"RESOLVED FURTHER THAT aforesaid issue of Warrants shall be subject to the following terms and conditions :

- (a) Each Warrant held by the Proposed Warrant Allottees ("**Warrant Holder**") shall entitle each of them to apply for and obtain allotment of one Equity Share at any time after the date of allotment but on or before the expiry of 18 (eighteen) months from the date of allotment (the "**Warrant Exercise Period**").
- (b) The Proposed Warrant Allottees shall, on the date of allotment of Warrants, pay an amount equivalent to at least 25% of the Warrant Issue Price fixed per Warrant in terms of the SEBI ICDR Regulations which will be kept by the Company to be adjusted and appropriated against the Warrant Issue Price of the Equity Shares. The balance 75% of the Warrant Issue Price shall be payable by the Warrant Holder at the time of exercising the Warrants.

- (c) Warrants, being allotted to the Proposed Warrant Allottees and the Equity Shares proposed to be allotted pursuant to the conversion of these Warrants shall be under lock in for such period as may be prescribed under SEBI ICDR Regulations.
- (d) Warrants so allotted under this resolution shall not be sold, transferred, hypothecated or encumbered in any manner during the period of lock-in provided under SEBI ICDR Regulations except to the extent and in the manner permitted there under.
- (e) Warrants shall be issued and allotted by the Company only in dematerialized form.
- (f) The consideration for allotment of Warrants and/or Equity Shares arising out of exercise of such Warrants shall be paid to the Company from the bank account of the respective Proposed Warrant Allottees.
- (g) In the event the Warrant Holder(s) do not exercise Warrants within the Warrant Exercise Period, the Warrants shall lapse and the upfront 25% amount paid thereon shall stand forfeited by the Company.
- (h) The Warrants by itself until converted into Equity Shares, do not give to the Warrant Holder(s) any voting rights in the Company in respect of such Warrants.

"RESOLVED FURTHER THAT the Equity Shares proposed to be so allotted upon conversion of Equity Warrants shall rank pari-passu in all respects including as to dividend, with the existing fully paid up Equity Shares of face value of Rs.10/- each of the Company, subject to the relevant provisions contained in the Memorandum of Association and Articles of Association of the Company."

"RESOLVED FURTHER THAT for the purpose of giving effect to this resolution, the Board/Committee(s) of the Board and the Company Secretary be and are hereby authorized severally to do all such acts, deeds, matters and things as it may in its absolute discretion consider necessary, desirable or expedient including application to Stock Exchanges for obtaining of in-principle approval, listing of shares, filing of requisite documents with the Registrar of Companies, National Securities Depository Limited (NSDL), Central Depository Services (India) Limited (CDSL) and/ or such other authorities as may be necessary for the purpose, to resolve and settle any questions and difficulties that may arise in the proposed issue, offer and allotment of the said Equity Shares, utilization of issue proceeds, signing of all deeds, agreements and documents as may be required without being required to seek any further consent or approval of the shareholders."

"RESOLVED FURTHER THAT all actions taken by the Board or Committee(s) duly constituted for this purpose in connection with any matter(s) referred or contemplated in any of the foregoing resolutions be and are hereby approved, ratified and confirmed in all respects."

“**RESOLVED FURTHER THAT** all other clauses of the explanatory statement to the shareholders’ resolution set out in Item No. 2 & 3 annexed to the said EGM notice shall be read, interpreted and understood in a resembling manner as provided in an explanatory statement annexed with the notice of Extra Ordinary General Meeting (EOGM) of the Company dated April 04, 2018.”

“**RESOLVED FURTHER THAT** for the purpose of giving effect to the above modifications/ratifications/alterations in the EGM notice and Explanatory Statement dated April 04, 2018, the Board be and is hereby authorized to do all such acts, deeds, matters and things as may be required in connection with the proposed allotment of Equity Shares and Warrants, without limitation of finalizing the offer letter and entering into the relevant agreements and including any act, matters and things already done with statutory authorities/ stock Exchanges and further authorize the Board to carry out all necessary acts, deeds, matters etc. as may be necessary for giving effect to the above modifications/ratifications/alterations and also to file the amendments/ ratifications with the Stock Exchange(s) and seek listing of such securities at the Stock Exchange(s) where the existing securities are listed.”

16. Ratification of resolution passed at 34th Annual General Meeting (AGM) of the members of alfa Transformers Limited for issue of equity shares & warrants on a preferential allotment / private placement basis:

This is with reference to the AGM notice dated 12th August, 2016 convening an 34th Annual General Meeting of the shareholders of the Company held on 28th September, 2016 for issue of equity shares and warrants on a preferential allotment/private placement basis:

To consider and if thought fit to pass with or without modification (s) the following resolution as a Special Resolution:

“**RESOLVED THAT** Clause I of the explanatory statement to the shareholders’ resolution set out in Item No. 8&9 annexed to the notice of 34th Annual General Meeting of the Company dated 12th August, 2016 convening an Annual General Meeting of the shareholders of the Company, 28th September, 2016, for issue of Equity Shares and Warrants on a preferential allotment/private placement basis be and is hereby ratified and it should read as under:

Clause I. w.r.t., “Re-computation of Issue Price” of the Explanatory Statement to the shareholders’ resolution no. 8&9 shall read as under:

Since the Company’s Equity Shares are infrequently traded, Regulation 76A of the SEBI (ICDR) Regulations applies to the Company and therefore, the Company need not to re-compute the price of the Equity Shares in terms of Regulation 76(1) of the SEBI ICDR Regulations. Accordingly, the requirement to furnish undertakings under Regulation 73(1) (f) and (g) of the SEBI ICDR Regulations is not applicable.

“**RESOLVED FURTHER THAT** all other clauses of the explanatory statement to the shareholders’ resolution set out in Item No. 8&9 annexed to the said AGM notice shall remain unchanged.”

“**RESOLVED FURTHER THAT** for the purpose of giving effect to the above modifications/ratifications/alterations in the said AGM notice and Explanatory Statement, the Board be and is hereby authorized to do all such acts, deeds, matters and things as may be required in connection with the proposed allotment of Equity Shares and Warrants, without limitation of finalizing the offer letter and entering into the relevant agreements and including any act, matters and things already done with statutory authorities/stock Exchanges and further authorize the Board to carry out all necessary acts, deeds, matters etc. as may be necessary for giving effect to the above modifications/ ratifications/alterations and also to file the amendments/ ratifications with the Stock Exchange(s) and seek listing of such securities at the Stock Exchange(s) where the existing securities are listed.”

VI. Consequential Changes in the Voting Rights and Change in Management

As a result of the proposed preferential issue of Warrants and upon conversion of the Warrants, there will be no change in the control or management of the Company. However, voting rights will change in tandem with the shareholding pattern.

VII. Lock-in Period:

The Warrants and Equity Shares arising on conversion of Warrants to be allotted on a preferential basis to the persons belonging to Promoter Group shall be subject to lock-in' in accordance with Regulation 78 of the SEBI ICDR Regulations.

VIII. Issue price and relevant date:

In terms of Regulation 76 of SEBI ICDR Regulations, the Relevant Date has been reckoned as Tuesday, July 31, 2018 for the purpose of computation of issue price of the said Warrants.

Since, the Equity Shares of the Company are listed on BSE Limited (BSE) and are frequently traded and accordingly, the minimum issue price has been calculated on the basis of trading at BSE. Therefore, in terms of Regulation 76(1) of the SEBI ICDR Regulations, the Issue Price has been computed as Rs. 35.50 per Warrant, or such other price as may be decided by the Board in terms of Chapter VII of SEBI ICDR Regulations.

IX. Re-computation of Issue Price:

The Board of Directors of the Company undertake that:

Since the Company's Equity Shares are listed and traded for a period more than twenty six weeks, therefore, there is no need for the Company to re-compute the price of Equity Shares in terms of the provisions of the SEBI ICDR Regulations.

X. Auditor's Certificate:

The certificate from M/S. PAMS & Associates, Chartered Accountants, being the Statutory Auditors of the Company certifying that the preferential issue is being made in accordance with the requirements of Chapter VII of the SEBI ICDR Regulations shall be available for inspection at the registered office of the Company during 10:00 A. M. to 5:00 P.M. (office hours) up to the date of declaration of results and shall also be placed before the shareholders at the Annual General Meeting.

XI. Disclosure with regard to the names of issuer, its promoter or any of its directors not appearing in the list of willful defaulter as issued by RBI.

