### MANAGEMENT DISCUSSION AND ANALYSIS (2017-2018)

#### 1) INDUSTRY STRUCTURE & DEVELOPMENT AND OUTLOOK.

##### a) Ice Cream Division

##### Overview

India is the largest producer and marketer of milk. It accounts for over 1/5<sup>th</sup> of the global milk production. This provides the ice cream industry with a large volume of raw material to manufacture ice creams. The ice cream market in India is forecast to exhibit a CAGR of 17.03% during 2016-2021. Keeping up with the economy's quantum growth in recent years, the ice cream market has also set new records. Today, the total organized Indian ice cream market is estimated at approx. ` 6000 crores.

An ice cream makes everything better, be it an everyday occasion or life's most precious moments. Vadilal's range of ice creams and frozen desserts have always fulfilled this promise by making these special moments even more beautiful.

Increasing urbanization, rising disposable incomes and increasing "out of home food" consumption coupled with the ever-increasing availability of various foods in the markets close to residential areas are some of the reasons driving the ice cream industry.

The structure of the industry and the ongoing transformation offer ample and more opportunities for organized players to invest and grow. Vadilal Ice Cream division has shown a sustainable annual growth and aims at maintaining it further in the years to come.

Since the inception of the company, Vadilal has been committed towards delivering the best quality products at affordable prices to every customer and to cater to every class of society with a diverse product range. Vadilal is constantly working towards improving their products in terms of their nutritional profile and benefits.

##### Developments

Taking forward the tradition of introducing innovative products at regular intervals, Vadilal has made numerous additions in 2017 including Special Occasion Ice Cream Tubs, Range of delicious Indian flavours under *Ocassionzz* ice cream tubs. This year, the company has revamped the entire brand identity by introducing a refreshed brand logo with a new template and packaging.

Our existing brands like Gourmet, Badabite, Flingo and Ice trooper continue to show substantial movement in the market. The challenge of sustaining the innovative trends has been confronted by introducing new variants like Badabite Select, Badabite Mango, Badabite Red Velvet, Flingo Belgian Chocolate, Chocolate cassatta, and Special *Occasionzz*.

As multi-national ice cream brands enter India, it has become imperative for the company to reinvent its strategy to consolidate its leadership. Vadilal has always endeavored to offer innovative products to the consumers and have been the pioneers in introducing products that have gone ahead to become regular products for all ice cream manufacturers in India.

The overall consumer awareness and the size of the premium ice cream segment has increased with the entry of international brands in India. Following these developments, we too have launched many variants in the premium segment like ice cream bars, ice cream sandwiches and Artisan ice cream cakes.

To break away from the clutter in a heavily-crowded retail environment, a new packaging template has been introduced this year to revamp and register our presence in the market.

With an upgrade to the production technology, it has become more feasible for us to offer premium and innovative products in the market.

Our Ice Trooper range continues to consolidate the kids' market and has become every kid's favorite across India. This year, a new variant called Double Spin has been added to this popular range.

New mega brands, installation of state-of-the-art machines and significant expansion in production facilities will make us an even stronger force to reckon with in the domestic ice cream market.

Vadilal has India's fastest cone-making machine. With the production capacity of 3.5 lakh cones per day, it is the first and the only ice cream producer in India to have a machine with such a huge capacity. Vadilal is the largest player in Cones, Cups and Candies categories.

Vadilal has started exclusive parlors in three formats: Scoop Shop, Hangout & Express. These parlors offer a delicious range of Premium Ice Creams, Scoops and Concoctions in a very enjoyable ambience. The purpose of launching these formats is to give the brand a modern and trendy new avatar. It is in line with the brand's efforts towards shifting the focus from mass to mass premium.

Like every other industry, the ice cream industry too has a vast unorganized market that works at low costs and margins. Here competitions is intense with organized and unorganized players.

Brand Vadilal as the 2<sup>nd</sup> largest ice cream brand in India, we have always been focusing towards maintaining our product quality, constantly improving the same with the products availability at across outlets. Instead of seeing the unorganized market and intense competition as a hurdle, we see it as a motivator to deliver our best and expand our presence in the premium ice creams segment.

We are making steady progress in launching new products in the premium segment. We have introduced a new range of Jumbo Ice Cream Cups that are made with pure milk cream and fine ingredients. Apart from these, we have also added more ice cream flavors in our popular party pack segment.

Vadilal's MELT IN parlour offering a range of high-end artisanal gelato ice cream has gained a lot of popularity in the past few years. With its success, Vadilal has once again proven its mettle in launching international ice cream experiences in India.

Vadilal has two ice cream production facilities – one at Pundhra in Gandhinagar district, Gujarat and the other at Bareilly in Uttar Pradesh. To increase the production capacity and to have better automation, we had undertaken expansion-cum-modernisation project of the factories, which has been successfully completed.

Apart from ice creams, Vadilal is also aggressively expanding in categories which offer value chain benefits and show a strong potential to grow. Vadilal already has strong backward linkages with the farmer community for its milk procurement for ice creams at its plant near Ahmedabad. Taking the relationship further, Vadilal has recently forayed in the flavored milk segment under the brand name "Power Sip". Power Sip comes in a uniquely shaped bottle ensuring a proper grip for the customer and is available in flavors like "Kesar", "Elaichi", "Coffee" and "Rose". R&D is going on for development of other flavors.

## **b) Processed Food Division**

### **i. OVERVIEW:**

Adjudged as the Sunrise Sector, the processed food industry has gained immense prominence in recent years. Expanding global population, changing consumer lifestyles and dietary habits, increasingly hectic schedules of people and urbanization trend are all propelling consumption of processed foods and ready-to-eat/cook, convenience foods, thus driving growth and demand in this segment.

But with the changing and demanding times, organisations have also been quick enough to understand and act according to the consumer's need. Offering over and above their expectation is what an organisation now aims.

With the right mix of traditional taste and uncompromised quality, Vadilal has not only been meeting and surpassing the demands of its customers but has also opened new avenues to market the products. Innovation being Vadilal's forte, it has expanded its portfolio across the food chain with an unbeatable range of processed foods. The ever demanding ice cream range has been expanded further with new Indian flavours. *Sweets of India* range has been expanded extensively to meet the demands during the festivities. An all-new healthy Beans & Sprouts range has been included in the IQF category.

## ii. GLOBAL MARKET VIEW:

Rise in the global population, changing customer preferences, and emerging economies are making the way for the food retail industry. Rising middle-class population is creating growth opportunities for food retail market and is expected to drive the market further. According to a U.S.-based research firm, about 1.5 billion households globally would be in the middle-class category by 2020, this will further expand the processed food market and open up new intra-segment categories.

North America has emerged as the largest market for processed food due to increased snacking trend. Furthermore, busy lifestyle, packaging innovation and expanded lifestyle plays a major role in increasing demand of the processed food being sold here. In Middle East, the limited agricultural production because of the nature of climate, terrain and water scarcity has led to a significant increase in the processed food market. United Nations estimated that the population of Africa will be doubled by 2020 which will be a market driver in this region. Processed food market is fast growing in Asia pacific region as well due to increase in population and in consumer buying power. Europe has high demand for high quality and nutritious food. The strict government regulations is the major challenge in this market.

## iii. GROWTH OPPORTUNITIES:

Being considered as 'priority sector' by the Indian Govt., processed food industry has been given a big boost by easing the policies for exports as well. According to the Food and Agriculture Organisation (FAO), India is likely to have an overwhelming impact on world demand and supply of food products. With its vast production base, India has the potential to become one of the largest food suppliers to the world and at the same time serve its own vast population.

According to Harvard Business Review, food demand is expected to increase anywhere between 59% and 98% by 2050 out of which a major chunk will be of the packaged and processed foods. Market size is expected to garner \$3.03 trillion by 2020, registering a CAGR of 4.5% during the forecast period 2015 - 2020.

## c) Forex Division

### **RBI AUTHORISED AD.II CATEGORY LICENCE HOLDER.**

The Division is RBI approved Authorized Dealer Category II and carries out Money Changing and current account related transactions [other than trade related]. The Division takes care in Money Changing activities such as buying and selling Travelers Cheques, Travel Card, Currency Notes of all major traded currencies of the world. Besides having license under AD.II category, the division takes care of issuance of Demand Drafts, transfer of money abroad through Swifts, Telegraphic Transfer, etc. The Division is among the leading AD II category money changers and is especially competitive in permitted Outward Remittances.

The Year gone by has seen World Trade particularly India's International Trade emerging from contraction and finally things look rosy providing opportunities for Money changing as well as Forex Advisory businesses.

## 2) **OPPORTUNITY AND THREATS**

### a) Ice-cream Division

India's ice cream market was dominated by the 'impulse' category of ice creams from past 5 years, and this category is further expected to continue its dominance during the forecast period as well, owing to growing demand for premium ice creams and changing consumer taste.

