**MANAGEMENT DISCUSSION AND ANALYSIS FOR 2009-2010****Industry Structure and development:**

The Global and Domestic Economy have been witnessing Sectoral turnaround during the year, yet recessionary trends prevail which have impact on construction and building materials industries.

**Opportunities and threats**

The World is indeed becoming a Global city. Your company believes that niche opportunities exist in the Global arena which, if exploited, would yield positive results. The company is accordingly building a business model to exploit these opportunities by embracing the Global customers demand of quality, service and ethical outlook and also harnessing these opportunities in the domestic market.

Your company deals in very special types of Granite/Marble having unique colors for which the overseas market is very eager. Presently, it is one of the few companies which offers all natural stone products under one roof to the buyers. The demand for top quality natural stone products is also growing in the domestic market and the company has started setting up Retail outlets within the country and also amalgamated with another company having such Retail outlets so as to cater to the local demand for quality products.

However, the number of natural stone exporters from India as well as local dealers dealing in imported and other natural stones catering to domestic market are increasing, thus reducing the margins and making the business competitive. The present slowdown in economy is also likely to effect the performance of the company.

**Further Outlook**

The company has expanded its product line and started dealing in various forms of products in all varieties of Natural stones and designer mosaics. Further, acquisition of Chain of Retail Outlets during the year will add to the Gross Income. The economic outlook for the year is still uncertain but viewed with cautious optimism. Our plans for the growth of the business and profitability are based on an average economic outlook, in the present business scenario.

**Performance for 2009-2010**

During the financial year 2009-2010, the company achieved a sales turnover of Rs.3840.99 lacs as against a Sales Turnover of Rs.3760.11 lacs in the previous year. Net profit after tax stood at Rs.60.39 lacs as compared to Rs.60.16 lacs in the previous year. The company maintained its gross income as well as net income for the financial year ended 31st March 2010.

**Capital Structure**

There was no change in the capital structure of the company. The issued and paid up share capital as at 31st March, 2010, comprises of 53,80,000 equity shares of Rs.10 each.

**Internal Control System**

There are reasonable internal control systems at all levels in the Company.

**Cautionary Statement**

**Notes forming part of the consolidated accounts for the year ended March 31, 2010****SCHEDULE 17****NOTES TO ACCOUNTS****A) SIGNIFICANT ACCOUNTING POLICIES****1. Significant Accounting Policies :**

The financial statements are prepared to comply in all material aspects with the applicable accounting principles in India, the Accounting Standards issued by the Institute of Chartered Accountants of India and the relevant provisions of the Companies Act, 1956. The Significant accounting policies are as follows :

**a) Basics of Accounting :**

The Consolidated Financial statements are prepared in accordance with the historical cost convention.

**b) Use of Estimates :**

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities as at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

**c) Principles of consolidation :**

The consolidated financial statements include the financial statements of Solid Stone Company Limited (the parent company) and its subsidiaries, Granitexx UK Limited, U.K. and Stone Source GB Limited, U.K. The consolidated financial statements have been prepared on the basis of AS 21 - " Consolidated Financial Statements", issued by the ICAI.

**Subsidiaries :**

The excess of cost to the parent company of its investment in the subsidiaries over its portion of equity in the subsidiaries at the respective dates on which investment in such subsidiaries was made is recognised in the financial statements as goodwill. The parent company's portion of equity in such subsidiaries is determined on the basis of book value of assets and liabilities as per the financial statements of the subsidiaries as on the date of investment and if not available, the financial statements for the immediately preceding period adjusted for the effects of significant transactions.

The financial statements of the parent company and its subsidiaries have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses after eliminating Intra - group balances/transactions and resulting unrealized profits in full. Unrealized losses resulting from Intra - group transactions are also eliminated except to the extent that recoverable value of related assets is lower than their cost to the group. Consolidated financial statements are prepared using uniform accounting policies for transactions and other events in similar circumstances except where it is not practicable to do so. Minority interest's share of net loss is adjusted against the income to arrive at the net income attributable to shareholders. Minority interest's share of net assets is to be presented separately in the balance sheet. However, during the year under review, the losses applicable to the minority exceeds the minority interest and hence the excess is adjusted against the minority interest. Consequently, Minority Interest does not appear in the Consolidated Balance Sheet.

The following subsidiary companies are considered in the consolidated financial statements :

Sr. No	Name of Subsidiary Company	Country of Incorporation	% of holding as at March 31,2010
1	Granitexx UK Limited	United Kingdom	100%
2	Stone Source GB Limited	United Kingdom	51% Equity held by Granitexx UK Limited (100% subsidiary) ( Also Subsidiary by virtue of control over composition of Board of Directors )

The significant accounting policies are as follows :

## NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 MARCH 2010

## 1. ACCOUNTING POLICIES

**Basis of accounting**

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

In adopting the Financial Reporting Standard for Smaller Entities (effective April 2008), it was not necessary to change any accounting policies and no prior period adjustment was required. Hence there has been no effect on the results for the current period in adopting the new Financial Reporting Standard for Smaller Entities.

**Consolidation**

In the opinion of the directors, the company and its subsidiary undertakings comprise a small group. The company has therefore taken advantage of the exemption provided by Section 398 of the Companies Act 2006 not to prepare group accounts.

**Turnover**

The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax.

**Stocks**

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

**Foreign currencies**

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of the transaction. Exchange differences are taken into account in arriving at the operating profit.

**Financial instruments**

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.

Where the contractual obligations of financial instruments (including share capital) are equivalent to a similar debt instrument, those financial instruments are classed as financial liabilities. Financial liabilities are presented as such in the balance sheet. Finance costs and gains or losses relating to financial liabilities are included in the profit and loss account. Finance costs are calculated so as to produce a constant rate of return on the outstanding liability.

Where the contractual terms of share capital do not have any terms meeting the definition of a financial liability then this is classed as an equity instrument. Dividends and distributions relating to equity instruments are debited direct to equity.