The Company, its promoters and its directors are not categorized as willful defaulter(s) by any bank or financial institution or consortium thereof, in accordance with the guidelines on willful defaulters issued by Reserve Bank of India.

XII. Report of registered valuer :

No report of registered valuer is required for the offer, issue and allotment of the Warrants and Equity Shares arising on exercise of the Warrants under the provisions of second proviso to Rule 13(1) of the Companies (Share Capital and Debenture) Rules, 2014, as amended.

XIII. Details of the Directors, Key Managerial Persons or their relatives, in any way, concerned or interested in the said resolution.

Directors/KMP are interested in this resolution to the extent of shares/warrants offered to them, their associates and relatives.

The Board of Directors recommends the resolutions as set out in item no. 14 of this notice for the issue of Warrants, on a preferential basis, to the persons belonging to the promoter category by way of Special Resolution.

ITEM NO 15: Ratification of resolution passed at the extra ordinary general meeting (EoGM) of the company held on May 01, 2018 for issue of equity shares & warrants on a preferential allotment / private placement basis:

The shareholders of the Company at the EGM held on May 01, 2018 passed necessary resolutions to issue 18,62,617 Equity Shares and 16,74,488 Warrants to be issued and allotted, at an issue price of Rs. 33/- each, on preferential basis.

Accordingly, the Company applied to BSE Limited for seeking its 'In-Principle' approval for the proposed preferential issue, wherein BSE observed certain discrepancies in the Clauses III & V of the Explanatory Statement to shareholders' resolution no. 2 & 3. Based on interactions with BSE Limited, the Company was advised to seek ratification for disclosure of correct pre and post percentages for Non- Promoter allottees, & correct Pre & Post Shareholding Pattern in terms of Regulation 73(1)(e) of SEBI ICDR Regulations, 2009, by the members of the Company.

Based on the above mentioned Undertakings, the Company received 'In-principle' approval of the BSE Limited for issuance of 18,62,617 shares and 13,79,488 Warrants through preferential allotment/private placement on 28.06.2018, on a condition that the Company shall ratify the same before seeking Exchange's listing approval. The Warrants, as proposed to be allotted to the Promoters, pursuant to the Resolutions passed at the above mentioned EGM were not allotted by the Company.

Thus, to comply with the regulation 73(1)(e) of the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2009 and to uphold the spirit of compliance, the Company has decided to seek approval of its members by way of ratification, in respect of the shares or warrants, for which In Principle Approval has been granted by BSE.

The Directors recommend the special resolution set out in Item No. 15 for the approval of the Members in terms of relevant provisions of the Companies Act, 2013.

None of the Directors / Key Managerial Personnel of the Company / their relatives are in any way, concerned or interested, financially or otherwise, in the resolution set out in the Notice.

ITEM NO 16 : Ratification of resolution passed at 34th annual general meeting (AGM) of the members of Alfa Transformers Limited for issue of equity shares & warrants on a preferential allotment / private placement basis:

With reference to the approval granted by the shareholders of the Company at the AGM held on September 28, 2016 (Item Nos. 8 & 9), for the preferential issue of Equity Shares and Warrants, in the clause I for "Re- computation of Price" in the Explanatory Statement for Item No. 8 & 9, inadvertent typographical error came to the notice of the Company. Thus, ratification from the members of the Company is sought from the shareholders' of the Company so as to rectify the error in the printed copy of the notice of 34th AGM dated August 12, 2016. All other terms mentioned in the said Notice remain unchanged.

The Directors recommend the special resolution set out in Item No. 16 for the approval of the Members in terms of relevant provisions of the Companies Act, 2013.

None of the Directors / Key Managerial Personnel of the Company / their relatives are in any way, concerned or interested, financially or otherwise, in the resolution set out in the Notice.

FINANCIAL PERFORMANCE :

In the competitive market, the Company was able to achieve Sales and Other income to the extent of Rs. 47.13 cores in the present year as compared to Rs. 29.01 cores in the previous year. With sustained effort the Company has been able to book order of Rs. 40.19 Crores (As on 28.05.18). Further orders are under negotiation with some parties from Libiya. With this we see strong improvement in F.Y. 2018-19.

With its strong market presence and performance, the company is in a position to attract investment from various private equity investors. During the financial year 2017-18 the Company has gone for preferential allotment of shares and warrants which resulted in inflow of funds amounting to Rs 206.74 Lakhs. During the current financial year, the Company is expecting inflows about Rs. 6,14,66,361/- from Preferential Issue of Equity Shares and Rs. 1,38,14,526/- i.e. 25% of the subscription money of Warrants from Promoter and Non-promoter group. Another Rs. 4,14,43,578 is expected to come later on allotment of equity shares on conversion of warrants.

FUTURE PROSPECTS :

As stated above with good order in hand situation, the Company believes to achieve a much higher sales turnover in the F.Y. 2018-19. To achieve the above target, Company has taken various steps such as increase in capacity utilization, rationalization of machines between its Bhubaneswar and Vadodara Units, remodeling and layout changes in the plant, addition of experienced manpower, strengthening of supply chain management with a view for just in time delivery and cost reduction. The Company has also embarked upon improvement in IT system for smooth adoption of GST. To support the higher turnover, company is approaching banks and other financial institution for higher working capital facility.

Company is striving to add product qualification as per new BEE system in a big way so as to increase order catchment area and is trying to win vendor approval for these rating from other customers.

As all of you know that the Company was a large exporter of transformers to Middle East and African countries which got affected due to political issues, company is now again trying to revive this segment of market and soon expect good results.

As the company has a bright future, we are expecting to crack some overseas deals which will fetch us a good return in future.

TRANSFER TO INVESTOR EDUCATION AND PROTECTION FUND :

The unclaimed dividend amount aggregating to Rs. 1,45, 296 for the financial year ended 2009-10 was transferred to the Investor Education and Protection Fund established by the Central Government during the Financial year ended 31.03.2018, pursuant to Section 124 of the Companies Act, 2013.

Power sector Prospects

Indian Economy is expected to grow at above around 7% in coming years. With the government's Firm resolve to provide electricity to all in India by the year 2022, power sector is on the trajectory of high growth. Power is one of the most critical components of infrastructure, crucial for the economic growth and welfare of nations. The existence and development of adequate infrastructure is essential for sustained growth of the Indian economy. India's power sector is one of the most diversified in the world. Sources of power generation range from conventional sources such as coal, lignite, natural gas, oil, hydro and nuclear power to viable non-conventional sources such as wind, solar, and agricultural and domestic waste. Electricity demand in the country has increased rapidly and is expected to rise further in the years to come. In order to meet the increasing demand for electricity in the country, massive addition to the installed generating capacity is required.

India ranks third among 40 countries in EY's Renewable Energy Country Attractiveness Index, on back of strong focus by the government on promoting renewable energy and implementation of projects in a time bound manner. India has moved up 73 spots to rank 26th in the World Bank's list of electricity accessibility in 2017, according to Mr. Piyush Goyal, Minister of State (Independent Charge) for Power, Coal, Renewable Energy and Mines, Government of India. In September 2017, the Government of India launched the “**Saubhagya**” scheme to provide electricity connections to over 40 million families in rural and urban areas by December 2018 at a cost of US\$ 2.5 billion.

Indian power sector is undergoing a significant change that has redefined the industry outlook. Sustained economic growth continues to drive electricity demand in India. The Government of India's focus on attaining 'Power for all' has accelerated capacity addition in the country. At the same time, the competitive intensity is increasing at both, the market and supply sides (fuel, logistics, finances, and manpower). Total installed capacity of power stations in India stood at 334,146.91 Megawatt (MW) as on February, 2018.

Around 293 global and domestic companies have committed to generate 266 GW of solar, wind, mini-hydel and biomass-based power in India over the next 5–10 years. The initiative would entail an investment of about US\$ 310–350 billion.