Looking at the trends from the recent past, we foresee fast growth in the traditional "out of home food" category like ice creams and frozen desserts. However, along with the increasing demand for convenience, the continuing need for value as a trend is also growing. We plan to continue with the strategy of consolidating our presence in the high end premium segment. Earlier, Vadilal was only focused on offering mass segment products. However, we have been able to increase our share in the premium segment as well and it has helped the overall growth.

Distribution plays a key role in the success of our business. We are planning to increase our reach in the existing market in terms of consolidating our presence in Cash and Carry format as well as the Modern Retail segment. The logistics of ice cream, being a cold chain product, are complex and we are continuously expanding our cold chain distribution network through refrigerated vehicles and deep freezers.

We have worked on increasing the physical touch points with our consumers and executed it by putting in place a robust network of dealers, FOWs (Freezer On Wheels) and Ice Cream parlours.

Along with various ATL campaigns, we also plan various BTL activities to enhance consumer experience with Vadilal. We plan to organize innovative cross promotional activities to enhance the brand engagement with consumers and use the digital media actively as well. We are also planning to increase the branding activity at various retail levels.

The Company primarily focuses on increasing the ice cream consumption by continuously offering innovative products at affordable rates. The Company is committed to eliminate the barriers in availability of ice cream with expansion in distribution.

The overall vision of the company is to increase the consumption of ice-cream at national level supported fully by appropriate promotion and communication strategies.

## b) Processed Food Division

In US, after tasting success and tremendous demand in smaller retail formats, Vadilal products will foray into the top grossing hyper retail formats. We'll further strengthen our key success factors, i.e; the distribution channel, by acquiring more warehouses for easier and quicker transit.

Catching on the trend and expanding to new avenues to reach out to the audience will hold the key. Apart from retailers, we have already started and further dig deeper to reach out to audience via digital medium – retailing and distributing via e-commerce and tapping the social media demands will be of key importance.

Vadilal also will be expanding its product portfolio significantly by inclusion of new variety of snacks, IQF vegetables and dairy products.

Vadilal is comfortably on route the journey from being excellent to progressing towards going par excellence.

## 5) **RISKS AND CONCERNS**

### a) **Ice Creams Division**

Brand Vadilal have 10% of organized market share against which the total organized Indian ice cream market is estimated at approx. ` 6000 crores. Vadilal having extensive pan-India distribution network over 1,25,000 retailers and trade partners that cater to every nook and corner of the country.

For Vadilal, competition is not seen a risk. We track our competition closely to continuously innovate and make better products that will keep us a step ahead of our competitors. The Company has tackled competition successfully in the past and can overcome them efficiently in the future too. The market is flooded with new local and regional players with cheaper and shoddy product options but Vadilal, with its experience and expertise of over decades of providing quality ice cream products, is well equipped to face such challenges.

However, there are certain concerns like infrastructure and rising input costs, which the Company shall keep in mind.

## b) Processed Food Division

The major concerns for the frozen food industry has been the same for over so many years, inadequate infrastructure, poor agricultural input management and semi-organized supply chain management have been the major bottle necks. Additionally increasing fuel puts an extra burden on the overall operational costs. The special requirement for transportation makes it even difficult to keep the costs low.

The frequent fluctuation of foreign currency, especially US Dollar with respect to Indian Rupee keeps the companies on worried every time.

## 6) INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY :

In view of the management, the Company has adequate internal control systems for the business processes followed by the Company. The External and Internal Auditors carry out periodical reviews of the functioning and suggest changes if required. The Company has also a sound budgetary control system with frequent reviews of actual performance as against those budgeted.

The Audit Committee of the Company meets periodically to review various aspects of the performance of the Company and also reviews the adequacy and effectiveness of internal control systems and suggests improvement for strengthening them from time to time. The External Auditors also attend these meetings and convey their view on the business processes and also of the policies of financial disclosures. When found necessary, the Committee also gives suggestions on these matters.

## 7) KEY DEVELOPMENT ON HUMAN RESOURCE RELATIONS :

The Company recognizes the important role that its employees need to play for the growth of various business activities. The human resource policies and processes of the Company are in line with this.

The Company has been maintaining cordial and healthy Industrial Relations, which has helped to a great extent in achieving the steady growth.

As on 31<sup>st</sup> March, 2018, the Company has employed total 676 employees at all locations.

## 8) CAUTIONARY STATEMENT :

The statements made and figures given in the various sections of "Management Discussion and Analysis" are keeping in mind the Company's objectives, estimates and expectations. The Actual results may differ from those expected depending upon the economic conditions, changes in Govt. Regulations, tax regimes and other external and internal factors.

**(xiv) Dematerialisation of Shares :**

The Company, consequent to introduction of Depository System (DS), has established an electronic connectivity with NSDL & CDSL, Depositories. Members, therefore, have the option of holding and dealing in the shares of the Company in electronic form through NSDL and CDSL. In view of the numerous advantages offered by the DS, members are requested to avail the facility of dematerialisation of the Company's shares on either of the Depositories as aforesaid.

If you wish to maintain your shareholding in the electronic form by joining DS, you will have to open an account with a Depository Participant (DP), who are agents of NSDL or CDSL and lodge your share certificates with your DP for Dematerialisation. The DP will then ensure that the physical share certificates are cancelled and after verification by the Company, an equivalent number of shares will be credited to your account with the DP in the electronic form. You are also permitted under the DS to reconvert your electronic shareholding into the physical form of share certificates by a process of Rematerialisation. It may be noted that the DP would charge the investors for its services, which may vary from one DP to another.

It is reiterated that requests for Dematerialisation and Rematerialisation are to be made only to the DP with whom you have opened an account and not directly to the Company or its Registrar & Share Transfer Agent.

Total 6832935 Equity Shares of the Company representing 95.06% of the total paid-up capital of the Company have been dematerialised upto 31-03-2018. Trading in Equity Shares of the Company is permitted only in dematerialised form as per notification issued by SEBI.

Pursuant to amendment to Regulation 40 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 transfer of shares from 5th December, 2018 shall be in dematerialized form. Therefore we are requesting you to kindly dematerialize your shares by opening an account with a Depository Participant (DP).

## INDEPENDENT AUDITOR'S REPORT

### To The Members of Vadilal Industries Limited

#### Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of Vadilal Industries Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2018, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

#### Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order issued under section 143(11) of the Act.

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

#### Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Ind AS and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

#### Other Matters

The comparative financial information of the Company for the year ended March 31, 2017 and the transition date opening balance sheet as at April 1, 2016 prepared in accordance with Ind AS included in these Ind AS financial statements has been audited by the predecessor auditor. The report of the predecessor auditor on comparative financial information and the said opening balance sheet dated May 26, 2018 expressed an unmodified opinion.

Our opinion on the Standalone Ind AS Financial Statements and our report on Other Legal and Regulatory Requirements below, is not modified in respect of this matter.

#### Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
  - d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act.
  - e) On the basis of the written representations received from the directors of the Company as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164(2) of the Act.
  - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
  - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
    - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements.
    - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
    - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company except ` 0.15 Lacs which is held in abeyance pending legal dispute.
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

## ANNEXURE “A”

**TO THE INDEPENDENT AUDITOR'S REPORT OF VADILAL INDUSTRIES LIMITED (Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)**

**Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of Vadilal Industries Limited (“the Company”) as of March 31, 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## STATEMENT OF CASH FLOWS FOR THE YEAR ENDED MARCH 31, 2018

Ind AS 7 :

Effective April 1, 2017, the Company adopted the amendment to Ind AS 7, which require the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the Balance Sheet for liabilities arising from financing activities, to meet the disclosure requirement. The adoption of the amendment did not have any material impact on the financial statements.

The financial statements for the year ended March 31, 2018 were approved and authorised for issue by the Board of Directors on May 28, 2018.

### 2 SIGNIFICANT ACCOUNTING POLICIES:-

#### a) Statement of Compliance

The financial statements have been prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Section 133 of the Companies Act, 2013.

Upto the year ended March 31, 2017, the Company prepared its financial statements in accordance with generally accepted accounting principles in India, including accounting standards read with Section 133 of the Companies Act, 2013 notified under Companies (Accounting Standards) Rules, 2006 ("Previous GAAP"). These are the Company's first Ind AS financial statements. The date of transition to Ind AS is April 1, 2016.

#### b) Basis of Preparation of Financial Statements

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristic into account when pricing the asset or liability at the measurement date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- 1) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or Liabilities.
- 2) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- 3) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

#### c) Use of Estimates

The presentation of the financial statements are in conformity with the Ind AS which requires the management to make estimates, judgments and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses and disclosure of contingent liabilities. Such estimates and assumptions are based on management's evaluation of relevant facts and circumstances as on the date of financial statements. The actual outcome may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on going basis. Revisions to the accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

#### d) Inventories

Inventories are stated at lower of cost and net realizable value. Cost of inventories are determined on a first in first out basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

#### e) Cash and Cash Equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

## f) Revenue Recognition

### Sale of Goods

Revenue from the sale of goods is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, related discounts & incentives and volume rebates.

