CHAIRMAN'S MESSAGE

Covid might succeed in doing what environmentalists and the Paris accord failed to achieve, i.e. change in human behavior.

Dear Shareholders,

Nothing in this century has grabbed our collective attention, heightened anxiety and upended our lives like the Covid pandemic that's still raging and affected more than 10 million people as this Annual Report goes to digital print. Our consumers, employees, suppliers and other stakeholders have all been affected in ways we still don't fully appreciate. In all our major markets including the US, UK, Germany and India the virus has struck hard, taken lives, destroyed jobs, and created a challenging future for millions.

We dedicate this year's Annual Report to the memory of more than 500,000 who have lost their lives to Covid and we wish those still afflicted, a speedy recovery.

For a lot of us, the future is both uncertain and challenging. However, before I go into what the post-Covid world can look like for your company, let's briefly review our performance for the year gone by. By any reckoning, this has been a very satisfactory year.

Here are some quick highlights:

- Your company grew 28% over last year by adding a record INR 1 billion to end the year with INR 4.55 billion in net revenues

- Profits after tax grew even faster (36%) at INR 409 million representing 9% of revenues

- The uninterrupted growth in both exports (27%) and the domestic business (26%) continued through this year as well

- In the consumer business both branded (17%) and private label (62%) saw healthy growth

- In our largest market, the US, all categories including entrees and rice saw double digit consumption growth. Velocity and points of distribution both grew in all three segments of club, grocery and natural channels. For yet another year, online sales growth outpaced all channels

- Organic Madras Lentils was introduced in club stores in the US and was received enthusiastically by our consumers

- Tasty Bite saw successful launches in new markets, UK and Germany. The product has been well received in both markets

- TFS (Tasty Bite Food Service) witnessed a robust 26% growth

during the year with sauces growing almost 44%

- Our frozen business faced headwinds and remained flat as some of our customers reduced their plant-based offerings, in a move counterintuitive to megatrends

- 'TastyBite Xclusive' our domestic HoReCa initiative was rolled out during the year in test markets Bangalore and Mumbai. These are early days and we remain hopeful

- We added INR 235 million to our fixed assets for new capacity and infrastructure.

Preparing for new reality:

We know that some things in the post-pandemic world will change forever, but not all for the worse. Governments, industry and consumers will each recalibrate in some fundamental ways. All of these will have a profound influence on our industry and on your company. However, I believe Tasty Bite will continue to evolve, for the better, and do its part to stay mission aligned "to build a socially responsible company that will provide consumer delight".

The pandemic is teaching humans many lessons as many as the number of people who've succumbed to it. We have learnt lessons that are global, regional and extremely personal. Let's examine all three.

The Global Environment:

Very simply, we have plundered the surface of the earth, the air above and the crust below. Every year on an average we deforest 70 million acres globally. That's about the size of Maharashtra! We emitted a record 37 billion tons of carbon dioxide last year. That's almost 20 times the weight of all the cars on the road globally. We drill relentlessly and oil production alone at 100 million barrels / day is 5 billion tons annually. That is more than double the quantity of food grains we produce every year!

The consequences of these are plentiful. Let me name just a few: pandemics by releasing viruses & bacteria that belong inside forests, extinction of thousands of species annually upsetting our ecosystem, conversion of agricultural land for animal feeds, increasing hunger & malnourishment and endangering public health.

Covid might succeed in doing what the environmentalists and the Paris accord have failed to achieve, a change in human behavior.

Regional disparities:

Atmanirbharata (or self-reliance), has suddenly become an imperative for all nations, reversing decades of progress in globalization. Nowhere will this be more pronounced and more regional than in the area of food security.

Governments, industry and consumers will pull in different directions, making concerted progress challenging.

Governments will continue to dip into their coffers through short term stimulus packages, support local, small & large businesses to protect jobs and increase regulations and erect tariff & non-tariff barriers to global food and agriculture trade. Such protectionism may threaten global, regional and even bilateral trade agreements underlining the belief

that countries can *localize* their way out of this socio-economic crisis.

Industry and particularly the food sector has been affected in very different ways depending on the country and the segment they are in. Farmers, traders, processors, transporters, restaurants, wholesalers, distributors, retailers are each confronting difficult everyday choices even as they know that some changes they have made are likely to be more permanent. Companies are asking fundamental questions about their business model, many will reconfigure their supply chains, renegotiate contracts and struggle to hold on to their consumers, all the time wondering how to deal with the changing demands of their stakeholders. We will witness not just a change in strategy but a shift in corporate missions as well.

Personal reflection:

Consumers too have faced a new reality. Maintaining a social distance that is unnatural to humankind, working from home, terrified of the virus and yet discovering a quieter, cleaner and healthier planet has given us all time to pause. We may have transformed in some fundamental ways. From profligate spenders to savers, polluters to cleansers, mere consumers to producers at home, physical to digital and magically from indifference to engagement.

All of these changes will have a profound effect on the food industry globally and on your company. While it is impossible to predict specific changes, a few megatrends that were already visible will accelerate, threatening some businesses while offering huge opportunities to others. Three of them in particular are relevant for Tasty Bite:

1. *Heightened awareness of the correlation between food and wellness.* These last few months have seen a dramatic increase in both in-home dining and cooking. These new food habits may have made us healthier even as we reel under the raging Covid epidemic. This is a major behavioral change and will result in us simultaneously competing and collaborating with our consumers.

2. *Plant based natural foods will see explosive growth.* The drivers of this change are visible all around us. Fear of processed meats, heightened sensitivity to animal cruelty, increasing knowledge of the goodness in plants and the recent growth in plant - based meat alternatives
3. *De globalization will change food habits.* Concerns for public health and climate change combined with government stimulus will drive the *local* movement which in turn will drive a change in food habits. Global logistics will yield some ground to shorter supply chains. The palate will shift to healthier, prepared but less processed foods.

It'll be a bumpy road but I am deeply confident that your company is poised to emerge stronger in the long run despite these turbulent times. Historically, Tasty Bite's growth has been anchored in a culture of innovation. This has not been only through new product and process development but through constantly reimagining a better way to deliver on the promise of our mission statement that we will build a socially responsible organization that will provide consumer delight. This philosophy is deeply embedded in the DNA of the organization and empowers all who work here.

Our parent company Mars, Incorporated not only shares this vision but has been like a rock through these months, providing unstinting support and cheerleading us through these very stressful times. The employees at Tasty Bite across the length and breadth of the company continue to inspire with their dedication, competence and have been nothing less than spectacular.

This year's annual report explores Innovation across all functions in the company and its role in providing stability, flexibility and in designing a new future. Enjoy the ride but keep your seat belts on. Welcome to a new beginning.

ACCELERATING INNOVATION

INNOVATION CONTINUES TO BE A DRIVING FORCE ACROSS OUR VALUECHAIN, TO ADAPT AND EVOLVE PRODUCTS ACCORDING TO CONSTANTLY CHANGING CONSUMER PREFERENCES.

At Tasty Bite, innovation goes beyond products to encompass people, process and technology. Our commitment to innovation is bringing us closer to our consumers, enabling us to understand their changing consumption patterns and eventually driving business growth.

We thrive to stay ahead of the industry curve when it comes to processes, commerce, products & solutions and the supply chain. Tasty Bites Research Centre (TBRC) our inhouse centre for excellence, helps drive product, process and ingredient innovation. Our strong

TBRC team comprise Chefs & Food Technologists who progressively work towards fulfilling our company's promise of delivering Great Taste, Good Value and Real Convenience to the consumer.

A Recognized R&D Centre

Accredited as an 'In - house R&D centre' by the Department of Scientific and Industrial Research (DSIR), Ministry of Science and Technology, Govt. of India, TBRC holds a position of pride within the Tasty Bite organization. We pursue a strategy of combining our in-house expertise with global R&D collaborations to develop 'WOW' products.

What makes TBRC a business driver

Ability to develop great taste, clean label innovative products

Stringent emphasis on quality control practices, convenience and nutrient composition

Strong focus on research, development and innovation

Identifying upcoming megatrends & leveraging existing trends

Use of clean label, preferably organic ingredients to develop additive and preservative free products

Product Innovation

At Tasty Bite, we have been investing in and developing new products to be more agile and responsive to fast changing consumer demands. We produce, launch and scale new products that deliver superior food experiences to consumers in terms of delight, taste and nutrition. During the year under review, we have been working on the following initiatives:

- A range of fully Organic products (Rices & Entrées) for the US market
- A range of tasty hand held snacks for Tasty Bite XLCUSIVE

Process and Technology Innovation

While working towards gaining insight into the needs and preference of our consumers, we are also investing in new age technologies to increase the efficiency of our operations. We introduced water conservation measures in manufacturing through process innovation. We have invested in automatic wrap around cartoning machines with a capacity of packing

200 packs per minute, for our RTE products.

We are also undertaking various measures to maintain the durability and quality of the product, to sustain the products in accordance with its declared shelf life, by ensuring right processing and packaging techniques.

Innovations In the pipeline

From creating new products that offer valuable consumer experiences, we are determined to grow our brand with innovative and unique choices.

CREATING A BETTER FOOD EXPERIENCE

ORGANIC AGRICULTURE IS A WAY OF FARMING SUSTAINABLY, PROVING TO BE A KEY MEASURE TOWARDS BUILDING A SUSTAINABLE WORLD. THE DEMAND FOR ORGANIC FOOD PRODUCTS AND SOLUTIONS CONTINUES TO RISE, AS MORE CONSUMERS PREFER ORGANIC AND NATURAL FOOD.

At Tasty Bite, we have increased our organic food portfolio as consumers preference is shifting towards safer, healthier and organic food. As consumer

spends double on organic food in European and the US markets, we are scaling up production of our organic portfolio.

INVESTING IN OUR PEOPLE

EMPLOYEES ARE THE PRIME MOVERS BEHIND THE SUCCESS OF OUR ORGANIZATION AND THEIR CONTRIBUTIONS NEEDS TO BE RECOGNIZED AND REWARDED. THIS ENABLES US IN CREATING A FUN - FILLED, HIGH - ENERGY, KNOWLEDGE - DRIVEN, VIBRANT CULTURE.

Tasty Bite creates growth opportunities within the company to help employees develop a greater sense of pride. It also believes that a robust and continuous training and development program is vital for employees to improve their knowledge and skills and also to build a fun and knowledge driven organization. Management Leadership Program (MLP) - a platform for Managers to discover and develop their talents so that they can make better professional contribution to the company or enhance their personal growth. This program reinforces the belief that **"We are ordinary people capable of extraordinary performance"**.

Leadership program is not only confined to Management staff but also to the Workers team wherein the leadership quality of a worker is recognised and they are encouraged to come forward and lead with examples. We conducted three such leadership trainings in 2019.

Likewise the program on Campus to Corporate for freshers recruited through Campus aims at making the transition from college life to a corporate life easy.

Our Response to Covid - 19

During these critical times - health, safety and wellbeing of our employees have been a priority for us. To ensure smooth functioning of our operations and complete protection of our employees, we undertook the following initiatives:

Social distancing

We prioritized social distancing at all times, at our entrance gates, reception areas and during our operations.

Remote working

We encouraged our employees to work remotely to prevent large gatherings and abide by social distancing norms.