Between April 2000 and September 2017, the industry attracted US\$ 12.3 billion in Foreign Direct Investment (FDI), accounting for 3.44 per cent of total FDI inflows in India. Some major investments and developments in the Indian power sector are as follows:

- Energy Efficiency Services Ltd (EESL) has raised US\$ 454 million from Global Environment Facility (GEF) for its energy-efficiency projects in an attempt to boost India's move towards becoming a low carbon economy.
- IL&FS Financial Services Ltd has partnered with Jammu and Kashmir (J&K) Bank Ltd to finance nine hydropower projects in J&K with a total capacity of 2,000 MW, which require financing of around Rs 20,000 crore (US\$ 3.12 billion).
- Sterlite Power has won one of the largest 1,800 km power transmission project worth US\$ 800 million in Brazil, the company's third project in Brazil and the largest ever project won by an Indian company in Latin America.
- With the aim of giving a boost to renewable energy, the State Bank of India (SBI) and the World Bank have decided to sanction credit worth Rs 2,317 crore (US\$ 356.82 million) to seven corporates towards solar rooftop projects to generate a total of 575 megawatt (MW) of solar energy.
- India added 467 MW of grid interactive wind power capacity between January-November 2017, while wind power projects with cumulative capacity of 9,500 MW are expected to be bid out by March 2018, according to Mr R K Singh, Minister of State (Independent Charge) for Power and New & Renewable Energy, Government of India.
- A total of 26.3 million households which are below poverty line (BPL) have been electrified under the Rural Electrification component of **Deen Dayal Upadhyay Gram Jyoti Yojana (DDUGJY)**, according to the Ministry of Power, Government of India.
- In April 2018 ReNew Power made the largest M&A deal by acquiring Ostro Energy for US\$ 1,668.21 million.

The Government of India has identified power sector as a key sector of focus so as to promote sustained industrial growth. Some initiatives by the Government of India to boost the Indian power sector :

- “**Saubhagya Yojana**” programme was launched by Mr Raghubar Das, Chief Minister, Jharkhand to provide electricity to all 29,376 villages.
- The companies within the solar power industry in India, specifically the ones involved in the operation and maintenance (O&M) of solar power plants have welcomed the Government of India's move to introduce regulations for operating drones by February 2017.
- Over 280 million LED bulbs were distributed to consumers in India by Energy Efficiency Services Limited (EESL) under **Unnati Jyoti by Affordable LEDs for All (UJALA)** as on December 19, 2017 and 524.3 million LED bulbs were sold by private players till October 2017.

ALFA TRANSFORMERS LIMITED

- In order to lower India's crude oil imports, the Government of India is going to promote coal gasification to convert high ash coal into methanol that can be used as cooking gas and transportation fuels^A, according to Mr V K Saraswat, Member of NITI Aayog.
- Initiatives taken by the Energy Efficiency Services (EESL) have resulted in energy savings of 37 billion kWh and reduction in greenhouse gas (GHG) emissions by 30 million tonnes.
- The Union and state governments have agreed to implement the Direct Benefit Transfer (DBT) scheme in the electricity sector for better targeting of subsidies, according to Mr Raj Kumar Singh, Minister of State for Power (Independent Charge).
- All the states and union territories of India are on board to fulfil the Government of India's vision of ensuring 24x7 affordable and quality power for all by March 2019, stated Mr Raj Kumar Singh, Union Minister of State (IC) for Power and New & Renewable Energy, Government of India.
- Uttar Pradesh Electricity Regulatory Commission, regulator of power sector in Uttar Pradesh, has approved several steps to strengthen the financial position of state utilities and increase opportunities for companies in the transmission and distribution (T&D) EPC business.
- The Department of Economic Affairs, Government of India, signed a guarantee agreement for IBRD/CTF loan worth US\$ 98 million and grant agreement for US\$ 2 million with the World Bank for 'shared infrastructure for solar parks project'.

The Government of India has released its roadmap to achieve 175 GW capacity in renewable energy by 2022, which includes 100 GW of solar power and 60 GW of wind power.

The Union Government of India is preparing a 'rent a roof' policy for supporting its target of generating 40 giga watts (GW) of power through solar rooftop projects by 2022.

Coal-based power generation capacity in India, which currently stands at 192 GW is expected to reach 330-441 GW by 2040##. The 2026 forecast for India's non-hydro renewable energy capacity has been increased to 155 GW from 130 GW on the back of more than expected solar installation rates and successful wind energy auctions#.

India could become the world's first country to use LEDs for all lighting needs by 2019, thereby saving Rs 40,000 crore (US\$ 6.23 billion) on an annual basis.

India's installed solar power capacity reached 14,771.69 as of September 2017.

The government's immediate goal is to generate two trillion units (kilowatt hours) of energy by 2019. This means doubling the current production capacity to provide 24x7 electricity for residential, industrial, commercial and agriculture use. A total of 16,064 villages out of 18,452 un-electrified villages in India have been electrified up to December 2017 as part of the target to electrify all villages by May 1, 2018.

The Government of India is taking a number of steps and initiatives like 10-year tax exemption for solar energy projects, etc., in order to achieve India's ambitious renewable energy targets of adding 175 GW of renewable energy, including addition of 100 GW of solar power, by the year 2022. The government has also sought to restart the stalled hydro power projects and increase the wind energy production target to 60 GW by 2022 from the current 20 GW.

Transformer Industry Future Growth Prospects Opportunities

With further initiative of the government, for strengthening the Transmission Grid, reducing power losses, replacing very old Transformers, export market for transformers peaking up, etc., the transformer industry expects sustained growth at "double digit rate" in the demand for transformers at least for next 10 years.

Threats and management perception : Cheaper imports from China, and other countries as well as lack of adequate testing facilities for transformers, which requires transformers to be dispatched to foreign countries for testing, leading to loss of time and an increase in costs for transformer manufacturing vendors, etc. are some of the challenges faced by the domestic transformer manufacturers.

The Government has invoked the principle of reciprocity for giving business opportunities in India to only those foreign countries which give similar reciprocity to India. This measure along with anti-dumping import duty on Chinese products, will go a long way to help Indian transformer industry grow.

Company strategy

- Focus on Type testing of various rating of transformer so as to qualify more
- Empanelment with PGCIL, NTPC, Railways, etc., Solar project companies
- Increase sales to benefits from economics scale leading to improved profitability.
- Focus on energy efficient transformer
- Technological advancement to improve performance parameters and productivity

ANNEXURE A TO INDEPENDENT AUDITORS' REPORT

“Annexure A” to the Independent Auditor’s Report of even date on the Financial Statements of ALFA TRANSFORMERS LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **ALFA TRANSFORMERS LIMITED** (“the Company”) as of March 31, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the company which are companies incorporated in India are responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Financial Statements Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.

NOTE NO- 27 : SIGNIFICANT ACCOUNTING POLICIES

Notes to Financial Statements:

Alfa Transformers Limited have adopted Ind-AS (the converged IFRS) with effect from April 1, 2017 pursuant to notification issued by Ministry of Corporate Affairs (MCA) notifying Companies (Indian Accounting Standard) Rules, 2015 along with the subsequent clarification and amendment by MCA. The Company has assessed the effect of transition on reported reserves and surplus as on April 1, 2016 (the transition date) and the significant areas impacting the financial statements are;

- Availing fair value as deemed cost exemption for Property, Plant and Equipment.
- Availing carrying cost of previous GAAP as deemed cost for Investment property and Intangible Assets.
- Deferred tax impact of transition adjustments together with Ind AS mandate of using balance sheet approach (against profit and loss approach in the previous GAAP).
- Other non-significant adjustments includes; fair value of financial assets. Besides, there will be change in presentation of financial statements with additional disclosures.

Statement of Compliance:

1. Basis of accounting and preparation of Standalone Financial Statements:

Basis of accounting

- i) These standalone financial statements of the Company have been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified under section 133 of the Companies Act, 2013 ('the Act') read with Rule 4 of the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act and accounting principles generally accepted in India.
- ii) These standalone financial statements are the first standalone financial statements prepared in accordance with Indian Accounting Standards (Ind AS). For all periods upto and including the year ended March 31, 2017, the Company reported its Financial statements in accordance with the accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (hereinafter referred to as 'IGAAP'). The Financial statements for the year ended March 31, 2017 and the opening Balance Sheet as at April 1, 2016 have been restated in accordance with Ind AS for comparative information.

ii) Functional and Presentation Currency

These standalone financial statements are presented in Indian rupees, which is the functional currency of the Company. All financial information presented in Indian rupees has been rounded to the nearest lakh, except otherwise indicated.

iii) Use of Estimates and Judgements

The preparation of the Standalone Financial Statements in conformity with Ind AS requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the Standalone Financial Statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known/ materialize. Estimates and underlying assumptions are reviewed on an ongoing basis. Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the accounting policies.

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services on the transaction date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date on such basis as provided under Ind AS 113.

- iv) All assets and liabilities have been classified as current or non-current in accordance with the operating cycle criteria set out in Ind AS 1 and Schedule III to the Companies Act, 2013.