### Interest Income

Interest income from a financial asset is recognized when it is probable that the economic benefit will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and the interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

## g) Government Grant

Government grants are not recognized until there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognized in profit or loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate.

## h) Property, Plant and Equipment

Property, plant & equipments are stated at actual cost (including cost of acquisition and installation) less accumulated depreciation and net of impairment, if any.

All items of property, plant and equipments are derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the statement of profit and loss.

### Depreciation

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation on property, plant and equipment are charged based on straight line method on estimated useful life as prescribed in Schedule II to the Companies Act, 2013 except in respect of the following assets, where useful life is different than those prescribed in Schedule II.

<u>Particulars</u>	<u>Estimated Useful Life</u>
--------------------	------------------------------

#### Building

1) Factory Building	28 Years
2) Others - RCC Structured	58 Years

#### Plant & Machinery

1) Continuous Process	18 Years
2) Plastic Crates	5 Years
3) Others	20 Years

#### Vehicles

Motor Cars	10 Years
------------	----------

The estimated useful lives and residual values of the property, plant and equipment are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Depreciation on items of property, plant and equipment acquired / disposed off during the year is provided on pro-rata basis with reference to the date of addition / disposal.

### Transition to Ind AS

For transition to Ind AS, the Company has elected to apply Ind AS retrospective to arrive at carrying value of all of its property, plant and equipments, except land, as of April 1, 2016 (transition date). Land have been valued at Fair Value as of April 1, 2016 (transition date).

## i) Intangible Assets

### Intangible Assets Acquired Separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognized on a straight-line basis over their estimated useful lives. The estimated useful life are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

### **Derecognition of Intangible Assets**

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in the statement of profit and loss when the asset is derecognized.

### **Useful Lives of Intangible Assets**

Intangible assets are amortised over their estimated useful life on a straight line basis over a period of 5 years.

### **Transition to Ind AS**

For transition to Ind AS, the Company has elected to apply Ind AS retrospective to arrive at carrying value of all of its intangible assets.

#### **j) Investment Property**

Investment property comprise portion of office building that are held for long term yield and / or capital appreciation.

Investment property is initially recognized at cost. Subsequently investment property comprising of building is carried at cost less accumulated depreciation and accumulated impairment losses.

Investment property is depreciated under the straight line method as per the rates and the useful life prescribed as per Schedule II of the Companies Act.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on value as per local body on periodic basis.

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no economic benefit is expected from its disposal.

The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the Statement of Profit and Loss.

#### **k) Leasing**

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

##### **Company as a Lessee**

Rental expense from operating lease is generally recognized on a straight line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessors expected inflationary cost increase, such increases are recognized in the year in which such benefits accrue.

#### **l) Foreign Currencies**

In preparing the financial statements of the Company, the transactions in currencies other than the entity's functional currency (INR) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rate prevailing at that date and differences are recognised in statement of profit and loss. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on monetary items are recognized in the statement of profit and loss in the period in which they arise.

#### **m) Employee Benefits**

Employee benefits include provident fund, employee state insurance scheme, gratuity fund and compensated absences.

##### **Defined Contribution Plan:**

The Company's contribution to Provident Fund is considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made and when services are rendered by the employees.

##### **Defined Benefit Plans:**

For defined benefit plans in the form of gratuity fund, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each balance sheet date. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognized in other comprehensive income in the period in which they occur. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and is not reclassified to in the statement of profit and loss. Net interest is calculated by applying the discount rate to the net defined benefit liability or asset.

The Company recognizes the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- 1) Service costs comprising current service costs, gains and losses on curtailments and settlements; and
- 2) Net interest expense or income

The retirement benefit obligation recognized in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost, as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the schemes.

#### **Short-term and Long-term Employee Benefits:**

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related services rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange of the related service.

Liabilities recognised in respect of short-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the company in respect of services provided by employees up to the reporting date.

#### **n) Borrowing Costs**

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily takes a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in the statement of profit and loss in the period in which they are incurred.

#### **o) Earnings Per Share**

Basic earnings per share is computed by dividing the profit / (loss) for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The company did not have any potential to dilutive securities in any period presented.

#### **p) Taxation**

Tax expense represents the sum of the current tax and deferred tax.

##### **Current Tax**

The tax currently payable is based on taxable profit for the year. Current tax is measured at the amount expected to be paid to the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

##### **Deferred Tax**

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets include Minimum Alternate Tax (MAT) credit paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT credit is recognized as deferred tax asset in the Balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

## **Current and Deferred Tax for the Year**

Current and deferred tax are recognized in the statement of profit and loss, except when they relate to items that are recognized in other comprehensive income, in which case, the current and deferred tax are also recognized in other comprehensive income.

### **q) Provisions, Contingent Liabilities and Contingent Assets and Commitments**

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligations. When a provision is measured using the cash flow estimated to settle the present obligation, its carrying amount is the present obligations of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no disclosure is made.

Contingent Assets are not recognised but disclosed in the Financial Statements when economic inflow is probable.

### **r) Investments in Subsidiaries**

Investments in subsidiaries are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

**Upon first-time adoption of Ind AS, the Company has elected to measure its investments in subsidiaries at the previous GAAP carrying amount in accordance with Ind AS-39 as its deemed cost on the date of transition to Ind AS i.e., April 1, 2016.**

### **s) Financial Instruments**

Financial instrument is a contract that give rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### **Classification:**

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit and loss on the basis of its business model for managing the financial assets and the contractual cash flows characteristics of the financial asset.

All financial liabilities are classified as subsequently measured at amortised cost except for financial liabilities at fair value through profit and loss. Such liabilities, including derivatives, are subsequently measured at fair value, with any gains or loss arising on remeasurement recognised in profit and loss.

#### **Initial Recognition and Measurement**

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than Financial asset and liabilities at fair value through profit & loss) are added to or deducted from the fair value measured on initial recognition of the financial assets or financial liabilities.

#### **Financial Assets at Amortised Cost**

Financial assets are subsequently measured at amortised cost using effective interest rate method, if:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category generally applies to trade and other receivables.

#### **Financial Asset at Fair Value Through Other Comprehensive Income (FVTOCI)**

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within business whose objective is achieved by both collecting contractual cash flow and selling asset financial asset and the contractual terms of financial asset give rise on specific dates to cash flows that are solely payment of principal and interest on principal amount outstanding.

### **Financial Asset at Fair Value Through Profit and Loss (FVTPL)**

Financial assets are measured at fair value through profit and loss unless it is measured at amortized cost or fair value through other comprehensive income. Financial assets under this category are measured initially as well as at each reporting period at fair value with all changes recognised in the statement of profit and loss.

### **Derecognition of Financial Assets**

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income and accumulated in equity is recognized in profit and loss if such gain or loss would have otherwise been recognized in profit and loss on disposal of that financial asset.

### **Financial Liabilities and Equity Instruments**

Classification as debt or equity

Financial instruments are classified as a liability or equity according to the substance of the contractual arrangement and not its legal form.

### **Equity Instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a company are recognised at the proceeds received, net of issue costs.

### **Financial Liabilities**

All financial liabilities are subsequently measured at amortised cost. Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit and loss.

### **Derecognition of Financial Liabilities**

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit and loss.

### **Derivative Contracts**

The Company enters into derivative financial instruments to hedge foreign currency / price risk on unexecuted firm commitments and highly probable forecast transactions.

Such derivatives financial instruments are initially recognized at fair value on the date on which the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognized in the statement of profit and loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit and loss depends on the nature of the hedging relationship and the nature of the hedged item.

### **Financial Guarantee Contracts**

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by a Company entity are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and
- the amount initially recognized less, when appropriate, the cumulative amount of income recognized in accordance with the principles of Ind AS 18

### **t) Impairment**

Financial assets (other than at fair value)

The Company assesses at each Balance sheet whether a financial asset or a group of financial assets is impaired.

### **Non-financial Assets**

## **Property, Plant and Equipment and Intangible Assets**

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash generating units, or otherwise they are allocated to the smallest group of cash generating unit for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in the statement profit and loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognized immediately in the statement of profit and loss.

### **u) Operating Cycle**

The Company presents assets and liabilities in the balance sheet based on current / non-current classification based on operating cycle.

An asset is treated as current when it is:

1. Expected to be realized or intended to be sold or consumed in normal operating cycle;
2. Held primarily for the purpose of trading;
3. Expected to be realized within twelve months after the reporting period, or
4. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

1. It is expected to be settled in normal operating cycle;
2. It is held primarily for the purpose of trading;
3. It is due to be settled within twelve months after the reporting period, or
4. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The company has identified twelve months as its operating cycle.