Imposing travel restrictions

We suspended all international and domestic travel during the crisis period.

Upskilling of employees

Even while our employees were working from home, we continued to enhance their productivity through various Webcasts and Trainings on subject matters of their concern.

COMMUNITY OUTREACH

AT TASTY BITE, WE BELIEVE THAT COMMITMENT TO ALL OUR STAKEHOLDERS IS FULFILLED BY STRENGTHENING OUR REPUTATION AS A TRUSTED COMPANY THAT MEETS THE EVOLVING NEEDS AND ASPIRATIONS OF THE SOCIETY IN WHICH IT OPERATES. IN ORDER TO FULFIL OUR SOCIAL AMBITION, TASTY BITE FOUNDATION WAS FORMED IN DECEMBER 2018 AS OUR CORPORATE SOCIAL RESPONSIBILITY ARM.

Tasty Bite Foundation was incorporated with the aim to be a catalyst for accelerating sustainable and inclusive growth. The main focus areas include:

Farmer's Welfare

Public Health

Water and Soil Conservation

Our Response to Covid - 19

To win the fight against Covid - 19 at Tasty Bite, we undertook a host of initiatives to support the communities in which we operate. We extended our support to frontline warriors of Covid - 19 working at hospitals in Mumbai by supplying Meal Kits to the Government of Maharashtra. We also extended our support to migrant workers by supplying them Meal Kits as

well as kits of dry ration and vegetables. Tasty Bite Foundation also offered monetary contributions to various organizations including Oxfam India, PM Cares Fund and CII Foundation to successfully navigate through these difficult times. We remain committed to fight together and to overcome the global health challenge by supporting Central as well as State Governments.

SUSTAINABILITY AT OUR CORE

WE VIEW SUSTAINABILITY AS AN OPPORTUNITY TO NOT ONLY GROW OUR REVENUE AND PROFITABILITY BUT ALSO TO MAKE A POSITIVE DIFFERENCE TO THE SOCIETY AND COMMUNITIES IN WHICH WE OPERATE. WE RECOGNIZE THE RESPONSIBILITY THAT COMES WITH BEING A MARKET LEADER.

As our actions and decisions have a direct and potential impact on the socio - economic environment and diverse stakeholders, we aim to ensure sustainability in all our operations.

Water Management

Water scarcity is one of the major challenges faced by the world today. As a result, we at Tasty Bite continue to undertake measures to reduce consumption of water. Through our water audits and projects, we identify areas where usage of water can be minimized with the help of efficient technology and environment friendly measures. Backed by reliable information, we have established realistic goals for each department and the entire organization. We also train our staff to ensure prudent use of water, informing them about methods to facilitate optimum energy efficiency. We also encourage our employees to suggest ways to reduce water within our organization.

Energy Management

We are working towards energy optimization and increasing the share of renewable energy consumed in the total energy mix. We conduct regular energy audits, upgrading our machines and using new age technologies to reduce our energy consumption. We have also implemented an energy management system for online monitoring of electricity consumed within the plant. All lights in the factory are LED thereby reducing power usage.

18%

OF OUR OPERATIONS UTILIZE
RENEWABLE ENERGY

Efficient waste disposal and management

We have installed biogas plants to convert our entire bio - waste (food waste) to Biogas and Organic manure. The biogas generated within our facility is then converted to electricity for further usage within the organization and the organic manure is utilized in our fields. Further, all e - waste generated from our plant is disposed as per norms.

MANAGEMENT DISCUSSION AND ANALYSIS

OVERVIEW

Tasty Bite is the leading brand of Ready - to - Eat products. Your company is the number one Indian food brand in North America and its recent launch in UK, Germany, Australia and Canada has been well received by the consumers. The consumer business has a range of Ready - to - Eat Indian and Asian entrées, Ready - to - cook sauces and Ready - to - Eat organic Rices and Grains. The consumer business is export driven with sales and marketing being done by PBI (for North America) and Mars (for all other geographies).

Tasty Bite Food Service business comprises a range of customized specialty formed frozen products, sauces and gravies. Your company is a trusted partner to marquee QSR and Cloud Kitchen brands in the food service industry across India, Middle East and South East Asia.

ECONOMIC OUTLOOK

While the global economy grew by 2.9% in 2019, COVID - 19 has delivered an enormous global shock, leading to steep recession in many countries. Amid the [Coronavirus Pandemic](#), several countries across the world resorted to lockdowns to “flatten the curve” of the infection. These lockdowns meant confining millions of citizens to their homes, shutting down businesses and ceasing almost all economic activity. According to the International Monetary Fund (IMF), the global economy is expected to shrink by over 3 per cent in 2020 - the steepest slowdown since the Great Depression of the 1930s. In North America, our largest market for the consumer business, Covid - 19 related disruptions have led to millions filing for unemployment benefits. As per a Reuters report, since 21 March, more than 36 million have filed for unemployment benefits, which is almost

a quarter of the working - age population. Per capita incomes in most emerging and developing economies will shrink in 2020. The pandemic has changed people behavior forever and highlighted an urgent need for policy action to cushion the consequences, protect vulnerable populations, and improve countries' capacity to cope with similar future events.

Indian economy is in a similar turmoil registering a 4.2 per cent growth in 2019 - 20, the slowest in 11 years. The economic impact of the 2020 coronavirus pandemic in India has been largely disruptive. The World Bank and rating agencies had initially revised India's growth for FY 2021 @ 3.2%, the lowest figures India has seen in three decades since India's economic liberalization in the 1990s. However after the announcement of the economic package in mid - May, India's GDP estimates were downgraded even more, signaling a deep recession perhaps the worst since independence.

In Q1 FY 2021, the GDP is forecast to contract over 40%. India could lose the tag of the fastest growing large economy to China for two years. China is projected to grow at 1 per cent in CY 2020, and 6.9 per cent for CY 2021.

Within a month, unemployment rose from 6.7% on 15 March to 26% on 19 April. During the lockdown, an estimated 140 million people lost employment while salaries were cut for many others. More than 45% of households across the nation have reported an income drop as compared to the previous year. Under complete lockdown, less than a quarter of India's \$ 2.8 trillion economic movement was functional. Up to 53% of businesses in the country were projected to be significantly affected. Covid - 19 is expected to have a significant impact on several industries including food and food consumption.

INDUSTRY OVERVIEW

Global RTE Industry

Globally, the demand for Ready - to - Eat (RTE) food has grown significantly and is expected to reach US \$172 billion by the end of 2023¹.

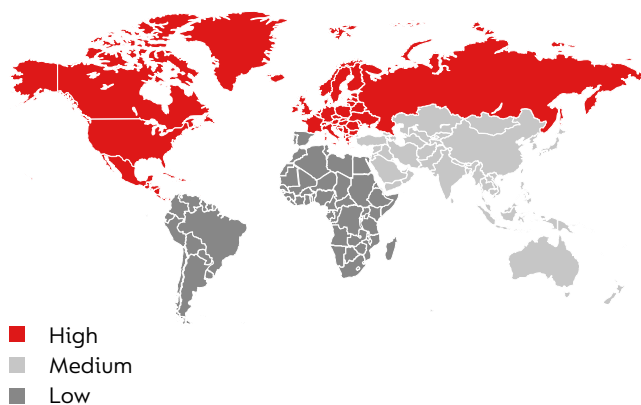

Changing food habits, lack of time and easy accessibility to various food groups has generated a huge demand for these products. Driven by high disposable incomes, ease of use, busy lifestyle and better nutritive content, consumers globally are relying more on Ready - to - Eat food.

American RTE Industry

North America is the biggest market for ready - to - eat meals accounting for 42% of the global RTE market share. The RTE segment in the United States is estimated to reach US \$679 million by 2020 and it is expected to grow at a CAGR of 9.7% from 2017-2023².

Frozen or chilled segment accounts for the largest share in the Ready - to - Eat market. Growth in North America is attributed to various factors such as improved standard of living, growing working population and increasing per capita income. Moreover, rapid urbanization and increased employment levels have contributed to busy schedules which is anticipated to intensify the demand for Ready - to - Eat food. Covid - 19, has forced people to cook and eat at home.... this has further accelerated the adoption of Ready - to - Eat and Ready - to - Cook products. Covid - 19 has also made many non - believers into life long users.

Food Service Industry in India

The INR 38,000 million Food Service market in India is mostly dominated by the unorganized sector, contributing to around 62% of the overall market size. Within the organized sector, QSRs (Quick Service Restaurants) and CDRs (Casual Dining Restaurants) constitute about 80% of the market. The organized food service segment is expected to grow at a CAGR of 13% between 2019-2024. The growth is largely influenced by an increasing number of international brands, emergence of food technology disruptors, strengthening of backend infrastructure, acceptance of new cuisines and changing lifestyles.

The sector has been evolving as the country has the highest millennial population (people aged 18 to 35), whose food habits and tastes are very different from those of previous generations. Millennials today, happen to be tech savvy, independent, career driven individuals with global exposure possessing a higher spending capacity and with little time to cook indoors. Eating outside food on weekdays has become a common phenomenon, as opposed to it being a weekend activity. Other factors such as rapid urbanization and government initiatives such as to keep malls and restaurants open 24*7 in metro cities is also likely to contribute to the growth of the sector, providing food service players with an opportunity to expand.

Further, the concept of cloud kitchen, a delivery only outlet with no dine in facility has been gaining traction recently on the back of rising order through delivery apps like Swiggy and Zomato. The concept has been growing at a faster rate worldwide as compared to other segments of the restaurant industry. The same is witnessed in India in the past 2 years.

MANAGEMENT DISCUSSION AND ANALYSIS (Contd.)

MEGA TRENDS

The vision of the Company, consistent for more than a decade, is to be a *socially responsible* company that will *delight consumers* by offering *great taste*, *good value* and *real convenience* achieved through manufacturing and marketing of *natural*, *convenient* and *specialty* foods. This vision is like a North Star guiding our strategy, operating plans and decision making. Covid - 19 has created some fundamental shifts in consumer behavior especially in the area of food and food consumption.

Let's have a look at some of the emerging trends and how they impact your company:-

■ Focus on Health, but Taste most important

The trend towards healthy, natural, organic and better - for - you food isn't slowing down: in fact, Covid - 19 increased its acceptance. However, consumers are not ready to compromise on taste! During these testing times, taste has become more important than ever. Consumers are embracing comfort food that they are familiar with. This trend has been serving us well in our consumer business which has been necessarily natural and preferably organic. During the year our hero SKU, Madras Lentil was converted into organic and introduced across all the channels. This was accepted quite well by the consumers. We added a few more organic rice SKU's and entrees increasing our organic portfolio in North America. During Covid - 19, many consumers stock piled Tasty Bite RTE rice and entrees driving increased consumption and widening the consumer base. This 'better - for - you' trend is also on the rise in the food service industry with many global and local brands pledging to launch new products with cleaner labels. Your company is partnering with these customers to help create clean label products.

