operation.

Foreign exchange differences regarded as adjustment to borrowing cost are presented within finance cost. All other foreign exchange gains and losses are presented in the statement of profit and loss on a net basis within other gains/losses.

Non-monetary assets and liabilities denominated in foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

(iii) Group Companies

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Company's foreign operations that have a functional currency other than Indian rupees are translated into Indian rupees using exchange rates prevailing at the reporting date. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising, if any, are recognized in other comprehensive income and held in foreign currency translation reserve (FCTR), a component of equity, except to the extent that the translation difference is allocated to non-controlling interest.

2.6 Revenue Recognition

Revenue is measured at fair value of the consideration received or receivable. Revenue is recognised to the extent that it is probable that the economic benefits will flow to the group and the revenue can be reliably measured regardless of when the payment is being made. The group bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

- All Expenses and income are accounted for on accrual basis.

2.7 Employee benefits

● Long - Term Employee Benefits

The liability for gratuity, leave encashment, pension, superannuation and other benefits is determined using Projected Unit Credit [PUC] Method and is accounted for on the basis of actuarial valuation in Accordance with IND AS - 19. The company recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Actuarial Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income. The current service cost is included in the employee benefit expense in the statement of profit & loss account. The interest cost calculated by applying the discount rate to the net balance of defined benefit obligation, is included in the finance cost in the statement of profit & loss account.

- **Short-Term Employee Benefits**

Short - term employee benefits include performance incentive, salaries & wages, bonus and leave travel allowance. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the services.

2.8 Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the interest costs. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of the asset.

Processing fee paid for borrowings is amortised over the term of long term loan through statement of profit & loss. All other borrowing costs are expensed in the period in which they occur.

Preference Shares are separated into equity and liability components based on the terms of the issue / contract. Interest on liability component of preference shares is determined using amortised cost method and is charged to the statement of profit & loss.

2.9 Depreciation & amortisation

The group depreciates property, plant and equipment over their estimated useful lives using the straight-line method. Depreciation methods, useful lives and residual values are reviewed at each reporting period. Depreciation on additions/deductions to property, plant and equipment is provided on pro-rata basis from the date of actual installation or up to the date of such sale or disposal, as the case may be.

Leasehold assets are amortised equally over the period of their lease.

2.10 Impairment of Assets

i) Financial assets (other than at fair value)

The group assesses at each balance sheet date whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The group recognises lifetime expected losses for all contract assets and/or all trade receivables that do not constitute a financing transaction.

(ii) Non-financial assets

a) Property, Plant & equipment and Intangible Assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is an indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs. If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit or loss.

b) Investment in subsidiaries

Investment held by the group as on the date of transition date i.e. 01.04.2016 is valued at cost. Investments made in subsidiaries, after the transition date, have been valued at Fair Value Through Other Comprehensive Income [FVTOCI].

c) Investment in associates / Joint Ventures

Investment held by the company in associates / joint ventures as on the date of transition date i.e. 01.04.2016 is valued at cost. Investments made in associates / joint ventures, after the transition date, have been valued at Fair Value Through Other Comprehensive Income [FVTOCI].

d) Investment - Others

Current Investments

Quoted financial assets have been classified as FVTOCI and unquoted financial assets have been classified as Fair Value Through Profit & Loss [FVTPL].

Non-Current Investments

Quoted long term investments have been classified as FVTOCI and unquoted long term investments are have been classified as FVTPL.

2.11 Non-Current Assets held for sale/ Discontinued Operations/(Loss of Control)

The Group classifies non-current assets and disposal groups as held for sale, if their carrying amounts is likely to be recovered principally through a sale rather than through continuing use and there is a commitment from the management to sale the above assets within one year from the date of classification. The asset is regarded as held for sale only when the assets or disposal group is available for immediate sale in its present condition, subject only to the terms that are usual and customary for sales and its sale is highly probable and also it will genuinely be sold, not abandoned.