### **v) Critical Accounting Judgements and Key Sources of Estimation Uncertainty**

The preparation of the financial statements in conformity with the Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosures as at date of the financial statements and the reported amounts of the revenues and expenses for the years presented. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates under different assumptions and conditions. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

#### **Key Sources of Estimation Uncertainty**

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing as material adjustment to the carrying amounts of assets and liabilities within next financial year.

##### **i. Income Taxes**

As described in Note 2(p), the Company's tax jurisdiction is India. Significant judgements are involved in estimating

budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions.

**ii. Discount Rate Used to Determine the Carrying Amount of the Company's Defined Benefit Obligation**

As described in Note 47, in determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

**iii. Useful Lives of Property, Plant and Equipment**

As described in Note 2(h), the Company reviews the estimated useful lives and residual values of property, plant and equipment at the end of each reporting period. During the current financial year, the management determined that there were no changes to the useful lives and residual values of the property, plant and equipment.

**iv. Allowances for Doubtful Debts**

As described in Note 11, the Company makes allowances for doubtful debts based on an assessment of the recoverability of trade and other receivables. The identification of doubtful debts requires use of judgement and estimates. Where the expectation is different from the original estimate, such difference will impact the carrying value of the trade and other receivables and doubtful debts expenses in the period in which such estimate has been changed.

**v. Allowances for Inventories**

Management reviews the inventory age listing on a periodic basis. This review involves comparison of the carrying value of the aged inventory items with the respective net realizable value. The purpose is to ascertain whether an allowance is required to be made in the financial statements for any obsolete and slow-moving items. Management is satisfied that adequate allowance for obsolete and slow-moving inventories has been made in the financial statements.

**vi. Fair Value Measurement of Financial Instruments**

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgements and assumptions. Information about the fair value of various assets and liabilities are disclosed in Note 44.

#### Notes

- The credit period ranges from 7 days to 30 days.
- Before accepting any new customer, the Company assesses the potential customer's credit quality and defines credit limits by customer. Limits attributed to customers are reviewed annually. There are no customers who represent more than 5% of the total balance of trade receivable except, as at March 31, 2018 : ` 3,983.05 Lacs are due from two customer (as at March 31, 2017 : ` 1,124.53 Lacs are due from three customers and as at April 1, 2016 : ` 1,867.67 Lacs are due from two customer). The credit risk in respect of these customers is mitigated by additional security cheque.
- In determining the allowances for doubtful trade receivables, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on company policy and ageing of the receivables that are due.
- Movement in Expected Credit Loss Allowance

a) On October 1, 2016 & October 6, 2017 a dividend of ` 1.25 per share (total dividend ` 108.14 Lacs) was paid to holders of fully paid equity shares. The total dividend includes dividend distribution tax at applicable rates.

b) The Board of Directors, in its meeting held on May 28, 2018, have proposed a final dividend of ` 1.25 per share for the financial year ended March 31, 2018. The proposal is subject to the approval of shareholders at the Annual General Meeting to be held

in the month of September, 2018 and if approved would result in a cash outflow of approximately ₹ 108.14 Lacs including dividend distribution tax.

**c) Nature and Purpose of Reserve**

**Capital Reserve** The company has created capital reserve out of investment utilization reserve written back and forfeited shares.

**Securities Premium Reserve** The amount received in excess of face value of the equity shares is recognised in Securities Premium Reserve. This reserve is available for utilization in accordance with the provisions of the Companies Act, 2013. In case of equity-settled share based payment transactions, the difference between fair value on grant date and nominal value of share is accounted as securities premium reserve.

**Revaluation Reserve** The company has created revaluation reserve out of revaluation of land carried out as at April 1, 2016.

**General Reserve** The general reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to profit or loss.

**Retained Earnings** Retained earnings are the profits that the Company has earned till date, less any transfers to general reserve, dividends or other distributions paid to shareholders.

### III Financial risk management objective

The Company's financial liabilities comprise mainly of borrowings, trade payables and other financial liabilities. The Company's financial assets comprise mainly of investments, cash and cash equivalents, other balances with banks, loans, trade receivables and other financial assets.

The Company's business activities are exposed to a variety of financial risks, namely liquidity risk, market risks and credit risks.

The company's senior management has the overall responsibility for establishing and governing the company's risk management framework. The company has constituted a Risk management committee, which is responsible for developing and monitoring

the company's risk management policies. The company's risk management policies are established to identify and analyse the risks faced by the company, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policy accordingly. The key risks and mitigating actions are also placed before the Audit Committee of the company.

#### A. Management of Market Risk

The company's size and operations result in it being exposed to the following market risks that arise from its use of financial instruments:

- Foreign Currency risk
- Equity price risk
- Interest rate risk

The above risks may affect the company's income and expenses, or the value of its financial instruments. The company's exposure to and management of these risks are explained below:

#### (i) Currency risk management

The Company's activities expose it primarily to the financial risk of changes in foreign currency exchange rates. The Company enters into a variety of derivative financial instruments to manage its exposure to foreign currency risk :

The carrying amounts of the Company's foreign currency dominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

#### (a) Derivatives instruments

#### Foreign currency sensitivity analysis

The following table details, Company's sensitivity to a 1% increase and decrease in the rupee against the relevant foreign currencies. 1% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. This is mainly attributable to the exposure outstanding not hedged on receivables and payables in the Company at the end of the reporting period. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 1% change in foreign currency rate.

A change of 1% in Foreign currency would have following Impact on profit before tax and total equity.

#### (ii) Price Risk (Equity Price Risk)

The Company's exposure to equity securities price risk arises from investments held by the Company and classified in the balance sheet at fair value through profit and loss. To manage its price risk arising from investments in equity securities, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company.

#### Sensitivity Analysis

The table below summarizes the impact of increases / decreases of the BSE index on the Company's equity and Gain / Loss for the period. The analysis is based on the assumption that the index has increased by 5% or decreased by 5% with all other variables held constant, and that all the Company's equity instruments moved in line with the index.

A change of 5% in market index would have following Impact on profit before tax

(₹ in Lacs)

Particulars	For the year ended March 31, 2018	For the year ended March 31, 2017
BSE Index 100 - Increase by 5%	0.09	0.15
BSE Index 100 - Decrease by 5%	(0.09)	(0.15)

The above referred sensitivity pertains to quoted equity investments. Profit for the year would increase/decrease as a result of gains / losses on equity securities as at Fair Value through Profit and Loss (FVTPL).

### (iii) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. In order to optimize the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

According to the Company interest rate risk exposure is only for floating rate borrowings. For floating rate liabilities, the analysis is prepared assuming that the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 100 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

#### Exposure to interest rate risk

##### Interest rate sensitivity

A change of 100 bps in interest rates would have following Impact on profit before tax

(` in Lacs)

Particulars	Increase/Decrease in basic points	Effect on PBT
As at March 31, 2018	100 bps	59.05
As at March 31, 2017	100 bps	29.23

### B. Management of Credit Risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

The company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through out each reporting period. To assess whether there is a significant increase in credit risk, the company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- Actual or expected significant adverse changes in business,
- Actual or expected significant changes in the operating results of the counterparty,
- Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,
- Significant increase in credit risk on other financial instruments of the same counterparty,
- Significant changes in the value of the collateral supporting the obligation or in the quality of the third-party guarantees or credit enhancements.

The Company measures the expected credit loss of trade receivables and loan from individual customers based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, loss on collection of receivable is not material hence no additional provision considered.

The Ageing analysis of Account receivables has been considered from the date the invoice falls due

### C. Management of Liquidity Risk

Liquidity risk is the risk that the company will face in meeting its obligation associated with its financial liabilities. The Company's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when they are due without incurring unacceptable losses. In doing this management considers both normal and stressed conditions.

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Group's short-term, medium-term and long term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The following table shows the maturity analysis of the company's financial liabilities based on the contractually agreed undiscounted cash flows along with its carrying value as at the Balance sheet date.

Note : \* Key Managerial Personnel and Relatives of Promoters who are under the employment of the Company are entitled to post employment benefits and other long term employee benefits recognised as per Ind AS 19 - 'Employee Benefits' in the financial statements. Post-employment gratuity benefits of Key Managerial Personnel has not been included in (f) above.

#### NOTE - 47 Employee Benefits

##### I Post Employment Benefit Plans as per Indian Accounting Standard 19:

##### Defined Contribution Plan:

The company makes provident fund (PF) contributions to defined contribution benefit plans for eligible employees. Under the scheme the company is required to contribute a specified percentage of the payroll costs to fund the benefits. The contributions specified under the law are paid to the government authorities (PF commissioner).

Amount towards Defined Contribution Plan have been recognized under "Contribution to Provident and Other funds" in Note 36 ` 103.27 Lacs (Previous Year: ` 91.18 Lacs).