■ Home cooking on the rise but consumers don't have time

While consumers are leading busy lives, Covid - 19 has made them to stay at home. They are expected to juggle between home responsibilities and office duties. With restaurants closed, they are also forced to cook at home. However, this has added pressure on their already busy lives and they are looking for food options that are easy to prepare without sacrificing taste. Tasty Bite range of Ready - to - Eat and Ready - to - Cook products are a great help in preparing a tasty meal in less amount of time. While this new trend seems to have a short term impact on restaurants and hence our food service business, in the long run this presents numerous opportunities. Many QSR's and Cloud kitchens have started converting their products into DIY kits and meal kits enabling customers to prepare their favorite branded meals at home. Tasty Bite has an opportunity to partner with our food service customers as they look for innovative options to grow their business.

■ Social Distancing, the new normal

Post lockdown, consumers will be quite wary of eating out and whenever they venture out, they will look for safer and trusted avenues. Brands that give them confidence around safety & hygiene practices including Social distancing will win. Restaurants will have to redesign their kitchen and seating area, simplify their processes, standardize their food supply chain and leverage technology in all aspects of their business. None of this is going to be easy but it is a necessity to win consumer confidence. We can already see several innovations in the delivery side of the business with contactless delivery becoming a norm. Online reservations, QR - code Menu, Naked Kitchens, no - sharing meals, Reduced waiting time & minimum human contact are some possible innovations that we will start seeing on the Eat - In side of the business as well. As brands start simplifying their menu and processes they need to standardize their supply chain and move from inhouse preparation to outsourcing of intermediate and / or finished prepared foods. Tasty Bite is well positioned to take advantage of this trend through its superior innovation ability and strong customer relationship.

■ Food, the new immunity booster

We are what we eat... the stress of the corona virus has hit our immune systems hard. Consumers have started realizing the immense benefits of going back to their roots to discover ancient wisdom and understand benefits offered by traditional ingredients. Whether its Matcha, the famed Japanese powdered green tea known for its high anti - oxidants or turmeric known for its anti - inflammatory and antioxidant properties many such traditional ingredients are becoming global and finding their way into the food plate. New ingredients are earning the title of superfoods or master ingredients because of their seemingly 'good for you' nutritional properties. While this trend was always on the rise, Covid - 19 has accelerated the adoption of such ingredients. There's also an increased move towards vegetarian and vegan. In our Food Service business as well as Consumer business we have been at the fore - front of leveraging such ingredients to create products with bolder flavors offering great taste. Our recently launched RTE Organic Ghee Turmeric Rice or range of ancient grain products for food service customers are some examples of how we have leveraged this trend on the back of our strong culinary and food science capabilities.

■ Technology

Technology is changing the way people eat, cook and shop for food. During the lockdown period, while consumers were finding it difficult to step out of their homes, products were being delivered to their door step by e - commerce

MANAGEMENT DISCUSSION AND ANALYSIS (Contd.)

companies and food delivery aggregators. Cloud kitchen operators also managed to survive the lockdown leveraging their technological prowess and offered contactless delivery to consumers. In line with this shifting trend, Tasty Bite is also seeing an increased demand from e-commerce companies like Amazon. Your company is also partnering with leading food tech companies in standardizing their food supply chain and fast scaling of their cloud kitchens.

RESULT OF OPERATIONS

In terms of market share, Tasty Bite is a leading brand for shelf stable Indian foods in North America. Your company has also launched the brand in UK, Germany and Australia.

Productwise Performance

Business	Revenue*	Product	Key market areas	Customers
Consumer business	INR 2,755.6 million (64.72% of the total revenue)	Ready - to - Eat food (natural, convenient, ethnic or specialty food segment)	USA, Canada, UK Germany, Australia, and New Zealand	Marketed through affiliates to retail customers like Costco, Target, Krogers, Wholefoods, Amazon and others
Food Service business	INR 1,502.1 million (35.28% of the total revenue)	Formed Frozen Product and Specialty Sauces	QSR chains and HoReCa (Hotels, Restaurants and Caterers) in India and abroad	

*Excludes other income

Your Company had a good year with revenues growing 28%. The export business grew 27% on account of market expansion, increased distribution points, new product launches and increased acceptance by consumers. The consumer business touched a revenue of INR 2,755.6 million.

The Tasty Bite Food Service (TFS) business has grown 26% on the back of resurgence of same store sales growth for QSR's, new store / kitchen expansion, new customer addition and product innovation. Your company continues to invest in R&D to develop new and unique products that help to grow the market for our customers. Our Food Service Business (TFS) touched revenue of INR 1,502.1 million.

Overall revenue from both businesses touched INR 4,548.3 million including other income.

Material cost in the year increased by 430 bps over previous year to 62.3% of revenue mainly on account of relatively high inflation in key input raw materials. We also took some strategic decision to forward buy key organic commodities like urad, lentils, onions, rice and tomato paste.

EBITDA at 16.2% of revenue grew by 15.0% over the previous year.

During FY'20 Profit before tax (PBT) increased to INR 533.5 million from INR 470.8 million in FY'19. Profit after tax increased by 36% to INR 408.6 million from INR 300.6 million in FY'19.

Other comprehensive income records the remeasurement gains / losses on our defined benefit plan (gratuity) and the mark to market gain / loss on the effective portion of cash flow hedges taken by the Company to hedge its forex exposure, net of taxes. There was an actuarial loss, net of taxes of

INR 6.4 million as compared to INR 3.3 million in FY'19 and mark to market loss, net of taxes on effective portion of cashflow hedges of INR 84.6 million as compared to gain of INR 25.2 million in FY'19.

SOURCES & USES OF FUNDS

As at 31 March 2020, the Company had three long - term foreign currency loans from two Japanese banks, namely Mizuho Bank and MUFG Bank with a total outstanding balance of \$ 3.7 million (INR 280.8 million). These loans have maturity of five to eight years with an interest cost of 3 months Libor + 0.90% on two loans and 3 months Libor + 0.75% on the third loan. The Company has entered into an interest rate swap (IRS) agreement with the banks to convert the floating rate liability of these loans into a fixed rate liability. As at 31 March 2020, the IRS has a mark - to - market loss of INR 5.3 million. The Company has taken no new long - term loans during the course of the year.

The company had working capital loan from affiliates of INR 60 MN outstanding as on 31 March 2019, the said loan has been repaid in full during the year.

During the year the company has availed short term working capital borrowing in the form of packing credit in foreign currency from Mizuho Bank for meeting its working capital requirements, as at 31 March 2020 an amount of \$ 4.5 million (INR 339.1 million) is outstanding.

Total net property, plant & equipment (including capital work - in - progress and Intangible assets) stood at INR 1,162.3 million vs INR 924.3 million in the previous year. Assets that were capitalized during the year (net of disposals) totaled INR 187.9 million.

MANAGEMENT DISCUSSION AND ANALYSIS (Contd.)

Net working capital in the business reduced from INR 630.4 million in FY'19 to INR 496.6 million, a decrease of 21.2%. Current ratio reduced from 2.1 in FY'19 to 1.5 in FY'20.

Ratios are as follows:

(vi) EBITDA Margin (%)	16.2%
(vii) Net Profit Margin (%)	9.0%
(viii) Details of any change in Return on Net Worth as compared to the immediately previous financial year along with a detailed explanation thereof	25.0%

OPPORTUNITIES & THREATS

The business is built on the foundation of strong values, a coherent and consistent strategy and competitive advantages built over several years of operation. This places it in a good position competitively and provides significant opportunities to grow.

Strategy

Our strategy and mission statement is to be a socially responsible company that will delight consumers by offering great taste, good value and real convenience achieved through manufacturing and marketing natural, convenient and specialty foods in a knowledge - driven, energetic and fun work environment.

We continue to focus on the following strategic goals:

- Be the Brand of choice for the Aspirationals
- Become a global household name in key global markets
- Benchmark for sustainability
- Preferred and trusted partner for leading food service brands.

Strengths

- **Brand name:** Tasty Bite is one of the leading brands in North America amongst Indian and Asian prepared foods. In the Indian shelf stable prepared foods, it commands a dominant market share and is one of the fastest growing brands in the Asian and rice category.
- **Management Experience:** Your Company's senior and middle management has significant experience in the food industry and a strong understanding of consumer business as well as food service.
- **Innovation:** Strong marketing and consumer insight combined with highly skilled culinary professionals and food technologists, makes your company extremely strong in innovation. In addition, the innovation team leverages

our Research and Development center equipped with latest technology & state of art equipment.

- **Trusted Partner for B2B customers:** Your company partners with leading QSR brands to provide customized product solutions in Formed Frozen Product (FFP) and Specialty Sauces category.
- **Strong distribution and marketing:** Your company is supported by Preferred Brands International Inc. in North America and by Mars Food Corporation for all markets outside of North America. Both these companies have a well established marketing and distribution network in their respective markets.
- **Strong supply chain:** Your company is one of the largest organic processors in the country and is backed by a very strong, agile and efficient supply chain.
- **Product quality:** Your Company manufactures high quality products for its food service as well as consumer business. The manufacturing facility is audited by several customers and meets stringent quality standards of several countries including US, UK, Australia, Japan and Canada.

Competition

The food industry globally is a large and highly competitive industry that is subject to ever changing consumer trends and consumption habits.

RTE acceptance across the globe is on the rise and many new brands are finding their way onto the retail shelves. In our consumer markets, our products compete not only with other Indian ready - to - eat offerings but all other specialty meal options including other cuisines that a consumer may consider as a lunch or dinner alternative.

Likewise, in our food service business, there are international and domestic players that have the technology and capability to manufacture similar products. Many of them have international relationships, well recognized consumer brands in India and extensive distribution networks. This is also a highly price sensitive market and industry and the Company needs to continuously innovate, enhance its procurement strategies and make its manufacturing more efficient in order to remain ahead of its competition.

OUTLOOK, RISKS AND CONCERNS

Your company intends to continue focusing on both the consumer as well as the food service business. Both businesses are enjoying a strong growth over the past few years.

For the consumer business, following is our growth strategy:

- **Improve Reach** - this would entail increasing points of distribution, adding new channels as well as expand to newer geographies

MANAGEMENT DISCUSSION AND ANALYSIS (Contd.)

- **Lead Innovation** - we would continue to be leaders in category innovation through transition to organic, new line extensions and new formats
- **Increase conversion** - product sampling and demonstrations, use of focused digital media will increase the consumer base of Tasty Bite brand lovers.

In the Food Service business, our growth will be enabled through:

- **Value Leadership and Innovation**
- **New Customers and Channels**
- **Superior Customer Service**

The food service industry is driven by innovation, value consciousness and service. Covid - 19 has increased the emphasis on these levers even more. As brands work hard to gain consumer trust, they will look towards supply partners who can offer them innovative solutions both in terms of new products as well as standardized supply chain products. Partnering with the QSR and Cloud Kitchen customers to solve their challenges has become the need of the hour. Your company has been a preferred partner for many customers and will strive harder to earn their trust. During the year under review, your company expanded its presence in many South East Asia and Middle East markets. In the coming years, the plan would be to leverage this newly formed customer relationships and grow the business in these new geographies. Tasty Bite has also recently launched "TastyBite Xclusive" a branded offering for HoReCa customers in select cities. Over the next few years, the company plans to strengthen the branded food service portfolio.