2. Significant accounting policies

2.1. Property, Plant and Equipment & Depreciation :

Property, plant and equipment are stated at cost, less accumulated depreciation and accumulated impairment losses. The initial cost of an asset comprises its purchase price including import duties and non-refundable purchase taxes or construction cost, any costs directly attributable to bringing the asset into the location and condition necessary for it to be capable of operating in the manner intended by management, the initial estimate of any decommissioning obligation, if any, and finance costs if any. The purchase price or construction cost is the aggregate amount paid and the fair value of any other consideration given to acquire the asset. Assets in the course of construction are initially kept under assets under construction and capitalized when the assets is available for use as intended by the management.

- (i) Cost of day-to-day servicing of property, plant and equipments are recognised in the Statement of Profit and Loss as incurred. Major overhaul expenditure is capitalized as the activities undertaken to improve the economic benefits expected to arise from the asset. Where an asset or part of an asset that was separately depreciated is replaced and it is probable that future economic benefits associated with the item will flow to the Company, the expenditure is capitalized and the carrying amount of the replaced asset is derecognized. Inspection costs associated with major maintenance programs are capitalized and amortized over the period to the next inspection.

ALFA TRANSFORMERS LIMITED

- (ii) Depreciation on property, plant and equipments (Other than revalued assets) is provided on Straight Line Method in accordance with the rates specified under Schedule II to the Companies Act, 2013.
- (iii) Other property, plant and equipment are depreciated based on useful life of the asset under "Straight Line Method" in the manner specified in Schedule II to the Companies Act., 2013. When any part of an item of property, plant and equipment, have different useful lives and cost is significant in relation to the total cost of the asset, they are accounted for and depreciated separately. Depreciation on additions / deletions during the year is provided on prorata basis with reference to the date of additions / deletions except low value items not exceeding Rs. 5,000 which are fully depreciated at the time of addition. The typical useful lives of other property, plant and equipment (major items) are as follows:

Plant & Machinery	05 to 40 years
Testing Equipment	10 to 25 years
Material Handling Equipment	25 to 40 years
Electrical Installation	10 to 30 years
Auxiliary Equipment	25 to 40 years
Factory Building	50 to 70 years
Office Equipment	03 to 15 years
Furniture & Fixtures	5 to 20 years

- (iv) For these classes of assets, based on technical evaluation carried out by external technical experts, the Company believes that the useful lives as given above best represent the period over which Company expects to use these assets.
- (v) The charge over and above the depreciation calculated on the original cost of the revalued assets is transferred from Fixed Asset Revaluation Reserve to General Reserve and shown as a deduction from Revaluation Reserve.
- (vi) An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the income statement in the period in which the item is derecognized. Any Tangible asset, when determined of no further use, is deleted from the Gross Block of assets. The deleted assets are carried as 'Assets awaiting disposal' under Inventories at lower of `1000 or 5% of the original cost and the balance Written down Value, is charged off.
- (vii) Physical verification of the fixed assets is carried out by the Company in a phased manner to cover all the items over a period of three years. The discrepancies, if any, noticed are accounted for after reconciliation of the same.
- (viii) Capital work-in-progress in respect of assets which are not ready for their intended use are carried at cost, comprising of direct costs, related incidental expenses and attributable interest.

Subsequent Expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

2.2 Intangible assets

Costs of intangible assets are capitalized when the asset is ready for its intended use. Intangible assets include expenditure on computer software and technical Knowhow are stated at the amount initially recognized less accumulated amortization and accumulated impairment losses.

Cost of computer software is amortized over the useful life not exceeding 10 years from the date of capitalization.;

Any intangible asset, when determined of no further use, is written off.

2.3 Research and Development Expenditure:

Testing and material expense for Research and Development to be amortised within the use full life of that particular transformers as follows:

If transformers goes for testing as failed and a substantial expense (if the total cost is >realisation value) being incurred for testing if ready for realisation than the company needs to keep proper documentation for the expenses along with the supporting evidence. In such case the expenses so incurred to be treated as R&D expense and in place of debited to Profit and Loss account it should be kept it as asset side of Balance Sheet. such amount standing in the asset side needs to be written off within use full life of the transformers

2.4 Impairment of property, plant & equipment (PPE) and intangible assets, other than goodwill.

At the end of each reporting period, the Company reviews the carrying amounts of its property, plant & equipment (including capital work in progress) to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the cash generating unit (CGU) is estimated in order to determine the extent of the impairment loss (if any). Corporate assets and common service assets are also allocated to individual cash-generating units on a reasonable and consistent basis. Intangible assets are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. If the recoverable amount of a CGU is estimated to be less than its carrying amount, the carrying amount of the asset or group of assets covered under the CGU is reduced to its recoverable amount. An impairment loss is recognized immediately in the statement of profit and loss.

When an impairment loss subsequently reverses, the carrying amount of the asset or group of assets covered under the CGU is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset or group of assets covered under the CGU in prior years. A reversal of an impairment loss is recognized immediately in the statement of profit and loss.

2.5 Capital Cost (i.e cost including professional fees) incurred for issuance of Share Capital is treated under Other Non-Current Assets and to be amortised over a period of 3 years.

2.6 Revenue recognition

- Revenue from operations includes sale of goods, services and adjusted for discounts (net), and gain/ loss on corresponding hedge contracts.
- Revenue from sale of goods is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.
- Revenue from sale of goods is recognised when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated cost can be estimated reliably, there is no continuing effective control or managerial involvement with the goods, and the amount of revenue can be measured reliably.
- Revenue from rendering of services is recognized when the performance of agreed contractual task has been completed.
- Dividends Revenue is recognised when the Company's right to receive the payment has been established.
- **Insurance claims:**
- Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect the ultimate collection.

2.7. Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

i) The Company as lessor

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

ii) The Company as lessee

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in the statement of profit and loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on borrowing costs.

Operating lease payments are recognized as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

In the event that lease incentives are received to enter into operating leases, such incentives are recognized as a liability. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

2.8 Foreign currency transactions and translations

- (i) In preparing the financial statements of the Company, transactions in currencies other than the entity's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.
- (ii) Exchange differences on monetary items are recognized in the statement of profit and loss in the period in which they arise except for:
 - (a) exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings;
 - (b) exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognized initially in other comprehensive income and reclassified from equity to the statement of profit and loss on repayment of the monetary items.
- (iii) Forward Exchange Contracts not intended for trading or speculation purpose : The premium or discount arising at the inception of forward exchange contracts is amortized as expenses or income over the life of the respective contracts. Exchange differences on such contracts are recognized in the statement of profit and loss on the period in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognized as income or expense for the year.

2.9 Borrowing costs

- (i) Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale and also includes exchange difference arising from Foreign Currency borrowings to the extent that they are regarded as an adjustment to interest cost.
- (ii) All other borrowing costs are recognized in the statement of profit and loss in the period in which they are incurred.

2.10 Government grants

The Company may receive government grants that require compliance with certain conditions related to the Company's operating activities or are provided to the Company by way of financial assistance on the basis of certain qualifying criteria.

Government grants are recognised when there is reasonable assurance that the grant will be received, and the Company will comply with the conditions attached to the grant. Accordingly, government grants:

- (a) related to or used for assets are included in the Balance Sheet as deferred income and recognised as income over the useful life of the assets.
- (b) related to incurring specific expenditures are taken to the Statement of Profit and Loss on the same basis and in the same periods as the expenditures incurred.
- (c) by way of financial assistance on the basis of certain qualifying criteria are recognised as they become receivable.

In the unlikely event that a grant previously recognised is ultimately not received, it is treated as a change in estimate and the amount cumulatively recognised is expensed in the Statement of Profit and Loss.

2.11 Employee benefits:

2.11.1 Retirement benefit costs and termination benefits:

(i) Short Term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering service are classified as short term employees benefits. Benefits such as salaries, wages, short term compensated absences, etc. and the expected cost of bonus, ex-gratia are recognized in the period in which the employees render the related service.

(ii) Defined Contribution Plans.

Provident Fund, Superannuation Fund/Annuity Fund and Employees State Insurance Scheme are defined contribution plans. The contribution paid/ payable under the schemes is recognized during the period in which the employees renders the related services.

(iii) Defined Benefits Plans

Gratuity on account of services gratuity is covered under Gratuity-cum-Life Assurance Scheme of Life Insurance Corporation of India. Annual premium paid for the scheme is charged to Statement of Profit and Loss

Re-measurement of the defined benefit liability and asset, comprising actuarial gains and losses, and the return on plan assets (excluding amounts included in net interest described above) are recognized in other comprehensive income in the period in which they occur and are not subsequently reclassified to the statement of profit and loss.