##### Defined Benefit Plan:

The Company has defined benefit plans for gratuity to eligible employees, contributions for which are made to Life Insurance Corporation of India, who invests the funds as per IRDA guidelines. The details of these defined benefit plans recognised in the financial statements are as under:

##### Gratuity is a defined benefit plan and company is exposed to the Following Risks:

**Interest rate risk:** A fall in the discount rate which is linked to the G.Sec. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

**Salary Risk:** The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

**Investment Risk:** The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

**Asset Liability Matching Risk:** The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.

**Mortality risk:** Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

**Concentration Risk:** Plan is having a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very less as insurance companies have to follow regulatory guidelines.

f) Sensitivity Analysis

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Particulars	As at March 31, 2018	As at March 31, 2017
Projected Benefit Obligation on Current Assumptions	483.78	399.02
Delta Effect of +1% Change in Rate of Discounting	(32.32)	(32.72)
Delta Effect of -1% Change in Rate of Discounting	37.31	38.20
Delta Effect of +1% Change in Rate of Salary Increase	34.23	37.93
Delta Effect of -1% Change in Rate of Salary Increase	(30.53)	(33.09)
Delta Effect of +1% Change in Rate of Employee Turnover	2.60	0.57
Delta Effect of -1% Change in Rate of Employee Turnover	(2.91)	(0.67)

The sensitivity analysis above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period and may not be representative of the actual change. It is based on a change in the key assumption while holding all other assumptions constant. When calculating the sensitivity analysis, the present value of projected defined benefit obligation has been calculated using Projected Unit Credit Method at the end of the reporting period. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared with the previous period.

g) The principal assumptions used for the purpose of actuarial valuation were as follows :

With the objective of presenting the plan assets and plan liabilities of the defined benefits plans at their fair value on the balance sheet date, assumptions under Ind AS 19 are set by reference to market conditions at the valuation date.

The significant actuarial assumptions were as follows:

Particulars	As at March 31, 2018	As at March 31, 2017

#### 5 Adjustments to Statement of Cash flow

The Ind AS adjustments are either non cash adjustments or are regrouping among the cash flows from operating, investing and financing activities. Consequently, Ind AS adoption has no impact on the net cash flow for the year ended March 31, 2017 as compared with the previous GAAP.

#### 6 Notes on Reconciliation

- (a) Under previous GAAP, non current investment were measured at cost less diminution in value which is other than temporary. Under Ind AS 109, investment in equity instruments are classified as FVTPL. On transition to Ind AS, these financial assets have been measured at fair value which is higher / lower than cost as per previous GAAP.
- (b) Under previous GAAP, investment property was disclosed under non current investment which is now shown as per Ind AS under investment property.
- (c) Under previous GAAP, current investment were measured at cost or net realisable value whichever is lower. Under Ind AS 109, investment in equity instruments are classified as FVTPL. On transition to Ind AS, these financial assets have been measured at fair value which is higher / lower than cost as per previous GAAP.
- (d) Under Ind AS, security deposit given against operating lease are presented at fair value by discounting it taking lease contract period and the differential amount has been treated as advance rentals to be amortised as rent over lease period.
- (e) Under previous GAAP, dividend recommended by board of directors on equity shares for the reporting period while approving financial statement, subject to its approval by members in general meeting, was being recognised in the financial statements as a liability. Under Ind AS, such dividends are recognised as liability when declared by the members in a general meeting.
- (f) Under previous GAAP, actuarial gains and losses were recognised in the statement of profit and loss. Under Ind AS, the actuarial gains and losses form part of remeasurement of net defined benefit liability / asset which is recognised in other comprehensive income in the respective periods.
- (g) Under previous GAAP, upfront fees paid to the lenders is charged to statement of profit and loss as and when incurred. However, Ind AS - 109 "Financial instruments" requires long term debt to be recognised at amortised cost and upfront fees are charged on the basis of effective interest rate method.
- (h) Under previous GAAP, property, plant and equipment was capitalized net of duty saved amount under EPCG scheme. Now, as per Ind AS it has been capitalized and deferred govt. grant is credited under current and non current liability.
- (i) Under previous GAAP, the company had revalued freehold land, leasehold land, building and certain plant & machineries. Under Ind AS, the company has elected to apply Ind AS retrospectively to arrive at carrying value of all of its property, plant and equipments, except land, as of April 1, 2016 (transition date). Land have been valued at fair value as of April 1, 2016 (transition date).
- (j) The Company has given financial guarantee on behalf of Vadilal Enterprises Limited. The Company does not charge any amount for the guarantee provided. Under Ind AS, fair value presentation has been done for the notional commission earned on corporate guarantee given on behalf of Vadilal Enterprises Limited.

- (k) Consequent to adoption of Ind AS from April 1, 2016, deferred tax at applicable rates has been recognised on effect of Ind AS adoption and transition on retained earnings as at April 1, 2016 and on impact on profit for the year ended March 31, 2017 for the adjustment carried out in the statement of profit and loss.

Under previous GAAP, MAT credit entitlement was classified as other non-current assets. Under Ind AS, MAT credit entitlement is considered as part of deferred tax component.

**Appendix B to Ind AS 21, Foreign currency transactions and advance consideration**

On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency.

The amendment will come into force from 1 April 2018. The Company is evaluating the requirement of the amendment and the impact on the financial statements. The effect on adoption of Ind AS 21 is expected to be insignificant."

**Ind AS 115 - Revenue from contracts with customers**

The Ministry of Corporate Affairs (MCA), on March 28, 2018, notified Ind AS 115, Revenue from Contracts with Customers as part of the Companies (Indian Accounting Standards) Amendment Rules, 2018. The new standard is effective for accounting periods beginning on or after April 1, 2018. ## INDEPENDENT AUDITOR'S REPORT

To The Members of Vadilal Industries Limited

### Report on the Consolidated Ind AS Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of Vadilal Industries Limited (hereinafter referred to as "the Parent") and its subsidiaries (the Parent and its subsidiaries together referred to as "the Group"), comprising the Consolidated Balance Sheet as at March 31, 2018, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Cash Flow Statement, the Consolidated Statement of Changes in Equity, for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

### Management's Responsibility for the Consolidated Ind AS Financial Statements

The Parent's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Parent, as aforesaid.

### Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Parent's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Parent's Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by other auditors in terms of their reports referred to in sub-paragraphs (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

### Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements of the subsidiaries referred to below in the Other Matters paragraph, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Ind AS and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2018, and their consolidated profit, consolidated total comprehensive income, their consolidated cash flows and consolidated statement of changes in equity for the year ended on that date.

### Other Matters

- a. We did not audit the financial statements of two subsidiaries, whose financial statements reflect total assets of ₹ 2692.46 lacs as at 31<sup>st</sup> March, 2018, total revenues of ₹ 5637.61 lacs and net cash outflows of ₹ 115.24 lacs for the year ended on that date, as considered in the consolidated Ind AS financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries is based solely on the reports of the other auditors.

Certain of these subsidiaries whose financial statements and other financial information have not been prepared in accordance with accounting principles generally accepted in India. The Parent's management has converted the financial statements of such subsidiaries from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Parent's management.

Our opinion in so far as it relates to the balances and affairs of such subsidiaries is based on the report of other auditors and the conversion adjustments prepared by the management of the Parent and audited by us.

Our opinion on the consolidated Ind AS financial statements is not modified in respect of the above matters with respect to our reliance on the work done and the reports of other auditors.

- b. The consolidated Ind AS financial statements includes the unaudited financial statements of one subsidiary, whose financial statements reflect total assets of ` NIL as at March 31, 2018, total revenue of ` NIL and total cash inflows of ` NIL for the period ended March 31, 2018, as considered in the consolidated Ind AS financial statements. These financial statements are unaudited and have been furnished to us by the Management and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary is based solely on such unaudited financial statements. In our opinion and according to the information and explanations given to us by the Management, these financial statements are not material to the Group.

Our opinion on the consolidated Ind AS financial statements is not modified in respect of the above matters with respect to our reliance on the financial statements certified by the Management.

- c. The comparative financial information of the Group for the year ended March 31, 2017 and the related transition date opening balance sheet as at April 1, 2016 prepared in accordance with Ind AS included in these consolidated Ind AS financial statements have been audited by the predecessor auditor. The report of the predecessor auditor on the comparative financial information and the said opening balance sheet dated May 26, 2018, expressed an unmodified opinion.

Our opinion on the consolidated Ind AS financial statements is not modified in respect of the above matters on the comparative financial information.

#### **Report on Other Legal and Regulatory Requirements**

As required by Section 143(3) of the Act, based on our audit and on the consideration of the report of other auditors on separate financial statements and the other financial information of subsidiary incorporated in India, referred in the Other Matters paragraph above we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated Ind AS financial statements have been kept so far as it appears from our examination of those books, returns and the reports of the other auditors.