The underlying risks and concerns that we see in the business:

- There is intense competition for shelf space in supermarkets and there is always uncertainty whether the Company would be able to get its products listed in grocery stores. As new product reviews take place only once or twice a year any delay in getting listing could impact growth.
- The success of any product or category depends finally on consumer acceptance of the same and new launches may or may not be successful.
- Food Service customers have had a major dent in their revenue and profitability since the advent of Covid - 19. This has resulted in contraction of the entire industry and recovery would be long and painful. It is estimated that 25% - 40% of restaurants could close down and it could take anywhere from 12 - 24 months to return to normalcy.
- In the short to medium term, there would be immense pricing pressure from our food service customers as they seek lower cost options or discounts on existing products.
- We do not have any long - term contracts with our customers and they could stop purchasing from the Company with little or no notice period. This could negatively impact our revenues and profits.

- Cost increases of inputs and services in India are rising while retail prices of our products remain relatively stable and we may not be able to pass on cost increases to our customers.

- We are exposed to risk of fluctuations in foreign currency on our export sales. While we have a robust forex risk management policy in place, this allows us to hedge movements in foreign currency exchange rates for a period of twelve months. As we are a net exporter, any long term strengthening of the Indian rupee would have an adverse impact on our profitability.

- All our raw materials are agricultural commodities that sometimes see significant price volatility depending on weather and market conditions. While we do strategic purchases to hedge risk of key commodities, it would not cover all the raw materials that we purchase.

- We have one manufacturing facility that manufactures all our products for our consumer and food service business. Any untoward incident beyond our control can impact our ability to fulfill customer orders and our reputation.

- Our products are shipped globally and ocean freight forms a material portion of our total costs. All our exports are shipped from Nhava Sheva port in Mumbai. Increase in oil prices, changes in supply demand of vessels and port disruptions could increase this cost or cause delays in reaching our products to our markets.

- A few of our raw and packing materials are imported that have longer procurement lead times. Changes in exchange rates and any delays on import can impact production schedules and our ability to fulfill orders.

- Our insurance coverage may not be adequate to protect us against all potential losses to which we may be subject and this may have a material adverse effect on our business.

- We are eligible for various incentives from the Government on the export of value added agricultural products. Any change on these policies that reduces these incentives could adversely impact our net income.

- Any shortcoming in the quality of our products could have a financial impact aside from impacting the reputation of the brand.

- We could be the subject of litigation, which if adversely determined, could harm our business and operating results.

- Any changes to import policies and taxes in the countries where we export our products could increase the cost of our products for our consumers which could impact demand.

- We need to invest in manufacturing facilities and physical infrastructure ahead of market demand given the long lead times in creating new capacity. Our profitability could be reduced if our business does not grow proportionately.

MANAGEMENT DISCUSSION AND ANALYSIS (Contd.)

- With Covid - 19 pandemic across the globe, there's a potential short to mid term impact on the business due to labor availability, destabilized supply chains and demand shrinkage especially on the food service side of the business.

SUPPLY CHAIN

Our constant endeavor is to create a value added and low cost supply chain that will provide assured availability of high quality ingredients and packaging material. Over the years we have built strong and long term partnership with our suppliers. We purchase over 400 different kinds of raw materials and a similar number of packing materials. Our strength comes from our ability to understand market dynamics of each of these input materials and make timely strategic decisions on buying them.

Our purchasing strategy ranges from spot purchases, forward contracts, seasonal buying and for few commodities, pre - processing into intermediate forms that can be easily stored and utilized over the course of the year. This creates ability to manufacture a better and consistent product leading to consumer delight. Covid - 19 impacted the entire country's supply chain including Tasty Bite. From effective management of working capital to supporting our MSME supplier partners, renegotiating our future contracts, online clearance of organic transactions by certification agencies to launching incentive schemes for our container drivers we innovated across the entire value chain to meet our production plans.

The Company has embarked on a program to increase its sourcing of ingredients that are organic and to that extent needs to build a robust supply chain to ensure farm level traceability of these ingredients.

HUMAN RESOURCES

During the year under review, industrial relations of the Company continued to be cordial and peaceful. Total personnel employed by the Company are 277 as on 31 March 2020.

Each year your Company participates in the Great Place to Work survey - a survey jointly conducted by the Economic Times of India and Great Places to Work Institute, India. We are very pleased to report that once again your Company made it in the Top 50 (ranked 31) list of India's Great Mid - Size Workplaces in 2019 and also was awarded Top 25 Best Companies to work for in the Manufacturing Sector 2019. In addition, it received several other certifications like Great Place for Women to Work and One of Best F & B companies in FMCG.

In FY 2020, the company increased its focus on training and development. More than 200 mandays were spent in offsite training for staff and permanent workers. In addition, activities like TB Cricket League, All - Hands Day, Oxfam 100 km walk, international women's day and several others helped

improve employee engagement. Several programs, including, "Quarterly Townhall", "Coffee with MD", "Power up Fridays" helped improve the quality of communication across various levels of the company.

The management records its sincere appreciation of the efforts of all its employees who have all worked towards building a unique culture within Tasty Bite and an environment that is knowledge - driven, energetic and fun.

FINANCE, ACCOUNTS AND INTERNAL FINANCIAL CONTROLS

Finance and accounting function work with the business team to continually increase the intrinsic value of the business and institute strong and effective financial and management control systems in day to day operations.

The Company has a comprehensive ERP system to manage its operations and record its financial transactions. It has implemented additional system tools to manage stores, spares and consumables procurement that also ties in with the ERP system.

Your Company attaches significant importance on having tested internal control systems, Risk assessment and management of operating risks. These risks are actively managed by the Management Committee through various committees and strong internal processes. This internal control structure also has considerable oversight and is monitored by an external set of auditors, both statutory and internal. The Company's internal controls commensurate with the nature of the business and size and complexity of its operations.

Some significant aspects covered in the internal control framework includes:

- Standard Operating Procedures and Risk Control Matrix for all business processes to ensure effective internal financial controls;
- Oversight by an Audit Committee carried out by an experienced and qualified firm of Chartered Accountants;
- End to end integration of ERP system across supply chain, manufacturing and sales processes;
- Review and approval of annual operative and capital expenditure budget and monthly monitoring of actual spends;
- Regular review of key business risks such as new product development, foreign exchange management, commodity risk management, financial reporting;
- Legal framework w.r.t. compliances applicable to the Company. Company has implemented compliance tool in factory and head office;

MANAGEMENT DISCUSSION AND ANALYSIS (Contd.)

- For overall supervision of controls, your Company has a Management Committee (MCom) to take key business decisions.

The statutory auditors have also issued a clean report on internal controls of the Company. The Audit Committee and Independent Directors have also provided satisfaction over internal controls of the Company.

QUALITY

The Company's stated mission for quality is to "rise beyond certifications". Consequently, the company's own Quality Management system calls for higher standards than what is specified in various 3rd party certifications.

In keeping with industry requirements, the Company continues to be certified for the following certifications:

- ISO - 14001:2015 (Environmental Management Systems)
- OHSAS 18001:2007 (Occupational Health and Safety)
- BRC v6 (Global Standard for Food Safety)
- Organic
- Kosher
- Halal
- The Foundation Food Safety System Certification 22000

The Company also adheres to the highest levels of compliance with CT - PAT (Customs Trade Partnership against Terrorism) standards, which gives the company an advantage for smooth exports to US, our most important market.

SUSTAINABILITY

The Company focuses on being a sustainable food manufacturer through conserving water (through installation of 'in - ground rainwater harvesting' system) and reducing its carbon footprint (through use of renewable energy). All of its steam generation is done using compacted agricultural waste (briquettes). The company continues to focus on using renewable sources of electricity - in FY' 20, 12% of its energy requirement came from Wind, 5% from solar and 1% from biogas. The biogas facility converts its organic waste into electricity and powers the effluent treatment plant, the water treatment plant and TBRC. The Company completed installing rooftop solar panels with a total capacity of 504 KWP in FY 2019-20. Monitoring and conservation of power and water is inbuilt into company processes. It also uses simple techniques such as crop rotation, use of natural fertilizers and pest control methods and green composting in its organic farm. Moreover, several initiatives have been undertaken by the Company towards improvement of air, soil and water quality in its eco system.

Your Company continue to remain strongly committed towards building a sustainable supply and manufacturing chain. Several of the United Nations Sustainable Development Goals where the Company can directly contribute as part of its business model have been adopted. Some of these include Good Health, Quality Education, Gender Equality, Innovation & Infrastructure, Reduce Inequalities, Sustainable Cities and Communities, Clean Water and Sanitation, Renewable Energy, Economic Growth and Responsible Consumption.

CORPORATE SOCIAL RESPONSIBILITY

As per Section 135 of the Companies Act, 2013, a company, meeting the applicability threshold, needs to spend at least 2% of the average profits for the immediately three preceding financial years on Corporate Social Responsibility (CSR) activities. For fiscal year FY'20, the Company was required to spend INR 8.37 million on CSR.

The Company has contributed INR 8.37 million to Tasty Bite Foundation for CSR activities.

CAUTIONARY STATEMENT

Statements in Management Discussion and Analysis describing the Company's objectives, projections, estimates, expectations may be "forward looking statements" within the meaning of applicable securities law and regulations. Actual results may differ materially from those expressed or implied. However, the Company had made an application to the Stock Exchanges (NSE and BSE) for obtaining in - principle approval for allotment of 15,500 equity shares to Preferred Brands Foods India Private Limited and shareholder's approval was also obtained in the Annual General Meeting held on 8 August 2019. But, the application has expired and the in - principle listing approval from Stock Exchanges was not obtained.
- d) The Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 **[Not Applicable as the Company has not issued employee stock option scheme and employee stock purchase scheme during the period under review]**;
- e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 **[Not Applicable as the Company has not issued and listed any debt securities during the period under review]**;
- f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agent) Regulations, 1993 regarding the Companies Act and dealing with client **[Not Applicable as the Company is not registered as Registrar to Issue and Share Transfer Agent during the period under review]**;

ANNEXURE C

SECRETARIAL AUDIT REPORT (Contd.)

- g) The Securities And Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 **[Not Applicable as there was not reportable event during the period under review];**
- h) The Securities and Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998 **[Not Applicable as the Company has not undergone buyback of its Securities during the period under review];**
- (vi) The Management has identified and confirmed the following laws as specifically applicable to the Company:
- Food Safety and Standards Act, 2006 and Rules 2011 with allied rules and regulations;
 - Standards of Weights and Measures Act, 1956 with allied rules and regulations;
 - The Legal Metrology Act, 2009;
 - The Legal Metrology (Packaged Commodities) Rules, 2011.

I have also examined compliance with the applicable clauses of the following:

- Secretarial Standards with regards to Meeting of Board of Directors (SS - 1) and General Meetings (SS - 2) issued by the Institute of Company Secretaries of India;
- SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and the Listing Agreements entered into by the Company with BSE Limited and National Stock Exchange of India Limited.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc.

I further report that:

- The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non - Executive Directors, Independent Directors and a Women Director. The changes in the composition of Board of Directors that took place during the period under review were carried

out in compliance with the provisions of the Act. However, during the period under review, there was no change in the composition of Board of Directors apart from appointment and resignation of Alternate Director.