2.12 Taxation

Income tax expense represents the aggregate of current tax and deferred tax.

2.12.1 Current tax

Current tax is the amount of income tax payable based on taxable profit for the period. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates and the tax laws that have been enacted or substantively enacted by the end of the reporting period.

2.12.2 Deferred tax

- (i) Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.
- (ii) The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of all or part of the deferred tax asset to be utilized. Any such reduction shall be reversed to the extent that it becomes probable that sufficient taxable profit will be available.
- (iii) Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

2.12.3 Current and deferred tax for the year

Current and deferred tax are recognized in the statement of profit and loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

2.13. INVESTMENT PROPERTY

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). The shops, flats and other properties held under operating leases to earn rentals or for capital appreciation purposes are accounted for as investment properties. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition the, investment properties are stated at cost less accumulated depreciation.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

2.14 Inventories

Stock of Raw Materials, Components and stores are valued at lower of cost and net realizable value. Cost of raw material is determined on weighted average method, excluding CENVAT/GST paid on purchases. Scrap is valued at estimated realisable value.

Stock of Materials-in-Process and Finished Goods are valued at lower of cost and net realizable value. Cost excludes CENVAT/GST paid on inputs.

Stores and spares are valued at weighted average cost or net realizable value whichever is lower. Obsolete / unserviceable items, as and when identified, are written off. Any item of stores and spares not moved for last four years as on date of Balance Sheet are identified as slow moving items for which a provision of 95% of the value is made in the accounts.

2.15 Provisions and Contingent Liabilities:

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. If effect of the time value of money is material, provisions are discounted using an appropriate discount rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed in the Notes to the Standalone Financial Statements. Contingent liabilities are disclosed for:

- i) possible obligations which will be confirmed only by future events not wholly within the control of the Company, or
- ii) present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

2.16 Financial instruments, Financial assets, Financial liabilities and Equity instruments:

i) Financial Assets

A. Initial recognition and measurement: Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the relevant instrument and are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition. Purchase and sale of financial assets are recognised using trade date accounting.

Recognition : Financial assets include Investments, Trade receivables, Advances, Security Deposits, Cash and cash equivalents. Such assets are initially recognised at transaction price when the Company becomes party to contractual obligations. The transaction price includes transaction costs unless the asset is being fair valued through the Statement of Profit and Loss.

Classification: Management determines the classification of an asset at initial recognition depending on the purpose for which the assets were acquired. The subsequent measurement of financial assets depends on such classification.

B. Subsequent measurement

a) Financial assets carried at amortised cost (AC)

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

b) Financial assets at fair value through other comprehensive income (FVTOCI)

Fair value through other comprehensive income (FVTOCI), where the financial assets are held not only for collection of cash flows arising from payments of principal and interest but also from the sale of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in other comprehensive income.

c) Financial assets at fair value through profit or loss (FVTPL)

fair value through profit or loss (FVTPL), where the assets are managed in accordance with an approved investment strategy that triggers purchase and sale decisions based on the fair value of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in the Statement of Profit and Loss in the period in which they arise.

Trade receivables, Advances, Security Deposits, Cash and cash equivalents etc. are classified for measurement at amortised cost while investments may fall under any of the aforesaid classes.

Equity investments:

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at fair value through other comprehensive income (FVTOCI) or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in other comprehensive income (OCI). There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of such investments. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

The Company has elected to continue with the carrying value of all its equity investments as recognized in the standalone financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as the deemed cost as at the transition date pursuant to the exemption under Ind AS 101.

Derivative financial instruments

The Company uses derivative financial instruments, such as foreign exchange forward contracts, interest rate swaps and currency options to manage its exposure to interest rate and foreign exchange risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Hedge Accounting

The Company uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to highly probable forecast transactions. The Company designates such forward contracts in a cash flow hedging relationship by applying the hedge accounting principles. These forward contracts are stated at fair value at each reporting date. Changes in the fair value of these forward contracts that are designated and effective as hedges of future cash flows are recognised directly in Other Comprehensive Income (OCI) and accumulated in "Cash Flow Hedge Reserve Account" under Reserves and Surplus, net of applicable deferred income taxes and the ineffective portion is recognised immediately in the Statement of Profit and Loss. Amounts accumulated in the "Cash Flow Hedge Reserve Account" are reclassified to the Statement of Profit and Loss in the same period during which the forecasted transaction affects Statement of Profit and Loss. Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. For forecasted transactions, any cumulative gain or loss on the hedging instrument recognised in "Cash Flow Hedge Reserve Account" is retained until the forecasted transaction occurs. If the forecasted transaction is no longer expected to occur, the net cumulative gain or loss recognise

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Impairment : The Company assesses at each reporting date whether a financial asset (or a group of financial assets) such as investments, trade receivables, advances and security deposits held at amortised cost and financial assets that are measured at fair value through other comprehensive income are tested for impairment based on evidence or information that is available without undue cost or effort. Expected credit losses are assessed and loss allowances recognised if the credit quality of the financial asset has deteriorated significantly since initial recognition.

Reclassification : When and only when the business model is changed, the Company shall reclassify all affected financial assets prospectively from the reclassification date as subsequently measured at amortised cost, fair value through other comprehensive income, fair value through profit or loss without restating the previously recognised gains, losses or interest and in terms of the reclassification principles laid down in the Ind AS relating to Financial Instruments.

De-recognition: Financial assets are derecognised when the right to receive cash flows from the assets has expired, or has been transferred, and the Company has transferred amounts collected on behalf of third parties, such as sales tax and value added tax.

ii : Financial liabilities

A. Initial recognition and measurement

All financial liabilities are recognized at fair value and in case of loans, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

B. Subsequent measurement

Financial liabilities are carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

2.17. Investments in subsidiary, associates and joint venture :

The Company measures its investments in subsidiary at cost less impairment. The company assesses investments for impairment whenever events or changes in circumstances indicate that the carrying value of an investment may not be recoverable. If any such indication of impairment exists, the company makes an estimate of its recoverable amount. Where the carrying amount of an investment exceeds its recoverable amount, the investment is considered impaired and is written down to its recoverable amount.

- i) Non-Current investments are valued at cost. However, provision for diminution in value is made to recognise a decline in the value, other than temporary.
- ii) Current investments are valued at lower of cost or fair value.

2.18 Cash and cash equivalent

In the cash flow statement, cash and cash equivalent include cash in hand, cheques and drafts in hand, balances with bank and deposit held at call with financial institution ,short term highly liquid investments with original maturities of three months or less there are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are shown within borrowing in the current liabilities in the balance sheet and form part of the financial activity in the cash flow statement. Book overdraft are shown within borrowing in other financial liabilities in the balance sheet and form part of financing activity in the cash flow statement . Notes to the financial statement for the year ended 31.03.2108.

2.19 Earnings per share:

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for the events for bonus issue,

bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares). Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares.

3.1 FIRST TIME ADOPTION OF IND AS

The Company has adopted Indian Accounting Standards (Ind- AS) notified Ministry of Corporate Affairs with effect from 1st April 2017 with a transition date of 1st April 2016. Ind AS 101, "First-time Adoption of Indian Accounting Standard" requires that all Ind AS standards and interpretation that are issued and effective for the First Ind AS financial statements, which is for the year ended 31st March, 2018 for the Company, be applied retrospectively and consistently for all financial years presented. Accordingly the impact of transition has been provided in the Opening Reserves as at 1st April 2016. The figures for the previous period have been restated, regrouped and reclassified wherever required to comply with the requirement of Ind AS and Schedule III.