## **ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT OF VADILAL INDUSTRIES LIMITED**

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

### **Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended March 31, 2018, we have audited the internal financial controls over financial reporting of Vadilal Industries Limited (hereinafter referred to as “Parent”), as of that date.

#### **Management’s Responsibility for Internal Financial Controls**

The Board of Directors of the Parent Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (“the ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Parent’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditor’s Responsibility**

Our responsibility is to express an opinion on the Holding Company’s/ Parent’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Parent’s internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls Over Financial Reporting**

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion to the best of our information and according to the explanations given to us, the Parent, has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the

Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## CONSOLIDATED STATEMENT OF CASH FLOWS FOR THE YEAR ENDED MARCH 31, 2018

Ind AS 7 :

Effective April 1, 2017, the Company adopted the amendment to Ind AS 7, which require the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the Balance Sheet for liabilities arising from financing activities, to meet the disclosure requirement. The adoption of the amendment did not have any material impact on the financial statements.

----------------------	-------

The financial statements for the year ended March 31, 2018 were approved and authorised for issue by the Board of Directors on May 28, 2018.

### 2 SIGNIFICANT ACCOUNTING POLICIES:-

#### a) Statement of Compliance

The consolidated financial statements have been prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Section 133 of the Companies Act, 2013.

Upto the year ended March 31, 2017, Group prepared its financial statements in accordance with generally accepted accounting principles in India, including accounting standards read with Section 133 of the Companies Act, 2013 notified under Companies (Accounting Standards) Rules, 2006 ("Previous GAAP"). These are Group's first Ind AS financial statements. The date of transition to Ind AS is April 1, 2016.

#### b) Basis of Preparation of Financial Statements

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or liability, Group takes into account the characteristics of the asset or liability if market participants would take those characteristic into account when pricing the asset or liability at the measurement date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- 1) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or Liabilities.
- 2) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- 3) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

#### c) Functional and Presentation Currency

The consolidated financial statements are presented in Indian Rupees, which is the functional currency of the Parent Company. All the amounts are stated in the nearest rupee lacs.

**d) Use of Estimates**

The presentation of the financial statements are in conformity with the Ind AS which requires the management to make estimates, judgments and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses and disclosure of contingent liabilities. Such estimates and assumptions are based on management's evaluation of relevant facts and circumstances as on the date of financial statements. The actual outcome may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on going basis. Revisions to the accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

**e) Basis of Consolidation**

Group consolidates all entities which it controls. Control is established when Group has power over the entity, is exposed, or has rights to variable returns from its involvement with the entity and has ability to affect the entity's returns by using its power over the entity.

Subsidiaries are consolidated from the date control commences and until the date control ceases.

Profit and loss and each component of other comprehensive income are attributed to the owners of Group and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of Group and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation. The consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances.

**f) Inventories**

Inventories are stated at lower of cost and net realizable value. Cost of inventories are determined on a first in first out basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

**g) Cash and Cash Equivalents**

Group considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

**h) Revenue Recognition**

**Sale of Goods**

Revenue from the sale of goods is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, related discounts & incentives and volume rebates.

**Interest Income**

Interest income from a financial asset is recognized when it is probable that the economic benefit will flow to Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and the interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

**i) Government Grant**

Government grants are not recognized until there is reasonable assurance that Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognized in profit and loss on a systematic basis over the periods in which Group recognises as expenses the related costs for which the grants are intended to compensate.

**j) Property, Plant and Equipment**

Property, plant & equipments are stated at actual cost (including cost of acquisition and installation) less accumulated depreciation and net of impairment, if any.

All items of property, plant and equipments are derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the statement of profit and loss.

**Depreciation**

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation on property, plant and equipment are charged based on straight line method on estimated useful life as prescribed in Schedule II to the Companies Act, 2013 except in respect of the following assets, where useful life is different than those prescribed in Schedule II.

3) Others	20 Years
<b>Vehicles</b>	
Motor Cars	10 Years

The estimated useful lives and residual values of the property, plant and equipment are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Depreciation on items of property, plant and equipment acquired / disposed off during the year is provided on pro-rata basis with reference to the date of addition / disposal.

#### **Transition to Ind AS**

For transition to Ind AS, Group has elected to apply Ind AS retrospective to arrive at carrying value of all of its property, plant and equipments, except land, as of April 1, 2016 (transition date). Land have been valued at Fair Value as of April 1, 2016 (transition date).

#### **k) Intangible Assets**

##### **Intangible Assets Acquired Separately**

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over their estimated useful lives. The estimated useful life are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

##### **Derecognition of Intangible Assets**

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in the statement of profit and loss when the asset is derecognized.

##### **Useful Lives of Intangible Assets**

Intangible assets are amortized over their estimated useful life on a straight line basis over a period of 5 years.

##### **Transition to Ind AS**

For transition to Ind AS, Group has elected to apply Ind AS retrospective to arrive at carrying value of all of its intangible assets.

#### **l) Investment Property**

Investment property comprise portion of office building that are held for long term yield and / or capital appreciation.

Investment property is initially recognized at cost. Subsequently investment property comprising of building is carried at cost less accumulated depreciation and accumulated impairment losses.

Investment property is depreciated under the straight line method as per the rates and the useful life prescribed as per Schedule II of the Companies Act.

Though Group measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on value as per local body on periodic basis.

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no economic benefit is expected from its disposal.

The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the Statement of Profit and Loss.

#### **m) Leasing**

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

##### **Company as a Lessee**

Rental expense from operating lease is generally recognized on a straight line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessors expected inflationary cost increase, such increases are recognized in the year in which such benefits accrue.

#### n) Foreign Currencies

In preparing the financial statements of Group, the transactions in currencies other than the entity's functional currency (INR) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rate prevailing at that date and differences are recognised in statement of profit and loss. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on monetary items are recognized in the statement of profit and loss in the period in which they arise.

#### o) Employee Benefits

Employee benefits include provident fund, employee state insurance scheme, gratuity fund and compensated absences.

##### Defined Contribution Plan:

Group's contribution to Provident Fund is considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made and when services are rendered by the employees.

##### Defined Benefit Plans:

For defined benefit plans in the form of gratuity fund, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each balance sheet date. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognized in other comprehensive income in the period in which they occur. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and is not reclassified to in the statement of profit and loss. Net interest is calculated by applying the discount rate to the net defined benefit liability or asset.

Group recognizes the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- 1) Service costs comprising current service costs, gains and losses on curtailments and settlements; and
- 2) Net interest expense or income

The retirement benefit obligation recognized in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost, as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the schemes.

##### Short-term Employee Benefits:

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related services rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange of the related service.

Liabilities recognised in respect of short-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by Group in respect of services provided by employees up to the reporting date.

#### p) Borrowing Costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily takes a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in the statement of profit and loss in the period in which they are incurred.

#### q) Earnings Per Share

Basic earnings per share is computed by dividing the profit / (loss) for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Group did not have any potential to dilutive securities in any period presented.

#### r) Taxation

Tax expense represents the sum of the current tax and deferred tax.

### **Current Tax**

The tax currently payable is based on taxable profit for the year. Current tax is measured at the amount expected to be paid to the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws. Group's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

### **Deferred Tax**

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets include Minimum Alternate Tax (MAT) credit paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT credit is recognized as deferred tax asset in the Balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

### **Current and Deferred Tax for the Year**

Current and deferred tax are recognized in the statement of profit and loss, except when they relate to items that are recognized in other comprehensive income, in which case, the current and deferred tax are also recognized in other comprehensive income.

#### **s) Provisions, Contingent Liabilities and Contingent Assets and Commitments**

Provisions are recognized when Group has a present obligation (legal or constructive) as a result of a past event, it is probable that Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligations. When a provision is measured using the cash flow estimated to settle the present obligation, its carrying amount is the present obligations of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no disclosure is made.

Contingent Assets are not recognised but disclosed in the Financial Statements when economic inflow is probable.

#### **t) Financial Instruments**

Financial instrument is a contract that give rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

##### **Classification:**

Group classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit and loss on the basis of its business model for managing the financial assets and the contractual cash flows characteristics of the financial asset.

All financial liabilities are classified as subsequently measured at amortised cost except for financial liabilities at fair value through profit and loss. Such liabilities, including derivatives, are subsequently measured at fair value, with any gains or loss arising on re-measurement recognised in profit and loss.

## **Initial Recognition and Measurement**

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than Financial asset and liabilities at fair value through profit & loss) are added to or deducted from the fair value measured on initial recognition of the financial assets or financial liabilities.

### **Financial Assets at Amortised Cost**

Financial assets are subsequently measured at amortised cost using effective interest rate method, if:

- (a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category generally applies to trade and other receivables.