- Adequate notice is given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting. Wherever, prescribed advance notice is not served, permission for shorter consent for conducting the meeting was taken as prescribed under the Companies Act, 2013 and other regulations.
- All the decisions of the Board and Committees thereof were carried out with requisite majority.

I further report that based on review of compliance mechanism established by the Company, I am of the opinion that there are adequate systems and processes in place in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules regulations and guidelines.

- As informed, the Company has responded appropriately to notices received from various statutory / regulatory authorities including initiating actions for corrective measures, wherever found necessary.

I further report that during the audit period there were no following specific events / actions having a major bearing on Company's affairs in pursuance of the above - referred laws, rules, regulations, guidelines, standards, etc.

DIVIDEND DISTRIBUTION POLICY

Statutory Requirements

This policy is being adopted and published in compliance with Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) (Second Amendment) Regulations, 2016. SEBI vide its notification dated 8 July 2016 introduced a new regulation 43A which prescribed that the top five hundred listed entities based on market capitalization (calculated as on 31 March of every financial year) shall formulate a dividend distribution policy which shall be disclosed in their annual reports and on their websites.

The regulation further prescribed that the dividend distribution policy shall include the following parameters:

- a the circumstances under which the shareholders of the listed entities may or may not expect dividend;
- b the financial parameters that shall be considered while declaring dividend;
- c internal and external factors that shall be considered for declaration of dividend;
- d policy as to how the retained earnings shall be utilized; and
- e parameters that shall be adopted with regard to various classes of shares

Provided that if the listed entity proposes to declare dividend on the basis of parameters in addition to clauses (a) to (e) or proposes to change such additional parameters or the dividend distribution policy contained in any of the parameters, it shall disclose such changes along with the rationale for the same in its annual report and on its website.

Parameters to be considered while recommending/ declaring dividend

The Board while declaring or recommending dividend to the shareholders, will consider following financial / internal and external factors though these will be only considered as guiding principles for the Board:

Financial / Internal Factors:

- Profits earned and available for distribution during the financial year
- Accumulated reserves, including retained earnings
- Mandatory transfer of Profits earned to specific reserves
- Past dividend trends - rate of dividend, EPS and payout ratio, etc.

- Earning Stability
- Future Capital Expenditure requirement of the Company
- Growth plans, both organic and inorganic
- Capital restructuring, debt reduction, capitalisation of shares
- Crystallization of contingent liabilities of the Company
- Cash Flows
- Current and projected Cash Balance and Company's working capital requirements
- Covenants in loan agreements, Debt servicing obligations and Debt maturity profile.

External Factors:

- Economic environment, both domestic and global.
- Unfavourable market conditions
- Changes in Government policies and regulatory provisions
- Cost of raising funds from alternate sources
- Inflation rates
- Sense of shareholders' expectations
- Cost of external financing
- Any unexpected change in the economy like any pandemic / epidemic, etc

Policy

- The financial strategy of the Company, which encompasses the dividend policy, is primarily aimed at enhancement of long-term shareholder value and sustainable growth, in a way that the shareholders can participate equitably in the Company's growth, while maintaining a strong financial foundation for the Company.
- The dividend distribution will be subject to internal and external factors, as mentioned above, which in the opinion of the Board, require retention of profits.
- The Board shall endeavour though not obliged to ensure that the dividend amount in every financial year will be stable and steady. Subject to profits and other financial parameters as per applicable legal provisions, the Board shall endeavour to maintain a dividend payout of around 10% of profit after tax on standalone financials, to the extent possible.

DIVIDEND DISTRIBUTION POLICY (Contd.)

- Final dividend will be recommended by the Board for approval of the shareholders in a general meeting, while interim dividend, if any, may be declared by the Board. The Company currently have only one class of shares, i.e. equity shares.

Disclosures

The Policy shall be disclosed in the Annual report and on the website of the Company i.e. at www.tastybite.co.in.

Policy review and amendments

The Policy will be reviewed periodically by the Board. This policy has been adopted by the Board of Directors of the Company at its meeting held on 15 May 2020 being the effective date of this Policy.

Disclaimer

- a The Policy does not constitute a commitment regarding the future dividends of the Company, but only represents a general guidance regarding dividend policy. The statement of the Policy does not in any way restrict the right of the Board to use its discretion in the recommendation of the Dividend to be distributed in the year and the Board reserves the right to depart from the policy as and when circumstances so warrant.
- b Given the aforementioned uncertainties, prospective or present investors are cautioned not to place undue reliance on any of the forward - looking statements in the Policy.

INDEPENDENT AUDITORS' REPORT

To the Members of
Tasty Bite Eatables Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Tasty Bite Eatables Limited ("the Company"), which comprise the balance sheet as at 31 March 2020, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2020, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matter

Provision for inventory obsolescence

As at 31 March 2020, the Company held INR 595.56 million of inventories net of provision for inventory obsolescence of INR 53.05 million. Given the size of the inventory balance relative to the total assets of the Company and considering the estimates and judgments described below, the valuation of inventory and provision for inventory obsolescence required significant audit attention.

As disclosed in Note 3.5 and Note 10, inventories are held at the lower of cost (determined using the weighted average cost method) and net realizable value. At each reporting period, the valuation of inventory is reviewed by management for provisioning. This assessment is of higher significance and involves increased estimation uncertainty in the current period considering the possible impact of the ongoing COVID - 19 pandemic on the Company's business.

The determination of whether inventory will be realized for a value less than cost requires management to exercise judgment and apply assumptions. Management undertakes the following procedures for determining the level of write down required:

- Performs periodic cycle counts to assess whether specific write down is required for obsolete inventory / shortages

How the matter was addressed in our audit

We have performed the following procedures over valuation of inventory and provision for inventory obsolescence:

- We obtained an understanding, tested the design, implementation and operating effectiveness of controls surrounding the inventory valuation process;
- We performed testing on the Company's controls over the inventory cycle count process. In testing these controls, we observed the inventory cycle count process at selected locations on a sample basis, inspected the results of the inventory cycle count and assessed whether the variances were accounted for and approved by management;
- For a sample of inventory items, we also re - performed the weighted average cost calculation and compared the weighted average cost to the net realizable value;
- We tested the ageing reports used by management for correctness of ageing;

INDEPENDENT AUDITORS' REPORT (Contd.)

The key audit matter

- Uses inventory ageing reports together with historical trends to estimate the likely future saleability / usability of slow moving and older inventory items;
- For inventory aged greater than one year or items due for expiry in the near future, management applies a percentage - based provision to inventory. The percentages are derived from historical levels of write down and forward - looking estimates based on assessment of expected utilization of production capacity considering the current market conditions.
- Management performs a line - by - line analysis of remaining inventory to ensure it is stated at lower of cost and net realizable value and a specific write down is recognized if management determines that the stock exceeds future requirements; and
- Management has also performed an analysis of the possible impact of the COVID - 19 pandemic on offtake plans of its key customers and the consequent requirement to establish provisions for certain inventory items due to either possible obsolescence or reduction in net realizable value.

How the matter was addressed in our audit

- We challenged the reasonableness of the assumptions used by the management relating to expected utilization of production capacity in the near future. We also challenged Managements' analysis of the possible impact of the COVID - 19 pandemic on offtake plans of the Company's customers and Management's conclusions regarding the impact on the carrying values of specific inventory items; and
- We performed retrospective reviews of provisions made historically to assess the reasonableness of provisions made during the year.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit / loss and other

comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

INDEPENDENT AUDITORS' REPORT (Contd.)

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. (A) As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.

INDEPENDENT AUDITORS' REPORT (Contd.)

- d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on 31 March 2020, taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- (B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations as at 31 March 2020 on its financial position in its financial statements - Refer Note 35 to the financial statements;
 - ii. The Company did not have any long - term contracts including derivative contracts for which there were any material foreseeable losses;

ANNEXURE A

to the Independent Auditors' report on the financial statements of Tasty Bite Eatables Limited for the period ended 31 March 2020

With reference to the Annexure referred to in paragraph 1 in Report on Other Legal and Regulatory Requirements of the Independent Auditor's Report to the Members of the Company on the Ind AS financial statements for the year ended 31 March 2020, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular program of physical verification of its fixed assets by which its fixed assets are verified once every year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its fixed assets. The discrepancies noticed on such verification between the physical count and the book records were not material and have been properly dealt with in the books of account.
- (c) According to the information and explanations given to us and on the basis of examination of the records of the Company, the title deeds of the immovable properties are held in the name of the Company, except for the following:

Sr. No.	Type of Asset	Gross block as on 31 March 2020	Net block as on 31 March 2020	Remarks
1	Freehold land – Gut No. 503	INR 0.03 million	INR 0.03 million	The Company has filed a legal suit alleging illegal occupation of the land owned by the Company.

- ii) The inventory, except goods in transit, has been physically verified by management during the year. The discrepancies noticed on such verification between the physical stock and the book records were not material and have been properly dealt with in the books of account. In our opinion, the frequency of such verification is reasonable and adequate in relation to the size of the Company and the nature of its business. In respect of stocks lying with third parties at the year end, written confirmations from major parties have been obtained.
- (iii) The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Act. Accordingly, paragraph 3(iii) of the Order is not applicable.
- (iv) According to the information and explanations provided to us, the Company has neither granted any loan and nor made any investments, or guarantees or security during the year, to which section 185 or 186 of the Companies Act, 2013 is applicable. Accordingly, paragraph 3(iv) of the Order is not applicable.
- (v) The Company has not accepted any deposits in accordance with section 73 to 76 of the Act and the rules made there under. Accordingly, paragraph 3(v) of the Order is not applicable.
- (vi) In our opinion and according to the information and explanations given to us, maintenance of cost records under section 148 of the Act is not applicable to the Company under the Companies (Cost Record and Audit) Rules, 2014.

ANNEXURE B

to the Independent Auditors' report on the financial statements of Tasty Bite Eatables Limited for the year ended 31 March 2020

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub - section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Tasty Bite Eatables Limited ("the Company") as of 31 March 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the

ANNEXURE B

to the Independent Auditors' report on the financial statements of Tasty Bite Eatables Limited for the year ended 31 March 2020 (Contd.)

transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not

be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2020

1. Background

Tasty Bite Eatables Limited ('the Company') is a company domiciled in India with its registered office situated at Shivajinagar, Pune and its manufacturing facility near Pune. The Company has been incorporated under the provisions of Indian Companies Act and its equity shares are listed on the Bombay Stock Exchange Limited and the National Stock Exchange Limited. The Company is in the business of manufacturing and selling 'Prepared Foods'.

2. Basis of preparation

2.1 Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

Details of the Company's significant accounting policies are included in Note 3.

The financial statements were authorized for issue by the Company's Board of Directors on 15 May 2020.

2.2 Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded - off to the nearest million (except per share data) to two decimals, unless otherwise indicated.