Ind AS 101 (First-time Adoption of Indian Accounting Standards) provides a suitable starting point for accounting in accordance with Ind AS and is required to be mandatorily followed by first-time adopters. The Company has prepared the opening Balance Sheet as per Ind AS as of 1st April, 2016 (the transition date) by:

- a. recognising all assets and liabilities whose recognition is required by Ind AS,
 - b. not recognising items of assets or liabilities which are not permitted by Ind AS,
 - c. reclassifying items from previous Generally Accepted Accounting Principles (GAAP) to Ind AS as required under Ind AS, and
 - d. applying Ind AS in measurement of recognised assets and liabilities.
- iii) Following are the Ind AS 101 optional exemption availed as applicable and Mandatory applied in the transition from previous GAAP to Ind AS..

a) Exemptions from retrospective application:

- i) Fair value as deemed cost exemption:
Deemed cost exemption for Property, plant and equipment assets at fair value as deemed cost. The Company has elected to measure items of property, plant and equipment assets at fair value as deemed cost.
- ii) Deemed cost exemption of Investment Property. The Company has treated one property as investment property and it is carrying value as per previous GAAP is considered as deemed cost as per Ind AS-40.
- iii) Deemed cost exemption of intangible assets.
- iv) Leases
The Company has applied Appendix C of Ind AS 17 (Leases) – 'Determining whether an Arrangement contains a Lease' to determine whether an arrangement existing at the transition date contains a lease on the basis of facts and circumstances existing at that date.
- v) Investments in subsidiaries, joint ventures and associates
Under previous GAAP, investment in subsidiaries, joint ventures and associates were stated at cost and provisions made to recognise the decline, other than temporary. Under Ind AS, the Company has considered their previous GAAP carrying amount as their deemed cost.
- vi) De-recognition of previously recognition financial instruments.
- vii) De commissioning liability. The Company has elected to apply the transitional provision with respect to recognition of Decommissioning, Restoration and Similar Liabilities.

b) Ind AS mandatory exemptions:

- i) Estimates
An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.
Ind AS estimates as at 1 April 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP.
The Company made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:
 - a) Investment in equity instruments carried at FVTPL or FVOCI
 - b) Impairment of financial assets based on expected credit loss model.

2. Classification and measurement of financial assets and liabilities

Classification of financial asset is required to be made on the basis of the facts and circumstances that exist at the date of transition to Ind AS. Further, if it is impracticable for the Company to apply retrospectively the effective interest method in Ind AS 109, the fair value of the financial asset or the financial liability at the date of transition to Ind AS shall be the new gross carrying amount of that financial asset or the new amortised cost of that financial liability at the date of transition to Ind AS.

We have audited the accompanying Ind AS Consolidated financial statements of **ALFA TRANSFORMERS LIMITED** ("hereinafter referred to as the Holding Company") and its subsidiary Company incorporated in India (the Holding Company and its subsidiary together refer to as "the Group") which comprise the consolidated Balance Sheet as at March 31, 2018, the consolidated Statement of Profit and Loss, including the consolidated statement of Other Comprehensive Income, the consolidated Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including consolidated other comprehensive income, consolidated cash flows and changes in equity of the Company in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act., read with Rule 7 of the Companies (Accounts) Rules, 2014 and the Companies (Indian Accounting Standards) Rules, 2015, as amended .

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS consolidated financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. and the Order issued under section 143(11) of the Act.

We conducted our audit of the Ind AS consolidated financial statements in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS consolidated financial statements, whether due to fraud or error. In making those risk assessments, the

auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the holding Company's Directors, as well as evaluating the overall presentation of the Ind AS consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Ind AS consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2018, and its consolidated profit and including consolidated other comprehensive income, its consolidated cash flows and the changes for the year ended on that date.

ANNEXURE A TO INDEPENDENT AUDITORS' REPORT

“Annexure A” to the Independent Auditor's Report of even date on the consolidated Financial Statements of **ALFA TRANSFORMERS LIMITED Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

In conjunction with our audit of the consolidated financial statement of the company as of and for the year ended March 31, 2018.

We have audited the internal financial controls over financial reporting of **ALFA TRANSFORMERS LIMITED (“the Company”)** as of March 31, 2018 in conjunction with our audit of the lone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the holding company which are companies incorporated in India are responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Group's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Consolidated Financial Statements Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.

NOTE NO- 27 : SIGNIFICANT ACCOUNTING POLICIES

Notes to Financial Statements:

Alfa Transformers Limited have adopted Ind-AS (the converged IFRS) with effect from April 1, 2017 pursuant to notification issued by Ministry of Corporate Affairs (MCA) notifying Companies (Indian Accounting Standard) Rules, 2015 along with the subsequent clarification and amendment by MCA. The Company has assessed the effect of transition on reported reserves and surplus as on April 1, 2016 (the transition date) and the significant areas impacting the financial statements are;

- Availing fair value as deemed cost exemption for Property, Plant and Equipment.
- Availing carrying cost of previous GAAP as deemed cost for Investment property and Intangible Assets.
- Deferred tax impact of transition adjustments together with Ind AS mandate of using balance sheet approach (against profit and loss approach in the previous GAAP).
- Other non-significant adjustments includes; fair value of financial assets. Besides, there will be change in presentation of financial statements with additional disclosures.

Statement of Compliance:

1. Basis of accounting and preparation of Standalone Financial Statements:

Basis of accounting

- i) These financial statements of the Company have been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified under section 133 of the Companies Act, 2013 ('the Act') read with Rule 4 of the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act and accounting principles generally accepted in India.
- ii) These financial statements are the first financial statements prepared in accordance with Indian Accounting Standards (Ind AS). For all periods upto and including the year ended March 31, 2017, the Company reported its Financial statements in accordance with the accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (hereinafter referred to as 'IGAAP'). The Financial statements for the year ended March 31, 2017 and the opening Balance Sheet as at April 1, 2016 have been restated in accordance with Ind AS for comparative information.

ii) Functional and Presentation Currency

These financial statements are presented in Indian rupees, which is the functional currency of the Company. All financial information presented in Indian rupees has been rounded to the nearest lakh, except otherwise indicated.

iii) Use of Estimates and Judgements

The preparation of the Financial Statements in conformity with Ind AS requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the Financial Statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known/ materialize. Estimates and underlying assumptions are reviewed on an ongoing basis. Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the accounting policies.

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services on the transaction date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date on such basis as provided under Ind AS 113.

- iv) All assets and liabilities have been classified as current or non-current in accordance with the operating cycle criteria set out in Ind AS 1 and Schedule III to the Companies Act, 2013.

2. Significant accounting policies

2.1. Property, Plant and Equipment & Depreciation :

Property, plant and equipment are stated at cost, less accumulated depreciation and accumulated impairment losses. The initial cost of an asset comprises its purchase price including import duties and non-refundable purchase taxes or construction cost, any costs directly attributable to bringing the asset into the location and condition necessary for it to be capable of operating in the manner intended by management, the initial estimate of any decommissioning obligation, if any, and finance costs if any. The purchase price or construction cost is the aggregate amount paid and the fair value of any other consideration given to acquire the asset. Assets in the course of construction are initially kept under assets under construction and capitalized when the assets is available for use as intended by the management.

- (i) Cost of day-to-day servicing of property, plant and equipments are recognised in the Statement of Profit and Loss as incurred. Major overhaul expenditure is capitalized as the activities undertaken to improve the economic benefits expected to arise from the asset. Where an asset or part of an asset that was separately depreciated is replaced and it is probable that future economic benefits associated with the item will flow to the Company, the expenditure is capitalized and the carrying amount of the replaced asset is derecognized. Inspection costs associated with major maintenance programs are capitalized and amortized over the period to the next inspection.

- (ii) Depreciation on property, plant and equipments (Other than revalued assets) is provided on Straight Line Method in accordance with the rates specified under Schedule II to the Companies Act, 2013.
- (iii) Other property, plant and equipment are depreciated based on useful life of the asset under "Straight Line Method" in the manner specified in Schedule II to the Companies Act., 2013. When any part of an item of property, plant and equipment, have different useful lives and cost is significant in relation to the total cost of the asset, they are accounted for and depreciated separately. Depreciation on additions / deletions during the year is provided on pro rata basis with reference to the date of additions / deletions except low value items not exceeding Rs. 5,000 which are fully depreciated at the time of addition. The typical useful lives of other property, plant and equipment (major items) are as follows:

Plant & Machinery	05 to 40 years
Testing Equipment	10 to 25 years
Material Handling Equipment	25 to 40 years
Electrical Installation	10 to 30 years
Auxiliary Equipment	25 to 40 years
Factory Building	50 to 70 years
Office Equipment	03 to 15 years
Furniture & Fixtures	5 to 20 years

- (iv) For these classes of assets, based on technical evaluation carried out by external technical experts, the Company believes that the useful lives as given above best represent the period over which Company expects to use these assets.
- (v) The charge over and above the depreciation calculated on the original cost of the revalued assets is transferred from Fixed Asset Revaluation Reserve to General Reserve and shown as a deduction from Revaluation Reserve.
- (vi) An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the income statement in the period in which the item is derecognized. Any Tangible asset, when determined of no further use, is deleted from the Gross Block of assets. The deleted assets are carried as 'Assets awaiting disposal' under Inventories at lower of `1000 or 5% of the original cost and the balance Written down Value, is charged off.
- (vii) Physical verification of the fixed assets is carried out by the Company in a phased manner to cover all the items over a period of three years. The discrepancies, if any, noticed are accounted for after reconciliation of the same.
- (viii) Capital work-in-progress in respect of assets which are not ready for their intended use are carried at cost, comprising of direct costs, related incidental expenses and attributable interest.