Non current assets held for sale to owners and disposal groups are measured at lower of their carrying amount and the fair value less cost to sell. Assets and liabilities classified as held for sale are presented separately in the balance sheet. Property, plant and equipment and intangible assets held for sale, once classified as held for sale are not further depreciated or amortised. Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the statement of profit and loss.

2.12 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income.

Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

The group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Minimum Alternative Tax [MAT] paid in accordance with the tax laws, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the company will pay normal income tax in future periods. Accordingly, MAT is recognised as an asset in the balance sheet when it is probable that future economic benefits associated with it flow to the company and the asset can be measured reliably.

While preparing consolidated financial statements the accounting treatment for tax is given on the basis of local laws applicable in respective countries.

2.13 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation /amortization (applied as per local laws of respective countries)and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The cost of property, plant & equipment also includes initial estimates of dismantling cost and restoring the site to its original position, on which the site is located. For transition to IND AS, the company has elected to continue with carrying value of all its property, plant and equipment recognized as on 01.04.2016 measured as per the previous GAAP.

2.14 Financial instruments

The group recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets (Except Net Investments) and Financialliabilities (Except Borrowings) are recognized at fair value on initial recognition, except for trade receivables and security deposits, which are initially measured at transaction price.Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss are added to the fair value on initial recognition.

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination, which is subsequently measured at fair value through profit and loss.

For trade and other payables maturing within one year from the balance sheet date, the carrying amounts are approximately at fair value due to the short maturity of these instruments.

De-recognition of financial instruments

The group de-recognises a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for de-recognition under IND AS 109. A financial liability (or a part of a financial liability) is de-recognised from the group's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

2.15 Borrowings

Borrowings are initially measured at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

Preference shares are separated into liability and equity components based on the terms of the issue / contract. On issuance of the preference shares, the fair value of the liability component is determined using a market rate for an equivalent instrument. This amount is classified as financial liability and is measured at amortised cost (net of transaction costs) until it is extinguished on conversion or redemption. The remainder of the proceeds is recognised and included in equity. Transaction costs are deducted from equity, net of associated income tax. The carrying amount of the equity component is not re-measured in subsequent years.

2.16 Investments

a) Investment in subsidiaries

Investment held by the group in subsidiaries as on the date of transition date i.e. 01.04.2016 is valued at cost. Investments made in subsidiaries, after the transition date, have been valued at Fair Value Through Other Comprehensive Income [FVTOCI].

b) Investment in associates / Joint Ventures

Investment held by the group in associates / joint ventures as on the date of transition date i.e. 01.04.2016 is valued at cost. Investments made in associates / joint ventures, after the transition date, have been valued at Fair Value Through Other Comprehensive Income [FVTOCI].

c) **Investment - Others**

Current Investments

Quoted financial assets have been classified as FVTOCI and unquoted financial assets have been classified as Fair Value Through Profit & Loss [FVTPL].

Non-Current Investments

Quoted long term investments have been classified as FVTOCI and unquoted long term investments are have been classified as FVTPL.

2.17 Provisions

A provision is recognized if, as a result of a past event, the group has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

2.18 Inventories

- Raw Materials and Goods under process are valued at cost (Net of provision for diminution) or *Net Realizable value, whichever is lower.
- Waste and Scrap is valued at Net Realizable Value.
- Cost of inventories of Raw Materials and stores and Spares is ascertained on FIFO basis.
- Cost of goods under process comprise of cost of materials and proportionate production overhead. Cost of material for this purpose is ascertained on FIFO basis.
- Provision for obsolescence in inventories is made, whenever required.
- *Net Realizable Value is the estimated selling price in the ordinary course of business less any applicable selling expenses.

2.19 Earnings per equity share

Basic earnings per equityshare is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equityshares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

2.20 Dividends

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the company's board of directors.

2.21 Leases

Leases under which the company assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower.

Lease payments under operating leases are recognized as an expense on a straight line basis in net profit in the Statement of Profit and Loss over the lease term.