2.3 Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Certain financial assets and liabilities (including derivative instruments)	Fair value
Liabilities for cash - settled share - based payment arrangements	Refer Note 46
Net defined benefit (asset) / liability	Fair Value of plan assets less present value of defined benefit obligations

2.4 Use of estimates and judgements

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

Judgements, Assumptions, and estimation uncertainties

Information about judgements made in applying accounting policies, assumptions and estimation uncertainties that have the most significant effects on the amounts recognized / significant risk resulting in a material adjustment in the financial statements is included in the following notes:

Note 3.3 – Estimation of useful life used by the management for property, plant and equipment and intangible asset

Note 44 – Measurement of defined benefit obligations: key actuarial assumptions

Note 35 – Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources

Note 38 – Lease classification

Note 34 – Estimation of current tax expense and tax payable

Note 34 – Recognition of deferred tax asset

Note 11 – Impairment of Trade Receivables

2.5 Measurement of fair values

A number of accounting policies and disclosures require the measurement of fair values, for both financial and non - financial assets and liabilities.

The Company has an established control framework with respect to measurement of fair values. The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

The established framework is reviewed and monitored by the Chief financial officer, which includes the responsibility for reviewing and monitoring all significant fair value measurements, including level 3 fair values. Chief financial officer regularly reviews significant unobservable inputs and valuation adjustments.

Significant valuation issues are reported to the Company's Board of Directors.

Fair values are categorized into different levels in a Fair value hierarchy based on inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2020 (Contd.)

Level 2: inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or liability, the Company uses observable market data as far as possible. If the inputs used to measure fair value of asset or liability fall into different levels of fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in following notes:

Note 48 – Financial Instruments – Fair Value

Note 46 – Employee Shared based payment

- b) it is held primarily for the purpose of being traded;
- c) it is expected to be settled within 12 months after the reporting date; or
- d) The Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non - current financial liabilities. All other liabilities are classified as non - current.

Deferred tax assets and liabilities are classified as non - current assets and liabilities.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. The operating cycle of the Company is less than 12 months.

2.6 Current - non - current classification

The Company presents assets and liabilities in the balance sheet based on current / non - current classification.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- a) it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle,
- b) it is held primarily for the purpose of being traded,
- c) it is expected to be realized within 12 months after the reporting date, or
- d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include current portion of non - current financial assets. All other assets are classified as non - current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- a) it is expected to be settled in the Company's normal operating cycle;

2.7 Impact of COVID - 19

The Company has considered the possible impact that may arise from COVID - 19, a global pandemic, on the carrying amount of its assets including inventory and receivables. In developing the assumptions relating to the impact of possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial results has used internal and external sources of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

3. Significant accounting policies

3.1 Foreign Currency transaction

Transaction in foreign currencies are translated into the functional currency of the Company at the exchange rates on the date of the transaction or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non - monetary assets and liabilities denominated in a foreign currency are translated into functional currency at the exchange rate when the fair value was determined. Non - monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of transaction.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2020 (Contd.)

Exchange difference are recognised in profit and loss, except exchanges differences arising from the translation of the qualifying cash flow hedges to the extent the hedges are effective, which are recognized in Other Comprehensive Income (OCI).

3.2 Financial Instrument

i. Recognition and initial measurement

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

ii. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at

- Amortised cost;
- Fair value through profit and loss (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets (except for derivative contract assets) not measured at amortised cost as described above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be

measured at amortised cost as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purpose of this assessment, 'principal' is defined as the fair value of financial asset on initial recognition. 'Interest' is defined as consideration for time value of money and for credit risk associated with the principal amount outstanding during a particular period of time and other basic leading risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount and timing of cash flows;
- term that would adjust the contractual rate, including variable interest rate features;
- prepayment and extension features; and
- term that limits the Company's claim to cash flows for specified assets (e.g. non - recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amount of principal and interest on principal amount outstanding, which may include reasonable additional compensation for early termination of contract. Additionally, for a financial asset acquired on a significant premium or discount to its contractual par amount, a feature that permits or require prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is significant at initial recognition.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2020 (Contd.)

Financial assets: Subsequent measurement gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss. However, refer note 48 and 49 for derivatives designated as hedging instruments.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held – for – trading or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss. Refer note 48 and 49 for financial liabilities designated as hedging instrument.

iii. Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified

terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

iv. Offsetting

Financial assets and financial liabilities are offset and the net amount is presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

v. Derivative financial instrument and hedge accounting

The Company holds derivative financial instruments to hedge its foreign currency and interest rate risk exposures.

Derivatives are initially measured at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are generally recognized in profit or loss.

The Company designates certain derivatives as hedging instruments to hedge the variability in cash flows associated with highly probable forecast transactions arising from changes in foreign exchange rates and interest rates.

At inception of designated hedge relationships, the Company documents the risk management objective and strategy for undertaking the hedge. The Company also documents the economic relationship between the hedged item and the hedging instrument are expected to offset each other.

Cash flow hedges

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in OCI and accumulated in other equity under 'effective portion of cash flow hedges'. The effective portion of changes in the fair value of the derivative that is recognized in

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2020 (Contd.)

OCI is limited to the cumulative change in fair value of the hedge item, determined on a present value basis, from inception of the hedge. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in profit or loss.

When the hedged forecast transaction subsequently results in the recognition of a non - financial item such as inventory, the amount accumulated in other equity is included directly in the initial cost of the non - financial item when it is recognised. For all other hedged forecasted transaction, the amount accumulated in other equity is reclassified to profit or loss in the same period or periods during which the hedged expected future cash flows affect profit or loss.

If a hedge no longer meets the criteria for hedge accounting or the hedge instrument is sold, expires, is terminated or is exercised, then hedge accounting is discounted prospectively. When hedge accounting for cash flow hedges is discontinued, the amount that has been accumulated in other equity remains there until, for a hedge of a transaction resulting in recognition of a non - financial item, it is included in the non - financial item's cost on its initial recognition or, for other cash flow hedges, it is reclassified to profit or loss in the same period or periods as the hedge expected future cash flow affect profit or loss.

If the hedge future cash flow is not expected to occur, then the amounts that have been accumulated in other equity are immediately reclassified to profit or loss.

3.3 Property, Plant and Equipment

i. Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non - refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

ii. Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

iii. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight - line method and is generally recognized in the statement of profit and loss.

The estimated useful lives of item of property, plant and equipment for the current and comparative periods are as follows:

Category of asset	Useful life followed (in years)	Useful life as per Schedule II (in years)
Factory Building	30	30
Electrical installations	10	10
Plant and equipment	15	15
- Form Plate	2	15
Office equipment	5	5
Furniture & Fixtures	10	10
Vehicle	10	10
Computers	3	3
- Server	6	6
- Printer	5	3
Lab Equipment	10	10

Depreciation method, useful lives and residual values are reviewed at each financial year - end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represents the period over which the management expects to use these assets.

Assets installed on leasehold premises are depreciated over the period of lease. Freehold land is not depreciated.

Depreciation on additions (disposals) during the year is provided on a pro - rata basis i.e. from (up to) the date on which asset is ready for use (disposed of).

3.4 Intangible assets

Intangible assets are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortization and any accumulated

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2020 (Contd.)

impairment losses. Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in profit or loss as incurred.

Amortization is calculated to write off the cost of intangible assets less their estimated residual value over their estimated useful lives using straight line method and is included in depreciation and amortization in Statement of Profit and Loss.

The estimated useful lives are as follows:

Asset	Estimated useful life
Computer Software	5 years

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

3.5 Inventories

The cost of inventory is based on weighted average formula, and includes expenditure incurred in acquiring the inventories, production or conversion cost and other costs incurred in bringing them to their present location and condition. In case of manufactured inventory and work - in - progress, cost includes an appropriate share of fixed production overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expense. The net realizable value of work - in - progress is determined with reference to the selling price of related finished products. The comparison of cost and net realizable value is made on an item - by - item basis.

Raw materials, components and other supplies held for use in production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of finished products will exceed their net realizable value.

3.6 Impairment of financial instruments

The Company recognizes loss allowances for expected credit losses on financial assets measured at amortised cost. At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit impaired. A financial asset is 'credit - impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit - impaired includes the following observable data:

- significant financial difficulty of the customer or issuer;
- a breach of contract such as a default or being past due for 180 days or more;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the customer will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties.

Measurement of expected credit loss

The Company measures loss allowances at an amount equal to lifetime expected credit losses. Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. The maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward - looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 90 days past due.

The Company considers a financial asset to be in default when:

- the customer is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realizing security (if any is held); and
- the financial asset is 180 days or more past due.

Expected credit losses are a probability - weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive). Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2020 (Contd.)

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write – off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

3.7 Impairment of non - financial assets

Intangible assets that have an indefinite useful life and not subject to amortization are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount might not be recoverable. An impairment loss is recognized for the amount by which the assets carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which they are separately identifiable cash inflows for which are largely independent of the cash inflows from other assets or group of assets (cash - generating units). Non - financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

3.8 Employee benefits

i. Short - term employee benefits

Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

ii. Defined contribution plans

A defined contribution plan is a post - employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

iii. Defined benefit plans

A defined benefit plan is a post - employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified independent actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefit available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'). In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The Company determines the net interest expense (income) on the net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of the plan are changed or when plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognizes gain and losses on the settlement of a defined benefit plan when the settlement occurs.

iv. Other long - term employee benefits

The Company's net obligation in respect of other long - term employee benefits (compensated absences) is the amount of future benefit that employees have earned in return for their service in the current and prior periods, that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The obligation is measured on the basis of

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2020 (Contd.)

an annual independent actuarial valuation using the Projected Unit Credit method. Remeasurements gains or losses are recognised in profit or loss in the period in which they arise.

v. Employee Shared based payment

Specified employees of the Company were eligible for equity settled stock options under Preferred Brand Inc.'s ('PBI Inc.' or the Holding Company's) 2009 Non - Qualified Stock Option and Equity Plan ('the Equity Plan'). However, during the year 2015 a value pool agreement was entered into, by and between PBI Inc., the Company and the holders of outstanding options ('Holders'), wherein PBI Inc. and the Holders agreed to cancel the Options and terminate the Grant Agreements in exchange for a consideration payable by PBI Inc. in lieu of such cancellation of unvested options to the employees of the Company.

In accordance with Ind - AS 102, the classification of the share - based payment transaction depends on the nature of the award granted and whether the entity has an obligation to settle the transaction and if the entity has either an obligation to settle in its own equity instruments or no obligation to settle at all, then the transaction is accounted as Equity Settled. Since, the Company does not have any obligation to reimburse corresponding cost of share - based payment transaction to PBI Inc., it has classified the settlement as Equity Settled.

Since the amount of cash payment is pre - determined by the Holding Company based on the Value Pool agreement and the employees covered were specifically mentioned in the said agreement, the Company is of the view that the share based payment shall be measured at such amount agreed since the Company does not have any separate obligation towards the settlement.

3.9 Revenue

i. Sale of goods

The Company has applied Ind AS 115: Revenue from Contracts with Customers which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised.

Revenue from sale of goods is recognised when control of the products being sold is transferred to the customer and when there are no longer any unfulfilled obligations. The performance obligations in customer contracts are fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on customer terms. Revenue is measured at fair value

of the consideration received or receivable, after deduction of any discounts or rebates and any taxes or duties collected on behalf of the government such as goods and services tax. Accumulated experience is used to estimate the provision for such discounts and rebates. Revenue is only recognised to the extent that it is highly probable a significant reversal will not occur. Customers do not have a contractual right to return goods.

ii Export incentive

Export incentives are recognised when the right to receive credit as per the terms of incentives is established in respect of the exports made and when there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds. Under Ind AS 115, income from export incentive schemes is presented as Other non - operating income as the same is not receivable from customers.