Subsequent Expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

2.2 Intangible assets

Costs of intangible assets are capitalized when the asset is ready for its intended use. Intangible assets include expenditure on computer software and technical Knowhow are stated at the amount initially recognized less accumulated amortization and accumulated impairment losses.

Cost of computer software is amortized over the useful life not exceeding 10 years from the date of capitalization.;

Any intangible asset, when determined of no further use, is written off.

2.3 Research and Development Expenditure:

Testing and material expense for Research and Development to be amortised within the use full life of that particular transformers as follows:

If transformers goes for testing as failed and a substantial expense (if the total cost is >realisation value) being incurred for testing if ready for realisation than the company needs to keep proper documentation for the expenses along with the supporting evidence. In such case the expenses so incurred to be treated as R&D expense and in place of debited to Profit and Loss account it should be kept it as asset side of Balance Sheet. such amount standing in the asset side needs to be written off within use full life of the transformers

2.4 Impairment of property, plant & equipment (PPE) and intangible assets, other than goodwill.

At the end of each reporting period, the Company reviews the carrying amounts of its property, plant & equipment (including capital work in progress) to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the cash generating unit (CGU) is estimated in order to determine the extent of the impairment loss (if any). Corporate assets and common service assets are also allocated to individual cash-generating units on a reasonable and consistent basis.

Intangible assets are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. If the recoverable amount of a CGU is estimated to be less than its carrying amount, the carrying amount of the asset or group of assets covered under the CGU is reduced to its recoverable amount. An impairment loss is recognized immediately in the statement of profit and loss.

Annual Report 2018

CONSOLIDATED FINANCIAL STATEMENTS

When an impairment loss subsequently reverses, the carrying amount of the asset or group of assets covered under the CGU is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset or group of assets covered under the CGU in prior years. A reversal of an impairment loss is recognized immediately in the statement of profit and loss.

2.5 Capital Cost (i.e cost including professional fees) incurred for issuance of Share Capital is treated under Other Non-Current Assets and to be amortised over a period of 3 years.

2.6 Revenue recognition

- Revenue from operations includes sale of goods, services and adjusted for discounts (net), and gain/ loss on corresponding hedge contracts.
- Revenue from sale of goods is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.
- Revenue from sale of goods is recognised when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated cost can be estimated reliably, there is no continuing effective control or managerial involvement with the goods, and the amount of revenue can be measured reliably.
- Revenue from rendering of services is recognized when the performance of agreed contractual task has been completed.
- Dividends Revenue is recognised when the Company's right to receive the payment has been established.
- **Insurance claims:**
- Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect the ultimate collection.

2.7. Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

i) The Company as lessor

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

ii) The Company as lessee

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in the statement of profit and loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on borrowing costs.

Operating lease payments are recognized as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

In the event that lease incentives are received to enter into operating leases, such incentives are recognized as a liability. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

2.8 Foreign currency transactions and translations

- (i) In preparing the financial statements of the Company, transactions in currencies other than the entity's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.
- (ii) Exchange differences on monetary items are recognized in the statement of profit and loss in the period in which they arise except for:
 - (a) exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings;
 - (b) exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognized initially in other comprehensive income and reclassified from equity to the statement of profit and loss on repayment of the monetary items.
- (iii) Forward Exchange Contracts not intended for trading or speculation purpose : The premium or discount arising at the inception of forward exchange contracts is amortized as expenses or income over the life of the respective contracts. Exchange differences on such contracts are recognized in the statement of profit and loss on the period in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognized as income or expense for the year.

2.9 Borrowing costs

- (i) Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale and also includes exchange difference arising from Foreign Currency borrowings to the extent that they are regarded as an adjustment to interest cost.
- (ii) All other borrowing costs are recognized in the statement of profit and loss in the period in which they are incurred.

**2.10 Government grants**

The Company may receive government grants that require compliance with certain conditions related to the Company's operating activities or are provided to the Company by way of financial assistance on the basis of certain qualifying criteria.

Government grants are recognised when there is reasonable assurance that the grant will be received, and the Company will comply with the conditions attached to the grant. Accordingly, government grants:

- (a) related to or used for assets are included in the Balance Sheet as deferred income and recognised as income over the useful life of the assets.
- (b) related to incurring specific expenditures are taken to the Statement of Profit and Loss on the same basis and in the same periods as the expenditures incurred.
- (c) by way of financial assistance on the basis of certain qualifying criteria are recognised as they become receivable.

In the unlikely event that a grant previously recognised is ultimately not received, it is treated as a change in estimate and the amount cumulatively recognised is expensed in the Statement of Profit and Loss.

2.11 Employee benefits:**2.11.1 Retirement benefit costs and termination benefits:****(i) Short Term Employee Benefits:**

All employee benefits payable wholly within twelve months of rendering service are classified as short term employees benefits. Benefits such as salaries, wages, short term compensated absences, etc. and the expected cost of bonus, ex-gratia are recognized in the period in which the employees render the related service.

(ii) Defined Contribution Plans.

Provident Fund, Superannuation Fund/Annuity Fund and Employees State Insurance Scheme are defined contribution plans. The contribution paid/ payable under the schemes is recognized during the period in which the employees renders the related services.

(iii) Defined Benefits Plans

Gratuity on account of services gratuity is covered under Gratuity-cum-Life Assurance Scheme of Life Insurance Corporation of India. Annual premium paid for the scheme is charged to Statement of Profit and Loss

Re-measurement of the defined benefit liability and asset, comprising actuarial gains and losses, and the return on plan assets (excluding amounts included in net interest described above) are recognized in other comprehensive income in the period in which they occur and are not subsequently reclassified to the statement of profit and loss.

2.12 Taxation

Income tax expense represents the aggregate of current tax and deferred tax.

2.12.1 Current tax

Current tax is the amount of income tax payable based on taxable profit for the period. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates and the tax laws that have been enacted or substantively enacted by the end of the reporting period.

2.12.2 Deferred tax

- (i) Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.
- (ii) The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of all or part of the deferred tax asset to be utilized. Any such reduction shall be reversed to the extent that it becomes probable that sufficient taxable profit will be available.
- (iii) Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

2.12.3 Current and deferred tax for the year

Current and deferred tax are recognized in the statement of profit and loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

2.13. INVESTMENT PROPERTY

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). The shops, flats and other properties held under operating leases to earn rentals or for capital appreciation purposes are accounted for as investment properties. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition the, investment properties are stated at cost less accumulated depreciation.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognized.

2.14 Inventories

Stock of Raw Materials, Components and stores are valued at lower of cost and net realizable value. Cost of raw material is determined on weighted average method, excluding CENVAT/GST paid on purchases. Scrap is valued at estimated realisable value.

Stock of Materials-in-Process and Finished Goods are valued at lower of cost and net realizable value. Cost excludes CENVAT/GST paid on inputs.

Stores and spares are valued at weighted average cost or net realizable value whichever is lower. Obsolete / unserviceable items, as and when identified, are written off. Any item of stores and spares not moved for last four years as on date of Balance Sheet are identified as slow moving items for which a provision of 95% of the value is made in the accounts.

2.15 Provisions and Contingent Liabilities:

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. If effect of the time value of money is material, provisions are discounted using an appropriate discount rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed in the Notes to the Standalone Financial Statements. Contingent liabilities are disclosed for:

- i) possible obligations which will be confirmed only by future events not wholly within the control of the Company, or
- ii) present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

2.16 Financial instruments, Financial assets, Financial liabilities and Equity instruments:

i) Financial Assets

A. Initial recognition and measurement : Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the relevant instrument and are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition. Purchase and sale of financial assets are recognised using trade date accounting.

Recognition : Financial assets include Investments, Trade receivables, Advances, Security Deposits, Cash and cash equivalents. Such assets are initially recognised at transaction price when the Company becomes party to contractual obligations. The transaction price includes transaction costs unless the asset is being fair valued through the Statement of Profit and Loss.

Classification: Management determines the classification of an asset at initial recognition depending on the purpose for which the assets were acquired. The subsequent measurement of financial assets depends on such classification.

