MANAGEMENT DISCUSSION & ANALYSIS REPORT

The Board takes pleasure in presenting your Company's 23rd Annual report for the year 2013-14 along with the compliance report on Corporate Governance.

INDUSTRY STRUCTURE & DEVELOPMENT:

Sponge iron is an intermediate product as source of metalics for electric steel making. Other sources of metalics are either steel scrap or pig iron from Blast furnace.

The Sponge iron industry in India is divided into two types, those who are integrated with steel making and those in merchant sector. Suraj Products Limited belongs to the merchant sector.

In the modern economy Steel is a vital component to the development. The strength of steel industry shows the growth & development of all major industrial economies. Consumption of steel is a significant indicator of socio-economic development of the people of the country. Since incubation period for setting up integrated steel plants is large, the growth in demand of steel during the year was met generally by secondary steel sector or through

SURAJ PRODUCTS LIMITED

import of steel. One of the sources of metallic's for secondary steel making sector is sponge iron and pig iron. Sponge iron industry, therefore, witnessed continued development for its product during the year. The trend is likely to continue in future.

COMPANY'S PERFORMANCE:

Gross Turnover	:	₹	97,45,23,515
Profit before Taxation	:	₹	17,156,004
Profit after Taxation	:	₹	11,468,591

OPPORTUNITIES, THREATS & FUTURE OUTLOOK:

a) Opportunities:

Growth in the steel demand has strong correlation with growth in GDP of Nation. The Indian economy was expected to grow at a growth rate of 7 % of GDP but unfortunately the same could not happen. As a result the steel demand is unlikely to grow at expected pace. The demand for sponge Iron in medium term shall be at healthy level due to closure of many sponge iron plants for want of iron ore. Increase in price at international market and unavailability of quality scrap provides huge opportunities for growth of Sponge Iron industry. Company is located in Orissa which has abundant stock of Iron ore and coal, the basic raw material for sponge iron industry & hence is ideally located to take advantage of the growing demand.

b) Threats:

The cost of iron ore and coal constitute more than 80% of cost of production. Therefore the profitability of the Company depends on market price of these raw materials. The only way to reduce the cost of iron ore and coal is to have captive mines for these raw materials, which the company does not have. The emergence of large players may pose threat due to their economies of scale.

RISK AND CONCERN:

Increasing trend in raw material prices and non- availability of good quality raw material is the area of concern for the Company. Company is keeping close watch on these and taking appropriate steps timely.

SEGMENT- WISE/ PRODUCT- WISE PERFORMANCE:

During the year, the Company produced 28,703 MT of sponge iron compared to 24,712 MT in the previous year. The production of pig iron for the year was 11,664 MT as compared to last year's production of 9,334 MT. Sales of sponge iron during the year totaled to 29,566 MT in compared to 24,204 MT in the previous year. Pig iron sales during the year totaled to 11,668 MT in comparison to last year's sale of 9,269 MT. Due to higher price of coke, the production of pig iron was adversely affected. Company is continuously focusing on the quality consistency and better marketing strategies.

INTERNAL CONTROL SYSTEM & THEIR ADEQUACY:

The company has adequate and effective internal control system commensurate with its size and nature of business to provide reasonable assurance that all assets are safeguarded, transactions are authorized, recorded and reported properly, applicable statutes, the Suraj Products Limited code of conduct and Corporate policies are duly complied with.. Internal audit and other control are reviewed periodically by Audit Committee.

HUMAN RESOURCES:

Company possesses good quality of human resources. The Board wishes to place on record its appreciation for the sustained efforts and devoted contribution made by all the employees for its success.

SAFETY MEASURES:

Suraj Products Limited has taken the following initiatives during the year in order to safeguard the health of the workers;

Unsafe conditions in the plant are regularly inspected by the safety committee and deficiencies are attended immediately.

SAFETY TRAINING:

Training of various Safety Standards are imparted to all employees.

HEALTH CHECK- UP:

About 50 medical camps with qualified and experience medical practitioners were conducted in nearby villages and about 2500 patients availed the service.

CAUTIONARY STATEMENT :

Actual results could differ materially from those stated above. Important factors that could make a difference to the Company's operation include, among others, economic condition affecting demand/supply and price conditions in the market in which the company operates, changes in Government regulations, tax laws and others statutes and incidental factors.

SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Preparation of Financial Statements:

The financial statements are prepared under the historical cost convention, except for certain fixed assets which are revalued, in accordance with generally accepted accounting principles, accounting standards issued by the Institute of Chartered Accountants of India, as applicable and the relevant provisions of the Companies Act, 1956.

B. Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and amounts of liabilities and disclosure of contingent liabilities at the date of financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ.