3.10 Recognition of interest income or expense:

Interest income is recognised using effective interest method. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of financial instrument to:

- The gross carrying amount of the financial assets; or
- The amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the assets (when asset is not credit - impaired) or to the amortised cost of the liability. However, for financial asset that have become credit - impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of financial asset.

3.11 Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Transition to Ind AS 116

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on - balance sheet lease accounting model for lessees.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2020 (Contd.)

The Company has adopted Ind AS 116 - Leases effective 1 April 2019, using the modified retrospective method. The Company has applied the standard to its leases with the cumulative impact recognized on the date of initial application (1 April 2019). Accordingly, previous period information has not been restated.

The Company's lease asset classes primarily consist of leases for Buildings. The Company assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- the contract involves the use of an identified asset
- the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and leases of low value assets. For these short-term and leases of low value assets, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

On application of Ind AS 116, the nature of expenses has changed from lease rent in previous periods to depreciation cost for the right-to-use asset, and finance cost for interest on lease liability.

Please refer Note 6B for details of the right-of-use asset held by the company.

3.12 Income tax

Income tax comprises current and deferred tax. It is recognised in the Statement of Profit and Loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income.

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax is also recognised in respect of carried forward tax losses and tax credits only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets - unrecognized or recognized, are reviewed at each reporting date and are recognised / reduced to the extent that it is probable / no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2020 (Contd.)

3.13 Provisions and contingencies

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

Contingencies

Provision in respect of loss contingencies relating to claims, litigations assessment, fines, penalties etc. are recognised when it is probable that a liability has been incurred, and the amount can be estimated reliably. Where no reliable estimate can be made as to the outcome of an event, a disclosure is made as contingent liability. Contingent assets are not recognised in the accounts.

3.14 Borrowing cost

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

Preference shares, which are mandatorily redeemable on a specific date, are classified as liabilities. The dividends on these preference shares are recognised in profit or loss as finance costs.

3.15 Research and development expenditure

Revenue expenditure on research and development are recognised as an expense in the period in which they are incurred.

3.16 Earnings per share

The basic earnings per share is computed by dividing the net profit attributable to equity shareholders for the period by the weighted average number of equity shares outstanding during the year.

The diluted earnings per share is computed by dividing the net profit attributable to equity shareholders for the year by the weighted average number of equity and equivalent potential dilutive equity shares outstanding during the year, except where the result would be anti-dilutive.

3.17 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

3.18 Cash flow statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

4. Changes in significant accounting policies

There have been no changes in accounting policies during the Financial year 2019-20, except for implementation of Ind AS 116 as described in point 3.11 of accounting policy.

5. Standard issued but not effective

The Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There are no such notifications which would be applicable from 1 April 2020.

Nature and purpose of reserve and surplus and items of other comprehensive income

Securities premium reserve

Securities premium is used to record the premium received on issue of shares. It is utilised in accordance with the provisions of the Companies Act, 2013.

Capital reserve

Capital reserve is created for government subsidies and other liabilities.

Employee share based payment reserve

Employee share based payment reserve is created in accordance with Ind AS 102 consequent to the value pool agreement between PBI Inc., the Company and the holders of the outstanding options. Refer Note 46 - Employee shared based payment.

Cash Flow Hedge Reserve, net of tax

Change in fair value of hedge instruments are hedging instruments used by Company as a part of its management of foreign risk associated with its highly probable forecast sale. For hedging foreign currency risk and interest rate risk the Company uses foreign currency forward contract and interest rate swaps respectively, both of which are designated as cash flow hedges.

Remeasurement of defined benefit obligation (asset), net of tax

Remeasurements of defined benefit liability (asset) comprises actuarial gains and losses and return on plan assets (excluding interest income).

In assessing the realizability of deferred tax assets, the Company considers the extent to which it is probable that the deferred tax asset will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry - forwards become deductible. The Company considers the expected reversal of deferred tax liabilities, projected future taxable income, tax planning strategies and impact of other marketing conditions including COVID - 19 in making this assessment.

Based on this, the Company believes that it is probable that the Company will realize the benefits of these deductible differences. The amount of deferred tax asset considered realizable, however, could be reduced in the near term if the estimates of future taxable income during the carry - forward period are reduced.

Note 35 (a)

Income tax demand comprise demand from the Indian tax authorities, upon completion of their tax review for the assessment years 2008-09 and 2014-15. The tax demands are mainly on account of certain transfer pricing adjustments of expenses claimed by the Company under the Income Tax Act. The matters are pending before the ITAT.

Vivad se Vishwas Scheme

The Vivad se Vishwas (VsV) Scheme was announced during the Union Budget, 2020, to provide for dispute resolution in respect of pending income tax litigation. The objective of Vivad se Vishwas is to inter alia reduce pending income tax litigation and benefit taxpayers by providing them peace of mind, certainty and savings on account of time and resources that would otherwise be spent on the long - drawn and vexatious litigation process.

The company is currently assessing whether to opt for Vivad se Vishwas scheme for its pending Income Tax case pertaining to AY 2006-07. In case the company opts for VsV scheme, additional tax liability of INR 1.8 million will be recognised when the application is filed.

Excise duty demand comprise demand from the Central Excise authorities as on 31 March 2019 of INR 9.88 million. This litigation was pending before Central Excise and Service Tax Appellate Tribunal ("CESTAT") in previous year. During FY 2020 the CESTAT has ruled in favour of the company and has dismissed the said demand.

Custom duty demand comprise demand from the Office of the Commissioner of Custom of INR 14.77 million (31 March 2019: INR 14.77 million). The tax demands are mainly related to benefit received by the Company under Vishesh Krishi and Gram Udyog Yojana (VKGUY), which as per Department's contention, have been availed under incorrect and inadmissible notification. Management is of the view that such benefits are admissible and cannot be denied only because of incorrect mentioning of the notification. This litigation is pending before CESTAT.

The Company is contesting the demands and the management believes that its position will likely be upheld in the appellate process. The management believes that the ultimate outcome of these proceeding will not have a material adverse effect on the Company's financial position and results of operations.

Pending resolution of the respective proceedings, it is not practicable for the Company to estimate the timings of the cash flow, if any, in respect of the above as it is determinable only on receipt judgements / decision pending with various forums / authorities.

The Company has reviewed all its pending litigations and proceedings and has adequately provided for where the provision is required and disclosed as contingent liabilities where applicable, in its financial statements.

Note 35 (b)

Based on the Supreme Court judgement dated 28 February 2019, the Company has reassessed the components to be included in basic salary for the purpose of employer's contribution towards Provident Fund. However, there has been no corresponding amendment in the Act or Scheme framed under the Provident Fund Act, consequent to Supreme Court judgement. Management does not expect the Supreme Court decision to have any significant impact on the Company's financial position as at 31 March 2020.

38. Leases

Transition to IND AS 116

The Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on - balance sheet lease accounting model for lessees.

The Company has adopted Ind AS 116, effective annual reporting period beginning 1 April 2019 and applied the standard to its leases, using the modified retrospective approach whereby an ROU asset of INR 97.42 million was recognized on transition date equivalent to the Lease Liability of INR 97.42 million. A weighted average incremental borrowing rate of 8.30% was applied for recognition of lease liabilities on the date of transition. There is no impact on the Opening Reserves as of 1 April 2019 and the Company has not restated comparative information.

38. Leases (Contd.)

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments made during FY 20 have been classified as financing cash flows. During FY 19, lease payments were reported as operating activities. Accordingly, as of 31 March 2020, a right - of - use asset (net) of INR 87.19 million and a corresponding lease liability of INR 91.29 million has been recognized on the Balance Sheet. On application of Ind AS 116, the nature of expenses has changed from lease rent in FY 19 to depreciation for the right - of - use asset and finance cost for interest on the lease liability in FY 20.

For transition, the Company has elected not to apply the requirements of Ind AS 116 to leases which are expiring within 12 months from the date of transition by class of asset and leases for which the underlying asset is of low value on a lease - by - lease basis.

40. Capital management

A business objective of the Company is to sustain the strongest possible equity base in order to foster confidence in all key stakeholders and promote the Company's onward development. A sound equity base is also a key factor in ensuring a stable risk rating with lenders, which is important for obtaining acceptable borrowing terms for the Company. The Board of Directors and the shareholders of the Company ensure a responsible dividend policy and an appropriate return on invested capital to promote value growth and safeguard the Company's future.

The Board of Directors of the Company are kept informed about the equity position of the Company as part of quarterly reporting. Measures are implemented as necessary, taking the tax and legal frameworks into account, to sustain an appropriate capital base that enables the Company to attain operating targets and to meet the strategic goals.

42. Transfer pricing regulations

The Company has established a comprehensive system of maintenance of information and documentation as required by the transfer pricing legislation under section 92 - 92F of the Income Tax Act, 1961. The Company is in process of preparing related documentation for the financial year 2019-2020.

The management is of the opinion that its international transactions are at arm's length such that the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expense and that of provision for taxation.

43 Segment Information

A. Business Segments

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components, and for which discrete financial information is available. The Company recognizes its sale of Prepared Foods activity as its only primary business segment since its operations predominantly consist of manufacture and sale of Prepared Foods to its customers. The 'Chief Operating Decision Maker' monitors the operating results of the Company's business as single segment. Accordingly in context of 'Ind AS 108 - Operating Segments' the principle business of the Company constitute a single reportable segment.

B. Information about major customers

Revenue from one of the customers of the Company's single segment i.e. Prepared Foods is INR 2,104.76 million (2019: INR 2,027.01 million) which is more than 10 percent of the total revenue for the year ended 31 March 2020 and 31 March 2019.

For details about the related employees benefit expenses (including those of Defined Contribution Plan), see Note 30

The Company operates the following post employment benefit plans:

The Company has a defined benefit plan, governed by the Payment of Gratuity Act, 1972. Benefit plan entitles an employee, who has rendered at least five years of continuous service, to gratuity at the rate of fifteen days for every completed year of service or part thereof in excess of six months, based on the rates of wages last drawn by the employee concerned.

The defined benefit plan for gratuity is administered and funded through Tasty Bite Employees Gratuity Trust.

These defined benefit plans expose the Company to actuarial risk, such as longevity risk, interest rate risk, market (investment) risk and salary increment risk.

A. Funding

Gratuity Plan is funded by the Company. The funding requirements are based on the gratuity fund's actuarial measurement framework set out in the funding policies of the plan. The funding of Gratuity Plan is based on separate actuarial valuation for funding purposes for which assumption may differ from the assumptions set out in (E). Employees do not contribute to the plan.

The Company expects to pay INR 7 million as contributions to its defined benefit plans in 2020 - 2021.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2020 (Contd.)

