ANNEXURE B TO THE DIRECTORS' REPORT MANAGEMENT DISCUSSION AND ANALYSIS (2015-2016)

1) INDUSTRY STRUCTURE & DEVELOPMENT, BUSINESS OVERVIEW AND SUSTAINABLE GROWTH OPPORTUNITIES.

a) Ice Cream Division

Overview

India is the world's largest milk producer with an estimated annual production of more than 100 million tons of ice cream per year. Keeping up with the economy's quantum growth in recent years, the ice cream market has also set new records. The total Indian ice cream market is estimated at approx. Rs. 6000 crores with the organized sector estimated at Rs. 3500 crores.

An ice cream makes everything better; be it an everyday occasion or life's most precious moments. Our range of ice creams and frozen desserts have always fulfilled this promise by making these special moments even more beautiful. Our communication and positioning is now focusing on Millennials, making sure that we become 'The Best Part of Everyday'.

Increasing urbanization, rising disposable incomes and increasing 'out of home' food consumption coupled with the ever increasing availability of various foods in the markets close to residential areas are some of the reasons driving the ice cream segment.

The structure of the industry and the ongoing transformation offers ample and more opportunities for organized players to invest and grow. Vadilal's Ice Cream division has shown sustainable annual growth consistently and aims to maintain it further in the years to come.

Since inception, we have been committed towards delivering the best quality products at affordable prices to every customer. We are constantly working towards improving our products in terms of their nutritional profile and benefits.

Developments

The biggest development in 2016 has been the appointment of a brand ambassador for Vadilal Ice Creams. The famous movie actress - Parineeti Chopra has been chosen as the young new face of Vadilal Ice Creams and is all set to take the company to new heights of success.

Taking forward our tradition of introducing innovative products year on year, we have launched Badabite Select, rich chocolate bar covered with premium dark Belgian chocolate. Butterscotch flavor in Flingo, Indulge flavors in Party Pack, namely, Berry cake, Shahikalakand and Mango Choco as well as Cyclone in the Ice Trooper range.

Our new campaign for Badabite, Flingo & Gourmet with Parineeti Chopra has received a great response and high brand recall. Our Ice Trooper advertisement has also become very popular amongst children.

Along with newly launched flavours, our existing flavours and sub brands like Badabite, Flingo, Ice Trooper, Frootful Juices & Gourmet Tubs continue to show substantial movement in the market. The challenge of sustaining the innovation trend has been met by introducing new variants in these brands regularly.

As multinational ice cream brands enter India, it has become imperative for us to reinvent our strategy to consolidate our leadership. We have always endeavored to offer innovative products to the consumers and are proud of the fact that there are many products which have been introduced by us in the Indian market that have gone ahead to become regular products for all ice cream manufacturers.

The overall consumer awareness and size of the premium ice cream segment has increased with the entry of international brands in India. Following these developments, we have also launched many variants in the premium segment like ice cream bars, ice cream sandwiches, ice cream cakes, etc. under the brand name Artisan.

With an upgrade in production technology, it has become more feasible for us to offer premium and innovative products in the market. Our Ice Trooper range, launched in 2012, continues to lead the kids segment and has become a favorite across India.

New mega brands, installation of state-of-the-art machines and significant expansion in production facilities will combine to make us an even stronger force to reckon with in the domestic ice-cream market. Vadilal is the largest player in the Cones, Cups and Candies categories.

Vadilal has started exclusive parlors in two formats: Scoop Shop and Hangout. These formats offer a contemporary trendy range of Premium Ice Creams and Concoctions in a very chic ambience. The purpose of launching these two formats is to present the brand in a very contemporary and modern way. It is in line with our efforts towards shifting the brands focus from mass to mass premium.

Vadilal has two ice cream production facilities – one at Pundhra in Gandhinagar district, Gujarat and the other at Bareilly in Uttar Pradesh. To increase the production capacity and to have better automation, we had undertaken expansion-cum-modernisation projects at the factories, which has been successfully completed.

Vadilal has won 27 awards over 4 consecutive years: 2008 to 2011 at ₹The Great Indian Ice Cream Contest' organized by the Indian Dairy Association. The various categories for awards were: The Best in Class (3): Chocolate Frozen Dessert, Standard Chocolate Ice Cream, Rose Coconut Shell (Innovation – Novelty) Gold Medal (4): Standard Chocolate Ice Cream, Chocolate Frozen Dessert, Vanilla Frozen Dessert and Rose Coconut Shell (Innovation – Novelty), Bronze Medal (1) Natural Orange (Premium without Inclusion). Best in Class in Kids category – Joker Ice Trooper, Gold in Kids category – Joker Face Ice Trooper, Silver in Vanilla Frozen Dessert. Bronze in Vanilla Ice Cream – Happinezz Vanilla Ice cream. Bronze in Premium – PistaHappinezz Ice Cream garnished with Green Pista.