### **Financial Asset at Fair Value Through Other Comprehensive Income (FVTOCI)**

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within business whose objective is achieved by both collecting contractual cash flow and selling asset financial asset and the contractual terms of financial asset give rise on specific dates to cash flows that are solely payment of principal and interest on principal amount outstanding.

### **Financial Asset at Fair Value Through Profit and Loss (FVTPL)**

Financial assets are measured at fair value through profit and loss unless it is measured at amortized cost or fair value through other comprehensive income. Financial assets under this category are measured initially as well as at each reporting period at fair value with all changes recognised in the statement of profit and loss.

### **Derecognition of Financial Assets**

Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, Group recognises its retained interest in the asset.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income and accumulated in equity is recognized in profit and loss if such gain or loss would have otherwise been recognized in profit and loss on disposal of that financial asset.

### **Financial Liabilities and Equity Instruments**

Classification as debt or equity

Financial instruments are classified as a liability or equity according to the substance of the contractual arrangement and not its legal form.

#### **Equity Instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a company are recognised at the proceeds received, net of issue costs.

#### **Financial Liabilities**

All financial liabilities are subsequently measured at amortised cost. Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on re-measurement recognised in profit and loss.

#### **Derecognition of Financial Liabilities**

Group derecognises financial liabilities when, and only when, Group's obligations are discharged, cancelled or have expired. An exchange between a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit and loss.

#### **Derivative Contracts**

Group enters into derivative financial instruments to hedge foreign currency / price risk on unexecuted firm commitments and highly probable forecast transactions.

Such derivatives financial instruments are initially recognized at fair value on the date on which the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting

gain or loss is recognized in the statement of profit and loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit and loss depends on the nature of the hedging relationship and the nature of the hedged item.

#### **Financial Guarantee Contracts**

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by a Company entity are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and
- the amount initially recognized less, when appropriate, the cumulative amount of income recognized in accordance with the principles of Ind AS 18

#### **u) Impairment**

Financial assets (other than at fair value)

Group assesses at each Balance sheet whether a financial asset or a group of financial assets is impaired.

#### **Non-Financial Assets**

##### **Property, Plant and Equipment and Intangible Assets**

At the end of each reporting period, Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, Group estimates the recoverable amount of the cash generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash generating units, or otherwise they are allocated to the smallest group of cash generating unit for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in the statement profit and loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognized immediately in the statement of profit and loss.

#### **v) Operating Cycle**

Group presents assets and liabilities in the balance sheet based on current / non-current classification based on operating cycle.

An asset is treated as current when it is:

1. Expected to be realized or intended to be sold or consumed in normal operating cycle;
2. Held primarily for the purpose of trading;
3. Expected to be realized within twelve months after the reporting period, or
4. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

1. It is expected to be settled in normal operating cycle;
2. It is held primarily for the purpose of trading;
3. It is due to be settled within twelve months after the reporting period, or
4. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Group has identified twelve months as its operating cycle.

**w) Critical Accounting Judgements and Key Sources of Estimation Uncertainty**

The preparation of the financial statements in conformity with the Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosures as at date of the financial statements and the reported amounts of the revenues and expenses for the years presented. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates under different assumptions and conditions. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

**Key Sources of Estimation Uncertainty**

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within next financial year.

**i. Income Taxes**

As described in Note 2(r), Group's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions.

**ii. Discount Rate Used to Determine the Carrying Amount of Group's Defined Benefit Obligation**

As described in Note 45, in determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

**iii. Useful Lives of Property, Plant and Equipment**

As described in Note 2(j), Group reviews the estimated useful lives and residual values of property, plant and equipment at the end of each reporting period. During the current financial year, the management determined that there were no changes to the useful lives and residual values of the property, plant and equipment.

**iv. Allowances for Doubtful Debts**

As described in Note 11, Group makes allowances for doubtful debts based on an assessment of the recoverability of trade and other receivables. The identification of doubtful debts requires use of judgement and estimates. Where the expectation is different from the original estimate, such difference will impact the carrying value of the trade and other receivables and doubtful debts expenses in the period in which such estimate has been changed.

**v. Allowances for Inventories**

Management reviews the inventory age listing on a periodic basis. This review involves comparison of the carrying value of the aged inventory items with the respective net realizable value. The purpose is to ascertain whether an allowance is required to be made in the financial statements for any obsolete and slow-moving items. Management is satisfied that adequate allowance for obsolete and slow-moving inventories has been made in the financial statements.

**vi. Fair Value Measurement of Financial Instruments**

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgements and assumptions. Information about the fair value of various assets and liabilities are disclosed in note 42.

## NOTES

- The credit period ranges from 7 days to 30 days.
- Before accepting any new customer, Group assesses the potential customer's credit quality and defines credit limits by customer. Limits attributed to customers are reviewed annually. There are no customers who represent more than 5% of the total balance of trade receivable except, as at March 31, 2018 : ` 2,442.63 Lacs are due from one customer (as at March 31, 2017 : ` 445.83 Lacs are due from two customers and as at April 1, 2016 : ` 1,577.11 Lacs are due from one customer). The credit risk in respect of these customers is mitigated by additional security cheque.
- In determining the allowances for doubtful trade receivables, Group has used a practical expedient by computing the expected credit loss allowance for trade receivables based on company policy and ageing of the receivables that are due.
- Movement in Expected Credit Loss Allowance

- a) On October 1, 2016 & October 6, 2017 a dividend of ` 1.25 per share (total dividend ` 108.14 Lacs) was paid to holders of fully paid equity shares. The total dividend includes dividend distribution tax at applicable rates.
- b) The Board of Directors, in its meeting held on May 28, 2018, have proposed a final dividend of ` 1.25 per share for the financial year ended March 31, 2018. The proposal is subject to the approval of shareholders at the Annual General Meeting to be held in the month of September, 2018 and if approved would result in a cash outflow of approximately ` 108.14 Lacs including dividend distribution tax.

c) **Nature and Purpose of Reserve**

**Capital Reserve** Group has created capital reserve out of investment utilization reserve written back and forfeited shares.

**Securities Premium Reserve** The amount received in excess of face value of the equity shares is recognised in Securities Premium Reserve. This reserve is available for utilization in accordance with the provisions of the Companies Act, 2013. In case of equity-settled share based payment transactions, the difference between fair value on grant date and nominal value of share is accounted as securities premium reserve.

**Revaluation Reserve** Group has created revaluation reserve out of revaluation of land carried out as at April 1, 2016.

**General Reserve** General reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to profit or loss.

**Retained Earnings** Retained earnings are the profits that Group has earned till date, less any transfers to general reserve, dividends or other distributions paid to shareholders.

### III Financial risk management objective

Group's financial liabilities comprise mainly of borrowings, trade payables and other financial liabilities. Group's financial assets comprise mainly of investments, cash and cash equivalents, other balances with banks, loans, trade receivables and other financial assets.

Group's business activities are exposed to a variety of financial risks, namely liquidity risk, market risks and credit risks.

Group's senior management has the overall responsibility for establishing and governing Group's risk management framework. Group has constituted a Risk management committee, which is responsible for developing and monitoring Group's risk management policies. Group's risk management policies are established to identify and analyse the risks faced by Group, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policy accordingly. The key risks and mitigating actions are also placed before the Audit Committee of Group.

#### A. Management of Market Risk

Group's size and operations result in it being exposed to the following market risks that arise from its use of financial instruments:

- Foreign Currency risk
- Equity price risk
- Interest rate risk

The above risks may affect Group's income and expenses, or the value of its financial instruments. Group's exposure to and management of these risks are explained below:

#### (i) Currency risk management

Group's activities expose it primarily to the financial risk of changes in foreign currency exchange rates. Group enters into a variety of derivative financial instruments to manage its exposure to foreign currency risk :

The carrying amounts of Group's foreign currency dominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

##### (a) Derivatives instruments

#### Foreign currency sensitivity analysis

The following table details, Company's sensitivity to a 1% increase and decrease in the rupee against the relevant foreign currencies. 1% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. This is mainly attributable to the exposure outstanding not hedged on receivables and payables in Group at the end of the reporting period. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 1% change in foreign currency rate.

A change of 1% in Foreign currency would have following Impact on profit before tax and total equity

(₹ in Lacs)

Particulars	For the year ended March 31, 2018		For the year ended March 31, 2017	
	1% increase	1% decrease	1% increase	1% decrease

<b>Increase / decrease in profit &amp; loss</b>	<b>5.73</b>	<b>(5.73)</b>	<b>2.63</b>	<b>(2.63)</b>

#### (ii) Price Risk (Equity Price Risk)

Group's exposure to equity securities price risk arises from investments held by Group and classified in the balance sheet at fair value through profit and loss. To manage its price risk arising from investments in equity securities, Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by Group.