(Currency - INR in Million, except per share data)

44. Assets and liabilities relating to employee benefits (Contd.)

Assumptions regarding future mortality are based on published statistics and mortality tables (i.e. India Assured Live Mortality (2012-14))

At 31 March 2020, the weighted average duration of the defined benefit obligation is 11 years

ii. Disclosure related to indication of effect of the defined benefit plan on the entity's future cash flows (valued on undiscounted basis):

Payout in the next	31 March 2020	31 March 2019
1 year	1.18	4.41
2 to 5 years	17.94	20.85
6 to 10 years	27.58	26.86
More than 10 years	110.32	38.04

iii. Sensitivity Analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amount shown below:

Effect in INR MN	31 March 2020		31 March 2019	
	Increase	Decrease	Increase	Decrease
Discount rate (1% movement)	(6.48)	7.62	(3.45)	3.14
Future salary growth (1% movement)	7.39	(6.40)	3.09	(3.47)
Attrition rate (50% movement)	(0.40)	0.46	(0.88)	0.37
Mortality rate (10% movement)	(0.02)	0.00	(0.35)	(0.35)

Note: Sensitivity Analysis in relation to Discount Rate, Salary Growth, Attrition Rate and Mortality Rate as shown above comprise of Increase and decrease from the value of defined benefit obligation as disclosed in note 44(B) above.

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2020 (Contd.)

(Currency - INR in Million, except per share data)

46. Employee share based payment

a) Background:

Specified employees of the Company were eligible for equity settled stock options under Preferred Brand Inc.'s ('PBI Inc.' or the Holding Company's) 2009 Non - Qualified Stock Option and Equity Plan ('the Equity Plan'). However, during the year 2015 a value pool agreement was entered into, by and between PBI Inc., the Company and the holders of outstanding options ('Holders'), wherein PBI Inc. and the Holders agreed to cancel the Options and terminate the Grant Agreements in exchange for a consideration payable by PBI Inc. in lieu of such cancellation of unvested options to the employees of the Company.

The details of such aggregate consideration was as below:

Payout date	Consideration payable (Amount in USD)
01-Apr-16	\$53,184
01-Apr-17	\$44,070
01-Apr-18	\$76,970

b) Conditions:

The consideration is payable only to those Holders who continue their employment with the Company on such dates. Any payments forfeited shall be credited to a segregated account of the Company and on 1 April 2020 shall be allocated and paid pro - rata among the Holders and each other Holder who is employed by the Company.

c) Classification of share based payments:

In accordance with Ind - AS 102, the classification of the share - based payment transaction depends on the nature of the award granted and whether the entity has an obligation to settle the transaction and if the entity has either an obligation to settle in its own equity instruments or no obligation to settle at all, then the transaction is accounted as Equity Settled. Since, the Company does not have any obligation to reimburse corresponding cost of share based payment transaction to PBI Inc., it has classified the settlement as Equity Settled.

d) Expense recognized in the Statement of Profit and Loss:

Particulars	31 March 2020	31 March 2019
Share based payment	-	10.90

e) Measurement of settlement:

Since the amount of cash payment is pre - determined by the Holding Company based on the Value Pool agreement and the Employee covered were specifically mentioned in the said agreement, the Company is of the view that the share based payment shall be measured at such amount agreed since the Company does not have any separate obligation towards the settlement. Accordingly, the details of the fair value and the inputs used in the measurement of the grant - date fair values are not required. Further, since the aggregate amount payable is pre - determined and any payments forfeited shall be allocated and paid pro - rata among the Holders who are in employment with the Company; details such as reconciliation of outstanding share options, weighted average etc. are not applicable.

The liabilities as at 31 March 2018 were settled by PBI Inc. during the year ended 31 March 2019.

Refer note 26 for Revenue from operations.

Performance obligations

The Company satisfies its performance obligations pertaining to the sale of products at a point in time when the control of goods is actually transferred to the customers. The control of goods is transferred to the customer based on the delivery terms as follows:

Terms of sale	Transfer of control
Domestic sales	
Ex works	On dispatch
Door delivery	When goods are handed over to the customer
Export sales	On the date of bill of lading

No significant judgment is involved in evaluating when a customer obtains control of the promised goods. The payment is generally due within 30-60 days. There are no obligations on account of refunds or returns.

Disclosure for transaction price allocated to the remaining performance obligations

There is no remaining performance obligation for any contract for which revenue has been recognised till period end. Further, in accordance with paragraph 121 of Ind AS 115, the Company is not required to disclose information about its remaining performance obligation since the Company does not have any performance obligation that has an original expected duration of more than one year.

Determining the timing of satisfaction of performance obligations

There is no significant judgement involved in ascertaining the timing of satisfaction of performance obligations, in evaluating when a customer obtains control of promised goods, transaction price and allocation of it to the performance obligations.

Determining the transaction price and the amounts allocated to performance obligations

The transaction price ascertained for the single performance obligation of the Company (i.e. Sale of goods) is agreed in the contract with the customer. There is no variable consideration involved in the transaction price.

Details of contract balances:

There are no contract assets as at 31 March 2020 and 31 March 2019. Refer note 11 for information on trade receivables.

*Financial assets and liabilities such as trade receivables, employee dues, cash and cash equivalent, bank balance other than cash and cash equivalents, security deposits, interest accrued on fixed deposits, borrowing, trade payables, deposits from dealers, unclaimed dividend, Other payables etc. are largely short - term in nature. The fair values of these financial assets and liabilities approximate their carrying amount due to the short - term nature of such assets and liabilities.

**Also refer Note 2.5

B. Measurement of fair value

Specific valuation technique used to value financial instruments include:

- The use of quoted market price or dealer quotes of similar instruments
- the fair value of interest rate swaps is calculated at the present value of the estimated future cash flows based on observable yield curves
- the fair value of forward foreign exchange contracts and principle swap is determined using forward exchange rates at the balance sheet date
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis

All of the resulting fair value estimates, where the fair values have been determined based on present values and the discount rates used were adjusted for counterparty or own credit risk

49. Financial instruments - Risk Management

A. Financial risk management

The Company has exposure to the following risk arising from financial instruments:

- credit risk (see (ii) below);
- liquidity risk (see (iii) below); and
- market risk (see (iv) below).

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2020 (Contd.)

(Currency - INR in Million, except per share data)

49. Financial instruments - Risk Management (Contd.)

i. Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors have established a Risk Management Framework, which is reviewed and monitored by the Chief Financial Officer (CFO). The CFO reports regularly to the board of directors.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and established procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's Audit Committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by internal auditors. Internal auditors undertake regular reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

ii. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or a counterparty to a financial instrument fails to meet its contractual obligation, and arises principally from the Companies receivable from customer and loans, if any.

The carrying amounts of financial asset represents the maximum credit risk exposure.

Trade receivables are typically unsecured and are derived from revenue earned from customers located in India and outside India. Credit risk is managed by a periodic review of amounts outstanding from customers by treasury head and the chief financial officer. On account of adoption of Ind AS 109, the Company uses expected credit loss model to assess the impairment loss or gain. The Company computes the expected credit loss allowance for trade receivables based on available external and internal credit risk factors such as the ageing of its dues, market information about the customer, industry information and the Company's historical experience for customers.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate.

The Company limits its exposure to credit risk from trade receivables by establishing a maximum payment period for customers. Credit risk is also controlled by analysing credit limits and credit worthiness of customers on a continuous basis.

Refer Note 11 for the following information:

- Exposure to the credit risk for trade receivables by geographic region
- Exposure to the credit risk for trade receivables by type of counterparty (concentration of credit risk)
- Movement in the allowance for impairment
- Carrying amount of trade receivables (net of impairment)

Also refer note 3.6 for policy related to impairment

Cash and cash equivalent and bank balances other than cash and cash equivalent ('collectively referred as Bank balance')

The Bank balance is held with Banks. Credit risk on Bank balance is limited as the Company generally invest in deposits with banks with high credit ratings assigned by domestic credit rating agencies. Bank balances comprising current accounts are maintained with banks with high credit ratings assigned by credit rating agencies.

iii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2020 (Contd.)

(Currency - INR in Million, except per share data)

49. Financial instruments - Risk Management (Contd.)

The Company's treasury department is responsible for liquidity and funding. The Company manages its liquidity risk by continuously monitoring its working capital and by preparing month on month cash flow projections to monitor liquidity requirements.

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company believes that the working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived. The Company aims to maintain the level of its working capital at an amount in excess of expected cash outflows on account of financial liability over the next six months.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2020 (Contd.)

49. Financial instruments - Risk Management (Contd.)

iv. Market risk

Market risk is the risk that changes in market prices - such as foreign exchange rates and interest rates, will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Company is exposed to foreign exchange risk through purchases from overseas suppliers and sales to overseas customers in various foreign currencies. The Company uses derivatives to manage market risk. All such transactions are carried out within the guidelines set by the Company. Generally, the Company seeks to apply hedge accounting to manage volatility in profit or loss.

A) Currency risk

The Company is exposed to currency risk to the extent that there is a mismatch between the currencies in which sales, purchases and borrowings are denominated and the functional currency (INR) of the Company. The primary exposure of the company is in US Dollars (USD) and British Pounds (GBP).

The Company uses forward exchange contracts to hedge its currency risk, most with a maturity of less than one year from the reporting date. Such contracts are generally designated as cash flow hedges. At any point of time, the Company hedges 80% of its estimated foreign currency exposure in respect of forecasted sales.

Exposure to currency risk

The summary of quantitative data about the Company's exposure to currency risk as at reporting date is as follows:

Sensitivity analysis

A reasonably possible strengthening (weakening) of the US Dollar and other currencies against INR at 31 March would have affected the measurement of financial instruments denominated in foreign currency and affected equity and profit or loss by the amounts shown below. The analysis assume that all other variables as remain constant other than change in foreign currency rate to INR.

1 % increase or decrease in foreign currency rate will have following impact on profit before tax:

(Currency - INR in Million, except per share data)

B) Interest Rate risk

The Company adopts the policy of ensuring that between 80% and 90% of its interest rate risk exposure on its non - current borrowings is at a fixed rate. This is achieved partly by entering into fixed - rate instruments and partly by borrowing at floating rate and using interest rate swaps as hedges of the variability in cash flows to interest rate risk. Interest rate risk related to External Commercial Borrowings have been fully hedged using forward contracts on same dates as the loan are due for repayment.

Impact of COVID - 19

The Company based on an internal assessment believes that the probability of the occurrence of their highly probable forecasted transactions is not significantly impacted by the COVID - 19 pandemic. The Company has also considered the effect of changes, if any, in both counterparty credit risk and own credit risk while assessing hedge effectiveness and measuring hedge ineffectiveness. The Company continues to believe that there is no impact on effectiveness of its hedges.

D) Other Risks

Financial assets carried at amortized cost as at 31 March 2020 is INR 651.48 million (2019: INR 465.84 million).

The Company has assessed the counterparty credit risk in connection with Cash and cash equivalents and Other bank balances amounting to INR 77.58 million as at 31 March 2020.

Trade receivables amounting to INR 571.15 million as at 31 March 2020 are valued at considering provision for allowance under the expected credit loss method. In addition to the historical pattern of credit loss, the Company has considered the likelihood of increased credit risk considering emerging situations due to the COVID - 19 pandemic. This assessment is based on the likelihood of the recoveries from the customers in the present situation. The Company closely monitors its customers who are going through financial stress and assesses actions such as change in payment terms, recognition of revenue on collection basis etc., depending on severity of each case.

Based on this internal assessment, the allowance for doubtful trade receivables is considered adequate.