B. Subsequent measurement

a) Financial assets carried at amortised cost (AC)

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

b) Financial assets at fair value through other comprehensive income (FVTOCI)

Fair value through other comprehensive income (FVTOCI), where the financial assets are held not only for collection of cash flows arising from payments of principal and interest but also from the sale of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in other comprehensive income.

c) Financial assets at fair value through profit or loss (FVTPL)

fair value through profit or loss (FVTPL), where the assets are managed in accordance with an approved investment strategy that triggers purchase and sale decisions based on the fair value of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in the Statement of Profit and Loss in the period in which they arise.

Trade receivables, Advances, Security Deposits, Cash and cash equivalents etc. are classified for measurement at amortised cost while investments may fall under any of the aforesaid classes.

Equity investments:

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at fair value through other comprehensive income (FVTOCI) or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in other comprehensive income (OCI). There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of such investments. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

The Company has elected to continue with the carrying value of all its equity investments as recognized in the standalone financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as the deemed cost as at the transition date pursuant to the exemption under Ind AS 101.

**Derivative financial instruments**

The Company uses derivative financial instruments, such as foreign exchange forward contracts, interest rate swaps and currency options to manage its exposure to interest rate and foreign exchange risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Hedge Accounting

The Company uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to highly probable forecast transactions. The Company designates such forward contracts in a cash flow hedging relationship by applying the hedge accounting principles. These forward contracts are stated at fair value at each reporting date. Changes in the fair value of these forward contracts that are designated and effective as hedges of future cash flows are recognised directly in Other Comprehensive Income (OCI) and accumulated in "Cash Flow Hedge Reserve Account" under Reserves and Surplus, net of applicable deferred income taxes and the ineffective portion is recognised immediately in the Statement of Profit and Loss. Amounts accumulated in the "Cash Flow Hedge Reserve Account" are reclassified to the Statement of Profit and Loss in the same period during which the forecasted transaction affects Statement of Profit and Loss. Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. For forecasted transactions, any cumulative gain or loss on the hedging instrument recognised in "Cash Flow Hedge Reserve Account" is retained until the forecasted transaction occurs. If the forecasted transaction is no longer expected to occur, the net cumulative gain or loss recognise

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Impairment : The Company assesses at each reporting date whether a financial asset (or a group of financial assets) such as investments, trade receivables, advances and security deposits held at amortised cost and financial assets that are measured at fair value through other comprehensive income are tested for impairment based on evidence or information that is available without undue cost or effort. Expected credit losses are assessed and loss allowances recognised if the credit quality of the financial asset has deteriorated significantly since initial recognition.

Reclassification : When and only when the business model is changed, the Company shall reclassify all affected financial assets prospectively from the reclassification date as subsequently measured at amortised cost, fair value through other comprehensive income, fair value through profit or loss without restating the previously recognised gains, losses or interest and in terms of the reclassification principles laid down in the Ind AS relating to Financial Instruments.

De-recognition: Financial assets are derecognised when the right to receive cash flows from the assets has expired, or has been transferred, and the Company has transferred amounts collected on behalf of third parties, such as sales tax and value added tax.

ii : Financial liabilities**A. Initial recognition and measurement**

All financial liabilities are recognized at fair value and in case of loans, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

B. Subsequent measurement

Financial liabilities are carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

2.17. Investments in subsidiary, associates and joint venture :

The Company measures its investments in subsidiary at cost less impairment. The company assesses investments for impairment whenever events or changes in circumstances indicate that the carrying value of an investment may not be recoverable. If any such indication of impairment exists, the company makes an estimate of its recoverable amount. Where the carrying amount of an investment exceeds its recoverable amount, the investment is considered impaired and is written down to its recoverable amount.

i) Non-Current investments are valued at cost. However, provision for diminution in value is made to recognise a decline in the value, other than temporary.

ii) Current investments are valued at lower of cost or fair value.

2.18 Cash and cash equivalent

In the cash flow statement, cash and cash equivalent include cash in hand, cheques and drafts in hand, balances with bank and deposit held at call with financial institution, short term highly liquid investments with original maturities of three months or less there are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are shown within borrowing in the current liabilities in the balance sheet and form part of the financial activity in the cash flow statement. Book overdraft are shown within borrowing in other financial liabilities in the balance sheet and form part of financing activity in the cash flow statement.

2.19 Earnings per share:

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for the events for bonus issue,

Annual Report 2018

CONSOLIDATED FINANCIAL STATEMENTS

bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares). Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares.

3.1 FIRST TIME ADOPTION OF IND AS

The Company has adopted Indian Accounting Standards (Ind-AS) notified Ministry of Corporate Affairs with effect from 1st April 2017 with a transition date of 1st April 2016. Ind AS 101, "First-time Adoption of Indian Accounting Standard" requires that all Ind AS standards and interpretation that are issued and effective for the First Ind AS financial statements, which is for the year ended 31st March, 2018 for the Company, be applied retrospectively and consistently for all financial years presented. Accordingly the impact of transition has been provided in the Opening Reserves as at 1st April 2016. The figures for the previous period have been restated, regrouped and reclassified wherever required to comply with the requirement of Ind AS and Schedule III.

Ind AS 101 (First-time Adoption of Indian Accounting Standards) provides a suitable starting point for accounting in accordance with Ind AS and is required to be mandatorily followed by first-time adopters. The Company has prepared the opening Balance Sheet as per Ind AS as of 1st April, 2016 (the transition date) by:

- a. recognising all assets and liabilities whose recognition is required by Ind AS,
 - b. not recognising items of assets or liabilities which are not permitted by Ind AS,
 - c. reclassifying items from previous Generally Accepted Accounting Principles (GAAP) to Ind AS as required under Ind AS, and
 - d. applying Ind AS in measurement of recognised assets and liabilities.
- iii) Following are the Ind AS 101 optional exemption availed as applicable and Mandatory applied in the transition from previous GAAP to Ind AS..

a) Exemptions from retrospective application:

- i) Fair value as deemed cost exemption:
Deemed cost exemption for Property, plant and equipment assets at fair value as deemed cost. The Company has elected to measure items of property, plant and equipment assets at fair value as deemed cost.
- ii) Deemed cost exemption of Investment Property. The Company has treated one property as investment property and it is carrying value as per previous GAAP is considered as deemed cost as per Ind AS-40.
- iii) Deemed cost exemption of intangible assets.
- iv) Leases
The Company has applied Appendix C of Ind AS 17 (Leases) – 'Determining whether an Arrangement contains a Lease' to determine whether an arrangement existing at the transition date contains a lease on the basis of facts and circumstances existing at that date.
- v) Investments in subsidiaries, joint ventures and associates
Under previous GAAP, investment in subsidiaries, joint ventures and associates were stated at cost and provisions made to recognise the decline, other than temporary. Under Ind AS, the Company has considered their previous GAAP carrying amount as their deemed cost.
- vi) De-recognition of previously recognition financial instruments.
- vii) De commissioning liability. The Company has elected to apply the transitional provision with respect to recognition of Decommissioning, Restoration and Similar Liabilities.

b) Ind AS mandatory exemptions:

i) Estimates

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at 1 April 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP.

The Company made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

- a) Investment in equity instruments carried at FVTPL or FVOCI
- b) Impairment of financial assets based on expected credit loss model.

2. Classification and measurement of financial assets and liabilities

Classification of financial asset is required to be made on the basis of the facts and circumstances that exist at the date of transition to Ind AS. Further, if it is impracticable for the Company to apply retrospectively the effective interest method in Ind AS 109, the fair value of the financial asset or the financial liability at the date of transition to Ind AS shall be the new gross carrying amount of that financial asset or the new amortised cost of that financial liability at the date of transition to Ind AS.

INDEPENDENT AUDITORS' REPORT

To
The Members
Phoenix Surgicare Private Limited.
Report on the Financial Statements

We have audited the accompanying financial statements of "Phoenix Surgicare Private Limited" which comprise the Balance Sheet as at 31 March 2018 and the Statement of Profit and Loss for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2018, and its profit for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. The Company does not come under the purview of Companies (Auditor's Report) Order 2003 (the 'Order'), as amended, issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) There are not branches of the company.
 - (d) The Balance Sheet, the Statement of Profit and Loss dealt with by this Report are in agreement with the books of account.
 - (e) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014;
 - (f) On the basis of the written representations received from the directors as on 31st March, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigations which would impact its financial position .
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Annual Report 2018

“Annexure B” to the Independent Auditor’s Report of even dare on the Standalone Financial Statements of PHOENIX SURGICARE PRIVATE LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Phoenix Surgicare Private Limited as of March 31, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on based on the internal control over financial reporting criteria established by the Company, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the Guidance Note) issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements,

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Company, considering the essential components of internal control stated in the Guidance Note issued by the ICAI.