Vadilal Ice Creams has been voted as the ₹Most Trusted Ice Cream Brand in India' as per the The Brand Trust Report - 2013. The Economic Times Survey ranked us among the ₹Top 20 Food and Beverages Brands in India'.

Apart from ice creams, Vadilal is also aggressively expanding in categories which offer value chain benefits and show a strong growth potential. Vadilal already has strong backward integration with the farmer community for milk procurement for ice creams at its plant near Ahmedabad. Taking the relationship further, Vadilal has recently forayed in the flavoured milk segment under the brand name "Power Sip". Power Sip comes in a uniquely shaped bottle ensuring a proper grip for the customer and is available in flavors like "Kesar", "Elaichi", "Rose", and "Badam". Other flavors are under development at the R&D department.

b) Processed Food Division

OVERVIEW:

Food undoubtedly is one of the most liked subjects among everyone. It tempts an individual by its look, aroma, taste and it also tempts marketers by its sheer lucrative values as a business. However, for organizations operating in the food industry, the path to success has never been easy.

The food industry has seen a lot of dynamism, as contributing elements like food suppliers, manufacturers, and retailers constantly strive to adapt themselves as per the consumer needs. The consumer on the other hand has become more demanding in terms of product range and quality. The retail-food sector is constantly working on innovations and newer format to keep the consumers' expectation fulfilled in terms of variety, affordability, safety, and quality. There has been an increase in the number of convenience and grocery stores apart from supermarkets and hyper markets. Moreover, this trend has been seen not only in India, but is witnessed globally.

Vadilal processed food division has been going aggressive with a focused approach of widening the product range i.e Vegetables, Indian Breads, Snacks, Curries and Paneer. A product range this strong and varied will help the brand to penetrate deeper in the existing markets and will also help in tapping the newer markets and consumer segments.

GLOBAL MARKET VIEW:

Global food retail sales are about \$4 trillion annually, with supermarkets and hypermarkets accounting for the largest share of sales. Most of the leading global retailers are U.S. and European firms because, as large multinational retailers expand their presence in developing countries. The top 15 global supermarket companies account for more than 30 percent of world supermarket sales. With improved technologies and economies of size, these retailers enjoy operating cost advantages over smaller local retailers.

Similar to retailers, food manufacturers are reorienting their business strategies in response to consumer signals transmitted via retailers. Two common strategies are geographic expansion in developing countries and a greater emphasis on product category management. Although multinational manufacturers are rapidly expanding their operations, firm concentration in food manufacturing is not visible at the global level. Together, the top 50 food manufacturers' share of global packaged food retail sales account for less than 20 percent.

Growth opportunities:

Frozen food has been a well-accepted, tried and tasted phenomenon globally. However, with increasing 'lack of time' life style, now, the consumer wants everything that he/she likes in frozen form. Hence, the key to growth for a company is its capabilities to keep adding offerings in its product basket.

While non-vegetarian food has been sold in frozen form since long, vegetarian food still has a lot of potential. Apart from ready meals, breads (parathas, naans etc.), curries, there are lot many food items that are still not available at a large level. For example sweets, region specific foods are still to be explored by companies.

c) Forex Division

2) FUTURE STRATEGY

a) Ice-cream Division

Looking at the trends from the recent past, we foresee fast growth in the traditional “out of home food” category like ice creams and frozen desserts. However, along with the increasing demand for convenience, the continuing need for value as a trend is also growing. We plan to continue with the strategy of consolidating our presence in the high end premium segment. Earlier Vadilal was only focused on offering mass segment products. However, we have been able to increase our share in the premium segment as well and it has helped the overall growth.

Distribution definitely plays a key role in the success of our business. We are planning to increase our reach in the existing market in terms of consolidating our presence in Cash and Carry format as well as the Modern Retail segment. The logistics of ice cream, being a cold chain product, are complex and we are continuously expanding our cold chain distribution network through refrigerated vehicles and deep freezers.

We are working on increasing the physical touch points with our consumers with an ever-increasing network of dealers, FOWs (Freezer On Wheels), POWs (Parlour On Wheels), E-cart and Ice Cream parlours.

Along with various ATL campaigns, we also plan various BTL activities to enhance the consumer experience with Vadilal. We plan to organize innovative cross promotional activities and use the digital space actively for the same. We also plan to increase branding activity at the retail level.

The Company primarily focuses on increasing the ice cream consumption by continuously offering innovative products at affordable rates. The Company is committed to eliminate the barriers in availability of ice cream with expansion in distribution.