C. Recognition of Income & Expenditure:

Sales are recognized, net of returns and trade discounts, on transfer of significant risks and rewards of ownership to the buyer, which generally coincides with the delivery of goods to customers. Expenses are accounted for on accrual basis and provision is made for all expenses.

Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.

D. Fixed Assets & Depreciation:

Fixed Assets are stated at cost net of recoverable taxes and includes amount added on revaluation, less accumulated depreciation and impairment loss, if any. All costs, including financing costs till commencement of commercial production are capitalized.

Depreciation

a) Depreciation is provided on pro-rata basis at the rates specified in Schedule XIV to the Companies Act, 1956 as under:

Assets acquired after 01.04.02 : Written down Value Method

Assets acquired prior to 01.04.02 : Straight Line Basis Method

b) Refractory Assets are depreciated over the useful life of four years based on estimates approved by the management.

c) No depreciation is charged on the assets disposed off/discarded during the year.

Intangible Assets

Intangible Assets are stated at cost of acquisition net of recoverable taxes and includes amount added on revaluation, less accumulated depreciation and impairment loss, if any. All costs, including financing costs till commencement of commercial production are capitalized.

E. Investments:

Long Term Investments are stated at cost, except where there is a diminution in value other than temporary in nature.

F. Inventories:

Inventories are valued at Cost or Net Realisable Value whichever is lower.

a. In case of Raw Material, Stores and spares, consumables and trading goods, the cost includes duties and taxes (net of Cenvat/VAT Credit wherever applicable) and is arrived on weighted average cost basis.

b. Cost of Finished goods includes the cost of raw material, cost of conversion and other manufacturing costs incurred in bringing the inventories to their present location and condition and excise duty.

G. Employees Benefits:

(i) Short Term

Short term employee benefits are recognized as an expense at the undiscounted amount expected to be paid over the period of services rendered by the employees to the company.

Defined-contribution plans

These are plans in which the Company pays pre-defined amounts to separate funds and does not have any legal or informal obligation to pay additional sums. The Company's payments to the defined-contribution plans are reported as expenses during the period in which the employees perform the services that the payment covers.

(ii) Leave Encashment

Retirement other employee benefits

a) Earned leave which cannot be carried forward to future periods are "short term" benefit only if the employees are entitled to either encash or utilize the benefits during the period of twelve months

NOTES ANNEXED TO AND FORMING PART OF THE BALANCE SHEET AND STATEMENT OF PROFIT AND LOSS ACCOUNT

following the end of the accounting period (when they became entitled to the leave). In other cases the benefit is required to be treated as "long term". According to the policy of the company, no leave can be carried forward beyond the end of the financial year. Accordingly all leave granted has been accounted for in the current financial year.

- b) Contribution to Provident Fund, employee state insurance and other funds are determined under the relevant statute and charged to revenue Account.
- c) Present liability for future payment of gratuity is covered through Group Gratuity Scheme of Life Insurance Company of India and contribution thereon is charged to revenue account and the assets are funded by the LIC and the company has no obligation except to the extent of the premium determined by Life Insurance Corporation.

H. Accounting For Taxation:

Provision for current taxation is measured at the amount expected to be paid to the tax authorities in accordance with the provisions of Income Tax Act, 1961

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognized as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

Deferred Tax is recognized subject to consideration of prudence on timing difference being the difference between taxable incomes and accounting income that originate in one period and are capable of reversal in one or more subsequent periods.

I. Borrowing Cost:

Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction/ development of the qualifying asset up to the date of capitalisation of such asset is added to the cost of the assets.

J. Impairment of Assets:

The carrying values of assets/cash generating units at each Balance Sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognized, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognized for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognized in the Statement of Profit and Loss, except in case of revalued assets.

K. Earning Per Share:

Basic Earnings per Share is calculated by dividing the net profit or loss after tax for the year attributable to the shareholders by the weighted average number of equity shares outstanding during the year. For purpose of calculating diluted earning per share, the net profit or loss for the year and weighted number of shares outstanding during the year are adjusted for the effects of dilutive potential equity shares.

L. Foreign Currency Transaction:

Foreign Currency Transaction is recorded in the reporting currency, by applying to foreign currency amount the exchange rate at the transaction date. The exchange difference arising on revenue transactions are charged to Profit and Loss Account

M. Provisions and Contingent Liabilities:

Provisions are recognized when the company has a legal and constructive obligation as a result of a past event, for which it is probable that a cash outflow will be required and a reliable estimate can be made of the amount of obligation.

Contingent Liabilities are disclosed when the company has a possible obligation or a present obligation and it is probable that a cash outflow will not be required to settle the obligation.

N. Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.