#### Sensitivity Analysis

The table below summarizes the impact of increases / decreases of the BSE index on Group's equity and Gain/Loss for the period. The analysis is based on the assumption that the index has increased by 5 % or decreased by 5 % with all other variables held constant, and that all Group's equity instruments moved in line with the index.

A change of 5% in market index would have following Impact on profit before tax

(₹ in Lacs)

Particulars	For the year ended March 31, 2018	For the year ended March 31, 2017
BSE Index 100 - Increase by 5%	0.09	0.15
BSE Index 100 - Decrease by 5%	(0.09)	(0.15)

The above referred sensitivity pertains to quoted equity investments. Profit for the year would increase/decrease as a result of gains / losses on equity securities as at Fair Value through Profit or Loss (FVTPL).

### (iii) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. In order to optimize Group's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

According to Group interest rate risk exposure is only for floating rate borrowings. For floating rate liabilities, the analysis is prepared assuming that the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 100 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

#### Exposure to interest rate risk

##### Interest rate sensitivity

A change of 100 bps in interest rates would have following Impact on profit before tax

(` in Lacs)

Particulars	Increase/Decrease in basic points	Effect on PBT
As at March 31, 2018	100 bps	59.05
As at March 31, 2017	100 bps	29.23

### B. Management of Credit Risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, Group periodically assesses financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through out each reporting period. To assess whether there is a significant increase in credit risk, Group compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- Actual or expected significant adverse changes in business,
- Actual or expected significant changes in the operating results of the counterparty,
- Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,
- Significant increase in credit risk on other financial instruments of the same counterparty,
- Significant changes in the value of the collateral supporting the obligation or in the quality of the third-party guarantees or credit enhancements.

Group measures the expected credit loss of trade receivables and loan from individual customers based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, loss on collection of receivable is not material hence no additional provision considered.

### C. Management of Liquidity Risk

Liquidity risk is the risk that Group will face in meeting its obligation associated with its financial liabilities. Group's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when they are due without incurring unacceptable losses. In doing this management considers both normal and stressed conditions.

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Group's short-term, medium-term and long term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The following table shows the maturity analysis of Group's financial liabilities based on the contractually agreed undiscounted cash flows along with its carrying value as at the Balance sheet date.

Note : \* Key Managerial Personnel and Relatives of Promoters who are under the employment of Group are entitled to post employment benefits and other long term employee benefits recognised as per Ind AS 19 - 'Employee Benefits' in the financial statements. Post-employment gratuity benefits of Key Managerial Personnel has not been included in (e) above.

## NOTE - 45 Employee Benefits

### I Post Employment Benefit Plans as per Indian Accounting Standard 19:

#### Defined Contribution Plan:

Group makes provident fund (PF) contributions to defined contribution benefit plans for eligible employees. Under the scheme Group is required to contribute a specified percentage of the payroll costs to fund the benefits. The contributions specified under the law are paid to the government authorities (PF commissioner).

Amount towards Defined Contribution Plan have been recognized under "Contribution to Provident and Other funds" in Note 36 ₹ 103.27 Lacs (Previous Year: ₹ 91.18 Lacs).

#### Defined Benefit Plan:

Group has defined benefit plans for gratuity to eligible employees, contributions for which are made to Life Insurance Corporation of India, who invests the funds as per IRDA guidelines. The details of these defined benefit plans recognised in the financial statements are as under:

#### Gratuity is a defined benefit plan and company is exposed to the Following Risks:

**Interest rate risk:** A fall in the discount rate which is linked to the G.Sec. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

**Salary Risk:** The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

**Investment Risk:** The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

**Asset Liability Matching Risk:** The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.

**Mortality risk:** Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

**Concentration Risk:** Plan is having a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very less as insurance companies have to follow regulatory guidelines.

- f) Sensitivity Analysis

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Particulars	As at March 31, 2018	As at March 31, 2017
<b>Projected Benefit Obligation on Current Assumptions</b>	<b>483.78</b>	<b>399.02</b>
Delta Effect of +1% Change in Rate of Discounting	(32.32)	(32.72)
Delta Effect of -1% Change in Rate of Discounting	37.31	38.20
Delta Effect of +1% Change in Rate of Salary Increase	34.23	37.93
Delta Effect of -1% Change in Rate of Salary Increase	(30.53)	(33.09)
Delta Effect of +1% Change in Rate of Employee Turnover	2.60	0.57
Delta Effect of -1% Change in Rate of Employee Turnover	(2.91)	(0.67)

The sensitivity analysis above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period and may not be representative of the actual change. It is based on a change in the key assumption while holding all other assumptions constant. When calculating the sensitivity analysis, the present value of projected defined benefit obligation has been calculated using Projected Unit Credit Method at the end of the reporting period. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared with the previous period.

**g) The principal assumptions used for the purpose of actuarial valuation were as follows :**

With the objective of presenting the plan assets and plan liabilities of the defined benefits plans at their fair value on the balance sheet date, assumptions under Ind AS 19 are set by reference to market conditions at the valuation date.

#### 5 Adjustments to Consolidated Statement of Cash flow

The Ind AS adjustments are either non cash adjustments or are regrouping among the cash flows from operating, investing and financing activities. Consequently, Ind AS adoption has no impact on the net cash flow for the year ended March 31, 2017 as compared with the previous GAAP.

#### 6 Notes on Reconciliation

- (a) Under previous GAAP, non current investment were measured at cost less diminution in value which is other than temporary. Under Ind AS 109, investment in equity instruments are classified as FVTPL. On transition to Ind AS, these financial assets have been measured at fair value which is higher / lower than cost as per previous GAAP.
- (b) Under previous GAAP, investment property was disclosed under non current investment which is now shown as per Ind AS under investment property.
- (c) Under previous GAAP, current investment were measured at cost or net realisable value whichever is lower. Under Ind AS 109, investment in equity instruments are classified as FVTPL. On transition to Ind AS, these financial assets have been measured at fair value which is higher / lower than cost as per previous GAAP.
- (d) Under Ind AS, security deposit given against operating lease are presented at fair value by discounting it taking lease contract period and the differential amount has been treated as advance rentals to be amortised as rent over lease period.
- (e) Under previous GAAP, dividend recommended by board of directors on equity shares for the reporting period while approving financial statement, subject to its approval by members in general meeting, was being recognised in the financial statements as a liability. Under Ind AS, such dividends are recognised as liability when declared by the members in a general meeting.
- (f) Under previous GAAP, actuarial gains and losses were recognised in the statement of profit and loss. Under Ind AS, the actuarial gains and losses form part of remeasurement of net defined benefit liability / asset which is recognised in other comprehensive income in the respective periods.
- (g) Under previous GAAP, upfront fees paid to the lenders is charged to statement of profit and loss as and when incurred. However, Ind AS - 109 "Financial instruments" requires long term debt to be recognised at amortised cost and upfront fees are charged on the basis of effective interest rate method.
- (h) Under previous GAAP, property, plant and equipment was capitalized net of duty saved amount under EPCG scheme. Now, as per Ind AS it has been capitalized and deferred govt. grant is credited under current and non current liability.
- (i) Under previous GAAP, the company had revalued freehold land, leasehold land, building and certain plant & machineries. Under Ind AS, the company has elected to apply Ind AS retrospectively to arrive at carrying value of all of its property, plant and equipments, except land, as of April 1, 2016 (transition date). Land have been valued at fair value as of April 1, 2016 (transition date).
- (j) The Company has given financial guarantee on behalf of Vadilal Enterprises Limited. The Company does not charge any amount for the guarantee provided. Under Ind AS, fair value presentation has been done for the notional commission earned on corporate guarantee given on behalf of Vadilal Enterprises Limited.

- (k) Consequent to adoption of Ind AS from April 1, 2016, deferred tax at applicable rates has been recognised on effect of Ind AS adoption and transition on retained earnings as at April 1, 2016 and on impact on profit for the year ended March 31, 2017 for the adjustment carried out in the statement of profit and loss.

Under previous GAAP, MAT credit entitlement was classified as other non-current assets. Under Ind AS, MAT credit entitlement is considered as part of deferred tax component.

**Appendix B to Ind AS 21, Foreign currency transactions and advance consideration**

On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency.

The amendment will come into force from 1 April 2018. The Company is evaluating the requirement of the amendment and the impact on the financial statements. The effect on adoption of Ind AS 21 is expected to be insignificant."

**Ind AS 115 - Revenue from contracts with customers**

The Ministry of Corporate Affairs (MCA), on March 28, 2018, notified Ind AS 115, Revenue from Contracts with Customers as part of the Companies (Indian Accounting Standards) Amendment Rules, 2018. The new standard is effective for accounting periods beginning on or after April 1, 2018. The Company is evaluating the disclosure requirements of the amendments and its effect on the financial statements.

**NOTE - 50** Previous years' figures have been regrouped and rearranged wherever necessary to comply with requirement of Ind AS.