The overall vision of the company is to increase the consumption of ice-cream at the national level supported fully by appropriate promotion and communication strategies.

b) Processed Food Division

One of the most remarkable growth contributors will be the launch of Vadilal Ice creams in the international markets. With Initial introduction of a wide range of 14 flavours in tubs, stick Kulfis and dollies, the brand aspires to capture a good market within the Indian Diaspora internationally. The portfolio will be growing gradually.

5) RISKS AND CONCERNS

a) Ice Creams Division

For Vadilal, competition is not seen a risk. We track our competition closely in order to continuously innovate and make better products that will keep us a step ahead of our competitors. The Company has tackled competition successfully in the past and is capable of overcoming them efficiently in the future too. The market is flooded with new local and regional players with cheaper and shoddy product options but Vadilal, with its experience and expertise of over 8 decades of providing quality ice cream products, is well equipped to face such challenges. However, there are certain concerns like infrastructure and rising input costs, which the Company shall keep in mind.

b) Processed Food Division

The major concerns for the frozen food industry has been the same for over so many years, inadequate infrastructure, poor agricultural input management and semi-organized supply chain management have been the major bottle necks. Additionally increasing fuel puts an extra burden on the overall operational costs. The special requirement for transportation makes it even difficult to keep the costs low.

The frequent fluctuation of foreign currency, especially US Dollar with respect to Indian Rupee keeps the companies on worried every time.

Another major concern is the growing numbers of unorganized players from Indian and countries like China. These players are always focused on short term gains are only concerned about momentary sales. Hence, they disturb the market by offering rates that are below par as compared to market trends. This makes it difficult for the organized players to remain competitive in terms of rates despite of having far superior quality products.

The External and Internal Auditors carry out periodical reviews of the functioning and suggest changes if required. As per Clause 41 of the Listing Agreement, every listed company shall submit audited financial results within sixty days of the end of the financial year and the annual audited financial results shall be approved by the Board of Directors of the company i.e. on or before 30th May, 2015. VI. We further report that having regard to the compliance managing system prevailing in the Company and on examination of the relevant documents and records in pursuance thereof, on test-check basis, the Company has compliance management system for the sector specific laws applicable specifically to the Company:

During the period under review the Company has generally complied with the provisions of the Act, Rules, Regulations, Guidelines, mentioned hereinabove and there is adequate compliance management system for the purpose of other sector specific laws applicable to the Company. We have relied on the representations made by the Company and its officers for systems and mechanisms formed by the Company for compliances under other sector specific laws applicable to the Company and regulations applicable to the Company and verification of documents and records on test check basis.

However it has been inferred from the financials of the company that there were certain disputed statutory dues relating to taxes and duties not deposited by the company including Food safety Penalty imposed by Nayab Nirnayak Adhikari under Food Safety and Standards Act which have been shown in contingent liabilities at Note No. 27.1 against which appeals have been filed by the company as reported. The Company had made representation before various authorities by taking legal recourse as per advise of legal counsel from time to time in the matter of disputes under other commercial and tax laws.

The company has formed CSR Committee and as per section 135 (5) of The companies Act, 2013 the company is required to spend 2% of average net profit of the company made during the three immediately preceding financial years amounting to Rs. 13.10 lacs towards Corporate Social Responsibility as per CSR Policy. However it has been noted that the company has not spent any amount on CSR activities as required under the provisions of The Act during the year under report.

The company had preferred a petition before Company Law Board, Western region Bench u/s 74 of The Companies Act, 2013 for repayment of Public Deposits accepted prior to applicability of the Companies Act, 2013, as and when due i.e. till the date of its actual maturity period of the deposits which were falling beyond 31st March, 2015. However, we were given to understand that as per MCA circular/clarification, no such extension is required from Company Law Board and therefore, the company has filled an application for withdrawal of the petition. The outcome of withdrawal application is awaited.

Pursuant to provisions of section 73 (2)(c) of the Companies Act, 2013 read with Rule 13 of the Companies (Acceptance of Deposit Rules), 2014 the company was required to deposit such sum which shall not be less than 15% of the amount of deposits maturing during the financial year and financial year next following, and keep in a scheduled bank in a separate bank account to be called deposit repayment reserve account. However it is observed that there was short fall in depositing requisite amount as required under the provisions of the law.

Moreover, as per the information made available to us, the Company had made representation before various authorities by taking legal recourse as per advise of legal counsel from time to time in the matter of other litigations/disputes by and against the company under other commercial laws.

We further report that

- The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.
- Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.
- Majority decision is carried through while the dissenting members' views are captured and recorded as part of the minutes, wherever required.

We further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the audit period there were no specific events / actions having a major bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines, standards, etc.

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Vadilal Industries Limited** ("the Company") as of 31 March 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure - A to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Vadilal Industries Limited** ("the Holding Company and its associate which are companies incorporated in India") as of 31 March 2016 in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Holding Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to explanations given to us, Holding Company and its associate have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
